## Faculty groups ask for tenure decision delay

By KIRSTEN KLING

University Daily Staff Writer

Representatives of faculty organizacampus press conference.

Professors (AAUP) announced that they still oppose the policy, even after revi- objections. sions were announced by the administration last Wednesday.

a delay in the implementation of any administration have studied it. The announced time period for review and qualifications for tenure is too brief, according to Benjamin Newcomb, AAUP president.

In a letter to Tech President Lauro Cavazos, Newcomb expressed the AAUP's belief that the Faculty Senate should be a part of the process of tenure policy consideration.

"We have been disturbed by press reports of comments that the Senate is not part of the process; we think that its charter, approved by the regents, does make it a part of any process involving academic policy formulation, Newcomb's letter states.

During the press conference, Neal Pearson, a Faculty Senate member and former president of the AAUP, said the faculty was not allowed to participate in the development or revision of the tenure

AAUP chapter included the ability of the

president and the regents to impose quotas, the ability for non-professorial term appointees to replace professors, the dismissal of tenured faculty without tions presented their objections to the recourse to established procedure, the revised tenure policy draft Tuesday in a lengthy probationary periods in upper ranks and the provision for the ad-Members of the Texas Tech chapter of ministration to give a non-tenured inthe American Association of University structor a hearing at its own discretion. The faculty members also voiced other

The AAUP contends that the protection for tenured and untenured faculty is The AAUP representatives requested minimal; the faculty is not protected from arbitrary changes in future policy; tenure policy until both the faculty and recruitment of high-quality and experienced faculty will suffer; and finally, the adoption of the policy will mean deliberation of a faculty member's the loss of the rights provided under the current tenure policy.

> According to the Tech chapter of AAUP, the new draft policy does not conform to AAUP standards which are designed to uphold academic freedom, tenure and high-quality performance. The Association of American Colleges, which includes Tech, has endorsed AAUP principles. The association and 100 other academic organizations support the tenure system.

Pearson emphasized that Tech's tenure percentage for the 1984 fiscal year is only .3 percent above the 10-year university average. Tech is one of three universities in the state above the 10-year average. According to the 1984 NEA Almanac of Higher Education, Tech's number of tenured faculty also was below the national average in 1982 Objections specified by the Tech for both two-year and four-year institutions.

The University Daily/Ron Robertson

Tech workmen risked their necks this week as they began preparing the scoreboard at Jones Stadium for the first home football game

Saturday against the University of Texas at Arlington. The game is scheduled to begin at 7 p.m.

## Gramm says farm bill should be top priority in 1985

Phil Gramm

By GREG VAUGHN University Daily Staff Writer

**U-Turn** 

Republican U.S. Senate candidate Phil Gramm Tuesday called the 1985 farm bill the most important piece of legislation in Washington, D.C., next year and pledged to "work for Texas Tech University every day" if elected Nov. 6.

In an address sponsored by the Texas Association of Business at the Lubbock Hilton Inn, Gramm also accused his Democratic opponent, Austin State Sen. Lloyd Doggett, of catering to too many special interests to adequately serve the needs of the state and the nation.

"The farm program in 1985 needs some key changes, because the one we have now is simply an extension of the one under the Carter administration," Gramm said.

"We need a new program that must have provisions for better supply management of crops, an active marketing program and a reciprocal

trade policy.' Gramm criticized current trade policies that allow the United States to import goods from Japan while the Japanese markets are closed to American farm products. He said the United States needs a trade policy that says, "If you want access to our markets, you're going to have to give us access to yours."

Gramm also defended his opposition to the continuation of Pell grants, the main

source of federal funding to college students. He said the provisions of Gramm-Lotta budget amendments he co-authored help hold down federal spending and guarantee that higher education will continue to be accessible to

"I know Texas Tech is important to

Lubbock," Gramm said. "As your next senator, I want you to know that you will have a friend who will continue to work to make Tech one of the great research and teaching institutions in the nation."

In addition to criticizing Doggett for opposing a balanced budget amendment, a strong national defense and a state water plan, Gramm continued to make "family values" an issue by referring to Doggett's campaign contributions from special interest groups.

Gramm said Doggett should not talk about family values when he supports a gay rights bill that would provide Affirmative Action employment practces in the hiring of homosexuals. Gramm mentioned a recent Doggett fund-raiser that included an all-male strip show that raised \$1,000 for Doggett's campaign.

"He (Doggett) denied taking the money until a picture appeared in a magazine which showed him taking a check (from a homosexual organization)," Gramm said.

Gramm added that although Doggett gave the money back to the organization, the money went directly into a political action committee fund to help elect Democratic candidates.

Gramm topped off his assault on Doggett's "special interests" by calling Doggett the "number one recipient of financial contributions from eastern labor organizations."

"If elected to the Senate, I will always represent the interests of all the people, and I will never let partisan politics stand between me and my constituen-

cy," Gramm said. The majority of Gramm's address centered around his promise to control federal spending and his commitment to a strong national defense. Gramm criticized his opponent and the Democratic party for planning to raise taxes to offset the federal deficit and blasted Doggett for referring to the U.S.

"I'm not going to let them (Democrats) trim the family budget in order to trim the fat of the federal budget," Gramm said.

invasion of Grenada as "gunboat

diplomacy."

In addition, Gramm said Doggett's willingness to spend money is shown by his introduction of a bill in the Texas Senate for state regulation of natural

"I guess he didn't think that federal regulation is enough," Gramm said.

In response to Gramm's remarks, Lubbock Democratic Party Chairman Harvey Morton said it was interesting that Republicans comment about high

spending when the largest deficit in U.S. history has emerged in the past four

"Lloyd Doggett would never spend a dime of the taxpayers' money until it was available," Morton said.

With regard to Gramm's charges that Doggett is controlled by special interests, Morton said he would rather be in debt to many different sources than be controlled by one industry - the nuclear power industry, which contributes heavily to Gramm's campaign.

"When you are supported by many different sources, it is never a sure bet how you will vote on particular issues, but when you are indebted to only one, you will vote with that industry every time, regardless of the circumstances," Morton said.

Morton also defended Doggett's "gunboat diplomacy" statement, describing the statement as accurate, whether a person agreed or disagreed with the Grenada invasion.

After his speech, Gramm said the dumping of high level nuclear waste in the Panhandle no longer is an issue because he is sure arrangements will be made to locate dumping sites in Washington state.

He said it is Doggett who is dodging debates, not Gramm as has been

## LP&L to request approval of rates

By KEVIN SMITH University Daily Staff Writer

Lee Stafford, chairman of the Electric Utilities Board, will make a request to the City Council Thursday for authorization to amend two rates currently charged by Lubbock Power and Light.

The rate amendments proposed are the creation of a General Religious Service Rate and the deletion of a tariff that covers miscellaneous service charges.

The religious service rate is being requested because churches are being penalized under the demand rate structure that was imposed on commercial customers when LP&L adopted SPS Texas System rates, Stafford said.

A demand rate is one charged to customers whose use of electricity demands bulk power at periodic intervals. The peak power demands of churches usually is on Wednesday nights and

Sundays, and those times are not the periods when high demands are being placed placed on LP&L's power production.

Several utilities around the state are charging churches different rates than they charge commercial businesses. The average reduction to customers affected by the new rate will be about 14.7 percent. The change would come to a \$46,000 loss in revenues for LP&L + about 0.1 percent of its annual total.

The other change involves the elimination of a tariff that covers such miscellaneous services such as returned check charges, reconnection fees, bill form charges and similar charges.

Also on the agenda at this week's council meeting is the first hearing of the proposed ordinance that, if passed, will annex a parcel of land nearly nine miles square west of Lubbock.

The official boundaries of the area to be annexed are listed as being between 660 feet south of 34th Street to 660 feet west of Quitsna Avenue to the city limits at Milwaukee Avenue. The area includes the outlying community of Carlisle and three subdivisions.

If the proposed ordinance passes the first hearing, it will receive a second hearing Sept. 27. If it is passed at that time, the annexation will become effective Oct. 8.

Making the ordinance effective is not a matter solely for the City Council, however. Once passed by the council, the policy must be approved by the U.S. Justice Department to ensure that minority voting rights have not been diluted as a result of the annexation.

## Unofficial enrollment tally shows only slight decline from last year

By LAURA TETREAULT University Daily Staff Writer

The unofficial Texas Tech fall enrollment figure as of early Monday morning was 23,657, a slight decrease from

last's fall official enrollment of 23,704.

Registrar Don Wickard said that at this point in the semester he is unsure about the reasons for the slight drop in fall enrollment. He said he does not know whether Tech's enrollment figures are part of a national trend of declining student body enrollment at colleges and universities.

In the past, Tech has ranked fourth in Texas in enrollment for public senior colleges and universities. Last year's

top three schools were, in order, the and Reports, Medley said. University of Texas at Austin, Texas A&M University and the University of Houston at University Park, according to a state enrollment report released last October by the Coordinating Board, Texas College and University System.

The University of Texas at Arlington last year was ranked fifth in the state in enrollment. Gene Medley, director of admissions and records, said UTA expects to surpass Tech this year and take the fourth place slot.

Tabulation of the official fall enrollment cannot begin until after the 12th day of classes, which is Sept. 19. After that date, the tabulation will be completed by the Tech Office of Statistics Colleges that show an increase in

enrollment are the Colleges of Arts and Sciences, up by 303 students, the College of Business Administration, up 175, and the College of Home Economics, up

Colleges that show a decline in enrollment are the College of Agricultural Sciences, down by 48 students, the College of Education, down 80, the College of Engineering, down 196, the Graduate School, down 258, the School of Law, down by 21, and the School of Nursing and Allied Health, down 40.

Wickard said the add/drop process has been more efficient this semester than it was last fall

## Franchise 'em!

He would incorporate the activists

By GREG VAUGHN University Daily Staff Writer

One of the most exciting aspects of working for The University Daily is the high turnover in personnel. For whatever reasons graduation,

other job opportunities, incarceration — the staff members constantly are given the chance to change their beats and libel a fresh crop of unsuspecting sources.

Just as Reagan White was exorcised to the sports section, I switched from being the medical reporter to covering politics. Talk about culture shock.

I like it, though. I've found the people I interact with to be helpful, enthusiastic and interesting. Although I enjoyed reporting the medical beat last year, the material often was extremely technical, and some of the people I interviewed were reluctant to talk to the press. No such problem this year. Politicians and their workers LOVE to talk, and I think that's great because it makes my job a lot easier.

I think it is a shame, though, that elections roll around only every two to four years. There must be a way to harness the energy and competitiveness of the people who get involved with political campaigns on a regular basis, which br-

ings me to the latest in a long line of Greg Vaughn "get-rich-quick" schemes. FRANCHISE EM'

If the USFL (USeless Football League) can make a go of it, a franchise system consisting of the various factions of the major political parties assuredly could capture the attention of the American public.

First of all, the Democrats and Republicans would have to divide into smaller teams such as the conservatives, moderates, liberals and so on to make the competition more interesting. The league also would allow the smaller parties to become more competitive because I would conduct elections every week, nine months out of the year.

Like professional football, the GVPL (Greg Vaughn Political League) would be divided into conferences and divisions and would entail a playoff system, similar to the primary system already in place. The final two "political teams" then would compete in the Greg Vaughn Bowl for the, you guessed it, Greg Vaughn Cup.

Baseball's greatest contribution would be the minor league "farm system." After all, politicians, like baseball players, don't just jump from the city council to the White House; they have to mature for several seasons in places like Jacksonville and Beaumont. State politics would be similar to Triple-A ball, local politics like Double-A and so on.

As is the case with most sports, politicking would include penalties and personal fouls for politicians who make stupid remarks and distasteful accusations. Hockey's penalty box could be implemented for these situations, but I fear that some - James Watt comes to mind - would take up permanent residence

Of course the GVPL would feature some "blue chippers" like Ronald Reagan and Walter Mondale, but there also would be some problem children. I'm talking about those free agents of the political system holding out for more social programs, larger tax cuts and other issues - the uncommitted

Unlike sports, however, the most exciting aspect of the GVPL would not be the election, but the week leading up to "game day." This is when the best mudslinging and name-calling takes place, not to mention the opportunities created during the week for live television coverage of debates.

Speaking of TV, I dare say my new brainchild would generate millions of dollars in network TV revenues for the political parties and me, Greg Vaughn. Eventually, the American public would see the emergence of a new 24-hour superstation, the Greg Vaughn Broadcasting System (GVBS).

I still haven't worked out all the details, but I'm sure the GVPL would be a lucrative venture. Anyone who might have any ideas of his own concerning the franchising of political parties should "touch base" with me, Greg Vaughn.

-Readers' Revenge

#### Comparing parties for a wise choice

To the Editor:

I would like to give my viewpoint concerning the upcoming election. I want to be as non-partisan and unbiased as possible and look seriously at both parties. In the past I have voted for both Democrats and Republicans.

After watching the party conventions and hearing the platforms, it appears the Democratic Party feels that government intervention is the answer to the economic problem. Republicans feel that government intervention IS the problem.

To help decide which philosophy works best, look at other countries as examples. Post-World War II Europe chose a socialist, government-is-everything approach. The government's cradle-tograve safety net has created economic hardships for its people, and consequently Europe has fallen behind.

Closer to home, Canada has had a liberal, big government philosophy under (Pierre Elliot) Trudeau for many years. A land as abundant as Canada is in natural resources and hard-working people finds itself with high unemployment, high inflation and low purchasing power of its dollar.

But just south of that border is the Republican-led, free enterprise Greg Bond

philosophy. The United States is leading in gross national product gains, a strong dollar, low inflation and steadily lowering unemployment rate.

Government intervention tangles up the production of a country with high taxes and stifles growth. Those who truly care about the poor and jobless need to vote for a free-enterprising, economybuilding philosophy rather than liberal government handouts and red tape. Under which philosophy would you rather graduate and look for a job?

## Election 1984

#### Factions clash over The Book

By ROBIN FRED University Daily Staff Writer

During the past couple of weeks, the issue of religion and politics has become one of the hottest topics of this election year - and that's

good, because a serious discussion about the relationship between church and state is long overdue.

Since the late 1970s, the Religious Right has been rounding up its forces and gaining ever more political and social power by working through fundamentalist churches.

Religious leaders of the 1980s have charged over ground where their predecessors feared to tread. The churches now have unprecedented political pull, despite the fact that not all members of any given church share the same political views (contrary to popular opinion, some Southern Baptists are Democrats).

Thus, religious leaders have a large amount of influence in political matters. Politicians who do not court church leaders' favor at least respect their influence on American voters and take care not to unnecessarily offend them.

Religious leaders have just as much right to become involved in politics as secular people; their involvement is a healthy part of the Democratic process. But telling the flock how to vote is overstepping the pastoral bounds just a

Religious leaders go astray when they assume the role of "God's Voice for America." Their sin is trying to use God to gain more political leverage than the simple Democratic process would allow

The price church leaders pay for more political power may be a loss of effectiveness in matters of spiritual concern. Involvement in politics can cause irreparable damage within the churches' spheres of influence.

The mingling of church and state poses a threat to democracy, as well.

President Reagan courted and won the support of the Religious Right before the 1980 election, and that helped him gain a landslide victory over Jimmy Carter. But Reagan created a political monster that even he cannot control.

On the exterior, the president was the darling of the Republican Party during its convention in Dallas last month. But in reality the attention of many Republicans already had turned to 1988, and the jockeying for future control of the party began.

And if the party's platform is any indication, the right wing conservatives, led by Religious Rightists, may already be winning the party back for God (I say that facetiously, doubting that God

would really want the GOP). Christians who do not happen to belong to the right wing of the Republican Party have good reason to be offended when people like the Rev. Jerry Falwell smugly claim God's blessing on their own political views.

I do not claim to be a Bible scholar, but I'm not totally unfamiliar with the Holy Book. And in all my reading I have never run across any mention of American foreign policy, nuclear proliferation, economic actions, equal rights for women or even school prayer.

How we are to stand on such issues is left to us individually, and I resent having someone else tell me I cannot decide for myself where I should stand politically.

If Jesus Christ were in the United States today, I cannot picture him actively supporting a nuclear buildup, military intervention in Central America, discrimination against any group or even school prayer.

The fact is, I think Christ would have more important things to do than try to make sure everyone stays in line and America retains its position of world prominence; and the church does, too.

Even a prosperous nation like the United States has many problems that cannot be solved politically. Families are breaking up in record numbers, millions live below the poverty level, many continue to suffer discrimination and most know little about Christianity.

Many see the moralists and assume all Christians agree with their philosophies. I can assure you that is not the case. Individual Christians should be involved in politics; churches should not.

## Concurring American

Comments

To the Editor:

I found Jan Dilley's Sept. 6 article, 'Yank yearns for return to motherland," to be a well-written account of life in East Anglia; especially as one written by a visitor.

My family has been at RAF Mildehall since 1981, and my father has extended until 1986. Sure, we put up with a lot of heartaches: road tax, radio-TV tax, high prices and absence of certain items on base. But living in Europe exposes one to different lifestyles and different opinions.

Many Americans don't realize that there are about 250,000 "Yanks" living in England, and their presence is vital to the defense of Europe.

Although many people complain about the different changes that must be made, most would not seriously condemn life in the United Kingdom.

## TI chip failures could endanger company fortunes, space shuttle, B-52s

By The Associated Press

DALLAS - The disclosure that the Pentagon is buying weapons that might include defective microchips from Texas Instruments Corp. might lead to a drop in billings for the Dallasbased company, a TI official said Tuesday.

The disclosure came as the company was enjoying a rapid rebound from a financial disaster a year ago.

Texas Instruments Vice President Norman Neureiter said Tuesday that while the company expects a drop in billings as a result of the military chip problem, it does not expect earnings for the year to be affected.

The Pentagon, over almost a decade, may have purchased as many as 15 million defective microchips for installation in the B-52 bomber and numerous other weapons that contain sophisticated electronic parts, the Defense Department said Tuesday.

The Pentagon said one of the chips was responsible for the delay in the launch of the space shuttle Discovery last month. But the National Aeronautics and Space Administration said it had known about the defective chips for several months, had retested all those in shuttle computers and was confident that was not what caused its problem Aug. 28.

electronic part" could contain the chips, said Donald E. Moore, quality control chief of the Defense Logistics Agency, which oversees the Pentagon's annual purchases of billions of dollars' worth of weaponry.

One weapon the chips were found in was the B-52, the heart of America's nuclear bomber force. The chips were in some of the giant plane's on-board computers, Moore said at a

Pentagon news conference. Moore insisted that "there is no indication of any significant reliability problem" with any weapons.

Moore said IBM found the problem last year in a routine check of whether chips it was buying had been fully tested. IBM told the Pentagon and has been talking with TI for more than a year to try to resolve the problem, Moore said.

All the chips were produced at a TI plant in Taiwan and some had been tested there while others were tested in Midland, Texas.

Moore said 15 million chips produced by TI "over a period of eight years" and sold to IBM are "potentially suspect."

One of the TI chips in a computer aboard the Discovery failed on Aug. 28, causing the third of the three launch pad postponements in the maiden voyage of the newest space shuttle, Moore said.

But NASA spokesman Mark Hess responded:

"We knew about the TI problem several months ago and based on that, took all of our computers on all our shuttles and put them through a special test back at the IBM plant and they successfully passed all those retests. We have confidence we have good computers on all of our shuttles.'

Hess said, however, that as a result of the Defense Department disclosure, "we are going back and reassessing all other black boxes on the shuttle to see if those have any TI parts." In space terminology, a black box is any compact assemblage of electronic equipment.

Hess said that "an open circuit" that caused the June 25 scrub was in a TI chip, but that that the opening was caused by moisture entering through microscopic cracks in the case of the

"There is no way this problem could even been detected prior to failure," said Charles Redmond, spokesman for the shuttle program.

The failure delayed the take-off by 24 hours, but Discovery went on to carry out a successful six-day mission.

More than 80 other defense contractors may have purchased the chips from TI and put them into weapons systems, Moore said, adding that as many as 4,700 different types of chips might be involved.

There have been "seven or eight" similar problems with other microchip producers in recent years, Moore said, but he declined to detail them.

As for who will end up paying for the TI problem, Moore said, "Look at National Semiconductor."

Last March, National Semiconductor Corp. pleaded guilty to federal criminal charges that it had inadequately tested silicone chips sold to the government for military use. National Semiconductor paid \$1.7 million in fines and penalties.

## Doggett claims Gramm uses money from programs he voted against

By The Associated Press

HOUSTON — Republican U.S. Senate candidate Phil Gramm has been living off federal money for a long time but votes against programs that supply federal dollars that could help many

people, Gramm's Democratic challenger, Lloyd Doggett, said

Doggett called a news conference in front of the Baylor College of Medicine in Houston's Texas Medical Center to dramatize what he said was Gramm's opposition to a bill to construct a \$49 million child nutrition center at the school. Then, Doggett said, Gramm "took credit for a bill he voted against."

"He goes and votes against child nutrition and then grandstands that he's in favor," Doggett said.

"When it came time to take the glory for bringing these funds to Baylor, guess who was there worming into the limelight? Phil Gramm."

The comments, according to Gramm spokesman Larry Neal, are "simply incorrect. The money was contained not in the bill to which he

was referring, but in another bill."

Neal said Gramm "consistently voted against bills that bust the budget.

"Doggett takes the view that if you have a \$1 billion program that's \$50 million over budget and contains 100 different programs in it and

you vote against it, then you must oppose every program in the bill."

Doggett contended that the issue "goes beyond questions of taxes and spending to a question of trusting and caring and what kind of individual is involved in this race for U.S. Senate."

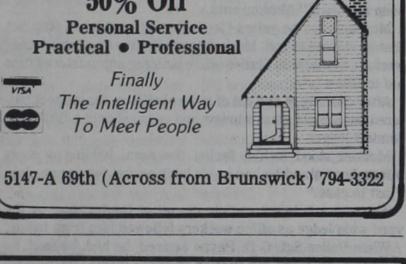

Doggett also pointed out that Gramm "received federal benefits for his own education, and he would deny others the same."

Gramm and Doggett, a state senator from Austin, are running for the Senate seat now held by Republican John Tower, who is retiring.

Doggett characterized himself as a "workhorse" and labeled Gramm a "showhorse when it comes time to announce something."

"I expect him next to take a ride on the space shuttle after voting against the space shuttle," he said.

## State Senator Indicted

## Education committee head charged with promoting prostitution, pornography

**By The Associated Press** 

BEAUMONT — State Sen. Carl Parker, a 21-year veteran of the Texas Legislature, was indicted Tuesday on charges of promoting obscene material and bankrolling and supervising a "prostitution enterprise."

The three-count indictment was returned by a Jefferson County grand jury that had been investigating Happy Times Video Co., where authorities confiscated 409 videotapes April 19 that they described as pornographic.

Parker, 50, a Port Arthur Democrat unopposed on the fall ballot, was part-owner of the house where the videotapes were found, authorities said. He has said he sold his interest in the house to Daniel Lee, who was in- tionally and knowingly own, invest in, finance, Rep. Bill Clayton, D-Springlake. dicted earlier.

### **NEWS BRIEFS**

#### Cadet death prompts exams

COLLEGE STATION (AP) — All candidates for the Corps of Cadets will have to undergo physical exams, Texas A&M University President Frank E. Vandiver says.

Vandiver announced the new policy after the death of a student who apparently suffered heatstroke after an unauthorized exercise session that has prompted a crackdown on

"I will insist on required physical examinations for all candidates for admission to the Corps of Cadets," Vandiver said Monday in an address to the Faculty Senate.

"Nothing can excuse brutality in the name of tradition nor servitude as a rite of passage," he said. "The privilege of membership in what rightly is regarded as a hallowed organization at Texas A&M does not, and must not, mean the forfeiture of human decency."

Cadet Bruce Dean Goodrich of Webster, N.Y., a sophomore transfer student, collapsed and died Aug. 30 after an nighttime exercise session that included running, pushups and

In addition to the physical exam policy and a crackdown on hazing, university officials said they will conduct administrative hearings for the four cadets accused of violating school policy in the Goodrich incident.

Vandiver has written a letter about the hazing crackdown to the parents or guardians of all freshmen and transfer students to the corps.

"I have directed that all forms of physical activity, such as running and exercises, such as push-ups and sit-ups, will be conducted in accordance with proper regulations and with

proper supervision," he wrote.

#### Blue Beret traps would-be thief

DALLAS (AP) — A former Air Force Blue Beret chased a would-be robber around the halls of a Dallas office building and out onto a fifth-floor ledge, where he held the man at bay with a small microphone stand until police arrived.

"You know how Mondays are," Al Moskau said. Moskau, who served in the Air Force Special Services during the Vietnam war, said he was sitting at his desk talking on the telephone Monday when he saw Harry Giles, Ramada World Wide sales director, stagger out of a nearby restroom. "He had blood on his neck, face and shirt, and he said 'I

been mugged,"" Moskau said. Moskau says he yelled for the would-be thief to stop but hat he started to run. Moskau took off after him, while other workers in the Twin Sixties office building administered first

After dashing in and out of several offices, the suspect battered out a plate glass window and crawled onto a fifth-floor

Moskau stood inside, facing the man, holding a short microphone stand he had in his back pocket for use as club, 'just in case."

The man made a complete circuit of the building on the yard-wide ledge as office workers followed him from inside. When Police Sgt. G.D. Payne arrived, he had, he said, no trouble persuading the suspect to come inside. Payne said the 20-year-old Kilgore man told him he "needed the money."

#### **CAMPUS BRIEFS**

#### Fulbright Fellowships available

Applications are being accepted for Fulbright Fellowships and Rhodes Scholarships. Grants provide more than 500 awards available in 50 countries.

Awards are restricted to graduate students, although undergraduates may apply if they will have their bachelor's degrees by the time the grant becomes effective in September 1985.

Applications are available in the ICASALS office in 103 Holden Hall. Deadline for submission is Oct. 16.

Also, students who will begin a graduate program in the humanities in 1985 are eligible to compete for Mellon Fellowships in the Humanities. The award of \$8,000 plus tuition and fees is for an outstanding scholar who plans a career in higher education. A nomination from a faculty member is necessary before the Nov. 5 deadline.

For more information call James Brink in the history department at 742-2437.

#### Cotton maid entrants sought

Women between the ages of 19 and 23 are invited to a recruitment tea for potential Maid of Cotton contestants at 5 p.m. Thursday at the Lubbock Women's Club.

Information will be given on the annual South Plains Maid of Cotton selection scheduled for Oct. 18-19.

The deadline for entering is Sept. 28. More information is available from the Lubbock Chamber of Commerce.

# fund microscopes

By DAMON PEARCE University Daily Staff Writer

Four new research microscopes will be bought with a special engineering grant given to the Texas Tech department of geosciences this week by the Amoco Foundation.

Amoco is awarding 57 grants to many universities as part of a special engineering and geoscience education program.

The grant program, in its fourth year, is aimed at relieving a nationwide shortage of engineering faculty and graduate students and the obsolete science and engineering equipment in school laboratories.

Tech will receive a \$16,000 grant to be awarded over two years. The new microscopes, to be purchased around the first of next year, are very much needed in the department, said department chairman

Alonzo Jacka.

"We're very grateful to receive the funds," Jacka

said. "The few, good microscopes that we have now are really being pressured by increased demand. The new ones will really come in handy when we get them."

Efforts by Amoco have "impacted favorably and in some cases, decisively, on engineering accreditation" at departments receiving grants, said Don Schroeter, executive director of the foundation.

Other Southwest Conference schools to receive grants include Rice University, Southern Methodist University, the University of Texas and the University of Houston.

Texas A&M is participating in a five-year, \$500,000-grant for the purpose of buying engineering and geoscience equipment.

## Amoco to help Indian disapproves of religious violence

By GREG VAUGHN University Daily Staff Writer

Jagdip Singh considers Moslems have," Singh said. himself a devoted Sikh. Even his uncut hair.

But like many followers of Sikh is considered to be an prove of the violence that has ly based state. characterized India's conflict between Sikhs and the Indira government and religious Gandhi government.

feel they are part of the strug- cated based on religion and gle," Singh said.

"Too many innocent people the most disturbing part of the the floor," he said. incident," Singh said.

"Every Sikh feels hurt that such a thing could happen and at times feels offensive toward the government," Singh said, "but every educated Sikh is willing to compromise to reach solutions to problems."

Singh is no stranger to education or the type of industry desired by the people of Punjab.

He received an engineering degree in 1975 from the India Institute of Technology in New Delhi and worked seven years as an electrical engineer in both private and public industry in his native country.

After working for two years as a sales engineer for a private company in India, Tata Electrical Companies, ment oil company for two since that time. years before joining Raunaq International, a private international marketing firm in 1979. In 1982, Singh and his family came to Lubbock so he could earn a Ph.D in marketing.

Like any religion, Sikh retroops to root out Sikh ter- quires that people live a certain kind of life, Singh said, in Amristar last June, he said but "is unique because it the attack put the Indian doesn't require that you go to the temple to worship. It can

"It (Sikh) encourages peohave been killed since the In- ple of all different incomes

and castes," Singh said. "When we come to the temple to worship, we all eat were killed, and I think that is together, and everyone sits on

> "When I was growing up, I used to go to the temple and help cook the food — that is considered one of the greatest signs of service."

> Although he said he is disheartened by the recent chain of events in India, Singh said he is confident Gandhi will not suffer politically and hopes the conflict will not split his native homeland.

"Her (Gandhi's) actions have probably made her more popular among the Hindu population," he said.

Singh said the struggle between Hindus and Sikhs has been going on ever since India gained its independence from Great Britain in 1947 and that government policies are prone to the same disputes the Sikhs Singh worked for a govern- have been trying to negate

"The struggle has left wounds between the Hindu government and Sikhs, but they will heal. There is a danger that if the government does not act, those wounds will grow deeper."

WHATEVERYSTUDENT SHOULD KNOW ABOUT THE DIFFERE TWEEN LEASING A TELEPHONE A LEASING A CHICKEN.

Yes, there are differences. And we think you should know what they are. Ask yourself these questions.

WHEN YOU LEASE A CHICKEN, DO YOU GET THREE MONTHS **FREE DURING** THE SUMMER?

Probably not. But when you lease your telephone from AT&T this fall, you won't pay any lease charges next summer. You can use your phone at home, and bring it back to school in the fall.

**DO LEASED CHICKENS COME IN A SELECTION OF COLORS AND STYLES?** 

No. Chickens don't come in many colors. But the AT&T telephone you lease this fall comes in a variety of colors and three popular styles.

**ARE LEASED CHICKENS REPAIRED FREE?** 

Don't kid yourself. Repairing a chicken is a delicate process that requires the work of expensive professionals. However, in the off chance your

AT&T leased telephone needs repairs, we'll fix it absolutely free when you visit any of our AT&T Phone Centers.

**ARE LEASED CHICKENS SHIPPED DIRECTLY TO YOU?** Ship a chicken? Don't be silly. However, your AT&T leased

directly to you after one call to 1-800-555-8111, or you can pick up your phone at any of our AT&T Phone Centers. **ONE FINAL QUESTION:** 

telephone will be shipped

DOES IT COST THE SAME **TO LEASE A CHICKEN AS TO LEASE A TELEPHONE** THIS FALL?

Hardly. While we have no hard data on the exact cost of leasing a chicken, we can tell you with some certainty that the cost of leasing a telephone this fall is far less than you might think. The decision to lease a chicken or a telephone, of course, rests with you. But should you opt for the tele-

phone, remember: you get three months free next summer, and you can take the phone home with you. There's a choice of colors and styles, free repair, and we'll ship you the phone

or you can pick it up at any

of our AT&T Phone Centers. It doesn't cost much either. And that's something to crow about.

AT&T Consumer Sales and Service. To order your telephone, call 1-800-555-8111 for delivery right to your door or for information concerning AT&T Phone Center locations.

Call The Toll Free Number Listed Above

Valid with the following restrictions: 1. You must be registered for 12 accredited hours for the 1984 fall term, 2. Valid only to students billed by AT&T Consumer Sales and Service. 3. Delinquent accounts are void from offer. 4. Limit two telephones per account. 5. Offer expires 72 months from lease initiation date. 6. This offer is not valid for permanent year-round resident students. 7. The three free months will not begin until you have paid for the first nine months of your lease. 8. All telephones are FCC registered. We provide repair service for all telephones sold at AT&T Phone Centers. Only telephones equipped with Touchtone dialing can access certain long distance services and networks. • Copyright. AT&T Consumer Sales and Service 1984.

## Williams reveals her side of nude photos controversy

© 1984 N.Y. Times News controversy was not directly

MILLWOOD, N.Y. - The tacked sloppily on the walls and trophies and stuffed dolls sitting on the shelves. But it all seems strange now to the woman who used to sing in bedspread.

"I haven't really been home for a long while," said Vanessa Williams, "It feels a little weird to be back."

Williams' return to the quiet of her parents' home in the Westchester County hamlet came two months sooner than she expected last September when she was crowned Miss time, she winces and holds America.

In July, Williams, the first black woman to hold the title, also became the first Miss America to relinquish it, after sexually explicit photographs of her with another woman appeared in Penthouse magazine. Last week she disclosed that she also had photographer.

In the month that has followed her resignation, Williams said, she has had to come to terms with what she did two years ago when she was 19 years old, during a summer when she was trying to prove her independence and begin her entertainment career.

"I'm not stupid, and I know those pictures are very inis not mine. It's important for say that I am not like that. They were just a few hours of my life."

Those few hours already have had a pronounced impact on Williams' life. She has broken up with the man she had dated steadily for four Williams will appear in and years, although she said the

responsible. She has lost commercial endorsements she had room has the heart of a little hoped would finance her purgirl, with posters and pictures suit as an actress, including a six-figure, nine-year contract with Gillette that her lawyers were negotiating when news of the pictures became public.

"For the first time in my front of the mirror and prac- life, I don't have a set plan,' tice her lines on the ruffled said Williams, who is being advised by several lawyers, a public relations expert and an agent. "Do I go back to school? Will I get a movie offer? A Broadway offer? There's a lot of empty blanks in my life right now."

She said she hears the insults that strangers hurl as they pass her house; each back the urge to cry. One night last week, she said, the impulse overcame her when she heard a comedian on a latenight television show make jokes about her.

"It hurts a lot," she said. "My mother goes to the market and hears people talking about it, and kids in cars posed nude for another scream awful things when they pass the house. But I try not to see them. I focus in on the people who still call the house and ask, 'How's Vanessa doing?' and the people who write me letters and stop me on the street and say, "We still love you."

It has been hard, she said, to think about this year's pageant week, which began Sept. 9. She already had criminating," Williams said. ordered the dress for her final "They indicate a lifestyle that promenade as Miss America flowing white lace with litme, for my peace of mind, to the seed pearls, she said, her eyes lighting up. And she had met many of the women who crown she once wore.

In the month since she resigned, there have been all sorts of rumors about shows parts she has been offered. A few are true, but many are

### Plans make use of Texas vegetation for landscaping

By The Associated Press

AUSTIN - State government is turning to Texas' hardy native plants to offset the disastrous effects of last winter's record freezes and the current extreme drought, Agriculture Commissioner Jim Hightower said Tuesday.

"Why use our taxpayer's money to buy plants from California, Florida or even Japan (for landscaping) when we can find hardier, cheaper and prettier plants right here at home?" Hightower told an outdoor news conference.

"I want Texas to look like Texas," said Lady Bird Johnson, who was introduced by Hightower as the "first lady of

Hightower was joined by the widow of President Lyndon B. Johnson and other public officials in announcing a new state policy to use native plants as much as possible in landscaping. The brief ceremony was held in front of the partially con-

structed William B. Travis state office building, which will be landscaped with native plants and flowers when completed next State Purchasing Director Homer Foerster said native plants

would be used around state buildings throughout the state when "economically feasible." Hightower said the state highway department planned to use 60 percent of the \$1.5 million it gets for highway landscaping in

purchasing native plants. "We want to let consumers know there are now at least 209

producers of native plants in the state," Hightower said.

## Ranch life resurrected in 1984 Golden Spur weekend at Tech

The ways of ranch life before the modern era will be resurrected during Ranch Day Sept. 22 at the Ranching Heritage Center of the Museum of Texas Tech.

Costumed volunteers in period structures will be involved in old-time ranch chores, crafts and social activities from the 19th and early 20th centuries during the concluding event of National Golden Spur Weekend.

The weekend will spotlight southwestern rancher Foy Proctor of Midland as winner of the 1984 Golden Spur Award. The award is presented annually by the nation's major livestock organizations and the Ranching Heritage Association for significant lifetime contributions to the livestock industry.

Ranch Day activities at many of the 30-plus structures on the 14-acre exhibit site will include spinning yarn, making leather quirts, German cooking, weaving, splitting cedar shingles, music making, square dancing and other events.

An informal coffee in the parlor of the DeVitt and Mallet Ranch Building will begin the day. Dedication of a new addition to the building

will follow at 10 a.m. on the South Patio. The dedicatory address will be delivered by John Lott of Lubbock. The ceremonies will cover the new addition, including the Burnett Room and new fireplace.

The site will be opened for events after the dedication ceremony. An 11:30 a.m. barbecue luncheon wll be open to visitors to the center. Meals will cost \$6 and \$3. All other activities

The 1984 Golden Spur Award will be presented at a Prairie Party beginning at 7:30 p.m. Sept. 21 at Lubbock Memorial Civic Center.

Tickets to the National Golden Spur Award and Prairie Party cost \$25 and are available through the Ranching Heritage Association.

The award is sponsored by the American National CowBelles, American Quarter Horse, National Cattlemen's, National Wool Growers, Ranching Heritage, Texas Sheep & Goat Raisers and the Texas and Southwestern Cattle Raisers associations.

Most of the animals already had departed to their homes, and the commercial exhibits were few and far between. I usually feel a bit better about paying my admission if I register for a few freebies, but this time the only booth offering a big drawing was a spa store which, as you may have guessed, was giving away a spa. As I anxiously signed my name to a slip for the drawing, the little man proudly Yes, tossing a basketball into a hoop just a demonstrated the model they were giving technology's answer to bubble bath.

## Study gives vasectomies clean bill of health

By The Associated Press

LOS ANGELES - The largest study of men who had vasectomies for birth control failed to find any link between the surgery and later development of heart disease, cancer and many other illnesses.

The results, published in a recent issue of the Journal of the American Medical Association, "don't support any of the suggestions of longterm problems developing after vasectomy, including heart disease," said Dr. Gerald S. Bernstein of the University of Southern California.

The study, made by USC, the University of California at Los Angeles, the University of Minnesota and the Mayo Clinic in Rochester, Minn., examined the health of 10,590 men who underwent vasectomies and 10,590 men who did not. The men lived in Los neapolis and Rochester.

The 21 scientists who conducted the study found that men who had the surgery have 'no reason to be concerned about developing any health surgery," said Bernstein, an obstetrician-gynecologist.

... No reason to be concerned about developing any health problem related to the surgery.

- Bernstein

However, Bernstein said in an interview that the surgeries took place an average of nearly eight years before the study, so further done in a doctor's office with

Angeles, Eureka, Calif., Min-research will determine if the local anesthetic. The surgery findings hold for longer time involves removal of part of the periods.

## Cultured brass salute 'Boy'

By The Associated Press

Country singers Joe Stampley and Moe Bandy have a novelty song wondering whether two country bumpkins could, in a honky tonk, dress like Boy George of Culture Club.

side, comes the Canadian Brass with a Culture Clubinspired song of its own, "Boy Mozart." Chuck Daellenbach wears the wig in that one, the tuba. They all sing. Columbia Records intends to put it out as a single and there is talk of a video.

The audience gets to shout 'Mozart' when the

appropriate time

comes. - Watts

The Canadian Brass has clowned around before. Gene Watts wears a tutu during their ballet medley. He says the others told him the trombonist always wears the tutu.

And they do an opera, written by a Canadian, "Fig A.R.O." Susanna disappears and Figaro goes to New York where he finds her working in a sleazy dancehall. French hornist Marty Hackleman is Che Rubino, a breakdancer. Trumpeter Fred Mills, the only one with a mustache, is Salieri, the villain.

"We drew straws to see who plays Susanna and I lost," Watts said. The other member of the Canadian Brass is trumpeter Ronnie Romm, who has been known to appear at a photo session minus a shirt.

About Brass in Berlin, out in June, the second LP for Columbia Records, Daellenbach says, "This record has restored critics' and audiences' faith that we can play classical music."

All music on the record is Renaissance and Baroque, transcribed for two brass quintets, the Canadian Brass and Berlin Philharmonic Brass. It was recorded in Germany. Two of the 12 selections are by Pachelbel, two by Bach and four by Gabrieli.

"We're thinking of this as the first of a series. There are lots of really great brass players," Daellenbach says. "We've got our eye on

The next album, to come out in January, was recorded live in Ottawa. It's a mixed program of Mozart, Haydn, some early jazz, a bit of the ballet and "Boy Mozart." "The audience gets to shout 'Mozart' when the appropriate time comes," Watts said. "We feel Mozart is really something to shout about."

The first Columbia album was Champions, in which the Canadian Brass, using a rhythm section, played pop hits like Billy Joel's "You Were the One," Elton John's "Honky Cat," Stevie Wonder's "Living for the City" and Freddie Mercury's "We Are the Champions."

Six earlier albums are available on RCA Records, two of them also on compact discs. Daellenbach said they sold 40,000 copies of two RCA albums last fall, the "best of" compilation and the

Football

LANCE HAFFNER GAMES

Christmas album they'd made music." the year before. Their first record, Canadian Brass in Paris, on Boot Records in Canada, is on Vanguard in the United States.

Asked how many of the Canadian Brass are Canadian, Mills answers, "I'm Canadian." "There are a few Now, from the classical Americans in the group," Watts admits during a jolly interview in their managers' office. Actually there are four.

"We're living a musicians" dream," Daellenbach said of because he plays the theme on their busy performing schedule, which includes some dates with orchestras. They play a matched set of goldplated instruments.

> He said, "Brass players are genuinely happy when we show up. We wondered how we were going to be received by symphony players. We often get brass players telling us it gives stature and recognition to what they do.

"We're at the beginning of a golden age of brass. We haven't had our day yet. The strings have, piano, flute. I wish we could start 20 years from now and take advantage of what the Canadian Brass is

"Who's not going to be here in 20 years?" queries Watts.

They've been together 14 years and say they're way past making adjustments in getting along. Watts said, "We were all together so long we all got excited when Marty

Hackleman, who came in a year ago, says they all had jokes they wanted to tell him; he listened to each four times. predecessor, Graeme Page, got married, changed his lifestyle and doesn't play horn any more. "He was a talented, wonderful horn player. He had a background in economics. He's the only one able to do

anything different. "We've got to make it in

When the Canadian Brass began in 1970, brass repertory included some old Russian pieces, some late 1800s compositions that were thought to be written either for brass or strings plus some contemporary compositions. Mills soon transposed for brass quintet Bach's "Toccata and Fugue in D Minor." Hackleman says, "It hasn't lost its luster. It's still asked for and we still play it."

"At the time, it was a breakthrough," Watts said. "It justified us going on and looking for other famous material that could be transcribed for brass."

We're at the beginning of golden age of brass. - Watts

Daellenbach said, "We're finding that with the kind of concert we play, if you can get the people to the concert, they will enjoy themselves. We play serious music. We try to share the music we love with audiences."

Watts adds, "People, after they've seen us, think they've seen a performance instead of a concert. What we do is more like a show. It includes some of the greatest music ever written and things that are a lot of fun, put together and choreographed.

Watts says that his never play serious music. But good music is still the main focus of our concerts. We only make fun of music that deserves it."

> clude humorous bits in a con- cata and Fugue.' They say cert. "It's very strenuous to they're trying it. Someday play brass. As performers, we we're going to have to listen to need a break in concentration.

We need these things as much or more than the audience."

"Chamber music can get tedious," Hackleman adds. "There's not that much variety and color. We add color and dynamics to what we're doing with humorous numbers."

At first the Canadian Brass performed with the Hamilton, Ontario, Symphony. They went full-time in 1977 when offered tours in China and Russia. They'll go to Germany in September for four or five concerts and a TV show. From then until May, 60 concerts are booked in the United States and 20 in Canada. Appearances with symphonies are in Milwaukee, Baltimore and Denver. Next June they'll go to Japan for 16 dates, then to Bangkok, Hong Kong, Singapore, perhaps to China, then Israel and London.

This summer's appearances have included the Mostly Mozart Festival in New York and the Hollywood Bowl, where the audience numbered

'We were at Interlochen Music Camp in Michigan in August and it was the largest paid audience they'd ever had there," Watts says. "It gives young brass players something successful to work

"Toccata and Fugue' has been called the Mt. Everest of brass quintets," Daellenbach said. "It took a lot of work for us to put it together and play "A lot of musical comedians it. At Interlochen it was the challenge of the summer for a college-age brass quintet.

"We're finding high school kids will come up and ask us to Watts explains why they in- autograph their part in 'Toca high-school group play it."

## 'Taste of Lubbock' to offer samples from city's rich restaurant roster

By JAN DILLEY University Daily Staff Writer

at first bite.

If the evening goes as planned, visitors to the second annual "Taste of Lubbock" will experience love

"This is a project everyone can participate in," said Beth Boggs, publicity chairperson. "It is a chance to experience what restaurants in Lubbock have to offer. We have some very fine restaurants here and this will help promote the restaurant industry to Lubbock."

Sponsored by the Lubbock Restaurant Association, this year's "Taste of Lubbock -A Love of Fare" will begin

at 6:30 p.m. Oct. 16 in the Lubbock Civic Center's Exhibit Hall. More than 75 exhibitors will prepare and serve samples of their culinary specialties to attendants strolling from booth to booth.

Last year's "Taste" attracted a sellout crowd of 2,000 and earned just over \$11,000 for the sponsoring organizations. "We had wall-to-wall people," Boggs said. "It was great. Everybody really enjoyed themselves so that's why we're repeating it this

The goal for ticket sales has been set at 2,500 to raise \$30,000. Money earned will benefit the 168-member LRA, the Texas Tech Restaurant, Hotel and Institutional Management Program, the Tech department of food and nutrition, and the South Plains College Food Management Program.

Lubbock restaurants experienced a 15.1 percent increase in total revenues last year to \$146 million. "Forty percent of the Lubbock family's food budget is spent on food eaten away from home," Boggs said. "People in Lubbock spend 50 percent more than the state average, but there are 20 percent fewer restaurants per capita. This is a really good market for restaurant

A few changes have been made to expand this year's "Taste," an event that resembles those offered in other Texas cities such as Corpus Christi and Abilene. "Last year, we had just one entrance time. It created a backlog of people," Boggs said. "This time, we've scheduled two entrance times - one at 6:30 and the other at p.m.

To facilitate ticket distribution, sales will be made on a first-come, firstserved basis by mail order only. All tickets are priced at \$10 each and may be purchased by writing to "Taste of Lubbock," Box 4170, Lubbock, Texas 79409.

### Indian artist conveys overpopulation theme

By The Associated Press

MEXICO CITY — The figure with its stark, abstract curves vaguely resembles a woman's torso supported by what could be a mouth racked with pain. It is topped by a bowlful of screaming, hungry children.

The small, bronze statue, called "The Crushing Burden," typifies the work of Amar Nath Sehgal, a native of India who has lived in New York, exhibited in Paris and who subtly blends Eastern and Western cultures in his art.

The 30-inch, highly stylized figure has been placed in the main hall of the Mexican Foreign Ministry. It was commissioned by the United Nations as a gift to the Mexican government for hosting the U.N. International Conference on Population in

"It shows Mother Earth being crushed under the burden of burgeoning humanity," the artist said in an interview. "If by the homesickness drove him back to New Delhi in 1953, where he year 2000 there are so many people on this earth that there is took a \$30 a month job teaching art in a plush high school. He hunger, starvation and mass migrations, what is the use of

Like most of Sehgal's works, "The Crushing Burden" careful- financial experts. ly balances its mass against the space around it.

He has exhibited in museums and galleries in North America, Europe and Asia. At 62, Sehgal still is soft spoken and always existence ... At first my family ... used to call me crazy, but they

Despite his renown as an artist - he is also a painter, tapestry maker, woodcutter and poet - Sehgal has never had any formal training in art. "I am self taught," he said.

He was born in Campbellpur, a town near Peshawar, the third of seven children of a prominent Hindu family that was forced to move to New Delhi in 1947 by the bloody secession of Moslemdominated Pakistan from India.

His lawyer father wanted him to study law. "I became an engineer, and then an industrial chemist, instead. But, in truth, I always wanted to be an artist," he said.

Sehgal chucked away his job in exact science and boarded a freighter out of Bombay for New York, where he landed Jan. 7, 1949, almost penniless.

Other artist friends also helped him, he said. But married Shukla Dhawan a year later. They have two boys, Araman, 29, and Rajen, 25. Both work in the United States as

For Sehgal, fame came in 1965 when the Paris Museum of

"It grew slowly," Sehgal said. "But I have a very comfortable don't anymore. They're very proud of me."

Don't Forget Team Triathlon Sept. 22.

#### **Outdoor Program** schedules trips

Program offers adventure trips in which students, faculty and staff can experience the outdoors. Trips include equipment, transportation and a trip leader. Previous trips include canoeing in Minnesota, cross-country skiing in New Mexico, backpacking in Texas and downhill skiing in Colorado. All trips have a pretrip meeting which is mandatory for participation.

The first upcoming adventure trip is canoeing, which will be at the Concho River 742-2949.

The Rec Sports Outdoor near San Angelo. No experience is necessary. The trip will be from Sept. 21-23 and the cost is \$20. The trip is limited to 12 people. The second trip is downhill skiing at Steamboat Springs, Colorado.

> This trip will be from Jan. 5-12. The cost is \$305 which includes round-trip transportation, six-day lift ticket and six nights lodging at the Sheraton Village Hotel. Deadline for signing up is Oct. 1.

For more information call

#### Instructors needed

Recreational sports needs instructors for swimnastics, which meets from noon-1 p.m. on Tuesdays and Thursdays, pregnant fitness, which meets from 5-6 p.m. on Tuesdays and Thursdays and women 'n weights, which meets from noon-1 p.m. on Mondays and Wednesdays. Classes meet twice a

Anyone who is interested needs to call Betty at 742-3351.

#### Super sweat begins

Super sweat, which is a combination of calisthentic exercise and jogging to music, begins Friday. It will be held once a week from 4:15-5 p.m. at court five in the Rec Center.

#### Aerobic classes held

Co-rec drop-in aerobics classes are being held from 4-5 p.m. on Tuesdays and Thursdays, 5:30-6:30 p.m. Monday-Friday and from 6-7 p.m. on Sundays in the ArcheryGolf Room of the Rec Center. No registration is necessary and instructors will

#### Team triathlon slated

The Saturday Morning 'Live' Team Triathlon will be at 8:30 a.m. Sept. 22. A team will consist of three persons and each will compete in one of three events. The running event consists of a 6-mile loop through Tech campus. The cycling event will be a 25-mile loop on the farm roads north of the Clovis Highway. The swimming event consists of 1500 meters of the long course (50 meter) pool.

The triathlon is open to all students, faculty and staff. Only one varsity athlete in hisher sport per team. A USCF licensed rider is considered the same as a varsity athlete.

Awards will be given to the winners of the men, women and co-rec categories. A special award will be given to the first team completing the triathlon whose combined ages is over 100

This is not a relay. All contestants will compete in their

event at the same time and the total times will be added

together. Entries are due by 5 p.m. Sept. 20 in the Rec Center Office. For more information, call Betty at 742-3351.

**IM BRIEFS** 

#### PFT begins

Registration for the Physically Fit Techsan program begins at 5:30 p.m. Sept.13 and continues through Oct. 5.

Participants predict the number of points heshe can attain through aerobic activities. If the goal is attained the participant receives a t-shirt. Several seminars on health and fitness will be held throughout the semester. Special plaques are given to any department, organization or dorm which has at least four members on PFT board and at least 75 percent of them attain their goal.

There is a \$4 registration fee.

#### Flag football meeting slated

A football rules clarification meeting will be held at 5 p.m. Sept. 13 in the Rec Center Classroom for all flag football managers. This meeting will assist players and managers in understanding the Texas Tech flag football rules.

#### Sports meeting slated

A meeting for all sportmanagers will be held at 5 p.m. Sept. 12 in the Rec Center Arts and Crafts Room. Information regarding sports scheduling, discipline, postponements, playoffs and other revelant topics will be discussed.

#### Aquatic programs scheduled

The Aquatic Center is offering several water activities. Swimnastics II is held at 3 p.m. Mondays and Wednesday all semester, pregnant fitness is at 5 p.m. on Tuesdays and Thursdays all semester, a stroke mechanics clinic will be at 10:30 a.m. on Sept. 15, a C.P.R. clinic will be held at 5:30 p.m. Sept. 17, 18 and 19, adult swimming lessons are slated for 6:30 p.m. Sept. 17-21, a canoeing clinic is scheduled for 8:30 p.m.

Sept. 18, a snorkeling clinic will be at 5:30 p.m. Sept. 19 and an IM swim meet will be held at 5:30 p.m. Sept. 27.

Registrtion for swimnastics and pregnant fitness will be at the Rec Center. Registration for the other activities will be held at the Aquatic Center.

#### Official's clinic slated

Clinics for all officials of the intramural co-rec football teams begin Sept. 12. Persons who attend a minumum of three-fourths of the clinics and who officiate a minimum of two weeks into the season will be paid for clinic attendance.

The first clinic will be from 6-8 p.m. Sept. 12. The clinic will consist of a review, discussion of the mechanics and equipment and officiating prerequisites and procedures. There will also be a take home exam. The second clinic will be from 6-9:30 p.m. Sept. 13. This clinic will consist of a review, a video tape game situation and scrimmage games.

The Sigma Nu pre-season tournament will be held Sept. 14, 15 and 16. The league games begin Sept. 16.

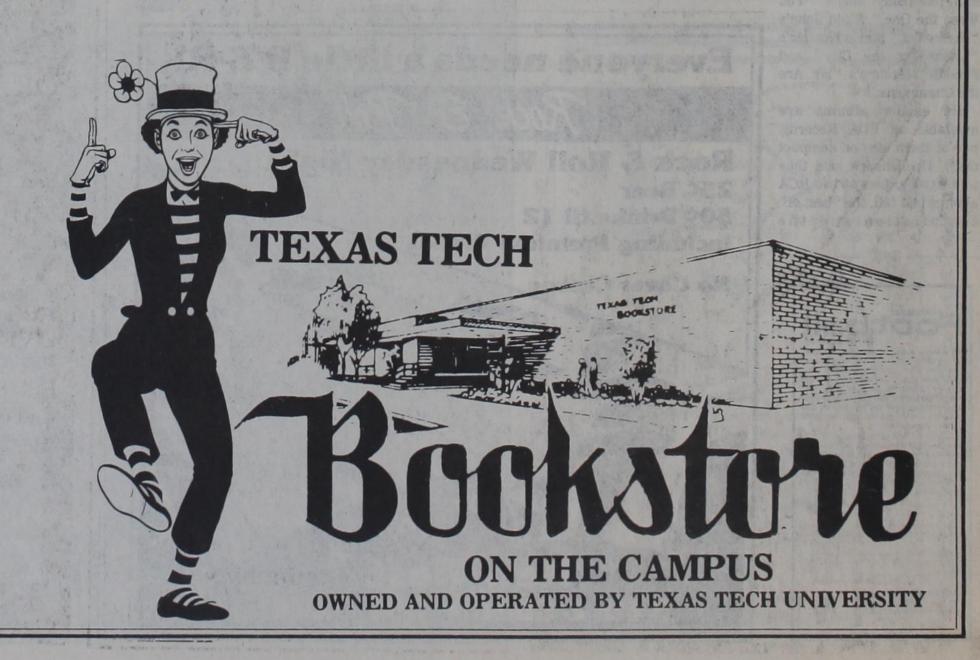

#### Repair services available

The Sport Shop, on the lower level of the Rec Center, is offering racket stringing, gripping and repair services to students, faculty and staff. The service is available for tennis, racquetball and squash rackets. Two day stringing is guaranteed along with 24 hour service upon requests. Those wishing 24 hours service must have rackets to the Sport Shop by 3 p.m. the previous day. Also available is a consolation period with the resident stringer from 9-12 a.m. on Tuesdays and

#### Frisbee golf entries due

Entries for the Frisbee Golf Tournament are due Thursday. The tournament will be held at 5:15 p.m. on Sept. 19-20. Each participant must register for one of these two days and the top two players from each day will advance to the finals.

## Tech's Kase of talent

### Red Raider golfer looks to ride recent success to Southwest Conference title

By CHIP MAY University Daily Staff Writer

Adam Kase has had the kind of golf career many people only dream about.

In his senior year in high school, Kase won the New Mexico state high school championship.

At Texas Tech, he was named honorable mention All-SWC as a freshman, placed third in the conference as a sophomore and tied for fourth in the SWC as a junior. Although he was redshirted last year, the 22-year-old hasn't been idle.

Adam Kase

Amateur Golf Tournament.

Kase shot 150 in two qualifying rounds to gain eligibility for the match play portion of the tournament. Terry Jackson of Tech also participated in the qualifying rounds, but he missed the cut by two strokes with a 152.

Overall, 282 golfers participated in the tournament but only 32 made the cut for match play. In match play, golfers are paired according to their score and compete on a hole-by-hole basis.

"The three guys I played defending NCAA champion against were tough," Kase senior from Socorro, N.M., and a four-time NAIA champ said. "First I beat John Inbefore losing in the quarter- man, who was the NCAA Last week, Kase beat the finals of the United States defending champion, by two

holes with one to go. Then I third in the Southwest "This is the best team since schedule this year, and we Kase said. "However, he has beat Danny Mijovich from Ontario, Canada, by one hole. Majovich won the Canadian Pacific Coast Amateur in 1984 year as Tech's golf coach. "I amateur once and was either at Eugene, Ore. the NAIA national champion or co-champion four times.

USC in the quarterfinals," he said. Randolph advanced to the finals, where he lost to Dallas' Scott Verplank.

wasn't exactly the first time competition.

He was runner-up in the 1982 and 1984 Sun Country Amateur Championships, which includes golfers from New Mexico and El Paso. He placed

Amateur at Juarez, Mexico, in I've been here,'' said 1982 and tied for 10th in the Reynolds, who is in his third town."

After a year of inactivity in the SWC, Kase said he is glad "I lost to Sam Randolph of to be playing college golf

"I was out of touch as a redshirt, but I think this is the best team since I've been But the U.S. Amateur here," Kase said. "Our team chances are really good. Kase has faced top-notch Houston is the only team with their good players back. Nobody is expecting much from us, so there's not as much pressure."

Tech coach Greg Reynolds agrees with Kase.

## Sportswriters decide the champ?

By REAGAN WHITE University Daily Staff Writer

> The chickenwire spins to a stop, the reaches into the

pile of paper slips, draws forth a name. "And the new national champion for 1984 is... Slippery Rock! Congratulations!'

Sound like a bad way to pick a national champion? Well, it's not much worse than the way we pick one now, and I'm not talking about the game of Monopoly. I'm talking football, whose annual Numero Uno is not decided by a playoff system of any kind, but by a straw poll taken from among the lowest forms of life on the face of this planet: sportswriters.

That's how the AP poll picks its champ, anyway. The UPI polls coaches, and a former A&M coach has said secretaries of coaches fill out more polls than the coaches do. Coaches. secretaries and sportswriters; they're all equally

It's sad, but true; football, far and away the most popular sport in amateur athletics, is the only major sport in the NCAA's Division I whose champion is not decided by a playoff of some

This is a bad situation, an evil situation, and as we all know, money is the root of all evil. At least, those of us who went to Sunday School as little lads and lasses know that money is at the bottom of most of the badness in the world, and college football is no exception.

The biggest chunks of money that ever appear on college ledger sheets from football games don't get there from regular season football, but from the postseason classics like the Rose Bowl, the Cotton Bowl, the Toilet Bowl, and so on. Big chunks of money are loosed on teams participating in these games each year.

Since the same teams seem to end up in these extravaganzas each year, you'd think the little guys system needs to be changed who never have, and to give all the Tulsas a possibly never will, rate a chance to prove themselves bowl bid would be enand still make bowl money if thusiastic about the chance they're good enough. to get college football playoffs started. ## Olympics termed financial boon

By The Associated Press

LOS ANGELES - The Games of the XXIII Olympiad were a "spectacular financial success," bringing in a \$150 million surplus that officials Tuesday attributed mainly to huge ticket sales and full payment on a television contract with ABC-TV.

"There was the largest sale of tickets for sporting events in the history of mankind, by a bunch," Los Angeles Olympic Organizing Committee President Peter V. Ueberroth said at a news conference announcing the surplus.

The amount is \$131.75 Television ratings were so million more than the surplus high that the ABC network projected last spring.

without any financial aid from ABC to have paid less under

its contract.

Under the LAOOC's charter, general manager, said the the organization will disperse the funds as follows: \$75 million to the United States Olympic Committee; \$50 million to a newly established LAOOC Amateur Athletic Foundation; and an LAOOC

Ueberroth said at the crowded news conference that the LAOOC was investigating giv-

to Third World nations that participated in the Games, which ran from July 28-Aug.

He said the "Olympic solidarity funds" would be used to specifically "help those nations that did come to these

Games." "If we don't answer much about this today," he said, "it's because we have just been discussing it for the past one or two days."

Ueberroth said the funds will leave a "tremendous legacy" to athletes in Southern California and the

## Landry to stay with Hogeboom

**By The Associated Press** 

DALLAS — A bubbly Dallas Coach Tom Landry was in no mood to make a quarterback change on his 60th birthday Tuesday, so young Cowboys' quarterback Gary Hogeboom will start for at least another National Football League

"I'm not thinking about making any changes right now," said Landry after the Cowboys took a 28-7 thumping from the New York Giants.

"I'd do it if it felt right. "Being a young quarterback in the NFL is not easy. It's a tough business, and things don't always work out the way you want it to."

lacerated chin and a cut arm

said Landry. The Cowboys have their home opener against the Philadelphia Eagles at 3 p.m. Sunday in Texas Stadium, and

6,900 tickets remained on sale. "The Eagles have made a lot of changes, but we can't afford to take anybody lightly," Landry said. "Every game is going to be a tough fight for us

if we don't fight tough." Although the Cowboys gave up three touchdown passes against the Giants they are No. 1 in the NFL in fewest passing yards yielded.

"We've played pretty good pass defense," said Landry. "We've been hustling and working hard."

The Cowboys also lead the NFL in turnovers, giving their opponents a total of nine in the first two games.

"We're not trying to do it," Landry said.

Asked how long it would take his team to become more consistent, Landry said "We should be playing pretty well pretty quick. We're capable of doing that."

Landry said his wife, Alicia, planned a big birthday celebration for him Tuesday night.

Then he joked, "It's nice to have your birthday celebration on press day. I've found they are always a very sentimental and compassionate group."

## Cornhuskers back on top

By The Associated Press

LINCOLN, Neb. - University of Nebraska Coach Tom Osborne said Tuesday he fully expects his Cornhuskers, who moved to the top of The Associated Press college football rankings, to weather the storm of media attention that will follow.

Osborne and the Cornhuskers learned last year the unsettling effect that media attention can have on a No. 1-ranked team. Nebraska carried the AP's No. 1 ranking throughout the season - until the Orange Bowl upset at the hands of No. 2-ranked Miami - and had to schedule regular weekly news conferences for star players and the coach.

"There's a little more distraction that goes along with it," Osborne said. "A lot of people want interviews because of the No. 1 rating, not so much because of an interest in Nebraska."

Nebraska had been rated No. 2 in the AP's preseason poll, behind Auburn. But Auburn lost to Miami in the Kickoff Classic, and the Hurricanes held down the top spot until losing to Michigan last weekend.

Clemson, now 2-0, moved to No. 2 in this week's ratings,

Auburn game Saturday, coach televised on ESPN, with

rematch from last year when awfully unsettled," coach

Texas, Miami and BYU received one each.

Following the Huskers' 42-7 thrashing of Wyoming in the season opener last weekend, Osborne admitted the No. 1 ranking was something that couldn't be ducked.

"I guess we're pleased people have that much confidence in us," he said. "But I think there's 15 or 20 teams out there who have a shot at No. 1. We have a good team, a mature team and we've got some talent. I guess the only real negative thing about being No. 1 is that other teams are going to give you a tremendous effort. People point at you a little more when you're No. 1."

The Huskers will face Mingathering 15 first-place votes nesota here Saturday. The

Osborne said it was quieter in Lincoln this year when the Texas, which opens its Cornhuskers were No. 2 in the season Saturday against poll. Still, the Husker coach, Auburn, was No. 4, followed who has a doctorate in educational psychology, expects his players to continue to handle the added burden of the top ranking in 1984.

"I think our players are used to the turmoil involved in the rating," Osborne said.

kickoff at 6:45 p.m., CDT.

### Oilers tell running back: 'No thanks'

By The Associated Press

PHILADELPHIA - Mike Rozier says he's through with the Pittsburgh Maulers, but officials of the United States Football League team want to hear it from the player, not just his

And the Houston Oilers of the National Football League have said, "No, thanks," to further contract talks with the former Heisman Trophy winner.

Rozier's Philadelphiabased agent, Art Wilkinson, said Monday the Maulers were willing to allow Rozier to buy up the remainder of his three-year contract, which he described as a personal-service pact with Edward J. DeBartolo, Sr., the club's owner.

"They want us to give them back the signing bonus of \$1.3 million plus the \$300,000 Mike received for playing last season and they want it tomorrow," Wilkinson said Monday.

Maulers General Manager George Heddleston told the Pittsburgh Post Gazette Rozier "has never told us he wants out of here. We don't want to hear it from his agent. We want to hear it from him."

Heddleston referred to an interview earlier Monday on Houston radio station KIKK, during which Wilkinson read a statement from Rozier.

"I now find myself with an organization that cannot decide whether it wants me or not," Rozier was quoted in the statement. "In short, I do not wish to return to the Pittsburgh Maulers in 1985 and I will not."

Wilkinson said Rozier wanted to sign a contract with the Oilers, but Houston General Manager Ladd Herzeg said Rozier would have to wait.

"I said last week we felt it was too late for Mike to be effective for the Oilers this year," Herzeg said. "We told him the on-going negotiations were becoming a distraction for the team."

## Football nudges way into Ivy League

By The Associated Press

ITHACA, N.Y. - Weight training has displaced fencing in Teagle Hall.

Such news might seem inconsequential. But it's a fair gauge of Maxie Baughan's impact on Cornell University, where Nobel Prize nominees have had a better winning percentage than the football team in recent years.

Four times an All-Pro linebacker with the Philadelphia Eagles and the Los Angeles Rams, Baughan was the first head coach in the Ivy League to come directly from the National Football League. He was an assistant coach with the Detroit Lions

Baughan is not the only old pro in Ivyland. Harvard's Joe Restic was a successful coach in the Canadian Football League before moving to Cambridge, Mass., 13 years ago, and Brown recently hired John Rosenberg from Philadelphia of the United

States Football League. Nor is Baughan the lone NFL alumnus in Ithaca. His staff includes receivers coach Bob Colbert, an assistant with

the Baltimore Colts from Baughan's first year, winning 1977-79 and fitness coach- its last three games. The freshman defensive defensive previous year, under Bob coordinator Shane Nelson, a seven-year starter at linebacker for the Buffalo

weight room, upstairs in Teagle Hall in a space where the Cornell fencing team used to practice. The fencers have been moved to new quarters across campus and "en garde" has been replaced by the grunts of linemen and running backs hefting a quarterton of iron.

A soft-spoken All-American from Georgia Tech, Baughan said Ivy League players are no different than the athletes he grew up with in Alabama before moving to Cornell last hungry for victory and grateful for instruction from someone who knows what he's talking about, such as Nelson.

> "He has no trouble getting their attention," Baughan

> neither respect nor his meticulous preparation learned under George Allen on the staff of the Washington

The Big Red went 3-6-1 in Heisman Trophy winner Ed tion and learn to play it well."

Blackman, Cornell was 4-6.

Still, there appears to be no loss of faith in Baughan's Nelson's domain is the new ability among Cornell

> "His impact has been tremendous," said Rick Cowles, the athletic department's director of operations. He described the weight room as "the finest on the East Coast" and predicted a rebound this year.

Baughan also expects an improved performance.

"All I can say right now is that we're pleased with the effort and the shape of the players and with their attitude," he said. "We feel like we're light years ahead of where we were last year."

fensive weapons despite the Neither does Baughan, but loss to graduation of tailback Derrick Harmon, now a rookie with the San Francisco 49ers.

Marinaro, but Baughan said he thought senior Tony Baker, who played behind Harmon in 1982 and started at fullback in 1983, has "pro potential" as a

Paired with Baker is 212-pound fullback Mark Miller, who broke his foot in the first game last season.

Quarterback Shawn Maguire started all 10 games as a sophomore and should benefit from the experience. But the Cornell receivers are so-so, with converted quarterback Jim Perrello the top returnee with 16 catches.

The offensive line is the Big Red's major problem. Only one starter - 261-pound guard John Gabel - returns. Most coaches feel it takes two years to develop an offensive lineman.

Ivy League intellectualism The Big Red has potent of- may come to the rescue, according to Baughan.

"If there's one position that has a learned mentality, it's an offensive lineman," he Harmon is the first Cor- said. "If you have just a little Redskins - helped last year. nellian in the NFL since ability, you can study the posi-

#### SPORTS UPDATE

#### Judge puts Holmes bout on ice

PHILADELPHIA (AP) — Undefeated heavyweight Larry Holmes was blocked by a federal judge from entering into any contract to fight South African Gerrie Coetzee without granting a 90-day right of first refusal to Virginia lawyer Richard Hirschfeld.

Promoter Don King had hoped to stage a Holmes-Coetzee bout in Las Vegas in November, but the preliminary injunction issued by U.S. District Judge Daniel Huyett III threw that timetable into doubt.

#### Baseball's players of the week

NEW YORK (AP) - First baseman Greg Walker of the Chicago White Sox and pitcher Al Nipper of the Boston Red Sox were named co-Players of the Week in the American

In the National League, Dwight Gooden of the New York Mets and Bruce Sutter of the St. Louis Cardinals, two of baseball's hottest pitchers, were named co-winners of the Player of the Week award.

#### Warrants issued for three A's

CLEVELAND (AP) - A judge ordered arrest warrants issued for two Oakland A's pitchers and a team coach after they failed to appear in Cleveland Municipal Court on disorderly conduct charges.

The charges stemmed from what a team spokesman called a "minor altercation" in a bar at the team's hotel Saturday. A's spokesman Mickey Morabito said pitchers Bill Caudill and Steve McCatty and Coach Clete Boyer were released on bond pending today's court appearance.

#### Court clears way for TV game

LOS ANGELES (AP) - A federal judge issued a preliminary injunction that apparently clears the way for the UCLA-Nebraska college football game at the Rose Bowl on Sept. 22 to be televised nationally by CBS-TV.

UCLA, the University of Southern California, the Pacific-10 Conference and the Big Ten Conference filed a suit Aug. 17 against ABC-TV, ESPN, the College Football Association, Nebraska and Notre Dame.
