## Talk

By R. C. THOMAS

Winters residents will be given a chance to make an investment in the future within the next few days. The Girl Scouts and the Boy Scouts will kick-off their campaigns to raise operating funds, with the Girl Scouts beginning Oct. 3 and the Boy Scouts on Oct. 11.

The Texas State Teachers Association has issued a pamphlet telling parents of children entering school for the first time how they can be of help to their offspring. We thought some of the tips were worth mentioning:

Teach your child the safest way to school. Teach him to go directly home from school without loitering on the way. Remind him not to go with strangers. Give your child definite duties at home and see that he performs them. See that your child gets enough sleep. Teach your child to have confidence in his teacher. Expect your child to respect the property rights of others. Have an interest in what he has to tell you about his work and play at school. Help him learn habits of promptness, obedience, and respect for authority. See that your child has an opportunity to have good books read to him. As parents, take an interest in the school your child is attending.

After viewing the "great debate" of the two presidential candidates Monday night, our friend down the street says the public should be granted equal time for rebuttal.

Henry Vogler remembers some long discussions with his father regarding Henry's use of glass nest eggs for target practice. At one time, after most of the nest eggs had disappeared, they got another dozen to scatter in the nests. These, too, soon disappeared, and Henry says he was hard put to explain their absence. Finally, he said he and his father were walking in the pasture one day and found a snake skeleton wrapped around a post, and in the skeleton were the glass nest eggs. The snake had raided the henhouse, and unable to digest the glass, had wrapped itself around the post in an effort to crush the eggs.

Most of the people we've talked with have already made up their minds regarding the presidential election. We have been unable to find one voter who was swayed one way or another by the "great debate" of Monday night. We did talk to one voter who exclaimed, "Didn't (his candidate) make a good presentation. He looks like a president!" Which leaves only room for one observation: In most people's eyes a horse makes a prettier picture than a mule, but those with experience seem always to pick mules for mountain climbing.

In our football game predictions last week, we were again 50 per cent right. We're not stymied yet—we pick 'em this way for this week:

- TCU over Arkansas.
- Baylor over LSU.
- Oregon State over Houston.
- Oklahoma over Pittsburgh.
- Tulane over Rice.
- Texas Tech over Texas.
- Texas A. and M. over Trinity.
- New Mex. U. over Tex. Western.
- Tulsa over Hardin-Simmons.
- Air Force over Stanford.

**Ginned to Date:**

## 2559 Bales

Up to Wednesday noon, gins in Winters had ginned 2559 bales from the 1960 cotton crop.

**BULB SACKERS:** The Rev. Ray Elliott, pastor of the First Methodist Church, and the Rev. Leslie Ellison, pastor of the First Presbyterian Church, seem to be surrounded by mountains of light bulbs as they sack bulbs in preparation for the annual Lions Club light bulb sale. The sale begins Tuesday, Oct. 4, and will continue thru out the rest of next week. All proceeds from the sale of light bulbs will be used by the Winters Lions in their projects of working with crippled children, the blind and furnishing glasses to those who need them. ## Blizzards Travel Friday For Game With Hamlin

The Winters High School Blizzards, with a 2-2 season record, will attempt re-entry into the winning columns Friday night when they take on Hamlin's Pied Pipers at Hamlin.

Coach L. G. Wilson's Blizzards will be tackling a state-ranked team with a 4-0 record, somewhat hampered by a few injuries. Out of this game will be Joel Butts, with a broken collar bone, and possibly Rodney Butts, with an injured hand.

In pre-district play, the Blizzards have beaten Lakeview and Anson, and lost to Brady and Albany. The Pied Pipers have whipped Merkel, Rotan, Cisco, and Roscoe. They have piled up 154 points this season, a near 39-point per game average. Winters still is ranked third in district standings, with 57 points to opponents' 65.

Around the district circuit, Cisco meets De Leon, Ranger meets Dublin; Ballinger plays Comanche; and Coleman takes on Haskell.

Probable starters on offense Friday night will be A. L. Mitchell and Kenneth Crowe, E; John Jackson and Donald Clanton, T; Tommy Webb and James Williams, G; Kerwin Knapp, C; Caskey, QB; William Grissom, FB; Tommy Young, LH; Vernon Poe, RH.

Probable defense starters will be Caskey and Young, HB; William Grissom and Steve Grissom, Bruce Waggoner, linebackers; Crowe and Mitchell, E; Knapp and Webb, T; Williams and John Jackson, G.

## State Fair of Texas Presents Diamond Jubilee Edition

The 1960 State Fair of Texas will present its giant Diamond Jubilee Exposition in Dallas Oct. 8-23 in celebration of the 75th anniversary year of this, the largest fair in the land.

The Diamond Jubilee will feature great theatrical attractions such as "Flower Drum Song" and "Ice Capades," livestock events like the Pan-American Livestock Exposition and State Fair Horse Shows, exhibit features that include the Texas International Trade Fair and Southwestern Automotive Exposition, and an entertainment "Shower of Stars."

The Rodgers and Hammerstein musical, "Flower Drum Song," will be presented nightly with matinees Saturdays, Sundays and Wednesdays. "Ice Capades" will be seen nightly except Sundays, with a schedule of matinees Saturdays, Sundays and Oct. 12.

## Girl Scout Fund Drive Begins Monday, Oct. 3

The Winters Girl Scout Fund Drive, under the direction of H. C. Satterwhite, has scheduled a kick-off coffee Monday, Oct. 3, at 9 a. m. at the Scout Hut. Mr. Satterwhite, finance chairman, announced that all workers had been selected and work on the drive will begin Monday morning following the coffee.

Mr. Satterwhite stated that Girl Scouting is built on the philosophy underlying democracy. Helping others, giving service whenever and wherever it is needed, working with the group toward a common goal, developing qualities of leadership and learning to work under another's leadership, all this is packed into the Girl Scout program.

The Girl Scout program is available to all girls between the ages of seven and seventeen. There are three program levels in Girl Scouting—Brownie Scouts for girls 7-10; Intermediate Scouts for girls 10-14; and Senior Scouts for girls 14-17. The program is geared to the age, interest, and experience of the girls. There is opportunity in Girl Scouting to progress from simple projects carried out by Brownie Scouts to ranks and badges of Intermediate Scouts; to Service Aide and Trail Blazer programs of Senior Scouts. Throughout the entire program, girls are learning by doing. They are guided by adults specifically trained for Girl Scout leadership. No adult serves in the Girl Scout organization without opportunity for special training to qualify her to help girls of this age to attain the most from her Girl Scout experience.

At all age levels, Girl Scouts have opportunity for camping. Girl Scout style is done in three kinds of settings: troop camping is done by one troop and its leaders who plan and carry out their own camp for one night or longer; day camping is done when different troops camp together during the day; and established camping is done on a permanent site with staff and facilities provided by a Girl Scout Council.

The Winters Girl Scout Association is under the supervision of the Heart of Texas Girl Scout Council. Being a member of the council entitles the Winters Association to direct services in the way of professional training and guidance, training courses, workshops, conferences, etc., in addition to services provided by the council office.

The council also provides and safeguards a program of camping, from simplified outdoor activities to established and highly skilled pioneer camping. Through the council, all adult and girl members have the opportunity to participate in Council, National, and International events.

The Girl Scouts' moral code, with its emphasis on honesty, integrity, alertness, understanding and compassion for others, is a pattern that can hardly be improved. If much of our future lies in the hands of women fortified by such training, equipped with such skills and stimulated by such interests and motives, our community faces bright years ahead.

## Winters FFA Hosts Welding School

The Aircro Reduction Mobile Demonstration Unit and the Abilene Welding Supply Co., of Abilene, gave a demonstration in different areas of welding at the Vocational Agriculture building Tuesday at 7:30 p. m. This demonstration was sponsored by the Winters FFA chapter.

The demonstration unit contained an AC - DC Bumblebee 400 Amps Welding machine enabling a demonstration on bellwelding manual and semi-automatic applications of aluminum and steel; also an automatic DC fillerarc rectifier which makes possible high speed manual or semi-automatic welding using CO<sub>2</sub> gas coverage for welding of steel, and a midget semi-automatic unit for welding of aluminum using the consumable wiring process.

Other equipment demonstrated were the Aircro 2000 series injector-type natural gas, propane, and city gas cutting torch, which has a new and different torch with the fuel being pre-mixed; an Aircro Spot Welder, which spot fuses metal, and is run by an AC engine Driven Welder and Weld - Power Combination 200 amps welder for light field and maintenance work; and the AC MSM Busybee 180 amps welder for light utility duty.

## New Supermarket On East Tinkle St. Opened This Week

Winters' newest commercial enterprise, the Cashway Food Store, this week opened for business in their new building on East Tinkle Street.

Joe May, formerly of Hermleigh, is the owner of the new business.

The new building is 60x90 with a brick and glass front and concrete block sides and back. A big parking lot surrounds the store for the convenience of customers. The building is equipped with refrigerated air conditioning, and new equipment has been installed in the store.

May is a former school teacher and farmer. He is married, and has two children. Mrs. May is a teacher in the home economics department of Winters schools.

## Hopewell Church Sets Homecoming Oct. 9

Annual homecoming of the Hopewell Baptist Church has been announced for Sunday, October 9. Former residents of the community and old friends are expected for the all day meeting.

Services begin at 10 o'clock and a basket lunch will be served at noon.

**OUTSTANDING BLIZZARDS** — These three Blizzards distinguished themselves in play against Albany last Friday night. In the scoring system used by Coach L. G. Wilson, James Williams and Kerwin Knapp had an effective blocking score of 60 per cent. Bruce Waggoner and Williams tied in the tackle department, with 10 each.

## Horse Show Slated Here Saturday

### Winters Schools Will Dismiss at 2:30 Friday, Sept. 30

The Winters Schools will dismiss at 2:30 p. m. on Friday, September 30, in order to send buses to Hamlin. The earlier time will be used for this game and also for the Ranger game. Buses will leave for Hamlin from high school at 4 p. m. — with a thirty minute stop in Abilene at the Dixie Pig at 5:15.

### Winters Lions Told Of SAC's Ability To Stop Commies

The Winters Lions Club Tuesday was told that the Strategic Air Command of the U. S. Air Force acts as a deterrent to war, or, if the enemy were to ignore our capabilities, as a force to deal a devastating blow in retaliation if we were attacked.

Lt. Col. M. V. Engstrom, 341st Bomb Wing, Dyess Air Force Base, spoke to the Lions Club on the Communist threat to the United States.

Using slides to emphasize his remarks, Col. Engstrom stressed the fact that up to now our radar warning system was for enemy aircraft only; it could not detect the approach of enemy missiles. Now we have such a device, the Ballistic Missile Early Warning System (BMEWS).

This device could alert the United States within about 15 minutes, depending on the speed of the missile. We have such systems in Greenland and Alaska and other bases will follow, he said.

Col. Engstrom explained some of the "tools of the trade," which is kept in readiness by SAC. He also told of new developments in the field of manned aircraft and missiles. He told the Lions Club that the Strategic Air Command at the present time is on a stand-by alert with one-third strength ready to go on 15-minute notice.

Col. Engstrom explained the functions of the North American Defense Command's headquarters post in Colorado Springs, Colo., where a constant alert is maintained to detect any possible invasion of the continent by enemy aircraft or missiles. This headquarters is in perpetual contact with all SAC bases, using direct telephone facilities, teletype and side band radio.

### Winters - C. City Game Reserved Seats Ready Wed.

The Winters school business office has 161 reserved seat tickets available for the Winters-Colorado City football game scheduled for Friday night, October 7. These tickets will be on sale Wednesday, October 5, at the school office. Football fans who purchased their season tickets without the general admission tickets may purchase the general admission tickets in advance to avoid standing in line on game night.

The Winters-Colorado City game will begin at 8 p. m. at Blizzard Field.

**IN NEELY HOME**

Mr. and Mrs. Fred Hillman of Boerne spent the week end visiting in the home of Mr. and Mrs. Gattis Neely.

The Quarter Horse Show, set for Saturday and sponsored by the Winters Junior Chamber of Commerce, promises to be one of the outstanding horse shows of the region, according to James West, president of the sponsoring organization. Many entries have been received for the several different classes in the show.

In addition to the Quarter Horse Show, to be held at the Lazy "N" Stables, the Jaycees are planning a barbecue, to be held at the show grounds. West announced that the Jaycees are inviting everyone to attend the barbecue, which will be from 11 a. m. until 1:30 to give businessmen a chance to come down and eat barbecue. There will be no admission charge for the horse show, but there is a charge for the barbecue. Tickets may be obtained from members of the Jaycees, or on the grounds.

Sponsors expect from 125 to 250 horses to be entered in the show. Showing of the different classes will begin at 9 a. m.

The quarter horse show, the first to be held here, is under the sanction of the West Texas Quarter Horse Association and the American Quarter Horse Association. All horses entered in the show will be registered quarter horses.

Bob Ballinger of Midland, well-known in quarter horse show circles, will be the judge, and Don Smith, Talpa, president of the West Texas Quarter Horse Association, is assisting the Winters Jaycees in the production of the show. Welton Minzenmayer is chairman of the show committee.

Events in the show will include five classes of mares, five classes of stallions, one class for geldings, cutting contests, roping and western pleasure classes.

Trophies will be awarded in the halter classes, belt buckles awarded in cutting, roping and western classes, and ribbons in all classes.

The Winters Jaycees are planning to make the quarter horse show an annual event, West said.

## Girl Scout Leaders Begin Training Course Oct. 4

Leadership training for all Girl Scout leaders and assistant leaders will begin Tuesday, October 4, at the Scout House in Ballinger beginning promptly at 9 a. m. Mrs. R. A. Hoyle, executive director of the Heart of Texas Girl Scout Council, will be instructor for the training.

The Girl Scout Leadership Course consists of three training sessions, a total of sixteen hours. Sessions will be rotated between Ballinger, Winters and Coleman. The second session of the course will be held in Winters Tuesday, October 11. All leaders successfully completing the 16 hour course are awarded Girl Scout leadership certificates from the Council. Presentation of the certificates will be made at the last session of the course which will be held in Coleman, October 18.

Mrs. Ray Wilbanks, Training Chairman for the Winters Girl Scout Association, emphasized that "This training is planned to familiarize new leaders with the Girl Scout program, to help all new Girl Scout leaders do their job easier and better, and to acquaint the leaders with other volunteers with like interests."

Each student is to bring pencil and paper, a sack lunch, and her Girl Scout books. Each session will run from 9:00 a. m. until 2:00 p. m.

Students from Winters registered for the course are Mesdames Bob Loyd, Clifford Hill, Cecil Daugherty, Gary Simpson, Doc Smith, Pete Higgins, Charles V. Graham and Wayne Wilson.

**IN RYAN HOME**

Mr. and Mrs. Herbert Ryan and sons, Mike and Kim, of Richardson were weekend visitors in the home of his parents, Mrs. and Mrs. J. E. Ryan.

## BRADSHAW NEWS

"There will always be heights for us to attain—and that adds to the zest of living." —Frank C. Lauback.

The Church of Christ Gospel meeting is in progress this week with Minister Lester Hathaway of Mobeetie doing the preaching. Sunday morning visitors were Mr. and Mrs. Claude Eubanks and Tommy; Mr. and Mrs. Douglas Bryan of Norton; the Dewitt Bryans and the Ronnie Dentons of Route 1, Winters. Night visitors were the Milton Bryans and the Joe Bryans of Norton and Mr. and Mrs. Andrew Belnap of Winters.

An ordination service was held Sunday afternoon at the Drasco Baptist Church. Dick Bishop and Albert Lewis were ordained deacons. Visiting ministers assisting with the service were Pastor Elkins of Lawn, James Alexander of Abilene and Jerry Henson of Bradshaw. Alex Buchanan was among the visiting deacons.

W. T. Downing was a morning visitor at the Moro Baptist services Sunday.

Monday night of last week Mrs. M. L. Dobbins, representing the Drasco Methodist MYF, took a group to a Youth Rally at Coleman Park. Those attending were Judy Williams, Anda and Dana a Bishop and Wayne Dobbins of Drasco and Walter Butler and brother of Winters.

The Greatness of God is the subject of next Sunday's Sunday School Lesson. Meditation: "A hundred years ago an explorer for the government came upon the

Grand Canyon. He must have looked into its awesome depths and seen the sunlight making changing patterns of light and shadow on the brilliant colors of its majestic walls. But apparently he was blind to the wondrous glory of God's handiwork, for he merely reported that his party was probably the first and would 'doubtless be the last to visit this profittless locality.' He did not foresee that thousands of visitors would come here every year to find the inspiration that he missed.

"Many of us are blind to the greatness of God as it is revealed in the world about us. We are so engrossed in our own trivial achievements that we do not look beyond them to the wide universe of God's creation. Only if we appreciate God's majesty can we find our place in His world."

Special days next week are for: Mrs. Cal Mostad and David Harrison the 2nd; W. L. Pratt, Mrs. Margaret Mahaffey, Mrs. Travis Downing, Tom Butler, Mrs. E. E. # HERE! '61 CHEVY TRUCKS

WITH WORK-PROVED INDEPENDENT FRONT SUSPENSION!

Chevy's '61 fleet swings in with a ready-made reputation as the trucks that are worth more because they work more... the latest editions of the haulers that scrapped the I-beam axle and proved the important advantages of independent front suspension!

You'll find new models for '61—long-wheelbase 4-wheel drive units—and thoughtful refinements throughout the line. But the big news for '61 is nailed-down proof (based on owner reports) that Chevy's torsion-spring design is the best thing that's happened to trucks in decades!

With Chevy's independent front suspension and Sturdi-Bilt design, you cruise over trails where other trucks creep. You feel the difference in less wheel fight and vibration. You can see why drivers are happier, why loads are better protected and why the truck itself will stand up to thousands of miles of more work. That goes for any size Chevy, too—pickups, tilt cabs, tandems, all of them.

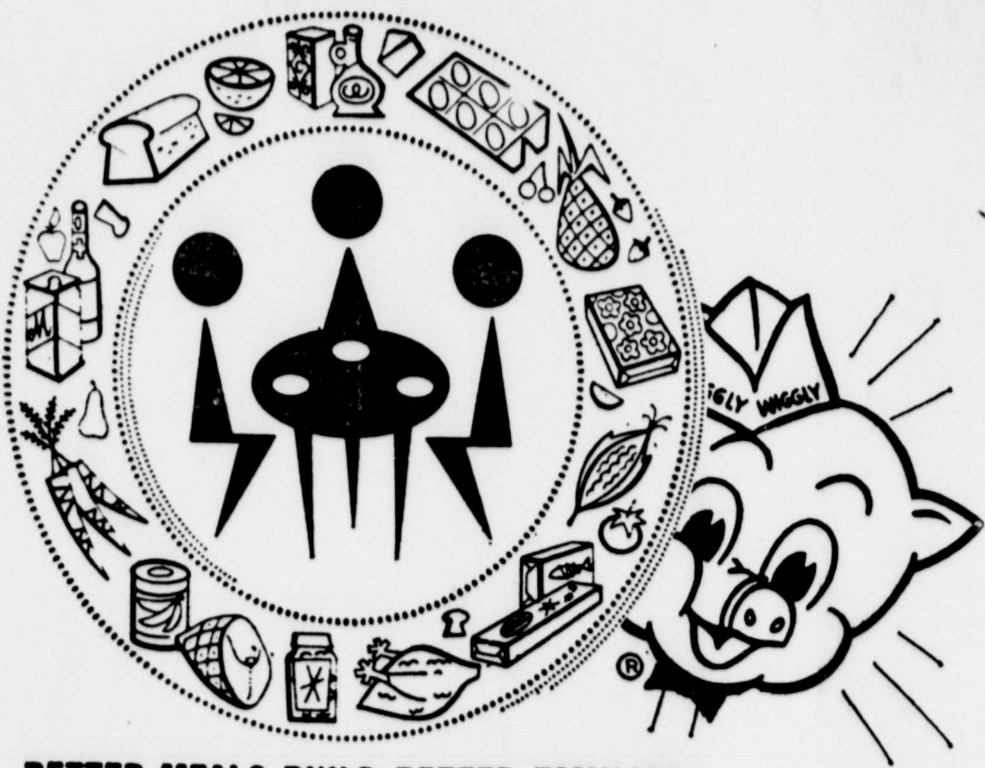

Check the latest specs with your Chevrolet dealer: capacity, power teams, options. Then, by all means, drive a '61. Once around the block and you'll never be satisfied with a front axle truck again!

## "Explore Citizenship" Is Program Topic For Diversity Club Session Thursday

"Explore Citizenship" was the topic of the program presented by Mrs. Sam Jones at the regular meeting of the Diversity Club held Thursday afternoon in the home of Mr. and Mrs. C. R. Kendrick.

Mrs. Jones stated that citizenship is defined in the 14th amendment of the United States Constitution, which says, "All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside." "In modern democracies the citizens are the rulers of the land. These are important words to all citizens of the United States. In many countries, governments are not run by all people, but by small groups of people for their own selfish purposes. In the famous Preamble to the Constitution, we, the people of the United States, proclaim to the world that our government belongs to the people, is run by the people and exists for the good of the people," Mrs. Jones said.

She also said, "Our constitution, which is the plan of government, has but two enemies who are to be feared. The first of these is ignorance and the second is indifference which leads many people to ignore both the civil rights and the duties of citizenship. Obed-

ience to the laws of the government is the first duty of the citizen. Second, a good citizen must be willing to cooperate with the government by voluntarily and intelligently performing those special duties asked of him, such as serving on juries, holding public office when elected and serving in the military forces. Third, a citizen should seriously and conscientiously exercise his right to vote. Finally, it is the duty of a citizen to help create an intelligent and a righteous public opinion," Mrs. Jones said.

"The citizen who ceases to be thoughtful is no longer a good citizen," Mrs. Jones went on. "A civilization which is no longer a thoughtful civilization will slowly die. It may end in a few giant thunderclaps of atomic explosions. The one piece of magic remaining in the world which must prove stronger than the hydrogen bomb is the power of the idea which will give world peace. For peace will not come through machines or explosives, it will come from the minds and hearts of thoughtful and informed men and women of our time."

Mrs. Jones also discussed election campaigns and stated that one of the most important functions of an election campaign is to edu-

cate the people on the issues at stake and on the qualifications of the candidates to lead the country in dealing with those issues.

She stated that this year "we are confronted with an issue which we have not faced since the election in 1928 when Governor Alfred E. Smith, a Roman Catholic, was a candidate of the Democratic party." "We ought to discard any attitude of bigotry toward persons of other religious faiths," she said. "However," she pointed out, "we as Christian citizens should not ignore the religious affiliations of political candidates. The religious belief and affiliation of a candidate, or lack of it, is important. We should consider the effect that the religious affiliation of a candidate has on his ability to perform the functions of the office he is seeking."

"There are many issues in this campaign which are important. Those to be considered are leadership, spending of the budget, foreign policy, United Nations, disarmament, civil rights and aid to education. There are many more issues to consider but our responsibility is not simply to vote but to try to be well informed and to make an intelligent decision," Mrs. Jones said.

Mrs. Roy Young, president, presided and response to roll call was "what citizenship means to me." Mrs. Roy Young was named delegate to the board meeting to be held October 1, in Brady. Mrs. W. B. Middleton was named alternate.

Myra Glover, librarian for the Winters Public Library, gave a report on the library.

Those present were Mesdames J. W. Dixon, Z. I. Hale, Sam Jones, C. R. Kendrick, H. B. Livingston, W. B. Middleton, Noel Reid, Earl Roach, Loucille Roberts, Fred Young, Roy Young and G. E. Wilson and Miss Myra Glover.

### HERE FOR WEEKEND

Mr. and Mrs. Bailey Mayo of Lubbock spent the weekend visiting their parents, Mr. and Mrs. Charles Mathies, Mr. and Mrs. Dick Mayo. Bailey has recently completed his six months military training and is now employed as soil scientist in the Lubbock area.

When things need attention, such as a broken lock or a stain on the carpet, I usually blink and make no comment, hoping someone else will attend to the job.

## Farm Bureau Youth Encouraged To Enter Talent Find

With the continued growth of the membership of the Runnels County Farm Bureau and member participation it is the goal of the county to inaugurate new activities of interest to the membership and the citizens of Runnels County. In an effort to initiate a young people's committee, the county organization will stage a talent find, the first ever sponsored by the Farm Bureau.

The Talent Find will be held in the City Hall in Ballinger, Oct. 20, at 7:30 p. m. This is more than a talent show as the basic purpose is to recognize and to appreciate the talent which is a part of Runnels County. The primary purpose is to encourage the participation and to train young adults to be more active in the organization for these young adults are the future

### Farm Bureau member families.

The board of directors voted at the September meeting to present the talent find in two divisions, a junior for youngsters 17 and under and a senior division for those in the age group of 17 to 30. The first place winner in both divisions will be awarded on the county level, however only the senior division is eligible to compete in the State Talent find in Dallas in November. At the discretion of the directors of the Runnels County Farm Bureau the county winner will be sent to the state contest at the expense of the county.

Entries are to be turned in to the Farm Bureau office, Box 540, Ballinger, including name, or names of all individuals in the group, age, division and type act.

### TOURED WESTERN STATES

Mr. and Mrs. J. C. Jarrell returned home Friday from a three weeks vacation tour of the Western States, including California, Oregon, Washington, British Columbia, Idaho, New Mexico, Arizona, and Colorado.

### CARD OF THANKS

We are sincerely grateful to the friends and neighbors for their many kind acts of sympathy during our sad bereavement. Our appreciation cannot be adequately expressed.

Your thoughtfulness in sending the lovely flowers, the food and for the memorials helped us so

much to bear our grief. For all of these and your sympathy expressed in so many ways, we are deeply grateful. Mrs. Ted Nichols, Joe, Dally and Troy Nichols, Mrs. W. C. Mathis, Mrs. Jim Duke and Mrs. Britton Smartt.

If we had everything we wanted we wouldn't like what we had.

## REAL ESTATE LOANS

The Winters State Bank is now in position to make farm and ranch loans on an extremely liberal basis. The re-payment privilege is not equaled anywhere — the interest rate is as low as the lowest — there is no stock to buy and no red tape — no delays — no brokers fees. If you should have more than one farm and you make sufficient money on all the farms to retire the debt or any part of it, payment will be accepted and the interest stopped the minute the bank receives the money. We have not heard of any repayment privilege equal to this.

We will be glad to discuss with you your financial problem.

## Winters Library Has Received New Books Recently

Winters Public Library has received several new books recently. Among one of the most interesting books for children is the true story of Virginia Dare, the first white child to live in America.

Other books for children are Knute Rockne, Juliette Low Girl Scout, The Story of Submarines, Fluffy, Disney's 'runaway Lamb and Children of the World. Adult books are Mistress of Mellyn, Into Thin Air, The Savage and Once a Ranger.

Donations have been made to the library in memory of Mrs. W. S. Baxter by Mr. and Mrs. Ralph Lloyd, Mr. and Mrs. Raymond Lloyd. The library is supported by donations and a membership fee for each family. Myra Glover is librarian and the library is open each Wednesday and Saturday afternoons, from 2:00 to 5:00 o'clock.

## Announce Letter Writing Week, October 2 to 8

The 23rd annual Letter Writing Week will be celebrated in Winters during the week of Oct. 2 to 8, it was announced this week by Postmaster Rankin Pace.

Postmaster Pace noted that there has been a revival of personal letter writing during the last few years. "A letter remains the most economical, longest lasting, and sincerest means of extending greetings, communicating social news and exchanging ideas," the postmaster said.

During Letter Writing Week, Postmaster Pace suggested that individuals write at least two letters: one to a friend or relative from whom you have not heard in a long time, and the second as a reply to a friend or relative who recently wrote to you. He also urged correspondence to people in other countries as a means of promoting greater understanding among the people of different nations.

The slogan of this year's event, as indicated on more than 200,000 banners, is "Letters are Links to Friendship." The display materials will appear on post office bulletin boards, and rural carrier vehicles, as well as in various school and libraries.

The world is a beautiful book, but of little use to him who cannot read it.

## Blizzards Drop Friday Night Game To Albany

The Winters Blizzards suffered their second loss of the season Friday night to the big 10-A Albany Lions, however, a new star in the land of Blizzards may have been discovered. Tommy Young, 135 pound sophomore back, came thru with 93 yards gained on 6 carries. Two of his tries came late in the fourth quarter, with Winters on their own 45 yard line, second down and 8 to go. Quarterback Johnny Caskey called on Young, who sprinted 23 yards for the first. Again on the second down with 8 to go, in the next series of plays Caskey again gave a hand-off to Young for a beautiful 48 yard gain, moving the ball deep into Lion territory on the 19. However, after another first down the Big Blue Team lost the ball on an intercepted pass and with only 24 seconds left to play Albany ran the clock out on the ground with the final score Winters 0, Albany 17.

Winters won the toss and elected to receive. Steve Grissom returned the kick-off to Winters' 31. A handoff to Vernon Poe counted for 2 yards, then a fumble as the ball was snapped was recovered by Caskey for no gain. William Grissom got loose for 7 yards around left end, when a 5 yard penalty made it 4th down and about 6 to go. Grissom kicked out to Albany's 24.

The Lions moved the ball from their own 24 to Winters 47 in two plays; another first down put them on Winters' 37. After a quarterback sneak by sophomore quarterback Jim Wood, who was in for regular quarterback Johnny Agan, Jr., injured early in this series, he handed off to Bill Morrell, who traveled 35 yards off right guard for the first TD. Albany's All-State end, Rocky Hill, booted the ball over the uprights for the extra point, with 7:57 left in the first quarter. Albany led 7 to 0.

After the kickoff, Winters was able to rack up three first downs before losing the ball and as the quarter ended, Albany possessed the ball on their own 37. In the first downs of the new quarter, Albany was penalized 15 yards for illegal use of the hands, and was forced to kick to Winters' 36. The Blizzards moved out to the 48, but were unable to make the needed yardage, so after a kick by Grissom, Albany started their next touchdown drive on the Blue and White 29. After five first downs, Gene Gray, Albany's work horse for the night, carried over for the TD from the 4 yard line. Again, Hill kicked the extra point, with 4:32 in the first half. Winters 0, Albany 14.

After the half, Winters came back determined to change the score. They moved the ball from their own 35 to Albany's 29, but fumbled the now slippery ball, and Albany received on their 24 yard line, and maintained possession the rest of the third quarter.

The first play in the fourth quarter found Albany on Winters 24 yard line, and T. G. Witte, 190-pound tackle, all set to try a field goal. This was successfully done, without the benefit of shoes, which he pulled off just before the try. Again the score changed. Winters 0, Albany 17.

After the kickoff, Caskey took to the air. A try to Kenneth Crowe was incomplete from the 50; a jump pass was intercepted by Bill Stapp, and the Lions roared again, but not so loudly, as the ball was kicked on the fourth down to Winters' 17. Again Caskey decided to pass to Young, incomplete; another incomplete to Crowe, before Grissom kicked out to the 30. Now Albany took up the pass idea, and on the second try, Caskey intercepted a pass intended for Johnny Woodward. From the 27 on the Blizzard end of the field, Grissom made 4 on a handoff, then a fumble set the Blizzards back five yards. A pass to Poe was good for 4, but so deep in their own end of the field, Caskey called again for the kicking toe of William Grissom.

Albany was unable to make their ten, as the Blizzards tightened up, but after taking the ball again, the air attack of Winters was still lacking, so Albany was given the ball on downs. The first try by Albany was intercepted by Kenneth Crowe, setting up the situation for the two runs by Young.

This makes Winters a 2 won and 2 lost record for the season. Vernon Poe carried 9 times for 33 yards. W. Grissom carried 10 times for 40 yards. Tommy Young carried 6 times for 93 yards.

The Blizzards were hampered by the loss of the Butts brothers, Joel and Rodney, and Eugene Mathis. Joel received a broken shoulder bone earlier in the season, and Rodney has an injured hand which may keep him out of play for a game or two.

## Cleanliness Around Grain Bins Helps Cut Insect Losses

In many areas of the state, grain has been stored or is now in the process of being stored. Insects will damage much of this stored grain if preventative measures are not taken before storage. C. F. Garner and R. L. Ridgway, extension entomologists offer helpful hints on ways to prevent insect damage of stored grain.

One of the first requirements for proper grain storage is the use of adequate storage facilities, the specialists say. Grain storage structures should exclude all outside moisture, and they should also be easily accessible for inspection and fumigation of the grain. Bins in which grain can be aerated are helpful in cooling or drying grain.

No matter how well the storage facilities are constructed, they cannot protect the grain unless they are clean. Before they are used, bins should be cleaned thoroughly of waste material and sprayed with a residual spray. Old grain, trash or other debris furnishes excellent living quarters for insects, the entomologists continue. The specialists point out that good housekeeping practices in and around grain storage bins will aid in eliminating insect infestations.

Malathion has been approved for use in stored grain as a protectant against insects. The specialists report that a tolerance of

eight parts per million has been established. If this chemical is applied before the grain is placed in final storage, it will greatly reduce the possibility of insect damage.

Garner and Ridgway suggest a conference with the county agent before grain harvest begins. The agent can supply valuable information and suggestions that may prevent sizable losses due to insect damage.

## Value of Sorghum Residues Well Demonstrated

The value of sorghum residues from soil and water conservation has been well demonstrated in the Runnels Soil Conservation District. Glen Green of the local Soil Conservation Service states that "district cooperators are managing sorghum stubble on land to provide protection against wind and water erosion." This protection is provided by leaving sorghum stubble on the surface of the soil through the critical wind and water erosion season. This season usually runs from fall until about April 1 of the next year.

He says this kind of protective cover lowers soil temperature and reduces moisture loss by evaporation. It also keeps the soil open for movement of air and water.

When you are alone with a blank sheet of paper in your typewriter, you get a clear idea of mental poverty.

## Ford Offers New Low-Cost Econoline Series of Commercial Vehicles for '61

Ford Motor Company this week announced a new low-cost Econoline series of commercial vehicles with three models: a pickup, van and eight-passenger station bus, each mounted on a 90-inch wheelbase.

"The Econoline represents a new concept in American-made trucks," Ford Division Truck Marketing Manager Wilbur Chase said. "Econoline units carry a volume and load comparable to conventional pickup or panel trucks, yet have far less weight, greater maneuverability, offer much better economy and take up less space. They will compete with imported small trucks, but will provide more comfort and better performance."

Each of the three Econoline models has an over-all length of 168.4 inches — nearly two feet shorter than the Falcon station wagon. Over-all width is 72.5 inches for the Pickup, and 75.8 for the van and bus. Over-all height varies from 77.2 to 79.2 inches, depending on model and springs.

"We believe Ford has led the U. S. truck industry in offering operators maximum economy. Last spring, Ford introduced the Falcon Ranchero, the first entry by a major U. S. automobile manufacturer in the economy size truck field. The Econoline is another step in this direction," Mr. Chase said. "Fleet owners asked us for small trucks like the Econoline, so we started with a clean drawing board and consulted them on the layout of these vehicles. As a result, Ford engineers came up with a design we know is tailored to the needs of our customers."

"For instance, the engine is mounted forward, beside the driver's seat. This design has a number of important advantages — it allows ample pass-through space in the front, flat floors front and rear, low 25-inch loading heights, and easy accessibility to the engine without disturbing the cargo."

Mr. Chase predicted that Econoline owners would be able to achieve lower costs in a combination of ways: low initial expense, improved fuel economy, lower tire costs, longer tire life, reduced

maintenance, and, in many areas, less outlay for insurance, financing and taxes.

The new vehicles are powered by a modified version of the 85-horsepower, 144-cubic-inch engine which has proven its dependability and economy in the Falcon passenger cars, the Falcon Ranchero and the P-100 parcel delivery truck.

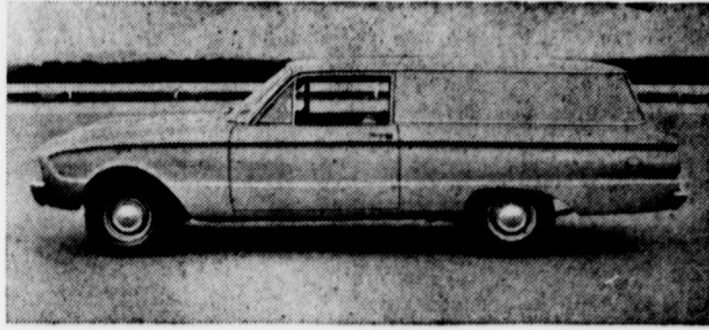

Durability is offered in the Econoline with unitized body and a frame construction, galvanized rocker panels, aluminized muffler, and conventional solid I-beam axle with longitudinal leaf springs.

Design simplicity to achieve a minimum weight was a major factor in engineering the Econoline vehicles. As a result, curb weight is 2,389 pounds for the standard pickup and only 2,711 pounds for the Station Bus equipped with optional heavy duty springs and tires. Payload capacity for the pickup and van is more than 900 pounds each, with standard equipment, and nearly 1,700 pounds with the heavy duty package.

Length of the load space area is over seven feet in each of the three vehicles. Sides of the Pickup box are 23 inches high, yielding a 73 cubic foot volume. Interior height of the Van and Bus cargo area is 54 inches, with a total volume behind the front seat of 204.4 cubic feet. Tailgate and cargo doors are more than four feet wide.

The two-passenger Pickup cab has sufficient room behind the seats to carry either two more passengers as a temporary expedient, or a quantity of tools or cargo. Econoline front seat headroom is approximately 40 inches, legroom 42.6, and door step to the ground only 19 inches. Rear seat headroom and legroom in the Bus is more than 41 inches, with shoulder room of approximately 64 inches. Behind the second seat there is 93.4 cubic feet of load volume, with 32.4 cubic feet behind the third seat. All seats are comfortable chair-height.

Unexcelled front vision and maneuverability are offered with the modern cab — forward design. The Bus has full 360-degree vision. The Pickup has optional rear

A new member of Ford's economy vehicle family for 1961 is the Falcon Sedan Delivery (top), supplementing the versatile and unique Falcon Ranchero (bottom). Both the Sedan Delivery and the Ranchero offer maximum economy and maneuverability plus passenger car styling and comfort. The Sedan Delivery has a cargo volume of 76.2 cubic feet, and the Ranchero has a load capacity of 900 pounds. Standard powerplant for both vehicles is the Falcon 85-horsepower engine, with a new 101-horsepower engine optional.

quarter windows and the Van is available with both solid and windowed rear doors.

An efficient fresh-air hot-water heater-defroster unit with simple controls is mounted underneath the instrument panel. In addition, intake next to the single seven-inch headlights provide direct fresh air ventilation.

Minimum ground clearance on Econoline models is seven inches, and standard rear axle ratio is 3.50 to one. Optional equipment, in addition to the heavier springs and tires, includes a custom trim and equipment package, two-tone paint, 4.00 to one rear axle, safety belts and padding, and heavy duty battery and generator. Dual electric windshield wipers are standard.

Mrs. Mabel Haynes of McGregor spent the week end visiting in the home of Mr. and Mrs. Reese Jones.

The 1961 Ford Galaxie Club Victoria, a new model in the Ford line that will be introduced to the public on September 29, features crisp, new styling that has been honored by an international fashion authority in Rome for its "functional expression of classic beauty." The new Fords are nearly four inches shorter and two inches narrower for greater maneuverability, and introduce 30,000-mile lubrication. Other engineering features include self-adjusting brakes, double-wrapped aluminum muffler, longer-lasting bright trim and underbody parts, and a 4,000-mile oil change interval. A new optional 390-cubic-inch high performance engine also is available.

## Soil Conservation District To Hold Election October 4

Kirby Robinson, Vice Chairman of the Rannels Soil Conservation District, announced today, that a supervisor election will be held for sub-division number 2 of the district. He said the election will be held in Rowena, Tuesday, October 4th at 8:00 p.m.

Robinson stated that C. T. Parker will be in charge of arrangements for the election. He reports that Parker has a good educational program planned. Parker will give the results of this year's sorghum and cotton yield tests. Also a color movie on soil conservation will be shown.

Robinson said that Arthur Egge-meyer is the incumbent supervisor of Zone 2. This sub-division of the district is made up of the land in Rannels County west of Ballinger-Paint Rock highway and south of the Colorado River. All landowners and their wives in this zone are urged to turn out and vote for someone to represent them on the Board of Supervisors of the District.

## Big Names Share Spotlight During Texas Prison Rodeo

Sharing the spotlight for the opening performance of the 29th Annual Texas Prison Rodeo here Sunday, October 2, at 2 p. m. will be Ricky Nelson, sensational singing star and the toughest gathering of inmate contestants ever to grace the prison stadium rodeo arena.

Indications are that along with the "cream of the crop" riders will be equally, if not the toughest rodeo stock in the history of these colorful events.

In addition to Nelson, inmate riders and a host of other specialty attractions, there will be a girls' barrel race, trick riding, calf roping and features by several inmate groups.

Inmate musical groups will be under the direction of Lee Norton, well-known Houston singer. He will act as master of ceremonies for western and string bands, singing groups and the Goree Girls, who this year have Candy Barr, a former Dallas entertainer as one of its members.

Net proceeds from ticket sales go for inmate rehabilitative services not furnished by state tax money. This program includes religious, educational, and medical needs.

Reserved seat tickets at \$2.40, \$3.75, and \$4.40 each, tax included, by writing Rodeo Ticket Office, Huntsville, Texas, enclosing check or money order.

Guest stars on succeeding Sundays include Allen Case (The Dep-

uty), the Crew-Cuts, October 9; Molly Bee, Bo Diddley, October 16; John Wayne, Frankie Avalon, October 23; Jimmie Rodgers, Neil Sedaka, October 30.

## Pvt. Broadstreet In Germany

Army Pvt. Ralph Broadstreet, 23, son of Mr. and Mrs. Earl L. Broadstreet, Route 1, Winters, Tex., participated with other personnel from the 3d Armored Division's 143d Signal Battalion in a field training exercise in Grafenwohr, Germany. The exercise ended Sept. 16.

The exercise was designed to determine unit efficiency under simulated combat conditions.

Broadstreet is a teletype operator in the battalion's Company A in Frankfurt. He entered the Army in November 1959 and completed basic training at Fort Riley, Kan. Broadstreet is a 1959 graduate of Winters High School.

### COMPLETED TRAINING

P.F.C. Franklin O'Dell, son of Mr. and Mrs. B. E. O'Dell, has completed a two-week training course at the Military Policeman school in Germany. He is now back in France where he will spend the remainder of his tour as a Military Policeman.

### HAD SURGERY

Royce Pope, who submitted to spinal surgery last Wednesday in the Baylor Hospital in Dallas, is reported in satisfactory condition. Mrs. Pope is with her husband who will be hospitalized approximately three weeks.

The 1961 Ford Galaxie Club Victoria—beautifully built to take care of people

## BEAUTIFULLY BUILT TO TAKE CARE OF ITSELF

The 1961 Ford introduces a whole new concept of what a car can do for you... and for itself!

It lubricates itself. New nylon bearings and a newly developed lubricant keep the '61 Ford freshly greased for 30,000 miles. Good-bye grease racks! What's more, it cleans its own oil. The 1961 Ford's Full-Flow oil filter lets you go 4,000 miles between oil changes.

It adjusts its own brakes. A "mechanical brain" keeps brakes adjusted for the life of the lining.

Rust? Ford's body is specially processed to resist corrosion, even to galvanizing body panels beneath doors.

Ford takes care of itself on the turnpike, too, with a new 390-cu. in. Thunderbird Special V-8 that has all the punch you'll ever need. The 352 Thunderbird Special V-8 and 292 Thunderbird V-8 thrive on regular gas. And, for top economy, you can choose the '61 Mileage Maker Six.

This is the 1961 Ford... beautifully proportioned to the Classic Ford Look... beautifully built to take care of itself.

### HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF

**LUBRICATES ITSELF.** You'll normally go 30,000 miles without a chassis lubrication.

**CLEANS ITS OWN OIL.** You'll go 4,000 miles between oil changes with Ford's Full-Flow oil filter.

**ADJUSTS ITS OWN BRAKES.** New Truck Size brakes adjust themselves automatically.

**GUARDS ITS OWN MUFFLER.** Ford mufflers are double-wrapped and aluminumized—normally will last three times as long as ordinary mufflers.

**PROTECTS ITS OWN BODY.** All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing body panels beneath doors.

**TAKES CARE OF ITS OWN FINISH.** New Diamond Lustre Finish never needs wax.

## Girl Scout Planning Board Plans Senior Conference Oct. 1-2

The Senior Girl Scout Planning Board of the Heart of Texas Council will host a Senior Conference for all Senior and eighth-grade Intermediate Girl Scouts on October 1-2 at the Baker Hotel, Mineral Wells, Texas. Girls from eleven of the seventeen-county area have registered for the conference. The Planning Board's executive committee members are: Barbara Ziegler, president, Weatherford; Sherry Woodard, vice-president, Weatherford; and Judnell Benningfield, secretary, Goldthwaite. Adult adviser of the Board is Mrs. N. N. Nikitin, Mineral Wells.

The theme for the Conference is "Honor the Past - Serve the Future." Featured speaker will be Mrs. Henry Gould, Senior Girl Scout leader from the Tarrant County Girl Scout Council, Fort Worth. Mrs. Gould has had over twenty years experience as a Senior leader.

Five discussion topics will help carry out the theme of the Conference. They are: "Senior Program at a Glance," "The 5-Point Program," "Specialized Service Programs," "National and International Opportunities," and "Training Opportunities for Senior Scouts." Discussion leaders for the above topics are: Thresa Kilion, Weatherford; Sharon Rawson, Cisco; Mary Starr, Cisco; and Sherry Barry, Weatherford.

A Senior Conference is held each year in the Heart of Texas Council to give high school Girl Scouts an opportunity to come together for fun and fellowship and to exchange ideas and problems particular to girls of this age. Senior girls are offered much through Girl Scouting; such as primitive camping, archeological expeditions, an exchange program with girls from other countries, and camping opportunities at such exotic places as "Our Cabana", in Mexico. Last year eight girls from the Heart of Texas Girl Scout Council participated in the Na-

tional Senior Roundup held in Colorado Springs, Colorado, with over 9,000 Senior Scouts and adults present.

Girl Scouting offers a wide, progressive program for all girls, ages seven through seventeen, with many fields of interest.

Attending the Senior Conference from Winters are Ann Bean, Linda Hill, Judy Matthews, Judy Smith, Vicki Satterwhite, Becky Brown, Betty Shoemaker, Martha Lee Hale, Beth Spill, Donna Minzenmayer.

## Mrs. Cora Weeks Died Friday In Santa Anna

Mrs. Cora Anne Weeks, 90, mother of Mrs. John G. Key Jr., died Friday morning in Santa Anna Hospital where she had been a patient for a week. She suffered a stroke last Wednesday. She had been in good health until a few weeks ago.

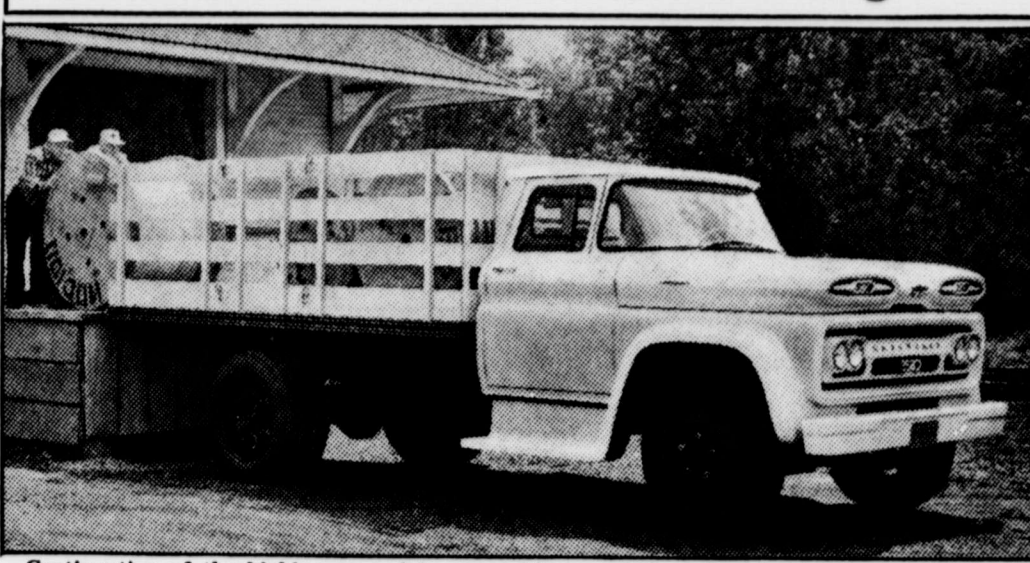

Born April 2, 1870 in Troy, Miss., Mrs. Weeks came to Texas with her parents, the late Mat and Georgia Dick in 1884, settling at Gum Springs. In 1887, she was married to J. I. Weeks in Burnett County. The family moved to Coleman County in 1904 settling at Atoka, which is now known as Goldsboro. They moved to Taylor County in 1912 settling near Lawn. Mr. Weeks died in 1923 and Mrs. Weeks continued to make her home near Lawn until 1956 when she moved to Winters.

She was a member of the Church of Christ.

Funeral services were held Saturday afternoon at 2 o'clock in Spill Memorial Chapel with Lynn Huff, minister of Hearne, officiating. Tom Holland, minister of Winters Church of Christ, assisted and burial was in the Fairview Cemetery. Grandsons served as pallbearers.

Survivors include two daughters, Mrs. John G. Key Jr. of Winters and Mrs. Jasper H. Duke of Texarkana; one son, Arnett S. Weeks of Lawn; ten grandchildren, 18 great-grandchildren; and two great-great-grandchildren.

## 1961 Chevrolet Trucks Feature Proved Design

Continuation of the highly successful suspension system introduced last year, moderate front style changes, and refinements in chassis and cabs mark the 1961 Chevrolet truck line. Proved by one full year of customer use, the suspension features independent front springing with torsion bars and rear coil or variable rate springs. Cab improvements include a smaller floor tunnel in some models for increased leg and foot room, and an optional six-inch thick foam rubber seat.

## Styling Changes and Chassis Design Refinements Mark 1961 Chevrolet Truck

Refinements in the highly successful chassis design introduced a year ago, further expansion of models, and styling identification changes mark the Chevrolet truck line for 1961.

"The wide acceptance of our 1960 chassis redesign, featuring independent front suspension with torsion bar springing and significant innovations in rear suspensions, confirms our conviction that truck owners approve extensive design changes which translate into economic benefits for them," James E. Conlan, assistant general sales manager for Chevrolet trucks, said.

"This highly successful design is continued in our 1961 trucks, with evolutionary refinements throughout the line to enhance the ride, handling, durability, comfort, and hauling efficiency," he added.

New car features for 1961 emphasize a lower and narrower floor tunnel on most light-duty models for improved foot and leg room with the 3-speed or Powerglide transmission. New optional equipment includes a windshield wiper-washer combination with 2-speed electric wipers, and a comfort package which includes a six inch foam rubber seat and special body insulation.

Suburban models also feature improved comfort for second and third seat passengers as a result of seat modifications giving more foot room and more third seat headroom.

Included in the 1961 line are three new 4-wheel drive models for light-duty, maximum traction application. The 127-inch wheelbase, 1-2-ton vehicles are available as cab-chassis, wide-box pickup and conventional box pickup models rated from 4900 to 5600 pounds gross vehicle weight.

All Chevrolet 4-wheel drive units for 1961 feature a new 10-inch diameter clutch, standard 3-speed transmission, and 7.10 x 15-inch tires on the 1-2 ton models. Thus equipped, they meet the majority of light-duty, maximum traction requirements.

Identifying styling refinements for all except tilt-cab models highlight a new frontal appearance, new group classification nameplates and new seat trim design. Eight new exterior colors are offered buyers in addition to the seven previously available.

Higher net engine power, fast warmup, and increased economy result from a new, optional temperature-controlled hydraulic fan drive for light-duty models with the V8 engine. The fan is disengaged unless it is actually required by radiator air temperature.

In line with truck industry interest in problems of exhaust emissions in areas of high vehicle

concentration or unfavorable climatic conditions, Chevrolet will offer an optional crankcase ventilating system. It will duct unburned hydrocarbons from the crankcase to the inlet manifold where they are funneled into the combustion chamber and burned with the fuel mixture.

On all 1961 regular production truck engines, high resistance type spark plug wires and a coil secondary wire suppress radio interference in the vehicle itself as well as in nearby vehicles and television sets in adjacent homes. Longer spark plug gap life also results from the new wiring.

Among modifications made late

in the 1960 model run on certain models and now incorporated across the entire line are: Revisions in heaters to provide cab temperatures up to 10 degrees warmer at normal operational speeds; increased capacity torsion bars for most medium and heavy-duty trucks for normal, severe and extra-severe service; new optional heavy-duty 12-leaf rear springs with ground capacity of 19,500 pounds each for tandem axle models, and redesigned 4-wheel drive lockout hubs to withstand greater torque.

Air brake compressor assemblies for the air-hydraulic and full-air brake systems are modified to improve braking efficiency through increased reservoir tank higher braking forces.

The 261 cubic inch and 283 cubic inch engine cylinder heads have been improved for heavy-duty ser-

## Antonio R. Durant Died Saturday In Winters Hospital

Antonio Rodriguez Durant, 17, of Raymondville died at 1:35 p. m. Saturday in Winters Municipal Hospital where he had been a patient for a week. He had a ruptured appendix and death was

due to peritonitis. He was the son of Mr. and Mrs. Arculando Durant of Raymondville and the family had come to Winters to work in the cotton fields. He was born November 20, 1942 in Juana Juato, Mexico and moved to Raymondville with his parents in 1946.

Mass was said at 4:30 p. m. Sunday in Mt. Carmel Catholic Church with the Rev. Julius Johnson, pastor, officiating. Burial was in the Lakeview Cemetery.

Survivors include his parents, five sisters and one brother.

For an ordinary job, done in the line of duty, some women seem to expect a kiss, a hug and a raise in pay.

### Ford Features New Styling and New Lubrication Engineering In 1961 Models

The 1961 Ford features crisp new styling, new dimensions for greater maneuverability, and major engineering improvements such as 39,000-mile lubrication that will result in lower maintenance costs and more carefree operation.

James O. Wright, Ford Motor Company vice president and Ford Division general manager, said the new Ford, nearly four inches shorter and two inches narrower than in 1960, will offer a "completely new, fresh appearance in the classic Ford tradition of straight-line design."

Mr. Wright also announced the 1961 Ford styling has been recognized for its "functional expression of classic beauty" by a world-renowned fashion authority. In Rome, Italy, against a backdrop of the new fashion center of the world, the Centro Per l'Alta Moda Italiana recently presented Ford Motor Company with a special medal honoring the 1961 Ford.

Wright said engineering and design improvements in the 1961 Ford make it "a car that virtually takes care of itself." Improvements include: A new grease and lubrication system that extends the normal chassis lubrication interval to 30,000 miles. New, heavier brakes that adjust themselves. Specially processed underbody parts, including galvanized body panels below the doors, that resist rust and corrosion. Aluminized mufflers that are double-wrapped for three times normal life. A 250 percent increase in the thickness of anodizing on aluminum surfaces for brighter, longer-lasting grille, headlamp and tail lamp trim.

"These features," Wright said, "Combined with Ford's Diamond Lustre finishes that never need waxing and the Full-Flow oil filtering system that permits a 4,000 mile oil change interval, will mean fewer inconvenient service stops and more savings with the new Fords."

The new Ford line, to be introduced by Ford dealers on Sept. 29, consists of 16 models in four series — Fairlane, Fairlane 500, Galaxie and station wagons. Added to the line are two new models — a Galaxie Club Victoria (two-door hardtop) and a six passenger Country Squire station wagon.

All six station wagon models, from the two-door Ranch Wagon to the nine-passenger, four-door Country Squire with simulated wood paneling, have a new roll-down rear window in the tailgate. The tailgate itself is seven inches wider than in 1960. The front-facing third seat in nine-passenger station wagons has been improved and, when not in use, folds quickly into the floor.

A power operated rear window standard on the Country Squire models and the 9-passenger Country Sedan and optional on others
