Talk

By R. C. THOMAS

Another summer has just about boiled down—and we mean literally—and fall and school will be on us before we quite realize what has happened. The highways are beginning to dump their vacation traffic back into the cities. And the next few days will see an increase in the tempo of living, what with getting the kids ready for school, and the older ones ready to return to college.

Here's just a note for those returning to college: we'd like for you to notify us about your plans, the college you'll attend, etc. We can get the information on those who will attend college for the first time, but the upper-classes have stepped out of the circle, so to speak, and are beginning to drift away.

Winters received the second bale of cotton of the season Thursday morning. C. L. Chapman brought in a bale to Glenn's Gin. It's still a little early, but cotton picking will pick up within the next few days. There are predictions of a very good crop this year, and evidence seems to back up those guesses, and hopes. We saw some cotton this week out in the Dale community which was literally loaded down—looked like at least three-quarter bale stalks to us. Many of the stalks we checked on the Henry Vogler place had as many as 15-20 bolls, and they seemed big.

We haven't noticed any appreciable difference in the transient farm labor movement, but that should come within a few days, when the bolls start opening fast.

The maize crop is about in the barn. There have been 117 carloads of grain shipped from the Winters siding and much more has been trucked out. Counting that which has been moved out by truck, estimates place production for Winters well over 200 carloads so far.

Just read that the Echo satellite, which is now in orbit around the earth and serving as a "central" for experimental telephone calls, is being slowly forced back into the atmosphere, where it will eventually burn up. The scientists say a force comparable to the weight of a fly is forcing the Echo down. Sounds incredible, but we know of other such irresistible forces: such as a stern look from a 98-pound woman can force a 200-pound man out of a lawn chair and back to the business end of a lawn mower.

Watching the 1960 Winters Blizzards work out and listening to the loud pop of leather against leather can give a person cold chills. Those kids are pretty well protected, though, with heavy helmets and face guards, and heavy guards all over. Quite a contrast to the equipment used, or possibly misused, a couple or three decades ago. Thinking back on teams of former years, we sometimes wonder how anyone ever came out alive in some of those football matches or mismatches. Equipment was light, and many a "star" added to his prestige by refusing to wear headgear, or maybe shoulder pads.

There were some top-sided scores in some of those games back there, too. Just recently re-read some of the statistics on games played by the team representing our old school, Spur. Seems that the Spur team of 1930 scored 748 points, but lost 4 games out of 15. They scored 186-0 against Lorenzo; 142-0 against Estelino; 91-0 against Post; whipped Hardin-Simmons freshmen 40-12; got licked by Texas Tech varsity 72-6. Winters back in those days had some shock troops, too. We've heard of one game in which Winters had its opponent on the ropes about 90-0, and the other team had the ball. Signals were called for one of the backs to run with the ball, and he pleaded, "Please, not this time. I ran with it the last time."

Beginning Band Pupils Receive Notification

All fifth grade pupils who passed the music aptitude test last May will receive notification concerning the organization of the new beginners band program Band Director Robert Gans said this week.

Letters are being mailed to each pupil, with important information on organization, eligibility, and instruments. Gans said that organization will be done on the first day of school, and all pupils should have their instruments by the end of the first full week of school, Sept. 9.

Most of the prospective beginning bandsters took tests in May. However, Gans said, if there are any who have not taken the test, they are asked to contact him as soon as possible. The band director laid much importance on the selection of band instruments. Each year, he said, parents look for instruments for their children, and some wind up with used or second hand instruments. There is nothing wrong with this practice, he pointed out, if the parents insist that the instruments be completely overhauled and sterilized. "To buy a used instrument without having it worked over is like throwing money away," he said.

Gans said the Winters music department recommends the rental plan for beginners. Under this plan, a pupil rents a brand new instrument for a period of 60 days, he said. During that time both the parents and the director can tell whether the child is going to do well in band. If it is decided that the child cannot do the work or does not want to continue, all that is lost is the small rental fee. In the event the child wants to continue, the rental fee is deducted from the price of the instrument, and the balance may be paid in monthly installments.

Gans pointed out that it makes no difference where an instrument is purchased. However, he stressed that parents consult with the music department prior to purchasing an instrument.

Drasco To Hold Homecoming On September Fifth

The second Drasco Homecoming will be held at the Abilene State Park, 5 miles West of Buffalo Gap on Sept. 5, Labor day. The president of the club, Mrs. P. F. Lail was very optimistic at the interest shown by friends and relatives over the forthcoming meeting. Mrs. Lail relates she expects a much larger crowd this year, as more invitations have been mailed. Several more newspapers, radio stations and television channels are carrying announcements.

Those who plan to attend are invited to come early. Signs will direct motorists to the location at the picnic grounds.

"Bring your cameras and have fun with your old friends," Mrs. Lail stated.

First Game Near; Blizzards Are Toughening Up

With only a little more than a week before the first football game of the season, Coach L. G. Wilson's blue-helmeted Winters High School Blizzards are being honed to sharper edges in the second week of tough summer training. The first game will be against Lakeview there Saturday, Sept. 3.

Wilson has been running the squad through two practice sessions daily the past two weeks, but will taper off to one a day next week in preparation for the season opener. During this second week of summer training, freshmen and B teamers have been working out.

The Blizzards will face some other teams in scrimmage prior to the end of the training season. They had a go against Eastland in Abilene Tuesday, scrimmaging for about an hour and a half and tripping over for five TDs for Eastland's two. Battling Eastland, they started slow, and ended fast and sharp. Top condition was laid to the strenuous training they have been receiving the past several days.

Coach Wilson says there are still many rough edges to be worked off, and much to be done before the team takes to the field, but as a whole the squad is shaping up with promise.

After their initial tour against Lakeview, the Blizzards will host a game against Anson here Sept. 9, and against Brady here Sept. 16.

The team was treated to a watermelon feed by the Winters Boosters Monday night. The feed also was for members of the high school band.

Dobbins, chairman; Mrs. Carl Gottschalk, Mrs. Marion Hays, and Miss Patti McDaniel, all of Runnels County. Runnels Water Group Named By County Judge

County Judge W. H. Rampy this week named the steering committee which will study the water problem in Runnels County, and make recommendations for solutions.

Named to the committee were Mayor Harvey D. Jones of Winters, Earl Barr, Ballinger, C. T. Parker, County Agent, Dr. L. C. Renken, mayor of Miles.

The group will gather information on a county-wide basis, and then contact congressmen and others who would be influential in solving the water problem in Runnels County. At a recent meeting in Ballinger, at which most of the communities of the county were represented, the county judge was authorized to name the five-man committee.

High on the list of subjects to be studied are a possible dam and storage area on the Colorado River, the dwindling supply of water in some parts of the county, and salt pollution of the major streams in the county, and additional water supplies for all parts of the county.

Judge Rampy said he will call a meeting of the steering committee within a few days.

Coming Attractions At Local Movies

"Raymie"

Fresh from his recent dramatic triumph in "Dog Of Flanders," David Ladd, youthful Hollywood star, is said to even eclipse his portrayal of the Dutch boy in that picture in his newest film "Raymie," opening Saturday only at the State Theatre.

A. C. Lyles, who produced "Raymie" for Allied Artists, and Frank McDonald, who directed it, provide human interest drama packed with entertainment for every member of the family.

The story tells of a small boy, son of a widowed mother, who lives in a Pacific coast fishing village and believes in the reality of Old Moe, a legendary giant barracuda and seeks a chance to prove its reality. The climax comes unexpectedly when Old Moe makes a sudden appearance near the fishing pier.

Sharing starring honors with David Ladd are John Agar, Julie Adams, Charles Winninger and Richard Arlen. Featured roles are handled by Frank Ferguson, Ray Kellogg, John Damler and Jester Hairston.

"Libel"

Olivia de Havilland, two-time Academy Award winner, and Dirk Bogarde, England's top film personality, are the stars of "Libel," a film version of the London and Broadway stage success. A Comet Production filmed in England, the picture is released by Metro-Goldwyn-Mayer.

Bogarde, last seen with Leslie Caron in "The Doctor's Dilemma" plays a remarkable dual-role in "Libel," a drama of mounting suspense and emotional intensity climaxed by a sensational courtroom trial.

This trial takes place when Sir Mark Loddon sues for libel after a newspaper has published a letter in which the handsome, young British Baronet has been pointed out as an impostor. The letter was written by Jeff Buckenham, one of three British prisoners of war who had escaped from Germany. His fellow prisoners were Mark and Frank Welney, a small-time actor with an uncanny resemblance to Mark. Dirk Bogarde plays both these roles.

"Sergeant Rutledge"

Jeffrey Hunter's consummate artistry makes him that rarest of film land specimens—a director's delight.

Soft-spoken, smiling-eyed, never given to singing his own praises, the brilliant young actor recently inherited one of Hollywood's assignments.

From among more than a dozen rival candidates he was named for the top role, with Constance Towers and Billie Burke, in Warn-

er Bros Technicolor adventure drama, "Sergeant Rutledge," opening Sunday and Monday at the Fiesta Drive-In Theatre.

The important casting decision was made by one of filmland's most perspicacious and distinguished mentors—John Ford, responsible for creating some of the screen's greatest entertainment triumphs.

"Sayonara" starring Marlon

Brando in the motion picture presentation of one of the most poignant love stories of our time, opens Tuesday and Wednesday at the Fiesta Drive In Theatre.

RECEIVES MASTERS

Charles James (Buddy) Fornes, son of Mr. and Mrs. Cliff Fornes, former residents of Winters, received his Masters Degree at McMurry College Thursday night. Fornes is teaching in the schools at Seminole.

Three Big Features Tied In With Texas State Fair

Three big special features will tie in with the Diamond Jubilee Exposition theme at the 1960 State Fair of Texas, October 8-23. The Fair is celebrating its 75th anniversary this year.

They are the "Diamond Lagoon" the "Jubilee Torchlight Parade" and the "Lagoon Band Concerts." The Diamond Lagoon will be a glittering array of sparkling fountains and scenic lighting effects that will make a nocturnal beauty spot out of the lagoon bounded by the civic center buildings at State Fair Park—the Fine Arts and Natural History Museums and the Aquarium.

The Jubilee Torchlight Parade will be a nightly event at the 1960 Fair. It is described as an illuminated panorama of the past 75 years and a "colorful throwback to the torchlight parades of America's yesteryears."

The Lagoon Band Concerts will be presented each day at twilight, featuring an outstanding military band. The free concerts will be presented in the Bandshell, which is adjacent to the lagoon.

Rex Allen, the "Mister Cow-

boy" of western movie fame, will be featured at three performances of the Quarter horse show during the 1960 State Fair of Texas.

Allen will appear with his famous horse, "KoKo," on the evenings of October 14 and 15 and at the matinee on October 16.

The cowboy star has made 32 feature-length films for Republic studios and has also appeared in an "adult western" television series of his own, "Frontier Doctor," for which he received a top TV award.

An accomplished horseman, Allen has appeared at rodeos throughout the country in exhibitions of his riding skill. He is noted for his fabulous wardrobe of western wear, which includes \$150 elkskin hats, some 68 pairs of \$75 boots and 40 suits of clothes costing \$750 each.

Roger Babson Says

Nixon and Kennedy Should Visit Cuba; U. S. Sitting On Top of Volcano

Babson Park, Mass. There are several "volcanoes" throughout the world which may explode at any time. My travels to Berlin last year taught me that the situation there could be the most serious. The one nearest home, however, is Cuba. Both Mr. Nixon and Mr. Kennedy should visit Cuba at once.

Cuba a Close Neighbor
While I am at Babson Park, Florida, during the winter, the Webber College students often fly over to Havana as a part of their vacations. Cuba has seemed only a "stone's throw" from any portion of Florida. Cuba is a vital factor—for good or evil to the Florida East Coast, with its fifty great hotels extending north and south from Miami. I am not afraid of Florida's importing any Communism from Cuba, as the Florida people are very conservative. I seriously fear, however, that Russia may get a foothold in Cuba.

Could we afford to let Russia get a base in Cuba for submarines and launching pads for missiles, or, on the other hand, could we now afford to go to war with Russia to prevent such gradual occupation? I leave this to Richard Nixon and John Kennedy to decide after their visit to Havana. I further advise them to consult with Governor Nelson Rockefeller who is one of our best-posted men on Latin America.

Cuba and Latin America
I have visited all the countries of Central and South America. Not only are many of these people ruled by dictators, but they are very sensitive, like most Spanish people. At heart, they would like to have us keep Russia out of Cuba and even straighten out affairs in Cuba. Some of these Latin American dictators, however, might resent such an attitude on the part of the United States and make us appear more enemies than friends.

We now hear much about the Monroe Doctrine, which was announced to the world over a hundred years ago by President Monroe—namely, that we would not allow any European nation to get a new foothold in any Latin American country. I believe that the American people would stand for a reassertion of this Monroe Doctrine, but I wish the Latin American countries would ask us to do so. The entire situation is very ticklish. It should be one of the first things for the presidential candidates to consider seriously. The November election may turn upon Cuba. I speak with authority because I was an early supporter of the Pan American Union.

U. S. Cuban Investments
Considerable U. S. money is invested in Cuba. This includes certain railway and traction properties, the Cuban telephone company, and many mercantile businesses. Several thousand American families have been living in Cuba, depending upon the protection offered by its closeness to the United States. Many of these families, directly or indirectly, contributed to Fidel Castro in his revolution against Batista. Now the women and children are fast leaving Cuba, and the men are undecided what to do. Much depends upon the health of Fidel Castro and what will be the real attitude of his brother in case the brother becomes Prime Minister. This can only be ascertained by waiting and watching.

The Largest American investments are in the sugar lands, which, of necessity, must be operated either by large corporations or by the Cuban Government. It would be sheer nonsense to divide up these lands among small Cuban holders. Whether President

USDA Plans New Research On Screwworms

While some scientists are trying to send a rocket to the moon, others are trying to rid the Southwest of one of its worst livestock pests . . . the screwworm.

The USDA has announced that new research on means of eradicating the screwworm will begin soon at Kerrville. This is the same USDA station that was responsible for much of the basic research that led to the sterility technique used successfully against the screwworm in the Southeast.

One of the main projects of the USDA's entomologists will be to develop better methods of rearing screwworms, and also to find ways to produce strains of the insect better suited to sterilization by radiation. Another important aim of the Kerrville research is to learn more about the nutritional requirements of screwworm larvae so that an improved, inexpensive rearing medium may be developed. Project scientists will also seek new methods by which flies can be irradiated with minimum effect on their life processes.

In announcing the new project, the USDA reported that Dr. Raymond C. Bushland would head the researchers.

Eisenhower is handling this sugar situation properly by retaliation, I do not know. Such an action greatly helps the sugar producing companies outside of Cuba, as well as our own beet-sugar companies. One of the largest amounts of Cuban sugar lands owned by U. S. investors is that held by the United Fruit Company, which has 90,000 stockholders in the United States. The stock of the United Fruit Company—which I believe to be good—is selling close to its

lowest levels of the past two decades, although I understand that only 5 per cent of its earnings have recently come from Cuba. Russia wants to get Cuba as she is in great need of tropical land and warm-water bases, but she will not go to a nuclear war to get Cuba.

One of the mysteries of life is how some people manage to think so much of themselves.

Laws and commandments, in the minds of many people, were made to guide other people.

Book learning is not all of education, but it is an essential part, and there is no substitute.

"Lame Duck" Representatives Can't Serve On Interim Committees

By VERN SANFORD
Texas Press Association
Election year upheavals plus Texas' "lame duck law" are play-

ing havoc with the work of interim legislative committees.
Atty. Gen. Will Wilson ruled that, except in special cases, in-

terim committee members not re-elected to the Legislature may not continue to serve on the committees. This brings a shake-up in the membership of a number of study groups now in the midst of their work.
Biggest change will be in the make-up of the House General Investigating Committee which has been asked to look into several politically touchy questions. Going off the five-member committee are the chairman, Rep. H. J. Blanchard of Lubbock, and Reps. Joe Burkett of Kerrville and Carl Conley of Ramondville.
Nine other legislative committees lost one or more members who either did not run again or were defeated.
Not affected were members of the Commission on State and Local Tax Policy. Attorney General noted that this group was set up under a law which specifically provided its members should serve a two-year term.
Also continuing to serve, whether re-elected or not, will be those members of the Legislative Council and Legislative Budget Board who—like the Speaker of the House—are members because of the jobs they hold.
In the appointment of committees on which "lame ducks" may not continue to serve, next year's speaker and lieutenant governor face a problem. Only way to prevent vacancies would be to second-guess the political future of each appointee.

TEC HITS CHEATERS
Texas Employment commission has filed complaints against some 100 persons accused of drawing unemployment compensation pay while actually working.
As a result of a widespread investigation, TEC has filed several score suits against persons it declared were receiving benefits and salaries at the same time.
Some of the defendants have already been tried, fined and ordered to repay the money received from TEC. Most of the cases involve workers in Houston and Brownsville.
Law provides that workers who lose their jobs through no fault of their own and cannot get other jobs may receive \$28 a week for up to 26 weeks, while unemployed. Violators can receive up to a \$50 fine and 30-day jail sentence.
LAWBREAKING ON INCREASE
Department of Public Safety report shows that one of the fastest growing statistics in Texas is the number of major crimes committed—up 10.3 per cent for the first half of 1960.
For the first six months of this year DPS estimates 96,681 major crimes were committed in Texas, compared to 87,679 for the same period in 1959.
One of the brighter spots in the report is that murders and homicides decreased by 15.1 per cent. Burglaries, however, rose 19.2 per cent.
Biggest crime increase was in urban areas—up 12.5 per cent. In rural sections the rate was down a little—less than one per cent.
VACCINATIONS URGED
Texas is one of the safer states as far as paralytic polio is concerned, but it's seventh in the nation in number of whooping cough cases, ninth in diphtheria and scarlet fever.

All these rates could be cut, said a State Health Department spokesman, if there were fewer people who can't be bothered with getting protective shots.
Late August and September are the usual season for polio epidemics, the Department warned.

GOOD PASTURAGE
Texas range conditions showed a bigger mid-summer improvement this year than in any summer for 37 years, reports the U.S. Dept. of Agriculture.
Range conditions usually grow less favorable from July to August in Texas, but this year they got substantially better.
Though some areas of the state were reported very dry, 85 per cent was rated 12 points above the 10-year average.

SHORT SNORTS
Parents of children who will enter school for the first time this fall are urged to get the children's birth certificates immediately. State Health Department noted that requests pile up at school opening time and can delay the child's entrance into school. . . . Texas' general revenue fund went \$6,000,000 deeper into the red last month. The brought the fund's deficit up to \$59,061,860.

YOUTH CRIME RISE SEEN
Juvenile delinquency in Texas will get worse before it gets better, the Texas Youth Council director predicted.
Dr. James Turman presented to the Legislative Budget Board the Council's request for an appropriation of \$4,235,470 for the coming biennium. This is an increase over the present two-year allocation of \$3,487, 442.
A part of this increase is to build for future needs. Turman noted that the Gatesville Training School for Boys had 403 boys in 1950 compared to its present average of 1,300. He predicted an average population of 1,790 during the coming two years and 2,959 by the end of the sixties.
Turman also urged the setting up of a system of paid parole supervisors "to keep some of these kids from coming back." He said that some of the boys had been to Gatesville as many as five times and that up to one-third were repeaters.

**Sept. 3 Deadline
For Women's Dept.
State Fair Entries**

Registration sheets for competition in the Women's Department of the 1960 State Fair of Texas should be returned not later than September 3, according to Mrs. Leah Jarrett, director of the Women's Department.

Mrs. Jarrett explained that the registration forms were necessary in order to allocate ample space in the Women's Building for the many exhibits and in handling the flood of individual entries.

Exhibitors can register for competition in the various divisions under art, designer-craftsman, hand-painted china, leathercraft, miscellaneous arts, needlework and sewing, foods, antiques, and hobby collections. Leathercraft, a completely new division this year is open for both original leather articles and for items made from kits.

Actual items entered for competition and display must be received in the Women's Department Sept. 24-28. Out-of-town packages should be sent, prepaid, to: Mrs. Leah Jarrett, Women's Department, State Fair of Texas, Dallas 26, Texas.

Garments for the special Clothing Contest must be in Sept. 12-16 and "shutter-bugs" entering the Photographic Contest should have their entries in by Sept. 2. Other areas of competition include a Women's Hat-Making Contest Oct. 14, Cake Baking Contest Oct. 19, and the Yeast Baking Contest Oct. 14.

Contestants are not required to pay an entry fee, but all articles must be entered by only one individual. Checks, which will be paid according to the Premium List, will be mailed within three weeks after the Fair closes. Winners in the 783 classifications on the Women's Premium List will be offered a total of \$10,448.50, the largest amount in the department's history.

The annual Sewing Fashion Festival, a special feature of the Women's Department, will stage free fashion shows throughout the Fair at 2 and 4 p.m. daily during the week and on Saturdays and Sundays at 2, 4, and 7 p.m.

Both the women's premium list and registration sheets are available upon request.

San Angelo. The girls will be judged on three main points, namely, appearance, poise and personality for this is an honest-to-goodness Queen contest designed for the purpose of giving beautiful farm and ranch girls recognition and it is anticipated that through the institution of this contest that more farm and ranch girls, and other young people may become better acquainted with the principles of the Farm Bureau organization.

The winner of the district will receive an expense paid trip to the State convention to be held in November in Dallas where the state winner will receive \$500.00 toward her expenses to the National Convention to be held in Denver, Colo. in December.

The state theatre can accommodate a large crowd and the directors as well as membership of Runnels County extend a personal invitation to the citizens of Runnels county, and the members of Runnels County, Farm Bureau a blanket invitation to join the Runnels County Farm Bureau in making the 1960 District Contest a real success by having a large crowd from all over the district to congratulate and extend a welcoming hand to the new 1960 District VII queen who will be a real credit to each of the counties at the state contest.
