

The YOAKUM COUNTY REVIEW

VOLUME 30

PLAINS, TEXAS, THURSDAY, JULY 21, 1960

NUMBER 29

Rodeo opens here Thursday

\$50 GIFT CERTIFICATE was awarded to Mrs. John Anderson Tuesday by Mrs. Dortha Gray. The certificate was drawn during the opening of Mrs. Gray's new dress shop, Dortha's Style Shop.

The seventh annual Yoakum County Rodeo opened Thursday night in Plains at the local rodeo area. A crowd of 600 were expected to be on hand for the first night's performance.

The weekend's activity was launched Thursday afternoon with a parade down the city streets. Prizes for the most ugly and the most handsome was an electric razor and a shaving kit was awarded in the junior division.

A large crowd is expected at the Friday and Saturday night's performance. Extra seating has been arranged to take care of the capacity crowd. An added attraction for the rodeo fan will be a quadrille. The quadrille will be given at each performance.

On Saturday the winner of the Queen's contest will be named. The girls entered have been busy selling charees on a Shetland pony which will be given away at the same time.

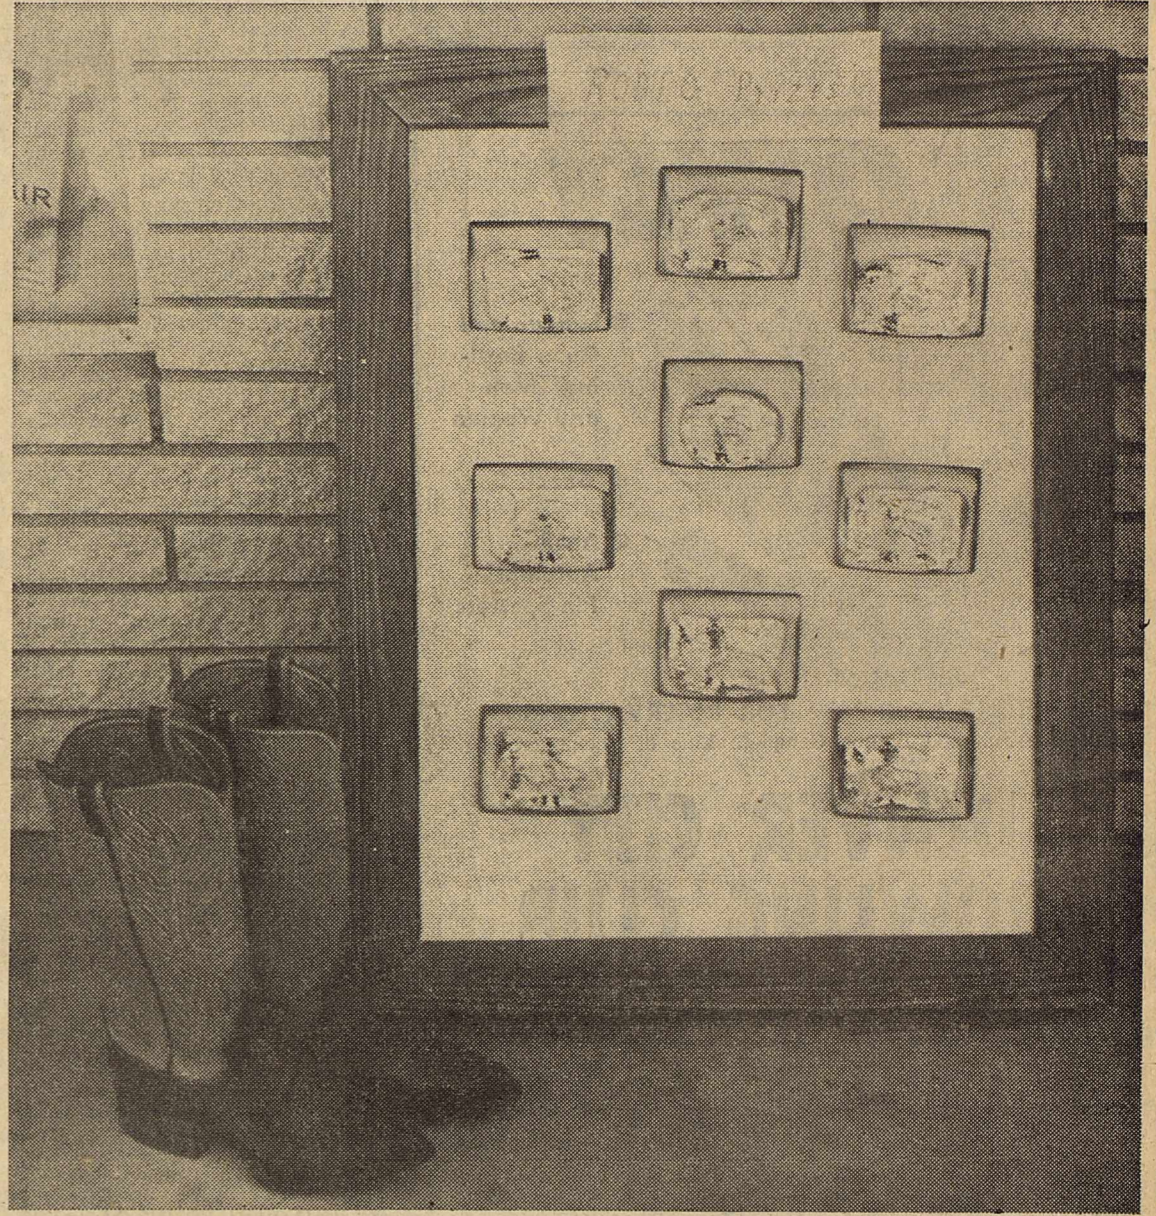

Each night's performances will include bull dogging, bareback riding, saddle bronc riding, bull riding, team roping, calf roping, and open ladies' barrel races. Entrants are expected from throughout the

South Plains.

All the events will be jackpot with belt buckles awarded in each event. Those donating the belt buckles to be awarded are Wilmeth Oil, bull riding; The Elsorita Shop, barrel races; Gene Bennett and Gene Payne, team roping; Cowboy Grill, bareback riding; Dick McGinty of Plains Frozen Foods, bull dogging; D. O. Winkle of Goodpasture, saddle bronc; The Yoakum County Review, Queen runner-up award, and Cogburn Young, calf roping.

On Saturday noon the annual barbecue will be held in Starford Park. Tickets will be sold and the admission price will include Saturday night's rodeo performance. Adult tickets are \$1 and children under 12 will be 50c. Tentative plans call for the serving tables to be set up in the center of the park.

Donators of beef for the barbecue include Murphy Luna, Gene Bennett, Rusty McGinty, Ty Field, Sherm Henard, J. C. Keller, and Bill Harris Powell. The menu will include barbecue, red beans, potatoe salad, and the trimmings. The Roping Club will handle the barbecuing.

DISPLAY OF AWARD BUCKLES and boots which will be awarded Saturday are on exhibit at Curry-Edwards Pharmacy. The buckles were donated to the rodeo group by Plains merchants and businessmen.

Assembly of God Bible School deemed success

The Vacation Bible School held at Plains Assembly of God Church last week was deemed a success, both from the viewpoint of attendance and the work accomplished, according to Pastor E. L. Witt and his staff of workers.

They were about 48 registered with a daily average of 41 in attendance. The Intermediate group made planters; junior girls

made lovely eggshell plates; junior boys built bird houses and feeder boxes; and the younger groups did paper work and put deces on plaques.

Rev. E. L. Witt served as General superintendent and "general handyman". Teachers were: Mrs. E. B. Parker, intermediates; Mrs. Fred Lowrey, Juniors; Mrs. R. C. Watney, primaries; Mrs. Clois Massey, beginners; Mrs. E. L. Witt, crafts; and Mrs. C. A. Witt, music. Helpers were Mrs. Delbert Burt and Miss Jean Burt. Secretary-treasurer of the school was Miss Mary Willis.

Refreshments were served each day by Mrs. Joe Willis, Mrs. Jim Burt and Mrs. A. B. Huddleston.

A very inspiring commencement program was rendered Friday evening at the church with all departments participating.

RILEY JOHNSON INJURED

Word was received Thursday by Mr. and Mrs. Gene Johnson that their son, Riley, was injured in a truck accident near Fort Stockton Tuesday. Riley, a member of a sismograph crew, was a passenger in the truck. He received multiple bruises and sprained joints and muscles. He was taken to a Fort Stockton hospital where he was confined until Thursday. Luckily he received no broken bones or internal injuries when pinned in the vehicle. He returned to work this week.

Services held for Patricia McAnally

Funeral services for Patricia Jan McAnally, 2-year old granddaughter of Mr. and Mrs. E. O. Winkles, were held at 3:00 p.m. Wednesday in First Methodist Church, Littlefield.

Rev. Harry Vanderpool, pastor of Snyder Methodist Church, officiated, assisted by Rev. Alvy Cockrell, pastor of the Littlefield church. Burial was in Memorial Park Cemetery, Littlefield, under direction of Hammons Funeral Home.

The tot, daughter of Mr. and Mrs. John W. McAnally, died at midnight Monday in a Littlefield hospital. She had been sickly all of her life.

Besides the parents survivors include two sisters, Debra Kay and Linda Dianne, of the home; and grandparents, the Winkles of Plains and Mr. and Mrs. L. W. Hoffpau of Clarrette, Texas.

Texaco swabbing Devonian at wildcat

Texaco Inc. is preparing the swab the Devonian at No. 17-B Mrs. Annie Miller, South Yoakum County wildcat, two miles northwest of Denver City.

Operator perforated an interval between 9,590 and 9,560 feet in the Devonian after squeezing perforations at 9,660-70 feet. That interval yielded 20 barrels of acid water in six hours of swabbing.

Texaco perforated that interval after squeezing off a one-foot perforated section at 9,708 feet which yielded no new oil.

Other zones showing for possible production in the wildcat were the Wichita-Albany at 8,435-508 feet and the Wolfcamp at 8,662-810 feet.

The test is surrounded by San Andrews production in the Wasson field and is six miles southeast of Wolfcamp production in the southwest portion of the Wasson area.

The venture is 760 feet from south and 660 feet from east lines of section 862, block D, John H. Gibson survey.

Shell Oil Corporation No. 1 Kleiner is drilling at 7,800 feet in Central Yoakum County, six miles east of Plains.

The 9,600-foot wildcat is 660 feet from south and west lines of section 436, block D, Gibson

survey.

Mrs. Alton Billings is postmistress

Mrs. Wanda Sue Billings received a notice of her appointment as postmistress of Bronco, Texas this week with her commission effective July 11.

In part, Postmaster General Arthur E. Summerfield's letter read: "It is a pleasure to notify you of your appointment as postmaster. I congratulate you upon your appointment. It, of course, carries with it not only an opportunity for important public service, but an obligation to adhere strictly and faithfully to the postal laws and the regulations of the Department."

Mrs. Billings, a graduate of Plains High School, has been acting postmistress since February 1959. She and her husband Alton own and operate Billings Superette and the Texaco Station at Bronco. They have one daughter, two and one-half years old Lavonda Kay.

Amerada Petroleum Corporation No. 1 Bedford is making hole below 7,800 feet.

The project is 1,980 feet from west and 2,010 feet from south lines of section 183, block D, John H. Gibson survey.

The Brahoney field, six miles southwest of Plains, has gained a new well and a new test location.

Texaco-Seaboard Inc. completed No. 90 M. Nelson and others on the pump for 67.88 barrels of 32.2-gravity oil daily with a gas-oil ratio of 95-1.

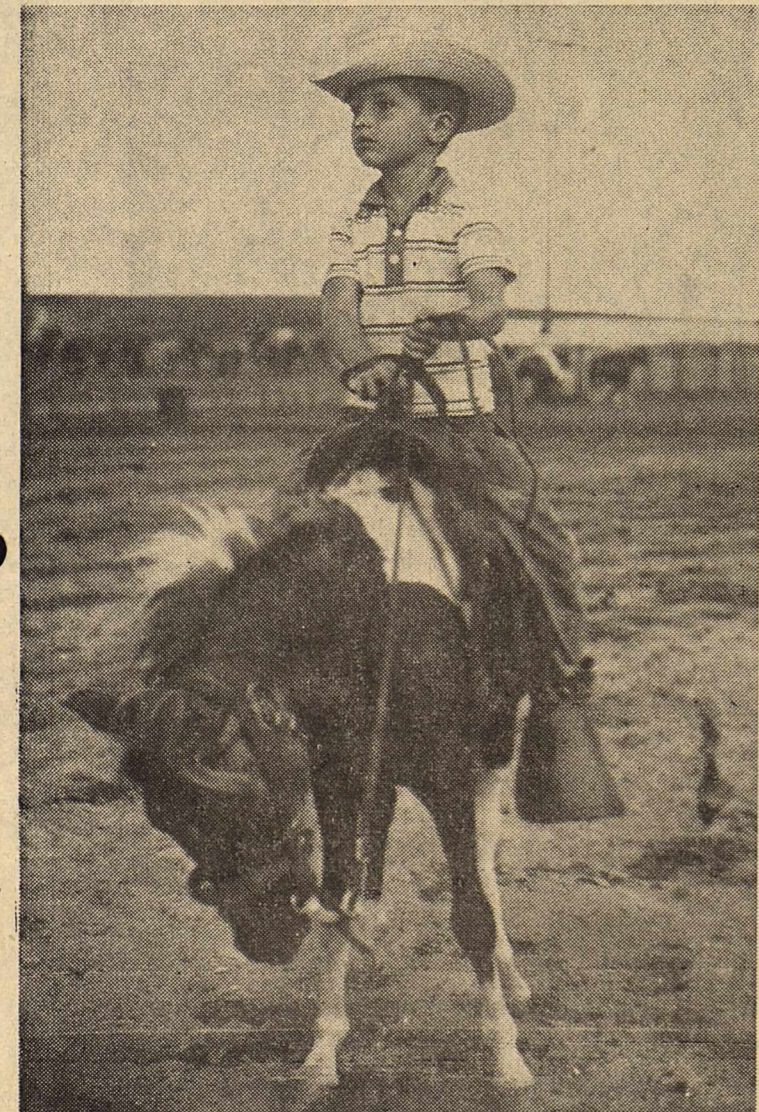

Pay was from perforations between 5,242 and 5,288 feet after being fractured with 10,000 gallons and acidized with 1,000 gallons.

The well is 2,316 feet from south and 2,024 feet from east lines of section 474, block D, Gibson survey.

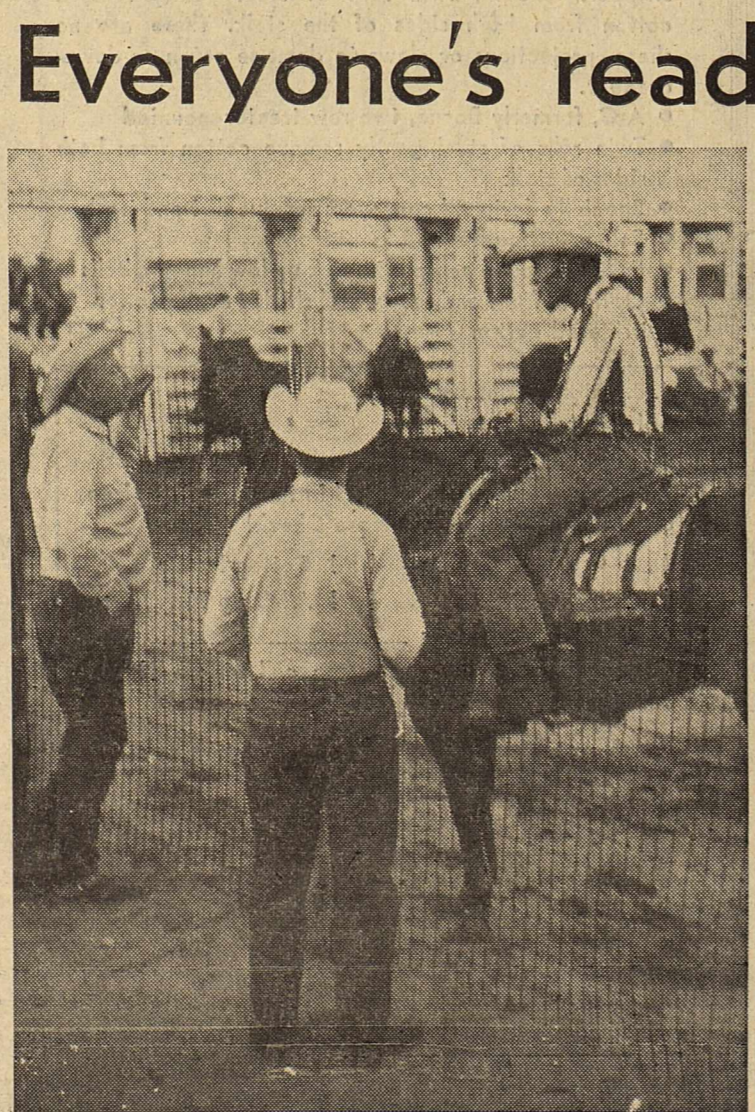

New location is H. Garrett Oil Company of Midland No. 3 A. L. Moore and others. The 5,400-foot test is 660 feet from south and east lines of section 473, block D, Gibson survey.

Other new Yoakum County wells are R. H. Fulton and Company No. 2-A Farmer and Shell Oil Company No. 2 B. L. Gilstrap.

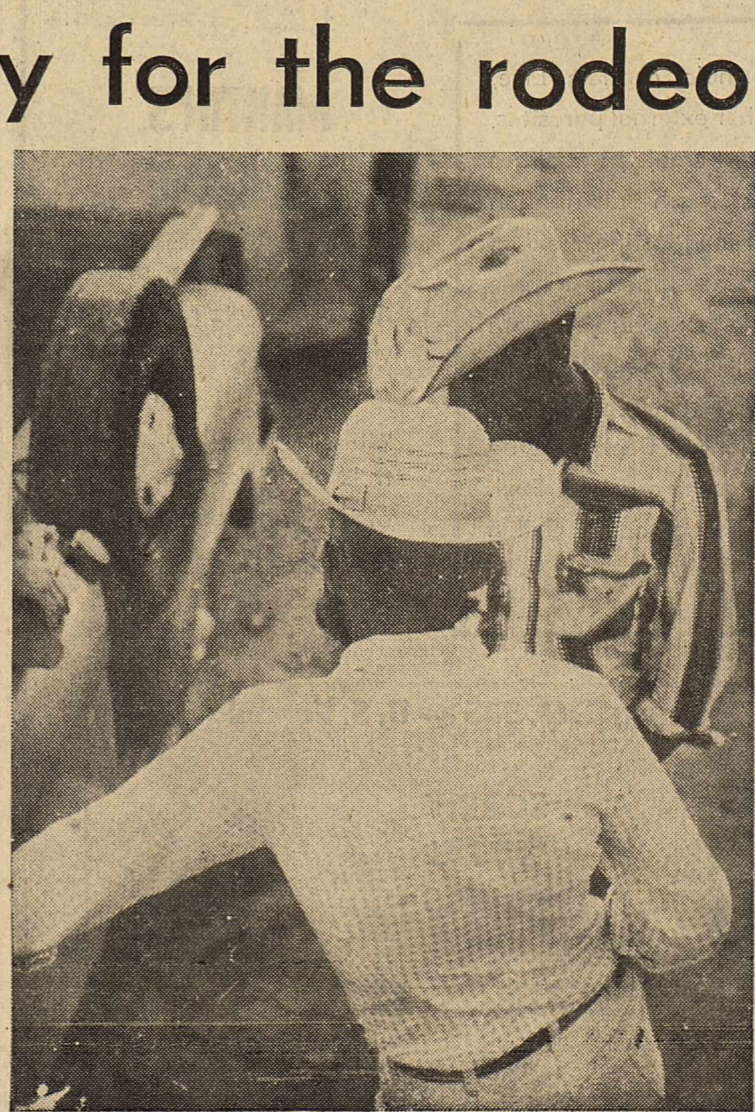

No. 2-A Farmer is in the Wasson area. See OIL NEWS on page 6

Everyone's ready for the rodeo

ACROSS THE CATTLE GUARD
by LEO W. WHITE
County Agent

Twenty head of 4-H beef calves came in last Saturday morning for the July weigh day. D'Lynn McGinty had the high gaining calf for this month. D'Lynn is feeding three calves this year. Two of them were purchased from Mr. Terrell Christian of Claude, Texas and the other one came from the McGinty Ranch. It was the McGinty bred calf that was the high gainer. He had put on 165 pounds since the beginning of the contest eight weeks ago. The calf is gaining just a trifle under three pounds a day.

D'Lynn not only walked away with the lead but she also had the second place as well with one of the Christian bred calves. This calf had gained 157 pounds during the 56 day period. In third place this month was Marsha White whose calf had gained 154 pounds followed by Roger McCray, 151 and Mike Loe 149.

Twelve of the calves weighed last Saturday were animals that failed to appear at the June weigh day. Fifteen of the 51 calves on feed have not attended either of the monthly weigh days. There may be some real fast gaining animals in this group that has not been weighed. Kenneth McGinty who had tied for first place last month, was not at the weigh day. His calf gained 89 pounds during the first four weeks and if he gained 77 pounds during the last 28 days he would be one pound out in front of D'Lynn.

The calves seemed to be doing very well in spite of the hot weather in the last of June and the wet weather in early July. Following the wet weather the boys and girls will need to give special attention to the control of flies and mosquitoes. Some

Erection of new co-op gin at Tokio making progress

Erection of the new gin plant of Tokio Farmers Cooperative Society is making progressive headway after a week's slow-up due to the heavy rains that fell in that area two weeks ago. The plant is located one mile west of the Yoakum-Terry County line and south of the Plains-Tokio highway, across from the Lyntegor Electric Coop booster plant.

Director of the cooperative adopted in March 1960 are C. C. Perkins, I. L. Smith, I. W. Bailey, T. J. Beard, I. W.

newly developed materials will do a good job of controlling insects. The most improvement has been made in dry baits. It is sometimes advisable to use sprays or dusts but dry baits are recommended because they cannot cause contamination if properly used.

Some insecticides will be absorbed by the body of the animal and are considered unsafe for human consumption unless a required waiting period has elapsed between the time of application and the time of slaughter. This period is not usually longer than 60 days or dust at treated with a spray or dust at this time of the year should not be slaughtered before the latter part of September. Our 4-H calves will not be slaughtered until February but a situation could arise that would make it necessary to slaughter some of them at an earlier date. When dry baits are used for fly control, the animals can be slaughtered at any time without contamination of the meat.

When 51 calves are or, full feed it is a hard matter to get them all to finish the feeding period. Bloat is the biggest problem and each year some calves have to be sold because they are chronic bloaters. Occasionally one is sold because he is naturally a poor doing animal or he has a bad disposition. This type of culling is one thing that makes a good show. Most of the boys and girls would rather sell their animal before the show than to bring one to the show that they cannot be proud of.

In looking over the calves at the monthly weigh days and also seeing some of them at the home, there are no calves in the group this year that show signs of being culls. There are a few that are not properly tamed and some effective training work will have to be done if they show up well next February.

Mr. and Mrs. D. N. Taylor and sons, Jimmy, Billy and Bobby, returned home Monday from a two-week vacation spent in Oklahoma, Mississippi, Kentucky and other Central states. Mr. Taylor was a delegate from the local Lions Club to the National Convention held in Chicago, so they enjoyed many scenic attractions there.

Lovelace, A. O. Pippin and C. L. Buchanan. Amos Smith has been employed as manager of the gin.

A well was drilled for the water supply several weeks ago. Wall structure went up last week with concrete work under way this week. Installation of machinery will begin in the very near future, according to representatives of Continental Machinery Company.

Foundations for three residential units will be run early next week, members of the board report, with Manager Smith and his family and two ginners and their families to move in as soon as the units are completed.

The Smith will be at home there having lived in the Tokio

community a number of years prior to moving to Plains in 1950. Their sons, Olan and Gary Joe, will continue school here, as will Gene Walker, son of Mr.

and Mrs. Earnest Walker, who is a third grader. Mr. and Mrs. Doyle Lewaller, and Gary are to be occupants of the third unit. Merle Todd and Don Williams

have been hired to begin work within the next few weeks with others to be employed as soon as construction work necessitates more workers.

COOKE'S VETERINARY SUGGESTIONS

Martin's SUPER STOCK-TOX

This new improved formula controls Lice, Ticks, Horn Flies, and other external parasites. Kills fast and has excellent emulsion qualities which assures even strength distribution throughout spraying. Its long-lasting residual effect protects against reinfestation for three to six weeks. Super Stock-Tox gives you more profit at less expense. **One half-gallon will make 100 gallons of finished spray.** when mixed with water or ten gallons of Back Rubbing Oil when mixed with Kerosene or Diesel Fuel. Sizes: Pints, Quarts, 1/2 Gallon, and 5 Gallon cans.

MARTIN'S BOMBANE

Kills screw worms, penetrates deeply to reach larvae and fleece worm. Promotes healing and prevents reinfestation. Controls ear ticks. One push of the finger and the job is done—NO DAUBER—NO MESS.

SMEAR 70

The ideal wound dressing for the stockman who has a complete screw worm program. SMEAR 70 contains 3 per cent lindane and will kill screw worm fly when it lights on the wound or the larvae.

ALLIS-CHALMERS HARVESTING MACHINERY

SALES SERVICE

NOW COMES THE Big C

New GLEANER Combine

- Big Capacity throughout!
- 18 — 16 — 14-foot headers
- 8,311 square inches of separating area
- 60 - bushel grain tank

Planetary final drive gears for smoother forward motion, Less slippage.

COTTON STRIPPER

The famous A-C two-row, tractor-mounted cotton stripper. Smooth, twin rolls of steel gently remove cotton from both sides of the stalk. There are no sharp projections or claws to damage cotton or downgrade it.

- A-C, formerly Boone, two-row tractor-mounted
- Twin rolls of steel gently remove cotton from both sides of stalk
- Specially designed conveyors remove dirt and trash
- Self-adjusting from 38 to 40 inches
- Follows ground contour to pick up low hanging bolls
- Optional front and rear wheel shields available for irrigated cotton

CHOICE OF SPINDLES

with new **MODEL 500 2-ROW** cotton picker

You can have your choice of spindle!

- Tupelo recessed barb, chrome plated.
- Standard fluted, cadmium-plated

Barbed or fluted, pick the type best adapted to your cotton, your farming practices, local ginning equipment, etc. Both are aggressive to fiber but not to trash, strip clean without "picker twist."

You can get this on the new Model 500 2-row Allis-Chalmers Cotton Picker. For smaller acreage, ask about the A-C one-row Cotton picker.

NEW, Silver Anniversary Model 72 ALL-CROP Harvester

NEW MODEL 72

It's here, now, the new Model 72 ALL-CROP HARVESTER for added convenience and capacity in pull-type harvesting equipment. New header is 6 1/2 feet big, with new multi-finger auger feed.

Ask us about the Allis-Chalmers plan to finance your time purchase of farm equipment!

Cagle-Huff vows said

Miss Geneva Cagle, attractive daughter of Mr. and Mrs. W. L. Cagle of Morton, became the bride of Kenneth M. Huff, son of Mrs. Carrie Huff of Maple, at 7:00 p.m. Saturday, July 16 in the Plains First Methodist Church parsonage with the pastor, Rev. R. H. Meixner, reading the impressive double-ring ceremony.

Miss Nancy Cagle of Morton was her sister's only attendant and Edward Dubrea, also of Morton, was Mr. Huff's best man. Guests were mothers of the

bridal couple and the groom's brothers, Leon of Tokio and Eugene of Morton.

A reception was held in the farm home of the newly-weds near Tokio. The table was laid with pink net over brown faille centered with an arrangement of garden flowers and adorned by a four-tiered wedding cake and appointments of crystal and silver. Multi-colored garden flowers were used throughout the house. Wedding cake and punch were served to relatives and friends.

Following a short wedding trip, Mr. and Mrs. Huff are at home on their farm.

Stanford HD club meets in clubroom

Mrs. Charles Williams was hostess to Stanford Valley Home Demonstration Club Thursday afternoon in the County Clubroom.

President Mrs. Jim O'Neal presided for the routine business. Mrs. John E. Fitzgerald gave the T.H.D.A. and council report.

Due to Mrs. J. P. Robertson being unable to give the demonstration as planned, Mrs. Fitzgerald presented the program on "Flower Arrangements". Emphasizing the use of what we have and the proper container to use, Mrs. Fitzgerald made four lovely arrangements from flowers from her own garden.

Refreshments of Cake and iced tea were served to Mesdames Jack Palmer, Preston Murphey, Bruce White, O'Neal, Fitzgerald and the hostess.

Miss Sue Cooper returned home Monday after spending the past two months visiting relatives and working at Spearman.

 Cadet Larry D. Wills, son of Mr. and Mrs. Joseph Wills of Tokio, is receiving six weeks of training at the Army Reserve Officer Training Corps summer camp at Fort Hood, Texas.

During this training, scheduled to be concluded July 29, Cadet Wills is acquiring practical experience and instruction in tactical, technical and administrative subjects, with special emphasis being placed on the duties of a second lieutenant.

Wills, a 1957 graduate of Kermit High School, is a student at Texas Tech, Lubbock.

SIDE-DRESSING TIME

There Is a Difference in Fertilizers
TRY
Liquid Fertilizer
 And You'll Know What We Mean

Irry Farmer Averages Over 2 Bales . . .

VERNON FARRAR — "Yes, sir, side-dressing really paid-off for me last year," reported Vernon Farrar, who farms northwest of Brownfield. He added: "I had 50 acres of cotton on which I gathered 124 bales, and then I had some land that wasn't too good from which I got 167 bales. I am a firm believer that you need to give the plants nutrients when they are hungry — that's why I side-dress. Another thing — when you use Liquid Fertilizers, as I do, you reap additional benefits from the fact that it's easier to handle . . . I get faster results from it being a liquid and ready to go to work instantly and I can put down more acres per day and cultivate my cotton at the same time. Liquid Fertilizers have helped me to put more money in the bank in the form of net profits."

Once you have tried, you, too, will see why so many farmers have changed to Liquid Fertilizers. The versatility of this type of fertilizing — you can do more than one job at a time: Fertilize . . . cultivate, and even apply insecticides. . . all in one, easy operation. Go by your nearest Liquid Fertilizer dealer and let him tell you more about the advantages of LIQUID FERTILIZER!

Rainfall causes shedding of farms, report on insect situation reveals

Rainfall during July, which ranged from six to 15 inches on the South Plains, has caused some shedding of farms in many fields of cotton according to the weekly Cotton Insect Situation Report issued by Texas A&M College System.

The report states that such weather conditions have delayed cultivation as well as the application of insecticides in areas where insect infestations were sufficient to require control.

Thrips have ceased to be a problem in counties reporting, since all reports were of light populations except in Mason County, which had medium infestations on cotton in some fields.

Fleahopper infestations increased in many fields in some localities, with rather heavy

hatching following the heavy rains. Populations were heaviest on the earlier planted cotton. The report urges farmers to watch cotton closely for fleahoppers and excessive loss of tiny squares, which indicate damage by the insects.

Bollworms were reported in light infestations in five counties and medium infestations were reported in three others. In most instances the populations were of recently deposited eggs, with occasional fields showing hatching. With favorable weather conditions for activity of this insect, fields should be closely watched for both eggs and damaging numbers of small worms.

Boll weevil infestations were reported sufficiently heavy to warrant control in some fields in Fisher, Jones and Mason counties. Cabbage loopers were reported in light infestations in occasional fields. Garden webworms required control, along with grasshoppers, in Hale County. Grasshoppers damaged some small cotton in Garza, Mason and Throckmorton counties.

Cotton farmers are urged to consult the Texas Guide for Controlling Cotton Insects for control recommendations. The pamphlet is published by Texas Agricultural Extension Service and is available from County Agent Leo White.

THE STATE OF TEXAS

TO: EVELYN HAYES

GREETING:
You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 15 day of August, A. D., 1960, at or before 10 o'clock A. M., before the Honorable District Court of Yoakum County, at the Court House in Plains, Texas.

Said plaintiff's petition was filed on the 19 day of May, 1960.

The file number of said suit being No. 1781.

The names of the parties in said suit are:

Erdie Franklin Hayes as Plaintiff,

and Evelyn Hayes as Defendant.

The nature of said suit being substantially as follows, to wit:

Suit for Divorce by reason of cruel and harsh treatment and improper conduct of defendant toward plaintiff.

Issued this the 28 day of June, 1960.

Given under my hand and seal of said Court, at office in Plains, Texas, this the 28 day of June, A. D., 1960.

(SEAL)

NEW GRANDSON

Congratulations to Mr. and Mrs. J. A. Rushing Jr. of Lubbock on the arrival of another son, Cecil Jay, weighing 7 lbs. 2 ozs., July 10 in Methodist Hospital. He is welcomed by a brother, three and a half year old Mike and grandparents, Mr. and Mrs. J. A. Rushing and Mrs. Thelma Ellis. All of Plains.

Mr. and Mrs. Don Sutton and children of Omaha and Miss Mary Daniels of Oswego, Kansas are guests of their parents, Mr. and Mrs. H. H. Daniels of Mac Theatre, and a brother in Denver City. Mrs. Daniels is a patient in the Yoakum County Hospital.

THE YOAKUM COUNTY REVIEW

JERRY M. SMITH, Managing Editor

Entered as second class matter at the postoffice in Plains, Texas, under the Act of Congress of March 3, 1879.

SUBSCRIPTION RATES:
 \$3.00 per year in Yoakum County; \$4.50 Elsewhere

Plains, Texas, Thursday, July 21, 1960 Page 5

AUSTIN, Tex. Although budget balancing is the most discussed of the problems facing the next Legislature, many lawmakers expect redistricting wrangles may raise more pressures.

Legislature is required by the Constitution to re-define legislative districts after each federal census. It used to put off this troublesome task, but a 1948 law provides that if it fails to act in the first session after a census, a Legislature Redistricting Board shall take over.

This insures, as it did in 1951, that the Legislature will redistrict — somehow, some way.

Battle will be between big city delegations who will demand more representation in line with their swelling populations and rural members who will try to hold on to as much as they can.

In their election campaigns, many representatives promised their constituents they'd be in there pitching for the home area. Members from growth areas, said they'd go after extra representatives, state senators and congressmen.

A rural legislator told his people, "At least twelve rural districts will disappear in the next redistricting. I certainly do not want this district included in that twelve."

Incumbents cited their experience as an asset. Personal feeling often enters into redistricting, and lawmakers are notably reluctant to "squeeze out" a popular and respected senior colleague by erasing his district.

HOME INSURANCE CUT — Beginning August 1, premium rates on certain types of homeowner's insurance policies will be cut 10 percent.

State Insurance Board announced the new lower rates would apply to the "homeowners package" policies which account for about 80 per cent of the home coverage sold in Texas.

Reductions were made possible because insurance companies have had a relatively low ratio on the package policies, first introduced about three years ago.

CREDIT RATE EYED — Board of Insurance also is considering a further lowering of credit insurance rates.

Many loan companies require borrowers to take out insurance payable to the loan company in case something happens to the borrower before he repays.

Two years ago the Board cut in half the rates that could be charged for credit insurance. It was charged that loan companies were making excessive profits on loans through the insurance.

Board says that even now rates seem high, with losses running 27 per cent of premiums paid in. If losses run less than 50 per cent of the premiums, rates are considered too high.

NO ROAD PROBLEM — Stiffered federal road inspections pose no problem to Texas, says State Highway Engineer DeWitt C. Greer.

New federal standards are no tougher than those Texas has insisted on all along.

Scandals stemming from misuse of federal road building money in other states has caused the Bureau of Public Roads to tighten its inspection requirements. Greer said the new federal approach will necessitate no change in Texas procedures.

Texas who have been motor-ing cross-country during their summer vacations will not find this hard to believe. So notice-

ably superior are Texas roads to those of surrounding states that returning Texans usually give a sigh of relief when they cross the state line.

SPEAKERS' BATTLE BOILS — Candidates for Speaker of the House continue their months long battle of "claimsmanship."

Rep. Wade Spilman added five to his list of House members pledged to support him and said this gave him a "rather conclusive" lead. Rep. James Turman of Gober claims a definite majority of 79.

Votes of 76 of the 150 House members are needed to elect.

Spilman also has invited the House General Investigating Committee to look into charges that members were being subjected to improper pressure on how to vote.

COLLEGE FUNDS SOUGHT — Texas Commission on Higher Education will ask the next Legislature for an appropriation of \$3,082,183 for the 1961-63 biennium.

Bulk of the increase asked is for meeting expected enrollment increases in the 18 state-supported colleges and universities.

In a discussion, with members of the State Finance Advisory Committee, the Commission considered recommending an increase in state college tuition charges — now \$100 for a nine months term. Dr. Ralph Green suggested raising this by \$50. It would bring the state an extra \$5,000,000 a year in new revenue, he said.

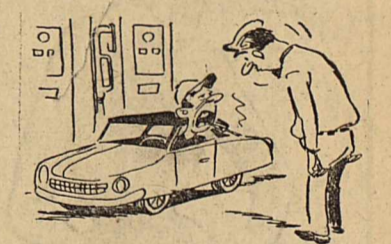

Mr. and Mrs. Tommy Riggs and little daughters of Midland were guests of his mother and family, Mr. and Mrs. Joe Kennedy, several days last week.

Mrs. J. E. Young and children of Fort Stockton are visiting her parents, Mr. and Mrs. W. M. Overton.

D. I. Sink, accompanied by his sons, Jere and Mike, attended the 63th wedding anniversary celebration of his parents and reunion of some 150 members of their families and friends at Fort Cobb, Oklahoma the weekend of July 12.

Rodeos are newcomers in sports field

Rodeos as we know them today are relative newcomers to the world of sports. It was first originated in the form we recognize today around 1880. It soon spread to all the country west of the Mississippi and into Canada and the eastern part of the states.

The first rodeo held was in an open field in Pecos, Texas on July 4, 1883. There were no prizes awarded and the cowboys made wagers themselves.

The first contest for which an admission fee was charged and prizes were awarded was in Prescott, Arizona Territory on July 4, 1888. The first indoor rodeo was held in the stockyard coliseum at Fort Worth in 1917.

The first World Series Rodeo was held in 1926 in Madison Square Garden, and later when

the Garden was completed in 1929 the name of the event was changed to World's Championship Rodeo. This has become the mecca of all rodeo performers and it tops all similar events in prize money and attendance.

In the beginning there were no rules particularly and it was not until 1929 that the Rodeo Association was formed. Early records show that in cowboys raced to see who could be the first in pulling off the heads of chickens that had been buried in the ground with only the head

New law effective regarding cattle crossing highways

The Texas Department of Public Safety reminded Texas cattle owners today that a new law went into effect July 1 aimed at controlling livestock on designated US and state highways.

The new law makes it illegal for a person knowingly to permit his domestic livestock to roam at large and unattended on state and federal highways. It applies regardless of whether or not the highway right-of-way is fenced. Maximum fine for such violation is \$200, and each day the violation occurs may be considered a separate offense.

Farm to market roads are excepted from the law. The new law also gives law enforcement officers the authority to have such livestock picked up, when unable to locate the owner, and turned over to the sheriff or constable in the county.

The law does not prohibit the driving or herding of livestock across or along highways. It is to enforce provisions of the act without a warrant.

Col. Homer Garrison, Jr., director of the Texas Department of Public Safety, said state patrolmen will enforce provisions of the law in an effort to reduce the traffic hazard caused by animals on designated state and US highways. He said that during the year 1959 a total of 1406 rural traffic accidents occurred in Texas involving animals of all types. In these accidents 216 persons were injured and 4 persons were killed.

Friends here will be happy to know that Mrs. Jo Brown, who until July 1 had been home economics instructor in Plains High School the past eleven years, has been named instructor in the junior high home economics department of the Gatesville, Texas schools. Mr. and Mrs. Brown purchased a farm near that city early this year.

Oil news

(Continued from page one)

son area finalized for 44.11 barrels of 32-gravity oil daily plus 15 per cent water.

Production was pumped from perforations between 5,227 and 5,262 feet after being fractured with 10,000 gallons. Gas-oil ratio was 450-1.

It is 1,650 feet from south and 330 feet from east lines of section 635, block D, Gibson survey.

In the Onwyn (upper Clear Fork) field eight miles east of Plains, Shell No. 2 Gilstrap had a daily pumping potential of 159 barrels of 33.3-gravity oil plus 12.2 per cent water.

Oil was from perforations between 6,650 and 6,857 feet which had been fractured with 15,000 gallons. Gas-oil ratio measured 378-1.

It is 1,980 feet from north and west lines of section 487, block D, Gibson survey.

R. H. Fulton and Company of Lubbock has staked the No. 2-B Keller in the Chambliss (San Andres) field, seven miles southwest of Plains.

The scheduled 5,500-foot test is 660 feet from north and 1,170 feet from east lines of section 541, block D, Gibson survey.

Drilling activity drops in county, six rigs counted

Rotary drilling activity in Yoakum County took another dip last week, according to the weekly survey of active units conducted by Reed Roller Bit Company of Midland.

During the week ended on July 15 there were six units counted in the county, compared with eight the previous week. Drilling in the county has dropped the past three weeks, after reaching a peak of 10 three weeks ago.

Drop in total rigs in the county was in line with a general drop throughout the Permian Basin during the week. Last Friday there were 205 rigs counted, compared to 224 one week earlier and 370 at the same time last year.

Lea County, N. M., with 25 active rotaries, compared with 32 last week, continued to lead the Basin. Andrews County counted 24 rigs, Eddy County, N. M., reported 22 rigs making hole and Midland County jumped into fourth place in the basin with 15 rigs working.

Gaines County, holder of fourth place for two consecutive weeks, dropped from 16 to 10 rigs in the latest count. Terry County reported one rig last Friday, compared with none the previous week.

Mr. and Mrs. Amos Smith and Gary, accompanied by Mrs. Duane McDonnell and Pam, were guests of their son, Mr. and Mrs. Laver Smith and Alton, in Littlefield Sunday.

Mr. and Mrs. Clayton Guest, Mr. and Mrs. Wayne Chadwick and daughter Debbie visited their mother, Mrs. J. L. Guest, who has been quite ill at her home in Dallas. The guests returned home Sunday while the Chadwicks remained for a few days to assist with her recovery.
