looms as one of the most important voting days ever to occur in a so-called 'off year' the presidential race is not on the ballot.

Political observers, viewing the light turn-out in the Spring primaries, are justifiably alarmed about the prospects of

Their concern is mirrored by statistics. Since 1936, the average turn-out in a non-presidential election has been a dismal 33.4 per cent of the eligible voters.

This should not be the case this year.

Next Tuesday, all of our State

Tuesday's general election Senators will be selected, due to re-districting.

And next Tuesday, voters will determine their county's strength at the 1968 State nolitical conventions. This fact too often is overlooked. As the election law now stands. our county will have one vote at the state political convention for every 300 votes cast in the governor's race. A heavy turn-out of voters Tuesday will give us a stronger voice two years from now.

Your vote is yours alone; no one else can cast it for you. If you don't use it, it is lost. Your voice in the future conduct of our state and nation

As Texans prepare to go to the polls next Tuesday, it ap-

pears that U.S. Senator John Tower and Attorney General

Waggoner Carr are running neck and neck in Yoakum County

with a photo finish forecast. The party faithful have worked

hard to close ground on the incumbent Republican Tower,

and the Democrats appear to have made some gains within

the past 10 days, but strong individual support continues

The picture throughout the state remains about the same

as it is locally, but most political forecasters state that

Tower has a slight lead over Carr. Most of the political

writers are still waiting to see what impact the president's

return to Texas will have on the race. All eyes are also

turned on the liberal wing of the Democratic party await-

ing the answer to see if they flock to the polls in big numbers

to vote for the Democratic team which they admitedly don't

want to support. The liberal strength is most felt in the

populas Houston area. At the recent state convention, many

Houston delegates voiced their disapproval of Governor Con-

Unlike Senator Tower, Waggoner Carr has a radiant per-

sonality and has tried his best to put it in contact with as

many voters as is possible. The two men are in basic agre-

ement on the Viet Nam stand, and both men are considered

to be from the conservative wings of their parties. Carr

has campaigned hard telling thevoters of his record of At-

torney General, which is a good one. He has stressed the

point that if elected he can work closer with President John-

The editor of the paper advised the citizens that calls should be made to the city hall advising them of the situation. If the case warranted a complaint, the editor advised that a complaint should be made against the person who owns the animals.

The City Secretary announced last week that a crackdown would start to remedy the situation.

Also civil statutes state that the owner of an animal is liable for that animals care and conduct. In extreme cases where an animal viciously attacks and maims or kills a child, then criminal proceedings can be sought.

Dog owners are requested to watch their animals and take steps themselves to confine or destroy the animals when viciousness is apparent.

### Congressional Report On Washington Session

of Senator Tower's last weekly report to Texans for this session of Congress:

The following is the text

As this session of Congress comes to a close we can look back ona number of important accomplishments for our state and nation. And, we can see that several national problems remain with us.

I have been particularly pleased to see 20 bills bearing my name passed by the Senate in this 89th Congress. They range from water and soil conservation measures, to anti-inflation action, to San Antonio's HemisFair.

The Law Enforcement Act which I supported now is heginning to provide funds to to our state for training and research in crime and riot prevention. I've also sponsored a bill enabling Texas to set up a computerized crime-information center tied in with the FBI's national information

And, noting that the draft laws carefully provide that public safety at home be preserve I have asked that key police personnel be deferred from the draft to help us mount a Crusade against Crime.

A long overdue program of improvements in medical care for our active-duty military personnel their dependents and military retirees has been enacted with my support.

A measure Senator Sparkman and I introduced has become law, granting added federal loan funds to the hardpressed homebuilding market. We hope this will make home loans easier to get. I also backed a bill from my Banking and Currency Committee to relieve high interest rates.

The Senate refused to pass the 1966 Civil Rights bill containing a Housing provision many of us felt would infringe on the right of Americans to buy, own and sell their homes. In its wisdom, our Constitution provides that such local matters remain for local solution, not federal dictation.

In anti-inflationary action, I voted this year to cut some \$4 billion of unnecessary federal spending. As I have constantly said all across our state, federal deficit spending is the cause of our cost-of-living increase. When related to items budgeted by the President, my votes as your United States

Mourners paraded the streets of the nation, and rummours had it that the residents of Plains were shocked indeed to hear of the untimely death of DR. Doug Cassen on 'As The World Turns.' In fact in some quarters it was the most shocking death since Emmory Bannester expired on the late program (which died itself a short time later) 'Young Dr. Malone.'

Rummors had it that surely the businesses in Plains and the county and city offices would close for the funeral, but at press time we were unable to check out the actual numbers of the offices and business places that closed. (We would bet that if the ladies would have had their way, a national day of mourning would have been declared.)

It is rummored that the chief magistrate and high mayor of Plains was requested to prooclaim a day of mourning in the Yoakum County seat town of Plains. What a strain it must have been for mayors, governors, and other proclaimers throughout the land.

It was even told that the editor was seen wearing a black band on his left arm. (He doesn't deny it, so it is bound

to be true.) There is an unwritten code in Plains that anything which tends to be on the michievious side in Plains where the young'uns are concerned the editor will be hanged (probably in effigy) if he puts a word into ink about it. But when it comes to water tower artists I believe our town can outclass anyother contenders. We expect the bravest water tank gang in any town to be the muscle boys of the gridirion, but our own crew happened to be from the skirt set. We understand the city fathers were pretty unhappy over the incident, but in reality they were only concerned with the girls safety. We don't consider the act really bad, because if a town has a water tower then it becomes the prime target of every Junior and Senior Cl-

We suggest if the city fathers are really interested in the safety angle that they provide a day for supervising the painting of the water tank.

This might work better than a fine. We also suggest the city name an attorney for our fair city, because they will probably find that the city council can't fine anybody. They can indeed file a complaint and then if convicted the guilty could be fined by a city magistrate, who in our own case is Judge Bandy, since Judge Teague resigned. Now don't missumderstand me, because I believe that in any case where a juvenile is big enough to pull a prank, then he or she should be big enough to face the

ITEM: Cool water is usually the best first aid for clothing spots and stains. But not on ball-point ink stains. Never apply water to this stain. If you do the stain will become a permanent part of your wardrobe. These inks were made to work under water.

ITEM: Kitchen towels are usually made of linen, cotton, or combinations of cotton, linen and spun rayon. Linen has natural characteristics that make it desirable, as it absorbs moisture readily, dries quickly and is lint-free. Cotton is less expensive, yet when given special finishes, it acquires the same characteristics. Spun rayon, combined with cotton and linen, adds to a towel's absorptive and non-lint qualities.

#### A team for a better Texas

for you! Governor John Connally and Attorney General Waggoner Carr have worked together for 4 years to give Texas and YOU a better state and better opportunities.

As a United States Senator in Washington, Waggoner Carr will co-operate with Governor Connally to work for better education, more jobs, benefits for our elderly, and better prices for our farmers, ranchers and dairymen. He will do what is right for Texas!

### A reminder of SENATOR TOWER'S Service in Washington for **TEXAS FARMERS**

HERE ARE A FEW OF THE MAJOR PROJECTS SENATOR TOWER HAS

He supported soil and water conservation projects so necessary to the future of agriculture in Texas.

He sponsored six key bills on water resources, conversion of brackish water, desalinization, and rural water systems. Five of the six already have become law and are benefitting Texas farmers.

He served as a leader in the action against suspension of the investment tax credit which would amount to \$100 million tax increase on American agriculture.

He supported necessary subsidies to help offset the artificial economic conditions created by too much government in agriculture.

He flatly rejected the contentions of some federal bureaucrats that farmers and ranchers are somehow responsible for the inflation really caused by federal deficit spending. He has fought hard against restricting or freezing farm prices.

He sponsored legislation making federal crop insurance available in high risk areas.

He sponsored legislation to allow states to regulate recruitment of foreign agricultural workers needed to harvest crops.

He has supported the REA's position in working to maintain status independent of Federal Power Commission control. He also cooperated with the REA's efforts in supporting federal bans for rural community water systems.

YOU COME FIRST WITH SENATOR JOHN TOWER

Senator Tower serves you as a STRONG FRIEND OF THE LAW AND OF CIVIL ORDER.

Senator Tower serves you as an effective FIGHTER AGAINST INFLATION AND SKY-ROCKETING PRICES.

Senator Tower serves you as a LEADER IN THE PURSUIT OF VIC-TORY IN VIET NAM.

YOU CAN COUNT ON THINGS GETTING DONE WITH SENATOR JOHN TOWER ON THE JOB.

He has earned National Congressional seniority and gained experience no new Senator could replace. With John Tower in the Senate, Texas has the distinct advantage of having its voice heard in the highest leadership councils of both parties.

**HE'S DOING A GOOD JOB FOR TEXAS**

TEXAS IS ON THE MOVE!

In virtually every field of endeavor, our state has made dramatic progress the past four years under the strong leadership of Governor John Connally. His administration's bold, yet sensible programs have helped provide new opportunity and a better way of life for all our people.

IMPROVED EDUCATION — Since 1963, state investment in higher education has doubled, and faculty salaries have increased 40%. State support of local public schools have increased 44% in four years, including a \$100 million teacher pay raise enacted in 1965. Technical and vocational training programs have been vastly increased; junior college enrollment doubled during the current bi-ennium. Special literacy programs for migrant workers and their children have been expanded. A college student loan fund of \$85 million has been established. And a special Covernor's Committee on Public Educations. been established. And a special Governor's Committee on Public Education currently is studying all facets of elementary and secondary education.

WATER RESOURCES DEVELOPMENT — Long range planning and development have been given top priority. \$100 million in bonds have been issued for development of needed storage facilities; authorization has been granted to expand this program to \$200 million for the next two years.

CONCERN FOR THE AGED AND NEEDY - Since 1963, assistance to our elderly has been increased 27%. The Governor's Committee on Aging is continually working for the benefit of our senior citizens.

OUTDOOR RECREATION - More than \$2 million has been invested in improving ten of our most attractive state parks during the past two years to provide additional recreational facilities.

INDUSTRIAL EXPANSION - A record 855 new industrial plants have been established the past three years, moving Texas into second place in the nation in industrial expansion.

Last year, more than 23,000 new jobs were created in manufacturing alone
— the best year ever for the Texas labor force.

INCREASED TOURISM — More than 12 million tourists visited Texas last year adding more than \$900 million to the state's economy, and creating 140,000 new jobs. The state's tourist advertising program has been sharply expanded. MENTAL HEALTH AND MENTAL RETARDATION — New emphasis on prevention of mental illness and mental retardation has been achieved through establishment of new community centers, replacing the former practice of "ware-housing" patients. Investment for research into causes of mental disorders

has doubled the past four years.

BETTER HIGHWAY TRANSPORTATION — Texas has more farm-to-market roads than any other state — more than 35,134 miles. We lead the nation in construction of interstate highways, at a cost 40% below the nation's average. COMBAT AIR AND WATER POLLUTION — New legislation for public health, "The Clear Air Act of Texas," provides state action to combat air pollution. Similar vigorous action has been initiated to control pollution of Texas streams, bays and estuaries.

NEW CULTURAL GROWTH — The Fine Arts Commission was established in 1965 to nurture the cultural enrichment of Texans. The state's cultural heritage will be preserved and portrayed in the state's pavilion at HemisFair '68 in San Antonio.

BUSINESSLIKE ADMINISTRATION — With unprecedented teamwork, our state government has operated responsibly and efficiently. The Legislature has finished its work on time in each session. Following a pay-as-you-go policy, we have maintained a healthy surplus in the general revenue fund without curtailing essential services.

HEALTHY, GROWING ECONOMY — Business activity rose 11% last year, as Texas continues one of the brightest growth areas. Employment and income are at an all-time high, unemployment at an all-time low. Despite increased responsibilities, our state government costs only \$168.78 a year per citizen, fourth lowest in the nation. No broad-based tax has been enacted the past four years. Texas still has no personal income or payroll tax, no corporate income tax, and is one of few remaining states with a limited sales tax of 2%.

LET'S KEEP THIS KIND OF PROGRESS AND PROSPERITY FOR TEXAS! HELP GIVE AN OVERWHELMING MANDATE FOR THE VISIONARY LEADERSHIP OF DEMOCRATIC GOVERNOR

FROM PAGE 1) Asian Conference which I've long suggested.

In the meantime, those of us here at home must do everything possible to assure full support for our fighting men.

Many Texans are defending freedom in Southeast Asia. Both as a Senator representing Texas and as a member of the Armed Services Committee, I feel it incumbent upon me to have the best possible knowledge about what needs to be done to end this conflict.

Therefore, at the earliest opportunity I intend to return to the combat zone to be with (SEE ABOVE)

our boys there, to convey to

them the support of all Americans, to study their needs, and to bring back another report on our progress there.

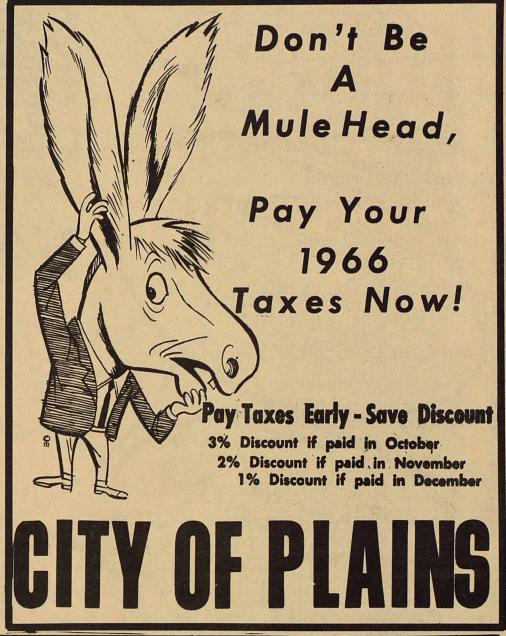

I believe Texans expect their Senator to go wherever neccessary to represent them. Whether it be to our schools, businesses and oil fields, into our farm pastures and ranchland, or into the combat areas.

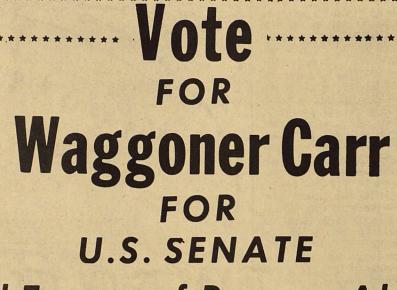

I know we all remember the success of the Texas Gift-Lift to Vietnam during last year's Christmas season. This year many additional transport facilities are in operation to Southeast Asia, and there is not expected to be any emergency shortage of space for gifts. However, all of us need to cooperate in getting packagesto our men overseas

I'll do just that ..

The deadline for regular mail to Vietnam is November 10. The air mail deadline is December 10. Just to be sure, it would be wise to get your mailing done even earlier than

T. J. Bearden farmes several acres of both dry and irrigated grain sorghum. He knows the value and uses of residue to save his soil and moisture.

## \*\*\*\*\*

Pretty weather is fine on cotton but small grain, cover crops need a rain. Some irrigation farmers are beginning to waterin order to save the crop. Grain sorghum harvest is well along and in a few places land is being prepared for next year's crop or to blow! Some are shread-

ing stalks while waiting on the cotton to completely open and of course that is a good way to loose moisture. Some are finding after the stalks are shreaded they don't have enough moisture to plow and the are in trouble.

Maize stalks will hold needed moisture, as much as on to two inches, catch snow, help prevent wind erosion and save money if you will leave them on the land standing. There is ome land that needs plowing but there is more that needs protection from wind erosion in our District.

Some good examples of using crop residue for wind and moisture erosion control are, T.J. Bearden, Charles and Bill Faust, H.W. Taunton, Lee Roy McCravey, Robert and Bobby Chambliss and Johnnie L. Fitzzerald. How about you, are

and March? Work this week has been in the form of redesigning an irrigation system on R.C. Trout at Tokio. New Conservation planning and revision of Conservation plans on Kenneth C. Engle, Jimmie Cox, Jack Spears and Walter Knight. A New Great Plains contract was approved and sent to the State office for Allocation of funds on the V.M. Ryuts place operated by O.M. Stewart of the Sligo Community.

Chas B. Thompson accountant of Levelland returned the Audit to the Board this week and reported everthing in order. The annual Report of the District has been mailed for printing and should be ready for distrubition in the very near future. The Great Plains County Committee and the ASCS Committee will meet in the near future to set the average cost and practices that will be eligible for cost share in 1967 program year.

to the laboratory for identification. Most of the stockmen in Yoakum County have containers for collecting worm samples and an additional supply of containers are on hand at the County Agents Office. Anyone who does not have a contaner is urged to get one and keep it handy.

The screwworm eradication program is progressing well ahead of most of the expectations of three or four years ago. The only way for this program to be successful is for every stockman to be on the alert and cooperate with

#### '65' Club Meets

elected president of the '65' Club in Plains and Mrs.D.C. Newsom has been elected to serve as secretary and trea-

surer of the organization. Membership in the club has grown to 16, and the '65' Club meets at the lodge hall of the LO.O.F. each Friday night for

games, association, and refreshments.

Many other people in the community are senior citizens and a cordial invitation is extended to these people to attend a meeting and enjoy the fellowship and activity that the '65' Club affords.
