Many Qualify For Social Security Under New Rules

On November 4 or 5 many people across the nation received their first social security benefit checks — checks made possible for the first time by the 1960 amendments to the social security law, reports R. R. Tuley, Jr., Abilene district manager for the Social Security Administration.

Receiving checks for the first time were working people and their dependents (and also some survivors of workers who have died) who became eligible for benefits. The amount of social security credits required was reduced by about one-third, Tuley said.

Also receiving benefits for the first time were some widows whose husbands died after March 31, 1938, with at least 1½ years of social security credits. Before the changes in the law enacted in September, no monthly benefits were payable to the survivors of any person dying before 1940.

If you believe you qualify for benefits under the amended law, it is still not too late for you to apply, and receive benefits dating back to the month of October. Additional information about specific cases can be obtained by asking your Abilene social security office. For general information on the 1960 amendments, ask the Abilene social security office for the new leaflet on the 1960 changes.

See Texas First

This battle ended all Federal attempts to invade Texas. Fort Worth Has the Time. Texans have a big time. They also have a big timepiece. Fact of the matter is, it's the world's largest. It's the clock that's atop the 30-story Continental Bank Building in Fort Worth. Time is controlled by a micro-wave radio from the U. S. Observatory in Washington, D. C. The clock itself is five stories high. It weighs 77 tons and the numerals are so large -- 25 feet high and nine feet wide -- that the clock can be read from a distance of five miles.

State Allocates \$955,000 To Begin Area Highway Program

Quail Season To Begin For Most Hunters Dec. 1

AUSTIN - The quail season in a number of Texas counties under regulatory control has been modified by the Game and Fish Commission, according to W. J. Cutbirth, Jr., assistant executive secretary.

Biologists reported an "abnormal" quail year throughout the state, with a spotted population. Generally, however, the season was liberalized in those counties not under general laws.

In the Possum Kingdom area the new season will be from Nov. 24 through Jan. 20. The daily bag limit will remain at 15 and 45 in possession. Quail numbers in this area are much higher this year, according to the biologists. However, the food supply is short and a carry-over loss can be expected after bad weather sets in.

In the Trinity-Brazos regulatory area the quail season was set at Dec. 1 through Jan. 31. The bag limit here will be 12 per day and 36 in possession.

In the Trans-Pecos area the season will open Nov. 1 and close Dec. 31. Crockett County has been added to the Trans-Pecos area this season.

In the Panhandle area the season will be Dec. 1 through Jan. 16, with the bag limit of 12 and 36 in possession.

No changes were made in either the Northeast Texas or the Southeast Texas areas, where the season will be from Dec. 1 through Jan. 16, with the bag limit of 12 and 36. In South Central Texas the season will open Dec. 1, and close Jan. 16, except in Dimmit and Zavala counties where the season will be Nov. 1-Dec. 31, inclusive.

The State Highway Department has allocated some \$955,000 to be spent on construction of 15.7 miles of pavement for State Highway 206, which will connect Cisco with Coleman via Cross Plains, according to information here. The program will be completed in 1961-62.

As of now, State Highway 206 extends from the intersection with U. S. 67 at Coleman to Cross Plains. The program will extend the highway on to Cisco where it will intersect with Interstate 20 (Highway 80).

The program is broken into four projects, as follows:

From a point near Burkett in Coleman County to the Brown County line, five miles at an estimated cost of \$250,000.

In Brown County, one and three tenths miles at a probable cost of \$65,000.

From the Brown County line to the Eastland County line in Callahan County through Cross Plains, seven and four tenths miles at an estimated cost of \$340,000.

In Eastland County, two miles at an estimated cost of \$100,000.

All four projects may be handled in one contract letting, according to an opinion expressed by H. O. Woodword of Coleman, a member of the Texas Highway Commission. Surveying was expected to start soon.

In addition, the program calls for improvements and reconstruction on the existing farm-to-market road in Eastland County so as to conform to the standards of the remainder of Highway 206. This part of the highway will be straightened.
