

A Tiny Spark CAUSES FIRES

A match, carelessly thrown aside may come in contact with an explosive and cause tremendous loss. Causes of explosion are often matters of negligence. Danger may be minimized with care.

First, secure reliable fire insurance if you do not have it. Then give some serious thought to Fire Prevention. This agency will cooperate with you. Call or phone.

PROHIBITION AS AN ISSUE

That prohibition will be less of a party issue than was expected, in the coming presidential campaign, is becoming more apparent as the wet and dry question is discussed by political leaders throughout the country. It is clear that if a party is called upon to take a definite stand upon the question that stand will have to be a dry one.

While the wet and dry question will receive much discussion in the next few months, the opposition to the amendment is not likely to grow strong enough to put prohibition in danger of repeal.

The United States as a "dry" country has been much too successful in its economic life for the voters to allow a return to the old standard, regardless of what their personal feelings may be.

WHEN THE COUNTING IS OVER

The politicians of today, who believe that silence on the part of the voters indicates agreement with what they offer in their campaign speeches, will experience some sharp awakenings when the counting is over. The younger set has a way of giving

respectful attention to much advice that they have no notion of following. The fact that a man is a United States senator or the governor of a state no longer awes the young minds, it even amuses them some times.

EVEN COWS HAVE RIGHTS

Personal liberty and even privacy are dead in this country. The limit has arrived, and if the cow were a mule she would make a kick. Pennsylvania State College scientists have placed a window in a live cow's stomach so they can watch the processes by which she manufactures vitamin B in her traveling laboratory.

A self-respecting cow with a window in her stomach, with no shades to pull down, seems to go the limit in open living. The embarrassment of it should sour her milk. But a cow is much like a taxpayer these days. Theirs not to make reply, theirs not to question why.

THE DOLLAR MARK

We teach our children that the chief end of an education is to prepare one's self to make money, and that the highest mark of a successful man is the dollar mark. Then we are surprised when they grow up to scheme and devise questionable ways for making money, become involved in get-rich-quick enterprises, wreck banks and land in the penitentiary. We condemn them for following the road on which we set them going. We ought to be patient with the man who loses the race because of a load which we bound on his back.

NEW KIND OF RECORD

The youth from Duluth who has set out to acquire 1,000 savings banks accounts in 1,000 different places

has a more useful ambition than he who seeks to eat the most oysters, drink the most coffee or sit the longest on a flagpole, but he must be making himself into a decided nuisance to a lot of bankers. One or two well-cultivated bank accounts would, in the end, be better for everybody concerned.

ALL HAVE ONE

Over 200,000 garages were built in this country last year. But no one is able to recall the erection of a single livery stable.

BIGGEST POTATO

Uncle Sam's Department of Agriculture tries to keep track of the wonders of soil production. There is a record of a potato that weighed 8 pounds and 2 ounces. Mayhap there have been larger ones, but this is the biggest yet reported. That should make a tuber vaster than Goliath's bean and would make a fair meal if the family was not too big or too hungry.

FAME A GREAT THING

Fame is a great thing. Some men get it by hopping across the ocean. Others secure fame by smoking a certain brand of cigarettes.

Who Was Drunk?

Dallas, November 17th.—A policeman's feverish effort to describe the alleged drunken condition of a man he had hailed into court caused the defendant to be dismissed by Judge Walter Branam in the local municipal court.

"Judge, he was so drunk he was tearing his hair," the patrolman testified.

When the defendant took the witness stand the court had to rap for order to quell the laughter. The man was so bald his head glistened.

Card of Thanks

To my relatives and friends: I wish to take this opportunity to express my heartfelt thanks and appreciation of the tender care and sympathy shown my dear father during his recent illness and death. May God bless you all.—Jewel Freeman.

Good luck to "Barney" Johnson as a manager.

Retirement from baseball leaves Ban Johnson a subject for the historians of sport and no longer a target for idle gossip.

Ruth Elder says she's going to try the same stunt again in the spring. Maybe by spring the stunt will be common.

DOGWOOD COAL

—costs slightly more per ton, but much less per season. It is conceded to be the finest coal mined.

By turning on draft you can get a quick fire. By turning it off you can hold fire 24 hours.

With ordinary coal you must keep draft open to prevent fire going out, which wastes coal.

A DOGWOOD FIRE CAN BE REGULATED TO SUIT WEATHER CONDITIONS, materially reducing amount of coal used. Save the difference.

DOGWOOD COAL is not only economical, but you get real satisfaction in burning it. No soot, clinker or unpleasant odor. Very little smoke or ashes.

When you burn DOGWOOD COAL you eliminate damage caused your health and home from impurities in ordinary coal.

Cheap coal usually proves very expensive in the end. Dogwood is THE IDEAL HOUSEHOLD FUEL.

Sport Gossip

Sport fans have their individual opinions about the different phases of athletics, but often the opinion of so-called experts is interesting reading. The following was compiled by United Press from the sports sheets of different papers of prominence:

At this particular moment if I were called on to pick an all-Southwestern backfield I would, without hesitation select Joel Hunt, A. & M., Gerald Mann, S. M. U., Pinky Alsabrooke, A. & M., and Redmund Hume of S. M. U. Alsabrooke, had Hunt been out of the Aggie-S. M. U. game, would have been hailed as a star. There is no question but that the Aggie backfield man is coming into his own. Mann is a far greater football player than he showed to be against the Aggies and you can't keep him off a conference team. Hume is unquestionably one of the finest ball carriers in the conference.—Andy Anderson in Houston Press.

Gene Tunney and Jack Dempsey will meet again, says Eddie Eagan, close friend of the champion. It's strange. Dempsey gets licked twice in the same way by the title-holder and then he gets still another whack at the crown right off the bat. If that rule held true in football, Cleburne would have played Oak Cliff high school for the 1826 championship again.—Harold V. Rathiff in Cleburne Times.

Every southwestern sport page you pick up is talking about Joel Hunt for All-American quarterback, and if everybody seems to so think he is going to get it; why shouldn't it be given him? Chances are that if the voices of the southwestern sport writers were considered the picking of this mythical team, the elite East would find them voting for so all-fired many from this section that others would not get the places they deserved on it.—Charlie Hall in the Amarillo News-Globe.

"Blackie" Williams, Horned Frog captain, probably will make the first all-conference team, as he is a great threat man. He is being used at quarter at T. C. U., but is a great fullback also. It looks as if the conference backfield will be composed of Mann, Hume, Hunt and Williams. Hunt will probably be acclaimed as the most valuable player in the conference.—Lester Jordan in Waxahachie Light.

Despite the annual attacks of critics on the great gridiron sport more people become crazy about the game and in turn the "crazier" the game becomes. Once upon a time dopsters could attain a certain degree of proficiency in doping the outcome of football games, but not so in this day and time. One week a sports writer will have a fair batting average and the next his average will

PEPPY WORKERS OPEN THEIR NEW CLUB ROOM

The Peppy Workers Club of Wingate had their first meeting in their club room on Wednesday, November 9th. They have fixed up the first floor of the Masonic building for a meeting place and we hope this will be the nucleus around which a real community center will grow in the future. Already a community fair is being talked about, and we know of nothing to prevent this place from staking such an event.

Fifteen members were present at the meeting last Wednesday. Five new members were enrolled. The county home demonstration agent, Mrs. Lura Hollingsworth, was right there to tell us all about the living room contest. After a thorough explanation of the score card, rules, etc., four or five members intimated their intentions of entering the contest.

The next meeting of the club will be held on November 23, at the hall, and the program for the day will be Christmas Gift suggestions. All are invited. After the business meeting delicious fruit punch and cakes were served.—Reporter.

Modern Schools Are Efficient

Austin, Texas, Nov. 11. (UP).—Modern schools are more efficient than those of the three "Rs" days, according to Dr. B. F. Pettinger, dean of the school of education of the University of Texas.

Children might have spelled tongue twisters better in those days, he admitted, but he contends they did not average as well as present day pupils in spelling the words in ordinary use. Modern teaching, said Dr. Pettinger, is directed at specific purposes, and grades learning accurately. He gives Texas best schools a ranking with the best of any state.

Your Fortune Is Told and Your Gypsy Is Gone

Did you ever have your fortune told by a drifting gypsy? They always tell you about the money you are to inherit in the near future or, if you are young and single, that you will be sure to win the one you are in love with, for they know that is what you like to hear.

Just now we have had some photograph people that have made the rounds with a tale of how beautiful your eyes are, and what a wonderful dress you have, and how lovely it would photograph. All they have met have had the same beautiful eyes, and were dressed in the same wonderful manner, and all have been handed the same wonderful line of bull, for which quite a few have fallen. I fear for your own sorrow in the future, for if you do not know how photographs are made and what process they go through to make them last for the future for which you have them made, for your friends and loved ones. If they are not kept in the proper chemicals for the proper length of time, and then all these chemicals properly taken out, they will, in the near future be as a flower—faded and gone.

Now, if you can't trade with your home man, who has been with you for years, paid taxes to help educate your children and your neighbor's children, ESPECIALLY in the photograph line, you will find, in the next town some man that has been in the photograph business to stay and has his name put on every folder that he delivers your work to you in. This will tell you where you got this work and if it should go to the bad you know where to go for recourse for which any man that is in business to stay will make amends.

But when you do business with the man who refuses to put his monogram on the work he delivers to you and takes your good hard-earned money from you, you may expect nothing in the future.

Just good old common horse sense: Would you buy an automobile, watch or anything else that the manufacturers refused to put their name on? The same thing will apply to photographs if you wish to get what you think you are buying.

Thanking my friends that have been far-sighted enough to see into this deal and refused to patronize the drifting merchant, who never contributes anything to your schools, or to anything else.

Yours Very Respectfully,

Texas Sport Dope

Fort Worth, Texas, Nov. 16. (UP)—Coach Charlie Bachman of the Kansas Aggies was discussing the merits of his assistant coaches during a stop between trains here.

"He knows his onions," Bachman declared, referring to the ability of Frank Rook, veteran Aggie line coach.

"He oughta," observed T. F. Sullivan, railway passenger agent, accompanying Bachman's squad, who overheard the remark. "Ain't he in an agricultural college?"

College Station, Texas, Nov. 16. (UP)—Additional stands are being erected on Kyle Field this week in anticipation of the largest crowd that ever witnessed the annual football clashes between Texas and Texas A. & M. The advance ticket sale indicates that 25,000 will witness the Thanksgiving Day struggle, according to James Sullivan, business manager. One railroad already has 12 special trains scheduled to bring throngs to the game.

Preceding the game the new stadium of the Aggies will be dedicated. It was at the Texas-A. & M. game at Austin last Thanksgiving that Texas dedicated its new stadium.

Abilene, Texas, Nov. 17. (UP)—The homecoming program at Sim-

mons University here Thanksgiving Day is expected to draw 3,000 former students of the school here in addition to the regular crowd that will come here for the annual gridiron clash between Simmons and Howard Payne College. Although both these schools are Baptist institutions, they have been gridiron rivals for many years. Simmons athletic officials are preparing to handle a crowd of 15,000 at the game.

Austin, Texas, Nov. 17. (UP)—Texas U will have the strongest tennis team in the Middle West next spring, according to Dr. D. A. Penick, tennis coach, who has started preparing his first string men for a strenuous season. Headed by Wilmer Allison, Austin, who won the national intercollegiate singles last season, the squad will be composed of veterans. Hugh Dunlap, Cleburne, Louis Ferguson, El Paso, David Minchen, Houston, George Cunningham, Austin, and Leon Ammann, Llano, are expected to be in top shape when the season opens.

Mexican Campaign Against Criminals

Brownsville, Texas, Nov. 17. (UP)—A country-wide campaign against criminals has been started in Mexico, with the announcement that all arrested in the future and convicted will be sent to the Maria Islands, corresponding to the notorious "Devil's Island," of France.

Inspector General of Police Roberto Cruz, in view of complaints that a crime wave was sweeping Mexico City, issued orders for the campaign. As fast as criminals are captured they are to be shipped to the islands. Five confessed murderers are in Mexico City now, according to reports here, awaiting the first convoy to the islands.

According to Mexican statistics, very few that have been sent to the Marias have ever returned. The islands form among the most desolate pieces of land on the Pacific coast.

Stay in there, dear Blizzards, Fight on and on until the end. Be fair, and square in every way, I know you're going to win.

Blue and White waves on forever, For our high school we will. You've got to win, dear Blizzards, The students are backing you still.

Stunt Night

Those who did not come to see our "stunts" last Thursday night just missed a whole lot of fun. The Sophomores and Juniors presented the first stunts, and were followed by the Seniors, who presented a very pretty stunt. They were dressed in the class colors, purple, white and lavender, and carried banners of the same colors. Last, and perhaps not least, came the Freshmen stunt which won the most votes and the hearty applause of all. We congratulate the Fish! The Seniors won second place and, in spite of the fact that they did not win first place, they're working just the same. Watch them lead "Ole Winters High!"

Examinations

Before school yesterday and this morning many students were seen in the various home rooms studying for exams, especially the Fish. After today the storm will be past, and more pep created for the game Friday afternoon.

Junior Stunt

Say, did you see the Wild West show Thursday night? It was the real thing; broncho busting, chaps, spurs and everything! The best stunt? Well, I should say! But it didn't win; merely an accident, though. Bennie Woodrow, the leading man, was a real dude until he turned cowboy, then he was just as good in that role. Evelyn Hartzog, the heart-thriller, played an excellent part as leading lady. Then the Ma and Pa (Ray Young and Helen Spill) were just the best yet. And last, but not least, that rip-roaring bunch of cowboys and girls made more noise than anyone up there.

If you did not see this stunt you missed a real show, for the Junior class is the best in the school.

O. G. C.'s Reorganize
Last week the O. G. C.'s met at Lavere Neely's home to reorganize. Although the O. G. C.'s have been very active already this year (their last in Winters High) they had not, previously, reorganized. We elected the following officers: Lavere Neely, president; Maurine Pumphrey, vice president; Mildred Spill, secretary; V. Marie Stephens, reporter; Ora Louise Jordan, poet;

Gladys Graham and Kathalene Lamberth, sergeants-at-arms.

So far, this year, we have had only one club social. Monday night, October 31, Ora Louise Jordan entertained the club and their gentleman friends in her home. We have, however, planned for a peppy year, this being our last, and we bid fair to become one of the most enthusiastic clubs in high school.

We have not as yet decided upon a regular time and place for meetings, because we are together so much of the time that single time and place would be out of the question.

We elected Mr. Baird as our faculty adviser and we think he will help us to pep up in the right way. He is to be our official chaperon and we are counting on many good times with his assistance and our cooperation.

We're a lively bunch and the best and only way to keep up with us is to watch the weekly reports. We're active every minute of every hour of every day of every week during the school year of '28.—Reporter.

Students' Association

The officers of the Students' Association met Tuesday and elected a chairman and secretary. Gaylord Singleton was elected chairman, and Mildred Boone secretary.

The Students' Association seems to be going over big, and we hope to make it the best in the state. We plan to make school more interesting and helpful by having good talks and programs in chapel. We can only do this by help from all the students. So please help us.—Reporter.

World Series is Background For Scenes in Film

Be kind to the small boy—he may be your boss some day! This is the moral pointed out by Mike Donlin, one of the greatest and most famous baseball players America has ever produced; for seven years manager and idol of the New York Giants.

Mike played a baseball player in "Slide, Kelly, Slide," Metro-Goldwyn-Bayer's big baseball spectacle, coming to the Queen Theatre Wednesday and Thursday. And the director, Edward Sedgwick, was a small boy once—whom Mike used to befriend during training season.

"In the old days when the Giants used to train in Texas," says Donlin, "a stout youth used to come and watch us. I took a fancy to the kid, Eddie Sedgwick, by name. A few years later we went back there, and Eddie was catcher and somewhat of a star on his college team; I even tried to get him to try out for the Giants—but he had the idea he wanted to go on the stage.

"Now he's my boss—directing me in a picture." Incidentally, Donlin says Sedgwick got two hits off Christy Mathewson when the Giants played a practice game with the University of Texas, which qualifies Sedgwick to direct a baseball play.

Mrs. W. P. Gardner Hostess to Wesleyan Daughters Class

The Wesleyan Daughters Sunday school class was delightfully entertained Wednesday afternoon, November 9th, by Mrs. W. P. Gardner at her pretty home.

The rooms were beautifully decorated with roses, chrysanthemums, and ferns. A splendid program was carried out followed by two very clever contests and games which caused quite a bit of amusement.

The hostess assisted by Mesdames Denton and Pace served a two-course menu consisting of chicken salad, potato chips, olives, sandwiches and angel food cake and brick cream to Mesdames A. D. Lee, Fred Tinkle, R. I. Collinworth, S. H. Nance, Walter Neely, J. R. Jackson, J. M. Skaggs, W. L. Pratt, J. W. Pierce, W. F. Latham, Gid. J. Bryan, Rodgers and Fisher.

Ray Krauss Celebrated Thirteenth Birthday

It was a gay time for little Miss Ray Krauss on last Friday, November 11th, when she entertained her little friends with a party from four to six, at the home of her parents. Mr. and Mrs. A. Krauss, celebrating her thirteenth birthday.

Games of various kinds were enjoyed until the refreshment hour, when the children marched into the dining room in military formation, and after Ray had given thanks unto the Lord for peace in our country, the candles were lighted and wishes were made for the future happiness of the little hostess.

Mrs. Krauss was assisted by Mrs. Walko of Abilene in serving refreshments of sandwiches, hot chocolate, and cake to forty-two children. The birthday cake was cut and as each child was served wishes of various kinds were made.

Visitors from out of town were Mr. and Mrs. Walko and baby, Mrs. Lando and three children of Abilene.

Literary and Service Club Meets in Regular Session

The monthly business and study meeting of the Literary and Service Club was held on Thursday afternoon at the home of Mrs. Harris Mullin. Due to the illness of Mrs. A. H. Smith

the leader for the afternoon, Mrs. R. T. Thornton, Jr., conducted the program which consisted of the study of the poems, "Tray" and "How They Brought the Good News from Ghent to Aix," by Robert Browning. Interesting papers were read on "The Story of 'Tray', Bringing Out Browning's View on Vivisection," by Mrs. Marshall Chapman; "Discussion of Action as Shown in the Two Poems," by Mrs. W. E. Hickman; and "Browning's Method of Holding Interest as Indicated by Each of the Poems," by Mrs. L. R. Gaston. These were followed by round table discussions.

At the close of the program the hostess, assisted by Mrs. R. H. Hensler, served sandwiches, olives, potato chips, and dainty pecan cookies with hot tea, to the following members: Mesdames F. J. Brophy, Marshall Chapman, L. R. Gaston, W. E. Hickman, L. E. Low, Will Pace, J. H. Rhoden, E. A. Shepperd, J. M. Skaggs, R. T. Thornton, Jr., Hal F. Smith, Floyd Smith, and Misses Frances Carr and Loyle Korngay.

Girls' Club Enjoyed Picnic

The L. T. B. Farmers' Column

By R. E. HOMANN

Feeding the Hen For Production

Eggs at 40 cents, hens not laying, what shall I do? is a question that is popular in the mind of the man keeping the average flock under ordinary farm conditions. Here is a tip:

There are four kinds of feed a hen must have before she will produce eggs. 1—Grain feeds; 2—Mash feeds; 3—Green feeds, and 4—Water. Regularity in feeding, proper care, generally speaking, and culling, place a hen on the credit side of the record. Hens need exercise. This should be provided by scattering the grain in the litter of straw or corn shucks. Mash kept constantly before hens means maximum production, for hens will never overeat on mash. A heavy feeding of grain should be given at night, this gives ample time for digestion, and this is the time that the egg for tomorrow's lay is being formed. A feeding of sprouted oats or green oats should be given between early morning and noon. Water is a good disease preventative, and water pans should be washed out daily and disinfected with a good coal tar dip or other solution each two weeks, or more often. The following qualities should be considered in feeds: 1, cost; 2, availability; 3, digestibility; 4, palatability; 5, nutritive value; 6, bulk or coarseness. Watch this column next week for ration for production. For information on any agricultural subject see your Vocational Agricultural teacher at high school building.

Sports Clothes Again Win Popularity

COME BACK, BUT IN MORE ALLURING STYLES THAN EVER BEFORE—TWEED GAINS FAVOR

BY HARRIET

SPORTS clothes have been sublimated in this femininely smart season.

First they completely lost the love women have had for them for two seasons. Women simply dropped them like the proverbial hot cakes for the new, intriguingly "different" daytime clothes.

Sports clothes took their defeat philosophically. They waited, and then they spruced up, and reappeared in much more alluring form than before. Now, it seems they have reached the 9th degree of sublimation. If women won't give them their whole-hearted love—if women prefer printed velvets and ostrich tips for daytime wear—why sports clothes still prove themselves indispensable!

Some of them have reached heights of chic that sports clothes never dreamed of, a season or two ago. They have lost their careless nonchalance. They grow more formal, more careful, and much more sophisticated and charming.

Tweed ensembles, with sweaters of matching color and pattern but developed in the soft angora weave, have increasing importance in the wardrobe of the woman who cares.

Sometimes fur lends an added note of real elegance to such a costume—a touch of formality that the old one or two-piece jersey sports outfit would never even have given a thought.

Again they take a tweed cue to finish a two-piece tweed jersey dress. Such a one has a novelty green tweed cape coming almost to hip-line, lined with a lighter green jersey to match the blouse of the two-piece model underneath.

The sports outfit shown today may be worn under the new winter coat, or alone if the weather allows. It presses three materials into use—tweed, tweed-patterned jersey and real angora jersey.

The color is the softest russet shade, softened with a rich taupe fleck. The skirt is of tweed in these shades, fashioned with a

yoke and box pleats down both the front and back. It has a perfectly tailored sweater coat made of the jersey that looks exactly like the tweed it complements.

The blouse gives tone and color to the outfit, for it has stripes running around to form a yoke and up and down for the waist portion, of the softest of angora wools. It has a crew neck and a smart little tailored belt of self-

material with a russet colored suede belt. Shoes of calf and suede accent the russet shade, as does the hat. The neckpiece is of a rich brown fur.

Two smart hats are also pictured. The hat shown to the right is of soft pink felt, strictly tailored. To the left, below, is pictured a pattern-stitched velvet toque that goes well with many costumes.

Save Wisely Spend Wisely

You make your money and you can spend it as you please. But when you spend, spend wisely. The person who spends \$100.00 just because his neighbor spends \$99.00 is spending unwisely. A mighty good plan to follow is MAKE SOME, spend some and SAVE SOME.

No government, even our own, will make a person prosperous who spends all he earns.

Those who gather nothing in youth will have the same amount later on.

Many ways to earn money; lots of ways to spend it; but one sure way to have money, and that is to SAVE it.

The same business judgment we use successfully in the affairs of this bank is at all times available to its customers for use in their affairs.

DRASCO

The Drasco public school opened November 7th with a large number of patrons, pupils and visitors present. The faculty for this term is composed of Prof. J. C. Watts, Prof. Fred Davidson, Miss Ila Walker, and Miss Ruth Wooten. Rev. E. D. Dunlap, the Baptist pastor, made a splendid talk to those assembled. Many of the patrons expressed their desire to have the best school Drasco has ever had. Enrolled are a number of pupils from Bluff Creek, Baldwin, Bradshaw, Moro and Crews.

Very glad to know that Miss Opal Baker, a graduate of the Drasco school last year, is now a freshman at McMurry College, and making fine grades.

Rev. E. W. Swearingen was a visitor to Ballinger Monday.

Mesdames Perry and Byron Wood, Mr. and Mrs. Tom Mayhew and Shelby Horn were in Winters this week.

The Methodist Missionary Society with the Baptist W. M. U. enjoyed an all-day prayer service at the Methodist church last week.

Prayer meeting at the Methodist church was much enjoyed. All are cordially invited to attend every Wednesday night.

Miss Opal Baker and Buel Belew who are students at McMurry college spent the week end with their parents here.

Mr. and Mrs. J. B. Belew are rejoicing over the arrival of a new daughter. She is Miss Ida Geraldine. Congratulations and best wishes.

Ira Raley will live on the J. A. Yates farm next year.

Dr. John Barron of Wingate made a business trip to Drasco last week.

Mr. and Mrs. Enoch Phipps have returned from a trip to relatives at Clyde, Texas.

Miss Minnie Daniels will represent the Intermediate B. Y. P. U. at the convention to be held at San Antonio.

Miss Elva Massengale, a student of Simmons University at Abilene, spent the week end with her parents, Mr. and Mrs. T. P. Massengale.

Miss Ethel Cook, a teacher of the Pumphrey school, visited her parents here last week.

Mr. and Mrs. Sidney Lewallen and children of Abilene, are visiting with friends here.

Mr. and Mrs. Walter Smith visited in Winters this week.

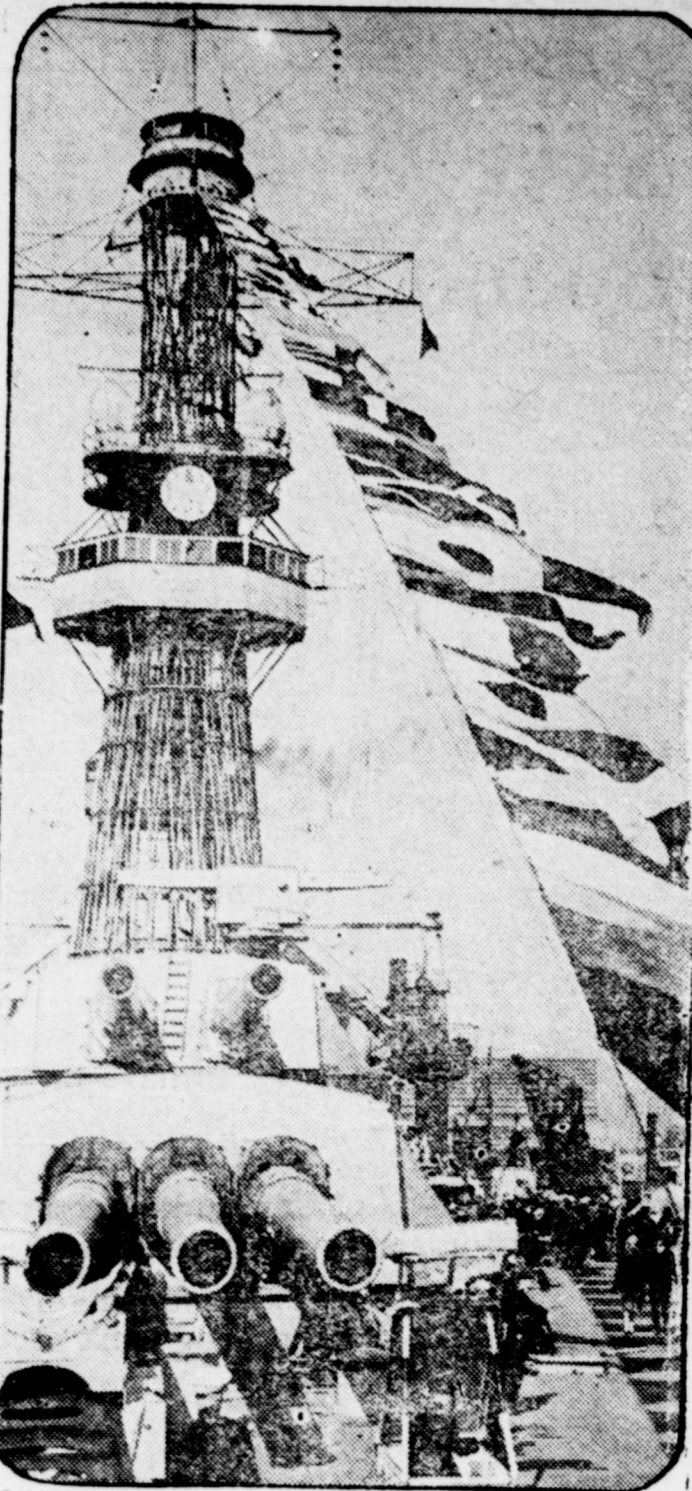

Rev. E. W. Swearingen filled his regular appointment at the Methodist church Saturday night and Sunday. This was his last appointment before the annual conference which meets at Fort Worth. It is earnestly hoped that this good, noble Christian minister will be returned to the Drasco church. It can be said of Rev. Swearingen that he "went about doing good."

Mr. and Mrs. R. Stafford and children, Ina Mae, Pauline and Ruth, will visit relatives at Denton.

Sorry to report that Lucille and Mary Hudson are sick.

State's Expenses Over 7 Millions During October

Austin, Texas, Nov. 12. (UP) — Texas paid out \$7,403,114 last month it was shown by the monthly report of State Treasurer W. Gregory Hatcher, but still has more than \$6,000,000 cash on hand.

A single fund of the 45 kept by the treasurer is overdrawn. That is the Confederate pension fund. It is \$229,801 "in the red," but will be replenished as the annual payment of taxes gets under way.

The general revenue fund has a net balance of \$948,288; highways, \$4,100,000; special game fund has \$400,000; University building fund, \$127,000; permanent school fund, \$400,000, and available school fund more than \$300,000.

The state text book fund will be overdrawn if all of the \$203,517 outstanding warrants come in before the fund is replenished. It now stands at \$81,861.

New Transmission Available for Chevrolet Trucks

In order to enlarge the field of service of the trucks manufactured by the Chevrolet Motor Company, Sidney Corbett, manager of the commercial car division, today announced that a four speed transmission is now available for all Chevrolet one-ton types.

This new transmission, Mr. Corbett said, will provide 107 per cent greater application of engine power than the regularly equipped three-speed transmission, and is particularly adapted to such work as pulling out of plowed fields, sand pits, and similar heavy duty service. Provision also is made in it, Mr. Corbett said, for a power take-off so that the power from the engine may be applied to various devices such as hydraulic hoist, pressure units for sprayers, pumps, etc.

"Gear reductions in the three higher speeds of the transmission," he said, "are approximately the same as in the standard three-speed trans-

mission, the extra fourth speed providing a reduction 107 per cent greater than in the standard transmission. The new type operates and shifts the same as the standard, except for an auxiliary attachment to the shift lever which throws the 4th speed into gear.

"The new product was developed by Chevrolet engineers and perfected on General Motors proving grounds. It is available through the Chevrolet dealer organization at a cost of \$65 installed."

First Annual Meet of South Texas C. of C. Success

Brownsville, Texas, Nov. 14. (UP)—Attended by nearly 12,000 south Texans, the first annual convention of the South Texas Chamber of Commerce, which opened here Monday was the largest assemblage ever held in this part of the state.

Amid blares of band music, hundreds of additional delegates arrived on each incoming train. Many others came by automobile. The band con-

test attracted nearly a score of bands from south Texas cities.

A feature of the two-day celebration was the formal opening of passenger service over the Southern Pacific railroad here. The railroad will have Brownsville as the southern terminus of its line.

The saving of fuel means more money for the Christmas shopping campaign.

Church is never over until the last song is sung, nor Sunday till the last automobile accident has happened.

Well, since fall has arrived we can look back and say we had a delightful summer.

When going after new business do not forget the two best ways of securing it, viz, advertising and courtesy.

EFFICIENT, CONVENIENT METHODS ARE ALWAYS CHEAPER IN THE END

Foods cost more than fuel. Electric cookery eliminates the excessive shrinkage of meats always present with other methods. The perfect control of cooking time and temperature prevents the frequent waste of foods from undercooking or burning.

COOKS WITH STORED HEAT

The use of stored heat both in the surface units and in the insulated oven makes it necessary to use electric current during only a part of the actual cooking time.

Safety=

ALWAYS A VITAL CONSIDERATION

Just think for a moment how much it would mean to you to be forever free from the constant, ageing fear of fire from an overheated kitchen range or from live coals or hot ashes, from matches, from an unexpected flame; to be free from worry over the ever-present possibility of escaping gas, or of an oven explosion—particularly if you have small children.

The Hotpoint Electric Range lifts all these fears—it is perfectly safe.

Blizzards Beat Heavy Roscoe Team 6 to 0

Tackling a team with more pep and punch than any they have yet encountered the Blizzards reeled one of the most thrilling victories of the season on Armistice Day when they nosed out the huskies from Roscoe High by the margin of one touchdown, which came in the third period.

Roscoe won the toss and choose to defend the south goal, this being a decided advantage in their favor as a 30-mile gale was blowing from the north, making it impossible to pass or punt with any accuracy or hope of distance. From the start the spectators knew the Blizzards were in for the battle of their life, and their line was pierced time after time for decided gains until Roscoe reached the ten-yard marker, and every one groaned. A count for the visitors looked like a cinch. On the second play, however, they fumbled and Winters recovered the ball. Good judgment in playing against the wind kept the ball away from the danger zone during the first and second quarters of play, and when the first gun sounded both teams were scoreless.

The third quarter was hardly started when Roscoe began to weaken, and Winters got in striking distance twice, during the period, only to let the ball go over. On the fifty yard line Winters signalled for a pass and Fuzz heaved the oval to Hardegree who carried it to the 13-yard line before he was downed. The play was duplicated over left end with Singleton on the receiving end, who ran for a touchdown and what proved to be the only marker of the game.

After watching the Blizzards battle these huskies, the fans will journey to Ballinger tomorrow with hopes high, for the home boys uncorked a reserve strength that many did not believe they had. The most hopeful sign of all is the fact that they are always in position to take advantage of the breaks of the game, which in itself is no small part. One thing is sure the spirit of fight—clean fight—which the Blizzards are displaying should merit the encouragement of every fan's presence in Ballinger tomorrow to cheer them on.
