## Plains Cowboys Fall Prey To Seagraves Eagles Friday

By Randy Kennedy

The tenth and final game of the 1985 Cowboy season was played on Friday night, Nov. 8, as the Cowboys lined up against the Seagraves Eagles for four quarters of hard-hitting action. Getting off to a slow start in the first half, the Cowboys soon came back to redeem themselves with a scoring explosion in the third and fourth quarters. However, when all was said and done, the Cowboys were unable to bridge the scoring gap and eventually fell to the Eagles by a 42-26 point tally. At season's end, the 1985 Cowboy record goes into the books as tied, with 5 wins and 5 losses.

In review of some of the game's highlights, the Cowboys seemed to get off on the wrong foot as first quarter action got underway. Winning the pre-game coin toss, the Cowboys started the game with possession of the ball, but quickly lost it after a busted drive. They were then forced to punt into a strong wind and thus gave the Eagles control of the ball inside Cowboy territory at the 43. With this break, the Eagles were set up for their first score. In a series of short passing attacks, the Eagle offense managed to penetrate the end-zone and draw first blood with 7:22 left on the first quarter clock. As the quarter progressed, the Cowboys continued to have a tough time offensively but played commendable defense. A quarterback sack by senior Billy Bob Anderson and a fumble recovery by senior Mickey McMinn helped to successfully pin the Eagles down.

Things only went from bad to worse for the Cowboys as the second quarter began. Starting the quarter with what looked like a strong drive, the Plains offensive squad rushed and passed their way up to the 36 yard line before stalling. Next, they caught scrambling

Seagraves punt returner Russell Jones deep in Eagle territory at the 18. However, these were the last glimmers of hope that the Cowboys saw in the second quarter. Several plays later, running off of an untimely Cowboy interception, the Eagles executed a 68 yard campaign down the field for their second score. With 3:40 remaining in the half, the Eagles were up 14 to 0. Finally, with momentum that was hard to stop, the Seagraves scoring unit prevailed again with only 14 seconds left in the half. Scoring off of another unfortunate interception, the Eagles finished the half with a 21-0 shut-out lead.

A stunning blow was served by the Cowboys as both teams assembled on the field for the second half of action. Seizing on an Eagle fumble during the first play of the third quarter, the Cowboys quickly put the ball into the air for the score. An 18 yard pass from quarterback Shane McMinn to brother Mickey McMinn brightened the lights on the Plains side of the scoreboard with a touchdown and made the score 21-6. However, on the Eagle's next possession of the ball, they retaliated just as quickly and scored on a 15 yard pass play, making the tally 28-6. The entire third quarter was characterized by this type of back and forth scoring. First, another McMinn to McMinn connection from the 20 resulted in Plains' second touchdown. Not far behind, a Seagraves touchdown with 2:02 remaining tacked another seven points to their lead. So, as the third quarter came to an end, Plains was fighting to stay in the game with a score of 35-12, Seagraves' favor.

As the final quarter of the game started, Plains began to demonstrate an excellent running game. With junior Martin Barrientes serving as the spearhead, the Cowboys fought their way down to

the Eagle 27 yard line and eventually scored. Doing the honors was sophomore Michael Diaz, running in from 9 yards out for the score. The Cowboys had a difficult time playing catch-up, however. With 6:25 left in the game, the Eagles scored once again as runningback Tracey Draughan carried 83 yards for the TD. With this touchdown, Seagraves jumped 24 points ahead of the Cowboys with a score of 42-18. But the Seagraves' defense hadn't seen the last of Plains yet.

Making it past a shaky fourth down situation, the Cowboys drove to within three yards of the goal line. On the next play, easily covering the short distance, Barrientes toted the ball in for six and another Cowboy score. As the game neared an end,

time was the Cowboys' most merciless enemy as they struggled to catch up. And in the end it prevailed, leaving the final score of the final game of the Cowboys' 85 season at Seagraves 42 - Plains 26.

## Our God Is Real

Les Carey  
Hillside Church of Christ

Several of the listed "living religions" of the world practice idol worship! This writer watched on T.V. hundreds of thousands flock to the statue of Buddha in Kamakura, Japan to pay their homage. As one views the masses, his thoughts go to a passage in the Old Testament: "Bel boweth down, Nebo stoopeth; their idols are upon the beasts, and upon the cattle: the things that ye carried about are made a load, a burden to the weary beast. They stoop, they bow down together; they could not deliver the burden, but themselves are gone into captivity" (Isa 46:1-2). Such idols are inanimate, they have no life, consequently they can give no life nor answer for life.

God, Almighty, the true and living God lives and directs the lives of His children. He may be unknown to millions, but this does not prove He fails to exist and direct His world. God has well revealed Himself and His majesty to man through the general revelation of the natural world that he created. In a more important way He has revealed Himself to His creature man through special revelation in the form of the Bible and His Son, Jesus Christ. We all know our God is real because He stands ready to answer the call and prayers of His children. There is absolutely no way to compare the True and Living God with lifeless idols, regardless of their material worth.

The interesting thing, however, is the fact that we have people who call themselves children of God who go about creating idols to worship and serve. Webster says an idol is "An object of passionate devotion". These good people would not give a second thought to bowing prostrate before an idol of wood, stone or metal. Their idols are often created of attitudes that draw their attention to such an extent they have no time left for the God of heaven. Such attitudes lead them to create idols of material wealth and gain. When an individual becomes so obsessed with the creation of great stockpiles of material goods to such an extent that he literally worships wealth, then he has created an idol that stands between him and the living God. One will find some who have created an idol out of popularity. They are so keenly interested in keeping up with the changing up with the changing crowd and the fads of the day that they reach the point of not willing to stand up and be counted on the side of Christ. Perhaps more people today have made an idol out of pleasure than anything else in this fast-moving, complex twentieth century. The wise man wrote: "He that loveth pleasure shall be a poor man" (Prov. 21:17) If we let pleasure of this life so sap our strength and time that we have nothing left for God through service, then pleasure has become a stumbling block in the form of an idol. The Bible warns us against worshipping idols. Israel was wrong in worshipping the golden calf at the foot of Sinai. David, a great man of God, destroyed the images of the Philistines, by burning them with fire. We need to break down every idol, that we might worship God and God alone and show our love to Him for His great goodness to us.

## Yoakum SWCD Receives Top Achievement Award

Yoakum County Soil and Water Conservation District was recently honored in San Antonio as the Outstanding Conservation District in the region. Only three such awards are presented in Texas.

The award cited the District as showing outstanding leadership in soil and water conservation and in the support of research in range management systems.

The District feels especially honored because the Goodyear Award is the highest award any district in Texas can win and was chosen over 84 other districts in this area.

Sponsored by the Goodyear Tire

and Rubber Company, this award is given in recognition of conservation districts across the United States for their achievement in Conservation of the nation's natural resources. Included with the presentation is a three day trip to the Goodyear Model Farms near Phoenix, Ariz. Attending from this area will be Dick McGinty, board secretary and Loren Gayle, chairman. Earl Kiser, 1984 Conservation Farmer of the Year will also be joining the district representatives.

The Yoakum SWCD Board of Directors are Loren Gayle, Dick McGinty, Bobby White, Henry May and Bob Jones.

## Varsity Volleyball Girls Travel To State Play-Offs

The Plains Cowgirls captured the Region 1-AA title in Big Spring Saturday, Nov. 16 after downing Van Horn 15-1, 15-7 and taking San Elizario 15-4, 15-8.

The Cowgirl offense was more than the Eagle defense could handle. They had a team total of 22 kills in the final match.

The girls will compete in Austin in the State Volleyball Tournament, Friday, Nov. 22, playing against the cougars of Leon-Jewett at 12:45

p.m. in the semi-final action. The winner of that contest will meet the winner of the Sabine-East Benard match on Saturday for the Class AA State Championship.

Impressed with Saturday's performance, Coach Cain pointed out that "the final game was important, but even more so because each player did their part and contributed. We have to play this type of game from here on out. The girls have worked real hard to be ready for the play-offs. This is it!"

"FRIENDS OF 4-H AWARD" was given to Margaret Box recently for her service and dedication in the 4-H program. Toni Jones, adult leader, made the presentation.

## Thanksgiving Memories At Plains

Louis Crenshaw

*When the red sun sank to the prairie's edge behind the sagebrush and sand, my thoughts were of Thanksgiving.*

*From history I recall the village of Patuxet, Mass., located at the present site of Plymouth. In 1617 most of the population was wiped out by smallpox. Those Plymouth pilgrims and Manomet Indians supported each other because they were Christians.*

*On the first Thanksgiving day in America, pilgrims counted only 20 acres of harvested corn. Together Indians and Pilgrims prepared wild turkey, geese, duck, deer and small game for their meat dish. The forest yielded various nuts. What a time they had in celebration of God's providences.*

*This year, 1985, at Plains and Yoakum County during Thanksgiving season it is not difficult to turn back the pages of years in our books of memory. For me, I lived for a time in my youth in Arkansas. In season there was dogwood, rhododendron, azaleas and wild roses in bloom. When autumn came, woodland scents poured in through our modest frame house windows.*

*My grandmother Sally Crenshaw walked us through forest trails in search of black walnuts and hickory nuts. Squirrels scampered about on the forest floor gathering their winter supply stored in tree hollows.*

*Above the forest in the soft autumn sky could be heard the ventriloquial honking of Canada geese in flight south for wintering in warmer climes.*

*Out here on the high plains during Thanksgiving season, the mornings are crisp and clean. There is no aroma on a crisp morning like that of frying bacon and perking coffee, cowboy style over a campfire.*

*Those Arkansas days of childhood often would see our festive dinner made of turkey, baked in a Dutch oven, with vegetables cooked in iron pots strung over an open fireplace. Grandparents, and grand they were, along with all their tribe down to distant cousins would gather us about that table which groaned under the weight of good things to eat. After prayer of thanksgiving recalling the year's blessings, we made the table look like a cyclone struck it.*

*The long holiday season is a time for friendships renewed in the warmth of the fieldstone fireplace. In the flare and dip of the flame to the sounds of sparks from crackling wood, we count out blessings here on the 'plains'. Children laugh and the faithful hound curled up by the hearthstone dreams of the day's chase on the prairie.*

## Letter To The Editor

Dear Editor:

On behalf of the South Plains Music Festival, we would like to thank everyone in Plains for helping to make this year's festival a great success.

We would like to especially thank the news media, the girl scouts, the queen candidates and their parents, the sponsors, the performers and

We urge all our members and friends to continue to support all the wonderful sponsors everywhere who made the program possible.

Sincerely,

## Senior Citizens

Just a short apology to the Plains people. My column, with an invitation to Nov. 21st "Turkey & Dressing" lunch at Denver City Senior Citizen Center missed the boat. I sincerely hope you heard the beating of the drum and come for the affair. We here at Denver City are looking forward to a nice day and seeing many of you. Come on down any day. The welcome mat is always out.

Last Saturday several of our people attended the "42" contest, and sampled Plains good food and hospitality. Seems a shame, a couple of Plains citizens are "rats" when it comes to beating ladies in an "84" game.

MARY PETTIGREW

## Kitchen Korner

An active member of the First Baptist Church in Brownfield, Mary Pettigrew and her husband, Tom share the teaching responsibilities of the Young Married Couples' class.

Employed as Resource Center Librarian with Plains I.S.D., Mary previously taught first grade at Colonial Heights Elementary in Brownfield for nine years. Raised in Plainview, by her grandmother, Helen Stultz, she moved to Brownfield during her junior year of high school.

Married in May of 1967, Mary took a position with Southwestern Bell in Amarillo while her husband finished his studies at West Texas State University. Having two years of college work behind her, the couple moved back to Brownfield. Commuting to Lubbock, Mary finished her schooling at Texas Tech in 1975.

The Pettigrews have one daughter, Pebble. She is 13 years old and in the eighth grade.

Mary's interests include her friends and reading. She also enjoys practicing the art of calligraphy, and admits her job holds a special place. "All of the people here at Plains have been so very kind and I've felt at home from the very first day of school," she says.

## Child Welfare Board Begins Cookbook Sale

Members of the Yoakum County Child Welfare Board gathered Tuesday, at 5:30 in the Plains Library to discuss a program to be used to inform the public of child abuse in Yoakum County.

The program is entitled, "Wednesday's Children" (not related to the television program segment on Channel 28). The presentation depicts children from all walks of life who are victims of neglect and abuse; and how concerned people might be able to contribute to their welfare.

Child abuse is a growing problem in Yoakum County. In 1983, twenty referrals were investigated. There were 53 cases investigated in 1984 and as 1985 comes to a close, there have been a total of 71 cases filed, thus far.

The organization is dedicated to helping kids in trouble and would like to present the program "Wednesday's Children" to any

interested group, social or civic. This is presented as a social service and there is no charge. Information may be had by contacting Peggy Squyres at 456-4633 or Lisa Switzer at 456-2377.

The Board's "Country Cookbook" sell is also underway. The cookbook features recipes from local cooks. The books sell for \$7, and may be purchased at the Yoakum County Courthouse from Toni Jones, or any other board member. Proceeds from the sale will benefit needy children of Yoakum County.

Members present for the meeting were Peggy Squyres, Toni Jones, Dorothy Anderson, Anna Gonzales, Lisa Switzer, Beverly Thomas, Sandy Madden, Patti Lindsey and Kathy Minchew.

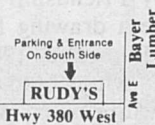

Next scheduled meeting is Tuesday, Jan. 21 in Denver City at 5:30 p.m.

## 'What Is Tsa Mo Ga?'

by Eleanor Simpson

Tsa Mo Ga Club was organized and Federated in 1935. It is an organization of volunteer service to our community, our District and our State. As such, we are justly proud of our accomplishments. Each year we contribute to five scholarships, and to the Girls Town Education Fund. We send a PHS girl to Girls State; we entertain the Senior Class and the Senior Citizens; we work in the Cancer Drive and the Heart Fund Drive; we participate in all Civic undertakings such as Rodeo Parade and Barbeque; and each Christmas we send gifts to Girls Town, M.D. Anderson Hospital and the Veteran's Hospital in Big Spring. We have made donations to Little Dribblers, Yoakum County Art Association, MS. Society and the Statue of Liberty.

Tsa Mo Ga organized the Cemetery Association and has had members serving on it since the beginning. The Club was instrumental in obtaining the Library and in the recent remodeling and expansion.

We also gave three lots to the city for the Pioneer Plaza and it has been a project for a number of

years. We help maintain the Marquee, planted Gold Stripe Euonymus in the planter, put curbing on the west side, placed four park benches in the park, and installed an underground sprinkler system. We plan to apply fertilizer and weed killer in December and reseed bare spots next spring.

We are replacing the Bazaar and Cedar Chest drawing as our money making projects this year with our Sesquicentennial Project. This is to be a Community Friendship Quilt that we will have a drawing for at the Old Settlers Barbeque, 1986. It will be a red, white and blue queen/king size with shams. We are in the process now of selling blocks which members will embroider with names and designs of the buyers choice.

We plan to make our next fifty years as productive as the last.

WE WISH YOU A...  
*Happy*  
*Thanksgiving*

## Kirk Williams Is Named To Tech Agriculture Program

The Texas Tech University College of Agricultural Sciences recently named Kirk Williams to its 1985-86 roster for the College's Ambassadors for Agriculture program. He is the son of Charles Williams and Mary Dale Williams.

According to Assistant Dean of Agricultural Sciences, Marvin J. Cepica, the program's faculty sponsor, the Ambassadors for Agriculture are a group of students who are majoring in one of the College's seven departments and have public speaking training and experience as state or national officers or public speaking contest winners in the Future Farmers of America or 4-H organizations. The Ambassadors provide their services as speakers to local and area civic and youth organizations. Students become members of the organization on a selected basis.

At Texas Tech, Williams, 21, is a senior Crop Science major and serves as a student recruiter for the College of Agricultural Sciences in addition to his academic pursuits. He has received Agronomy Faculty Awards for highest academic achievement in his freshman, sophomore and junior classes. Currently, Williams serves as State President of the Texas Student Chapter of the American Society of Agronomy, vice president of the Texas Tech Agronomy Club and is a member of Alpha Zeta agricultural honor society. He is also listed in the National Deans' Honor List, the International Directory of Distinguished Leadership and the Young Community Leaders of America.

Williams was an active member of 4-H for eight years and was active in method demonstration, range and pasture grass identification and public speaking. He served as a district council representative, a 4-H Congress Delegate, vice-president of

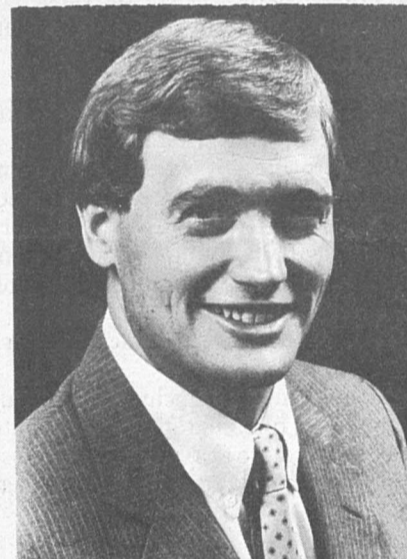

his local club and a member of the Texas 4-H Council for two terms.

In high school, Williams served as Student Council Treasurer and was an All-District Football honoree. He was active in UIL ready writing, informative and persuasive speaking, editorial writing and one-act-play and was a member of the National Honor Society.

As a member of the Ambassadors for Agriculture, Williams will speak to civic clubs, agricultural organizations and other groups on behalf of Agriculture and the Texas Tech College of Agricultural Sciences.

Other Ambassadors include Aaron Alejandro, Boys Ranch; Brad Bass, Mount Vernon; Bill Caraway, Clovis, N.M.; Robert Edmonson, Corsicana; Melissa Hagstrom, Abernathy; Danny Hunter, Roscoe; Tom Maynard, Boys Ranch; Greg Odom, Dimmitt; Stan Ray, Robert Lee and Scott Syamken of New Braunfels.

Requests for speakers or information should be directed to the Texas Tech College of Agricultural Science at 806/742-1918 or 806/742-2808.

## From The Superintendent's Desk

DEAN ANDREWS

*It is only right, at this special time of year, that we pause for a moment and ask ourselves just what it is that we have to be thankful for.*

*The answer is not always at our fingertips; is not always clear. We read the headlines of the newspapers, we listen to the radio and watch the T.V. screen, and what do we see? We see crime so horrible that it sickens every decent man and woman. We see the results of war on the faces of its victims. We see tragedy upon tragedy, hunger, pain and poverty. This is what we see and certainly, the doubt must come that we have little to be thankful for in this far from perfect world.*

*Abraham Lincoln once wrote "I can see how a man can keep his eyes on the mud and conclude that there is no God, but I cannot see how anyone could turn his eyes to the heavens on a starry night and deny the existence of a Supreme Being." Perhaps that is our problem today, a problem of point of view. We can concentrate on what is wrong or we can appreciate that which is right.*

*If we look for it we can find individuals who give of themselves in every way. We find people who risk their lives to save others who are victims of unexpected tragedy. We find love conquering hate every day. We find homeless children in the world, but we find more men and women with hearts full of love, a love so large as to take the children in and adopt them and share this love with a child.*

*Let us ask ourselves what it is that we may be thankful for. We can be thankful for each other. We can be thankful that, for every individual who takes away from society in terms of crime and terror, we have ten, twenty, a thousand, who give each and every day of their lives in terms of love and care and selflessness and concern for others. So let us be thankful.*

*A Happy Thanksgiving to everyone!*

## PLAINS I.S.D. ANNUAL PERFORMANCE REPORT

The Annual Performance Report was approved by the Board of Trustees of Plains Independent School District on Nov. 11, 1985. The documentation of this approval is found in the official board minutes.

This is to certify that this Annual Performance Report is available for staff and public inspection on each campus in the district.

A copy has been provided to newspapers serving this area.

This report is available for inspection at the school administration office.

s/Dean Andrews

### STUDENT PERFORMANCE

Plains Independent School District has in place as an integral part of the curriculum the essential elements as mandated by Chapter 75. This is documented by scope and sequence documents on each campus. Teachers' record keeping procedures document the students' mastery of the essential elements.

Our testing program is summarized in sections 2.1 and 3.3. Our scores verify that students in this school district are making very good progress. A comparison of T.A.B.S. and S.R.A. scores are included in the percentile of mastery.

### PROGRAM OFFERINGS

Plains Independent School District felt the impact of Chapter 75 and House Bill 72. The format for lesson plans was changed in order to help document that essential elements were included in each course offering. Curriculum guides and scope and sequence guides were initiated with completion set for the 1985-86 school year.

Tutorial classes were offered two days each week in all schools. More emphasis was placed on science in the elementary grades. A computer lab was established in the elementary grades for computer assisted instruction, and social studies was given a more structured approach.

Our Junior High School was required to look at science and provide more laboratory experiences for students, as well as providing additional reading periods for those students scoring below the 40th percentile on the standardized achievement tests.

Our high school added correlated language arts I, introductory physical science, and computer science. Guidelines were developed to determine student requirements to qualify for the following courses: consumer math, correlated language arts, introductory physical science and introductory biology.

### STAFF QUALITY

Our personnel evaluations indicate that most of our staff received positive evaluations. Section 3.8 is a demographic breakdown of our staff and thirty-six of our forty-five teachers have been in the district for at least three years.

Our district is recognized as one of the top paying districts in Texas. Teachers are paid \$7,000 above the minimum salary recommended by the State, plus hospitalization, annuity and housing allowance.

### FACILITY ADEQUACY

Plains Independent School District has excellent facilities. Our junior high school began a remodeling project costing \$813,607 during this school year. The facilities were constructed beginning in 1949 with additions in 1969, 1973, 1974, 1976, 1980, 1982 and 1984. Our community has encouraged and approved progressive renovations to meet new trends and current needs.

[Due to the length of this report - it will be continued from week to week until complete]

# Be Forever Thankful...

For the happiness in our families today. For the beauty around us. For the friendships we've made. For the laughter and the difficult times that we have endured and that have helped us grow. For the food on our tables, and for the blessings we have received, let us join together in the early tradition of our country and GIVE THANKS TO OUR HEAVENLY FATHER for the past and present blessings of this great land, and look to the future with great optimism.
