## New Anti-Litter Campaign Is Opened By Hwy Department

AUSTIN — The Texas Highway Department launched a new slogan in its anti-litter campaign: "Be a neatnik, not a litterbug."

This plea comes from Texas Highway Department maintenance crews all over the state as they haul mountains of cans, bottles, paper, decaying food and other litter from Texas highway right of way.

"Spring houseclean our Texas highways all year long by fighting that urge to toss litter from your car," they recommend.

Throwing litter on highways and roadsides is prohibited by law. Last year 231 cases against litter-throwing were completed in Texas courts. Of this number, 269 were found guilty and were fined or punished by other means.

Highway maintenance men point out that litter is local for the main part, coming from resident litterbugs and not from out-of-staters or from phantoms travelers from "up the road." Surveys reveal that the litter bug is a local person, possibly a civic-minded citizen in all other phases of his life, but he fails to see the multiplication factor when he tosses out an empty cigarette package, wad of paper, or soft-drink bottle. He would not toss these objects down in his own yard, or in a friend's; but he will thoughtlessly take over the highway as his own private trashbasket.

Other evidence of the "resident litterbug" is sometimes a can of soda, a bottle of beer, a wad of paper, a soft-drink bottle, a wad of paper, or a soft-drink bottle. He would not toss these objects down in his own yard, or in a friend's; but he will thoughtlessly take over the highway as his own private trashbasket.

It has to be hand-picked. That makes it an expensive operation. Last year the clean-up and mowing bill for 57,500 maintained miles of Texas highways totaled more than \$7,000,000. This included picking up, hauling, and unloading rubbish. Another chore for maintenance men is removal of dead animals, removal of rocks and rock piles. Wrecked cars must be hauled off. Advertising signs in the right of way must be taken down. Maintenance crews are also responsible for mowing the grass, removing brush, and keeping vegetation from the highway markers and guard posts.

A maintenance foreman explains, "We could do our mowing job so much quicker and save money if we don't have to pick up all the cans, bottles, and litter before we start. A heap of litter hidden in the grass can wreck an expensive machine or automobile. Cutting grass is more than just trying to keep a neat high-

way yard. Mowing reduces fire hazard and prevents spreading of weed seed to nearby farms. Tall grass and brush can also distort sight distances and result in expensive and tragic automobile smashups.

"Take a count of the litter objects you see the next time you are on the road. Even though we have regular maintenance crews making periodic litter pickups, that busy litterbug is still way ahead of us. Help us out. Be a neatnik. Litter? Don't throw it; stow it—till you get to a proper disposal unit."

## Will G. Medford Dies At Eastland

Will Gordon Medford, 83, died at his home in Eastland Tuesday at 4 p. m. after a long illness.

Funeral was held at 5:30 p. m. Wednesday at Hamner Funeral Chapel with Rev. Lee Fields officiating. Burial was in Rising Star Cemetery.

Born March 25, 1878, in Red River County, he had lived in Eastland 18 years. He married Annie McDaniel on Nov. 26, 1916 at Avery.

Mr. Medford was a longtime employe of Coca Cola Bottling Co. in Eastland before retiring.

Survivors include his wife and three brothers, Shan of Okra, Toad of Carbon and Lon of Eastland; and four sisters, Mrs. I. R. Edwards of Eastland, Mrs. Evelyn Gray of Fort Worth, Mrs. M. B. Bess of Okra and Mrs. M. B. Bess of Okra and Mrs. M. B. Bess of Okra.

**PNG Introducing New Gas Light**

A new line of dual-mantle gas lights is being introduced throughout the area served by Pioneer Natural Gas Company, officials of the company have announced.

Manufactured by Bruest, Inc., one of the country's major producers of gas lights, the new light has been named "The Pioneer" as a result of improvements suggested by Pioneer Natural Gas Co. The major innovation is a distinctive dual-mantle which increases the amount of soft, diffused illumination characteristic of gas light, with no increase in the cost of operation over the present single mantle lights, according to Rayford Burgess, local PNG mgr. Burgess also states that the price on "Pioneer" gas lights will remain the same as on present models. The dual-mantle light is expected to further increase the demand for Gas Lights which has experienced a phenomenal rise in popularity since being introduced some three years ago.

The new dual-mantle features in "The Pioneer" light is an improvement that it will be incorporated in other models.

Initially, the new "Pioneer" light will be introduced through Pioneer Natural Gas Company offices. However, the manufacturer will market these lights on a nationwide scale in the near future.

**Coaching Staff Changes Made At Eastland High**

A change in the coaching staff of Eastland High School has been announced by School Superintendent Wendell Siebert.

James (Jimmy) Hughes, a coach and teacher for 14 years, will replace Carrol Shelton as head coach and athletic director for Eastland High School. Hughes' assistant is to be Bennett Ragsdale, a former member of the EHS coaching staff.

Shelton, who has coached for the past eight years, led the Mavericks to the semi-finals in the 1956 season — the farthest any Eastland team has ever advanced in high school football. Shelton asked to be relieved of his coaching assignment, but will remain with the school faculty as a science teacher. He is presently attending summer school at Texas Tech in Lubbock on a science grant.

Hughes, who holds a B. S. degree from Howard Payne College and an M. E. degree from Sul

Ross College, has previously taught and coached at Pyote, Kermit, Carbon, and Eastland. He has lived in Eastland for the past seven years and has worked as line coach in the high school and as cooperative supervisor for the Eastland County superintendent's office.

Ragsdale, a graduate of Junction High School and Texas A&M College, came to Eastland in 1958 as mathematics teacher and assistant coach. He attended the University of Texas to do graduate work on a science grant during the past year. As a mathematics major, he will head the math department of Eastland High School and will be assistant coach.

**ELECTRIC READY-LITE**

...COMBINES GRACIOUS WITH MODERN CONVENIENCE

Dusk falls and your Electric Ready-Lite comes on automatically, providing light for beauty, safety and convenience. Then, at dawn, your Ready-Lite turns off, there's no waste from needless daytime operation. Start now to enjoy this modern yard light. You can have it put on your electric service bill with up to 24 months to pay. See any Ready-Lite dealer or telephone our office.

THE YARD LIGHT THAT "KNOWS" WHEN IT'S NEEDED

Electric eye control turns the Ready-Lite on at dusk, off at dawn ... automatically.
