## ROGER BABSON SAYS

### "Dulles and Herter Have Different Backgrounds; Work To Same Goal"

Bapson Park, Mass. —John Foster Dulles is a man of the highest character and a great student of law; in fact, he has been Senior Partner of the finest law firm in New York City, Sullivan, Cromwell, of which I have long had the honor of being a client.

Christian A. Herter is also a man of the highest possible character and a great student of history. He had been a most efficient Governor of Massachusetts, in which state I am proud to be a voter.

What History Teaches  
 We know that an able jurist like Mr. Dulles expects nations and individuals to carry out their agreements, and for this policy he has given his life. Mr. Herter expects history and events to repeat their actions, and upon this he bases his recommendations. Although he has always gone along with the "team" of which he was a member, he fearlessly states his belief. Mr. Dulles has referred to Russian agreements as "the crust of a pie to be broken," while Mr. Herter has learned from history that progress has sometimes come even from broken agreements.

History shows that from the earliest days of Babylon, Phoenicia,

Persia, Egypt, Greece, Rome, France and England, the "underdog" has eventually won. As a result, the world has been better and legitimate investors have been safer. I recently returned from Africa where the natives are emerging from years of suppression, and where Democracy is fighting Colonialism. The same situation exists today in China, India, the East Indies, and perhaps the people of Russia are likewise awakening. I do not know Russia, although I have been to Europe many times. I do not believe in Communism, but probably Khrushchev and other Russian leaders do not believe in Communism either. They, however, have probably learned that a such talk gives them followers and power.

History teaches that conflict has always existed between the "Haves" and the "Have nots." Progress has been initiated by the "Haves," but possessions have usually undermined the generations following. Suppression has resulted in revolt, from which the "Haves" have temporarily suffered but in the end have been better off. This certainly true of our poor farmers who fought the British in our Revolutionary War. It was an underlying

factor in our Civil War. Mr. Herter could show that a similar relationship applied in World War I and World War II.

### What Should We Do Now?

I have great respect for President Eisenhower and believe that we and the entire world are very fortunate to have him for our President. He, however, has been trained as an army officer to give orders and expect them to be carried out. I wonder how much study he has given to history? I believe in the present military policies of our government and the billions which are being spent on missiles and anti-missile missiles, atomic submarines, and other weapons. In fact, I have just returned from a visit to Cape Canaveral, where I was greatly impressed by the organization of loyal officers, scientists, and workers under the leadership of one of our greatest living generals, General Donald N. Yates. On the other hand, I wondered whether a World War III would be between the people of the United States and the people of Russia or only between our political leaders and those of Russia. Do we represent the "Haves" and the Russians the "Have nots"? I don't believe the people of either country want communism; they believe in their hearts that it would work or last.

I repeat that Secretary Herter will play with the "Team," but I believe his advice will be more liberally based upon history than has been Mr. Dulles' advice. I feel that Mr. Herter will ask the Team if it might not be better for us to give some of our foreign aid to the Russian people if they need food before this cold war is over. Mr. Herter, with his first name "Christian," cannot forget the struggling masses of all nations while we have millions of tons of food wasting in storage.

I do not know the answer! My purpose today is merely to beg my friends, the "Haves," not to criticize Mr. Herter if he approaches the problem in a different way than did Mr. Dulles. If history repeats itself, we, the "Haves," and our children might be better off, even as investors, by being content with less ourselves while doing more for the "Have nots." Again I say: "I do not know."

**AT THE STATE THEATRE**  
 Saturday "Lone Ranger and The Lost City of Gold,"  
 Sunday, Monday, Tuesday "Tokyo After Dark,"  
 Thursday and Friday "Auntie Mame,"  
 "Two Headed Spy"

**AT THE FIESTA DRIVE-IN**  
 Saturday and Sunday "Hot Car Girl," "Tunnel of Love"

### "The Lone Ranger and the Lost City of Gold"

The Lone Ranger, who started his entertainment-law enforcement career on radio back in 1933, then became a television pioneer in 1949, makes this his biggest year ever, in commemoration of the 25th Silver Anniversary of "The Lone Ranger" show.

This is the year the famed masked lawman will be seen on the screen of thousands of movie houses all over the nation in the Jack Wrather Production, "The Lone Ranger and the Lost City of Gold," a full-length feature film in Eastman color. The picture opens Saturday only at the State Theatre through United Artists release.

### "Tokyo After Dark"

East is East and West is West... and in Paramount's exciting melodrama, "Tokyo After Dark," due Saturday only at the State Theatre, the two attempt to meet, with highly dramatic results.

The film tells of the love affair between an American G.I. and a beautiful Japanese singer and what happens when the soldier is accused of the murder of a Japanese boy. Michi Kobi plays the singer, Richard Long the G. I. Others in the cast are Lawrence Dobkin, Paul Dubov and Teru Shimada.

### "Auntie Mame"

"Auntie Mame," the comedy hit of the generation, comes to the State Theatre screen on Sunday Monday and Tuesday with Rosalind Russell starring in the title role and repeating the fabulous success she scored in 508 performances on the Broadway stage.

Co-starring with Miss Russell in the Warner Bros. picturization of the famed best-selling novel and hit play are Forrest Tucker, Coral Browne and Fred Clark. Technirama-Technicolor production was directed by Morton DaCosta, director of the original New York stage play which starred Miss Russell.

### "The Two-Headed Spy"

"The Two-Headed Spy," Columbia Pictures' startling story of a British espionage agent who spent 25 years working his way up to the rank of German general, stars Jack Hawkins and Gia Scala at the State Theatre. Erik Schumann, Alexander Knox and Felix Aylmer are featured.

Hawkins, who emblazoned his name on screens throughout the world with his performance in the Academy Award-winning "The Bridge on the River Kwai," plays the British intelligence officer who insinuates himself into the confidence of the German High Command and even becomes Hitler's favorite general. When the head of the British spy ring, Aylmer is caught by the Nazis, Hawkins works with a beautiful radio sing-

er, Miss Scala. Through an intricate musical code, which is sent out on the air every time she sings over the German radio, Hawkins continues his reports.

### "The Tunnel of Love"

"The Tunnel of Love," the comedy about love in the suburbs sometimes described as a bedtime story for grownups, has been made into a motion picture, following its long-run success in New York and on the road, and will open Saturday and Sunday at the Fiesta Drive-In Theatre. Doris Day and Richard Widmark play the suburban couple whose determination to have an heir brings hilarious if almost catastrophic results.

There are two opportunities for Doris Day to sing in the production: a title song, "Have Lips, Will Kiss in the Tunnel of Love," and "Run Away, Skidaddle Skidoo." She and Richard Widmark offer a surprise in their new comedy roles as Augie and Isolde Poole, a couple with a charming, reconverted barn in the suburbs but no baby in the bassinets.

Having exhausted other possibilities, they seek to adopt a child, which brings Gia Scala into the picture as the representative of an adoption home. To prove her worthiness, Isolde even dons her Girl Guide uniform, while Augie throws caution to the winds in his attempts to pose as an acceptable father. When the little stranger finally arrives, things get stranger and stranger—the baby looks like a replica of his adopted father.

There is plenty of saucy and sophisticated entertainment in the final unwinding of this complicated domestic mix-up. At the ending, everyone is happy—and audiences have had a full quota of hearty laughter.

### Former Resident of Winters Died Monday In Temple Hospital

Stanley E. Tinkle, former resident of Winters and a nephew of the late Dr. Fred Tinkle, pioneer local physician, died in a Temple Hospital Monday night. He had been in ill health for several years.

Mr. Tinkle, a prominent early day landowner in this section of Runnels County, still retained several farms near Winters.

Surviving are his wife, the former Veda Meek and one daughter; his father, G. P. Tinkle of Nesbitt, Mississippi; a sister, Gladys Tinkle of California; a half brother, Jerry Tinkle and a half sister, Major Evelyn Tinkle, a nurse in the U. S. Service.

Life has been rewarding to me, and to most, if not all, of my friends.

### Pat Patterson Nominated For NCTE Award

Pat Patterson, second place State Winner in Ready Writing and a junior in Winters High School, has been nominated for the annual Achievement Awards program, sponsored by the National Council of Teachers of English (NCTE).

In its second year, the Awards program is being conducted throughout the nation to grant recognition to outstanding high school seniors for excellence in English. The writing ability and literary awareness of each nominee will be judged by local state committees. The winners will be announced in January, 1960, by the NCTE, and the names of the Awards winners will be sent to every U. S. college and university with the recommendation that these students be considered for scholarship assistance.

According to J. N. Hook, NCTE Executive Secretary, the Awards program was initiated last year in response to President Eisenhower's statement that America needs its Emersons as well as its Einsteins. "There were more than 2,000 nominees for the first awards," said Hook, "and we expect about 5,000 for this second round."

"The quality of the writing submitted by last year's winners and runners-up was very high," Hook asserted. "It constitutes a positive answer to statements that American youth cannot write effectively. These students, and thousands more, are learning to use the language with precision and vividness."

Founded in 1911, the NCTE is a professional, not-for-profit organization of teachers of English at all levels. Currently the circulation of the Council's five professional publications is over 51,000.

### WASHINGTON NEWSLETTER—

### Opposed Labor Dept. Wage and Housing Regs

By Congressman O. C. Fisher

Outcome of Labor Department regulations, proposed by Secretary of Labor Mitchell, remain in doubt, with indications that if put into effect they will be overhauled and watered down. A rumor that the proposed regulations are to be scrapped was denied last week when I asked the Department about it.

Mounting opposition from all over the country to the Secretary's effort to impose minimum wages,

housing standards, and other controls never authorized by Congress has been effective thus far, with the ultimate outcome still uncertain.

Two months ago I joined with 40 other Congressmen in a protest march on the Labor Department, where I and three or four other spokesmen for the group aired our objections to Secretary Mitchell. Secretary of Agriculture reportedly was displeased by the Labor Department plans, and Vice President Nixon was said to be dubious. Thus the White House got into the picture, and final action may depend upon what the President thinks about it. In the meantime, the Attorney General is considering the legality of the regulations as drafted.

Will Puerto Rico become the 51st state? A plebiscite on that island's future relationship to the U. S., to be held soon, will sound out voter sentiment there on (1) independence, (2) continued Commonwealth status, or (3) statehood. Regardless of the outcome, the Congress will have the last word. As it is, Puerto Rico enjoys a bonanza—no federal income taxes to pay and unlimited emigration to the states. Under those special privileges upwards of a million Puerto Ricans have come to the U. S. since World War II while many U. S. industries have moved there to prosper under the island's tax-exemption program. Last year 91 manufacturing companies decided to establish plants in Puerto Rico. Personally, I prefer independence for Puerto Rico, with mil-

itary bases reserved. But if the islanders go after statehood they may get it in view of the precedents recently established.
