Contest Begins Monday For Interested Youngsters

Hey Kids!! Would you like to win a bicycle? A radio? A B-B Pellet Gun? A bike radio? Or maybe a watch?

The Plains Pride is in need of some young energetic salespeople, to sell subscriptions to the newspaper. The prizes mentioned will be given to the top four salespeople. To enter the contest, you must have written permission from a parent or guardian. You may pick up the necessary blanks and an identification card that you must carry with you (to identify yourselves as one of our Junior

Salespeople), at The Tin Shed.

The contest will begin Monday, July 8 and will run until July 29. To keep record of 'who's ahead', contestants must turn in their subscriptions they've sold each Monday. The winner of the bicycle, which is the grand prize must at least sell 30 subscriptions and be the top salesperson. If the top salesman has sold under 30 subscriptions the grand prize will be the radio.

All prizes are on display at Plains Appliance Center. The contest is open to all children 16 years old and younger that live in the Plains area.

Most of us read Ann Landers. I have no ambition to walk her path, but last week I heard something she has missed. She has expressed lots of ideas for the "Snoring Spouse" problem. Well my brother-in-law heard the remedy was to wrap a soft towel around the snoring spouse's neck -- loosely, that is. So they tried it and sure enough - a quiet snooze, not a bothersome snore.

Now don't knock this until you try it! May just save a few marriages. I may resort to trying it, for my elbows are getting sharp from punching!

Thanks to all who gave us apricots! We gathered some on Monday for a big cobbler soon.

Canning Equipment Tested At Yoakum County Ext. Office

Canning equipment must be scrupulously clean before the canning process begins. The bacteria that causes botulism is prevalent in soil and collects on crops. Cleaning fresh fruits and vegetables thoroughly and all surfaces and utensils these foods touch reduces the risk of botulism considerably.

The method of canning may vary depending on the type of food being processed - it may be by boiling water bath or pressure canner. But some basic steps must be followed in the preparation of the equipment for any canning process.

Prepare jars (use only home canning types) by first examining each one for possible nicks, cracks or sharp edges. Discard any defective ones. Wash the usable jars in hot, sudsy water and rinse well. Soak jars in hot water, keeping the water hot until jars are taken out and filled with food.

Jars can also be washed in a dishwasher and kept warm on the dry cycle until needed. Some canning methods call for sterilized jars, for example, recipes for jams, jellies, preserves and any process

that requires less than 15 minutes in the boiling water bath or pressure canner. Then, remove jars from dishwasher and boil for 10-15 minutes to sterilize.

Wash and rinse bands and unused lids. Lids are not reusable because the sealing compound does not form a seal twice. Bands in good condition can be reused. Place lids in a small pan of water. Bring water to a simmer, not a boil, and remove from heat.

Any equipment used in preparing the food should also be scrupulously clean. That includes a chopping board, bowls, colander, jar funnel, knives, long handled fork, spoon and spatula.

Once the equipment is clean and assembled, you are ready to start canning.

The Yoakum County office has bulletins available on canning, freezing, drying and pickling foods. Give our office a call if you need any of these. We have pressure canner testing equipment available. You may bring your pressure cooker by for testing. There is no charge.

CHILDREN VISIT

A.B. and Irene Chitwood had their children, grandchildren and great-grandchildren in their home for a barbecue Monday, July 1. The family was complete except for one granddaughter, of Waco, who was unable to attend.

From The Superintendent's Desk

Last week we announced that a new and updated telephone system was to be installed at Plains Schools. Please note that the system is now in place and new telephone numbers are as listed:

- Business Office456-7483

Now, in keeping with our commitment to inform you of summer responsibilities, I would like to comment on the personnel area of administrative duties.

During the summer it is often necessary to secure new teachers for our schools. The Texas Education Agency sets forth many requirements in regard to placing a teacher in any certain teaching position. To become qualified to teach in Texas Schools, an applicant must have a college degree with a minimum of 126 college credit hours, a valid Texas Teacher Certificate, and at least twenty-four college credit hours in the field of specialization (teaching field). For example, a teacher holding a bachelor degree with certification in English could not teach math, science, history, government, vocational education, physical education, or speech, on this secondary level unless an emergency permit is secured. An emergency permit can only be issued by the Texas Education Agency.

In addition to meeting all of the stated requirements, it is also very important that an applicant's personality be adaptable to the desired assignment.

Then, how do we determine which qualified applicant will be employed? All applicants are screened by the principal of the school in which they will be employed, and by the Superintendent. Initially a reference check is secured for prospective employees, then an interview with the principal is scheduled, followed by an interview with the superintendent. After the interviews, administrative recommendations are presented to the Board of Trustees for final approval. The Board of Trustees and the administrative team strive to obtain the best possible teachers for our district.

I hope these details will enable you to understand more clearly the selection process used in employing our professional staff. We will continue our informative series next week when I will again discuss personnel but will refer to aides, maintenance and transportation employees.

She has three girls - Edith Turner, who lives in Big Lake, Susan Niemi, who makes her home in San Diego, Cal. and Lori Jones, a resident of Commerce. She is also grandmother to four children - Robert, Steven and Kim Turner; and Kirstin Niemi.

Macky McWhirter lists his interests as entomology and boating. High school chemistry and biology teacher for Plains Independent School District the last 16 years, he is a native of Lubbock. Having attended public schools in Tahoka, McWhirter received his B.A. and M.S. from Baylor University. He has three sons, Brad, Blake and Blaine.

This Week's Lesson

By Louis Crenshaw, pastor
United Methodist Church

Four important words describe all human life. They are, "It came to pass". Scripture is replete with these words describing the passing of trouble. Genesis 7:10 tells the story of the great flood. Even this came to pass.

Often we hear that our joys are fleeting and that good times will not last. We should remember too that calamities do not stay, but come to pass. All pain and sorrows are like that. Even our inconveniences have no permanence.

We look back at the troubles of our youth and now wonder that those things seemed hard to bear. Today's troubles that tax us will someday be like that time frame. Greater woes do not consume former sorrows, for it is the clarification of our matured vision that gives different perspective.

About the Biblical flood. It did not leave Noah's family on the low plain where it found them. As flood waters rose, the ark rose with them. When the tragedy was over, the family was left on a mountain plateau.

Finally, we learn that the flood was temporary. Its' passing was permanent. Never did that plague trouble Noah again. Trouble is transient, peace is permanent.

There is a rainbow in radiant colors in your tomorrows.

Extension Homemakers Council Meets Here

Yoakum County Extension Homemakers Council met here Tuesday, July 2 in the clubroom for a regularly scheduled meeting.

Toni Jones, vice chairman, conducted the business meeting. Jerri Lollar, secretary, called the roll and read the minutes of the last meeting. Bitsy Martin, treasurer, gave a report on funds and Pat Curtis, TEHA chairman, gave a report.

Thank you notes from 4-H'ers were read. Club presidents reported on June meetings and Pat Curtis reported that 23 women attended the Women's Self-Defense Course in Denver City.

Craft Day, Oct. 1, was discussed and plans were made to attend the

South Plains Fair Books Eight Shows

Approximately 6,700 catalogs plugging the 68th annual edition of the Panhandle-South Plains Fair are being distributed throughout the South Plains and eastern New Mexico areas, general manager Steve L. Lewis has announced.

The catalogs, boasting a record premium list totaling more than \$80,000 are being sent to potential exhibitors, officials, the chamber of commerce and information services at City Hall, Lewis said.

A junior beef heifer show has been added to the judging calendar this year and will offer premiums totaling \$6,000. Competition is open to all Future Farmers of America and 4-H Club members in the state.

One new wrinkle this year is the judging schedule, which has been rearranged due to education reforms throughout the state. Most of the student-related activities have been moved to weekends to avoid school conflicts, Lewis said.

Otherwise, the usual exposition fare is included in the 136 page catalog.

Eight stage shows instead of the usual seven have been booked for Fair Park Coliseum. The lineup includes George Strait, 7 p.m. and 9 p.m., Sept. 21; The Statler Brothers, 3 p.m. and 7 p.m., Sept. 22; Andrus, Blackwood & Co., 7 p.m. only Sept. 23; John Schneider, 7 p.m. only Sept. 24; The Nitty Gritty Dirt Band, 7 p.m. only Sept. 25; The Vern Gosdin Show, 7 p.m. only Sept. 26; The Judds and the Maines Brothers, 7 p.m. only Sept. 27; and Janie Fricke, 7 p.m. only Sept. 28.

Tickets for the Andrus show are \$3, while tickets for the Schneider, Dirt Band, Gosdin and Judd shows are \$8. Tickets for the remaining stage attractions are \$10 each. All seats are reserved.

Mail order reservations may be sent to Show Tickets, P.O. Box 208, Lubbock, Texas 79408. Requests will be processed in the order in which received and orders will be filled after July 1. Mail orders must be accompanied by a self-addressed, stamped envelope.

State meeting in Longview in September.

Those present were Maye Weed, Gwen Carter, Edith Jones, Toni Jones, Pat Curtis, Bitsy Martin, Pam Redman, Sidney Murphey, Jerri Lollar and agent, Mary Dale Williams.

Next meeting is Tuesday, Sept. 3 at 11:30 a.m. in the club room.

He will be making additional trips to Las Vegas in March and again to Washington in June, 1986.

Weight Watchers Discuss Vacations

Vacations are a time of fun and relaxation, don't make eating the number one entertainment.

This was the advice given those who attended the Weight Watchers meeting Monday in the library.

Several alternatives to vacations were also given.

Next meeting will be Monday, July 8 at 5:30 p.m. in the library.

The armadillo, the ant-eating animal from Africa, got its name from Dutch settlers in the 1600's. Translated, the name means earth pig.

Parity Dips To Lowest Point Ever

According to United States Department of Agriculture figures, the parity index dropped to its lowest point in history during the month of April, says Darrell Barron, the president of Yoakum County Farmers Union.

"The parity figure for the month of April was 53 percent, the lowest since the dark days of the Depression, in June of 1932," says Barron. "Parity is a figure that the public doesn't hear much about these days, but is a pretty accurate way of figuring how the farm economy is doing. And right now it isn't well at all."

The parity yardstick is a method of determining cost-versus-price relationships in the farm economy. The figure is based on prices received and paid out during the 'Golden Years' of American agriculture, that period that historians have designated between 1909-1914 as the best years of farming. The formula is adjusted for inflation and is similar to the oft-quoted Consumer Price Index, in that it is a measuring stick for the condition of a segment of the economy. From U.S.D.A. figures:

Invitation Extended To Area Farmers

Cotton, corn and sorghum producers in Yoakum County are invited to the second part of the annual High Plains Scout Training Workshop to increase the effectiveness of their pest management programs.

The last of two workshop sessions will focus on mid-and late-season pests and will be held Tuesday, July 9, at the Hale County Agricultural Center in Plainview, according to David Kight, county Extension Agent. The center is on U.S. 87 Business Route south of the city.

The workshop will begin at 8:30 a.m. with Dr. James Leser, Extension Entomologist, outlining the scope of the training and explaining general concepts. Leser will then open the cotton pest section with information on bollworms and budworms. Beet armyworms, loopers and aphids will be discussed by Greg Cronholm, Extension Agent-Entomology headquartered at Plainview.

Corn pests will be covered by Allen Knutson, Extension Agent-Entomology based in Dimmitt. Dr. Pat Morrison, Extension entomologist, will discuss sorghum pests.

The daylong workshop will conclude with a field session in which participants will identify pests and beneficials and practice scouting techniques.
