From The Superintendent's Desk

Dean Andrews

I was watching a T.V. program this last week which gave me an interesting idea for this column. The program I was watching was "Inside the N.F.L." and the segment was "Where are they today?" I thought it might be interesting to look back at a graduate each week and see where some of our ex-students might be at this time. I think we may be surprised at how far many of our students have traveled and will be very proud of their accomplishments.

I am asking you to help with this project by providing to my office the name, address, date of graduation, and recent accomplishments of any relative you would like to tell about.

This week I would like to feature the Layton twins, Donald and Ronald, who graduated in 1967. Donald R. Layton now lives in Porterville, California. He has a medical laboratory in Visalia, California and also does work for a hospital in Bakersfield. He has written articles for medical journals and wrote for the Tenth Annual World Association Cytologist Journal. He and his wife Ester have three children. Ester is a teacher.

Ronald R. Layton, is a teacher in Sulphur Springs and is certified to teach in six fields. Ronald and his wife Velma have two children.

The Layton twins, sons of Mr. and Mrs. Johnny Layton, are best remembered for their academic abilities but also everyone remembers that in track events, Ronald was the fastest.
