

MOORE Or Less

by Johnnie Moore

Said the little glow-worm, "I sure am embarrassed, I just spent the past half hour talking to the lit end of a cigarette butt."

I think we'd all be a lot better off if all this country's politicians would take their jobs on a piece-work basis.

I just got to wondering if anyone realizes the amount of electrical power the City of Plains donates to worthy causes and projects every year.

The Pony League, Little League, Miniature Golf Course, and other projects are all furnished the electricity without any cost whatsoever by the City of Plains.

In my opinion, this kind of looking toward the betterment of Plains and contributing in this way, especially to the young folks of our community, is to be commended.

I think we owe our city administration a vote of approval for the way city business is being carried on.

I've noticed that around the county several school administrators have stated that they will go right on as usual in the tradition in which they always have held in offering prayers at the beginning of school each term, in allowing the children, on a voluntary basis, of course, to participate in the devotional period, and etc.

I say three cheers for each and every one of them.

I really can't quite foresee some elements of the ruling passed by the supreme court a few days ago being carried out completely and enforced to the fullest extent.

For instance, I just wonder what would happen if the ruling were just completely ignored. Do you really suppose they might put some of us into jail for praying in public? I don't really think so, do you?

\$10 Cash Unclaimed

Yoakum County Federal Credit Union had its first in a series of monthly cash drawings, Saturday June 30th, at Cogburn-Young Hardware. The cash prize of \$10.00 was donated by these fine merchants, and we wish to express our thanks to them for this help in our membership campaign.

The name drawn was Earl Robertson Jr., who was not present and was ineligible for the money.

\$20.00 will be the cash prize next month, when Plains Frozen Food will add another \$10.00 to the existing pot. The drawing will be held Saturday, July 28th, at Plains Frozen Food.

Don't neglect to buy your share in the Credit Union this month, and then be present at Plains Frozen Food for the next drawing.

60.7 Per Cent Bond Sale Goal Reached

Mr. D. P. Moorhead, chairman of Yoakum County Savings Bonds Committee, announced recently that Yoakum County's May bond sales totaled \$12,243. Sales during the first five months of 1962 totaled \$42,469 which represents 60.7% of the 1962 bond sales goal.

Savings Bonds sales in Texas in May were \$11,496,167 and \$64,736,607 in bonds were purchased during the period January through May. 83.6% of the Texas' Freedom Bond Drive goal of \$75,000,000 has been achieved.

"The total amount of E and H Bonds outstanding has reached \$44.8 billion. This is the highest amount of E and H Bonds on record. During the first four months of 1962, the amount of Savings Bonds outstanding had a net gain of \$353 million. As a result of the Freedom Bond Drive, the Treasury Department is confident that the amount of E and H Bonds outstanding will go even higher," Chairman Moorhead said.

Construction Begins On Guetersloh - Anderson Grain Elevator

3 Million Bushel Structure 3rd for Plains

A new grain storage elevator, making a total of three for Plains, is presently under construction just west of Plains on the Lovington Highway.

Guetersloh-Anderson Grain Co., which at present is operating elevators in Levelland, Bledsoe, Smeyer and Wellman, are the owners and operators of the elevator presently being constructed here.

Estimated capacity of the new facility will be approximately 3,000,000 bushels.

Most of the storage will be in what is referred to as flat storage, with also a system of upright tanks to handle the grain. The elevator will have a three-leg handling capacity and will be equipped to handle all kinds of feed grains.

Also, a big-capacity dryer will be featured in the new concern, which, it is reported will dry an estimated 100,000 pounds of grain to the acceptable level per hour.

The Plains facility will be a government-approved storage facility, from which warehouse receipts for stored grain may be issued, or it is also a place for private commercial storage or for the sale of feed grain commodities.

Estimated completion date, reported by Mr. Chris Guetersloh, co-owner of the concern, is to be August 15, at which date the new elevator will be in operation.

MARKING THE DISTANCE . . . is an employee of the company constructing the three million bushel capacity elevator being built for Guetersloh-Anderson Grain Company just outside of Plains.

Child Photo Contest Thursday

Thursday, July 12 is the opening this paper's Child Photograph Contest, and each reader of the Record is urged to have their children here at the offices of the Record on that day, so that they may be entered.

Winston B. Lucas, of Irving, will be in Plains on that day from one to six p.m. for the purpose of taking pictures of the children in this vicinity. In addition to having their pictures printed in the Record, the children will be competing for \$20 in prizes, which are being offered for the three best photographs made during the day.

The photographs will be made absolutely free of charge, and there is no charge for publishing them in The Plains Record. Proofs will be shown and from these you may select the picture of your child which you would like to appear in this newspaper. If you wish extra photographs, they may be purchased, but no purchase is necessary in order to compete for the prizes. It is entirely up to each parent, whether to buy pictures or not.

There is no age limit on the contest, and every child's photograph in this area is wanted so that they may all appear in the Plains Record. However, it is necessary that all pictures be of uniform size, so they must be made by Winston B. Lucas on Thursday, July 12 from 1 to 6 p.m.

Contestants Sought for Junior Rodeo

Entry blanks are now available for the First Annual Lubbock Junior Rodeo, sponsored by the Lubbock Junior Chamber of Commerce, in Aull's Sports Arena. The indoor rodeo to be held July 19-20-21, is approved by the A. J. R. A.

The rodeo is open to boys and girls nineteen years old or younger and will be divided into three classifications, twelve years old and younger, thirteen through fifteen, and sixteen through nineteen. Many events have been scheduled for all classifications. Girls twelve years and younger can participate in the barrel race, pole bending, flag race and break-away calf roping. Girls thirteen through fifteen are eligible for the break-away calf roping, barrel race, pole bending and flag race. Those girls sixteen through nineteen will compete in ribbon roping, pole bending, barrel race and break-away roping.

Boys twelve and under may enter four contests, these being pole bending, break-away roping, flag race and barrels. The events offered for those thirteen through fifteen are tie-down roping, ribbon roping team, pole bending and barrels. Those sixteen through nineteen will compete in bareback bronc, ribbon roping, tie-down roping and bull riding.

Entries may be taken to Aull's Sports Arena, 3 1/2 miles south of the traffic circle on the Taboka Highway in Lubbock, or may be mailed to Jack Aull, Route 6, Lubbock, Texas, or to the Lubbock Junior Chamber of Commerce Office, 1803 Broadway, Lubbock, Texas. All entries must be received by 1:00 p.m. July 17, 1962.

'62-63 Faculty Completed for Plains Schools

The Plains School faculty for 1962-1963 has been completed. New faculty members recently selected are as follows: Mr. Deryl Bob Gross, Mrs. William C. Vandeventer, and Mr. John Nance.

Mr. Bob Gross will teach social studies, tennis, physical education, and assist with athletics. Mr. Gross is a graduate of Texas Tech. Mrs. Bob Gross has been a member of the Plains School faculty for the past five years.

Mrs. Wm. C. Vandeventer will teach music in grades 1 through 4. She is a graduate of North Texas State College with a major in Music Education. She has taught one year in the Austin

Public Schools.

Mr. John Nance will teach high school mathematics. He is a graduate of Texas Tech, with a major in mathematics. Both Mr. and Mrs. Nance are graduates of the Whiteface High School.

The following school calendar has been adopted for 1962-1963:

Teacher In-Service Training -- August 27-28-29

Opening day of school -- August 30.

Thanksgiving Holidays -- November 22-23.

Christmas Holidays -- December 24 through January 1.

Easter Holidays -- April 12-15.

Rodeo Dates Approaching

With the 9th Annual Plains Rodeo not quite three weeks away, a great flurry of activity can be seen around the area from various quarters. Queen candidates are very busy about selling tickets, permits and derbys and a great increase in the amount of the little black derbys being worn by Plains men is evident all over town.

The four queen candidates, Marsha White, Sylvia McGinty, Jana Warren and Brenda Hickman are each working very hard as the deadline nears, each trying to outsell the other so that she may be chosen Rodeo

Queen for 1962. Other evidences of the approaching date is that a committee from the three sponsoring organization which make up the Rodeo Association, the Plains Lions Club, Plains Chamber of Commerce and the Yoakum County Roping Club are busily and actively out selling to advertising space to area merchants and individuals so that the program booklet for this year's edition can be sent to the printers.

Dates for the Rodeo, stock for which is being furnished this year by the HK Rodeo Association (Continued on page 2)

Plains Firm Changes Hand

Plains TV Electronics in Plains, which is located just east of the courthouse was sold this week and the new owners are now operating the TV, radio and appliance repair shop and the sales of the same items.

R. J. Van Liew, former owner of the shop has sold his interests completely to Mrs. Dell

M. Garrett and Mr. Nelson Strickland, Van Liew, it is reported will no longer be associated with the firm.

Both Mr. Garrett and Strickland have up until the past week, been associated with radio station KKAL which is located between Plains and Denver City. The store will still feature Westinghouse TV's and appliances along with a limited amount of other lines.

Larry Smith will remain, along with Strickland, as one of the service personnel of the firm.

Foundation to Hold Border Demonstration

A demonstration of a new type of equipment for border maintenance on benchlevelled land will be held at the High Plains Research Foundation from 8:30 a.m. until noon Saturday, June 30. "Farmers and implement dealers are especially invited," said James Valliant, Associate Water Engineer of the Foundation, who will supervise the demonstration.

The new border maintenance equipment designed by Mr. J. C. Ainsworth and Gene Hancock is being manufactured by the Hancock Manufacturing Company of Lubbock.

Economical methods of controlling vegetation and maintaining borders has been sought by scientists and farmers for sometime. Such equipment is needed for the proper maintenance of borders on benches. Soil erosion and water loss on sloping land is prevented by bench-leveling the land. "This is one of the research projects in soil and water conservation that has been underway at the High Plains Research Foundation since 1958," Dr. Earl H. Collister, Director of the Foundation, said in announcing this demonstration.

Willie Ellison to Undergo Surgery

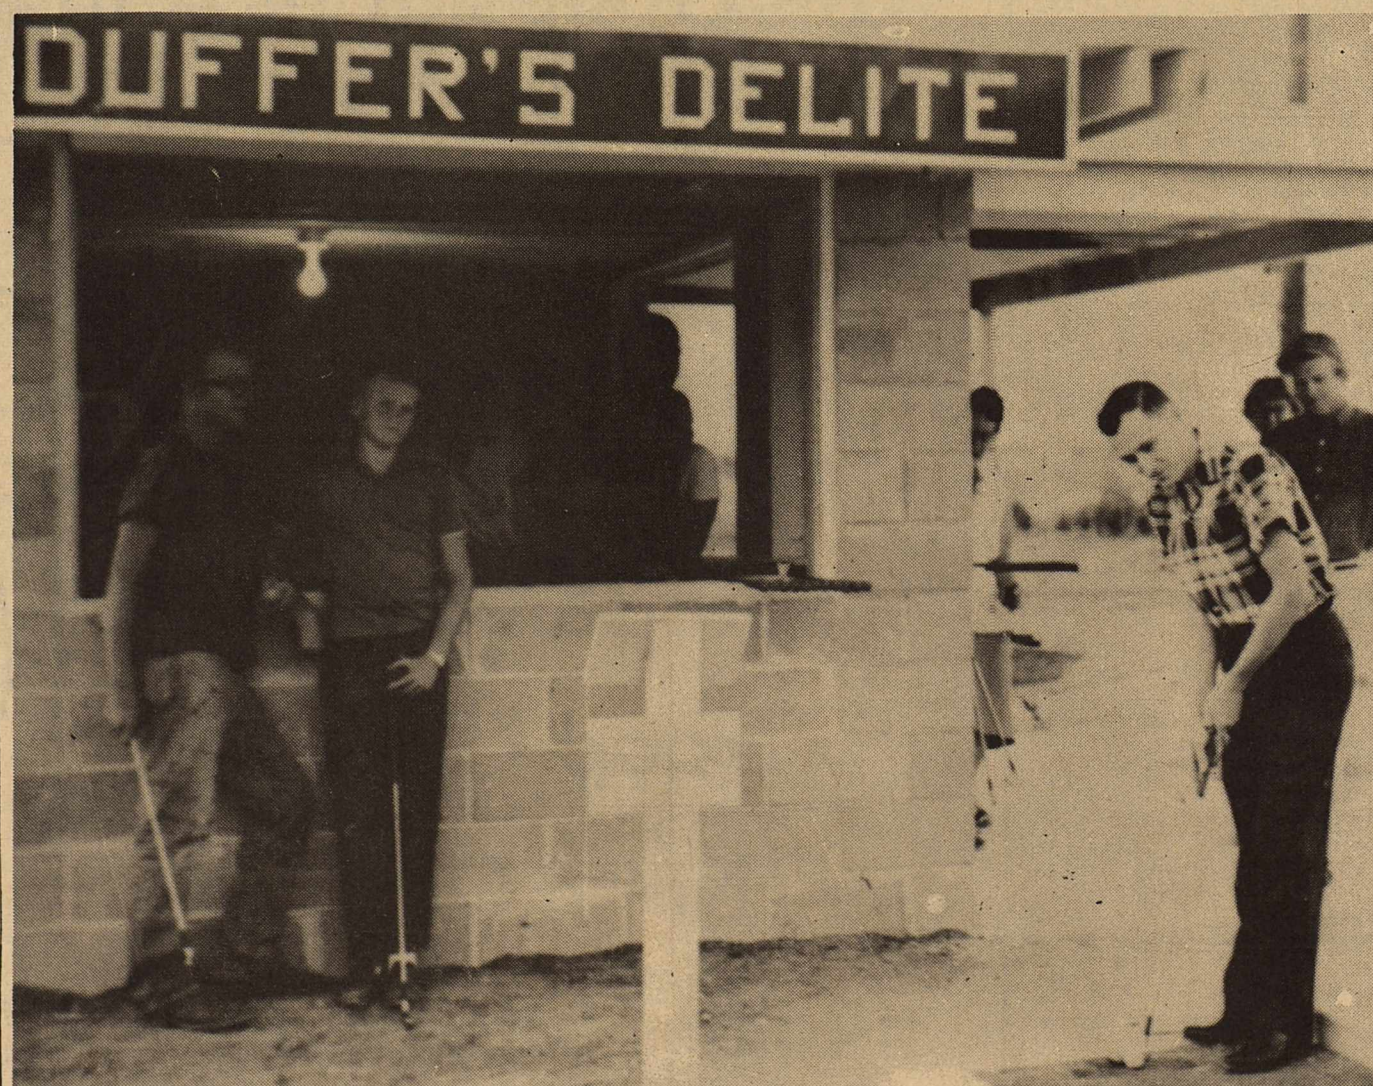

Willie Ellison of Plains is awaiting a trip to Dallas, where he will undergo open-heart surgery with the aid of the now-famous heart-lung machine.

It is reported that it is necessary to replace the main artery of Ellison's heart with a plastic artery.

Earlier this week a plea was made in Plains for donors of blood for the operation, as it is necessary to have 20 pints of blood available for such an operation.

Ellison is due to be operated on Wednesday of next week and donors will make the necessary trip to Dallas on Tuesday.

Ellison's blood type, comparatively rare, is A positive. Dr. Bill McCollough of Seagraves has been heading up drive to get sufficient blood for the operation in cooperation with the Heart Fund.

TEEING OFF . . . on hole one of the newly completed miniature golf course in Plains is its first customer, Plains Mayor, Buddy Hanna.

Duffer's Delite is Open for Business

Duffer's Delite, the miniature golf course constructed by and operated in behalf of the local scout troop, No. 778, formally had its opening on Tuesday of this week at 7:30 p.m.

Mayor of Plains, Buddy Hanna, officially opened the course by teeing off the first ball on hole number one.

A fine opening night crowd attended and played golf during the four and one-half hours of time the course was open.

The course features 18 holes of golf with many and varied traps and obstacles that must be overcome to meet the par

of the course which has been set at 50 strokes.

Price per 18 holes for each individual is 35 cents.

Refreshments are on hand and available at the concession stand located on the course.

The course is located just north of the Plains State Bank in Plains and will be open each afternoon beginning at 5 p.m., with the exception of Sunday afternoon, when it will open at 2 p.m. and will close at 6 p.m.

Proceeds from the course, which is being run by Douglas Todd, will go to Plains Boy Scout Troop 778.

FBI Director Believes Threat of Communism Has Increased

New York, N.Y. . . . "A Study of Communism," a new book by J. Edgar Hoover, Director of the Federal Bureau of Investigation, will be published on October 1, 1962, by Holt, Rinehart and Winston. The book is designed for the general reader as well as for students in high schools and colleges.

Mr. Hoover's new book was written in response to numerous requests for a handbook on the nature of communism, which would enable Americans to be better prepared to fight this menace and preserve their basic heritage of freedom. The book, which traces the history of communism since its inception, carefully contrasts American liberty and communist totalitarianism.

The book's appearance now is most timely. The communists are presently engaged in a systematic campaign to attract the attention of American young people. Party leaders have been appearing as speakers on college campuses across the country, expounding communist ideology and asserting the supremacy of the communist way of life. Mr. Hoover's book, based on his many years of experience, sets forth answers to the false claims of communism and emphasizes the positive values of our democratic heritage. Hoover emphasizes that the way to defeat communism is through knowledge, information and reliance on democratic principles.

Mr. Hoover has been Director of the FBI since 1924, and in this capacity is internationally recognized as an expert on communism. In 1958, Holt, Rinehart and Winston published "Masters of Deceit" by Hoover. This book quickly became a best seller and is today recognized as a standard document on the operations of the Communist Party in the United States.

"A Study of Communism" contains an analysis of communist theory and communist practice, as well as an outline of how the international communist movement has grown since Lenin's seizure of state power in Russia in 1917. The book analyzes totalitarian methods and contrasts them with life in a free country. In addition, the book offers advice on how to defeat communism.

According to Mr. Hoover, "The danger which communism

presents to the free world has not abated. If anything, it has increased." The FBI Director indicated that world Party membership had increased to a total

of more than 40,000,000. To meet this challenge, he believes that the student and the citizen cannot remain uninformed of the communist danger.

Crops — Like

The Right

Kind of Fuel

When your car fails—you can't always blame the weather. Chances are, it's either something wrong under the hood, or you've run out of gas.

Similarly, when farm production drops, or the products aren't up to par, or the plants appear to be diseased, very often the cause is under the soil or due to a shortage of some vital nutrients.

In recent years, more and more problems have been traced by research agronomists to deficiencies of magnesium. But symptoms of the deficiencies have for years been blamed on other causes.

radio, Minnesota, Montana, Nebraska and Ohio.

Importance of magnesium, particularly water soluble magnesium in a form such as sulfate of potash magnesia, has been recognized by many state soil laboratories. Among them is the Soil Science Department at Michigan State University, which has added a magnesium test to its standard soil analysis program. This laboratory tests more than 75,000 samples every year.

Apples, citrus, corn, alfalfa, wheat and grapes and legumes such as soybeans have been benefitted by increasing the

A refugee couple arrived in the United States. After much red tape and years of study, they were finally made citizens. One day the husband rushed into the kitchen with the long awaited news. "Anna, Anna," he shouted, "we're Americans!" "Oh, fine!" exclaimed the wife. "Now you wash the dishes!"

Fair maiden (from the city)-- "How savagely that cow looks at me."

HOW TO ENJOY THE SUN

Wear the badge of summer fun—a coppery tan—and avoid the mark of summer sorrow—a sunburn.

All you need to do to wear your burnished badge is heed the advice of Dr. Archie Black, Ph. D., Research Director of the Coppertone Corporation. He offers these timely tips to palefaces basking in the sun:

Decide what area of your body you want to tan—then dress accordingly.

Select the place for your sunbaths carefully. For convenience and privacy, try your own backyard.

Be aware of the time of day and the weather. The sun's rays are most intense from 11 a.m. to 2 p.m., and although clouds reduce the amount of burning rays which reach the skin, it's possible to get serious burns on an overcast day.

Use caution in the length of exposure to the sun. Start slowly and increase your time gradually. People with dark complexions are much better able to cope with sunlight than those with fair complexions.

Know the difference between tanning and burning. Over exposure to the sun's rays can cause a severe sunburn and blistering.

Apply your favorite suntan product generously and evenly. In fact it's wise to give the most vulnerable areas a "double coating."

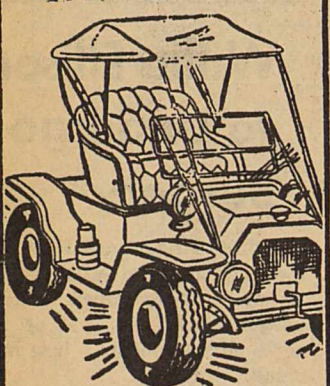

STELLA STEVENS, motion picture and television actress, is proud of her suntan. Stella co-stars in Hal Wallis' "Girls! Girls! Girls!" a Paramount Pictures release. During a break in her busy schedule Stella heads for the beach to keep her coppery tan.

Visual inspection doesn't tell the story of what is inside a bale of hay. The true feeding value of hay is determined by several factors, points out Shannon Carpenter, extension area dairy specialist. He lists them under his 3 T formula. . . test, time and ton. A protein test will show a mighty important factor. The time the hay was cut, time since the last application of fertilizer, time since the last cutting and time of season are other factors. Then buy by the ton instead of the bale.

MOORE---

sociation of Snyder, have been set at July 26, 27 and 28 with a performance each night.

A rodeo parade is set also for Thursday afternoon at 5 p. m. and the usual Old Settler's Reunion and barbeque will be held at noon on Saturday at the County Park in Plains.

A saddle will be given away Saturday night at the last performance of the Rodeo in addition to the queen's being named also during that performance. Last year's queen Diane Fitzgerald, will do the honors of crowning this year's winner. A gift certificate in addition to other awards will be given to contestants. The gift certificate going to the winner and other prizes to the runners-up.

Admission to each of the performances will be adults, \$1 and children 50 cents. A ticket for Saturday night's performance will also entitle the purchaser to a barbeque meal Saturday noon at the park.

Texas Comprises 3% of Nation's Stockholders

Texas has an estimated 517,000 shareowners, some 395,500 of whom living in 12 large cities and metropolitan areas, (Amarillo, Randall County; Austin, Travis County; Beaumont-Port Arthur, Jefferson and Orange Counties; Corpus Christi, Nueces County; El Paso, El Paso County; Fort Worth, Tarrant & Johnson Counties; Galveston - Texas City, Galveston County; Houston, Harris County; Midland, Midland County; San Antonio, Bexar County; Wichita Falls, Archer and Wichita Counties)

and 121,500 in other parts of the state. These are among the findings of the New York Stock Exchange's recently released 1962 Census of Shareowners, which determined that U. S. shareownership reached a new high of 17 million this year. Statistics for Texas, announced by Exchange President Keith Funston, show that:

...Texas' 517,000 shareowners comprise 3 per cent of the national total. The state total represents an increase of 142,000 or 38 per cent, over the 1959 total; this in turn was an increase of 215,000, or 134 per cent, over 1956. ...One out of every 19 persons in Texas is a shareowner, compared with one out of 26 in 1959, and one out of 56 in 1956. ...Dividends received by Texans in 1961 totaled \$367,000,000. There are some 1,293,000 shareowners, or 7.6 per cent of the national total, in the South Central States -- Alabama, Arkansas, Kentucky,

Louisiana, Mississippi, Oklahoma, Tennessee and Texas. The incidence of shareownership for the South Central States is 4.5 per cent of total population. For Texas it is 5.4 per cent. "Shareownership has increased in every state since our last Census in 1959," Mr. Funston declared, commenting on the latest survey in the Exchange's series, the only shareowner studies of their kind and scope ever made. "The increase in the last three years has been at a relatively uniform rate in the seven geographic regions in the Census. The most significant shareowner growth is discernible in smaller and medium-sized communities. One-quarter of all shareowners now live in communities of 2,500 to 25,000. Another 22 per cent live in cities of 25,000 to 100,000. Three out of four shareowners now live in major population centers classified as metropolitan areas.

The Local Angle

Donnie Morris left Saturday for a vacation with his aunt and uncle at Ruidoso, N.M. Spending the day in Plains were the two sisters of Mrs. J. H. Morris from Lubbock, Ira, fell while in the park for a picnic lunch and broke her ankle. Emergency treatment was given and she went back to Lubbock for further treatment.

Mr. and Mrs. Chesley Bedford and Tom were in town Monday attending to business and visiting friends. Mr. and Mrs. Red Curtis left Friday for points unknown for a fishing trip.

Bobby Neal small son of Mr. and Mrs. Leroy Neal and grandson of Mr. and Mrs. John Anderson was bit by a sick dog while playing in the garage. Rabies shots were begun Tuesday.

Visiting in the home of the I. M. Robertsons the first part of the week were Mr. and Mrs. Roy Burkhall and Mrs. Edith Marlin of Coldwater, Kansas. Danny Burkhall of Fort Bliss, Texas and Mrs. Keith DePreist of Lubbock.

Visiting Mrs. Nora McKee over the week-end were her daughter and family Mr. and Mrs. Joe McLarren of Lubbock. They brought along their granddaughter Pammy Jo.

Mr. and Mrs. James Anderson and Debbie left Sunday for Dallas. They plan to return home Wednesday.

Mr. and Mrs. James Dogget and children spent last week visiting in San Angelo with relatives.

Charlie Strickland of Levelland visited in the home of his sister Mr. and Mrs. W. L. McClellan.

"Boss" Newsom, A. J. McClellan and W. L. McClellan spent the latter part of the week fishing in Eliasville. They reported fishing to be fair.

Mrs. Charlie Newell underwent surgery Monday morning in the Porter Clinic at Lubbock. At last report she was resting well.

Mr. and Mrs. John Anderson Wanda and Marie returned Sunday from a vacation to points in Texas. They visited friends and relatives in Aspermont, Rome, Troop, Palestine, Ranger, and Dallas. While in Dallas they attended the wedding of their niece Martha McClellan and Alvin Knox. In Ranger they attended the Anderson family reunion. Some 32 relatives attended.

Mr. and Mrs. Jim Brown and Jimmy were in Beaumont the

latter part of the week attending the funeral of Jim's father, Olive Faulkenberry, Karen and Debbie Anderson returned from a two week visit in Beresford, South Dakota where they visited with Olives relatives.

Mr. and Mrs. Jack Pierce and children left Wednesday morning for Dallas. They received word Tuesday that Jack's grandmother was seriously ill.

Over the week-end guests in the home of Mr. and Mrs. Russell Faulkenberry were Olives brother Mr. and Mrs. Murl Jones and son Kirby of Corage Alaska.

Little Misses Toni and Brenda Perkins have been visiting relatives in Brownfield the past week.

Mr. and Mrs. A. H. Bacon are vacationing in Michigan and East Texas.

Visitors in the home of Mr. and Mrs. Hayden Box Sunday were; Mr. and Mrs. A. J. Walton of Coleman, Texas, Mrs. Box's parents, Mr. and Mrs. Glyn Walton, Robert and Roy of Roswell, Linda, Mark, and Paul Mills of Houston, and Mrs. Lee Roy Box and Lebeth and Mr. and Mrs. Tom Box

and Tommy Guy. Week-end guests in the home of Mr. and Mrs. Jack Palmer were Mr. and Mrs. Don Riddle of Pampa. They also visited with the John Fitzgeralds along with Mrs. Joe Borton, Mrs. Fitzgeralds niece.

Ronald Craft was honored with a party on his third birthday in the home of his parents, Mr. and Mrs. Gayle Craft. Refreshments of cake and punch were served to seven guests and the honoree.

Tommy Guy Box was honored Friday afternoon by his mother, Mrs. Tom Box, on his sixth birthday. Games were directed by his mother.

Refreshments of animal sandwiches, flower pot sundaes, lime punch and birthday cake were enjoyed by Lavonda and Grady Billings, Brenda Perkins, Wayne and Lebeth Box, Linda, Mark and Paul Mills, Bayne, Tammie and Dayne Bacon, Randy and Lyndal Tidwell, and the honoree Tommy Guy Box. Mothers attending were Mrs. Terry Bacon, Mrs. Ira Tidwell, Mrs. Roy Perkins, Mrs. Lee Roy Box, Mrs. Hayden Box, Mrs. Alton Billings, Mrs. Guy T. Hughes grandmother and Mrs. Tom Box. Mrs. Rose Mary Stinnett is visiting in the home of Pearl Loe for a few days.

Agency, Elsorta Shop, Almas Restaurant, Hinson's Laundry, Mr. and Mrs. Leo White, Mr. and Mrs. W. M. Overton, Mr. and Mrs. C. M. Thompson, Mr. and Mrs. Wilson Duke, Carlos E. Wilkins, Plains Odd Fellows & Rebecas, Tokio Gin;

Tokio Co - Op Gin, C. G. S. Gin Deroy Anderson, Anderson Gro., Tingles Garage, Jim Barnett, Modern Beauty Salon, Plains Courts, Plains, Blacksmith, Cowboy Grill, Glovers Cleaners, Home Lumber Co., and E. S. Bandy, Pearl Loe, Snake Smith, Jimmy Lee Camp, H. G. Smith and Dr. Marvin Goldberg.

Employment Tax Return Due

Area employers were reminded today that July 31, 1962, is an important federal tax date. John J. Sloan, administrative officer, Internal Revenue Service, Lubbock, said that date is the deadline for reporting and paying income and social security taxes withheld for the calendar quarter ended June 30, 1962.

The IRS representative said employers should use Form 941 to report their tax liability for that period and mail it, along with depositary receipts and full payment of due taxes to, "District Director, IRS, 2101 Pacific, Dallas 1, Texas."

Employers needing copies of Circular E, "Employers Tax Guide," may get it from any IRS office. This publication explains employment taxes, together with tables and percentage methods for figuring such taxes.

The federal law provides that taxpayers making timely deposits in local authorized banks, or Federal Reserve Banks, of the taxes due, have an additional ten days, or until August 10, 1962, to file their returns.

New Look in Sleepwear
Sleepy-time girls have a brand new look these days, in knee-length capri pants for all-season pajamas. Tom Girl pajamas such as these belie their name with a look of femininity in the delicate lace trim on pants and top. Klopman-woven fabric of "Dacron" polyester and cotton by Fabrex will withstand strain of pillow fights, pajama parties, and many tours in automatic washing machines.

Depositary receipts must be submitted with the return, he added.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

By Wilson Duke
Grass planting, bermuda and lovegrass along with other grasses are still being planted on many farms in the District.

Paul Cobb is springing 20 acres of Midland Bermudagrass this week and H. M. Edwards is springing about 80 acres also.

Bill Gray is planting about 300 acres of weeping lovegrass in narrow rows for grazing, especially during shinnery time.

J. W. McCan has planted 160 acres of Sudan as a dead litter cover in order to plant his native grasses next spring.

Mrs. Paul Loe is planting about 56 acres of weeping lovegrass this week.

Work continues under the Great Plains Program or anew application for assistance was received from H. S. and S. K. Kendrick. An underground irrigation pipeline will be the practice to be installed on this farm, Bob Jones, C. C. Copeland and A. N. Norman are ready to begin on their underground pipeline systems. Interest in this practice continues to grow since producers feel that a better job of irrigation can be done with less labor and at the same time will be conserving their water supply and helping to protect the irrigation wells.

New Conservation plans received this week for approval were on H. W. Nelson, J. D. Jones and J. A. Pebsworth farms. New Conservation plan maps were ordered this week for Wayne Williams and W. C. Patman farms. New Conservation Plans will be worked out on these farms when new maps are received.

AMERICA'S SHAREOWNERSHIP POPULATION

in 1962 is 10 million higher than the total estimated in the first Census taken by the Exchange a decade ago, and 4.5 million above the 1959 figure. The average growth of 1.5 million shareowners a year since 1959, Mr. Funston noted, has accelerated from a rate of about 850,000 between 1952 and 1959.

The four shareowner surveys conducted by the Exchange since 1952 have determined the number of individual shareowners in publicly held U. S. corporations, as well as personal characteristics of shareowners. They have revealed these shareowner totals:

1952 -- 6,490,000; 1956 -- 8,630,000; 1959 -- 12,490,000; 1962 -- 17,010,000.

(An interim estimate of 15 million shareowners was made in early 1961, based on projections of growth experienced in preceding periods).

Among shareowner characteristics described in the new Census are the facts, for instance, that women still outnumber men as shareowners-- 51 to 49 per cent, compared with 52.5 to 47.5 per cent in 1959 -- and that more than half the women shareowners are housewives.

The average shareowner is 48, compared with 49 three years ago, and has an annual household income of \$8,600, up sharply from \$7,000 in 1959.

Nearly three million clerical and sales people -- a million more than in 1959 -- comprise the largest segment of the employed shareowner population, followed by 2,682,000 professional and semi-professional persons and 2,276,000 proprietors, managers and officials.

Four out of five adult shareowners completed high school; more than half had some college training; and nearly one-third are college graduates. Persons in these educational categories accounted for 95 per cent of the increase in adult shareownership since 1959.

Shareownership among minors has jumped from 197,000 in 1959 to 450,000, apparently due in large part to new laws in all 50 states designed to make it easy to give gifts of stock to minors. Forty-five per cent of all shareowning families have children.

The new Census also shows that 11,015,000, or nearly two-thirds of the 17,010,000 shareowners in 1962, own shares listed on the New York Stock Exchange; another 3,770,000 own only shares listed elsewhere or traded over-the-counter; and 2,165,000 own shares in investment companies, principally mutual funds. This last category, increased by 75 per cent since 1959.

The 1962 Census encompassed 6,278 corporations whose shares are traded publicly on the nation's securities exchanges or otherwise, and are held by at least 300 stockholders of record.

Farmers Union

Prexy Announces Schedule

President Jay Naman will attend meetings at the following places during the week of July 9th through July 13th:

Monday, July 9th: Haskell, Highway Cafe, 8:00 p.m.; Tuesday, July 10th: Wolforth, School Cafeteria, 8:15 p.m.; Wednesday, July 11th: Lubbock, Underwoods Restaurant, supper, 6:00-7:00 p.m. (Area planning conference) EARLY ADJOURNMENT; Thursday, July 12th: Akuff, Roosevelt Club House, 8:15 p.m.; Friday, July 13th, Tulla, place to be announced, 8:15 p.m.; Friday, July 13th: Tulla, conference room, First National Bank, 8:15 p.m.

WE URGE THE LADIES TO ATTEND THESE MEETINGS.

When the gang gathers, seating is no problem with portable hassocks that measure only 1 x 15 inches deflated. 15 x 10 inches when inflated. Holiday Line, Brooklyn, N.Y.

ATTEND CHURCH Every Sunday

The Church Is Your Guide-Post To Better Living.

The Churches Of Plains Welcome You

READING GOD'S WORD

The reading of God's word is a neglected love by many today. It has been too easy to forget the price paid by many in the past, to make the Bible available to all. There was a time when men were hungry for all the wonderful messages contained in God's word. The Bible is full of wisdom and the teachings that men need.

"Man doth not live by bread only, but by every word that proceedeth out of the mouth of the Lord."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

This church feature is published each week with the aim of fostering that which is good in family and community spirit. This page is a public service of these sponsors . . . contributed to the religious life of Yoakum County

Lovington, New Mexico, June 22, 1962 . . . Mr. and Mrs. John McGuffin, shown at their home thirty miles northwest of Tatum, New Mexico, will receive their first central station electric service on Monday, July 2, as their cattle ranch becomes the 5 millionth rural establishment to receive electricity over lines financed by the Rural Electrification Administration. Members of Congress and REA Administrator Norman M.

Clapp are expected to be present for on-the-ranch ceremonies July 2 to mark the milestone connection of Consumer No. 5,000,000. Service will be provided by the Lea County Electric Cooperative, Inc., an REA borrower with headquarters at Lovington, New Mexico. The McGuffin's also will get their first dial telephone from another REA borrower, the Leaco Rural Telephone Cooperative.

Tatum Ranch 5 Millionth REA Customer

The five millionth rural consumer to obtain central station electric service through the Rural Electrification Administration will be connected in on-the-ranch ceremonies at noon July 2 by the Lea County Electric Coop, Manager R. B. Moore announced.

According to statistical projections of REA an agency of the U.S. Department of Agriculture, Washington, the remote cattle ranch of Mr. and Mrs. John McGuffin, located in a sandhill area 30 miles northwest of Tatum, N.M., will be number 5,000,000 to get electricity under the 27-year-old REA loan program, Moore said. "In line with REA's area coverage policy, our cooperative is building a three and one-half mile extension from the ranch of the McGuffins nearest neighbor at no cost to John McGuffin beyond his regular monthly bill," Moore declared. Moore added that the Leaco Rural Telephone Cooperative, Inc., which he also manages, will make joint use of the new electric poles to string telephone lines to the McGuffin Ranch. The ranch's first dial telephone also will be installed July 2, and the first long-distance telephone call is expected to be

made by a high ranking USDA official from Washington, D.C. Moore explained that electric service also will light the small home of 87-year old Mrs. Margaretha Walter, Mrs. McGuffin's German-born mother, who lived on the cattle ranch for 25 years without such taken-for-granted conveniences as electric lights, running water, refrigerator or an electric iron. Mrs. Walter still cooks on a woodburning range. Fifty yards away the McGuffins still read and sew by the dim flickering light of a kerosene lamp.

A number of visitors are expected to be present at the McGuffin Ranch for the electrification ceremonies, according to Moore. He added that the Lovington and Tatum Chambers of Commerce are participating with the cooperative in planning the observance, which will include an old-time chuck-wagon dinner.

Fishing Safety

Don't let an accident spoil the fun of fishing.

Fishing is one of the nation's favorite outdoor sports. It offers relaxation, mild exercise and a welcome change from the everyday routine. But, as every fisherman knows, there are several built-in hazards to fishing that bear watching.

"Sidewinders" (fishermen who swing their arms in a wide arc on the cast) are responsible for many of the hook accidents, says Today's Health, the magazine of the American Medical Association. If you are a sidewinder, be sure your field is clear of other fishermen before casting.

In removing a hook from a fish, hold the fish under the gills so only its body, not its head, can flop and wiggle. Trying to grab a slippery fish and remove the hook at the same time is an easy way to get hooked.

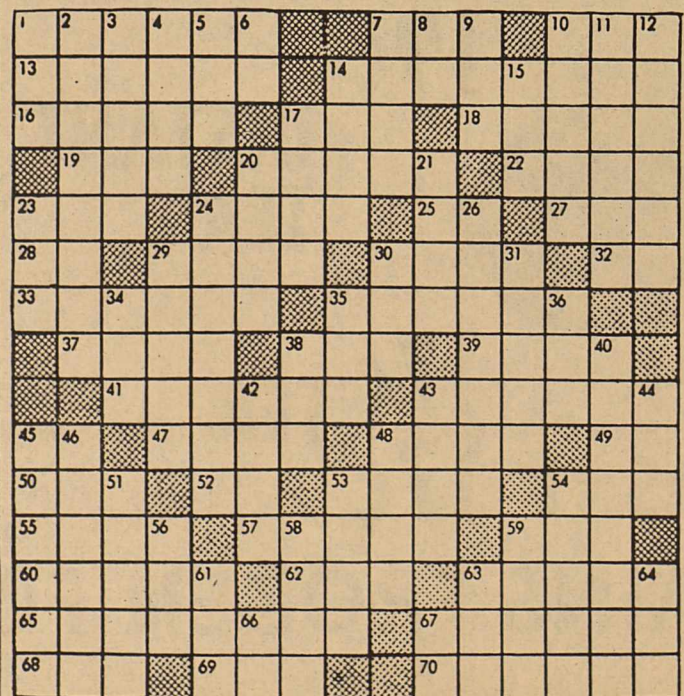

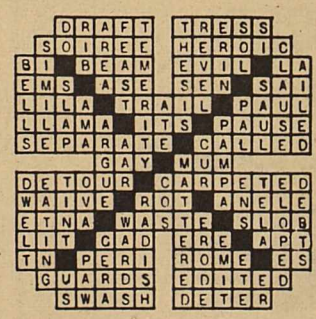

Lures and hooks left lying on the floor of a boat or on the dock are inviting trouble.

Never try to pull a hook out if one becomes imbedded beneath the skin. Your physician will snip off the back end of the hook and push it through the wound. If necessary he will administer antibiotics and tetanus toxoid.

Save your muscles from strain by avoiding excessive rowing or exercise.

Stockton Attending Mechanics Course

LUBBOCK -- Vocational Agriculture instructors from 25 Texas and one New Mexico towns are on the Texas Tech campus this week attending the four-day Farm Mechanics Skill Short Course.

The course began Tuesday (June 26) and ends Friday (June 29). It is designed to acquaint agriculture teachers with the necessary skills to teach high school students the proper use of hand and power tools used on wood and metals.

The course is being taught by Bob Craig, farm mechanic specialist, Texas A&M College

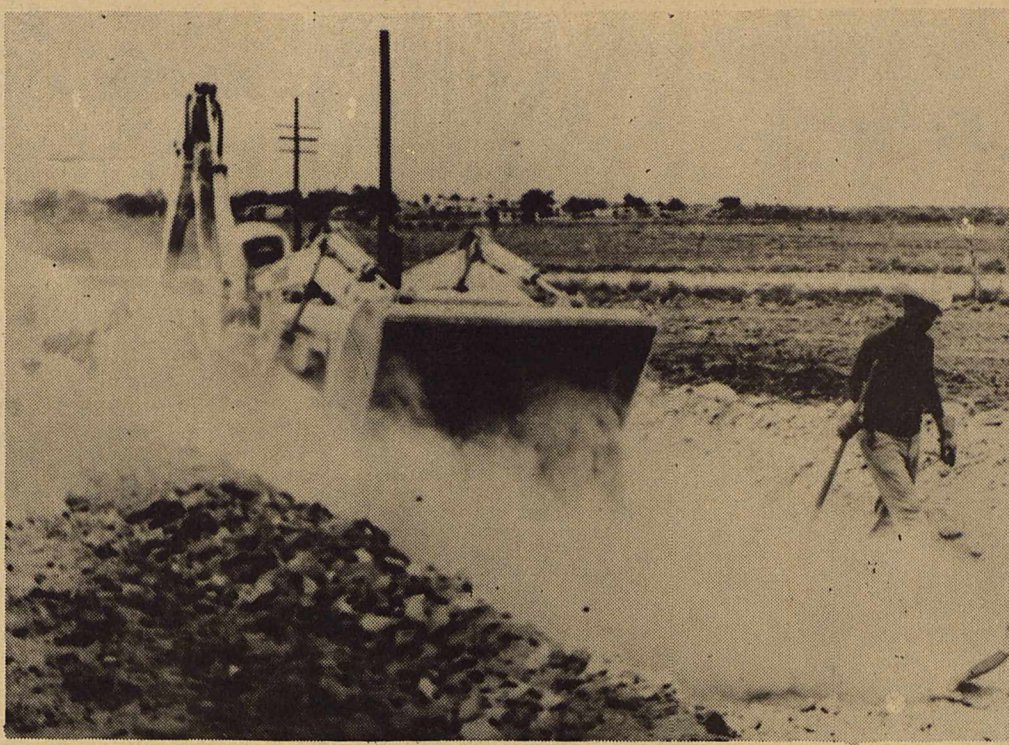

and Louis Eggenberger, assistant professor of agricultural education at Tech.

Attending the school are Leonard Wilson, New Home; Earl Medding, Cooper; W. C. Kountz, Garden City; Bob Williams, Vega; Franklin Brownfield, Blackwell; Gail Harris, Lamesa; Bobby Joe Brown, Texline; Billy Joe Hawkins, Hale Center; Jess Robinson, Hereford; James Reed, O'Donnell; Ike Trimble, Post; Jerry Stockton, Plains; Gene Barnett, Plainview; R. T. Laurie,

Claude; and Wendell Dunlap, Goree.

Also attending are Tom Alvis, Munday; Jerry Adams, Abernathy; Bobby Lee, Wilson; Homer Jones, Wellman; Jim Thornton, Kerrville; Don Gilbert, Muleshoe; Stanley Westbrook, Clarendon; Doyle Messer, Hedley; Tom Duffey, Plainview; and Gene Sollock, Pasadena.

The only New Mexican attending the course is Fred Dirickson, Portales, N. M.

ROUGH GOING . . . almost solid rock is making construction of the new Guetersloh-Anderson elevator near Plains somewhat tedious. Estimated opening date for the elevator is August 15.

DISEASE OR DEFICIENCY?
"Sand down" is a good example. This "disease" of tobacco plants was commonly associated with acid sandy soils, but in 1922, scientists established the fact that the problem was actually due to a magnesium deficiency.

Potatoes are another example, where a number of maladies have been traced to magnesium deficiencies. Both firmness and texture of potatoes are affected by the amounts of magnesium available to the growing plants.

One important function of magnesium that has been illustrated in potatoes and other vegetables is that it makes phosphorous more readily available to the plant, says Dr. C. Engibous, manager of agricultural services for International Minerals & Chemical Corporation.

State Line HDC Has Meet

The State Line Home Demonstration club met in the home of Mrs. Loren Gayle, Thursday with Mrs. Lee Roy Box presiding. The hostess read the THDA prayer.

The annual club report was written and nominee for state meeting in September was elected. Mrs. Tom Box was elected nominee.

Huck weaving was shown to the group as the craft demonstration. The catalog was also shown so supplies could be ordered. Huck weaving can be used to make more attractive scarves, aprons, towels, and skirts.

The next meeting July 12, will be in the home of Mrs. R. G. Hartman with a program given by a 4-H club member and a short program on International Peace Garden. Visitors are welcome.

Delicious punch and cookies were served to visitors Mrs. Rose Mary Crump and Mrs. Guy Hughes and members; Mrs. Tom Box, Lee Roy Box, Roy Perkins, Don Young, R. G. Hartman, Joe Crump, Terry Bacon, T. B. Tarquhar, and hostess, Mrs. Loren Gayle and daughter Shirley.

Panel to View Common Market

Dallas - (Special) - How will exports of U. S. cotton be affected by the European Common Market?

Facets of this question will be explored by a group of cotton industry leaders and financial experts during the Cotton Marketing Conference here, July 10-11. The National Cotton Council is sponsoring the meeting.

Dr. Norman T. Ness, an economist who is vice president and secretary of Anderson, Clayton & Co., Houston, will lead off with an analysis of the potential influence of the Common Market on U. S. cotton exports.

A panel discussion will follow. Members will include Lamar Fleming, Jr., Anderson, Clayton & Co., Houston; Dr. Richard B. Johnson, Southern Methodist University, Dallas; Harry A. Shuford, Federal Reserve Bank, Dallas; Dr. Arthur A. Smith, First National Bank, Dallas; and Gen. Robert J. Smith, Federal Reserve Board, Dallas.

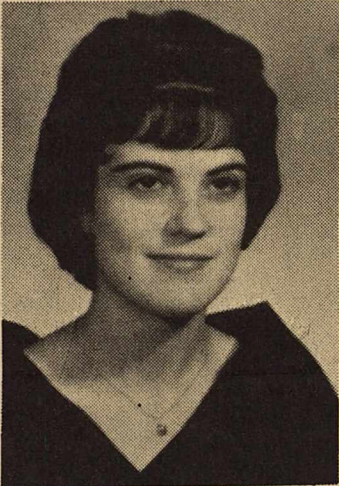

The conference will be opened by J. D. Hays, a Huntsville,

Ala., cotton farmer who is general chairman. Opening address will be given by Burriss C. Jackson of Hillsboro, president of the National Cotton Council. He will speak on the need for increased efficiency in producing and marketing cotton.

Ruth Hinkle Engagement Announced

Mrs. Vicie Hinkle announces the engagement and approaching marriage of her daughter Ruth to Larry Murphree, son of Mr. and Mrs. J. T. Murphree of Tatum, New Mexico.

The ceremony will be read August 3, at 7 p.m. in the First Baptist Church in Plains. No invitations will be mailed in Plains, however all friends are cordially invited to attend.

RUTH HINKLE

T.E.L. Class Meets in Jost Home

The T. E. L. Sunday School class of the First Baptist Church met in regular quarterly conference in the home of Mrs. J. H. Jost with Mrs. J. V. Beene president in charge.

Mrs. R. B. Wauson led in the opening prayer.

Minutes were read by Mrs. Gene Teague, and approved as read.

Devotion was by Mrs. George Cleveland who read Psalms 23 and spoke on prayer and Bible reading in our schools.

A reading by Mrs. Jost and the dismissal prayer by Mrs. Robinson concluded the program.

Gifts were exchanged and refreshments of salad jello, ice cream, and cake was served to eleven members and two visitors.

Salami Supper Skillet (Serves 4)

1 cup sliced salami
2 cups cream style corn
1 tablespoon chili sauce
1 can cream of celery soup
1 teaspoon prepared mustard
Heat together salami, corn and soup. Stir in mustard and chili sauce. Taste for seasoning. Serve hot.

Noodle Skillet

Use one of the jellied meats like corned beef, pot roast of beef or chicken. Combine with 2 cups noodles and 3/4 to 1 cup jellied meat. Stir and heat. Season to taste.

Social Security Information

Most farm workers are now covered by the social security law. In order to determine if the work performed on your farm must be reported, the law provides certain guidelines. Generally, if you employ a person to do farm work and pay him as much as \$150 cash wages in a year, or if he works for you on 20 or more days for cash wages figured on a time basis, hourly, daily, etc., you must make a social security tax report. Mr. John G. Hutton, district manager of the Lubbock Social Security Office, pointed out that there is a question in the minds of some farmers concerning tax reports for crew leaders and crew members.

The crew leader is the employer of any crew of workers he furnishes to do farm work and pays sufficient wages (either for himself or for you, the farmer). If he brought a crew to your farm, it is his responsibility to keep a record of the name, address, and social security number of each crew member who works enough to meet the \$150 cash wage or 20-day test mentioned above. He should withhold 3 1/8% tax from the pay of each such worker and match it with the employer's 3 1/8% when he files his tax report at the end of each calendar year. He should give the worker a receipt for his tax deduction at the end of the work, or at the end of the year, whichever comes first.

There are situations, Mr. Hutton said, in which the crew leader and farmer have a written agreement that the crew leader is the farmer's employee. In this case, the members of the crew are the farmer's employees also and the farmer is responsible for deducting the tax and making the required reports for wages paid. In either case, the farmer is obligated to keep a record of the name, permanent address, and employer's identification number of the crew leader.

Hutton said that free pamphlets for crew leaders and farmers are available at this

time and can be obtained by writing this office at 1616-19th Street, Lubbock, Tex., or calling PO 3-0456 and asking for "Social Security Information for Crew Leaders and Farmers," OASI-25g.

A representative of the Lubbock Social Security Office will be in Plains on Thurs. July 5 in the Co. Service Office at 1:30 p.m. and will be glad to assist in all matters pertaining to social security.

Yoakum Oil News

Pan American Petroleum Corporation will drill No. 13 Ed Hovencamp three miles east of Denver City in Yoakum County's Southeast Wason (Wichita - Albany) field.

The 8,400-foot venture is 1,900 feet from south and 467 feet from west lines of the southeast quarter of section 890, block D. J. H. Gibson survey.

Texaco Inc. No. 4-A Annie Miller has been completed as a Wichita - Albany well in the Wason field in South Yoakum County.

It pumped 198.91 barrels of 41.3-gravity oil, plus 17 per cent water, daily from perforations at 8,380-90 feet, 8,456-58 feet, 8,476-78 feet and 8,482-84 feet, which had been acidized with 9,000 gallons. Gas - oil ratio was 162-1.

The 5 1/2 inch casing is set at 8,960 feet from north and 2,300 feet from east lines of section 861, block D. J. H. Gibson survey.

David Fasken of Midland No. 1-D Jones Estate, Northwest Gaines County wildcat, is mixing mud in an attempt to kill a Yates sand gas flow developed several days ago.

The project now is bottomed at 4,090 feet. When the gas first was encountered it blew out and caught the drilling rig on fire. The blaze was extinguished after it had caused major damage to the equipment. The rotary has been repaired and now is in operation.

The well is under control. The operation is seven miles south of Denver City and 15 miles northwest of Seminole. It is scheduled to drill to 13,000 feet to explore the Devonian. The project locates 660 feet from north and west lines of section 376, block G, CCSD&RGNG survey.

Pan American also completed No. 15 Cobb and others in Yoakum County's Prentice (6,700-foot) field.

It pumped 114 barrels of 29.9-gravity oil, plus three per cent water, daily from perforations at 6,540-6,760 feet, which had been fractured with 25,000 gallons. Gas - oil ratio was 110-1. Seven - inch casing is set at 8,240 feet, the total depth.

The well is 1,980 feet from south and 660 feet from east lines of section 381, block D. J. H. Gibson survey.

R. H. Fulton of Lubbock has completed his No. 7 Dennison in the West (San Adres) field of Yoakum County.

It pumped 102 barrels of 32-gravity oil, plus 25 per cent water, per day from perforations at 5,204-56 feet, which had been acidized with 10,000 gallons. Gas - oil ratio was 820-1.

The 4 1/2 inch casing is set at 5,284 feet, the total depth. Site is 1,047 feet from north and 1,593 feet from west lines of section 607, block D. J. H. Gibson survey.
