Formal Statement Issued By County Atty Candidate

Earl Conner, Jr., candidate for the office of County Attorney, today issued a formal statement in connection with his candidacy, as follows:

EARL CONNER, JR.

"In announcing my candidacy for the office of County Attorney, I desire to express my appreciation to the citizens of Eastland County for having been permitted to serve you in this capacity before. During the greater part of this time I served two District Courts, representing the county and state in a large number of contested jury trials, and I obtained a high percentage of convictions. I also represented the State and County Court which then had jurisdiction to try criminal cases, as well as in the Justice Courts of the county. My entire time was devoted to the discharge of the duties of this office, and by working in close harmony with the various City Police Departments, special State boards and officers, and all duly elected officers, I have been able to select to serve your County. It will be my sole purpose to continue to work with all officials and officers whenever called upon to render assistance, whether day or night, to the end that our laws may be enforced in a fair and impartial manner.

"I am a native of Eastland County. My family consists of a wife and two boys. Having been practicing law with my father, Earl Conner, Sr., for more than twenty years I am naturally familiar with the problems confronting citizens, both young and old.

"Should I be given the honor of serving you again you are to consider at all times that it is your office, and that you are to call upon me at any time to render whatever assistance I may be able to give; or to consult with you on your personal problems. These things, together with the promise to work faithfully and diligently at the job, I pledge to you.

"Assuring you of my everlasting

DAN KRALIS

Candidate for U. S. CONGRESS U. S. Representative Democratic Ticket 17th Congressional District

What Candidate Will Win

Political candidates win for the following reasons:

1. The winning candidate has the better platform.
2. The losing candidate has been in office too long with too little accomplished for the people he is supposed to be representing, or he may have never been in office but also does not have a winning platform.

There is one politician's tactic that all the people should know about. This method of campaigning has been often used by desperate politicians who cannot win by any other method. These politicians have little to offer in the way of a platform and their only recourse is to try to draw the voter's attention away from the opposing candidate's platform by attempting to create a deal between personalities. Their weapons are character assassination, prejudice, inferences, and falsely creating a completely untrue, misleading picture of what the opposing candidate has said or done in the past or now.

In the heat of such animosities, both candidates forget why they are running for public office and their only concern is to tear each other's heart out, to stir up passions, cause hard feelings, and in general, bring into disrepute the God given right which allows free Americans to run for public office.

I do not believe my opponent and I want to conduct a "mud slinging" character assassination campaign. We have all we can do to state our viewpoints and I for one will have all I can do to stick to my platform and give the people of the 17th Congressional District a solid firm platform. All the people will know exactly where I stand on any issue.

This campaign can be a campaign of true statesmanship instead of "political skull duggery." We can make this a clean campaign with the issues clear cut. The people of the 17th Congressional District are interested in only one thing. What will the candidate try to accomplish in Washington?
