WINTERS, RUNNELS COUNTY, TEXAS, FRIDAY OCTOBER 16, 1925

NUMBER 24

City Receives Water Survey Report

Runnels County Fair Opened Last Tuesday

Last Tuesday morning the Runnels County Fair opened at Ballinger. Exhibits in all departments are a credit to any Texas county, and they have all the amusement features which are usually found at a fair.

Today is the last day of the fair and if you have not been over, you should not let the day pass without paying a visit to our county exposition, which is as good as can be found in the State.

Abilene Delegation Here Yesterday

Thursday at noon several cars loaded with people from Abilene headed by the Simmons Cowboy Band arrived in the city on their way to the Runnels County Fair at Ballinger, but they couldn't pass through "The Busiest Little City in the West" without putting on a demonstration so they marched through the business section headed by the band which played several numbers, then loaded up and proceeded on their way to Ballinger.

World's Best Stunt Flyer In "The Cloud Rider"

One of the most unusual thrills ever transformed to the screen may be seen in Al Wilson's new air stunt melodrama, "The Cloud Rider," which is playing at the Queen Theatre Saturday.

In the development of this thrill Wilson, who won honors as a flier in the World War and has since established himself as the greatest of all stunt fliers, risked his life when he and his pilot rode high into the clouds to adjust a landing wheel to the plane of the heroine who herself is in a helpless plane several hundred feet off the ground. The plane in which the girl, played by pretty Virginia Lee Corbin, is riding has been tampered with in accordance with the plot and the landing wheel falls off while in mid-air, thereby rendering the girl helpless and unable to land. Wilson perceives her plight, ascends swiftly in his own plane, adjusts a new wheel while standing on top of the wings of his own plane and then comes down again. Critics have declared this stunt to be one of the most sensational and novel ever attempted by an aviator.

Kilpatrick's Bro. Dies at Angelo

The many friends and acquaintances of E. R. Kilpatrick of this city will be pained to learn of the death of his brother in San Angelo Monday afternoon. Mr. Kilpatrick's father was buried in that city, Oct. 2, and on Wednesday of this week he buried his brother.

In this dark and trying hour mere words fail to console but, nevertheless, such sympathy and condolence as friends can offer, are his. The following is taken from The San Angelo Standard:

"John Henry Kilpatrick, 50 died at his residence, 712 Baker street, at 3:45 Monday afternoon. Mr. Kilpatrick, who was the local agent for the Texhoma Oil and Refining Company, complained of being ill Sunday and retired to his room. The doctor in charge of his case had left his patient's bedside only an hour before Mr. Kilpatrick died and at that time he seemed to be getting on well.

Surviving him are his widow: Mrs. J. H. Kilpatrick, one son, Morris Kilpatrick, of San Angelo; three daughters, Miss Johnnie Lee Kilpatrick, San Angelo; Mrs. E. J. Benton of Gordon, Texas; Mrs. C. F. Ware of San Angelo; his mother, Mrs. J. F. Kilpatrick, San Angelo; a sister, Mrs. G. E. Johnson, Kenefic, Ok.; a brother, E. R. Kilpatrick, Winters, Texas; and one granddaughter, Mary Frances Ware, San Angelo. All of these relatives will be present at the funeral excepting Mrs. G. E. Johnson.

"Active pallbearers will be C. L. Oden, J. E. Young, Silas H. Keeton, W. B. Benton, Jack Morrison, and Len Mertz. Honorary pallbearers are, T. H. Lawson, president of the Texhoma Oil and Refining Company; C. B. Trotman, Sam Pollock, J. W. Kelehor, J. W. Johnson, J. Hasty, M. L. Mertz, B. P. Williams, Louis Nimitz, J. R. McKey, John Bowen.

"The Masonic service will be used at the funeral services to be held from the residence at 4:30 Wednesday afternoon from the residence, at which the Rev. Gaston Hartsfield will officiate. Burial will be in Fairmount Cemetery. Robert Massies Company will have charge.

"Mr. Kilpatrick's father, John F. Kilpatrick, died at his residence, 803 Orient street on Oct. 1."

John W. Norman of Killeen, arrived in the city yesterday and will make Winters his future home. Mr. Norman was assistant cashier of the First National Bank at Killeen, but will become a partner in the Norman-Smith Dry Goods Co., of this city, and will have charge of decorating and advertising for the store. In this connection Mr. Harold Norman informs us that they intend to enlarge the stock carried considerably.

The water survey made by the Elrod Engineering Co., of Dallas showing the possibilities of securing an adequate water supply for Winters has been received by Mayor Roberts and is reproduced in full below:

Sweetwater, Texas, Oct. 9, 1925.—Honorable A. F. Roberts, Mayor, Winters, Texas. Dear Sir: In compliance with your instructions we have during the past two weeks, made a survey and study of the practical possibilities of obtaining a domestic supply of water for the City of Winters. We have the honor to submit herewith our report for your consideration. Yours respectfully,—Elrod Engineering Co., By David Drennan.

Report of Additional Water Supply for the City of Winters, Texas.

General: Winters lies within the area shown upon the U. S. Government chart of receiving 25 inches of rainfall per annum. The nearest point where the Government records show the annual rainfall and runoff per annum is in the San Angelo district and the runoff is given at 3 inches per annum. Considering the nature of the topography and porosity of soil near San Angelo, and of Winters, it is considered safe to estimate that the annual runoff in the hills north of Winters will not be less than four and one inches per annum. This figure was accordingly used in our estimates of reservoirs herein.

Evaporation at Winters and vicinity will not be less than sixty inches per annum as applied to a reservoir. This may be considered to be at a constant rate as applied to the depth of a reservoir, but will vary in the amount of water so lost as the depth of water is lowered. Hence, seasonal and temperature conditions being equal, the greatest evaporation will occur on a full reservoir as measured in gallons, and the volume will decrease greatly as the reservoir is drawn down. Full recognition of this fact is made in this report.

Winters has, at the present time, an estimated population of 3,000. The daily consumption of water is estimated at 50 gallons per capita, 150,000 gallons per day. Any additional supply provided for the City by means of expenditure of public funds should provide for a supply that would suffice for at least twice the present population. Should the City exceed this growth, the values of property will increase in proportion and the additional funds required to obtain a greater supply would be automatically provided by the increase in values.

The Present Water Supply of Winters

Winters secures its present supply from a reservoir, formed by a dam across a draw of Bluff Creek, approximately two miles north of the City. The water is then pumped into a fifty thousand gallon reservoir, or elevated tank, in the northern part of the City. We note that there is a considerable seepage through or under the dam, a portion of which is picked up by a small pump and saved for use. The amount totally lost escaping below the surface of the ground is problematical, but is probably a rather large item.

The amount of water impounded by the dam was ascertained from two sources: The State Board of Water Engineers at Austin state that the original application for impounding water, dated 1914, gave the capacity of the lake to be formed as eighty-five million gallons. The plans on file in the office of the City Secretary for raising the level of the lake four feet, give the additional capacity thus secured as sixty two and one half million gallons. The total present capacity, neglecting silting up since 1914, would thus be 147 1-2 million gallons. Assuming a uniform deposit of silt of six inches over the original

area of the lake, 40 acres, the capacity would be reduced about six million gallons, leaving a present capacity at spillway level somewhat in excess of 140 million gallons. These appear to be reasonable assumptions, and would represent a maximum present capacity, the probability being that the capacity is less rather than more than that stated.

The depth of the lake is comparatively small, averaging about six feet, with a maximum of about fifteen feet. As noted in another place in this report, the annual evaporation in this section is at least five feet. The top five feet of this lake contains more than half of the total capacity. Hence at least half of the capacity each year is lost by evaporation alone. The amount lost by seepage can hardly be estimated with any exactness, but would in all likelihood amount to one-fourth as much as evaporation. The remainder, therefore, of approximately fifty-five million gallons, is all that is available for use, assuming that the reservoir fills once each year. At the present rate of consumption, this amount figures to be about a years' supply, with no allowance for growth, or for dry years.

The amount of drainage area above the dam could not be ascertained in the time available, but this information is doubtless available on the original application filed at Austin in 1914. The character of the area, however, was very evident from even a casual inspection. At least 95 per cent of the watershed is in cultivation; the slopes are gradual, and the soil is ideal for farming, but not at all favorable for large runoff into a reservoir. It is likely that a very hard rain is required for even a small runoff; this fact more than any other explains the periodical shortage of water which is experienced by the City of Winters.

The capacity of the present elevated tank, or standpipe, being only fifty thousand gallons, should be increased, in order to obtain full protection in case of sudden demands, such as a fire, and to equalize periods of pumping. The insurance rate would also be substantially reduced by an increase in overhead storage.

There is no doubt that the present reservoir is in considerable danger of contamination from the numerous inhabitants above the lake on its watershed. Safety demands that chlorination be used on the water, in order to prevent serious outbreaks of water borne diseases. Such outbreaks may not have occurred up to the present time, but experience has shown in like cases that sooner or later diseases will occur, and too often is accompanied by deaths. Typhoid is of course the most serious water borne disease, but many forms of intestinal disturbances, such as dysentery, are also transmitted in the same manner.

Additional Supply.

We have by examination and inquiry, made a careful study of the several possibilities for obtaining additional water, and will report upon each in order, beginning with the least desirable. They are as follows:

1. Pumping from Bluff Creek, at some point near the City, during periods of high water, into the present reservoir.
2. Underground supply south of Winters.
3. Underground supply northeast of Winters.
4. Dam and reservoir northwest of Winters.

No. 1 From Bluff Creek to Present Reservoir

A small concrete dam could be constructed across Bluff Creek, at the nearest point to the present reservoir, and a motor or oil engine driven centrifugal pump installed that would have a capacity of not less than 3000 gallons per minute, or 4,320,000 gallons per day. This would deliver in about one day's pumping, water into the reservoir

Dr. Hunt Addresses the Local Lions Club

The Lions Club met in regular session last Tuesday at the Methodist church. The luncheon served by the Methodist ladies was considerably above the average and the decorations, which were quite "spooky," carried out the hallowe'en idea. We congratulate the ladies on the preparation and serving of this luncheon.

The committee to raise money for the football boys reported some fifty dollars secured and that the balance would be forth coming in due time.

A male quartet from McMurray College, Abilene, composed of Messrs. Peoples, Meador, Campbell and Young, rendered a couple of numbers which were very entertaining and highly enjoyable.

The main address of the hour was delivered by Dr. J. W. Hunt, president of McMurray College, Abilene, who in the main discussed what he termed the three leading questions of the day, i. e. "Transportation, Irrigation and Education." The Doctor also in no uncertain way paid his respects to the evolutionists. The club enjoyed the program from start to finish, even if it did take some thirty minutes.

3 New Buildings On South Main

Three new brick buildings are going up on South Main. Two are being erected by S. W. Wood on the west side and one of C. E. Woodroe on the east side. The ones being erected by Mr. Wood will be occupied by a garage, and the one by Mr. Woodroe by Wm. Powell who will use it as a produce house.

Rain Causes Gin Record to Shrink

Owing to the showers during the past week, which in Winters only amounted to .32 of an inch, the receipts at the local gins were not as heavy as they were the week before. Last week's total showed 9,269, while this week's ginning brings the total to 11,863, distributed among the gins as follows:

Kornegay, round	7,423
Square	609
Farmers Gin No. 1	4,320
Farmers Gin No. 2	560
Reid & Hinds	2,363
Williams & Miller	1,790
Runnels County Gin	1,500
	1,330

Mrs. B. F. Anthony and her guest, Mrs. Carson of Lamesa, were visitors in Abilene Thursday.

William Roy Stanley Passed Away, Oct 6

William Roy Stanley died at the family home, about twelve miles northeast from Winters, Tuesday October 6. He was twenty three years of age and had been sick for several days with typhoid fever. Surviving him are his wife and two small children.

sufficient for 30 days' supply at the present rate of consumption, and neglecting the loss by evaporation and seepage after the water is put in the reservoir. The obvious weakness of the above proposition is that in all likelihood when Bluff Creek runs sufficient water in warrant pumping, the drainage area of the present reservoir will also be producing water, and the pump will

Rain Checks Cotton Picking in the Entire South

EXPORTS NEARLY 1,000,000 BALES BEHIND LAST YEAR'S RECORD

H. & B. Beer of New Orleans wired Jess Taylor & Co., Winters, Texas the following today:

New Orleans, La., Oct. 16, 1925.—Higher cables than due, and further rains in the cotton region especially in the southwest influenced the market to a higher level this morning but reports of private crop estimates and prospects for better weather in the western half of the belt influenced much realizing and a lower market this afternoon.

Dry weather is urgently needed west of the Mississippi river to permit resumption of picking which the wet weather has retarded, restricting the movement to market as well. Compared with last season receipts at all ports since Friday were only 339,000 bales against 411,000 bales. Since August 1st, 2, 717,000 vs 2,234,000 bales.

The export movement from the United States is disappointing so far this week amounting to 169,000 bales compared with 277,000 for corresponding time last season, but since August 1st, they total 1,575,000 vs 1,307,000 to even date last year.

The weather bureau predicts generally fair for West Texas, partly cloudy for East Texas, partly cloudy for Oklahoma tonight. Generally fair Friday and probably showers in the major portion of the central and eastern belts.

Liverpool cables—"Hedging pressure was offset by local and London buying. Reports from many leading manufacturers state they are well engaged for several months."

In event of clearing weather in the interior it is likely that the market will tend lower. Selling especially on bulges seems to be advisable for the present.—H. & B. Beer.

W. O. Anderson Loses 3 Fingers In Accident

W. O. Anderson, who is employed at Kornegays' Gin, had the misfortune to get his hand badly mangled while changing a belt last Thursday, October 8, which necessitated the removal of three fingers. He is still in the local sanitarium and reported to be doing as nicely as could be expected.

APPRECIATED

Wolf City, Texas, Oct., 10, 1925.—Winters Enterprise: Am sending you some money to keep my paper coming, as it is like a personal letter to me. I lived in Winters in 1922 and 1923, and think it one of the best towns in the state and I have been over the state and I have went from this county to Winters and stayed two years and came back here, and my son, C. V. and I put in a first class bakery here, and our other business interests are here and at Farmersville. But sometime I aim to come back to Winters and her fine people, "the best I ever saw." And she has the best newspaper anywhere. Keep it coming. Yours,—C. M. McElyse, Wolf City, Texas.

FARMERS SHOULD AVOID SNAPPING COTTON

Cotton buyers of this city who have just returned from Dallas inform us that there is no market for snap cotton and if this practice is started somebody is going to have cotton on their hands for which there is no market. We do not know whether cotton is being snapped here or not, but the information we have at hand now is that there is absolutely no market for it. A word to the wise should be sufficient.

Don't wait too long before making sure of your insurance. Fire gives no warning—often comes like a thief in the night. Are you fully protected?

Don't take a gamblers chance on a fire loss. The odds are against you.

Water Survey --

(Continued from title page)

deliver water when least needed. The estimate of cost given below reflects the high costs of a large capacity pumping unit and pipe line.

Estimate of Cost	
Concrete dam	\$1,500.00
Pumping unit	2,250.00
Pump house	500.00
16 inch pipe line to reservoir	29,000.00
Valves and fittings	750.00

Engineering and Contingencies	\$34,000.00
	3,400.00

Total estimated cost \$37,400.00
No. 2 Ground Water Supply South of Winters

Springs appear at the Henniger farm, some six to seven miles south of Winters, and near the banks of Bluff Creek. These springs show up about 100 yards from the channel of the creek, and 3 to 4 feet above the creek bed. Seep springs also appear for some distance above and below this site on the bank of the creek, increasing thereby the normal flow in the channel. These springs are caused by percolation of rainfall through the soil upon a considerable area north of the farm, probably on the watershed of Antelope Creek, following upon the top of an impervious stratum, which at the point of issuance of the springs is a thin layer of limestone rock, bedded on impervious clay. Bluff Creek has cut into this stratum of impervious material, and the underground flow naturally appears at the surface of the ground, a condition typical of most springs. These springs do not of themselves run sufficient water for a supply to the City of Winters, but the amount could be reinforced by intercepting additional ground water by means of a development roughly parallel to Bluff Creek, and would probably be found sufficient. If necessary in order to secure a sufficient quantity, the normal flow of Bluff Creek at this point might also be diverted, provided sufficient safeguards were taken, as the drainage of Winters and the surrounding country are tributary at this point, including the present sewage disposal plant, and contamination is very likely. The visible supply at this point is larger than at any other location investigated. It is, however, at an elevation about 150 feet lower than the business section of the City, and pumping costs would be constant and expensive. The hardness of the underground water, being in the neighborhood of 315 parts per million, would also necessitate treatment before use in boilers. We should therefore recommend development at this location only as a last resort, and consequently have made no estimate as to cost.

No. 3 Underground Supply Northeast of Winters.

This locality may be briefly described as follows:
The valley is about one mile wide, and drained by Bluff Creek, which at the present time flows near the eastern side of the valley. Indications are, however, that the channel of the creek was at various other points and most probably at one time near the western side of the valley. This is evidenced by the character of the sub-soil, the nature of the valley, and the fact that the old slough (former creek bed) meanders through the valley west of and roughly parallel to the present main chan-

nel of the creek for more than three miles.

This old creek bed is being gradually filled up with debris and silt, although water holes still appear, which contain some water at times. Wells were examined at various points from 1 to 2 miles from Winters, also springs and the test location made by the City last spring. Indications are that by proper development a supply sufficient for the needs of Winters could be obtained. This would consist of either a series of wells some ten to twenty feet deep, or by cutting a narrow trench to collect the water.

Due to the uncertainty as to the best location, the amount of water procurable, and the fact that a supply appears to be obtainable, it is suggested that a thorough test be made of this source, even at an expenditure of several thousand dollars. If it proves desirable after test, the amount of money necessary for development as a supply would be considerably less than for any other possible source found in this investigation.

The amount of hardness of this water is, by test, 294 parts per million, as compared with the present reservoir supply of 157 parts per million. It appears, therefore, that some treatment would be required in order to secure a supply suitable for boiler purposes, and desirable for domestic use. It is suggested that arrangements can probably be made for this treatment, at small expense, by the same plant with which the present reservoir supply is being clarified. An estimate of cost of an installation for water supply from this source is given below.

Estimate of Cost	
Four wells, 6 ft. diameter, 15 ft deep	\$ 540.00
Pumping equipment for 200 gal. per min	500.00
Pump house	500.00
6500 ft. 6 in. cast iron pipe laid	7,675.00
Valves and fittings	200.00
Land, 10 acres at \$100.	1,000.00

Industry is Doing the World's Work

—The people who know most about industry are those who are in industry. In addition to knowing about industry people who are in the public service industry know about the interest that all the rest of the people have in that industry.

—The public utility industry—for instance the service of West Texas Telephone Co., is peculiar in that it can do well only as the people served by it do well. It is an essential service, and experience has shown that an industry which is affected with a public interest serves well only through co-operation between the service and the people served.

—The spirit of co-operation for the benefit of both the service and those served is the spirit that inspires this company to look always to the welfare of its customers and of the community it serves.

Total estimated cost \$11,460.00
No. 4, Dam and Reservoir 12 Miles Northwest of Winters.

At a point on Bluff Creek near the Bluff Creek school house in Taylor county, several dam sites were found. The most favorable was surveyed and a detailed estimate of cost prepared, which will be shown herewith.

By building an earthen dam, with a maximum height of 45 feet, and a total length of 1600 feet, a reservoir will be created covering about 200 acres of land, and capable of impounding 450,000,000 gallons of water. The drainage area feeding this reservoir contains 15 square miles, and with the average rainfall and runoff mentioned on the first page of this report, should supply water sufficient to fill the reservoir twice each year.

The capacity of this reservoir is large enough to impound a supply of water to meet the requirements of Winters, at its present rate of consumption for 22 months, making full allowance for evaporation and seepage, without any rainfall or runoff during this period. In view of certain factors, an increase in population and like increase of consumption of water, does not require that the amount of water impounded need be in direct proportion to the increase in amount used. Therefore considering the reservoir full, and no rain or runoff, there would be a supply for a population of 6,000 or double the present number, for a period of 15 months. The above figures were arrived at as mentioned in the first part of this report, by assuming that the evaporation and seepage will decrease in volume as the level of the reservoir is lowered.

The topography at the dam site selected is such that a natural spillway is provided in a lower section of ground east of the dam. This natural spillway obviates the necessity of providing an artificial one, which would cost many thousand dollars. The elevation of the dam is approximately 200 feet above the business district of Winters. An eight inch pipe line would deliver by gravity 450,000 gallons per day, or three times the present requirements into the water tower, and for fire fighting purposes would deliver approximately twice this amount to the base of the tower. It will be noted that sufficient pressure is secured by gravity, and that there would be no pumping expense involved. The cost to construct this dam, and pipe line to the City, is large, as compared to the other sources of supply mentioned, but it is the only positive and certain supply of water that may be developed within a practicable distance of Winters. If it is within the financial ability of the City to handle, the water supply of Winters would be safe for a long time to come.

Estimated Cost	
Reservoir:	
320 acres of land at \$25.00	\$8,000.00
200 a. clearing at \$20.00	4,000.00
	\$12,000.00
Dam:	
139,000 cubic yards earthwork	

Engineering and contingencies	\$179,146.00
	17,914.00

Total estimate cost \$197,060.00
Considering the present indebtedness of Winters to be \$140,000, an additional debt of practically \$200,000 would appear to be beyond the ability of Winters to finance; but should it appear to the City council as being for the best interest of the City to construct this dam and pipe line, it is possible to arrange the necessary finances required. The present valuation of \$1,500,000.00 could be raised to \$2,000,000.00; then deducting 25 cents on the \$100 valuation for general purposes, and to meet unforeseen emergencies, there would remain \$1.25, as allowed by law, that could be pledged to support a bond issue of \$344,000.00. Granting that the tax payers would authorize an issue of this amount, serial bonds maturing within 40 years bearing 5 1-4 per cent interest could be issued, and at the present market value could be sold for par value. Using this issue to refund the total outstanding indebtedness of \$140,000, would leave \$204,000.00 available for the construction of the proposed dam and pipe line. There would be certain adjustments to be made with the holders of the outstanding bonds, as to the difference between the interest of 6 per cent and 5 1-4 per cent.

As Winters grows in population and value of taxable property, the necessary tax to support this bond issue would proportionally decrease. The laws of Texas permit money on hand from any source, and not pledge to be applied to any fund; therefore revenue from the water system may be applied toward interest and principal of the outstanding bonds.

W. B. Tyler and Misses Polly and Minnie Tyler, of the Miles Messenger, and Rev. Stokes were in our city Monday, and were pleasant callers at the Enterprise.

New York used to win baseball pennants, too.

Cabinet Meeting

A cabinet meeting was held in the

church Monday night. All the officers with the exception of one or two were present. The leaders for the month of November were selected and it is hoped that they put the plans over with great success. A larger per centage of the enrollment are really active members and they are striving to increase the membership with the same quality.

What's Doing In West Texas?

(West Texas Chamber of Commerce)
 Floydada—A Poultry Association has recently been organized for Floyd County and plans are under way for a big poultry show this fall. Officers elected were: H. P. Coleman of Lockney, President; Judge L. G. Mathews, vice-president; and E. S. Shoaf, Secretary.

Crowell—A White Way will soon be installed in Crowell, as the iron posts have been mounted on the cement blocks and are ready for the lighting of the streets.

Maryneal—Within the next few weeks the first field meet of the West Texas Wolf Hunters Association, of which Dr. P. C. Coleman of Colorado is president, will be held near Maryneal, Nolan County. The hunters expect to enter more than 300 dogs for the big hunt, which will be a three day affair. The dogs will be scored from the standpoint of trailing, speed driving and endurance.

Laredo—San Antonio will get gas from the wells of the Laredo district, production of which is now es-

timated at more than 500,000,000 cubic feet a day. The survey for the pipe line from the Coal field to the Callahan field was completed several weeks ago and the route staked out. Connections will be made from the Callahan field with the Southern Natural Gas Company that supplies San Antonio with gas.

Comanche—The entire plant of Higginbotham Bros & Co. of this City was destroyed by fire with a total property loss of more than \$200,000. General manager, T. J. Williams stated the firm would soon have a new stock of merchandise and ready for business again.

Floydada—Construction is now underway on the new high-way connecting Floydada with Crosbyton. The highway will come up the Blanco Canyon making it a beautiful scenic drive for this section. Floyd county Commissioners are contemplating the connection of this highway with the road leading into Floydada, connecting with the highway

here leading into Silverton.
 Estelline—The business men of Estelline organized a Chamber of Commerce here recently. More than forty business men and farmers were present at the organization. The aim of the new Chamber is to do two things immediately to benefit the city and community; incorporate the city, and build a larger and better school. Officers elected were: R. H. Whaley, president; R. L. Erwin, secretary; and a vice president will be elected later.

Sweetwater—J. W. Carpenter, General manager of the Texas Power and Light Company has announced enlargement of Sweetwater Ice and Cold Storage Co. also the construction of a 40-mile high tension electric transmission line from Sweetwater to Snyder since the purchase of the Snyder Electric plant. It is planned to have the new plant in operation before next spring.

Burkburnett—Travel across the bridge near Burkburnett has been impossible the past few days due to a gap washed out during high

water near middle of the stream. It has not been possible to ford the high stream as was at first anticipated and traffic has been detoured over two other bridges near Burkburnett.

Childress—A branch of the United Tire Company, associated with the Hicks Rubber Company has located an office and warehouse in this city. The business will be managed by H. H. Hering of McGregor.

Winters, Texas

Trading With Traveling Peddlers

In another column of this paper will be found some remarks by the secretary of Retail Merchants' Association, discussing the itinerant peddler, who visits our city and all other cities. Read what the secretary says along that line and then read what the Winters Chamber of Commerce says regarding the itinerant peddler, as follows:

"The Winters Chamber of Commerce has had printed a little card in two colors which it is asking the housewives of the city to display at the front door of their homes. The card reads:

"Peddlers and Agents! We live in Winters and buy from our home merchants. Do not disturb us trying to sell your wares. In your canvass pass up this house.

"Here's a copy of the letter which is being sent out with the cards:

"Dear Madam: May we not ask you to place the enclosed card by your front door as evidence of your loyalty to the best interest of Winters?"

"In new buildings and increasing expenditures we must provide for the children of our people. Our business men, together with all our citizens will help carry the school and civic burdens as we go on building a bigger and better town.

"Will ever a dollar that you spend with a peddler or agent at the door return to bless you and yours? If at any time you can not find in Winters goods or merchandise of the kind or price you wish will you not give some Winters firm an opportunity to get it for you? Will the agent or peddler ever give any of his time or money to get the street improved by your home, or trees planted, or adequate water secured? Does he care anything for Winters? YOU DO! All of us do!

"We thank you for this further evidence of our loyalty to your home town.

"Yours very truly,—Winters Chamber of Commerce."

It is often the case that people who buy from itinerant peddlers make a habit of trading with mail order houses, and everybody knows that if everybody traded with mail order houses, we wouldn't have any small towns, for there would be no need of merchants in little towns. Everybody would send their money off to cities where mail order houses are located. Of course in doing that it naturally follows that there not being local business houses there would be no tax money to build schools or contributions to maintain churches. In other words there would be no towns. It is probably an extreme view to take of the matter in saying that there would be no towns if everybody patronized mail order houses exclusively, but it is literally true.

The thing for citizens to do who wish to be loyal to their communities and support its institutions, is to trade at home, thus keeping money in circulation that otherwise goes away to cities.

This applies particularly to the merchant who sends out of town for his job printing. He is in the same class with the woman or man who patronizes mail order houses.—Tyler Courier-Times.

Mrs. W. E. Duncan left one day the past week for California, making the trip with her son who has been visiting relatives here. Mr. Duncan is on the Los Angeles police force.

Little things alter momentous happenings.

SHOP TALKS AMONG THE MERCHANTS

(By Margaret Starley, Secretary Retail Merchants Association, Tyler, Texas.)

The House-to-House Peddler

Some of them are legitimate salesmen trying to make an honest living, but many of them are not, and are known as the fly-by-night agents, who invade our town, make a quick, thorough canvass of the community, fold their tent and flit away to descend upon the next community.

These peddlers are quite common these days. The housewife knows the annoyance of answering the doorbell time after time, during the busy hours, only to find a suave agent with one foot in the door as soon as the bell is answered.

Police records show that this is a very dangerous practice. It is hard for the unsuspecting housewife to determine the good from the bad. The peddler usually has only one article for sale, giving you no comparative value—requests cash or a deposit, sending the balance C. O. D. which leaves you no means for adjustment if you are not satisfied—uses fraudulent methods in making the sale—delivers inferior merchandise—and you never see him again.

How long would our town endure if our merchants would close up shop and move away? They are the stable fixtures, paying large share of our taxes, playing their part in the upbuilding of the community. They give employment to our local men and women and the money thus expended for wages form a part of our civil prosperity.

The Retail Merchant operates upon a smaller margin of profit than any other class of business men in the country. Large investments are involved, he offers you great stocks of merchandise to select from, stands ready to make any adjustments, is truthful in what he sells you, you know exactly what you are getting when you buy from him.

"THE TEN COMMANDMENTS" COVERS TIME AND TERRITORY

The Red Sea and San Francisco are about five thousand miles apart. The Israelites led by Moses on their exodus from Egypt are separated by about forty centuries from Sunday afternoon jazz dancing today. Yet, Cecil B. DeMille has managed to put them together convincingly in his picturization of "The Ten Commandments." This great Paramount picture is coming to the Queen Theatre soon, where it will be shown for the first time at popular prices.

The modern story opens on a devoted mother driving one of her two sons from home because he will not "apologize to God," for what she believes sacrilege. The son goes out into the world, not bitterly, but boyishly exultant, to smash every commandment. Then DeMille develops his theme that "if you try to break the Ten Commandments they'll break you."

A gorgeous Biblical episode, done in natural colors, is enacted by such popular players, as Estelle Taylor, Theodore Roberts, James Neill,

of business means keeping that money at home, where it will be turned over and over, put to work and made to produce to its fullest its potential power for prosperity.—Tyler Courier-Times.

Charles de Roche, and Lawson Butt. The two million persons who have paid from one to two dollars to see this greatest of Paramount Pictures testify that the highest point the cinema art has yet reached, has been achieved in this most ambitious directorial effort of Cecil B. DeMille.

Dillingham Heads New Ranger Bank

Austin, Oct. 10.—Certificate of authority to do business in Texas was granted by the State Banking Board Saturday afternoon to the Citizens State Bank of Ranger, with capital stock of \$75,000. The officers are: O. D. Dillingham, president; W. W. Housewright, vice-president; Hall Walker, cashier, all of Ranger. The officers with M. R. Hewaham and W. D. Conway of Ranger, constitute the board of directors.

Walter Murray of Ranger, a stockholder in the new bank, who was here attending the board meeting, announced that the bank would open for business next Monday.

Winters Young Lady in Trinity Orchestra

Waxahachie, Texas, Oct. 14.—Miss Bonnie Rives of Winters is a member of the Trinity University Orchestra for the present year. It makes the fourth consecutive year that Miss Rives has made the musical organization.

Special music is furnished by the orchestra at chapel each morning and it also gives a concert each year, besides making other public appearances.

Miss Rives, who will receive her degree from Trinity next June, has taken a prominent part in the student activities of Trinity during the past three years. She has been especially active in work of the Pre-Medic club.

Fred Bedford left Wednesday on a business trip to Pauls Valley, Okla.

Truck Turns Over; Breaks Man's Leg

Messrs. S. O. Creswell and Kyle Hardegree, while hauling some cattle in a truck, happened to the misfortune of turning the truck over out on the Ballinger road about four miles out of town last Monday morning, and in the accident Mr. Creswell sustained a broken leg.

The injured man was brought to Dr. Tinkle's office where the injured member was dressed and at last reports we learned is doing as well as could be expected.

Even if the Price of Wales should never get his job as a king he will make a great editor for the Travel Magazine.

Many friends will be glad to learn that Mrs. Davis of Wilmeth who was operated on last Monday, in the local sanitarium, is improving.

John T. Scopes subsides into the role of a student.

Will Play Eldorado At the Fair Today

At the eleventh hour, Coach Smith succeeded in arranging a game of football to be played at the Runnels County Fair, Friday, October 16th. Late Thursday night after trying some twenty or twenty-five teams, this one was finally roped in. The Winters Blizzards will go into the game probably in better shape than any game of the season thus far and knowing that they are going to have to "strow some stuff" on the gridiron to get the bigger end of the deal.

A half holiday will be granted to the Winters school in order that they may participate in the "School Day" activities of the fair—Winters always does her part, and this time she is going to help put over a bigger and better fair than ever.

The Winters delegation will meet with all the other schools of the county at the West end of the pavement on Hutchins Avenue. Let's take Winters over to the Fair "School Day."

Colleen Moore's "Sally" Complete

Colleen Moore has said good-bye to "Sally."

The final scenes of this, her newest First National starring vehicle, have been completed under the direction of Alfred E. Green. The picture will be shown at the Queen Theatre Monday and Tuesday. "Sally" was adapted from the noted Ziegfeld hit of the same

SOCIETY

Missionary Societies Entertained by Methodist Ladies

The Methodist ladies entertained the Missionary Societies of the other churches of the city in the basement of the Methodist church at 3 o'clock Friday afternoon, October 9th.

The basement was beautifully decorated in Hallowe'en suggestions. Yellow and black were the predominating colors, wiches, black cats, owls and Jack o'lanterns were placed here, there and every where. Tall floor lamps were stationed around the room and lovely bouquets of roses and other flowers added beauty to the pretty decorations.

The guests were met at the door by Mrs. J. M. Skaggs and presented to the receiving line, which was composed of the officers of the Missionary societies, after which each registered in a lovely hand-painted book presented by Miss Gladys Oliver. Ninety-one names were registered.

After registering they passed to the punch bowl which was presided over by Mrs. Harris Mullins who was dressed in a wiches' costume.

The address of welcome by Mrs. T. V. Jennings was graciously responded to by Mrs. H. H. Stephens. An instrumental duet by Mrs. Charlie Chapman and Mrs. A. H. Smith, followed by a song by Bro. A. H. Clark accompanied by Mrs. Charlie Chapman, a piano solo by Marjorie McAdams and talk on "Federation" by Mrs. Bryan were enjoyed very much and showed both talent and ability. Mrs. Ruth Ramsel, accompanied by Mrs. Buford Owens, sang two songs, "Calvary" and "The World is Waiting for the Sunrise," each illustrated with beautiful drawings by Miss Vera Wilson, were enjoyed very much. Miss Allen, Mesdames Skaggs, Ramsel and Cramer sang a quartette accompanied by Mrs. A. H. Smith. A magazine contest, which was a story made by filling in the names of magazines which were pinned on the walls around the room, proved to be a pleasant diversion and very entertaining. Several guests had the story correct and they drew straws and Mrs. Graham drew the shortest, receiving a beautiful bouquet of roses.

Delicious refreshments were served consisting of chicken salad on lettuce leaf, potato chips, olives, bread and butter sandwiches, hot tea and Hallowe'en favors containing salted peanuts.—Supt. of Publicity.

Mr. and Mrs. R. R. Wall were visitors to the Fair in Ballinger last Tuesday evening.

Literary and Service Club In Regular Business Session

The Literary and Service Club met in regular business and study session at the home of Mrs. W. D. Sanders on Thursday, October 8, with Mrs. F. J. Brophy presiding.

In the absence of Mrs. A. H. Smith the parliamentarian, Mrs. E. A. Shepperd read the constitution and by-laws.

Several matters of State and National Federation interest were presented and acted upon.

The program, based on Shakespeare's "The Merchant of Venice," was led by Mrs. H. O. Jones. In response to roll call the members gave striking epigrams from the play. Three excellent papers were read. In a comparison of Portia's wooers, Mrs. L. E. Low brought out in a delightful way the follies, eccentricities and charms of the various suitors for fair Portia's hand. Mrs. E. A. Shepperd presented an analytical contrast of the characters of Antonio and Shylock, pointing out the social, economic and religious conditions which were determining factors in the lives of the two men. Mrs. W. W. Oliver reviewed the action of the trial scene, giving special attention to the vivid and dramatic battle of wits between Portia and Shylock. Following the papers Mrs. Jones conducted an informal round-table discussion of the play.

Members present at this meeting were Mesdames Brophy, Gaston, Hickman, Holcomb, Jones, Bert E. Low, L. E. Low, McAdams, Mullin, Oliver, Sanders, Shepperd, Thornton, and Misses Carr, Kornegay, Heavenhill and Oliver.

Mrs. J. Powell Wehrung of Waco, was a visitor at the meeting, the guest of Mrs. Bert E. Low.

Announcements

G. A. will meet at the home of Mrs. H. H. Stephens at 4 o'clock, Monday, October 19.

The Literary and Service Club meet in a social meeting at the home of Mrs. L. R. Gaston, Friday, October 23, with Mesdames, W. E. Hickman and L. R. Gaston, hostesses.

The Baptist Woman's Missionary Union will meet at the church, Monday, October, 19, at 2 o'clock. An interesting program will be carried out by Circle A in the form of a Mission play and following the program will be a social hour and Circle B. will have charge.

MRS. B. F. ANTHONY HONORS GUESTS

On last Wednesday evening, Mrs. B. F. Anthony was hostess to a few friends in honor of her brother and nieces, Mr. Baxter and Mesdames Carson and Hunter of Lamesa, who are guests in the Anthony home.

The tables were arranged and attractively appointed for playing a series of forty-two games which held happy interest during two hours time.

Delightful refreshments consisting of sandwiches, angel food cake and iced tea were served to Messrs. and Mesdames R. E. Bacon, R. A. Bishop, Hoffman and the house guests.

MARTHA CLASS IN BUSINESS AN SOCIAL MEET

The monthly business and social meeting of the Martha class was held in the church Wednesday afternoon and Benson hostesses.

The rooms were beautifully decorated in Hallowe'en suggestions. The color scheme of black and yellow was carried out, with cats wiches and owls placed here and there.

During the business meeting, Mrs. Spear was elected assistant teacher to fill the vacancy of Mrs. Alexander. A box of hose and handkerchiefs was packed for Buckner Orphan's Home.

As a diversion for the afternoon, a Biblical Ball Game was entered into, in which sides were chosen and Bible questions asked and answered, which proved to be quite entertaining.

The color scheme was carried out in the lovely refreshment plate of orange, cream and cake, passed to the class members. Mesdames Thornton, Davidson, Meeks, Ratliff, Spear, Hickman, Benson, Unfred, Davis, Evans, and visitors Mrs. Simpson and little Miss Anetha Simpson.

ODELL CLARK CELEBRATES 6TH BIRTHDAY

A number of little friends were entertained by Odell Clark last Wednesday, from four to six, in honor of his sixth birthday.

After playing different games the little ones were called into the dining room where delicious refreshments were served.

A beautiful story was told by Odell's Sunday school teacher, which was enjoyed by all.

Those present were, P. D. Graham, Charlie Graham, Marion Seay, Marvin Snelling, Douglas Snelling, Pace Cramer, Ray Hood Wilbanks, Elmo Unsel, R. C. Bledso, Troy, Raymond Weldon Brown, C. S. Jackson, Truman Jeffries, Freddie Baker, Leona Inman, June Lambreth, Inman Seay, Doris Reed, Ouida McCowan, Hershall Story, Naomi Smith, J. A. Smith and Wanda Faye Smith.

Each little guest departed wishing for Odell many more happy birthdays.

Mesdames Bryan and Neely Entertain

Thursday night, Oct. 8, a large crowd of the young people met in the home of Mrs. Walter Neely and enjoyed a very delightful evening. Mrs. Bryan kept everyone busy with various games and plays. Everyone entered into the fun with good spirit and not a moment was allowed for thoughts of anything else.

A delicious salad course was served before the guests said goodnight.

THE EUGELIAN S. S. CLASS MET IN BUSINESS MEETING

The Eugelian S. S. Class met in business and social meeting Thursday afternoon with Mrs. H. H. Stephens.

Miss Myrtle Barber resigned as class president in favor of Miss Laura Kilgore. The new class officers elected were: first vice-president, Miss Loyle Kornegay; second vice-president, Miss Vera Downing; third vice-president, Miss Eugenia Mitchell. Miss Eunice Polk was re-elected Secretary.

The class discussed new ideas and goals to be attained. The class entered the contest for State Banner, which is to be awarded at the convention which meets in Waco in April.

The class adopted the "Love-mate Plan."

BAPTIST W. M. U. HAD CIRCLE MEETING

The Baptist Woman's Missionary Society met in Circle meetings Monday, October 12. As this was industrial day each circle pieced quilts for Buckner Orphan's Home, and the attendance was unusually large.

Circle A met with Mrs. Roundtree, Circle B. met with Mrs. Bradley, Circle C. met with Mrs. J. M. Pumphrey.

METHODIST W. M. S. HAD MISSION STUDY

The Woman's Missionary Society of the Methodist church met Monday October 12, at three o'clock at the church for Mission Study.

The opening song, "America" was followed by reading 122 Psalm by Mrs. Jennings and prayer was offered.

"Medley of Patriotic Melodies" was rendered by Mrs. A. H. Smith, after which minutes were read and roll was called and answered by a verse of scripture.

The Missionary program was carried out as follows:

Short review of book "Save America" by Mrs. Stevens. Dialogue "Depths and Shallows" Mesdames Nance and Strother. Song, "Battle Hymn of Republic". Reading, "Killing the Dragon" by Mrs. Bryan.

Prayer by public officials and to

JUST CONSIDER CORDIALITY WHAT IS IT?

—It's being human and friendly in the old-fashioned way, of course. But what does it mean in a bank, for instance?

—It's something like this, we believe:

—The cordial, friendly organization simply shows by its cordiality that it has forgotten itself, and has at heart the best interests of those whom it serves.

—That is the way we try to be here, and our friends tell us we are successful.

The Winters State Bank

Winters, Texas

"The Dependable Guaranty Bond Bank"

put down lawlessness was offered by Mrs. Bryan.

During the business meeting the serving dinner to the Lions Tuesday was discussed and plans for the rummage sale was made followed by benediction.

Mrs. Gordon Nix, of the Drasco community, had her tonsils removed last Tuesday at the local sanitarium. The operation was quite a success and she is doing nicely.

Roy Norton from Roswell, New Mexico, spent a few days the past week with his mother, Mrs. Irene Norton and sister, Mrs. Horace Hawkins.

Plainview—The new Plainview Theatre under the management of Roy Mitchell opened here recently with an estimated attendance of 1,500. This is one of the most modernly equipped theatres in the Panhandle and would be a credit to a town much larger.

The City Market is recognized and noted for choice, full-flavored, tender meats sold at moderate price. Thrifty housewives are finding quality cuts of meat here.

OYSTERS ARE NOW HERE City Meat Market

Hallowe'en

Spooky wiches, quaintly carved pumpkins, the hooting owl—are all associated with Hallowe'en.

If you get your Hallowe'en favors from us to aid you in your preparations means a successful and enjoyable party.

Your attention is also directed to our rolling stock, express wagons, tri-cycles and velocipedes.

SCHINDLER'S VARIETY STORE

Chevrolet Sets New Record For September

Detroit, Michigan, Oct., 14.—The Chevrolet Motor Company built 55,865 motor cars and trucks during September, a new record for that month and only 378 fewer than the highest production month in the history of the company.

Ordinarily sales and consequently production are expected to decrease during the latter part of the year. However, the demand for Chevrolet cars which has held production at high figures throughout the year continues undiminished. As a result the schedule for the present month contemplates the building of more than 54,500 cars and trucks.

August deliveries to dealers in the United States alone were 41,500, an August record. This figure is exclusive of the thousands of cars shipped to foreign countries. During September deliveries in the United States increased to approximately 44,500 placing September second only to April and May of this year and exceeding the domestic deliveries for June, July and August respectively.

"I am proud of these records for two reasons," said Charles F. Barth, Vice-President in charge of production.

"My first reason is that since March the Chevrolet production has remained consistently at 50,000 or more without the usual seasonal fluctuations. This indicates that the automobile industry is becoming stabilized upon a regular year-round demand.

"My second reason is that the September production proved conclusively the loyalty and capacity of

the Chevrolet manufacturing organization. Unceasing demands for cars from the Chevrolet dealers made it necessary early in September to increase the September production schedule nearly 7,000, the new schedule calling for 53,165 cars and trucks. A production increase of that magnitude is a severe test of any manufacturing organization. The sales department would have desired us to increase the production schedule even more sharply. The results exceeded our highest expectations. The loyal workers in the Chevrolet factories, most of them veterans who are proud of their jobs and proud of their product, responded to a man. They came through with the record September production of 55,865 which was 2,700 more under the revised schedule."

STATEMENT OF THE OWNERSHIP, MANAGEMENT, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912.

Of the Winters Enterprise, published weekly, at Winters, Texas, on October 1, 1925.
State of Texas, County of Runnels, ss.

Before me, a notary public, in and for the State and county aforesaid, personally appeared George C. Hill, who, having been duly sworn according to law, deposes and says that he is the editor and business manager of the Winters Enterprise, and that the following is, to the best of his knowledge and belief, a true statement of the ownership (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 443, postal laws and regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of publisher, editor, managing editor and business managers are:

Publisher, editor, managing editor and business manager, George C. Hill, Winters, Texas.

That the owner is: (If the publication is owned by an individual his name and address, or if owned by more than one individual the name and address of each, should be given below; if the publication is owned by a corporation the name of the corporation and the names and addresses of the stockholders owning one per cent or more of the total amount of stock should be given.)

George C. Hill, Winters, Texas; J. R. Hill, Abilene, Texas; D. R. Hill, Abilene, Texas.

3. That the known bondholders, mortgages, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: (If there are none, so state.) Mergenthaler Linotype Co., Brooklyn, N. Y.

4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in case where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under

which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct in or indirect in the said stock, bonds, or other securities than as so stated by him.—Geo. C. Hill, Editor and Business Manager.

Sworn to and subscribed before me this 13th day of October, 1925.

B. F. Howell. (My commission expires June 1st, 1927.) (SEAL)

The months of oysters have returned, but, at present scarcity, there is no danger of overcrowding in the church supper soup.

Mrs. Ella Ritch left Monday for Fort Worth and Dallas where she will visit relatives and friends and from there will go to Los Angeles, California where she expects to make her future home.

Mesdames C. T. Rives, Wylie Hinds, O. J. Hinds, and Joe Hinds were visitors in Ballinger last Wednesday attending the fair.

Mrs. Howard Butler and children, of Weatherford, Texas are visiting in the home of her mother, Mrs. E. P. Eason.

Congress was fortunate in the fact that it was enabled to postpone its demonstration until after the baseball heroes were through with the spotlight.

SERVICE

Electrical Service the Burden Carrier

FEW industries today serve as many different customers as your Electric Light and Power Company. Thousands of homes, factories and places of business are made happier, more comfortable and better places to live through the power of Electrical Service. Electricity has taken from the burdened hands of woman-kind, the drudgery of physical toil—the vacuum cleaner has replaced the time worn broom, the electric washing machine has taken the blue out of blue Monday.

And all this has been accomplished through the efforts of the great burden carrier—Electricity.

Always at your service—night or day.

MUSCULAR ENERGY

A newspaper has been doing some figuring or guessing, and has come to the conclusion that "the muscular energy expended by a woman who tries to swim the English Channel would darn 456,233 socks, or sew on 523,283 buttons, or patch the bosoms of 83,211 pairs of trousers.

This editor may cause some mischief maker to start figuring out how much of the muscular energy expended by a man during the season of golf would be required to dig and weed the garden, mow the grass, and other jobs around home.

MONEY IN FARMING

A director of the American Farm Bureau says that the farmers of America made a profit exceeding \$5,150,000,000 during the year ending July 1. The farmers should be cheered at the thought that they have done so well as a class, but some of them claim that they have not been able to get their fins on their share of the profits. But if the figures are correct the country really has very little to worry about.

COMPETITION

Competition is the life of progress. The radio having cut into the talking machines business the phonograph manufacturers had to bestir themselves, to make something better.

So one company announces a mechanical and another an electrical improvement, either of which is claimed, will make sound reproduction perfect.

Thus we shall continue to have two instruments, the radio to bridge space and the phonograph to bridge time.

You will never hear Caruso by radio, nor President Coolidge's speeches, while he is delivering it, on the phonograph.

CULINARY SKILL

Corned beef and cabbage stand sponsor for another romance, and there is no need to be snuffy about it. Why shouldn't the White House cook be happy with the man who appreciates her culinary skill?

For practical purposes, a woman's competency as a housekeeper is most easily proved at the cook stove, just as a man's capacity as a householder is proved by his income.

A pay envelope and a cook book—They are not romantic, but as symbols of a happy marriage they beat out a whole sky full of rosy clouds and rainbows.

PROSPERITY

The first half of 1925 has seen more automobiles made and sold in the U. S. than ever before, according to the latest figures. As an in-

WITH THE BAPTISTS

SUNDAY—

Sunday school 10 a. m.
Preaching 11 a. m.
B. Y. P. U.'s, 6:30 p. m.
Preaching 7:30 p. m.
The regular song service will be held at three o'clock Sunday afternoon. Special invitation to all lovers of music of all the surrounding communities.
The two Senior B. Y. P. U.'s will go to Norton Sunday afternoon and hold an extension program at 3 o'clock.

MONDAY—

The Woman's Missionary Society will meet at the church at two o'clock when a Missionary program will be carried out by Circle A, followed by a social hour in charge of Circle B.

WEDNESDAY—

Prayer meeting and cabinet meeting of all the superintendents of the Sunday school.

Last Sunday morning Dr. Godbold, President of Howard Payne College delivered a very much appreciated address on denominational Schools and spoke in interest of the campaign launched by Howard Payne College for a quarter million endowment fund.

BRADSHAW

On last Monday afternoon the members of the Woman's missionary union of the Baptist church met at the home of Mrs. L. O. Steele, where they enjoyed a very delightful party. A Bible contest proved our knowledge of famous characters and made us realize we need more study of them.

Miss Vera Taylor and Mrs. Claude Brown were victorious in a State contest.

Mrs. Tom Lewis and Miss Nora Lee Scott proved themselves most efficient in cross word puzzles and Mrs. W. H. Taylor won in the game of croconole.

We drew names which will be used in a Glad Game for a few weeks. Our object being to make a friend glad. Later we will reveal who has been our Pollyanna at a Hallowe'en social.

On being invited into the pretty dining room, delicious refreshments of chicken sandwiches, potato chips, pickles, cocoa, fruit salad, and marshmallows were served to the following: Mesdames Joe Hunter, Tom Lewis, W. H. Taylor, Paul Girkack, Joe Sanders, Don McCasland, Sterling Price, L. O. Steele, Billie McCasland, Claude Brown, Misses Clifford Taylor, Nor a Lee Scott, Maurine Price, Vera Taylor, Melva Kirlack, Princess Pat McCasland, Joe Ollie Sanders, Tommie Joe McCasland and Honor Orin Sanders and Bobby McCasland.

PRESBYTERIAN LADIES WILL SERVE DINNER SATURDAY

The ladies of the Presbyterian church will serve dinner in the Winters Light and Power Office next Saturday, October 17.

Mr. and Mrs. H. L. Bobo are receiving congratulations of their many friends on the arrival of a new daughter in their home last Friday. The mother and little daughter are doing nicely.

"THE GALE" IS NAME OF H. S. PAPER

"The Gale" is the name of the H. S. newspaper, the name being chosen by a committee of four from the faculty. The name was selected from 22 suggestive names. Lucile Neely, the author of the name, will be awarded a years subscription.

The name "Gale" corresponds happily with the terms "Glacier," and "Blizzards." It bears out the thought that is carried out through the H. S. and at the same time it has some dignity to itself.

The first issue of "The Gale Magazine" will come out next week. The current weekly news will appear regularly as "The Gale" in the Winters Enterprise.

"The Gale" belongs to the student body. It makes its appearance and its debut with one purpose only and that is to serve W. H. S. and make it a greater school.

NEXT WEEK "CAMPAIGN WEEK FOR THE GALE"

"The Gale" magazine staff led by business manager, Turney Neely, will launch a subscription campaign next week.

The magazine is \$1.00 per subscription. The staff urges every loyal student to subscribe and make it possible for us to put out a good school paper thus helping ourselves as a school and adding to our publicity beyond our own vicinity.

We urge the alumni to subscribe. We are still thinking of you, and you have not forgotten "Ole Winters Hi," yet, we know we shall have an "Alumni" corner in our paper and if you will keep us posted on how you are doing in college, we will "tell the world" about it.

We solicit the recognition and goodwill and subscription of the business men and parents of the city. We shall make it the magazine that you help to make it.

JUNIORS ENTERTAIN FOOTBALL MEN

The Junior class entertained the Winters and Coleman football boys Friday night with a theatre party at the Queen. Despite the cold rainy weather a jolly crowd assembled and attended the picture with a good deal of laughter and noise, characteristic of school boys and girls.

At 7:15 the crowd gathered at the home of Mrs. H. A. Bradley. From there they proceeded to the theatre in cars, chaparoned by the class sponsor, Miss Barber.

"The Country Store" created a good bit of fun for the hilarious group, most of whom were football men. Perry Barber will evidently take what you give him, as was witnessed Friday night from the things he carried away with him. Ben Anthony was awarded a portion of somebody's grocery store, and Loyd Edwards was sent away with a dollar bill.

As the teachers having much to do with the "Country Store," they do answer to their names when forced.

Some 50 seats had been reserved for the class with streamers of blue and white ribbon.

The entire group of football boys and the class avowed this was the happiest celebration they had had in a long time.

GLEE CLUB IN STEADY PRACTICE

The Glee Club is meeting regularly twice a week and is making rapid progress. Mrs. Jackson is devoting much time to the work and is making it very worth while. Practice has begun on an operetta, "Miss Cherry Blossom" which will be staged in a few weeks, and will be one of the most interesting things ever put on by the high school.

The art of making music and appreciating the highest form of music is one of the finest of arts. This Club is seeking to do this in W. H. S.

A HALF HOLIDAY TO BE GIVEN

A half holiday will be given the class in high school that makes the best average grades each month. This is creating greater interest in class work and each class thinks surely that the half holiday is theirs.

FOOTBALL VS NO FOOTBALL

Average of high school football boys:

No. of Boys, 25.
No. of courses, 107.
Average No. of courses, 4.28.
Average grades, 76.
No. days present, 19.74.
Average of high school boys that do not play football:
No. of boys, 50.
No. of courses, 208.
Average No. of courses, 4.16.
Average grades, 70.07.
No. days present, 19.48.

Compare these, two averages together and you can easily see that our football boys are not coming to school just to play football. This is a very good average for the first month and we expect to see it greatly improved next month, and the football boys are going to improve their part as well as the rest.

BROTHER CLARK SPEAKS IN CHAPEL

Bro. Clark pleased the student body Wednesday morning with a splendid talk on "Controlling the Tongue."

Bro. Clark always brings very practical addresses and his humanistic way of coming down to the students daily life has an especial appeal.

FRESHMAN CLASS ORGANIZED

The Freshman class organized Thursday with officers as follows:

Sponsor—Miss Ruth Jones.
President—Dell Barber.
Vice-President—Maggie Sue Key.
Secretary—Gladys Graham.

This class is the largest in school, having some 80 members. They are planning a big social event Halloween.

DRAMATIC CLUB TO BE ORGANIZED

A Dramatic Club, Sponsored by Miss Ruth Jones is to be organized next week. A large group of students have applied for membership. And a try-out is to be held to determine who is most capable of being a member.

A study of dramatic art with special emphasis on modern staging, blending of scenery to dramatic thought, practice work in one act plays, etc., will be the chief interest of this club. Under the efficient leading of Miss Jones, the club will be a very constructive thing.

SCHEDULE WITH COLEMAN CHANGED

The game with Coleman which was to be played last Friday has been changed to Nov. 11. The Coleman team did not arrive in time to play and coach Smith arranged so that we might play them Armistic Day. This will give the boys more time to practice and they will be in better condition to play.

JUNIORS GIVE INTERESTING PROGRAM

On Thursday morning, Oct. 8, at chapel period the Juniors gave one of the most interesting programs that has been given this year. Following is the program:

Song—Class.
Reading—"A Leap Year Leap," Dorothy Green.
Bass Solo—"Asleep in the Deep," Auburn Neely.
Piano Solo—Marjorie McAdams.
Duet—"In the Garden of Tomorrow," Marie Hill and Marie Griffis.
Reading—"John Anderson My Jo," Christine Barnett.

THE HONOR ROLL

The honor roll for the first month of school is rather small, but it is hoped that more students will attain a place in the roll next month.

In all his subjects before he can get in the honor roll. These making B or better this month are:

Bendena Spill.
Milburn Curry.
Elmo Low.
J. L. King.

It seems from this list that it remains to be proven that girls are smarter in the school room than boys.

O. and D. COUNCIL ORGANIZED

The O. and D. Council organized last Monday, under the supervision of Miss Myrtle Barber, faculty adviser. The following officers were elected:

Benton Neely, president; Truett Barber, vice-president; Marie Hill, Secretary; Christine Barnett, Corresponding Secretary and Perry Barber and Auburn Neely, Sargent at Arms. The club has at present ten members. A very likely number of try-outs for oratory and debating. The aim of the council is to produce debaters and declaimers, for the Interscholastic meet, and to produce a better quality of oratory among our high school pupils. The society will give a program in chapel every two weeks, which will consist of minor debates between the members of the club, original speeches and readings. Later in the year the O. and D. Council will sponsor inter-class debates, matching the Juniors and Seniors, Sophomores and Freshmen, and probably the Juniors and Sophomores.

Under the reliable supervision of Miss Myrtle Barber and Benton Neely and backed by the enthusiastic spirit of the pupils the oratorical and debating club hopes to do a great work this year.

MRS. RAMSELL FURNISHES MUSICAL CHAPEL

One of the most interesting chapels this year occurred this week when Mrs. Ruth Ramsell rendered a song program to the student body.

Mrs. Ramsell has a beautiful voice full of richness and volume. She renders her numbers with unusual feeling and personality. Her numbers Tuesday morning were:

Methodists to Give Barbecue Oct. 23

The Board of Stewards of the Methodist church will give a barbecue to all members of the congregation and their families Friday night, Oct. 23, 1925. Committees have been selected to secure the "yearlings" necessary, to arrange for the congregation, to barbecue the meat, and to serve it and the edibles which go with it. Every member of the congregation and all in the family are invited and expected to come. Provision is being made for a large attendance.

The Board of Stewards expect to be able to report all the budget for the year raised by that time. The Presiding Elder, Dr. A. D. Porter, will be with us and will hold the Fourth Quarterly Conference. When the business of the conference is over, the barbecue will be served and a good time is expected for all.

Mrs. B. F. Anthony has accepted a position with Norman-Smith Dry Goods Company and assumed her new duties the first of the week. Mrs. Anthony is well known to the trade in this territory and will be a valuable addition to the force. She invites her many friends to call on her when in town shopping.

Mrs. Ramsell was accompanied by Mrs. Owens, who was splendid in her place at the piano.

Have You Had Your Ride in the Better Buick

You may think you know Buick and Buick performance from having driven Buicks in the past. But you are destined to undergo a new motoring experience—you will discover a new Standard of Performance!

A performance wonderfully improved; 75 horsepower and more to meet the "go" in traffic and to take any hill in high. Engine dependability further insured by the three new seals for the famous Buick Scaled Chassis: air cleaner, gasoline filter, oil filter. Buick approved mechanical 4-wheel brakes for the constant protection of your family and yourself.

Thousands of people are taking rides in the Better Buick every day. If you haven't time to drop into the show room, a telephone call will bring one to your door.

WHEN BETTER AUTOMOBILES ARE BUILT, BUICK WILL BUILD THEM

DRASCO

Misses Katie Herrington and Beatrice Mitchell, students of Simmons University at Abilene, visited at Drasco Sunday.

Mrs. Henry Mitchell visited in Abilene Monday.

Methodist Women Missionary Society have changed their day of meeting to Wednesday.

The Baptist Women Missionary Society met Monday afternoon.

Prayermeeting at the Methodist church every Wednesday night. All are invited to attend. Miss Ruby Baker led Wednesday night.

Mr. Will Belew is visiting his daughter, Mrs. Will Parks at Pumphrey.

Henry Hamilton, Hugh Baker, E. D. Belew and J. A. Horn were transacting business in Bradshaw this week.

Mrs. H. O. Davis was in Winters Tuesday.

Owing to the Runnels county Fair being held at Ballinger, Miss Eula Key, Home Demonstrator will not meet October 12, but will meet October 26 with Mrs. A. B. Lee. Miss Key gives valuable instructions to the Girls' and Ladies Clubs.

Mr. J. G. Mayhew of near Lamesa is visiting his children, Mrs. Tom Harwood and Tom Mayhew.

Many friends of Mr. Carlton Dobbin will be glad to learn that he will soon return from the Baptist sanitarium at Abilene.

Mr. and Mrs. Boyce Gregory of Plainview now have a son. Mrs. Gregory, Nee Miss Marion Patterson, used to live at Drasco. Congratulations and best wishes to the young son.

Prof. J. C. Watts, Mr. and Mrs. Houston Puckett, Mrs. Richard Puckett are busy gathering the Drasco exhibit for the county fair. Tust that the exhibit will merit the prize, if so, the school will be helped.

Drasco's trustees are looking after her school's interests. A windmill will soon be erected and another room will be built for the teacherage.

Rev. Braxton filled his regular appointment Saturday night and Sunday.

Mrs. Preston Braxton will entertain the Junior Epworth League at her home Monday night.

J. A. Horn is to be on the petit jury in Abilene.

Mrs. Roy Crawford of Brownwood is visiting her parents, Mr. and Mrs. Julius Pace.

Mrs. Seaborn and children are visiting relatives at Denton, Texas.

Rev. John M. Riddell of Fort Worth will preach at the Baptist church next Sunday.

The Methodist quarterly conference will meet at Drasco on Saturday before fourth Sunday.

Farmers are busy gathering their crops.

1ST. CHRISTIAN CHURCH

All services at the Queen Theatre. Sunday school 9:45. Communion service 10:45.

Preaching by District Evangelist, J. J. Ray of Mason, Texas, 11 a. m. and 7:30 p. m.

Everyone is cordially invited to attend these services.

BILIOUSNESS

Retired Minister Tells How He Keeps in Good Form With the Assistance of Black-Draught.

West Graham, Va.—The Rev. Lewis Evans, a well-known retired minister, now past 80, living here, has a high opinion of Black-Draught, which he says he has taken when needed, for 25 years. "For years I had been suffering with my liver," he says. "Sometimes the pain would be very intense and my back would hurt all the time. Black-Draught was the first thing I found that would give me any relief."

"My liver has always been sluggish. Sometimes it gives me a lot of trouble. I have suffered a lot with it—pains in my side and back, and bad headache, caused from extreme biliousness."

"After I found Black-Draught, I would begin to take it as soon as I felt a spell coming on and it relieved the cause at once. I can recommend it to anybody suffering from liver trouble. A dose or two now and then keeps me in good form."

Made from selected medicinal roots and herbs, and containing no dangerous mineral drugs, Black-Draught is nature's own remedy for a tired, lazy liver. NC-166

J. W. Tanner Building Modern Veneer Home

The contract was let yesterday for the erection of a modern brick veneer home by J. W. Tanner on the lot that was formerly occupied by his old home on Lamar street. The old home is being moved to a lot north of East Dale.

This new home will be of latest brick veneer design and will have all the conveniences of this day incorporated. It is estimated by Mr. Tanner that it will cost between \$10,000 and \$15,000.

Herman Tyler of San Angelo was a business visitor in our city Monday.

Nicholson to Speak At Tinkle Park

We are requested to announce that Rev. Jim Nicholson, pastor of the Pumphrey Baptist church will answer Rev. Ladwig who lectured on Catholicism here sometime ago.

These rebuttal lectures will be at Tinkle Park Monday and Tuesday nights, Oct. 19 and 20.

We are informed that these lectures will be without prejudice and all catholics and catholic sympathizers are invited to be present, as well as everyone else.

Young Attends Delco Meeting at Fort Worth

Mr. John W. Young, who is located at San Angelo, and represents the Delco-Light and Frigidair Company in this territory, has just returned from Fort Worth where some thirty district dealers and salesmen of the Delco-Light and Frigidair Company attended a two days sales meeting at the Texas Hotel of that city, Monday and Tuesday, October 5th and 6th. Messrs. J. P. Gallo-way and J. A. Smith, Assistant Sales Managers of the factory at Dayton, Ohio, conducted the meeting, assisted by several men from P. M. Bratten Company of Fort Worth, distributors for West Texas.

Various sales matters pertaining to the company's line of electric light plants, electric pumps and electric refrigerators were discussed in detail. Some interesting announcements were made by the factory officials regarding the factory's plan for more than doubling their production of electric refrigerators, known as Frigidaire, for 1926, and also greatly increasing their production of lighting plants.

It was pointed out by Mr. Gallo-way that seldom, if ever, in the history of American business has one company held a dominating position in two separate and distinct lines of endeavor, yet he went on to say, this is exactly the position of the

AL WILSON in "THE CLOUD RIDER" At the Queen, Friday, Oct. 16

Delco-Light Company as they are now, and have been for several years, the leading manufacturer of individual electric lighting plants in the world, and they also hold the same position in the electric refrigerator field. It was pointed out that one of the main reasons why this was possible was on account of the vast resources and engineering ability of the General Motors Corporation, of whom the Delco-Light Company is an important subsidiary.

One of the important announcements made by P. M. Bratten Company was, that by January 1st, there would be no point in West Texas more than 50 miles from a factory trained expert on installation and service work.

Changing Spots

'Tis said that a leopard cannot change his spots. There is nothing strange about this for nature intended that he should be spotted. However, if we had anything to do with it, we could change those spots quickly and so it is with your clothes, if they are spotted or soiled we can change the spots.

Phone us and we will call in a very short time

How Lincoln Tried to Hold Texas In Union

Houston, Texas, Oct. 15.—A first hand story of how Abraham Lincoln attempted to hold Texas in the Union by offering Governor Sam Houston support of federal troops in Texas is told by Sam Houston Dixon, Houston author and publisher, Houston, who was not in favor of secession, rejected Lincoln's offer, however, stepped out of the Governor's chair when Lieutenant-Governor Lanham usurped it, and died in 1863 at Huntsville.

Mr. Dixon knew Judge John Hancock of Austin, the intermediary, who took Major Frederick W. Lander, President Lincoln's messenger to Governor Houston. He Austin, who was in close touch with events of that time, and from him got the facts which Mr. Dixon subsequently verified in a number of conversations about the episode.

Major Lander, it appears from Mr. Dixon's book, "Romance and Tragedy of Texas History," from which these excerpts are taken with Mr. Dixon's permission, appeared before Judge Hancock, a Union supporter, in guise of a buyer of horses and mules for the army.

Judge Hancock, however, somehow discerned that was not his real mission to Austin and motioned him to a rear room of his office, where Lander handed him a letter of identification. The latter apparently coincided with Judge Hancock's previous advice that a messenger would visit him and transmit important states secrets. Major Lander disclosed his mission which was the offering to Houston federal aid. Judge Hancock told Lander that Houston, "While he is doing every honorable thing to avoid a clash, I do not believe he will entertain for a moment Mr. Lincoln's proposition." However, he accompanied the messenger to Governor Houston's office, introduced him and stayed while the conference was in progress.

"It was a moment freighted with weighty concern and required in superable courage and unswerving fidelity, for there was at stake the destinies of a nation," Mr. Dixon writes. "A nervous tremor passed through Houston's frame. He finally cast his eyes downward for a

DRUGS AND JEWELRY

What You Want When You Want it

R. L. Stokes, of Childress was a visitor in Winters the past weekend.

A handsome little boy arrived at the home of Mr. and Mrs. D. R. Curry last Thursday morning and announced that he had come to stay. Mother and little son are doing nicely.

Mr. and Mrs. M. S. Patrick were visitors in Ballinger last Wednesday and attended the fair.

Mark Whiteaker, living on Route 1, was transacting business in Winters last Wednesday.

A coat of paint will help its looks.

Joe Moody of Georgetown, underwent an appendicitis operation at the local sanitarium last Thursday morning. The operation was quite successful and the patient doing as nicely as could be expected.

Dr. B. Kahn, optometrist of Ballinger, was unavoidably prevented from filling his engagement here last Saturday, but in a letter to this office states he will be here next Saturday, as usual.

The rush to Florida is one of the most amazing phenomena of the present year.

Every sheriff should be his own higher-up.

Mart Methodists to Occupy New Church

Mart, Tex., Oct. 9.—The new \$60,000 Methodist church of Mart will be occupied for the first time Sunday, November 8th, the date set by the officials of the church. Within seven months the entire program will have been accomplished. The financial campaign was completed the first week in April. The contract was let April 28th and the work will be finished this month. The building will be one of the most modern, substantial and attractive church buildings in the entire country. The building is of solid brick construction—69x110 feet, two stories and basement. It has an elastic seating capacity ranging from 550 to 1000 for church services. It has a complete "A" Standard Sunday School arrangement accomodating 750 pupils exclusive of main auditorium and balcony. The social room with stage facilities will seat 400 and as a dining room will accomodate 250. The building will be completely furnished including Hill-green Lane Pipe Organ. Elaborate preparations are being made for the first week in the new church.

Rev. P. T. Stanford is the pastor; Building Committee: W. L. Hillman, Chairman; H. E. Thomas, Secretary-Treasurer; J. I. Plemons, E. P. Littlepage, H. E. Nash, E. H. Heatley, A. S. Chadwell, E. M. Phillips, E. B. Drengoole, W. S. Mizell, J. Q. Wilson and J. H. Rogers.

Lutheran Church

Sunday, Oct. 18—

Sunday school 10 a. m. Our annual mission festival will be celebrated this Sunday. For this occasion we arranged the program as follows:
Morning service 11 a. m.
Evening Service 3 p. m.
English Service 7:30 p. m.
Dr. F. G. Roesuev of Austin, Texas, a noted divine in the Lutheran church and a brilliant speaker will occupy the pulpit in our services, Sunday.—Let's all try to be present, and let us have a real mission rally Sunday. Everybody is cordially invited to attend our services.—H. C. Wehmeyer, Pastor.

RUMMAGE SALE

A rummage sale will be given by the ladies of the Methodist church, Saturday, October 17, near Forbus Wagon Yard or on South Main. Send all articles to the church Friday and those who can't send them call Mrs. T. V. Jennings.

Mr. and Mrs. O. C. Williams spent Wednesday in Ballinger visiting friends and relatives and attended the Runnels county Fair.

Mr. Baxter and daughters, Mrs. Carson and Mrs. Hunter of Lamesa are guests in the home of Mr. and Mrs. B. F. Anthony. Mr. Baxter is a brother of Mrs. Anthony.

moment, as if deeply affected. Finally he arose, straightened his body as if for a great leap and said:

"I can never sanction an act that will cause the spilling of one drop of my country's blood. I feel that a fatal mistake is about to be made but right or wrong, I shall never betray them."

"Looking Lander squarely in the eye, Houston continued, 'I am not sure, major that I fully understand the proposition you have just submitted. My heart and mind were aflame. Will you kindly repeat it since I feel more composed.'"

Taking memoranda from his inside pocket, Major Lander in a low voice began to repeat the proposition he had been commissioned to make.

"I am authorized by the president," he proceeded, "to advise you that in the event you wish to resist removal from the office of governor or that the military authorities now in Texas will sustain you. An additional force will land on the Texas coast at Indianola if thought advisable, and declare a general blockade. The troops now in Texas will be placed at your disposal to enforce your authority."

"You have my answer and I do not care to add to it," Houston replied.

In response to Lander's urging, Houston finally sent a message to President Lincoln. Lander previously had said that he regretted going back to Washington without a message.

"Tell Mr. Lincoln," Houston said to Lander, "that if he wishes to bring a quick ending to the war and lessen bloodshed on both sides to take command immediately of the Mississippi River from head to mouth. This will force a quick compromise and result in saving many lives and much property."

Lander said if he succeeded in getting back to Washington he would deliver the message to the president in person. With this exchange of remarks, the incident closed, Lander and Judge Hancock leaving.

WELFARE WORKER VISITS HERE

Mrs. Belva Luitwieler, financial agent for the Texas Children's Home and Aid Society, headquarters at Fort Worth, a state-wide organization for orphan, neglected and dependent children, from infancy to 15 years of age, was here last week in the interest of her work.

This society, undenominational and was founded by Rev. I. Z. T. Morris, has cared for and sheltered children from every section of Texas. The Winters Chamber of Commerce endorses and commends this splendid work to the better people here.

Any applications for children, or anyone reporting children, who need aid can correspond with Mrs. Roy Stockwell, Supt. at 318 Cotton Exchange Bldg., Fort Worth, Texas.
