

Plains Talk

By Harry W. Cayce

From time to time a weekly paper needs a shot in the arm to stimulate reader's interest. The ed has decided to write a new column called 'Plains Talk' each week which will be based on historical fact or legend of Yoakum County and the South Plains with an occasional dip into Eastern New Mexico. The column will be written after careful consideration of data gleaned primarily through conversation with old timers and in some instances new comers. Also for the purpose of this column we will keep the sources of our information privileged when requested.

An old timer who told an interesting story about the time when the county was wild and woolly and inhabited by a few homesteaders and cowboys passed on some information which is spicy and interesting. It goes something like this...

A young man arrived at a ranch shortly after the turn of the century and asked for work. This was common in those days as cowhands often drifted, and once in a while a dude came along wanting a chance to become a real rough and ready cowboy. This was the case in this instance. The kid was given a job and was asked if he had a horse and could ride. The young man replied that he didn't have a horse but that he could ride, so the fun started. On this ranch, and for the sake of this story we will call it the Triple C, a real outlaw horse was kept in the corral and had thrown just about everybody who had climbed in the saddle.

The hands told the kid that this was to be his horse and for him to mount up and have a ride. The unsuspecting youth climbed into the saddle and from what the old timer said, it must have been a sight, but the boy was pitched high into the air and came down on his head. There was no movement, and the hands stopped laughing and went to see if they could bring the kid around after the rap on the head. But it was to no avail. His neck had been broken. The hands were sorry, but in those days life expectancy was only about 40, so the incident was soon forgotten.

Not many months passed when a real dude caught a ride to Triple C ranch and asked for a job as a cowhand. He was given the job and put through the same routine and anxiously agreed to mount the outlaw bronc, but told the cowpokes to wait until he changed clothes. In a few moments the dude came to the lot with real eastern boots and a suit and dude hat to match. This was to be the show of the year for all of the pokes on the ranch. The crowd gathered and the dude mounted the outlaw, and that old horse tried all of his tricks but the dude rode for what seemed to be an eternity and finally the outlaw surrendered and the dude stepped off and threw the bronco to the ground and whipped out a knife and cut the horses throat. As the outlaw kicked and died, the dude turned to the awe stricken cowpokes and said that renegade horse will kill no more nor will you. It was my brother that broke his neck out here at the Triple C, I hope you learned a lesson.

Yes times were rugged and people received their fun in strange ways out in Texas on the South Plains where the rattle snake slithered and the norther blew in with a force. But they stuck it out and carved a civilization out of a wilderness which the army engineers said was destined to remain a desert and never to be inhabited by the white man...

Court House News

In the round up of court-house news this week, the County Court has re-appointed Art York as Veterans Service Officer for Yoakum County for a two year term. Art has served in that post since Charlie Gillis was appointed auditor.

The County has also applied for their share of surplus in county and road district highway funds from the state of Texas amounting to \$12,712.11 for construction and improvement of county and lateral roads.

An emergency was declared and orders were issued to purchase a new gaseous chlorinator for the swimming pool in Plains. An order was also issued to purchase a 55 gallon drum of malaphion for parks use to combat mosquitoes.

Dr. Eveline Smiley, Lamesa M. D. has been appointed as the head of the South Plains Health Unit.

The auditor is still working on the budget which will be completed soon.

Tokio Co-op Gin Set Bar B.Q.

The directors and members of the Tokio Co-op Gin invite the public to attend the annual meeting of the gin at the Tokio site Saturday at noon to eat Barbeque and to see the facilities of the gin. Door prizes totaling \$150.00 will be given at the meeting. Fifteen prizes totaling \$10.00 each will be drawn from those who register at the Barbeque.

Barbeque will be served by the ladies from the Turner Home Demonstration Club and the Pleasant Hill Home Demonstration Club.

Guests from the mill, Houston Banking Firms, and the merchandising area will speak at the gin.

One of the most important things of the Saturday activity at the gin will be the distribution of dividend checks to customers of the gin. The Tokio Co-op Gin serves about 200 customers in the area said Amos Smith, manager.

Employees of the Gin include Al Krieg, auditor and bookkeeper, A. J. Crutcher, ginner, and Bill Alexander. Smith reports that Krieg has all of the details for the profit report made to be made available at the meeting for the members of the gin.

Members of the board include: O. A. Pippin, president; Lewis Waters, Secretary; L. L. 'Snake' Smith, Reg. Martin; J. H. Snodgrass; Wayne Sherrin; Carl Lowery; and Amos Smith, manager.

CALL FOR COTTON

A cordial invitation is extended to the public to attend the Barbeque Saturday at the Gin.

Teenie Lowe Ties State Track Mark

John 'Teenie' Lowe raced to victory in the State T. A. A. F. meet at Richardson recently and tied the state record in the 70 yard high hurdles. Teenie blazed to the finish line with an impressive 8.9 to tie the record and win a gold medal.

Teenie is the son of Mr. and Mrs. Jack Lowe of Plains. He will be a sophomore at Plains High School this year and is expected to see action as quarterback on the Cowboy varsity squad this fall.

The Plains Cowboy also won a bronze medal for finishing third in the 120 yard low hurdles in a neck to neck finish.

The Plains cinder star also finished fourth in the broad jump with an impressive five foot eight inch jump. Teenie was the only Plains boy in the State T. A. A. F. track meet this summer.

The Cecil Williams Family

Cecil Williams to Move From Plains to Morton

The Cecil Williams family will be moving to Morton, Texas to work with the East Side Church of Christ as their minister, on September 3, 1967. Seven years ago they had the pleasure of working with this congregation, and feel honored to be asked to return and work there.

In the past 18 months while living in Plains Cecil has been the minister of the Hi Side Church of Christ, and also served as the area representative for the T. V. presentation of the Herald of Truth. He was also cub scout master this past year, and was manager of the Yankee baseball team and was the coach for the All Star Team. He was chairman of the Citizens for Plains and active in working to bring industry to Plains. He also drove a school bus for the local schools.

His wife, Virginia was active in Fine Arts Club and the Home Demonstration Club, and took an active part in the teaching of the Spanish ladies in how to sew. She has taught piano while living here. She also served as a den mother for the cub scouts.

near Whiteface, for new and good used clothing. The Tokio lady wrote to me and asked that we send out the app-

ear for the clothing. She also suggested that if anyone would like to sew for a girl at Gi-

Pig skin practice starts in Plains Monday morning at 7:30 a.m., as a dozen returning lettermen along with a host of strong contenders will arrive at the field house to start drills. The leather is expected to pop and the football will be in the air more this year for the defending champs of District 5 A.

The work will be cut out for the team this year, said head coach Rip Sewell. Our opposition is always rough in this district and the experts pick the Seagraves Eagles as the number two team in the state, the Cowboy pilot said, but he added, the Eagles haven't won district yet, and they will have to do that before going to state.

Coach Sewell says his team intends to fight hard to retain a title that they have had or shared for three years, and said we intend to open up the passing and will throw a strong defense at our opponents this year.

Tahoka and Coahoma have veteran teams again this year, and even though the experts pick Seagraves, it could be a real dog race with Plains, Coahoma, or Tahoka taking the honors.

Plains will field a formidable group of starters, but will be weak in depth. Coach Sewell pointed out that if the Cowboys can keep the injury roster clean, they will contend in every game.

The coaching staff this year is headed by Rip Sewell with John Richey as assistant. Coach Bill Martin, a graduate of Texas University, will coach the B TEAM. Coach Bob Gross will continue as head junior High coach, and expects

to field a strong seventh and eighth grade group.

Returning lettermen include: Greg Jones, Joe Pierce, Billy Spencer, Tony Salas, Joe Beal, Milton Romans, Dan Field, Bill Taylor, Mike DeVries, Steve Simpson, Ronnie Cowart, and Jimmy Massey.

Reserve strength will come from Gary Liles, Hershel Smith, Mike Wilkins, Teenie Lowe, Gary Joe Smith, Jimmy Taylor, Mike Nugent, and Richard Tagle. Others are expected to come out for football Monday.

All District tackle Dan Field is expected to also see action as full back this season. Billy Taylor and Greg Jones also received District honors this year. In all the Cowboys will look good as they start the campaign trail in quest of their fourth consecutive district title, and if they go un-injured they just could sail all the way again this season.

The schedule includes:
Sept. 8 Ropesville Here
Sept. 15 Sundown Here
Sept. 22 Farwell There
Sept. 29 Bovina There
Oct. 6 Sudan There
Oct. 13 Coahoma* Homecoming Here
Oct. 20 Seagraves* There

Ladies' Golf Play Decides Champs

The battle of the links has ended for the fairer sex for another year as Katey Raley won the Annual Ladies Yoakum County Golf Club Tournament edging Marcene Phillips in the finals for Championship honors.

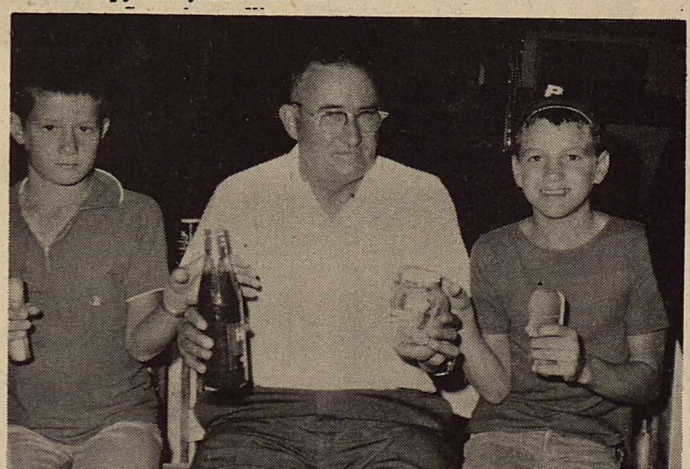

In the Championship consolation flight, the winner was Wanda Henson with Kay Green as runner up.

Other results were: First Flight Winner, Wanda Henson, Runner-up, Shelly Bevers. Fi-

rst Flight Consolation Winner, Jean Poage, Runner-up, Becky Cryer.

Second Flight Winner, Zareta Winn, Runner-up, Winnell Loe. Second Flight Consolation Winner, Drucella Chiles, Runner-up, Ruth Crow.

Third Flight Winner, LaVerna Newsom, Runner-up, Margaret Malone. Third Flight Consolation Winner, Norma Fain, Runner-up, Sherrie Kinsey.

Have a hot dog, says Perry Anthony to Neal Newsom and Mike Blount, members of the Cub baseball team.

ASCS Election of Officers Slated Next Month Here

Yoakum County farmers and ranchers will by their vote elect in September one county committeeman and two alternate committeemen to serve for the 1968 program year, stated W. M. Overton, local ASCS office manager.

Producers may file petitions to have names of eligible nominees placed on the ballot. The petitions must be (1) limited to one nominee each; (2) signed by at least six eligible voters (eligible voters may sign as many petitions as they desire); and (3) received

at the county office on or before August 26, 1967. After the slate of nominees has been determined the official ballots will be prepared and mailed to each person listed on the ASCS mailing list. Both husband and wife may vote. Eligibility to vote and hold office may be obtained at the local ASCS office. In past committeeman elections, almost 100 percent of the eligible voters have cast their ballots; each one is urged to return his ballot and be counted in this important elect-

Serving on the committee at the present time are J. B. Ashburn and R. G. Hartman, who will also serve for the 1968 program year, and T. A. Elmore whose term expires this September. The newly elected committeeman will take office on October 1st, 1967.

Ballots will be mailed to farmers on or before September 10th and must be voted and returned by September 20th; and the wife must sign her given name when signing the certification on the outside of the envelope.

Gin Party Slated Aug. 17

In behalf of the directors and members of the Yoakum County Co-op Gin, David Stowe, manager, invites the public to attend the annual meeting of the gin at the Plains School cafeteria on Thursday evening, August 17 at 6:00 p.m.

Ladies from the State Line Home Demonstration Club will serve the meal. The annual meeting will be highlighted by a Barbeque and directors will give brief talks discussing the years operation and business of the gin.

Stowe announced that nice door prizes will be given away at the annual meeting.

The Yoakum County Co-op Gin is located about four miles west of Plains on the Lovington highway and serves about 100 customers in the area.

The manager of the Co-operative announced that the work is almost complete in putting the gin in readiness for the years operation. He added that the equipment is among the very best in the area, and that the crew is about over through with the maintenance of the machinery.

Farmers will receive their dividend checks at the annual meeting Thursday week at the cafeteria, and all members and the public are urged to bring their families and attend.

Band to Meet

Coy Cook, Plains Band Director, has called an organizational meeting of all students interested in playing in the band this year from the eighth grade through senior high for Monday night, August 14th at 8:00 p.m. Mr. Cook says the meeting will end by 9:30 p.m.

The new band director also said try outs will be conducted for drum major next week. A vacancy was created when Donna Williams, daughter of Mr. and Mrs. Cecil Williams, resigned due to the family moving to Morton.

Cook taught last year at Wilson and is a 1962 graduate of Texas Tech. He was at Wilson for over two years and has served in the U. S. Army. The new band director is a member of the Church of Christ.

THE FAMILY LAWYER

Power of Precedent

On March 18, 1963, the felon conviction of one Clarence Gideon was thrown out by the United States Supreme Court. Reason: at his trial, Gideon had not been represented by a lawyer.

The consequences were astonishing. Hundreds of prisoners, already convicted of everything from murder to robbery to arson, promptly filed appeals and won their freedom. Probably none of them had ever heard of Clarence Gideon before his courtroom triumph. But the rule that covered his case covered theirs too.

Of course, court decisions do not always lead to such dramatic results. Yet, their influence on our everyday life is well-nigh incalculable.

The display on today's newsstand reflects yesterday's obscenity decision. The label on today's medicine reflects yesterday's warranty decision. The cost of today's vacation reflects yesterday's tax decision.

The key to this pervasive influence is the power of precedent. In law, precedent is the means by which the problems of the present are measured against the experience of the past.

Suppose a court has to decide if you were negligent in the way you handled your car on a wet pavement, or the way you swung your golf club, or the way you filled out a check.

The court will examine precedents—that is, prior court decisions—for guidance. The more closely an earlier case resembles yours, the more likely that it will persuade the court to reach the same conclusion.

Precedents are not to be followed blindly. But neither are they to be lightly disregarded. As a matter of plain justice, people in equal circumstances should get equal treatment.

Furthermore, precedents lend shape and predictability to our entire legal system. Countless disputes between individuals are settled without a lawsuit simply because the precedents make clear, in advance, which side will win.

So, in a very real sense, we each have a direct personal stake in what happens to "two other guys" in the courtroom. We want them treated fairly not only for their own sake but also for ours, because—by way of precedent—they are establishing standards of right and wrong for us all.

They are our stand-ins, just as Clarence Gideon was a stand-in for the men in jail. That is why everyone's "day in court" is today.

The last person to go to police school from here was Buddy Wade, who is liking his work and is doing a good job.

CAYCE'S CORNER

It has been indeed quiet around my house this week with Mark and Paris gone. Parents often think it is good to send the kids off packing for grandmother's because the peace and quiet which is yearned for will come; but after a day or two we started missing the children and even want some of the noise to return to our house.

When there are no ears to wash behind, and no more shoe strings to tie, and not anybody around to ask why, it gets lonesome...

If you have been in Lemley's store you will have noticed the "turtle whips" on the wall. Now if you are one who doesn't know what a turtle whip is for, just ask Leonard and he can tell you.

I was one who already knew because of a tall tale that Gene Schoenrock and Buster Graham got started a few weeks ago. (They blame Lloyd Allsup, but can't prove it.)

The tale goes something like this. Whip a turtle on the shell and if the area of your hand remains dry there will be no rain, but if water appears in your hand or on the ground, the signs are right to get the most out of a cloud. All we are sure of is it will be wet in your proximity.

When you stop in at Lemley's place take a look at the full story if you want a big laugh.

Leon Clanahan has lost a swarm of bees. He really wants them back, so if you are bothered with a bunch of bees swarming around the place and have been bombed a time or two, call Leon, and he will claim the critters. By the way...Leon has some of the best Yoakum County honey which can be bought in the grocery store or from Leon. It's a good product...try some honey that was made by hometown bees.

The grapevine has it that Wallace Teaf is going to enter training school to become a highway patrolman. We wish Wallace well, and know that he will make a fine officer with the state police.

★★★ Sen. Tower Tells of Riots ★★★

All of us continue to be deeply concerned about the summer's outbreak of civil disorders and riots. The questions confronting us now center on why these disorders happened.

We have heard a very great deal about the internal, social frustrations that supposedly enrage a few of our people to lawlessness.

But, I would like to suggest to you today that there may well be other contributing causes for this summer's lawlessness—external causes.

I refer to the almost universal feeling that agitation and exploitation of these disorders has been organized and encouraged by forces outside American society—indeed, by forces dedicated to the subversion of American society.

We cannot now say for a fact that this theory of outside agitation is true, but it certainly is one of the first and most important questions to which the congressional and presidential investigators must address themselves.

In many of the cities where disorders have occurred local citizens have witnessed demagogic rabble-rousing by certain unscrupulous spokesmen whose words clearly are designed to inflame passions and to incite small-scale disturbances that can be turned into large-scale tragedies.

For many, many months American citizens have been treated to the "Black Power" harangues of one Stokely Carmichael of the Student Non-Violent Coordinating Committee. More recently, the spokesman for this group—popularly known as "Snick"—has been one Hubert (Rap) Brown.

Those of us here in the nation's capitol were treated just last week to an example of Brown's outright call for violence among Americans. His appearance in a small Maryland town was followed by disastrous fires. His agitation in Washington, itself, was followed by vandalism by teenagers whom police said had just been "rabble-roused a bit too much lately."

The point which our investigations must pin down about Stokely Carmichael and Rap Brown is just this—Do their agitations represent part of an organized, foreign-dominated program aimed at open guerrilla warfare inside the United States?

I can only suggest that as a priority matter our investigators take a close look at what has been happening in Havana, Cuba, this past week; at who is there; and at the public ties between the Student Non-Violent Coordinating Committee and pro-Communist action groups in Latin America.

The facts of the matter are that in Cuba this week the communist parties of Latin America have been holding a massive conference of what they call the Latin American Solidarity Organization. This Havana communist meeting is dedicated to nothing less than the exportation of communism to a dozen other Latin countries. More important, the Solidarity Conference is talking publicly for the first time of direct subversion inside the United States, including guerrilla warfare.

Present in Havana for this planning session is none other than Stokely Carmichael of "Snick". He has associated his "Black Power" movement with communist aims and he has called for a "revolution" inside the United States, and for the assassination of our President.

This is not Carmichael's first venture into the realm of Latin communism. Last January, in a little-noted but increasingly significant action, Carmichael participated in pro-communist demonstrations against the government of Puerto Rico and then established an official alliance between his "Snick" and the communist-dominated "independence" movement in Puerto Rico.

On January 26 Carmichael signed a protocol of agreement pledging "concerted actions" inside the U. S. in cooperation with his Latin colleagues.

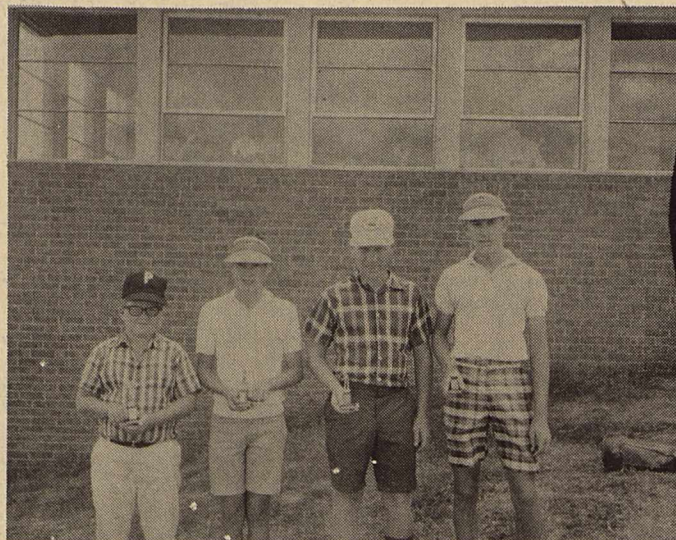

The group with which Carmichael allied his American agitation group had just three days earlier referred to itself as "a bridge over which world revolution can penetrate into the United States."

Thus, the Cuban-organized communists make it no secret at all that their ultimate target is our country. They are busily training revolutionaries to carry Red subversion throughout our Hemisphere. They pointedly say that "the duty of every revolutionary is to make revolution."

The United States would be blind, indeed, not to recognize the open ties between Cuban communism and the persons who are doing their best to stir up lawlessness and destruction here at home.

Americans do not even like to think about the possibility of internal subversion and internal fighting. But there are those in this world audacious enough to plan exactly for that.

I believe Americans have every right to demand that this situation be thoroughly examined and explained. Any persons engaged in plots aimed at eventual overthrow of our society are nothing less than traitors and should be dealt with accordingly.

Winners in the recent juniors Golf Tournament are Travis Loe, Max Littlefield, Mike Terrell and Mike Fain.

**Reading
 Just for Kids**

Each Tuesday afternoon from 3:00 to 4:00 p.m. little pre-schoolers come to the library and listen to lovely stories read to them by volunteer readers. Pam Harrelson and Linda Recer were the volunteer readers Tuesday afternoon. Larry Harrelson and Anita Graham were the only little listeners to visit this week and receive a red sucker while they listened to the girls read. If your child or children love to be read to please bring them by the library every Tuesday at 3:00 p.m.

Also, those reading in the summer reading program this is a reminder that you still have 19 more days left to finish your 12 books and qualify for a reading certificate.

Those receiving certificates will have their names published in the paper. Already 38 readers have finished and are waiting to receive their certificates for 1967.

DID YOU KNOW THAT:

Around the year 1000 A.D. the Mound Builders planted corn on an area near Alto in Cherokee County now used by the Texas Forest Service as a forest tree nursery. Indian Mound Nursery, as it is called, gets its name from the mound that is on the nursery area. Today, eight million pine seedlings, one-half million cottonwood, and other hardwoods are grown annually in the nursery to provide trees needed by Texas landowners for reforestation and windbreak purposes.

He does.

He works for his country—a traveling man. Like seven out of ten government employees, he invests in U.S. Savings Bonds. He saves for the future—his own and America's—when he puts something into U.S. Savings Bonds every payday. Bonds are a good deal.

They earn a good return and make you feel good when you buy them. Buy Savings Bonds where you bank or join the Payroll Savings Plan where you work. You'll walk a bit taller.

R. L. McKenzie Jr.

It is appropriate that we include in this review of conscientious Brownfield business men, R. L. McKenzie Jr., of the South Plains Aero, who has a great many friends and business associates throughout this entire region. Furthermore, he is a man who not only has the reputation of being progressive, but also the added one of being a willing supporter of many community affairs.

Aside from his business activities, Mr. McKenzie has always shown an interest in the civic betterment and progress of the city, and has backed

up his interest by his contributions to many projects which have benefited Brownfield and the surrounding trade area. He is a good and loyal citizen, and the full measure of his loyalty is most apparent because of his willingness to aid community activities.

His help along these lines has made of R. L. McKenzie Jr., an example of the type of man we all appreciate. We congratulate, and extend to him on behalf of all those interested in better business and civic progress, sincere appreciation for his contributions to the general welfare of Brownfield and vicinity.

Wilson Hart

It is a privilege in this Brownfield review of progressive men and firms that have been such a great aid to the growth and development of this section of the Southwest to place such a man as Wilson Hart, of Ingham Incorporated, contractors for the Ozark Machine Company, on an equal plane with all others in this rank. In the past, few men have exceeded him in contributing of their time and energy to the onward progress of this entire region.

Mr. Hart is generally recognized as one of the more conscientious business men in this district, and he retains that distinction in the admiration and respect of his wide circle of friends. Also his interest in, and the very valuable assistance he has rendered to the many projects of a civic nature, reflect the principles which he has always so successfully applied to his business affairs.

We congratulate Wilson Hart on his record, and sincerely hope that his career will be as useful and completely successful in the years ahead as it has been in the past.

Jack D. Brooks

Jack D. Brooks, manager of the Brownfield Tractor Company, has won the universal respect and good will of the people of both Yoakum and Terry Counties for the progressive manner in which he has kept this reliable company in the forefront of the business life of this entire district. Also for the efficient and friendly willingness he has displayed in accepting his share of responsibility in aiding civic projects.

Mr. Brooks is not the kind of man who makes himself conspicuous by the manner in which he conducts himself, either in business or other matters. Yet, his quiet reserve and air of confidence mark him as a man of sound judgment, whose opinions and advice are sought after and listened to with respect.

We compliment Jack Brooks for the successful management of the Brownfield Tractor Company, and also for his constructive advice and help on those civic affairs in which he has found time to interest himself. He is a man whom many are proud to call friend.

Melvin Terrell

We wish in this edition to pay tribute to Melvin Terrell, manager of Dairy Queen, for his many services to the city of Brownfield, and his splendid record of achievements in the business life of this region.

Mr. Terrell probably has as wide a circle of friends as any other person we could name, because he is just naturally the kind of individual who makes friends with almost everyone, and always conducts himself in such a manner as to deserve the respect and good will of all who know him. Brownfield is fortunate in being able to number among its more progressive business men, citizens of this type.

He is always ready and willing to lend his support to the promotion of any project which promises to benefit this entire district.

He may be depended upon, and his services to the people are too many in number to be described here. It may be sufficient to say that we consider Melvin Terrell an asset to the community, and a progressive business man of whom the city may be proud.

PROGRESSIVE AND CIVIC-MINDED PEOPLE OF BROWNFIELD AND VICINITY

This department has been worked up largely as a reflection of public opinion. No person has written of themselves or their business. All articles have been compiled by a representative of the Plains Record as he saw conditions. These people are all leaders in their various lines of endeavor and the co-operation of those citizens in Lovington who helped make this department possible is sincerely appreciated.

THE PLAINS RECORD, THURSDAY, AUGUST 10, 1937, PAGE 4

The Plains Record

PLAINS, TEXAS

Mr. and Mrs. John S. Hixon

Mr. and Mrs. John S. Hixon have proven their dependability by constantly adding to, and increasing the service which Hixon's 66 Service, and U-Haul-Company, has extended to the people. The large volume of business handled by their Phillips 66 station, which serves the people twenty four hours daily, proves that 'service' to them, is not 'just a word', but something to be rendered to the motoring public to the fullest extent of their abilities.

In addition to their close attention to their business affairs, the Hixons were never known to dodge their civic

responsibilities, and help in those matters has always been cheerfully given.

They fully appreciate the value of good will, and have more than their share of that intangible commodity because of the manner in which they meet both business and civic obligations. They are a credit to their community, and are thoroughly established in the forefront of the business life of the city.

Mr. and Mrs. Hixon have many friends and customers throughout this region, and it is a pleasure to bring them before our readers in this review of progressive Brownfield business people.

Mrs. H. D. Miller

A restaurant operator of Brownfield who has based her success upon the belief that the public will appreciate good food, well prepared and appetizingly served, is Mrs. H. D. Miller of the City Cafe,

whose many friends and customers by their daily patronage of her popular eating place, attest to the soundness of her policy.

It is not only because of the successful management and operation of her cafe that Mrs. Miller has come to be recognized as an asset to the community; but it is also because of her policy of 'looking ahead', and endeavoring to sponsor or take part in those community activities which will, in some manner, benefit the city of Brownfield and the people as a whole. She is another of those women who has shown her appreciation for her success by a willingness to contribute of her time and energy to the promotion of community projects.

It is such citizens as Mrs. Miller whom we are privileged to include in this review, and to publicly give her due credit for her success in business and civic affairs.

Jim Bayless

Logically, a man who has earned the reputation of being one of the region's more dependable jewelers would in so doing, have earned the friendship and good will of a great many people throughout this entire district. And one who justly deserves that distinction is - modest, efficient, friendly, Jim Bayless of Bayless Jewelry, who numbers many of our readers as some of his best satisfied customers.

Mr. Bayless is the type of man who would be an asset to any community, not only because the successful conduct of his business plays a definite part in the general civic scheme, but because the ultimate measure of his value to the city and this district, lies in the fact that he is untroubledly zealous, and remarkably successful in the promotion of civic projects.

It would be difficult to estimate the actual dollars-and-cents value of such a man to his community. We congratulate the people of Brownfield for numbering among its more progressive citizens such an individual as Jim Bayless, and we also express the wish that he will enjoy many more years of success.

Vernon L. Clem

It is fitting in this review of progressive Brownfield business men, that we acquaint our readers with the one to be credited with having maintained the Pioneer Natural Gas Company in the enviable position it holds in the business life of this section of the Southwest. That personality is Vernon L. Clem, District Manager, whose genius for organization, and for converting new ideas into actual deeds, has played a vital part in the distinctive reputation which the company now enjoys throughout this entire district.

Mr. Clem has found time, in addition to his business interests, to give thought and energy to community projects. He is a citizen whose talents have been steadfastly devoted to the best interests of the city. He has been successful in his own business, and in the promotion of the general welfare of the community.

We are glad to pay this brief tribute to him, and to say that this district owes much to the many benefits which Vernon Clem and the Pioneer Natural Gas Company have rendered to the people.

Mr. and Mrs. J. S. Hargrove

Brownfield has attained a prominent position in the business and commercial life of this section of the Southwest because of the foresight of those individuals who had the ability to envision the possibilities of the community, and the trade area it serves. And two of those wide awake progressive people who justly should be included in this category are Mr. and Mrs. J. S. Hargrove of the North 2nd Street Laundry, and the Sunrise Trailer Camp, located on the Tahoka Highway.

Such people have, many times over, proven their worth to the community, both as friendly citizens, and as active workers in the civic betterment and progress of the city. And the Hargroves have earned the good will and respect of those in the community for contributing their bit to the general welfare of the city.

Jeanetta Miller

We desire in this Brownfield review to call the attention of our readers to the well-earned position which Jeanetta Miller has reached in the business life of this region. During the comparatively short time she has been the manager in Brownfield for the Red Sands Motel, she has made many personal friends, as well as having earned the good will for her associates for the straight-forward manner in which she has conducted her business affairs.

Mrs. Miller is working hard to deserve the confidence which the people of the community have in her, and she continues to work hard to maintain in every way, that high standard which she has set, not only for herself, but for the management of the Red Sands Motel as well.

She has also shown a willingness to assist in every manner at her disposal in the growth and development of the city, and is always ready to lend her support to civic projects. Jeanetta Miller deserves our heartiest congratulations on the splendid record she has already established, and we sincerely hope for her continued success.

There are many men in their chosen vocations who have gained recognition for the progressive manner in which they have conducted their business, and accepted their civic responsibilities, but who will not permit much to be said of their achievements. But in reviewing a group of such citizens we should include Punch Nelson of the Nelson Prescription Pharmacy, and the Nelson Professional Pharmacy, for he is a man who has always done his work effectively, even though it has been accomplished in an un-

obtrusive manner. Mr. Nelson, busy as he is, always manages somehow or other to do his bit in any movement calculated to benefit the community as a whole. His modesty however, will not permit him to say the things about himself which are said by his friends, who do so because of a personal knowledge of his activities.

We do not hesitate to recommend Punch Nelson to our readers as a citizen who continues at all times to work to the advantage of the people of this entire district.

In compiling this review of progressive Brownfield business men, we have endeavored to select those citizens who, by the manner in which they have conducted themselves and their businesses, have earned for them positions of leadership in their various fields of activities. Such a man is Jackie Moon of the Moon Machinery Company, formerly the Smith Machinery Co. Inc. authorized Minneapolis - Moline Sales & Service.

Mr. Moon's main interests have not been solely confined to his own business and private affairs, but have also included his contributions in one form or another, to those projects of a civic nature which come within the scope of his activities. Jackie Moon is a man of wide acquaintance, whose exploits in the business and rural life of Brownfield and vicinity, merits more than a passing attention, and the writer is privileged to pay this brief tribute to a man who well deserves more credit than is accorded him here.

Robert L. Noble Sr., & Jr., & Bill Noble

There are a number of business men in Brownfield who have gained recognition for their dependability, and three well-known insurance counselors who belong in this category are Robert L. Noble Sr., and Jr., and Bill Noble of the Robert L. Noble Company, whose fair dealings with many of our readers have earned for them a host of friends and policy holders throughout this area.

They are well established in the forefront of the business and civic life of the city. And the ethical manner in which they have conducted

their business affairs, is but one of the reasons for their outstanding success.

In addition to their insurance activities, they have also accepted their share of responsibility in aiding civic projects. As the result of the combined efforts of men like them, Brownfield is firmly established in the minds of the people as the logical business center for this section of the South Plains.

We congratulate them for their success in business and civic affairs, and trust they will continue for many years to enjoy that success which they have so justly earned.

Bobby D. 'Bob' Knight and George A. Coleman

Every progressive and successful business man in Brownfield contributes in some manner to the growth and progress of the city. And two who are always willing to do their part in both civic and business activities are Bobby D. 'Bob' Knight and George A. Coleman of Byron Jackson Incorporated, who are well known, and have a great many friends and business associates throughout this entire district.

The prominent part that Byron Jackson Incorporated is playing in the business and commercial life of Brownfield and vicinity, mirrors the de-

pendability and honesty of such men as they. Moreover, Mr. Knight and Mr. Coleman have also at all times been steadfast in their devotion to the city, and the surrounding country, and on many occasions have lent their support to the successful promotion of meritorious civic projects.

Brownfield and this district are fortunate to have two such men as George Coleman and 'Bob' Knight in positions of responsibility and service, and this newspaper feels that it merely reflects public opinion in paying this brief tribute to two of the city's more progressive business men.

Lal Copeland

Lal Copeland of Copeland Hardware, has a well-earned reputation for dependability, because he has consistently forged ahead in his business. Never letting up in his efforts to make the service he renders to the people more valuable. This invariable policy has made Copeland Hardware outstanding in its field, a fact that is well known to the public throughout this entire area.

But Mr. Copeland has accomplished much more than just making a success of his

business and private affairs, and we take this opportunity to pay tribute to him for devoting what time he could spare to the general welfare, not only to the city, but this district as well.

It is such men as he, who are both successful in business, and appreciative of their civic obligations that are deserving of recognition. We take pleasure in publicly giving Lal Copeland the credit for his accomplishments which his many friends and associates have so long accorded him.

Dan L. Brookshire

In all business and professional pursuits, there are those who have met with success because they have honestly deserved it, and such a man in his particular field is Dan L. Brookshire of Brookshire & Elliott Loan & Realty, who well deserves the reputation he has earned for being one of Brownfield's more conscientious business men. His thorough knowledge of the mortgage loan business is exemplified by the manner in which he fulfills each and every demand made upon him in line with his business.

Furthermore, such experience as Mr. Brookshire has gained

in the successful management of his business has been turned to the advantage of his fellow citizens by applying the same principles to the promotion of those civic projects to which he has been called upon to lend his able assistance. Thus his success in business has further enhanced his value to the city.

We appreciate the opportunity of including Dan Brookshire in this group of dependable and civic-minded men who are actively taking part in the evolution of the business life of this entire region.

L. W. 'Bill' DePoyster and Billy Blankenship

Successful business men as a rule, show their appreciation for their success by their often repeated demonstrations of civic pride. This is a fortunate fact. Otherwise a city would be lacking in that progressive element that advocates and develops various projects of a civic nature which is indicative of a progressive community.

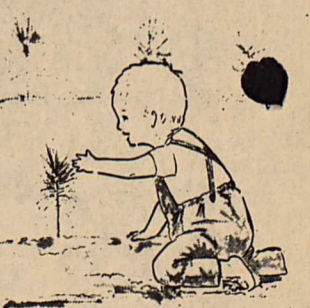

And L. W. 'Bill' DePoyster and Billy Blankenship of the Bowers Liquefied Gas Company, are two men who have never failed to lend a hand when it comes their turn to help on some worthy project promoted for the general betterment of this section of the Southwest.

Mr. DePoyster and Mr. Blankenship take a genuine pleasure in this method of showing their appreciation for the successful operation and management of the Bowers Liquefied Gas Company, and in so doing, recognize their civic responsibilities to their community.

It is such citizens as Billy Blankenship and 'Bill' De-

Poyster who become acknowledged leaders in both business and community enterprise, and we compliment them on having attained such positions in this region.

DID YOU KNOW THAT?

Since 1928 the Texas Forest Service has produced 415 million one-year old baby seedlings in its nurseries for reforestation purposes by Texas landowners. Set out with a spacing of 6 by 8 feet this number would be sufficient to plant 457,000 acres, an entire county the size of Trinity or Wood. Today, the Indian Mound Tree Nursery near Alto in Cherokee County produces about eight million trees annually.

Diverted Cover

By Wilson Duke,
Soil Conservationist
Many farmers in the Yoakum

Soil and Water Conservation District are getting ready to plant or in the process of planting some type of cover on his diverted acres land whether it be on cotton or grain sorghum land. Some are planting cane, others are planting hybrid sorghums. More and more seem to be drilling his cover or planting in narrow rows - 24 inches or less.

In narrow rows, or drilled, the crop will not obtain the height generally of crops planted in normal rows 40 inches and consequently will not have to be shredded as often to prevent sorghums from making seed which would become a problem if rotated with other crops another year. A few farmers will summer fallow some acreage this summer in order to clean and level up areas infested with Johnson Grass and then later on this fall drill in small grain such as rye or millet for cover and soil improvement.

Producers who were fortunate enough to have satisfactory cover this past winter and spring know the value of having cover on the land during the critical wind erosion period, especially when moisture is not available to do a satisfactory job of supplemental tillage as was the case this past spring.

Barron New Manager

Jim Barron is the new manager of Plains Chemical and Grain Company. The announcement was made this week by Bernie Vincenti. Barron is married and has two sons. He is the son of Mr. and Mrs. Tom Barron of Plains.

The new manager of the local elevator is a 1958 graduate of Plains High School. He attended Howard County Jr. College in Big Spring and Texas Tech.

Barron has three brothers.

Darrell and Tommy are in Plains and Mark is serving in the Army in Europe.

Jim is the secretary of the Yoakum County Livestock Association and has served on the board of directors for several years. He helps plan and present the annual Fat Stock Show in Plains.

Barron is also active in the young Farmers, and served as president of the local chapter.

In the announcement of Barron's appointment it was pointed out that a hometown man is now the manager. Barron invites the public to stop by at Plains Chemical and he will be glad to show the facilities of the elevator.

The Barrons are members of the First Baptist Church in Plains.

How Big is the Cotton Industry

While an estimate of the total investment in enterprises growing and processing cotton, and seed and manufacturing lint into textiles is subject to a wide margin of error, about \$22 billion will be a very conservative figure. Agriculture and the enterprises it supports comprise the nation's largest industry. Cotton is the most important cash crop, grown on some 850,000 farms from the southern tip of Virginia to the valleys of California. In round figures, the industry includes 6,300 gins, 1,500 raw cotton merchandising firms, 1,250 cotton warehouses and compresses, 280 cotton oil mills and 1,000 cotton textile mills. An estimated 12 million people depend on cotton for their livelihood.

We All Depend on the Cotton Industry!

KING COTTON . . . What a royal plant it is! The world waits on its growth; the rain that falls on its leaves is heard around the world; the sun that shines on it is tempered by the prayers of all the people. The frost that chills it and the dew that descends from heavens to awaken it are noted; and the little worm on its green leaf is more than the advance of a hostile army from distant shores. Yes, we point with pride to Cotton . . . from the boll to the bolt of fabric.

It has been a pleasure to serve the folks of this area in the past and it is our goal to serve you **EVEN BETTER THIS SEASON!**

Proud Addition

A perfectly-made dessert is a joy to anyone who takes pride in cooking. Chocolate Refrigerator Soufflé meets this standard with a minimum of effort. Velvety in texture and chocolate-rich in flavor, this dessert has a crust of Kellogg's Corn Flake Crumbs. Golden and nutritious, the Corn Flake Crumbs crust forms a pleasingly crunchy contrast to the creamy chocolate. Try Chocolate Refrigerator Soufflé soon. It will be a proud addition to your dessert recipe collection.

CHOCOLATE REFRIGERATOR SOUFFLE

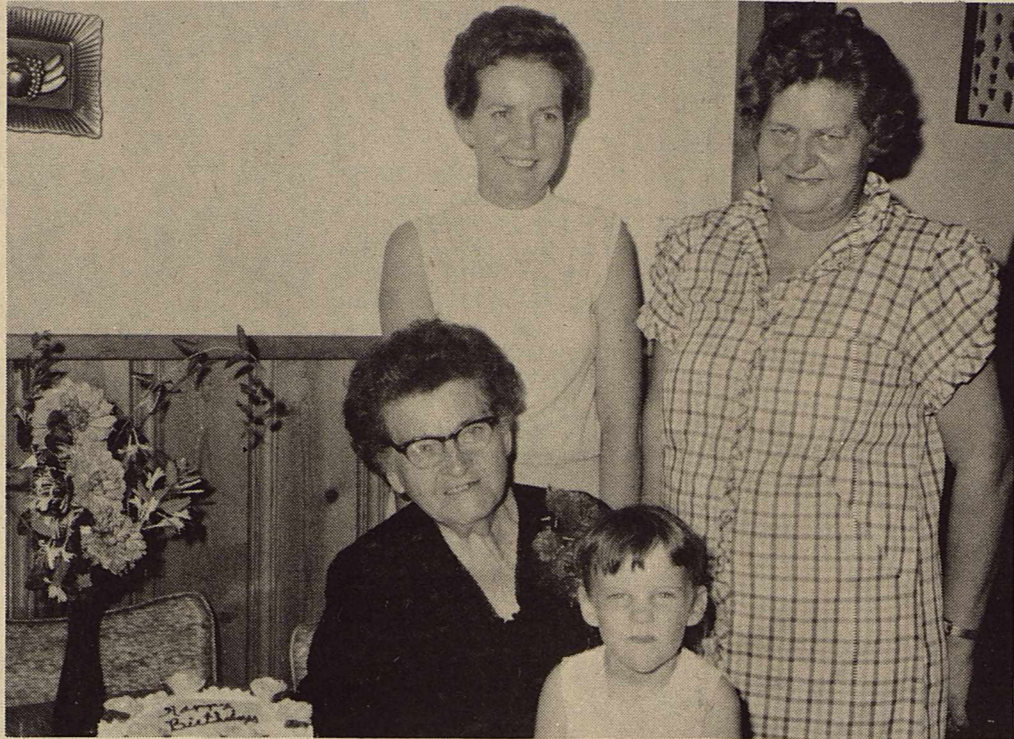

- 3 cups Kellogg's Corn Flakes
- 2 tablespoons sugar
- OR
- 1/4 cup Corn Flake Crumbs
- 1/4 cup soft butter
- 1 envelope unflavored gelatin
- 1/2 cup cocoa
- 1 cup sugar
- 1 1/2 cups milk
- 1/2 teaspoon salt
- 1 teaspoon vanilla flavoring
- 1 cup whipping cream

If using Corn Flakes, crush into fine crumbs. Combine Corn Flake Crumbs, sugar and butter in 8 x 8-inch pan; mix well. Press evenly and firmly in bottom of pan. Chill.

Mix gelatin, sugar, salt and cocoa thoroughly in medium-sized saucepan. Add milk and cook over low heat, stirring constantly, until gelatin is dissolved and mixture is smooth. Remove from heat and stir in vanilla. Chill until mixture begins to set. Beat with rotary or electric mixer until light and fluffy. Whip cream until stiff; fold into cocoa mixture. Spread over Crumbs crust. Chill until firm. Cut into squares to serve.

Yield: 9 servings, 2 1/2 inches square.

Decorating Tips For a Lovelier Home

BY LIZ GOYAK

Be of good cheer... don't despair... could be described as cardinal rules in decorating your home. The reason is that you can do wonders with the furnishings you already have. There are very few persons who can start out fresh with just bare walls and floor space.

And today, manufacturers offer the novice decorator many aids in planning her interiors.

It is important to remember that the four walls are the largest, most dominate feature in the room. It's up to you to make them represent you, your family, your way of life.

Wallcoverings are the exciting new way to personalize your home. Never before in history has there been such a varied selection of wallcoverings for you to choose from. Never before in history have wallcoverings been so maintenance free... so easy to hang... so easy to remove if redecorating is needed.

For wallcoverings have been improved radically by modern technology. There are thick, velvety flocks which not only impart unusual richness to walls but help reduce the sound level. There are wild pop art designs for those with psychedelic tastes. There are perky stripes, checks, paisleys and medallions for those who enjoy scale and harmony in their surroundings. There are simulated animal skins — zebra, leopard and tiger — to give the den or family room the exotic flavor of an African safari. There are brilliant flocks, flocked foils, metallics and embossed patterns of depth and luxury capable of evoking the most intimate moods.

A practical, colorful booklet has been prepared by the United Wallpaper Company to introduce consumers to the wonderful new world of wallcoverings. It is called "Wallcoverings: The Secret of Distinctive Rooms," and contains 32 pages of helpful material, including full color illustrations, directions for hanging and a chart for determining how to purchase wallcoverings. There are decorating suggestions and examples for improving every room in the house. The booklet may be obtained by sending 25-cents in coin to: The United Wallpaper Company, Box 9377-D, St. Paul, Minnesota 55177.

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER FIVE ON THE BALLOT

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of Texas be amended by adding a new section thereto to be known as Section 49-e, as follows:

"Section 49-e. The Parks and Wildlife Department, or its successor vested with the powers, duties, and authority which deals with the operation, maintenance, and improvement of State Parks, shall have the authority to provide for, issue and sell general obligation bonds of the State of Texas in an amount not to exceed Seventy-Five Million Dollars (\$75,000,000). The bonds authorized herein shall be called 'Texas Park Development Bonds,' shall be executed in such denominations, and upon such terms as may be prescribed by law, provided, however, that the bonds shall bear a rate or rates of interest as may be fixed by the Parks and Wildlife Department or its successor, but the weighted average annual interest rate, as that phrase is commonly and ordinarily used and understood in the municipal bond market, of the bonds issued and sold in any installment of any bonds shall not exceed four and one-half percent (4 1/2%) interest per annum; they may be issued in such installments as said Parks and Wildlife Department, or its said successor, finds feasible and practical in accomplishing the purpose set forth herein.

"All moneys received from the sale of said bonds shall be deposited in a fund hereby created with the State Treasurer to be known as the Texas Park Development Fund to be administered (without further appropriation) by the said Parks and Wildlife Department, or its said successor, in such manner as prescribed by law.

"Such fund shall be used by said Parks and Wildlife Department, or its said successor, under such provisions as the Legislature may prescribe by general law, for the purposes of acquiring lands from the United States, or any governmental agency thereof, from any governmental agency of the State of Texas, or from any person, firm, or corporation, for State Park Sites and for developing said sites as State Parks.

"While any of the bonds authorized by this provision, or any interest on any such bonds, is outstanding and unpaid, there is hereby appropriated out of the first moneys coming into the Treasury in each fiscal year, not otherwise appropriated by this Constitution, an amount which is sufficient to pay the principal and interest on such bonds that mature or become due during such fiscal year, less the amount in the interest and sinking fund at the close of the prior fiscal year, which includes any receipts derived during the prior fiscal year by said Parks and Wildlife Department, or its said successor, from admission charges to State Parks, as the Legislature may prescribe by general law.

"The Legislature may provide for the investment of moneys available in the Texas Park Development Fund and the interest and sinking fund established for the payment of bonds issued by said Parks and Wildlife Department, or its said successor. Income from such investment shall be used for the purposes prescribed by the Legislature.

"From the moneys received by said Parks and Wildlife Department, or its said successor, from the sale of the bonds issued hereunder, there shall be deposited in the interest and sinking fund for the bonds authorized by this section sufficient moneys to pay the interest to become due during the State fiscal year in which the bonds were issued. After

all bonds have been fully paid with interest, or after there are on deposit in the interest and sinking fund sufficient moneys to pay all future maturities of principal and interest, additional moneys received from admission charges to State Parks shall be deposited to the State Parks Fund, or any successor fund which may be established by the Legislature as a depository for Park revenue earned by said Parks and Wildlife Department, or its said successor.

"All bonds issued hereunder shall after approval by the Attorney General, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute general obligations of the State of Texas under the Constitution of Texas.

"Should the Legislature enact enabling laws in anticipation of the adoption of this amendment, such Acts shall not be void by reason of their anticipatory nature."

Sec. 2. The foregoing amendment to the Constitution shall be submitted to a vote of the qualified electors of this State at an election to be held on November 11, 1967, at which election each ballot shall have printed thereon, the following words:

"FOR the amendment to the Constitution of Texas adding a new section to be known as Section 49-e of Article III, authorizing the issuance and sale of Seventy-Five Million Dollars (\$75,000,000) in bonds by the State of Texas to create the Texas Park Development Fund to acquire lands for State Park sites and to develop State Parks."

Canada Celebrates Birthday

Spotlights World Need For Good Water

Expo '67 hostess with a new water purifier, selected to portray the importance of water quality to man's health.

MONTREAL — This year the International spotlight is focused on Canada as it celebrates its 100th birthday as a nation — and the outstanding event — Expo '67, the Canadian Universal and International Exposition. Seventy-seven nations are participating, each depicting some aspect of the central theme, "Man and His World." One of the main Expo attractions is the "Man and His Health" exhibit. As one enters, a 21 foot high "graphic wall" depicts the role of research in man's progress toward health, and gives examples of present and potential serious problems affecting man's health. Good health — man's prime essential to work, to play, to build, and to enjoy his world — is based upon good water, good air and good food. Culligan's Aqua I Water Purifier was selected to portray a new technique developed for desalination of water, which is now being used to convert water from almost any source into high-quality drinking water. This new development, using the "reverse osmosis" principle, is the first household appliance which produces water of high quality and purity for drinking, cooking, food preparation and many other uses.

In every area of the world it is of utmost importance that the one quart of water a man needs daily for drinking is absolutely safe.

Because it has the capability of removing bacteria and viruses, the reverse osmosis process has great potential for providing safe drinking water to those underdeveloped areas of the world where polluted water is the source or carrier of many serious epidemic diseases.

The Aqua I Water Purifier can turn salty water into fresh water. It can also transform ordinary city or private well water supplies into water of extremely high quality. Cloudiness, sediment, undesirable dissolved minerals, organic matter, detergents, offensive color, bad odors and bad tastes, such as chlorine, are removed by the purifier, to produce crystal clear palatable water.

In the Pee Wee group where all participants are under nine years of age on January 1, the points are: Mark Parrott, 52; Tim Bowers, 50; Chris Winn, 39; Brady Phillips, 35; Melvin Dearing, 26; Amanda Phillips, 21; David Wheeler, 12; David Badgett, 6; and Paris Cayce, 5.

Shrinks Hemorrhoids Without Surgery Stops Itch—Relieves Pain

For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain — without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all — results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne®) — discovery of a world-famous research institute. This substance is now available in suppository or ointment form called Preparation H®. At all drug counters.

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER TWO ON THE BALLOT

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article IX of the Constitution of the State of Texas be amended by adding a new Section 13 thereto to read as follows:

"Section 13. Notwithstanding any other section of this article, the Legislature in providing for the creation, establishment, maintenance, and operation of a hospital district, shall not be required to provide that such district shall assume full responsibility for the establishment, maintenance, support, or operation of mental health services or mental retardation services including the operation of any community mental health centers, community mental health centers or community mental health and mental retardation centers which may exist or be thereafter established within the boundaries of such district, nor shall the Legislature be required to provide that such district shall assume full responsibility of public health department units and clinics and related public health activities or services, and the Legislature shall not be required to restrict the power of any municipality or political subdivision to levy taxes or issue bonds or other obligations or to expend public moneys for the establishment, maintenance, support, or operation of mental health services, mental retardation services, public health units or clinics or related public health activities or services or the operation of such community mental health or mental retardation centers within the boundaries of the hospital districts; and unless a statute creating a hospital district shall expressly prohibit participation by any entity

other than the hospital district in the establishment, maintenance, or support of mental health services, mental retardation services, public health units or clinics or related public health activities within or partly within the boundaries of any hospital district, any municipality or any other political subdivision or state-supported entity within the hospital district may participate in the establishment, maintenance, and support of mental health services, mental retardation services, public health units and clinics and related public health activities and may levy taxes, issue bonds or other obligations, and expend public moneys for such purposes as provided by law."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on November 11, 1967, at which election all ballots shall have printed thereon the following:

"FOR the constitutional amendment to permit municipalities, other political subdivisions, and state-supported entities located within hospital districts to participate in the establishment, maintenance, support, or operation of mental health services, mental retardation services, or public health services."

"AGAINST the constitutional amendment to permit municipalities, other political subdivisions, and state-supported entities located within hospital districts to participate in the establishment, maintenance, support, or operation of mental health services, mental retardation services, or public health services."

Doing something about the weather

Everybody talks about the weather. Jack Biros does something about it.

Jack is one of 58 dispatchers with El Paso Natural Gas Company. These men control and coordinate operations of the Company's pipelines, plants, and wells throughout El Paso's 11-western-state service area so that the right amount of gas is delivered to all communities at the right time.

When cold weather strikes, the volumes of gas needed to heat homes and other buildings jump many fold in a few hours. By studying weather predictions and business activity, Jack

and the other dispatchers constantly gear operations to meet changing demands.

Production requirements are allocated to the most appropriate fields, whether located in Canada, the Rockies, New Mexico or Texas. Compressor stations, scattered over thousands of miles, and extending from the Canadian border to the Southwest are operated in unison.

Jack's skills and those of the other dispatchers in making the greatest possible use of the flexibility of El Paso Natural's system are among the reasons that the West has assured supplies of natural gas.

EL PASO NATURAL GAS COMPANY

Through its pipelines El Paso Natural serves Texas and ten other western states.

Librarian Urges Teen Ager

Teenagers that are planning to go to college, the army or just teenagers staying at home, have you read the August 12, 1967 edition of the Saturday Evening Post? The article is entitled 'The Hidden Evils of LSD' and it gives in short form the things that can happen to you and your future if you should happen to get involved with LSD. Known to Chemists as Lysergic Acid Diethylamide, also, a hallucinogenic drug even more powerful than LSD, CALLED DMT (dimethyltryptamine) and STP (powerful oil additive for automobiles) which also is a hallucinogen.

If you do not have this magazine you may come by the library and read this article, as it would take only a few moments of your time. You will be educated to what is going on in our colleges and other places enjoyed by our young people and you would also realize some of the dangers. This thing is worse by far than smoking, drinking and some of the things you have been warned about for years, this thing can harm you for life. Also, the book entitled 'The Beyond Within, LSD Story' by Dr. Cohen is in the library and is recommended to enlighten people on the harm of LSD Drug.

rlstown, that they may send for a girl's name and measurements to Girlstown U. S. A., Box 35, Whiteface, Texas, 79379.

If a club would like to undertake this as a project, the girls at the school would be appreciative.

Any clothing which is gathered in the community can be brought to the Plains Record and it will be delivered to the school for the benefit of the girls.

School will be starting this month, and these girls will be attending public school, therefore the appeal is acute. If further information is desired it can be obtained by calling the Record.

GE Theater's "Damn Yankee's" Two Hour Color Telecast On NBC-TV Sept. 8

Lee Remick plays Lola, sultry sidekick to Phil Silvers, the dapper devil in the GE Theater's production of the hit musical "Damn Yankees," on NBC-TV, Sept. 7, 7:30 to 9:30 p.m. EDT.

A carefree, tuneful musical comedy about a man who sells his soul to the devil, but refuses to buy the blandishments of the devil's most bewitching temptress — that's "Damn Yankees," which the GE Theater will present in color on NBC-TV on Thursday evening, Sept. 7, 9-11 p.m. EDT.

Phil Silvers is the devil and Lee Remick his disciple in the current TV version of the original Broadway musical hit which includes such songs as "Whatever Lola Wants, Lola Gets" and "You Gotta Have Heart." Kirk Browning is producer-director and Alvin Cooperman is executive producer for the Cooperman Penthouse two-hour color special.

Author Douglass Wallop, who wrote the original novel "The Year the Yankees Lost the Pennant," and who collaborated with George Abbott on the stage version, did some switch-hitting when he re-told the old story of the man who dickers with the Devil. Goethe's Faust may have been willing to trade his soul for youth and Marguerite, but Wallop's Joe, played by Ray Middleton, only wants a chance to win the pennant for his favorite ball

club, the Washington Senators. He gets it, too, and leaves wife Fran Allison to be transformed into a young cracker-jack ball player, portrayed by Jerry Lanning, who not only wins the pennant for manager Jim Backus but wins his battle of resistance with the seductive Lola.

This devilishly amusing story is told with all the original Richard Adler and Jerry Ross song hits that delighted Broadway audiences for two years.

Both the sound and the beat of the music have been updated for the G.E. Theatre NBC-TV special. In addition, new camera techniques combining the use of tape, film and animated photographs, and pop and op art backgrounds and scene bridges give "Damn Yankees" an unmistakably exciting look.

TRADE AT HOME

Plant the Seed

where you expect to Reap

It's what you might call a commonly recognized agricultural principle that if you want to do your harvesting on a particular piece of ground, that's the place to sow your seed.

Using the same general type of reasoning, it is obvious that if you want to harvest a nice crop of prosperity... in the form of better business, a better job, a better community in which to live... it's advisable to plant your trade dollars where they

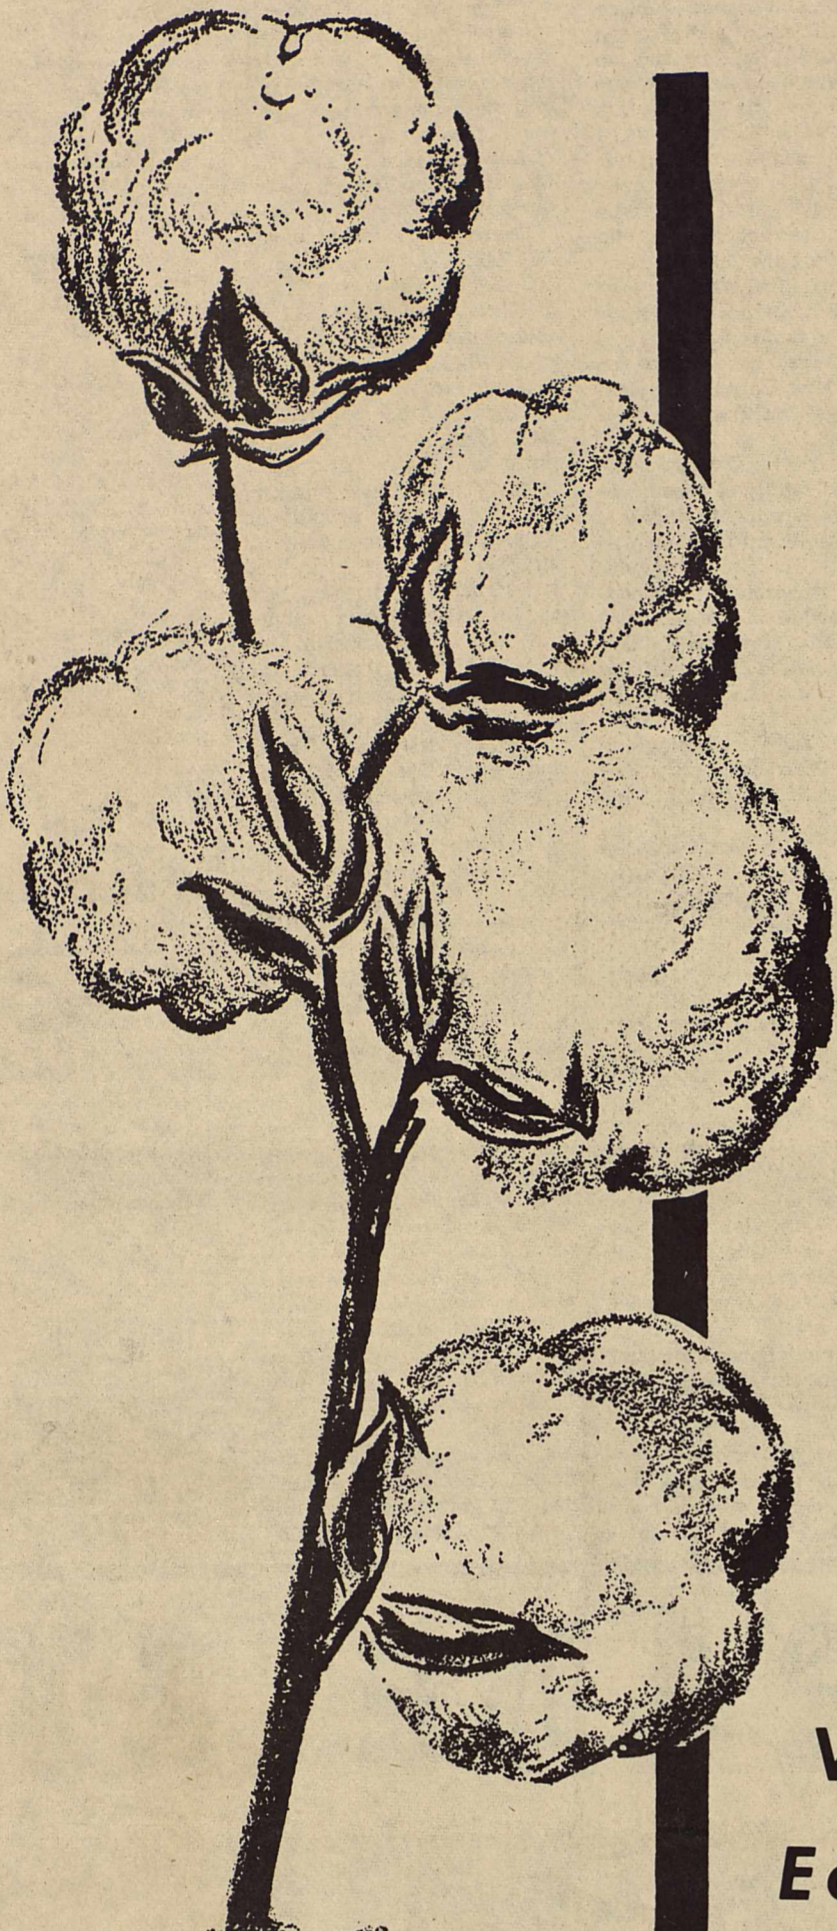

will produce growth for you, rather than for somebody else.

The homes we live in... the jobs and businesses which support us... the schools and churches that teach our children and enrich our lives... the convenient stores and service establishments that supply our everyday and emergency needs... none of these were built, nor are they supported by the dollars that are spent in some other community or city.
