THURSDAY, SEPTEMBER 4, 1969

TEXAS HONORED WITH PRESIDENTIAL FLAG

AUSTIN, Tex., ---A Presidential flag signifying excellence in exporting--owned by only two other states in the nation--now can be flown proudly by the state of Texas.

The state and its Texas Industrial Commission were honored with the Presidential "E" Award and signifying flag recently by Undersecretary of Commerce Robert McClellan in a day of activities that truly marked a time of honor for Texas and industry.

McClellan, chosen by President Nixon to make the presentation, carried out the assignment at the state Capitol, presenting the flag to Gov. Preston Smith before both the House of Representatives and Senate in a joint meeting of the 61st Legislature.

He presented Chester Wine of Corpus Christi, chairman of the Texas Industrial Commission, with the certificate signifying outstanding work in export development, and gave pe-

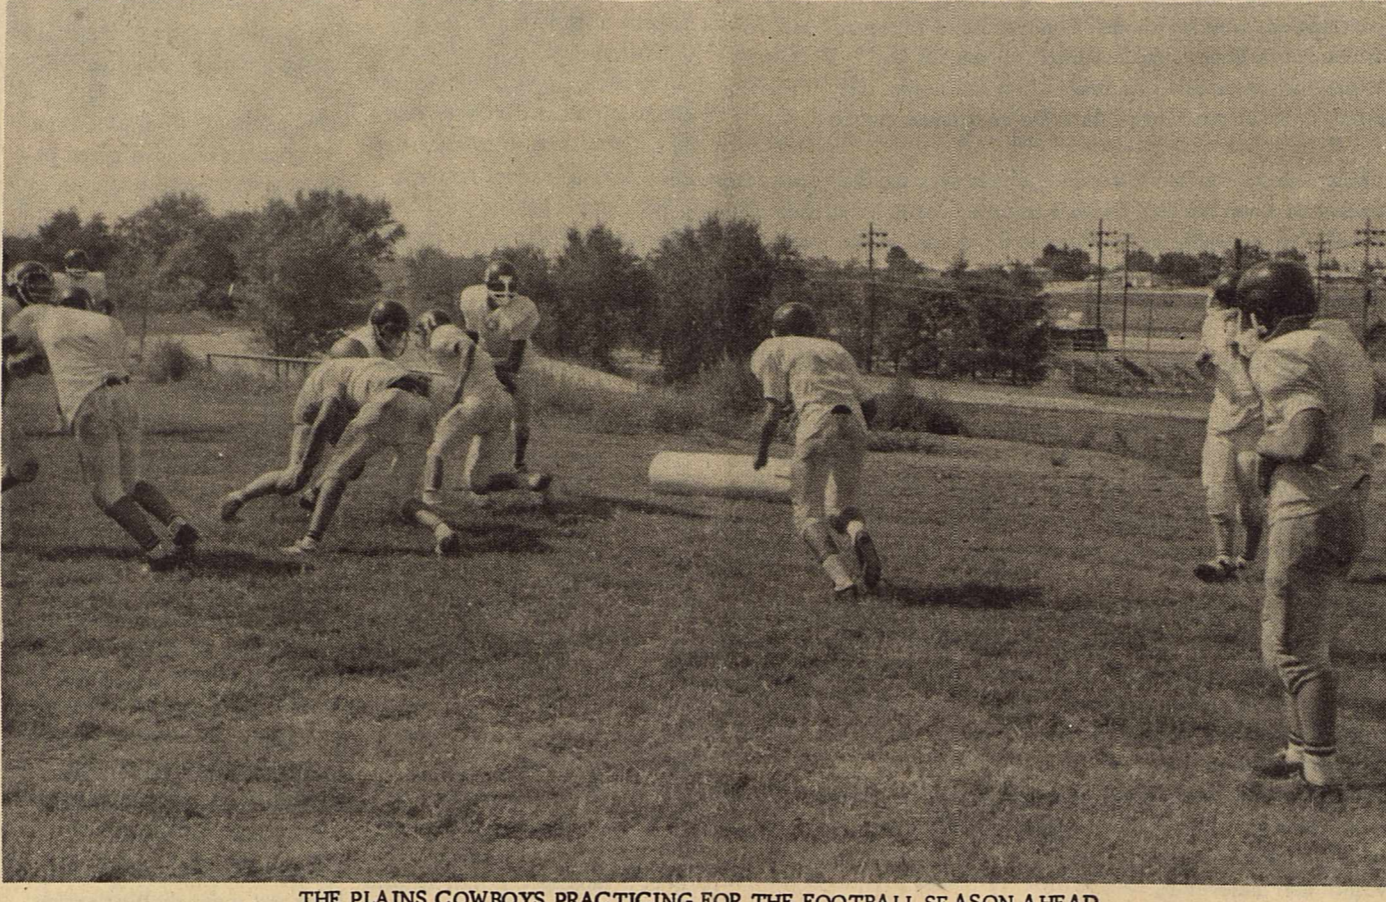

ersonal "E" pins to both Lt. Gov. Ben Barnes and House Speaker Gus Mutscher.

The honor came due to the work of the Office of Export Development in the Texas Industrial Commission. McClellan said the office in three years of operation brought about an increase in export sales of 40 per cent.

"Texas stands number one among the 50 states in exports of chemical, allied and petroleum products and number two in exports of agricultural products," the Undersecretary said. "This export expansion in Texas is not limited to large companies now exporting employ few than 100 persons.

"This is an excellent demonstration of the fact that export opportunities extend to all sizes of business activities."

McClellan praised the Legislature for "displaying considerable wisdom" in approving legislation in 1965 to bring about the export office.

THE PLAINS COWBOYS PRACTICING FOR THE FOOTBALL SEASON AHEAD.

The Plains Cowboys had their first practice scrimmage of the 1969 football season last Friday afternoon, August 29th, when they met the Irrian Braves at the Andrews Stadium.

Only statistics were accredited the two teams as this was only a practice scrimmage and not considered a contest.

The statistics are as follows:

On Offense	
Total yards gained rushing	158
Total yards gained passing	26
Total yards lost	25
Net yards gained	159
50 offensive plays -	3.18 yards per play
3 fumbles	
Passing 3-8 for 26 yards	3 interceptions
Individual Status	
Lowe	
29/144 yards	4.96 per try
Simpson	
6/5 yards	.9 per try
Rains	
2/4 yards	2 per carry
Livesay	
1/2 yards	2 per carry
Defense	
Total yards given up	170
Inside 5 -	78 yards on 23 plays, 3.4 yards per play

Ends and comers - 52 yards on 12 plays, 4.3 yards per play
Secondary - 3 completions on 15 attempts for 40 yards, 15 yards per try

The Cowboys will have one more scrimmage before they start their official season games. This will be Friday, September 6th, at 6:00 p.m., when the Whiteface, Texas team visit Plains for the practice meet. These scrimmages are fine for the coaches, as they can see their players who have never played together before and good for the new players who have never before met strange competition.

The Cowboys are a fine looking bunch and while they may tip the scales a bit lightly their action is good and morale high. They appear mighty fine in their workouts and follow the coaching in good order. Though the coaching staff was changed this year at a very late date and the final selection completed only a few days before the start of the season, the outlook is very good for Coach Warren and his Cowboys this year.

PROSPECT FOR PLAINS DOCTOR

After several years without a doctor in Plains there once again is a new hope. Commissioner Johnnie Fitzgerald reports of an inquiry this week from Dr. Michael Murphy, Rusk, Texas. Dr. Murphy sounds like a good prospect for the Plains area.

The doctor was born in Dublin, Ireland and received his doctorate degree of medicine at the Dublin University.

The doctor is a young man of 42 years of age, a family man with one child. The doctor is particularly interested in internal medicines and psychiatry. He is presently employed at the Rusk State Hospital. In his inquiry to Mr. Fitzgerald, he

requested an interview with the Commissioner's Court and an opportunity to visit Plains and look over the Plains Clinic. It is hoped that an interview can be arranged for in the near future. A doctor of this caliber will be a great asset to the Plains community.

MRS. TINGLE ATTENDED STATE WMU MEETING

Mrs. Sherm Tingle attended a State W. M. U. meeting at Baylor University in Waco, Texas. At Seagraves, she met a group from Seagraves, Andrews and Denver City. It was a very interesting week and a very full one. There were morning, afternoon and night sessions. Plans for the new year were presented, testimonies from missionaries were presented in the morning and night sessions. Ralph Neighbors of Houston brought the morning message and Dub Dickerson of Ft. Worth brought the message at night.

On Friday, Mrs. Mathis, W. M. U. President for the Southern Baptist Convention spoke. Mrs. Tingle arrived home on Friday about 9:00 p.m.

GENE SMITH ELECTED TO ANGUS ASSOCIATION

Mr. Gene Smith of Plains has been elected to the membership of the American Angus Association at St. Joseph, Missouri, announced Lloyd D. Miller, Secretary of the association. There were 398 memberships issued to breeders to registered Aberdeen-Angus in the United States during the past month.

DROUGHT BROKEN BY RAINS AND COOL WEATHER

1969 has been one of the hottest and driest years for Yoakum County in many years and the drought has taken its toll. But the spell was broken with the recent showers and the cool damp weather is very refreshing.

Coming at this time of the year, with harvest commencing, a protracted rain spell always causes anxiety to those with crops in the field. Though the rain is always appreciated, there could be damage suffered from the maize crop falling from a prolonged rainy season.

The general downfall at present has been a great boon to Yoakum County. It has come

in a gentle manner over most of the area with little damage except in a few sections.

The Denver City area received a dousing Tuesday afternoon when a heavy downfall of 2.75 inches fell, accompanied with a severe electrical storm which caused three minor fires. The northeast section of the county also received extra heavy showers which flooded roadways and did considerable road damage. Commissioner Fitzgerald had just completed an extensive road improvement program in that precinct when the rains came. Several fills and some of the new roads that had not had time to settle were badly washed. Mr. Fitzgerald reports that this area has received approximately 8 inches of rainfall in the last ten or twelve days. The drought breaker started Saturday, August 23rd with a .51 inch shower and at the present time a total of 2.30 inches

has fallen at the Plains weather station.

WATER, INC. TO FORM

County units of Water, Inc., will be organized in at least five West Texas counties during September. The units will augment the work of the non-profit organization working to avoid a future area water shortage.

Organizational meetings of county units are slated in Levelland, Sept. 16; Brownfield, Sept. 18; Spearman, Sept. 23; Lamesa, Sept. 25; and in Stratford, Sept. 30.

Directors of Water, Inc., gave the go-ahead for formation of county units several months ago with an eye toward broadening the membership base, and toward increased membership participation. In counties where water associations already exist, invitations are going out to affiliate as county units of Water, Inc. There are about a dozen such county organizations in the area served by the organization. At least two, the Cochran County Water Association and the Moore County Water Association, have already become working units of Water, Inc.

Coordinating the organizational work with county leaders is Tom Williams, associate director, membership and organization for Water, Inc. Bill Clayton, Executive Director, said the county units are designed as one of the most important cogs in carrying out the aims of Water, Inc. County unit meetings will provide a forum for determining local needs and desires, as well as providing local leadership in all phases of activities leading toward fulfillment of Water, Inc. goals.

Water, Inc., was organized in mid-1967, and stemmed from a conviction that water resources of West Texas, Eastern New Mexico and Western Oklahoma must be conserved and augmented if economic growth is to continue. The organization was instrumental in the inclusion of its area into the Texas Water Plan, a plan that proposes importation of water into the area for agricultural, municipal and industrial use.

TEXAS HIGHWAY WEEK SEPTEMBER 21-27

AUSTIN -- Governor Preston Smith has designated the period September 21-27 as "Highway Week in Texas."

Theme for Highway Week this year is "Highways Bring Better Living." The observance in Texas is sponsored each year by the Texas Good Roads Association in cooperation with the Texas Highway Department and the highway-building industry. Chambers of commerce and city, county and State leaders organize community programs for the Highway Week observance. Governor Smith noted that "the State of Texas through its efficient Highway Department provides and maintains more than 69 thousand miles of highways for the use of Texans and their visitors."

He called the Texas highway system "one of our great and irreplaceable assets" because of its benefits to the Texas economy and to Texas citizens.

He said modern highways are planned and built to improve the quality of the environment and to preserve and make more accessible the places of scenic, historic and recreational importance.

As part of the Highway Week observance, members of the Texas Highway Commission will make appearances throughout the State. Members are Chairman Dewitt Greet of Austin, Herbert C. Petty Jr. of Carrizo Springs, and Garrett Morris of Fort Worth.

A number of Highway Department district offices will hold open house so local citizens can learn more about Department activities. Department representatives also will address civic groups in their areas.

WEATHER

Apparently the hot weather is over and with the drought being broken the Plains Weather Station reports a cool and pleasant week. The hottest day at the station for the year was 106° on August 16th. Precipitation - 1.98 inches the weather for the week is as follows:
High----- 80°
High average----- 78°
Low----- 58°
Low average----- 62.5°
Precipitation----- .58 in.

FOOD FOR THE VICTIMS OF CAMILLE

The response to the urgent call for food for the relief of the victims of Camille was good here in Plains.

Most of the people of the city who heard about it responded. We had a good passenger car load, estimated at about \$60.00 or \$70.00 worth by noon on Monday, Aug. 25th.

While we were unloading in Lubbock a pickup load from Tahoka came in, and before it was unloaded another from Spur arrived.

Workers were busy getting it ready to load on the big truck that was to transport it to Ocean Springs, Mississippi.

It is my understanding that the need for clothing has been met for the present. There may be a call later.

I wish to convey my sincere personal thanks to those who helped on this project.

I know there would have been many more if there had been more time to contact more people.

Thank you all very very much.

LET'S OPEN OUR POCKETBOOKS

Thousands of persons were made homeless by the winds and waves that smashed houses to splinters when Hurricane

Camille battered the Gulf Coast from Louisiana to Florida. Many of the families for whom the night of August 17 was

one of horror lack the resources to return to normal living unaided. They have lost everything through a calamity of nature which they were powerless to prevent or sidestep. They must be helped in the rebuilding of their shattered lives and homes.

The American Red Cross is the natural agent for this rebuilding, by virtue of both its experience and its readiness to help. The Red Cross is asking the American people for a minimum of \$15,000,000 to provide this assistance.

The people of this community have always heeded generously humanitarian appeals like this. Let us again open our hearts--and our pocketbooks--and make sure that the Red Cross receives the necessary funds to help our distressed neighbors on the Gulf Coast. Send or take your contribution to your nearest Red Cross chapter.

GULF COAST DISASTER AREA--When vicious Hurricane Camille tore into the Mississippi and Louisiana Gulf Coast, thousands found shelter, food, and clothing in hundreds of Red Cross shelters such as this. Designated the official disaster agency for the nation, the American Red Cross will be providing emergency care and long-term assistance for all those who need it. Red Cross hopes to raise a minimum of \$15,000,000 for Gulf hurricane relief. More fortunate Americans can aid Red Cross in this gigantic humanitarian task by sending their contributions, small or large, to the nearest Red Cross chapter.

Editorial NEW REPRESENTATIVE VISITS

The Plains Review was honored Monday by a visit from the
new state representative of the 73rd District, the Honorable E.
L. Short of Tahoka. The representative who went into the spe-
cial session immediately on confirmation of his election, was
spending the Labor Day weekend traveling about his district and
furthering his acquaintance with his constituents.

Mr. Short is no doubt receiving a rather severe in itiation to
his new position. He was allowed no time to acquaint himself
with his new responsibilities, but was pressed directly into ser-
vice in what has turned out to be a special kind of special ses-
sion.

Beginning service in this session, he certainly did not have an
opportunity to see the legislature at its best. Perhaps this rugg-
ed initiation will prove to be very informative and profitable in
the future.

It is doubtful if Texas has ever had a more unreasonable, un-
congenial, unprofessional and impractical session than this pre-
sent one. There is no doubt that Mr. Short is very desirous of
representing all of the voters within his district and will fulfill
the requirements of his office.

VIEWING PLAINS

It is the duty of every local newspaper to serve as a public re-
lations' agent for their immediate community. The Plains Re-
view is dedicated to this purpose. It has been our policy to bo-
ost for Plains and the Plains' merchants. We are doing the best
we know to portray the fine side of our town and its many fac-
ilities, both news-wise and editorially. While those who wish to
learn the particulars about a certain town or vicinity very fre-
quently first purchase the local newspaper, they do not stop with
the reading of the news and editorials. They also search the ad-
vertisements. They wish to know how many businesses the town
boasts of. They wish to know the different types of businesses,
their size and quality and diversity of merchandise. From this
they learn much of the economy and the kind of industry, the
possibility of obtaining and operating a successful business or
finding profitable employment. Much information can be ob-
tained from scanning the local paper besides the regular printed
matter.

The Plains Review is exceedingly proud of our small town
and its every resource, and it is devoted to extolling its fine
qualities. However, it is with grave regret that we view the
picture our paper portrays this week. A stranger who searches
this edition for an estimate of the importance of our city can
only learn that Plains has to its credit two grocery stores, one
lumber and hardware store, one abstract company, one drug
store, one wholesale retail oil company, two insurance agencies,
one gin and one farm machinery supply. The Plains Review
is circulated from coast to coast in the U. S. A., as well as
several foreign countries.

We regret that we should portray this distorted picture and
distorted it is. For if the advertising is to be a measuring guide
the printed matter is all bally hoo. If there are more businesses,
one of two conditions prevail. Either all the businesses are so
prosperous they have no need to advertise or they are so poor
that they can not afford to advertise. Neither of these condi-
tions can be considered a healthy or encouraging viewpoint.

We enjoy encouraging people to trade at home. We feel
that they should, yet when all of the neighboring
newspapers are extolling the fine markets and the latest of mer-
chandise in their cities and we are unable to do the same, it
sounds mighty hollow to cry, "TRADE AT HOME." If we want
Plains to grow and prosper, if we want to entice people to take
up residence in Plains, we must let them know what we have.

The Plains Review will continue with vigor to reveal our
city for what it is and can be. We ask the merchants to let us
help them tell the folks in their trade territory what they have
to offer.

ON CAPITAL CRIME

President Nixon's top advisers on crime in the capital have drafted proposals which include the hiring of about 1,000 policemen to crack down on criminals in the capital. The President's aim is to make the streets safe to walk after dark.

LIVING COSTS JUMP

The Labor Department has announced that living costs rose 4.7 per cent in 1968 for the highest one-year jump in 17 years. The report stated that this increase virtually wiped out wage gains of 45 million rank-and-file workers.

Let's have an
Old Fashioned
Visit.
By
The Publisher

"Let everyone sweep in front of his own door, and the world will be clean." Goethe

It was a very pleasant surprise to walk into the County Clerk's office Tuesday morning and see Mrs. Maggis Spears, wife of Jack Spears, working there. She was hired to replace Mrs. Charlene Hatfield who had resigned to work for Mr. E. W. Craig in the Tax Assessor-Collector's office in Denver City. We are happy to welcome Maggie into the courthouse family.

Mrs. Alma Been had a wonderful visit over the long Labor Day week-end when her son, Ernie Anderson, came home from Houston, Texas, where he is going to the school at the Dental Branch of the Texas University. He brought his fiancée, Miss Karen Malieck, home with him to introduce her to his mother and family.

It is very depressing and disgusting thing to read in our daily newspapers where some people are going "money mad." The case of the grocery stores, gas stations, etc., in the flooded areas of the Virginias and Kentucky placing prices four and five times higher than usual, and are trying to get rich off the misfortunates, is one example. BUT, what about our car insurance companies wanting another substantial premium price increase this year?

Car insurance rates have gone up every year for the past several years, and there is no reason to suppose the climb will not continue if the companies are allowed to get away with it again this year. Our Governor, Preston Smith, has asked for an investigation into the records of these insurance rates before he gives his permission for a higher rate.

Could it be that the companies are getting fat and prosperous on inflated premiums? Could there be something wrong in the insurance system of reporting profit and loss? If so, let's hope our Governor can uncover it.

"And this," said the disagreeable old gentleman, "I suppose is one of those hideous caricatures you call 'modern art.'"

"No, sir," replied the art dealer, "that's just a mirror."

TAX MAN SAM SEZ

The Dallas District Office of Internal Revenue analyzed the effect of Internal Revenue information offered to taxpayers in North Texas through news stories, radio spot announcements and various TV spots and programs. There were 426,000 taxpayers who called Internal Revenue offices or who walked in to ask a question. When they looked over the statistical sample of all the calls, they found that taxpayers in a very large percentage of the cases do exactly what Internal Revenue asks them to do. When Internal Revenue suggested that they might need more information, the taxpayers called or walked in and asked for the information. When Internal Revenue gave them the answer to a simple question to save them the trouble of asking, the calls dropped to almost nothing.

The tax folks have been saying for a long time that taxpayers believed in voluntary compliance and wanted to do what was right. However, the tax folks learned what most of us already know--that some folks will listen real well, if you can just get their attention--but getting their attention is almost impossible.

The newspaper publishers have been telling businessmen for many years that it pays to advertise. Of course, in recent years the radio and TV boys and the advertising firms have joined in. But now the good tax folks come along and prove that it pays to tell your story, whether it's good or bad news. You still get results.

NEW TYPE OF THREAD

A new type of thread, cotton covered polyester, will soon appear on the market. It combines the best features of cotton and polyester fibers, explains Kay Elmore, Extension clothing specialist. Important features are that it is knotless, stronger than many other threads and one size sews a 11 fabrics.

★ Sudie Thompson CHDA Says...

September is the month when the kids start back to school and the old problem of what to put in their lunches or what to fix for an afternoon snack crops up. Sandwiches provide the perfect solution to both of these problems.

One of the most widely used sandwich ingredients is peanut butter. But did you know that peanut butter can be used in dozens of tasty and different sandwich fillings?

Try some of these nutritious sandwich ideas during September. You'll be surprised how they perk up school lunches. Split small baking powder biscuits, homemade or packaged, and fill with this delicious filling.

1/2 cup creamy peanut butter
1 tbs. drained sweet pickle relish
1 tbs. chili sauce
Few drops Tabasco
PRUNE-PEANUT-HAM-SANDWICH

Team minced ham, chopped cooked prunes and chopped peanuts, moistened with dressing. Try it between rye bread slices or heaped thick on buttered round buns.

Here are some mighty good sandwich fillings.

-Combine 1/4 cup each deviled ham, peanut butter and d chopped sweet pickle with about 2 tablespoons mayonnaise
-Combine 3/4 cup peanut butter with 1/2 cup pickle relish.

-Stir peanut butter into cold baked beans, serve warm or cold in buttered round buns.

Pickle relish may be added to this combination, too, if desired.

-Combine equal parts peanut butter and chopped dates.

-Combine 1/2 cup chopped seeded raisins or dates, with an equal portion of peanut butter. Season with 2 teaspoons lemon juice and add 1 to 2 tablespoons water as needed to give spreading consistency.

-Combine 1/2 cup finely chopped tuna or salmon. Add 2 finely chopped sweet pickles, 2 tablespoons chopped green pepper, mayonnaise and dash of paprika.

-Combine 1/2 cup chopped salted peanuts, 1/2 cup mayonnaise and 1 teaspoon minced onion.

-Whip together 1/3 cup softened butter and a three-ounce package of creamed cheese, stir in 1/2 cup chopped salted peanuts.

For a delicious lunch treat make French Toasted Peanut Butter Sandwiches. The peanut butter sandwich set will go for these in a big way. The filling may be any favorite combination...peanut butter and thin ham slices...peanut butter and mashed banana...peanut butter and chopped bacon...peanut butter, bacon and banana or peanut butter ham and marshmallow creme. Prepare sandwiches as usual, then dip into egg-milk mixture and fry to golden brown. Serve piping hot with a red jelly or cranberry relish gamish.

THE DEADLINE FOR GETTING YOUR ENTRY IN IS FRIDAY AT 1 P. M. AT THE OFFICE OF THE PLAINS REVIEW.

TEACHERS TO OPPOSE TAX-EXEMPT STATUS OF BONDS

The Board of Directors of Texas Classroom Teachers Association has gone on record as opposing federal legislation to remove the tax-exempt status of state bonds and municipal bonds. The proposal to eliminate the exemption of these bonds, which includes school bonds, is pending in the US Senate. The TCTA Board opposes the tax reform proposal on the grounds that it is essential for school districts to be able to finance needed facilities through issuance of bonds at the lowest possible interest rates. Taxation of such bonds would force a rise in interest rates to levels affecting the marketability of school bonds. The cost of borrowing for Texas school districts would be raised to a point that might affect ability to finance even the most urgent plant needs. Opposition to the proposal has also been voiced by the Texas Association of School Boards, Texas Council of Major School

Districts, and both United States Senators from Texas, John Tower and Ralph Yarborough. Texas Classroom Teachers Association is a 48,000-member, statewide organization composed solely of classroom teachers. With affiliates in 215 Texas school districts, it is the largest organization associated with Texas States Teachers Association. Mr. Marvin Watson, former Postmaster General of the United States and Special Assistant to President Lyndon B. Johnson, has been elected to the Board of Trustees of Scott and White Memorial Hospital and Scott, Sherwood and Brindley Founda-

WATSON NAMED TO THE BOARD OF TRUSTEES

tion, Temple, Texas. Founded in 1897, Scott and White is one of Texas' oldest and largest medical centers. Mr. Watson is a resident of Daingerfield, Texas, and serves as President and Chief Executive Officer of Occidental International Corporation, a subsidiary of Occidental Petroleum Corporation. As President of Occidental International, Mr. Watson is charged with responsibility of one of the largest companies in the world with offices in twenty-four world capitals.

Maintaining his principal office in Washington, D. C., Mr. Watson has previously served in many civic activities in Texas including membership on the Texas Civil Judicial Council; President of the Alumni Association of the Hankamer School of Business, Baylor University; member of the Executive Board of the Texas Law Enforcement Foundation; member of the Texas Industrial Council; the Texas Water Development Council; and the State Board of Directors of the United Fund. Watson also previously served as Chairman of the Texas State Democratic Committee during the tenure of Governor John Connally. R. L. Foree, Dallas independent oil operator and Chairman of the Board of Scott and White Memorial Hospital and Scott, Sherwood and Brindley Foundation, stated "We are delighted to have a man of the high caliber and ability of Marvin Watson to serve as a member of the Board of Trustees of this outstanding medical institution. He will definitely be an asset to our Board."

ITCHING LIKE MAD?

Get this doctor's formula! Zemo speedily stops torment of externally caused itching... of eczema, minor skin irritations, non-poisonous insect bites. Desensitizes nerve endings. Kills millions of surface germs. "De-itch" skin with Zemo—Liquid or Ointment.

This summer, After reading 6 books each reader received a pin with the words "Traveling Reading Program" written on the pin. Boys and girls wore these pins on their shirts and dresses and seemed very happy about doing so. Those of you who did not participate this summer in the reading program, plan right now to do so next year. It isn't hard and it is lots of fun.

The library personnel has tried for some time to get a book on health that would be beneficial to people interested in the health field. The title of this book received by the library this week is "The Book of Health" and it is written by Clark and Cumley. I believe this is a good book and hope people will drop by the library and use this book.

FEDERAL LAWYER ANNUAL STOCKHOLDERS MEETING

The Annual Stockholders' Meeting of the Federal Land Bank Association of Levelland is to be held on Friday, September 5, 1969 at 2 p. m., in the District Court Room of the County Courthouse in Levelland, according to the Manager of the Association, Joe Breed. All borrowers through the Association become stockholder-members when their loans are made, Mr. Breed said.

At this meeting annual operating reports will be made, and one director is to be elected. Also, Mr. Breed announced that dividend checks totalling \$12,802.20 will be passed out to the stockholder-members.

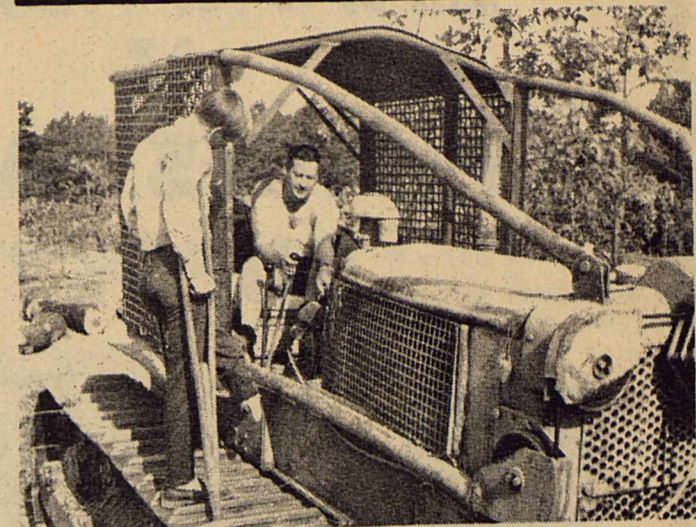

The Federal Land Bank Association of Levelland makes and services Federal Land Bank loans on farms and ranches located in Hockley, Cochran, Terry and Yoakum counties. The present directors of the Levelland Association are: Lawrence F. Schoenrock, Leon Lawson, and J. F. Steele from Levelland; Hugh Hansen from Morton; and G. I. Sims from Brownfield.

SUMMER READING PROGRAM ENDS

Anyone that has not turned in their books to complete the "Summer Reading Program" should do so immediately. Bring your books in to the Yoakum County Library so you will be eligible for a certificate. The required amount of books for a certificate was 12 books.

LABOR DAY IS HOLIDAY FOR HANDICAPPED VETS TOO -- Ewing W. Mays, of Fort Lauderdale, Florida, lost both his legs in World War II action. Here he shows 19-year old Jerry Paul Landreth of Heber Springs, Arkansas, how a handicap need not be a handicap at all. Mays also operates a direct mail pen sales firm, and his avocation is touring military and civilian hospitals giving inspiration by example to the newly handicapped. He demonstrates his artificial limbs, answers their many questions, dances with the nurses, and can even pluck a patient from his bed and carry him about the ward. It's Mays' goal to return to Vietnam vets and other newly handicapped to productive society--either in the skilled labor fields or professions.

meat thermometer, use it. Cook pork to an internal temperature of 185 degrees whether cooked indoors or out. Pork rib ends are a good choice for barbecuing.

Delhi administration offered attractive terms to lure beggars from the streets -- but to no avail. They were offered free food, free lodging and one rupee (13 cents) a day for expenses. But there was a snag -- they had to work on the capital's projects. The beggars have spurned the offer. They earn more without having to work. The police have orders to round them up.
