### Carbon Begins School Year Monday; Grid Work Starts

Carbon schools opened on schedule Monday morning with assembly in the auditorium. Following the announcements made by Supt. Travis Spence concerning the coming school year, Rev. Bobby Roe, pastor of the Baptist Church, made a brief talk to the students and a large group of patrons who had assembled for the opening. Students then went to their classes where lesson assignments were made by the teachers and indications are that a very successful school term is now in progress.

The football season will open Saturday, Sept. 7, when the Wolverines meet Mullen here. They have a strong team, but our boys are shaping up under the coaching of Dale Key and are hoping to defeat Mullen in

the opener.

The following boys compose the team this year: Ronnie Pack, back; Dwain Clower, back; J. R. Harle, end on defense; Tim Stacy, q. b.; Bruce Wyatt, center on defense; Danny Hobbs, back; Larry Purdom, end; Jimmy Nelson, center; Alvin Allison, back; Ronnie Hughes, end; Danny Norris, end.

The schedule of games for the season is as follows:

- Sept. 7 — Mullen here.
- Sept. 12 — Open
- Sept. 19 — Sidney, there.
- Sept. 26 — Tolar, there.
- Oct. 3 — Lohn, there.
- Oct. 10 — Open.
- Oct. 17 — Lueders, here.
- Oct. 24 — Moran, here.
- Oct. 31 — Gordon, here.
- Nov. 7 — Strawn, there.
- Nov. 14 — Putnam, there.

### Everyone Is Urged To Use Caution In Road Travel

The Texas Safety Association has issued a special Labor Day safety bulletin urging Texas drivers to display "caution" and "courtesy" in their driving during the long holiday weekend.

"Caution and courtesy can go a long way in cutting down traffic accidents and fatalities during the Labor Day weekend," J. O. Musick, TSA General Manager, said.

The safety director said drivers should put all their driving skills to work for them to stay out of trouble in traffic and should be prepared for the unexpected actions of other drivers. He also urged drivers to start out with a proper driving attitude.

"Your attitude about your own driving and that of other drivers has a profound effect of the possibilities of your being involved in an accident. Treat other drivers the way you want to be treated — with courtesy," he said.

Musick reminded drivers they have a moral as well as a legal responsibility when driving.

"No one really wants to be killed or be responsible for killing another person in traffic. But, for some reason, many drivers seem to think they have a built-in personal immunity to a fatal accident. It just isn't so and it CAN happen."

Mr. and Mrs. C. C. Gilbert visited her sister and husband, Mr. and Mrs. W. O. Richardson, in San Angelo Sunday.

Mrs. Tom Price of Austin and Mrs. Cliff Harter of Plainview visited their sister, Mrs. Wade White, and Mr. White this week.

pen to YOU."

The TSA is cooperating with the Texas Department of Public Safety the Texas Highway Department and other groups in promoting traffic accident prevention during the Labor Day holiday period.

In addition to traffic safety activities, the association is promoting accident prevention programs for holiday safety at home and in public places.

"Non-transport accidents at home and in public places also take their toll during holidays," Musick noted.

He said an unusual number of drownings this summer has given cause for special concern in the area of water safety.

"If you are going to a lake, river or some other body of water, make sure you know the hazards of that particular place before you go in swimming or take your boat out. Be sure you have approved life-preservers for every passenger in your boat and that everyone knows and observes safety rules," he added.

Musick said homeowners should use caution in starting fires for cook-outs. Make sure all fire prevention precautions are taken.

"And don't forget about the persons," he continued. Special attention should be given to removing environmental hazards that might cause falls. These two groups are frequently the victims of accidental falls.

"No matter how you celebrate the holiday or where you are - on the road, at home or at play - put safety first," he concluded. "It's not worth the chance you take if you don't."

### Vets Questions And Answers

Q — Are members of my immediate family eligible for VA hospitalization?

A — Veterans only are eligible to receive care in a VA hospital. First priority goes to veterans with service-connected disabilities; after that Service men without service-connected disabilities who are unable to pay for hospital care.

Q — In a short time, I will retire after twenty years of military service. I desire to go to school under the GI Bill. Am I eligible?

A — It depends on when you received your first unconditional discharge after January 31, 1955. If less than three years have passed since that clear discharge, you are eligible; if more than three years, you are not.

Q — Does the date of my discharge count as far as rehabilitation training is concerned if I have a service-connected disability?

A — Servicemen discharged for physical disability may have eligibility for vocational

rehabilitation training. Approval of such training depends on a number of factors and should be investigated. Ask the Veterans Administration.

Q — Can I have an identification card which I can use to enter any VA hospital?

A — The VA does not issue cards for blanket admission to hospitals. Each admission is on an individual basis.

Q — I want to convert my term insurance to a permanent plan but I've put it off for years because it costs too much to convert \$10,000. What can I do?

A — You can convert part of your insurance in any multiple of \$500 after the first \$1,000. Convert what you can budget now; retain the balance as term insurance until you are able to convert it.

For civilized man, the toothbrush does for the teeth what raw, coarse and massaging foods did for the teeth of primitive man.

It removes the food debris in which the acid-producing bacteria of the mouth thrive.

The function of the toothbrush is to clean the teeth and to help maintain the gums in a healthy condition.

There are three conditions that must exist in the mouth before decay results. These include bacteria, easily fermentable foods like sugars, and sheltered places which maintain the food debris long enough for the bacteria to work on the food and build up acid of sufficient strength to attack the tooth enamel.

The duty of the toothbrush is to interrupt these conditions by removing sugar residue before the decay-producing acids can be formed from them.

Another function of the toothbrush is to prevent deposits of debris, known as tartar or calculus. For a few hours, these deposits remain soft enough to be removed by the brush. But afterward, they become hardened to the extent that a dentist's steel instrument is necessary to scrap them off.

If tartar is left to accumulate, the gum tissue becomes irritated. This can lead to serious disturbances in the gums.

Revenues from sales of natural gas were \$124,328,294, a gain of \$5,427,401 over 1961. A portion of this increase is due to additional customers served and a substantial increase in sales to and revenues from industrial and electric generation accounts.

Dentists emphasize the importance of correct toothbrushing procedures to minimize injury to the gum tissues. Often, vigorous or improper brushing may cause the gums to bleed, but dentists say that there is no harm if this condition continues only a few days.

The word cereal comes from Ceres, the Roman goddess of agriculture.

IT CAN STILL rain. That's the word from Mr. J. E. Hagan, who lives south of Carbon on the Rising Star Highway. The Hagans — Mr. and Mrs. and Lynn and Suzette — returned Saturday night from a visit to Avon Park, Oregon, where their daughter and husband, the Dennis Clowers, live. Mr. Clower is stationed with the U. S. Army.

Mr. Hagan reports that it rained every day during their week's stay and that it was nice and cool. They enjoyed the tour of the west enroute.

### Cisco Jr. College Enrolling Students

A record enrollment for the 1963-64 school year was in prospect for Cisco Junior College today as the registrar's office begin pre-enrolling students for the fall semester. The new year begins officially on Sept. 9.

The optimistic outlook was based on a record number of dormitory room reservations, the number of high school record transcripts already sent in by prospective students, and by the many inquiries that have been coming in from all directions.

Dean, E. W. Mince, who was directing the pre-registering activities, reported that the college has added four new courses to its curriculum, including Data Processing Machines, Organic Chemistry, Anatomy, and Physiology.
