Continued from first page year since 1937 this event has been observed as a reminder of the real meaning of a personal letter.

Emphasizing the traditional sanctity of the letter mail, Mr. Gilbert reminded Carbon residents that one of the basic American freedoms is the uncensored transmission of their first class mail. It is the most valuable possession of the citizens of a free country.

"We all know the human importance of letter writing," Mr. Gilbert stated, "the way in which it holds scattered families together, or giving comfort and love and news to all the people of the land. But its value is immeasurably greater than that. Its implications are almost infinite.

"We in America have the privilege of uncensored and unlimited means of communication. With this in mind, I urge all citizens of Carbon to join me in this national celebration. Let's make National Letter Writing Week for 1956 the greatest ever."
