Number 31

## ★ ★ WELCOME TO THE RODEO

WHICH WILL IT BE? -- The four young ladies pictured above left to right, Jana Warren, Marsha White, Sylvia McGinty,

and Brenda Hickman are the contestants for the honor of being Rodeo Queen. The winner will be named Saturday night.

I heard a rumor sometime ago that I didn't really pay much attention to, that is until I heard it repeated by several people and began to actually pry into it a little and there just may be some basis to it it seems.

The rumor goes something to the effect that to do away with the unequal distribution of the County's operating funds, which at present are divided with 31 per cent going to Precinct No. 1, 31 per cent to No. 2, 12 1/2 per cent to No. 3, and 25 1/2 per cent to No. 4, on a more equal basis.

According to Don Hancock, County Judge, the distribution of funds must be made on the basis of taxable valuation within each precinct.

To correct this, we hear, that something of a suggestion has been made that precincts No. 1 and 2 annex a part of each of their precincts to No.'s 3 and 4 which would then make the distribution somewhat more even. The added territory for precincts 3 and 4 would only be about four miles wide and the length of the county, which would include all of Plains in that territory going to three and four.

This would mean that according to valuation distribution then that precincts one and four would share in their valuation so that each of them would receive a combined 56 1/2 per cent or 28 1/4 per cent per precinct. And, that precincts two and three would split 43 1/2 per cent or 21 3/4 each.

On the basis of all things considered this seems a rather good proposal, although the political implications of such a move might not be desirable to all parties concerned.

I think it is at least worth thinking about though and hope that at least some more thought is given to the matter and that we hear more about it in the future.

### THOU SHALT NOT PRAY

I'm afraid my friend at the courthouse will disagree with me violently but I think there are several reasons to regret to a very great extent the decision made by the Supreme Court last month in regard to prayer. I don't mean to be over-critical of the Supreme Court either, as I honestly believe they had good intentions at heart, but there are a few fallacies in the thing in its finished form and in the final decision handed down, especially on the part of Justice Douglas.

By declaring that a simple, nondenominational prayer used in the New York schools was unconstitutional, the Supreme Court has gone beyond the letter and spirit of the Constitution. The basic intent of the framers of our Constitution, when they wrote the First Amendment, was to prevent establishment of an official state church and to outlaw government favoritism of a single sect or denomination. The court has now held--incorrectly, I think, that the state should not only be separated from church, but from all religions as well.

According to an editorial in the Dallas Morning News and we quote, "A careful reading of the decision will demonstrate clearly that the court did not invoke that part of the First Amendment's church-state clause dealing with the "free exercise" of religion. The court did not hold that there had been any coercion in the matter of prayer reading in New York schools, in fact, the decision specifically rejected any claim of coercion. Only that section of the First Amendment dealing with the establishment of religion was cited, and the court held that the reading of a simple, nondenominational prayer constituted the establishment of religion. The decision, in effect, outlawed any religious exercise in public schools or other governmental functions.

"In a separate opinion, concurring with the majority, Justice Douglas argued that chaplains' prayers in the house and senate, as well as the invocation of God's blessing at the opening of each Supreme Court session, were equally unconstitutional.

"By the same logic, the mention of God in the national anthem, the pledge of allegiance to the flag and the Declaration of Independence are all unconstitutional.

(Continued on page 6)

## Polio Vaccine Clinic Is Set

Plains Lions heard a very fine program last week which was presented by Dr. B. N. Squires of Denver City in regard to the use of the new Sabine Oral Vaccine, which is an immunization against polio.

A mass polio immunization program, using the new oral dosage, for all Yoakum County residents will be held in Plains and Denver City on Sunday, August 26, so it was announced by the Five-County Medical Association, who are the sponsors locally of the program.

According to the group, the vaccine is ready and available to all persons, including bracers, who are only temporary residents in the county. Also, four other counties, Terry, Lynn, Dawson and Gaines are participating in the mass program.

In his talk at Thursday's Lions meeting, Dr. Squires pointed out that a series of three treatments with the oral vaccine is absolutely necessary, as there are three different viruses which cause polio, and that only one of these viruses is treated against with each of the three separate dosages.

In Yoakum, County, the second

## Jones To Play, In Greenbelt On 4th

Childress, Texas (Special) Saturday, August 4th, in Fair Park Stadium, the 13th Annual edition of the Greenbelt Bowl Football Classic will unfold. Report of players who have accepted the invitation to attend, indicate that it will be a hard fought, head knocking brand of football. The 44 boys that will make up the two squads, the East Team and the West Team, are the best talent in this area.

Each of them has been either an all-district, all-regional, or all-State selection. They are experienced and will show a lot of speed.

This classic will be the first of the bowl game to be played in North Texas and the Panhandle and will attract a number of scouts and coaches from all over the area.

Morris Higley, President of the Classic, states that he feels it is going to be the best game that we have ever seen played in Childress. Mrs. Carolyn Bowen, in charge of ticket sales, reports that tickets are going good and that large blocks of tickets are being purchased in surrounding towns.

Jake Lawson, in charge of promotions, states that he has a big surprise this year for

(Continued on page 2)

dosage will be given approximately six weeks after the dosage planned for August 26 and the third will be given six weeks after that.

To administer the vaccine, three drops of it are placed on a lump of sugar, which is then eaten by the patient. There are reported no side effects of the vaccine which has been thoroughly tested and re-tested and very little taste to it, especially with so small an amount being eaten with a lump of sugar.

Following is a set of questions and answers concerning the vaccine which should answer most questions in regard to it. Exact place and time for the mass immunizations in Plains and Denver City will be announced at a later date.

### FACT SHEET SABIN ORAL POLIO VACCINE

IS POLIO ALWAYS CAUSED BY THE SAME VIRUS?

There are three different known types of polio virus which cause poliomyelitis. In order to be fully protected against polio, an individual must be protected against all three types.

### WHAT IS THE ORAL VACCINE?

It is a live virus vaccine, taken by mouth, which has been modified (weakened) for the purpose of producing immunity without producing clinical illness. (It is like smallpox vaccine which is also a live vaccine.)

### WHAT IS THE DIFFERENCE BETWEEN SABIN ORAL VACCINE AND THE SALK VACCINE?

The Salk vaccine is produced from a dead virus and the three types are combined. Four shots are usually given over a period of seven months. With Sabin oral vaccine, each type is given separately by mouth, four to six weeks apart. Immunity usually results within a week. Thus, greater immunity can be acquired more quickly against Types I, II and III of the polio viruses.

### HOW SAFE IS THE SABIN ORAL VACCINE?

The vaccine has been given to more than 70 million people in Russia, Mexico, Czechoslovakia and Yugoslavia with excellent reports of results. Several hundred thousand doses have been given in the United States so far, with complete safety.

### HOW EFFECTIVE IS THE SABIN ORAL VACCINE?

Because the oral vaccine usually produces an intestinal barrier against infection, it is expected that the vaccine will be more effective than any presently available by breaking the

(Continued on page 2)

## Little League All-Stars Dist. Runner-ups

Plains Little League All-Stars played some outstanding baseball in the Area II All-Star playoffs held in Brownfield last Thursday, Friday and Saturday.

A large group of Plains Little League fans traveled to Brownfield to see the games and to cheer the local team on.

On Thursday afternoon at 2 p.m., Plains played a combined team made up of players from Sundown and Whiteface. Pitching for Plains was Calvin Smith who pitched a no-hitter and only walked one man who was tagged out on base. The balance of the 18 batters faced by Smith struck out at the plate. Final score in that game was Plains 20-Whiteface-Sundown 0.

Then on Friday afternoon at 5 p.m., Plains won the right to contest the All-stars from Ropes. Danny Kelley pitched for Plains in this contest and held the Ropes team, a pretty im-

## More Blood Donors Needed

Willie Ellison, the Plains resident who underwent a combination of open heart and radical lung surgery two weeks ago in Dallas, with the aid of the now-famous machine that allows such surgery to be accomplished, is reported to be recovering in the Dallas hospital in a satisfactory manner.

A call for blood donors went out last week as an additional 11 pints of blood was needed for the operation in addition to the 17 donors which traveled from Plains to Dallas.

Several persons from Plains have already donated blood on that which is needed to make up for that which was used from the blood bank in Dallas, but several more, in fact, about 12 more pints are needed to make up what was used as blood drawn from Red Cross Blood Banks must be replaced two pints for one.

Anyone interested in giving blood, may do so by going to Lubbock to the Southwest Blood Bank.

Donors can have any type of blood for this replacement amount that is needed.

Hours of the blood bank are 9 a.m. to 4:30 p.m. on Monday, Tuesday, Wednesday and Friday; and on Thursday from 12 noon to 7 p.m.

pressive team, down to three runs, two of which scored on errors. He was able to cause the Ropes batters hitting on the ground and an almost unbeatable Plains infield played havoc with any ground balls that came their way. Final score in the second game of the play-offs was Plains 10-Ropes 3.

By beating Ropes, Plains won the right to meet Levelland in the district finals on Saturday night at 8 p.m.

Calvin Smith was again selected as pitcher for Plains in this contest and was able to hold a really strong Levelland team down to three hits and four runs.

The game ended with the bases loaded by Plains runners, and Plains lost by one run. Final score, Plains 3 - Levelland 4.

Plains was not able to stay in the competition and go on to Sectional play in Lubbock, but all who viewed the games and saw the fine brand of baseball and the outstanding sportsmanship of the Plains All-Stars had absolutely nothing to regret. Plains made a real fine showing.

## Five Beefs Secured

Five beefs donated to the Yoakum County Rodeo Association by Mr. M. W. Luna, Mr. Gene Bennett, Mr. Ty Field, Mr. Sherm Henard and Mr. Dick McGinty will be put on the barbeque fires Friday evening and night to furnish a real fine meal for residents of Plains and Rodeo visitors to the Old Settler's Reunion being held at the Yoakum County Park in Plains next Saturday at noon.

The beef will be served with beans, potato salad, onions, pickles, bread and cobbler, plus coffee and iced tea.

Price for the gigantic feed is to show and have punched a ticket to Saturday night's performance of the rodeo.

Ladies of the community are urged to bring cobbler and potato salad to the park on Saturday for the event.

Tsa Mo Ga Study Club of Plains is again this year heading up the hospitality committee for this year's gathering, and members have been calling several ladies of the community and area so that several could be told of the need for desert and potato salad.

## Rodeo Set To Roll

All is about in readiness for the 9th annual edition of the Yoakum County Rodeo, scheduled to begin here on Thursday of this week and continue on through Friday and Saturday. Dates are July 26, 27 and 28.

First item on the agenda for the annual affair will be the annual Rodeo Parade which is set to kick off at 5 p.m., time of which has been changed from the usual early afternoon time because of the temperature.

Several Plains merchants have already phoned the Plains Chamber of Commerce stating their intention to have floats

and displays in this year's parade. Gathering place for the entrants and participants in the parade will be in front of the Plains Schools where the parade will proceed down the highway, circle the courthouse and a couple of blocks on each side of it. Judging the events this year will be four Brownfield residents.

Prizes in the parade for the floats judged best will be \$15 for first place; \$10 for second place and \$5 for third place.

Performances of the rodeo each night, stock for which is furnished this year by the HK Rodeo Association of Snyder, will begin promptly at 8 p.m. each of the three evenings. Admission charges for the performances will be \$1 for adults and 50 cents for children.

A concession stand, manned by members of the Plains Lions Club will be on hand to sell soft drinks, snow cones, sandwiches, coffee, candy, etc.

On Saturday, final night of the Rodeo, several added attractions will be on tap for Rodeo fans. A drawing for the

saddle to be given away will be held during that night's performance, and the new Rodeo Queen will also be crowned on that night.

This year's contestants for the Rodeo Queen have been working mighty hard and reports have it that their tickets have been selling very good. This year's contestants are:

Jana Warren, sponsored by Plains Dirt Gardeners; Marsha White sponsored by Plains Lions Club and Plains Chamber of Commerce; Brenda Hickman sponsored by Plains Volunteer Fire Department; and Sylvia McGinty sponsored by Yoakum County Roping Club.

Final results of the race to be Rodeo Queen will be revealed during the Saturday night performance of the Rodeo. Ticket sales will end Saturday afternoon, and all money and tickets must be turned in to Maurcene Phillips by 2 p.m. on that day if they are to count in the final tally.

The girl named Rodeo Queen

(Continued on page 6)

## Weather Report

Several rain-showers and a large amount of good hot growing weather have considerably brightened the hopes of Yoakum County farmers for this year's crop prospects.

Measurable rainfall, according to Johnnie Hague, official agent for the U. S. Weather Bureau in Plains, since January 1, through July 24 has been 7.65 inches.

During the month of July Plains has thus far had 2.79 inches and on Wednesday, July 18 through Tuesday, July 24, 1.85 inches of moisture.

Temperature readings for the seven day period are as follows:

	Max	Min
Wednesday, July 18	89	64
Thursday, July 19	94	62
Friday, July 20	87	67
Saturday, July 21	93	70
Sunday, July 22	101	65
Monday, July 23	94	67
Tuesday, July 24	88	63

## Yoakum Oil News

Two ventures were set in the Brown (Wichita-Albany) field of northwest Gaines County, approximately 14 miles southwest of Denver City.

Texaco Inc., will re-enter No. 1-E, E. H. Jones and deepen it to 8,300 feet.

Site is 660 feet from north and 1,999 feet from west lines of section 2, block A-8, PSL survey.

Cornell Oil Company of Denver City has completed No. 63-C Whittenburger Estate, 11/2 miles northwest of Denver City in the Wasson (Wichita-Albany) field of Yoakum County.

It flowed 216.19 barrels of 39.3-gravity oil through an 18/64-inch choke and perforations at 8,366-8,498 feet. Tubing pressure ranged from 80 to 15 pounds.

(Continued on page 4)

## Yoakum County Cancer Society Exceeds Goal

Mrs. Gene Payne and Mrs. Jesse Allen, Chairmen of the 1962 Cancer Crusade for Yoakum County have received commendations from the state Chairman, Dr. G. V. Brindley, Sr., for the outstanding success of the educational and fund-raising campaign here this year.

Yoakum County was one of forty-six leading counties in the state which this year adopted an Honor Roll goal for the Crusade here. This goal, \$1,000, has already been exceeded by the volunteer workers and contributors in this county.

Dr. Brindley's letter pointed out that Mrs. Payne and Mrs. Allen, and all who helped with the Crusade here furnished inspiration to the entire state Crusade. "The real spearhead of our Crusade," he said, "has been furnished by those counties, like yours, which adopted an 'Honor Roll' goal and have now exceeded this goal."

"Throughout Texas we are in the closing phases of the most successful Crusade we have ever conducted against cancer," Dr. Brindley said. "The

gains made this year in reaching people for education and contributions are not limited to any one area of the state and are, in fact, a reflection of widespread knowledge and enthusiasm of thousands of volunteers."

Dr. Brindley reported that as a result of the leadership of such outstanding counties, Texas has already made a contribution to cancer control in 1962. More than \$1,320,000 has already been contributed by Texans to the Society's program of research, education and service.

Sixty cents of every Crusade dollar will be immediately available for use in these programs within the state of Texas. In addition to this, the national Society supports research in Texas directly to the tune of around forty cents of this dollar in the average year.

During the current year, support of this Texas research reached a record level and the Society is actually spending one dollar and ten cents in Texas, for all programs, for every dollar contributed by Texans during the Crusade.

**JERRY JONES** -- A 1962 graduate of Plains High School and former Cowboy football player will play in the annual Greenbelt Bowl held in Childress, Texas each year. Date for the game is August 4.

### Jones to Play--

(Continued from page 1)

the customers and urges a good attendance.

Each of the players has selected a young lady as a Queen Nominee and these young ladies will be entertained at a tea at the Woman's Department Club on Friday afternoon. On Friday evening Buddy Wilcoxson will be in charge of entertaining the players, their parents, the queen nominees and their parents at a picnic in Rotary Bowl in City Park, after which the young ladies will go to the Elks Hall where they will be presented to the people of Childress and the parents and visitors. After this presentation there will be an informal party for the group. Alton Landrum has extended an invitation to all players and their queen nominees to be his guest at the swimming pool in Childress during the entire week. R. J. Cordell will entertain the players at the Palace Theatre at one showing.

Head Coach for the East Team will again be Johnny Dunn, Tarleton State College, whose team last year was victorious and the West Team will again be coached by Max Bumgardner from San Angelo College.

A full week of work and entertainment is in store for the players of the Greenbelt Bowl Classic.

Dub Nelson, the originator of the Classic and now a resident of Dallas, Texas, has worked up a high school reunion of all students that have graduated from Childress High School. They will hold their first meeting in the Community House in the City Park on Saturday afternoon and will attend the Greenbelt Bowl Football Classic. On Sunday all ex-grads will have a picnic in City Park at the Rotary Bowl. Nelson hopes to get an ex-grad organization started and hopes they will elect officers at this meeting.

Greenbelt Bowl Football Week is one of Childress' top celebrations and Mrs. Sam Carmack and members of the PTA have arranged to have the town decorated for the occasion. The public is invited to celebrate with the people of Childress on this big event.

Cecil Park, in charge of the selection of players, has announced that the two teams are composed of the following boys. East Team, Dale Hensarling, Jacksboro; Robert Rhode, Silvertown; Monroe Page, Wheeler; J. B. Darland, Jr., Electra; Jim Wilson, Altus, Okla.; Don Galle, Memphis; Billy Lane, Turkey; Tommie Eustace, Archer City; Gary Davenport, Chillicothe; Billy David, Tahoka; Billy Bowman, Estelline; Jim Bell, Amarillo; Jerry Setliff, Crowell; Calvin Hargrave, Graham; William Strutton, Snyder, Oklahoma; Harold Garvin, Altus, Okla.; Kenneth Rue, Olney; Billy McCarty, Seymour; Norman Naron, Childress; Jim Gafford, Crowell; Larry Snider, Hollis, Okla.; Randy Stevenson, Stamford.

On the West Team are Bill Baggett, Dalhart, Texas; Jim Meador, Erick, Okla.; Jerry Jones, Plains; Wayne Meacham, Dimmitt; Nelson Leavitt, Vega; Richard Norman, McLean; Ruby Robinson, Panhandle; Hal Ward, Vega; Leon Gibbs, Clarendon; Robert Monk, Stinnett; Jess Sheets, Canyon; Glenn Hopkins, Tahoka; Dale Dixon, White Flat; Hubert Young, Roby; Glen Beal, Childress; Don Barker, Electra; Jerry Morey, Waurika, Okla.; Bland Scott, Waurika, Okla.; Eddie Jones, Memphis; Larry May, Silvertown; Wilburn Zuber, Morton; Richard Mauldin, Wellington.

Head Coach for the East Team will again be Johnny Dunn, Tarleton State College, whose team last year was victorious and the West Team will again be coached by Max Bumgardner from San Angelo College.

## Positions Vacant On Highway Patrol

An invitation has been issued state-wide by the Texas Department of Public Safety to any and all high calibre young men in the State who wish to compete for one of the 150 positions now available in the State Law Enforcement. "The challenge of the rigid qualifications for patrolmen in the four field services; Highway Patrol, License and Weight, Driver's License, and Motor Vehicle Inspection; is expected to attract many outstanding young men," Major Harry Hutchison, Commander of Region #5 of the Department of Public Safety, said today.

Assignment to one of the above services will be made on the basis of aptitude, interest and ability at the conclusion of a period of basic training, then specialized training in the assigned service will be given in the field and in the classroom after which a home station will be designated. Applicants must be between 21 and 35 years old, between 68 and 76 inches tall, weigh not less than 2 pounds or more than 3 pounds per inch of height, and be in sound physical condition. They must have a high school education or the equivalent and their record must be able to stand rigid examination as pertains to character and citizenship. Selection procedures will include written and oral examinations.

"Any young man who wants to measure himself against these high standards is urged to pick up or write for the necessary forms from any D. P. S. Field Office throughout the state," Major Hutchison said. Formerly examinations were given only three times per year. They are now being administered monthly, the second Saturday of each month, at each of 17 centrally located examination centers throughout the State.

"In addition to offering a challenge which separates the men from the boys," Major Hutchison said, "the Department of Public Safety offers a rewarding career to men who want to follow law enforcement as a profession. There is always an opening and room for advancement for this type of men in the Department," he concluded.

## Sugar Corporation Request Acreage

Holly Sugar Corporation, Colorado Springs, Colorado, and the Texas Sugar Beet Growers Association, Hereford, Texas, both have filed application with the United States Department of Agriculture, requesting that sugar beet acreage reserves established pursuant to provisions of the new Sugar Act be distributed to new farm and growers in the Hereford, Texas, area, and a portion of eastern New Mexico, which would make possible erection of a new sugar beet processing facility near Hereford on a site the rights to which already have been acquired, and which facility is planned to be in operation by the Holly Sugar Corporation not later than the fall of 1964. This action was prompted by the new national Sugar Act signed into law by President Kennedy Friday night (July 13).

Capacity of the projected facility would be such as to require the use annually of acreage at least equivalent to the entire reserve, which is understood to be, under terms of the new law, sufficient acreage to produce at least 65,000 tons of sugar annually.

Holly also requested additional marketing allotment, in accordance with the new law, to permit it to distribute sugar produced at the proposed new factory.

Merrill E. Shoup, President of Holly, and James W. Witherpoon, representing the Texas Sugar Beet Growers Association, both stated that they hoped prompt and favorable action would be taken by the Agriculture Department on the applications.

"We have made an exhaustive study of the West Texas-Eastern New Mexico area which would be served by the proposed new facility near Hereford," Mr. Shoup stated, "and we are convinced that the potential for a successful operation is here. We must depend, however, upon favorable action by the Government on the applications submitted to assure sufficient annual acreage to support an economic unit in the area under consideration."

"Our specialists in factory construction and operation, agriculture and other fields have made detailed studies of all aspects of the proposed project, and their findings are the basis upon which we have taken the initial steps announced today."

Witherspoon said that his organization, supported by farm and business people throughout the area which would be served

by a new beet sugar processing facility, has spent many months working for establishment of such a plant in the Hereford area.

"We have worked toward the end that new legislation would provide for new areas without processing facilities to be assured sufficient acreage to attract a new plant; and we have sought to interest a processing company with the necessary know-how to construct and operate such a proposed factory. We are extremely encouraged and pleased by the preliminary steps now taken."

Holly Sugar Corporation is one of the nation's two largest beet sugar companies, currently operating 10 factories-- five in California, two in Montana, two in Wyoming, and one in Colorado.

Shoup said that a beet sugar processing facility in the Hereford area would provide a needed cash crop for farmers in the area, provide livestock feed (sugar beet by-products remaining after the sugar has been extracted include beet pulp and molasses which are high nutrient value feeds) and would stimulate the general economy of the entire area served and adjoining areas in Texas and New Mexico.

### Jamestown Settlers: How They Nearly Missed the Boat

Fortunately for Americans, it was a clear day. Otherwise we might all be speaking Spanish.

It was the spring of 1610, shortly after John Rolfe arrived in Jamestown.

The discouraged settlers were ready to give up, the result of a hard winter known as the "starving time." The population had dwindled from 500 to about 60, from disease, malnutrition and Indian arrows.

Rolfe and the other new settlers brought hope, but few supplies. So the colonists loaded their ships and began the voyage back to England.

Luckily, the weather was clear. While sailing down the James River, they spotted a fleet of ships from England carrying supplies and 150 new settlers. So they turned back to have another try.

By now, the original dreams of finding gold and jewels had vanished. The colonists had tried producing glass, pitch and soap ashes. Sassafras and hand-sawed lumber had been shipped to England. But there was little demand and little profit.

John Rolfe provided the answer. He had a hunch that Virginia's soil could produce gold -- the golden leaf of tobacco. Somehow he got some "Spanish-type" tobacco seeds from Trinidad. He cleared the land and planted his seeds.

After harvesting a small crop -- a few hundred pounds at most -- he shipped it to England. His tobacco was an immediate success.

### Polio Vaccine--

(Continued from page 1)

chain of transmission, or eliminating the vaccinated person as carrier, which killed vaccine does not do.

**SHOULD YOU HAVE ORAL VACCINE IF YOU HAVE ALREADY HAD SALK VACCINE?**  
Yes, it is wise to take the oral vaccine. It will increase your own protection and help you protect other persons in the community.

**HOW IS IT GIVEN?**  
A dose of vaccine can be mixed with distilled water and taken by cup, spoonful to infants or put on sugar or candy for children.

**WHO MAY GET THE ORAL VACCINE?**

The vaccine may be given to persons of all ages. It is safe for new-born infants but it may be necessary to give a booster dose at about one year of age to infants who received their first dose under the age of six weeks. In this mass immunization program, vaccine will be given to babies from three months of age and up.

**WHAT ARE THE RECOMMENDED DOSES?**  
For children of three months of age and adults, the recommended dose is three drops of the diluted vaccine.

**ARE THERE ANY REACTIONS FROM THE ORAL VACCINE?**  
No, all studies have demonstrated the absolute safety of the oral vaccine and no side reactions of any nature have been demonstrated to be caused by the vaccine.

**ARE THERE ANY CONTRA-INDICATIONS?**

The vaccine should not be given to acutely ill persons with a temperature of 102 degrees or over. It is recommended not to give it to persons who have had an adenectomy or tonsilectomy within two weeks prior to the vaccine, and not to perform such operations two weeks after the vaccine is given. Chronic diseases, agammaglobulinemia, inoculations of smallpox vaccine, DPT, pre-maturity and pregnancy are not considered contra-indications. Treatment with corticosteroids is not a contra-indication. Persons allergic to penicillin or to eggs may safely take oral polio vaccine.

**WHEN WILL IT BE GIVEN?**

Type I will be given Sunday, August 26, 1962. Types II and III will be given at a later date, to be announced.

**HOW MUCH WILL IT COST?**

The vaccine will be distributed at a cost of 25¢ per dose, or free if the person is unable to pay.

## Research On Sunflowers

Farmers throughout West Texas may be growing sunflowers as a cash crop in the near future, if scientists at the High Plains Research Foundation are successful in their attempt to breed improved varieties for commercial use.

The sunflower plant, which was being used by the Indians when the earliest European explorers discovered North America, offers considerable promise as a potential cash crop for West Texas. Of particular importance is the fact that it is a drought tolerant plant well adapted to our soil and climatic conditions. It can be grown with less water than most other crops such as corn, grain sorghum, soybeans, cotton, and castorbeans.

Several hundred plant types from Russia, Canada, Chile, Columbia and South Africa are under study at the Foundation. Dr. Earl Collister, Chief Agronomist, and Barry Love, Assistant Agronomist and Paul Belcher, Technician, are conducting the plant breeding program. Superior plants are being self-pollinated for use in developing high yielding varieties adapted to complete mechanization. The goal of the breeding program is to develop varieties that can be harvested with a regular grain combine.

The sunflower seed could be marketed as an oilseed crop to oil mills, sold directly to feed mills, or consumed on the farm as feed for poultry and livestock. The whole seed is an excellent feed for poultry and livestock. It contains a higher percentage of total digestible nutrients, protein, and fat than many other feed crops, particularly corn, oats, and wheat.

Sunflower seed contain approximately 30 percent oil or fat, which is classified as a very high quality semi-drying oil, and approximately 22 percent protein.

The oil is used in the manufacture of drugs, shortenings, salad dressings, oleomargarine, and liniments. The meal or flour from the sunflower seed is an excellent source of protein, minerals, and vitamins. It contains above 50 percent protein, is unusually rich in calcium, an excellent source of thiamine or vitamin B1, and particularly outstanding in its supply of niacin. From the standpoint of nutritional value, sunflower meal would be a very desirable ingredient in human food products.

On commenting about the future of sunflowers as a crop for the future, Dr. Collister stated, "sunflowers could be an important cash crop for the farmers of West Texas, since it can be grown with less water than most crops."

# ATTEND CHURCH Every Sunday

The Church Is Your Guide-Post To Better Living.

The Churches Of Plains Welcome You

*Make a Wish...*

## FOR HIS FUTURE

A birthday party really thrills the children, and probably the climax comes when they blow out the candles, and make a wish. His wish would probably be for a bright shiny new toy, but you as a parent would wish for him the things that really count, such as good health, happiness, friends and along with these deeper and more serious things should be a prayer for him to have the right interest and relationship to God. You can help these things by taking him to church Sunday.

**EVERYONE IN THE CHURCH THE CHURCH IN EVERYONE**

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

## College Graduates' Job Prospects Bright

Employment prospects for the 1962 college graduate are bright and will continue to improve, but his untrained neighbor will find the going rocky, according to Changing Times, the Kiplinger Magazine.

An article in the current issue of the magazine notes that company recruiters were swarming on college campuses this spring with more jobs than were offered a year ago and with higher starting salaries. Paradoxically, the magazine reports, the prospect for untrained job seekers -- youngsters who dropped out of high school before graduating and those who got no education after high school -- are gloomy.

Technical and scientific starting salaries for college graduates averaged around \$560 a month and non technical about \$475, the article states. "Most interesting increases in money offers were for liberal arts graduates, who are usually at the bottom of the salary heap in campus hiring . . . this year recruiters were having a hard time filling their quotas -- first, because there were more openings, and second, because more and more students are going on to graduate work."

Nevertheless, the magazine warns, "Unemployment, in spite of everything the federal government is doing to fight it, still runs at about four to five million -- as much as one in every 20 workers including many who haven't been able to find jobs for many months . . ."

"To make matters worse for the hard core of unemployed, newcomers are pouring into the labor force in greater numbers than ever before. This year's college graduating class was the largest in history; and from now on each June's crop of graduates will set a new record." New materials, new ma-

chines, new discoveries in medicine, weather and space create a demand for multitudes of trained workers, the article continues. "Gradually, all occupations are being upgraded. Even the simplest of office tasks will soon be done by machines, and running the machines will require training. Jobs for the unskilled and the untrained will diminish steadily and just about vanish."

By 1965, the magazine predicts, demand for high-level workers will be so great that for every seven professional and technical jobs there will be only five available qualified workers. But, "for those who haven't acquired skills or education, there will be three such workers for every two jobs available."

According to Changing Times, jobs will grow at the fastest rate in these categories: professional and technical; clerical and sales; service occupations. There will be above-average expansion of opportunities, too, for administrative and skilled workers. "But semi-skilled and unskilled workers and those who make their living on farms will find their occupations lagging behind the growth and even contracting in the face of it."

## Young Texas Program Begins

A statewide youth recognition program to select an outstanding young Texan each month will be inaugurated by Optimist Clubs of Texas and the Troy V. Post Foundation. The search, with some 7,000 Optimists throughout Texas as "scouts," will begin in July and the first "Young Texan" designees will be announced August 15, and monthly thereafter.

Each young man chosen will be known as "Young Texan" of the month--defined by the Optimist as a future leader of the state by virtue of his exceptional performance as a good citizen at home, school, church and in other community affairs. Any boy between the ages of 13 and 19 at the time of nomination, who is a resident of Texas, is eligible. The award is not based on need, athletic prowess, or any single achievement, but rather on over-all accomplishments. It is open to all teen-age boys regardless of race, creed, color or national origin.

A panel of twenty judges headed by Governor Price Daniel will examine qualifications of monthly candidates and select one winner from nominations submitted by the four Optimist Districts within Tex-

## Examinations Announced By Civil Service

The United States Civil Service Commission announces that applications are being accepted for Education Research and Program Specialist positions with the Office of Education located in Washington, D. C. and throughout the United States. The salaries range from \$6,435 to \$13,730 a year.

Appropriate education and experience in a professional educational capacity are required. Graduate study may be substituted for the professional experience for positions paying \$6,435 and \$7,560 and in part for the higher paying positions. Details about the duties and requirements are contained in Announcement No. 284B.

Applications will be accepted until further notice by the Board of U. S. Civil Service Examiners, Office of Education, Department of Health, Education, and Welfare, Washington 25, D. C.

Announcements and application forms may be obtained from most post offices throughout the country or from the U. S. Civil Service Commission, Washington 25, D. C.

### Yoakum Oil News--

(Continued from page 1)

Total depth is 8,957 feet, with seven-inch casing set at 8,347 feet.

The well is 1,880 feet from south and 1,980 feet from west lines of section 863, block D, J. H. Gibson survey.

David Fasken of Midland has announced plans to drill No. 1-X-D Jones Estates as a relief directional hole to plug the No. 1-D Jones Estate, North Gaines County wildcat which blew out from the Yates.

No. 1-X-D Jones is 12 miles southeast of Denver City and 690 feet from north and 570 feet from west lines of section 376, block G, depth is 3,500 feet.

Operator plans to dig venture to about 2,300 feet and then whipstock into the No. 1-D Jones Estate and attempt completion in the Yates.

No. 2-D Jones Estate, Fasken's 13,000-foot Devonian wildcat in Gaines County, now is waiting on cement to harden after setting 9 5/8-inch casing at 5,000 feet.

The prospector is 660 feet from north and 330 feet from west lines of section 376, block G, CCSD&RNG survey.

Union Oil Company of California will drill No. 6-1-A Jones Estate, 1,789 feet from south and 2,184 feet from east lines of section 1, block A-8, PSL survey. Contract depths is 8,300 feet. Sun Oil Company will drill a venture, No. 1 ODC, 13 miles east of Denver City in the Reeves (San Andres) field of Yoakum County.

The 5,800-foot operation is 660 feet from south and 330 feet from west lines of section 878, block D, J. H. Gibson survey.

and community leaders alike. Its purpose is to bring favorable and positive public attention to deserving young Texans, and to counteract the negative reaction of the general public toward youth--an opinion created primarily by two per cent of teen-agers who are "juvenile delinquents" and receive bad publicity for the teenage group far out of proportion for this small percentage of offenders.

The program will be underwritten by the foundation established by Troy V. Post, Dallas banking, investment and insurance executive who has a long-standing interest in youth and their development into outstanding adult leaders.

### Machines Have Big Farm Role

Today's farmer may use as many as 35 different types of machinery during the year.

"The increasing variety and complexity of machinery helps get the job done faster and easier than ever before, but not necessarily more safely," said Marvin J. Nicol, the National Safety Council's director of farm safety.

Nicol's comment came on the eve of the 19th annual National Farm Safety Week, to be observed July 22-28.

According to a study in Indiana, one out of six non-fatal farm accidents involves machinery other than tractors. Tractors account for about 45,000 non-fatal injuries each year, and fatalities are on the increase.

"Despite variance in machines, common sense and basic rules of safe handling apply to all," added Nicol. "If followed consistently, the needless waste of human resources can be drastically reduced."

FOR SALE: Three bedroom and den, brick home in nice part of town. Contact Roy Stockstill at GL 6-3883.

### FFA Takes Fishing Trip

Seventeen members of the Plains Chapter of Future Farmers of America accompanied by six adults including the FFA sponsor, Mr. Jerry Stockton, were reported to have very much enjoyed an excursion to Lake Brownwood last week-end.

The boys and adults participated in fishing, water skiing, boating and campout.

The group traveling in a truck loaned to them by Tokio Co-op Gin, left Plains at 5 a.m. on Friday morning and returned on Sunday at about 8 p.m.

### Try This One

Cinnamon toast is quick to fix and delicious anytime of the day. Change the cinnamon-sugar topping occasionally by sprinkling enriched toast slices with a grated orange rind and sugar or a honey-nutmeg mixture. For the coffee lovers in your family, sprinkle toast with a mixture of instant coffee and sugar.

## Of Interest To THE WOMEN

### Look Who's Here

Mr. and Mrs. Kenneth Gibson are the proud parents of a daughter born Wednesday, July 18, in the Yoakum County Hospital. She weighed 6 lbs. 10 ounces and has been named Konni Marlene. Grandparents are Mr. and Mrs. Ben Gibson of Plains and Mr. and Mrs. Earl Chrest of Bowbells, No. Dakota. Konni is welcomed by a brother Kenneth.

Mr. and Mrs. Danny McClellan are the proud parents of their first child a daughter born Monday, July 23, in the Terry County Hospital. She

weighed 6 pounds 8 ounces and has been named Donna Joe. Grandparents are Mr. and Mrs. Ralph McClellan of Plains and Mr. and Mrs. O. E. Cisco of Mina, Arkansas.

Mr. and Mrs. Frank Crump of Bronco announce the arrival of a son born Monday, July 23, in the Yoakum County Hospital. He weighed 7 pounds and has been named Randy Max. Grandparents are Mr. and Mrs. J. M. Crump of Rockdale and Mr. and Mrs. Skelton of Laport.

### The Local Angle

Enjoying bridge Saturday night in the home of the Buddy Hannaswerts, the Rip Sewells, Don Lackeys, Kenneth Hales, Foy Floods, Bill Loyds, Johnnie Fitzgerald and the host and hostesses the Johnnie Moores and Buddy Hannas. Refreshments of Bar-b-que hamburgers, chips, relishes, and black bottom pie, coffee and cokes were served. Rip Sewell walked away with the prize for high score, Ellen Sewell won traveling prize and Johnnie Fitzgerald won low.

Sponsors were Mr. and Mrs. Earl Hunt, Mr. and Mrs. Murrel Thompson and Reverend and Mrs. Walter Driver.

### Cooker Tester Available

Miss Judy Pool, county home demonstration agent has announced that a tester for pressure cookers is on hand in the office in Plains and that it is available for Yoakum County residents.

One of two methods may be used to test home-canner type cookers. The tester is available so that local residents may take it to their homes or they bring their cookers into the office. "It is wise to check your old cookers," said Miss Pool. "The gauge on your present cooker shouldn't be more than two pounds, and if it is, it should be replaced with a new one."

There is also available in the office, a booklet on home canning.

NATIONAL FARM SAFETY WEEK JULY 22-28, 1962

# Calvin Smith Sets Record

One Plains Little Leaguer, Calvin Smith, has made quite an enviable record for himself this season as pitcher for the Yankees and as pitcher for two out of the three games played in the District II All-Star playoffs held last week in Brownfield.

Twelve year old Smith is the son of Mr. and Mrs. H. G. Smith of Plains, and he will be in the seventh grade in school this year.

During the regular season of play Smith pitched the ball to 91 batters and only gave up one hit. Of those he faced during this season, he struck out 73 of them.

In all the games he pitched in, which totals seven, he only allowed one hit, one run and only gave up bases on balls to 14 opponents, and as District competition in Brownfield revealed, when the all-stars are compared to the regular teams in Plains, he was facing some mighty fine potential hitters.

Smith has been described by one spectator, who is in the coaching field, as the finest potential athlete he has ever seen.

Smith hurled the ball to the 91 batters he faced with a great deal more speed and accuracy than one usually expects to find in a boy so young as he is, with his left arm, which also did some fine service at first base during the games in which he was not eligible to pitch.

During the District play in Brownfield, Smith pitched two of the three games and again made a mighty impressive showing.

In the first game against a combined team from Sundown and Whiteface, he allowed no hits and only walked one man who was tagged out later at first, making Smith face only the minimum 18 batters in six full innings of play, in a game that wound up 20-0 in favor of Plains. In this game the remaining 17 batters were all struck out.

Smith also pitched the third game of the series in which Plains was defeated by Levelland, a team which had on it some of the biggest and strongest boys that one could ever hope to see playing Little League baseball. He only allowed three hits and four runs in this tilt that wound up Plains 3 and Levelland 4.

In this final game of the season Smith managed 12 strikeouts. Therefore for the entire season, regular Little League play, and all-stars combined Calvin only gave up a total of four hits to the more than 130 batters faced.

This is an outstanding record for anyone and Plains Little League fans are justly proud of Calvin, one of the finest players we've seen.

CALVIN SMITH

# Yoakum SCD News

New Conservation Plans were delivered to Leon Huff on the Virginia Moore place and the Helen McClure farm. These were old Conservation plans that were brought up to date with new maps and new plan of operations for each farm.

Howard Bourland who farms the W. O. Moore place South-West of Plains revised his new plan for that place. Howard reports his new sprinkler system has really saved the day for him this year. A new plan was delivered to J. D. Jones West of Denver City. J. D. has a Great Plains Conservation program contract as well as a District program. He plans to plant several acres to grass as a part of his Conservation farming program.

Cecil Tucker who farms the Mrs. E. D. McMillian place says he would like to plant some irrigated grass and install an under-ground high pressure irrigation pipe line as a part of a new Conservation program. Work was completed this week with Cecil and Mrs. McMillian on the writing of the new plan.

New plans are also being written on the Wayne H. Williams place and on the David Whither places.

Grass planting continues and with the good rain the results should be very good. Ray Bearden, Danial Nelson, Hayden Box, J. Presley White Jr., E. C. Hatten and Wayne Buzan are a few who are planting grass this week.

Ty Fields reports he has completed aerial application of chemicals or shen-oak control. Ty has sprayed about 7,000 acres this year. Past results of this type of brush control have been very good and with the good moisture conditions they should be good again this year.

## Safety Belt Work Shop

There will be a Safety Belt Workshop held Tuesday August 14.

Mrs. Tom Box, Mrs. Terry Bacon and Mrs. Roy Perkins will give a skit on "To Belt or Not to Belt". There will also be a film on Safety Belts and a question and answer period by an employee of Texas Department of Public Safety. This is open to the public and everyone is cordially invited. It will be held in the club room.

This program is sponsored by the Health and Safety Committee of the Home Demonstration Council.

The skit was presented at the State Home Demonstration Association in San Angelo last year.

The Plains Record

PLAINS ALL-STARS -- Took second place in District 2 play held in Brownfield last week. They defeated a combination team from Sundown and Whiteface on Thursday and Ropes on Friday, but were outdone by one run at the hands of Levelland in the finals on Saturday.

# Cotton Bowl Sets First Annual Rodeo

Dallas -- Plans have been finalized and dates announced for the first annual Cotton Bowl Rodeo, to be presented in the State Fair Livestock Coliseum Dec. 27 through 31.

There will be seven performances, with go-rounds scheduled each night and matinees on Saturday and Sunday, Dec. 29 and 30.

The Cotton Bowl Rodeo, sponsored by the State Fair of Texas and sanctioned by the Rodeo Cowboys Association, follows the National Finals Rodeo, held in Dallas during Cotton Bowl Week for the last three years. The national Finals will be held in Los Angeles this year in early December.

"The high standards of rodeo set by the National Finals in Dallas will be continued by the Cotton Bowl Rodeo," said James H. Stewart, executive vice president and general manager of the State Fair.

"Two of rodeo's top producers and stock contractors have been signed to produce the Cotton Bowl Rodeo," Stewart said. "They are Lynn Beutler of Beutler Brothers in Elk City, Okla., and Harry Knight of Fowler, Colo."

"This will insure that the Cotton Bowl Rodeo will have first-

class direction and the best bucking stock available, and will continue to be a rugged, fast-moving, competitive attraction as it has been during the past three years in Dallas," Stewart said.

In addition to competition in the five standard rodeo events of saddle bronc and bareback

riding, bull riding, steer wrestling and calf roping, the National Finals of the Girls Barrel Racing will also be presented during the Cotton Bowl Rodeo, Stewart said.

"There will also be some extra added attractions calculated to make the Cotton Bowl Rodeo a real family show. These will include appropriate entertainment and specialty acts such as clowns and trick riding," Stewart said.

## Rodeo Set--

(Continued from page 1) will receive a \$40 gift certificate and a large trophy belt buckle and each of the three runners-up will receive \$10 gift certificates.

The annual barbeque will be held on Saturday at noon in the Yoakum County Park in Plains. An admission ticket for Saturday night's performance of the Rodeo will also entitle the bearer to a free barbeque meal on Saturday.

## Moore of Less--

(Continued from page 1)

"So, too are the "In God We Trust" imprints on our coins, chaplains in the armed forces, baccalaureate services and religion courses in schools and colleges, Bibles in school libraries, maybe even vaccinations for school children (which several religious groups have protested) and even laws against bigamy. Where will it end?"
