**FHA County Office Now 'Sub-Office'**

Recent restructuring of Farmers Home Administration (FmHA) in the state due to automation, has made it necessary to make a number of changes in the county and sub-county office locations and the headquarter offices servicing various counties, said J. Lynn Futch, FmHA State Director at Temple, TX.

The full-time office in Plains, previously serving Yoakum County will convert to a sub-office and will be at 605 9th Street in Plains and will remain full-time. Mrs. Johnnye F. Conner, County Program Technician (CPT) will service the office with the assistance of the county office personnel in Morton of Cochran County.

The FmHA loans previously serviced out of the Plains county office for Yoakum County will remain at the Plains sub-office.

The Morton county office unit headquarters and the Plains sub-office will be supervised by the FmHA District office in district No. 7 with headquarters in Lubbock.

Combining the county offices will not affect individual loan customers with FmHA, Futch said. The Morton, Cochran County unit office headquarters will be open full-time. The county unit office in Morton is located at 200-E West Taylor Street and the phone number is 806-266-5018. These unit offices will be served by Mr. Trueman D. Murdoch, County Supervisor and staff at Morton.

The Farmers Home Administration is a rural credit agency of the U.S. Department of Agriculture. It makes loans available to farmers and other rural and small town people and groups of people, including local Government, unable to secure credit elsewhere.

Loans are made for housing, agriculture purposes and for a variety of community facilities. In addition, FmHA, under some circumstances, may guarantee repayment of housing, farm and business and industry loans made by private lenders.

## From The Superintendent's Desk

DEAN ANDREWS

Can you believe that we have just completed the first six weeks of the 1987-88 school year. It seems that we only started yesterday. I am amazed at the work and dedication exhibited by our students and our staff as they work to be successful. We have a teaching staff that really works hard to see that students are successful. The students however must be willing to put forth the effort to complete their homework and prepare for tests.

Our students are working hard and their hard work is showing. Students are taking school more seriously now than in any year that I can remember. We have eight students taking courses over the TI-IN satellite. Their grades were: Physics - all A's, German - A, Spanish - A and Psychology - B. This speaks very highly of the students in our schools since they are not only competing with other students in Texas but also with students in thirty-three other states.

I encourage each of you to keep up the good work because the benefits are yours.

We often tend to talk about "The Good Old Days" and as I ran across the following figures (listed below) I thought they might be of interest:

## FACTS

Scientists say people have been eating an apple a day for at least two-and-a-half million years. Charcoal remains of apples have been found in the ruins of European Stone Age villages. Early American colonists brought both apple seeds and apple trees with them from England. They dried their apples or used them to make cider and apple butter.

## Low Interest Loans Available For Major Home Repairs

Guadalupe Economic Services Corporation, through grants from the Farmer's Home Administration, has established a program to provide low interest loans for home repairs.

Funds are available for major repairs such as roofing, plumbing, electrical and structural problems and handicap assessibility, to comply with standards.

The amount of the loan is based on 55 percent of the value of the home with the maximum amount of \$5,000. Loans are repaid at 5 percent interest, with a ten year repayment schedule. County income limits are based on family size and combined yearly income. Income limits for a family of two for Yoakum County is \$17,350. Income, credit history, need for repairs and ability to pay, will be considered.

Priority will be given to elderly, handicapped and to low income individuals. Each applicant should bring proof of home ownership such as Deed (must have been living in home for one year prior to applying); income verification for 1986, such as w-2 form, 1040 or Social Security determination letter; and Property Tax Receipts (taxes must be current).

GESC has also been designated as an approved counseling service by HUD and the Texas Veteran Land Board to provide information, assistance and advice to prospective and current homeowners regarding

housing questions or problems. These services are open to everyone including those individuals experiencing mortgage difficulties. There is no charge to the client for this housing related counseling. Information on other sources of funding for repairs is available.

Applications from Yoakum County homeowners desiring to repair their residences may be completed at the new Courthouse Coffee Room, Plains, TX on Wednesday, Oct. 21 from 10 a.m. to 2 p.m.

This program is also available for Cochran, Dawson and Terry Counties.

For more information call 806-744-4416 and ask to speak to Mary Baiza or Margy McMennamy.
