## Clean-Up Day For Carbon Is Tuesday, April 10

Tuesday, April 10 has been announced as clean-up day for Carbon. All of us are familiar with the rules of the clean-up drive, in that you are to have your cars and rubbish in containers and in a convenient place for the pick-up trucks. The truck men can not pick up scattered cans.

Let's make this a real clean-up drive and rid our town of the unsightly rubbish that is a menace to the health of our citizens as well as detrimental to the appearance of our town.

Do not leave rubbish for the trucks to pick up that can be burned. Please remember the date and cooperate in this matter.

Thanks,  
Ike Butler, Mayor

## Easter Is Time To Consider New Things For Ladies

By MINNIE MAE HART  
Eastland Co. Home Dem. Agent

As Easter approaches most of us are turning our thoughts toward something new in wearing apparel. The new slim silhouette dress is popular again this spring. This will present several problems when it comes to keeping a crisp, unwrinkled look.

The dress may lose its shape across the back if the material you choose has a tendency to stretch. Also, wrinkles may develop across the front.

To guard against this, I suggest lining the dress. Use a lightweight rayon lining or other material that isn't too heavy, and doesn't cling.

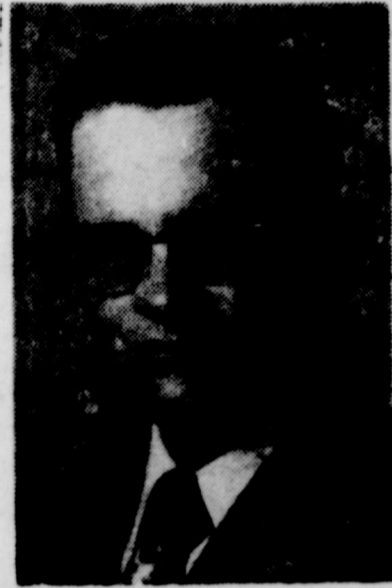

Cut the lining about one-eighth inch smaller than your regular dress pattern and bring it eight to ten inches below the hip line. Machine baste to the front and back pieces of the dress before putting the seams together. This keeps the fabric from slipping and puckering as you stitch it in place.

You know it is commonplace nowadays to have a long life. Proper food can help to make those extra years happier and healthier.

Complaints of a chronic tired feeling, a gloomy outlook on life, anxiety over small things, and loss of sleep often are caused from being poorly nourished. The right food helps the body to be at its best and, if illness strikes, a well nourished body responds better to treatment than one in a run down condition.

## Baptists Planning Weeks Revival Beginning On Easter Sunday

FRANK PARK  
Song Leader

The First Baptist Church will begin a revival Sunday, April 1, continuing through the week till April 8. The local pastor, Roger Butler, is doing the preaching and Bro. Frank Park will lead the singing.

Bro. Butler has been pastor here for three and a half months, coming from Knox County where he pastored the Gillette Baptist Church.

The church is eager that every one in the community attend the services to hear and support their new pastor. We feel that Bro. Butler and Bro. Park will make a fine team to lead these services. Bro. Park has been leading the song service for many churches over the past

years. We would like to have a big crowd on the first day of the meeting which is Easter. There is a special music program planned for Sunday night.

A goal of 140 has been set for the last Sunday of the meeting. Let everyone make every effort possible to reach this goal.

The services will begin each night with a prayer meeting at 7:30. The song service will begin at 8:00. Morning service will be at 10:30.

## Pink And Blue Shower

Mrs. Carroll W. Hogan of Eastland was recently honored with a pink and blue shower in the home of Mrs. Lynn Davis of Carbon. Upon arriving Mrs. Hogan was presented a corsage fashioned of baby sox.

Mrs. Obie Duncan welcomed the guests at the door and Mrs. Walter Maynard presided at the register where forty one guests were registered. Mrs. Paul Norris and Mrs. Lynn Davis were assisted in serving by Mrs. O. W. Norris, the honoree's grandmother.

Cake squares iced in pink and blue were served with fruit punch. Miniature pastel dapers were used as plate favors which also held the nuts and mints. A large Stork, used as a centerpiece for decoration, watched over the many precious gifts Mrs. Hogan received.

food needed by the body for proper functioning. Some adjustments may be needed to take care of special problems. For instance, overweight may become a problem as activities decrease unless the amount of food is decreased too.

Here is a delicious recipe which I'd like for you to try and see if you don't like it too. It is for Banana Nut Bread.

## Girls Win County 4-H Club Contest

Martha Walker and Mary Carolyn Berry were the winners of the County 4-H Club Electric Contest Eliminations held Saturday, March 10, in Eastland. Their opponents in the contest were Don and Dan Jobe, Eastland County 4-H Club boys.

Martha, a member of the Rising Star 4-H Club, and Mary Carolyn, Cisco 4-H Club member, will represent Eastland County in the District 4-H Club Electric Contest Eliminations which will be held in Stephenville April 14. The team has been trained by the Eastland County Home Demonstration Agent, Mrs. Minnie Mae Hart.

Both Martha and Mary Carolyn have been outstanding 4-H girls in the county for several years. Both have been gold star girls and are now serving as Junior leaders in 4-H Clubs.

The demonstration called "A Bundle of Sunlight" consisted of uses of the infrared bulb on the farm and in the home. Careless use of the bulb was also shown.

The girls will present the demonstration to a number of organizations here in the county. This will further prepare them for the District Contest.

Cavin Gilbert and family of Denton spent the week end with his parents, Mr. and Mrs. C. C. Gilbert.

## Watch Cattle For Grubs Or Warbles

The appearance of bumps on the backs of cattle at this time of the year is a good indication that they need to be treated for cattle grubs or warbles, the American Foundation for Animal Health has reported.

Eradication of the grubs now will mean less interference with meat and milk production later in the season, and will also reduce the chances of these pests propagating in the future.

Veterinarians now use several types of dusting powders and liquid sprays to eradicate the parasites. The treating material is applied so it will go into the breathing holes which the grubs have cut through the skin on the back of the cattle.

"These grubs represent the final phase in the life cycle of the heel fly," Foundation authorities said today. "When the grubs or larvae emerge from the back of an animal, they soon hatch into heel flies. Each fly will lay from 400 to 500 eggs on the animal's body. However, if this cycle can be broken, there will be a lower incidence of heel flies during the coming summer, and less damage to livestock."
