## Talk

By B. C. THOMAS

When all other avenues are blocked or exhausted, the only remaining route of escape from a seemingly humdrum existence is to talk about the weather. And that much maligned subject is getting a going over from all corners this week.

This immediate area has been lucky—so far. There has been nothing worse than a miserably cold wetness, but it has its good side in the fact that moisture is badly needed right now. Most of the small grain has been in need of rain, and many of the surface stock tanks are running low. The one-inch-plus rain received over the past three days is a welcome sight.

But some areas of the state have not been so lucky. Within a stone's throw of North Runnels County the normalcy of daily living has been disrupted by such things as broken gas lines, iceladen power and telephone lines, and ice-broken trees. Ballinger had a bad day of it Wednesday when the gas was shut off, and people were searching the whole county for electric heaters and hot plates. Abilene and other areas to the north were hard hit by ice, and many long distance telephone and power lines were down. According to the weatherman, there was to be no respite for several hours.

It's amazing, in the light of all the progress made by man over the years, that brief antics by the elements can create so much havoc. Just a few short years ago an ice storm caused very little trouble other than a quick trip to get another load of wood.

Now, even a slight disturbance or change of weather can tie up traffic, cut lines of communication and isolate whole communities and cause much hardship by disrupting the steady flow of what we have come to take for granted necessities of everyday life. We have become so dependent upon them that to pick up a phone and find a dead line, flip a switch and find no power, turn on a gas jet and find no heat, turn on the tv and find no picture, leaves us all in a frustrated state of mind, with no place to turn until the repairmen set our world back on an even keel.

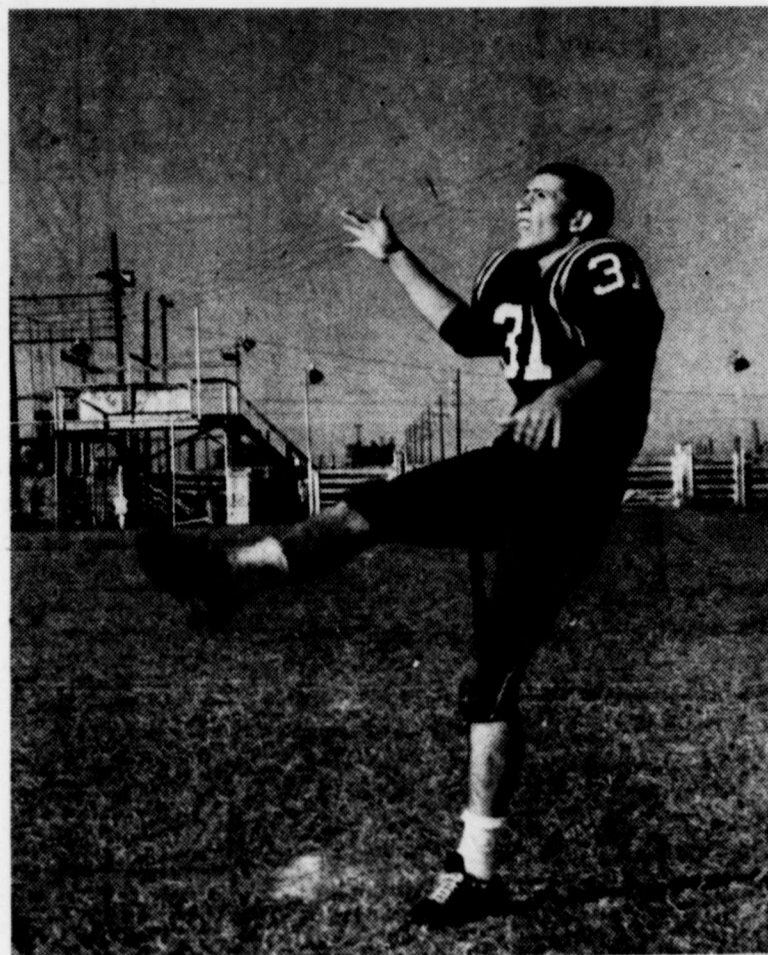

This is the kind of weather, according to one observer, which makes a person feel like going on relief, buying a new car and quitting work.

One great disappointment uppermost in the minds of many people, presumably caused by the adverse weather, is that they'll never know if the character on Wagon Train Wednesday night got the girl.

Perhaps newspapers, when they run out of material, could take a cue from television and dig up some of the stuff which first saw the light of day 20-25 years ago, and re-run it. Doesn't seem to make any difference — or so it seems—whether material has been run once, a dozen or fifty times, when a blank minute is impending on tv, something is dug out of the files, dusted off and put on the air. There is a reason, however. The insatiable appetite of the glass-tubed monster keeps men busy the clock around. The thing gobbles up everything in sight, and to keep it going all manner of material is fed into the hopper. Viewers are lucky to get as much fresh material as they do.

One thing we wonder about, however. A certain show on tv will be advertised and hallyhoed weeks in advance, calling attention to the fact that it will be projected specifically for the enjoyment of the children. The show goes on the air, and it is indeed produced for the enjoyment of a child. And then comes the commercial, specifically directed to the pocketbook of the house.

Duke Norberg in the Monroe County (Ia.) News ponders some of the old cliches and discovers some fallacies: Politics cannot make strange bedfellows for no politician will close an eye in the presence of another. A rose by any other name would be as sweet but it wouldn't be a rose. Why doesn't someone get into the hall of fame by dancing and then refusing to pay the fiddler? Why shouldn't one cry over spilt milk if he's supposed to feel regret over spilling the beans? Is water under the bridge from the well that went dry? Did the same philosopher who ruled a boy's best friend is his mother decide man's best friend is his dog?

ALL-STAR—Shown in action is William Grissom, who was honored at the football banquet Thursday night as the No. 1 football star for 1960. The son of Mr. and Mrs. Boyd Grissom, Bill was named to District 7-AA's offensive and defensive teams Wednesday night at his regular fullback post and as a linebacker. On offense he averaged 5.5 yards per carry, scored

32 points and averaged 35 yards a punt. Defensively, he made an average of 12 tackles per game from his linebacker spot. A Senior, he has indicated he might be interested in entering one of the Abilene colleges following graduation. He was named to the all-district team despite the fact he was sidelined the last two games with a twisted knee. (Little photo)

## December 13 Is Important Day for Cotton Producers

In a referendum set for next Tuesday, December 13, cotton producers will determine whether or not marketing quotas will apply to their 1961 crops.

Seven polling places have been established in Runnels County where cotton producers may cast their ballots. Both husbands and wives may vote in the referendum, if they meet other eligibility requirements.

Runnels County polling places are: Chamber of Commerce office, Winters; Security State Bank, Wingate; Carl Lewis Store, Norton; Community Center, Crews; courthouse, Ballinger; Community Hall, Miles; Bank, Rowena.

Polls will open at 8 a. m. and close at 6 p. m.

All growers of upland and extra long staple cottons in Texas are reminded by B. P. Davenport Jr., chairman, Texas Agricultural Stabilization and Conservation Committee, that December 13 is referendum day. At stake in the voting is the determination of whether or not marketing quotas will apply to their 1961 crops.

Marketing quotas have been proclaimed for both upland and extra long staple cottons as required by law. However, pointed out Davenport, the quotas do not become operative unless approved by at least two-thirds of the farmers voting in the referendum. A grower engaged in cotton production in 1960 is eligible to vote, Davenport said.

The state chairman added that all upland growers should receive, prior to the referendum, official notice of their 1961 farm acreage allotments. These notices will come from the county ASC offices, Davenport said. The allotments determine the marketing quotas for the individual farm. In a change from the programs in effect for 1959 and 1960, each farm operator will receive only one allotment for 1961. This will represent the farm's share of the national upland acreage allotment of 18 1/2 million acres, Davenport added.

If marketing quotas get the two-thirds favorable vote needed to make them effective Davenport said all cotton from compliance farms could be marketed without penalty and would be eligible for the full available rate of price support. If quotas are disapproved, compliance with the acreage allotment will determine eligibility for the lower rate of price support available.

During the past two years, farm operators had a choice between regular allotment and price support rate and a larger allotment at a reduced rate of support. However, the state chairman said, the law that provided this special program applied only to the 1959 and 1960 crops.

Davenport said every eligible cotton producer should vote, and that local ASC offices or committees could supply additional information on the referendum. Voting plans will be announced locally.

## Student Council Plans To Award \$100 Scholarship

Plans are now in progress for the establishment of a one-hundred dollar scholarship to be awarded by the Winters High School Student Council. The award will be given to a 1961 graduate of W. H. S. on the basis of need and academic standing. Action of the Council has received approval from Winters High School principal, Rodney Cathey.

Final details as to the requirements for the scholarship are to be worked out by the faculty and members of the Student Council under the direction of Mrs. Eva Kelly, Student Council sponsor.

At a recent meeting of the Council, A. L. Mitchell, Vice-president, and Mike Mitchell reported on the District meet which was held in Albany, Saturday, November 19.

The election of Winters as parliamentarian for the next year's meet at Stephenville was among the happenings reported.

Plans were also completed for the annual Christmas party for the Council, to be held December 5 in the home of Russell Bedford, one of the members.

An automatic clock to regulate the lighting of the Sparklite Waco has arrived. This clock is to be paid for by the Student Council and will mean the completion of another of the numerous projects of the organization for the benefit of Winters Schools.

The first of a series of Christmas season drawings, sponsored by the Winters Chamber of Commerce, will be held Saturday afternoon at 4 o'clock. Drawings will be held on the vacant lot between Roy Young's Gulf Service Station and the West Texas Utilities office on North Main Street.

Elzie Cox will be master of ceremonies at the drawing.

Three names will be drawn, with winners to receive \$100, \$50 and \$25. Tickets have been distributed to all chamber of commerce member merchants, where they may be filled out and dropped in provided containers. The containers will be picked up prior to the drawing, and all tickets deposited in the drawing hopper.

There is no obligation to purchase any item from any of the merchants who have the tickets on hand, and no cost to anyone who signs the tickets. Persons may register at as many of the different business establishments as they please, chamber of commerce officials said. The person whose name is drawn must be present at the drawing to be eligible to receive the money, it was announced. Everyone is eligible except board members and their families or employees of the chamber of commerce.

The second drawing, for the same amounts, will be held Saturday afternoon, December 17, and the third drawing, with three names drawn for \$100 each, will be held Saturday, December 24.

## Oliver Jackson, ACC Track Coach, Speaker at Banquet

Oliver Jackson, track coach at Abilene Christian College, was guest speaker for the annual banquet honoring the 1960-61 Blizzards held Thursday evening in the school cafeteria. Cheerleaders served as hostesses for the affair.

Bob Shoemaker served as master of ceremonies and L. G. Wilson, head coach, gave the invocation.

Entertainment was furnished by a male quartet from Abilene Christian College and the traditional "Last Will and Testament" of the current Blizzard team was prepared by the cheerleaders and read by senior cheerleader Sandra Hord. Shoemaker introduced Mr. Jackson who stated that "outside of religion," the greatest equalizing force in the world today, is athletics of all types. "Four challenges issued by Jackson to the young people were "use knowledge for creating constructive things in life; think for yourself and believe in your abilities; teach others that you can't get something for nothing and believe it yourself; be determined to uphold what you believe in and willing to pay the price for victory."

In conclusion, Jackson stated that he believed if each individual would respond to these four challenges, that they would be successful in any venture they would undertake.

Coach Wilson announced the Winters representatives on the All-Star team of District 7AA and William Grissom, senior, as the outstanding Blizzards player for the 1960 season. Blizzards included on the all-district offensive were William Grissom, halfback; Kirwan Knapp, center; Kenneth Crowe, end. All-district defensive team members are Tommy Webb, guard; Johnny Caskey, halfback; William Grissom, linebacker.

Rodney Cathey, high school principal, presented awards to cheerleaders Ann Richie, freshman; Sharon Johnson, sophomore; Marta Davidson, junior; Sandra Hord, senior; and head cheerleader, Evelyn Hudgins, senior.

A cloud effect of blue and white decorated the ceiling and banquet tables laid with white linen featured miniature styrofoam on sprigs of silver cedar. An aluminum snowflake centered the speakers' table. Approximately 150 attended the annual banquet.

### Plans Already Being For Governor's Inauguration In Austin January 17

By VERN SANFORD  
Texas Press Association  
By the time Austin sweeps up the last of the holiday tinsel, it will be time to prepare for another round of festivities.

Committees already are meeting to plan details of the inaugural events that will attract thousands of visitors to the Texas capital, come January 17.

Gov. Price Daniel will take the oath of office for his third term; Lt. Gov. Ben Ramsey, for his sixth term. If weather permits an inaugural parade these two officials will ride at the head of it up Congress Avenue, to the Capitol grounds where the swearing-in ceremony will be held.

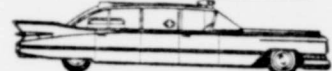

A reception and a half-dozen balls will fill out the day. For his past two inaugurations, Governor Daniel has held a prayer breakfast beforehand for state officials.

#### NO SPECIAL SESSION

Haggling and suspense over who will be Speaker of the House for the 57th Legislature will continue until January 10.

**VET BOND SALE CANCELED**  
Veterans Land Board has set aside plans to hold a bond sale this month because of criticism from Land Commissioner - Elect Jerry Sadler.

Board announced its decision "with regret," declaring that the veterans waiting to buy land would be the losers.

No bonds have been sold since June, 1958, because the state ceiling on interest was too low to attract buyers. Board said it felt the people were expressing their desire to get the program in full operation again when they approved a constitutional amendment in November to raise the interest ceiling.

Sadler had protested the sale. He said he felt the bonds could be sold at a more favorable rate next year after a change in the national administration.

**DAM SITE RECOMMENDED**  
Millican, in Brazos County, has been recommended to the State Board of Water Engineers as the site for a proposed reservoir on the Lower Navasota River.

An engineering firm made the recommendation after a study contracted by the Brazos River Authority, the towns of Bryan, College Station and Navasota and several industrial firms.

Statistics for the proposed water project are staggering. It would yield in the neighborhood of 200,000,000 gallons of water a day, cost an estimated \$44,000,000. It would not be completed until about 1970 and paid for in 2020.

#### PARR LOSES OUT

Texas Supreme Court refused to review a lower court ruling that blocked George Parr's fight to become Duval County's Democratic Party chairman.

Parr won a district court order for a re-count, but the San Antonio Court of Civil Appeals overturned the decision. Supreme Court refused to step in, noting that the

# THE FACE OF FAITH

## THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	Psalms	24	6
Monday	II Corinthians	4	6
Tuesday	Psalms	121	1-8
Wednesday	Acts	2	28
Thursday	I Peter	1	8-9
Friday	Romans	1	16-17
Saturday	II Timothy	1	7-9

Sometimes a face is *striking*. It isn't the sort of face you're accustomed to. It's a face you wouldn't have expected to see. But you have seen it! That's why you call it *striking*.

The Face of Faith is like that . . .

The eyes seem lifted toward the hills, to a source of strength. The lips are firm with a courage that rests neither on prowess nor weapon. The countenance shines with a joyous light . . . a light that seems to reflect some mystic Sun though the world around is cast in shadow and gloom.

I see the Face of Faith each Sunday . . . the face of a child . . . perhaps your child!

I am her Sunday School teacher—and the joyous light of that striking face inspires me to seek more faithfully in the worship and work of my Church the help of God.

You are her parents. How that confident, expectant radiance must inspire you!

## BRADSHAW NEWS

"When we look into the manger at Christmas, we know that God has come to His world." —Upper Room.

Kay and Douglas Williams of Abilene and Brenda Cooper of Milford were visitors at the Sunday morning services at the Drasco Methodist Church.

Larry Webb of Moro attended the morning services at the Drasco Baptist Church.

The subject for next Sunday's International Sunday School Lesson is, "The Greatest Promise." The following is by Dr. J. E. Harris, "For the entire race it was a long wait for the first Christmas. The promise of a coming Deliverer was made immediately after the entrance of sin in the Garden; but centuries rolled by, civilizations developed and decayed, dynasties rose and fell, generation succeeded generation, and still the Coming One had not appeared. Not that God was inactive, or forgetful. He was gradually preparing the way, but only when all needed preparation had been made and the fullness of the time had come did He send forth His Son."

Mrs. Ed Harrison is still a medical patient at the Winters Hospital.

Travis Downing of Drasco was released from the Winters Hospital Sunday morning.

George Douglas is the new son of Mr. and Mrs. G. A. Stricklin of Tyler. He arrived Dec. 2.

Grandad Milburn Shaffer and Cousin Ida Frazier of Moro have been to Snyder to see their new kin, Theresa Lynn Helm, daughter of Mr. and Mrs. Bert Helm. Theresa Lynn arrived Nov. 27.

## Lions Will See "Mayflower" Show Tuesday

"The Mayflower Story," a dramatic color motion picture which documents the recent history-making voyage of the Mayflower II, will be shown at noon Tuesday, December 13, as the feature of the weekly meeting of the Winters Lions Club.

The film, prepared by Aero Mayflower Transit Company of Indianapolis, covers the entire development of the Mayflower II, replica of the famed Pilgrim vessel which crossed the Atlantic in 1620. It records the period of construction, the highlights of the sea voyage, and the Plymouth (Mass.) landing which culminated a modern-day maritime adventure that thrilled the people of two nations.

Within the film's 25 minutes is all the excitement, hardship and thrills experienced by Captain Alan Villiers and his crew of 32 during the modern re-enactment of the epic Pilgrim voyage.

There are unusual film shots of the tiny vessel becalmed in the South Atlantic, spectacular views of the gallant barque at full speed under full sail, and tense scenes of the sturdy craft as it runs full tilt into an Atlantic gale almost within sight of its goal. Highlighted, too, are the glimpses of life aboard the Mayflower II during 54 days and 4,435 miles at sea.

The film, which will be shown to schools, clubs, fraternal organizations and civic groups throughout the country, was produced by Paul Alley, former television news chief for NBC. Narration is handled by veteran CBS radio and TV newscaster, Robert Trout, on the commentary as told by Maitland A. Edey, Life Magazine correspondent who made the trip aboard the Mayflower II.

## Library Students Collecting Items For Needy Children

Library student assistants of Winters High School are having their annual drive for toys and books, both new and used, suitable to be given to children of needy families at Christmas.

Everyone in the Winters school area is requested to donate whatever they have to this worthy work. Send or bring items to the high school or leave them at the chamber of commerce where they may be picked up by the library club.

School holidays begin Wednesday, December 21, and these items

are needed as soon as possible so that they may be renovated, if needed and gift wrapped before that date.  
The students are urging everyone to consider these children in their Christmas planning. Names and addresses of needy children would help the group compile a complete list.

## County To Erect Warehouse and Storage Building

The Runnels County Commissioners Court is advertising for bids on a warehouse and storage building, to be erected on the courthouse grounds in Ballinger.

Specifications of the proposed building call for a concrete block structure, 30x36, concrete floors, built up roof. The building will be partitioned, and two rest rooms will be built on one end. After construction is completed, the rest rooms will be left open during the times the hourhouse is closed.

No office space is planned for the building, which will be used for storage of county equipment and property. County Judge Henry Rumpy said.

After a World Series or a presidential election you feel let down, even though your team or candidate won.

**Situation In Cuba Different From That In Russia or Other Satellites**

Babson Park, Mass. — The Cuban situation has reached a point where it is affecting certain investments. Therefore, I feel that my readers are due an impartial summary of the situation. I have always watched Cuba critically as it is so close to Florida, where I have spent over thirty winters.

**Influence of the Catholic Church**  
I feel that the Cuban situation will come out satisfactorily due to the influence of the Catholic Church. The Cuban people, with their Spanish blood, are emotional and enjoy political and physical fights. They, however, are deeply Roman Catholic in faith. Hence, there is a church safeguard which does not exist in Russia or in

many of her satellites. The Communist Government in Russia has been brutal to the Christian church, due largely to its inheritance of the former Czarist domination which controlled and worked through the orthodox Church. The situation in Cuba, therefore, is entirely different from the situation in Russia and its satellites.

**Importance of Marketability**  
Cuba is rich in soil, rainfall, sunshine, and warm temperatures. It could be the garden spot of the Americas; but it has been cursed by wretched and unjust government. Castro thinks it necessary only to nationalize the farms, businesses, banks, and the few manufacturing establishments; he seems to give no thought to marketing. Cuba's wonderful productive conditions are of no use if her products cannot be marketed. Cuba's natural market is the United States (which Castro is abusing and doing his best to alienate). This same trad-

ing principle is true for the countries of Central America, and even South America; they have the land but lack the marketing facilities for their fruits, coffee and even minerals, including oil.

This is another reason why I feel investors should have the larger proportion of their common stocks in marketing—rather than in farming, mining, or manufacturing—propositions. Whatever the future may bring as to the ownership of land or the production of crops or the extraction of minerals and oil, there should always be a field for companies engaged in the marketing of these products. This applies to the big concerns such as Sears Roebuck, Montgomery Ward, etc.; but especially to the large variety chains, with their stores in all fifty states of the Union. Even in case of World War III, these great marketing organizations might come through the best of all concerned.

**Length of the Castro Regime**  
When Castro, at thirty-two years of age, conquered Batista and his gang, I thought he was a wonderful fellow. As long as he stuck to military warfare, he fared well; but since he has tackled economic problems, he is ruining the country. How long he can hold out, even with Russia's blessing, no one knows. It seems he is destined to be assassinated by someone whose family he has ruined.

On the other hand, investors should realize that the whole world is passing through a leveling process wherein those who have not are gradually taking a way from those who have. In Russia and her satellite countries, this has been done by ruthless stealing of property. In China, goodwill is expropriated, but Mao has sometimes made payment, on his own terms, for actual property taken. Great Britain has experimented with nationalization, and public utilities that were taken over.

In these United States, the labor leaders have the same goals, but they work through strikes and unfair demands. In all countries, investors are being attacked either by heavy taxation or by guerrilla warfare such as is taking place in Africa. Hence, we investors in the U. S. should be especially on the watch. With only 6 per cent of the people of this world, we have nearly half of the world's wealth. Can this condition always continue? The leveling trend has been going on for centuries. Though I am still hopeful as to Cuba, yet let us keep in mind this world trend.

What do these career women want other than temptation, cavaliar and a double martini?

**Simplicity In Entertaining**

Living in general has become more informal and simplicity is the trend in entertaining. For instance, instead of a dinner party involving many courses and an elaborately set table, we more of-

**HOW IT'S DONE**—a suicide venture is a soft touch if it's done the way Sophia Loren tries in London, England. She is leaping from London Bridge for the filming of "The Millionairess"—right onto a pile of mattresses. The landing, of course, is not seen in the movie.

ten extend invitations to a hot ham sandwich buffet with all the trimmings. Assorted breads, mustard, mayonnaise, pickles, provides the kind of meal that is perfect for an informal staylate party, a weekend or late evening supper.

Ask your butcher to slice a 12-pound canned ham into thin slices, a little less than 1-4 inch thick. Reassemble and tie together with soft string. About 2 1-2 hours before serving time place the tied-up canned ham in a roasting pan and bake for 30 minutes in a 350 F. oven. Then spread over the ham an orange spicy glaze and continue baking for two hours, basting frequently with the glaze.

Then remove the ham to a serving platter, cut the strings and remove them, and garnish with watercress clusters or orange slices. Serve hot to a crowd of about 20, or a smaller group, with planned leftovers.

To make the orange glaze combine 1-2 cup orange juice, 1-2 cup cointreau, 1-2 cup orange marmalade, and 1 cup brown sugar in a saucepan. Simmer for 10 minutes. Then stir in 1-2 teaspoon ground cloves. When all is blended spread the mixture on the ham, and continue baking for two hours, basting frequently.

Many people today are still confused regarding the various terms found on the wrappers of whole hams. It is most important to understand them, because one can be misled by such terms as "tenderized," "tendered," and similar terms. They do not necessarily mean that the hams are completely cooked.

"Cook before eating," on the wrapper means that the ham must be thoroughly cooked before serving. "Ready-to-eat," "Ready-to-serve," and "fully cooked" on the label means that the ham has been completely cooked, and can be served cold as is. If the ham is to be served hot, then it is tho-

roughly heated in the oven, with any number of glazes applied if desired. Fully cooked hams will be ready to serve when the meat thermometer registers 130 F.

Canned hams are excellent and are ready to eat right from the can. Or they can be heated in the oven (about 15 minutes per pound for a 10 to 12 pound canned ham). Any desired glaze can

be applied about 1 1-2 hours before the heating time is up.

Mrs. Leeshen Henslee and Mrs. W. J. Poe furnished organ background music during the afternoon.

Mrs. Lawrence Jacob directed the guests to the dining room where they were served by Mrs. Loyd Roberson. By VERN SANFORD

My son and I spent Thanksgiving day afloat in a boat. Two men on a leisurely fishing trip, trolling for bass, can get in a lot of conversation. We talked about our work, our families, sports, politics, education, and of course the many, many different ways there are to catch fish. Suddenly Sandy said—"Dad, it's Thanksgiving. And here we are enjoying a day of relaxation—fishing. You know, we're doing the very same thing that the Pilgrims did for a livelihood." True enough! And I'll wager they enjoyed their "work" as much as we did the fun, on Thanksgiving day. Times sure have changed tho. Few people today seem to enjoy their work. I mean actually get enthusiastic about it. Those

who do so are the happiest, of course. Actually a man should not engage in an occupation he does not enjoy. If it isn't a pleasant job, he should get out of it, if at all possible. He should get out of it before it ruins his disposition, warps his attitude, weakens his mental capacity to think, and makes of him a lesser man. Some say they have to do what they are now doing. We don't fully agree with that statement. We believe that any man can convert to another occupation, if he but possesses two things: courage to make the change—and determination to make good. In either event both the man who is "tied to his job" and the man who doesn't give a hoot about it, owes it to himself, to his family, and to his compadres

to get away from it all, once in awhile.

This advice is just as good for the man who is too much in love with his work, as it is for the man who has no love for his job at all.

**ALL NEED A CHANGE OF PACE**

Make a date with a buddy to go fishing, hunting, boating, skin diving, anything that will give you that needed change of pace.

If you don't find a likeable companion available at the moment—one whom you really enjoy being with—go it alone. You'll be surprised how much good it will do you to get off by yourself sometime—all alone—where the only ones you can converse with are yourself and the man upstairs.

You'll come back from that outing a better man. Try it sometime. In fact, try it often. You'll be worth more to your family, your boss and yourself.

A stroll in the woods will have the same effect. So will a hill climb.

Ever fly a plane solo? High up in the sky, above everything and everybody, you get a much broader view of things—not just physically, but mentally as well.

Your attitude changes instantly. You begin to think how small you are in this great big world, what an insignificant part you play, how really minor are those problems that were bothering you.

When you begin to compare yourself with the broad expanse of the entire world, you soon realize just how tiny is your part in the big picture.

**Boat Rides Are Stimulating**  
Not all of us can fly a plane, but there's not a one of us who can't rent a boat.

Boating has the same effect on me. The cool water, the invigorating breeze, the purr of a smooth running motor—far from land and roads and problems. That's the type of relaxation I enjoy.

You can have the downtown crowds, the long parades, the stadium mobs, the hustle and jostle of the big city. In fact on my day off you can have the turkey and all the trimmings. I'll settle for a spin on the lake any day, and thank the Lord that I'm here to enjoy it.

So, for this holiday period, between Thanksgiving and the new year, let's all express our gratitude to those who make these outdoor pleasures possible.

We are indebted to many hundreds of persons for our fine lakes and good fishing; for our woods and abundant game; for our boats and our motors; our guns and our ammunition; for all those things that make fulfillment of our dreams come true. Say a "thank you" to all these

**Former Resident Dies At Lubbock Hospital Nov. 25**

R. N. Ensor, 88, of Lubbock, former resident of the Wilmet Community, died at 8:45 Friday, Nov. 25, in the Methodist Hospital at Lubbock. He was a retired farmer.

Funeral services were held in Pioneer Memorial Church in Lubbock, Nov. 26, with the Rev. S. Homer Salley, pastor, officiating, assisted by C. W. Stapleton, Church of Christ minister. Interment was in Resthaven Memorial Park.

Ensor moved from Granger, Williamson County, in 1906 to the Wilmet Community and lived in Runnels County until 1929 when he moved to Lynn County. His wife, Sallie Hodge, died in 1907. He was married a second time to Mrs. Willis Peoples in March 1910. He moved to Lubbock in 1947.

Mr. and Mrs. Ensor observed their golden wedding anniversary last March.

Survivors include the wife; seven daughters; three sons; 29 grandchildren; 39 great-grandchildren and one great-great-grandchild.

people who help you live a more peaceful, restful, longer life. Whether it be the bait man, or the marine dealer, or the game warden, or the wildlife specialist, or the farmer, or the dock owner—whatever his part in making life happier for you—say "gracias amigo" and with mucho gusto. He'll be pleased at your thoughtfulness.

**New Sabra Reel by Johnson**  
Unmatched power performance is claimed by Johnson for its new Sabra bait casting reel.

It's closed faced reel with a power-shift handle. Angler actually shifts from direct-power retrieve to fish-beating drag without taking his hand from the handle. Despite its light weight it holds 135 yards of 15-lb.-test braided-nylon line.

**Unusual Plug Is Electrical**  
If you're having trouble getting the lunker bass to hit ordinary plugs, here's a new gadget you can try.

James R. Boyett, electrical contractor from Florida, has invented a plug animated by a one-fourth ounce motor and a tiny battery. The bait performs gyrations designed to attract fish.

Before undergoing a serious surgical operation, put your affairs in order. You may survive.

If you don't know a little about everything, you don't know anything.

## Coming Attractions at Local Theatres

### "The Story of Ruth"

"The Story of Ruth," a Twentieth Century - Fox, CinemaScope, DeLuxe Color presentation of the romantic and religious conflicts of the famed woman of the Old Testament, starring Stuart Whitman, Tom Tryon, Peggy Wood, Viveca Lindfors, Jeff Morrow and introducing Elana Eden, dazzling young Israeli beauty in the title role, comes to the State Theatre Sunday and Monday.

A world-wide talent and glamour search resulted in the casting of Elana Eden in the challenging role of the biblical beauty. Stuart Whitman, who rose to stardom by his electrifying performance in "The Sound and Fury" is a natural in the role of Boaz, Ruth's devoted lover and husband. Tom Tryon, the "Texas John Slaughter" of TV fame adds still another romantic interest as he portrays Mahlon, Ruth's first husband and Peggy Wood, Viveca Lindfors and Jeff Morrow complete the all-star cast.

Author Norman Corwin worked for a year in close association with Producer Samuel Engel, on the scenario. When completed, the director and the actors had in their hands a script that dramatically enhanced all the elements that have made "The Book of Ruth" so universally appealing. Corwin's script filled in imaginatively and with superlative drama the Old Testament biblical story.

### "Dinosaur!"

A producer who made two top-grossing movies for the screen before he ever saw the inside of a Hollywood sound stage has now embarked on a one-man campaign to restore science-fiction films to the status of family entertainment.

Jock H. Harris, who made "The Blob" and "4-D Man," has poured the profits from these productions into a spine-tingler titled "Dinosaur!," opening Friday and Saturday at the State Theatre. It's a big and lavish production, complete with CinemaScope and Color, and its aim, according to Harris, is to reunite mom and dad with the kids in a row of movie theatre seats.

How does he plan to do it? "By cutting down on sex and violence," Harris explains. "Over-emphasizing these two elements has been the main cause of a decrease in popularity of movies about science-fiction, horror, and rock-and-rollers, too."

"Film producers have tried to outdo each other in the field of sensationalism, adapting the raw approach to love and engulfing the scene with the blood of overdose scenes of violence. The former makes a movie unacceptable for children; the latter makes it unpalatable for adults."

The history of the world is the record of a man in search of his daily bread and butter.

Elana Eden and Stuart Whitman star in "The Story of Ruth," Twentieth Century - Fox CinemaScope, DeLuxe Color release, opening Sunday and Monday at the State Theatre. Co-starring are Tom Tryon, Peggy Wood, Viveca Lindfors and Jeff Morrow.

## Funeral Rites For Mrs. Cora L. Hester Held Here Sunday

Funeral services for Mrs. Cora Lee Hester, 82, of Odessa, a long-time resident of Runnels County, were held at 2 p. m. Sunday in Spill Memorial Chapel with the Rev. B. T. Shoemaker, pastor of the First Baptist Church, officiating. Burial was in Fairview Cemetery.

Mrs. Hester was found dead at her home in Odessa Friday morning, an apparent victim of a heart attack, by a son, E. L. Hester of Odessa. She died Thursday night.

Following her husband's death, Mrs. Hester moved into Winters where she lived until she moved to Odessa in 1959.

She was a member of the First Baptist Church of Winters for several years.

Survivors include four sons, E. P. Hester of Fort Smith, Ark., J. W. Hester of Hobbs, N. M., C. C. Hester of McAllen and E. L. Hester of Odessa; 16 grandchildren; 13 great-grandchildren; two sisters, Mrs. Sallie Lewis of Levelland and Mrs. Lena Pennington of Winters.

### FROM OKLAHOMA

Mrs. Bobby Shores and Robby of Bokoshe, Oklahoma spent a few days visiting with her parents, Mr. and Mrs. Ben Lindley.

Before the days of the automobile, the man who got drunk was seen to stagger on his way home, but in these days of built-in garages a man can practically dismount in his living room.

## The A. N. Crowleys Host Open House Sunday Afternoon

In their new home two miles north of Winters, Mr. and Mrs. A. N. Crowley and daughter, Zola Ruth, hosted open house Sunday afternoon from 3 until 6 o'clock. Assisting the Crowleys in greeting the guests were Mrs. Clifford Huffman and Mrs. H. K. Flathmann. Mrs. Ralph Lloyd presided at the register.

The lace laid table was centered with an arrangement of gold mums and appointments were silver. Mrs. H. H. McCreight, Mrs. C. V. Pierce and Mrs. C. C. Clark alternated in pouring coffee from a silver service. Mrs. Pat Underwood, Mrs. George Briley and Mrs. Huffman directed the guests on a tour of the new home.

Other members of the house party were Mrs. Leland Hoppe and Mrs. Ted Meyer. The house, built of native stone from north of Abilene, has a large bow window, shutters, is trimmed in white with slate white asbestos roofing.

When one enters the spacious entrance hall, it is evident that the Crowley home has been built for convenience. The hall has a terrazo tile floor in gray and tan and has the same cream colored walls as the living room at the left. Chandeliers in the hall and living room are of crystal and gold.

Wool carpeting in tan and brown with green fleck is used in the living room and bedrooms. The entrance hall leads to another hall on the left which gives access to the bedrooms. The master bedroom and guest room have pastel green walls and silk draw drapes in the same color, with the same color carried out in the bathroom with green fixtures, ceramic tile cabinet tops in grey, green and white with harmonizing inlaid linoleum on the floor.

Zola Ruth's bedroom is in pastel pink where she keeps most of her collection of 35 dolls. Furniture in all bedrooms is French provincial in antique white and gold.

All woodwork in the house is in natural finish with paneling in the den, kitchen, laundry room and half bath. Copper pulls are used on cabinets and shelves and light fixtures are copper. The refrigerator and other appliances are brown.

Approximately 150 guests called during the afternoon and out of town guests were Mrs. J. E. Cox Sr., mother of Mrs. Crowley, Jimmy Cox, her nephew, both of Breckenridge, Miss Ollie Chenoweth, Mrs. Chester Cherry, Mr. and Mrs. Everett Grindstaff, all of Ballinger, Mrs. Carol Benson, Mrs. Dale Letton, Mrs. B.
