RURAL CARRIERS — The retirement of R. D. Collins, third from left, has caused a shuffle in the force of Winters rural mail route carriers. Collins has been carrying the mail on Route 2. The carrier assignment, left to right, effective September 1, will be Weldon Collins, left; Ray Hollingshead, from Route 1 to Route 2; Collins; W. S. Cooke, from Route 3 to Route 1; Postmaster Rankin Pace; and Eddie Little, who will continue on Route 4. (Photo by Bill Little)

Council Leases City Farm, Okays Rodeo Arena

The Winters City Council Monday night voted to grant a lease to the Winters Rodeo Association approximately 16 acres at the old City Lake for the purpose of building a rodeo arena and improvement of the area for recreation and park purposes.

County Tax Office May Be Open Here

County Tax Collector-Assessor Pannell Legg said this week that his office will provide a deputy collector to set up in Winters at certain and announced times for the convenience of taxpayers in the north section of the county.

Home Safety Program Kickoff September 1

A year-round home safety program will be launched September 1 by Lone Star Gas Company. National Safety Council findings show that home accidents are fundamentally the result of inadequate knowledge, insufficient skill and faulty attitudes. In line with these findings we have produced, as a public service, a home safety program having as its objective the saving of lives and the prevention of home accidents by teaching the individual how to detect and eliminate home hazards.

First Grid Game Here Saturday

The Winters Blizzards will open the 1961 football season here Saturday night when they meet the Lakeview Chiefs head on in Blizzard Stadium. Game time will be 8 p.m. Fresh from their encounter in scrimmage with the Brownwood AAA team last week, in which they made a good showing, the Blizzards are expected to head into Saturday night's game with a strong attitude.

Three Seniors Will Head Blizzard Marching Band During '61-'62 Year

Heading the Winters High School Blizzard Marching Band this year will be three seniors, Bob Shoemaker, Marcene Mathies, and Pamela Bedford. Shoemaker, in the capacity of Band Captain (president), will not only serve as assistant to Robert Gans, band director, but will be in charge of the band council. He will be responsible for the discipline of band members, and assist in inspection held before each public appearance of the organization.

R. D. Collins Retires As Mail Carrier

R. D. Collins, 70, who began his postal career in 1921 in Comanche County, retired from the Post Office Department Thursday after he had completed his rural mail run here. Collins, a graduate of Comanche High School, taught school ten years before he became employed with the Post Office Department. He began delivering rural mail routes by horse and buggy and in 1924 he purchased a car.

Mrs. Brooks Hired To Teach Home-Ec In Winters School

Mrs. Jeanette Brooks, who has taught nine years in Eldorado, McCamey and Talpa, has been employed by the Winters Schools to teach home economics for the 1961-62 school year. Mrs. Brooks succeeds Mrs. Joe May, who has resigned. Mrs. Brooks is the daughter of Mr. and Mrs. O. S. Sikes of Talpa. She attended school at North Texas State College and received her bachelor's degree in home economics in 1950 with additional work in English and chemistry.

Voters OK Wes Hays

Wesley M. Hays, candidate for alderman in the special City Election, was elected to office Wednesday when a near-record number of voters turned out for a supposedly un-contested election. Hays received 322 votes out of a total of 367 cast. He was the only announced candidate for the office, and an expected campaign to write-in an opposition candidate failed to materialize. T. A. Smith received 33 write-in votes, and ten other write-in ballots were divided among seven persons. A total of 367 ballots were cast, with two thrown out by the election judges.

Walter Adami Ginned First Bale For 1961

The first bale of cotton from the 1961 crop was brought in to Winters Monday from the Walter Adami farm. It was ginned at Citizens Gin, and yielded a 420-pound bale, with 750 pounds of seed. The Winters Chamber of Commerce traditionally presents the owner of the first ginned bale with a check. This year the amount will be \$50, the chamber of commerce said.

Schools Set To Open Doors Next Tuesday Morning, September 5

Pre-school faculty meetings will begin today (Friday) at 9 a. m., and continue through Saturday, in preparation for the opening of school Tuesday, Sept. 5. The faculty has been completed for the 1961-62 school year, James Nevins, superintendent, said. Student registration has been going on all this week in the different departments. Tuesday, Sept. 5, will be a full school day, and buses will make

Wes Hays Thanks Voters for Support

Wes Hays, who was elected to the City Council in Wednesday's Special Election, has expressed his thanks to the voters for their support. Hays said, "I am conscious of the trust placed in me by the people of Winters. I will endeavor to carry out the duties of the office in such a way that will bring credit to the City of Winters. I realize the many responsibilities which go with this trust, and I will at all times work for the good of the town. I will try to merit the confidence you have placed in me by your strong support at the polls."

Winters-Anson Game Tickets Will Be Available

The school business office has received 270 reserved seat tickets for the second Blizzard football game of the season scheduled for Friday night, Sept. 8, at Anson. Game starts at 8 p.m. These tickets are all close to the 50-yard line, and will be placed on sale at the business office on Wednesday morning, Sept. 6. Johnny B. Smith, business manager, said. Reserved seat tickets for this game will sell for \$1.25 each.

Presbyterian Church Changes Meeting Time

Roger Babson Says

Hand-In-Hand With Population Jump Goes Need For More Fresh Water

Babson Park, Mass. Most writers are talking about the population "explosion" ahead of us; but no one explains how the greatly increased population is to get enough fresh water for drinking and irrigation. Doctors tell me to drink one glass of water each morning while I am dressing, followed by two more during the forenoon. I drink very little water after 4 p.m. and never touch liquor or highballs.

Salt Water Treatment

As three-fifths or more of the world is covered by salt water, it may be useless to try to turn it into fresh water. We may do far better to learn to live off the vegetable products of the ocean, as we do its fish, etc. However, Congress has appropriated mon-

ey to build two experimental plants for desalting ocean water, —one on the East Coast and one on the West Coast. All chemists know this can be done; but it is very expensive. The Ionics Inc. Company of Cambridge, Mass., has the best success therewith; but I hear they recommend only that the "brackishness" be taken out of an existing source of water supply. I have recently visited such a plant. It is both practical and economical.

The plan which interests me greatly is to bring fresh water from Canada. Northwest Canada has three large lakes that drain the rainfall northward into the Arctic Ocean—which is very wasteful. Although it would be very expensive, great canals could be built for turning these streams and reversing their flow southward. Then this fresh water would be used to irrigate the dry plains of Montana, the Dakotas, Wyoming, Arizona, and New Mexico. For further details, readers should write Mr. John Powers, Jr., of Homewood, Alabama. The Atomic Energy Commission may now be considering such a "peace" project for fifty years hence.

Mining Fresh Water

In view of the projected increase in population and greater per capita use, the cost of fresh water and "soft drinks" will increase! To help with this problem the first step might be for cities to build a separate plant to distribute only salt water. Thus each house and industry would have two water bills to pay. Unless there is a World War III, homes and factories with successful driven wells will be in demand, as will those bordering non-polluted rivers, streams, and lakes. My reference to World War III concerns the danger from "fallout" when using water from streams, lakes, and uncovered reservoirs.

Driven wells, moreover, are wholly dependent upon electricity for pumping. Hence, as a part of any "shelters" such as the Civil Defense agencies are recommending, there should be included fully charged storage batteries along with the food and other needed supplies. Fresh water may be shipped by tank cars or great pipes, or the fresh water may be frozen and shipped as frozen food as frozen food is now shipped. The purpose of this column now is to get readers thinking about what an economic revolution is ahead based upon a scarcity of fresh water.

When Buying a Home

When I was a boy most homes had brick cisterns in their cellars. These were kept filled by the rain which fell upon the roofs. People who could not afford cisterns went to the "town pump" twice

Chancel Guild Met Recently At Church

Ladies of the Chancel Guild of St. John's Lutheran Church held their regular meeting recently at the church.

Mrs. H. K. Flathmann, vice president, led the opening prayer and gave the topic for the month, "Architecture and Interior Furnishings." She also showed pictures of the Romanesque, Byzantine, Gothic, colonial and Renaissance buildings. Roll call was answered with favorite Bible verses and several projects were discussed during the business session.

Mrs. Flathmann led the group in repeating the Lord's Prayer and Mrs. L. Ernst served refreshments to Mrs. H. K. Flathmann, Mrs. A. B. Spill, Mrs. T. F. Hantsche, Mrs. Ellis Ueckert and Mrs. Johnny Wessels.

a day to fill their pitchers and pails. Each community would have several of these "town pumps" for the convenience of the people. Sources of diphtheria, typhoid, and other diseases were traced to these public pumps, —leading to the installation of city water systems and later to municipal sewerage. I have a granddaughter who lives at St. Thomas, one of the Virgin Islands. She has a cistern, but there is no rain to fill it. She drinks and uses water shipped by boat from Puerto Rico.

Therefore, I urge my readers to consider the fresh water problem when locating their home. Select a state and city which has a good supply of fresh water. If possible, have a house which borders an unpolluted running stream or river. Such a location today is worth a premium over inland locations. Look ahead and speculate on the information given in this column. You can make money therefrom when and if you ever need to sell. If you wish to speculate, buy some such land—well drained—along with life insurance and good stocks. Man can always build more houses and develop more subdivisions; but only God can make more natural fresh water.

Walter S. Smith Died At His Home Monday Morning

Walter S. Smith, 68, resident of Winters since 1938, died Monday morning at 2:40 at his home following a heart ailment for the past fourteen months.

Born June 13, 1893, in Burnett County, he came to Runnels County with his parents when he was a small boy. The family settled in the Crews Community where his father owned and operated the first cotton gin.

Mr. Smith married Della Walker on August 4, 1912 at Decker in Nolan County. The couple lived in Oklahoma and New Mexico before moving back to Crews in 1926. They moved to Winters in 1938. Mr. Smith had worked for former County Commissioner, Fred Bedford nearly 20 years in the Winters Precinct, retiring due to ill health.

He was a member of the Baptist Church and the Oddfellows.

Funeral services were held Tuesday afternoon at 3:30 in Spill Memorial Chapel with the Rev. Virgil James, pastor of the Southside Baptist Church, officiating. Burial was in the Crews Cemetery and pallbearers were county employees of the Winters precinct.

Survivors include his wife; six daughters, Mrs. Hazel Nitsch of Winters, Mrs. Brooksie Lane of Alpine, Mrs. Lewis Williams of Sweetwater, Mrs. Arley Wheat of Midland, Mrs. L. E. Foster of Abilene and Mrs. Herman Giles of Pierce, South Dakota; two half brothers, Carl Smith of Granbury and Clint Smith of Athens; one half sister, Mrs. Chester Boyd of Athens; 13 grandchildren and three great grandchildren. One son and two daughters preceded him in death.

Graveside Rites For Juan Arispe Sunday

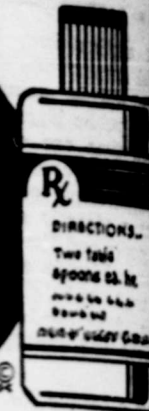

Graveside services for Juan Arispe, infant son of Mrs. Dimas Arispe, were Sunday morning at 11:30 a.m. at the Lakeside cemetery. The Rev. Julian pastor of Mt. Carmel Church, officiated.

The infant died at Winters day afternoon at Winters Hospital.

Survivors include his grandparents, Mr. and Mrs. Arispe, Mr. and Mrs. Martinez; great grandmother, Marcello Martinez; one daughter, Juana Arispe, all of Winters.

Some folks talk as though they want life to be a downhill race without obstacles.

But God, who made man in His own image, never meant it to be so. For the muscle becomes helpless which is never tensed; the mind grows dull which is never challenged. There is no courage without threat of battle.

This life was meant to be a succession of goals . . . each the more inspiring because of the hazards along the way. And who among us, worth his salt, would want a life any different?

It is the uphill, the hazardous, course of courageous living that makes spiritual strength a must. You and I need the Church. We need the Church because we see divine as well as human purpose in our existence.

Life—as we like it—gains deeper meaning with each new discovery of our need of God.

**THE CHURCH FOR ALL...
ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Governor Daniel Warns That Recently Passed Sales Tax May Go To 4 Percent

By VERN SANFORD
Texas Press Association

Gov. Price Daniel, pointing to the record of most other states that have a general sales tax, warns Texans that without concerted efforts to shave state spending the Texas tax could grow to three or four percent in the future. More than that, he said, unless there is "prudent economy and reorganization of state funds and services," a state income tax might become law. To make his point, Governor Daniel reported that two-thirds of the 34 states that have general sales taxes have increased the rate to three per cent or more, and there are now four states charging a four per cent sales tax. He again made clear his dislike for the two per cent Texas tax, but added: "So much for the good and bad which will result from the new tax bill. On September 1 it will be the law of our state, and as long as the law is in effect, it behooves all of us, whether we like it or not, to cooperate in its enforcement. This I shall do, and I believe every good citizen will do likewise."

Meanwhile State Comptroller Robert S. Calvert is being swamped with questions about the new tax. After checking with other states which have pioneered in this field, he has become reconciled to the likelihood that confusion will reign for some time to come. A spokesman for his office pointed out that "California and Illinois got a sales tax in 1933, and they're still issuing rulings." The Texas Research League has noted that the tax bill exempt sales of animals ordinarily eaten by humans. Also feed for such animals. Exempt too are seeds and plants edible by humans and raised for sale, fungicides and insecticides for such plants, and fertilizer used on lands where such food is grown.

But the researchers say this exemption would not apply to tropical fish, grass seed and fertilizer for lawns and rose bushes. **More Work For Next Session** Governor Daniel has found several more items to be submitted to the next special session of the Legislature. He plans to call the lawmakers back to Austin again before the end of the year. Daniel's expanding package now includes maintenance funds for farm roads, loan shark control, municipal annexation, tourist attraction, lobbyist controls, adding banks to the abandoned property seizure law, improved law enforcement measures, and action on juvenile crime. "As long as Texas continues to grow," he said, "there will be more problems to solve, but there are some which should not be delayed. It will be my aim to meet the most urgent of these later this year or in January of next year."

Governor Daniel vetoed the second year appropriation of \$15 million for construction of new farm-to-market roads, in an effort to free these funds for maintenance. The \$15 million for this purpose for the first year of the new biennium was not affected. A law passed in 1949 provides for the use of this yearly amount for new construction. But the Governor insists, "It is just as important to maintain our vast and important 33,000 mile farm road system as it is to build new roads. Maintenance costs, now amounting to \$18,000,000 annually, are taken from the basic intrastate highway fund which is the poorest of all department programs."

Blue Law Confusion Under the new Texas "Blue Law," shopping for certain items on Saturday or Sunday may prove a chore. The law that started out as a device to hit the discount houses operating on Sunday was changed to include Saturday as an alternate because the lawmakers felt a straight Sunday closing law might appear discriminatory to some religious groups who observe the Sabbath on other days. Included in the list of items merchants are not allowed to sell on one of the two weekend days are lawn mowers, toys, motor vehicles, clothing, furniture, kitchen utensils, air conditioners, home appliances, jewelry, cameras, radios, and television sets.

The law has teeth—a fine of \$100 is provided for the first conviction, going up to \$500 and six months in jail for subsequent convictions. **Selling Texas Is Big Job** The State Industrial Commission, given \$100,000 by the Legislature and charged with the duty of selling Texas as the place for industries to locate, faces a challenge. Chairman E. B. Germany told the commission, "It is a challenge to make that \$100,000 do what it is supposed to do even though it is not enough to do what we want to do."

Executive Director Walter Dickerson reported 3,000 copies of a brochure entitled "Texas: A Strategic Location" have been printed. Brochure will be distributed to a "very carefully selected

group of people who have responsibility for making decisions," says Dickerson. He appealed to Texas cities to contribute information for the commission's industrial surveys. Such information would be kept on file for the use of industrialists considering Texas sites. This would make it possible for industrialists to choose an area without it being known in advance. **Athletics Not Self-Supporting** State college and university athletic programs, with few exceptions, are not self-supporting, says State Auditor C. H. Cavness. He made the statement in connection with a report on the operations of Sul Ross State College at Alpine where the athletic program showed a \$26,357 loss for the year. Income was \$56,245, while expenditures amounted to \$80,136. Cavness noted that athletic scholarships and coaching salaries have been paid from educational and general funds. **Hiked Train Fares Asked** On September 6 the Texas Railroad Commission will consider the request for increased passenger rail coach fares of five railway companies operating in Texas. Companies asking for the hike in fare included Chicago, Rock Island and Pacific Railroad Company, Fort Worth and Denver Railway Company, Gulf, Colorado and Santa Fe Railway Company, Missouri-Kansas-Texas Railroad Company, and Panhandle and Santa Fe Railway Company. **Duck Hunting Season Set** Ducks will be fair game in Texas beginning at noon on November 18 and ending at sundown December 27, says Howard Dodgen, Executive Secretary of the Game and Fish Commission. Bag limit will be three ducks per day and six possession. There will be no open season on red-heads, canvasbacks and black-belly tree ducks. Open season on geese will be from sunrise to sunset from November 3 to January 1. Bag limit is five, restricted to one speckled goose and one honker; or two honkers and no specs; plus an aggregate of three snows and-or blue.

Season of Fruitfulness

The autumn season is the most colorful of all. It is the time when the last crops are gathered; in the air there is the pungent odor of burning leaves. Birds are migrating to sunnier climes. There are many signs that shorter and colder days are here. It is the season of fruitfulness, for it is now that Nature lavishes her bounties in greater profusion. But it is also a time to look forward to other seasons on ahead. Plans you make will be easier to carry out if you organize your finances on a sounder basis by working in close co-operation with a strong, dependable bank. A bank account is a good thing for all. VFW, Auxiliary Begin Work On Lakeview Cemetery

Veterans of Foreign Wars, Post 9193, and Auxiliary will begin their project of beautifying the Lakeview Cemetery this week, according to announcement made this week by Mrs. W. L. Collins, community service chairman for the local post and auxiliary.

The group plans to plant grass and shrubs and to curb Babyland. They also will clean off the front of the cemetery and plant a border of shrubs across the front of the cemetery.

Several members are donating shrubs in memory of a loved one, according to Mrs. Collins. This will serve as the group's main community service project for the year, Mrs. Collins said.

Back-Stay-In-School Campaign Directed By U. S. Education Office

A "Back to Stay in School" campaign directed at high school and college students has been initiated by the U. S. Office of Education under the leadership of Dr. Sterling M. McMurrin, Commissioner of Education, it was announced today by J. H. Bond, Regional Director, Department of Health, Education, and Welfare, Region VII.

The campaign will be a year-round effort, though special emphasis will be directed towards reducing the number of dropouts before school re-opens next month. George D. Hann, recently appointed Office of Education Regional Representative in Dallas, will head the campaign in DHEW, Region VII. Bond stated.

Over 900,000 students dropped out of the nation's schools last year, although 70 percent had the ability to finish high school and probably go on to college. Since the drop-out rate will vary from one community to the next, the problem must be approached from that level.

Dropping out of school has a number of implications for the student and the community. The student is restricting earning power substantially by dropping out of school. Opportunities for advancement are limited and in many instances available jobs for the untrained person are few or non-existent. The community suffers when a student drops out of school. Opportunities for advancement are limited and in many instances available jobs for the untrained person are few or non-existent. The community suffers when a student drops out of school because this reduced the supply of trained manpower available to expanding business and industry.

Hann suggests that those institutions most vitally concerned with community growth and welfare participate in this campaign by encouraging students to leave their summer jobs and return to school. Officials of schools, local governments, employment agencies, business and industry can help by individually and collectively conducting a "Back - To - School" campaign.

Economist Reports On Land Contracts

Due to the high initial investment and large amount of operating capital required, more and more young people are having greater difficulty entering the farming business. These potential farmers may have the necessary capital for one of these expenses, but not enough for both. C. H. Bates, extension farm management specialist, says that land purchase contracts, or deferred payment contracts as they are sometimes called, are being used increasingly to overcome this obstacle.

There are many factors in land contracts that favor both buyer and seller, but there is one important point to remember before entering into one. Bates emphasizes the importance of having an attorney draw up the contract. These contracts cover a long period of time and involve a considerable sum of money; therefore, the advice and assistance of legal counsel is invaluable.

From the buyer's viewpoint, land contracts are favorable because only a low down payment is necessary—often a token amount of five percent or less. This leaves the buyer more freedom to devote greater capital resources to operating or production needs, points out Bates. The purchaser also has the opportunity to gain maximum benefits from unusual managerial skills, and his interest payments are fully deductible for income tax purposes.

On the other side of the fence, the seller benefits from a spread of taxes from capital gains. Selling by land contract increases the number of prospective buyers and permits retention of deed by seller until substantial payments are made. In case of repossession, less delay and expense is necessary.

Land contracts do have their drawbacks, however. They are unfavorable to the buyer because of relatively high interest payments due to the large unpaid balance. He also faces the risk of termination of contract and loss of contract rights when a temporary slump in earnings prevents regular payments. From the seller's viewpoint, less down payment is received, and there is a greater risk of damage to property before the purchase acquires the deed.

Winters Men Receive Call For Induction

Two Winters men have received orders to report for induction into the Armed Forces, according to Selective Service System Local Board No. 21, at Coleman. Ordered to report on September 7 are Johnny Darrell Butler, and Nolan Frank Scarberry, of Winters. On the same order, four Ballinger men were ordered to report. They are Lindsay J. Bailey, Charles E. Fikes, Troy D. Fallie and Milton E. Newsom.

Called for pre-induction physical examinations are Otis Jess Murray, Milton Joe Russell, Homer Weldon Tubbs Jr., Vernon Lee Smith and Kenneth Floyd Hamilton, all of Winters; and Ronny Lee Burns and Ramiro P. Rubio, both of Wingate. Registrants ordered for pre-induction physical examination and induction are selected from Class 1-A registrants, with the oldest being ordered first, according to the local board. The September quota is filled with registrants who are at least 22 years of age, with the exception of volunteers, or delinquents under the law, who may be younger. A total of 19 men from Runnels and Coleman Counties have been called for pre-induction physical examination.

Local Police Attend School At Austin

Winters Police Chief, Joe Stevens, last week attended a five-day criminal investigation school conducted by the Department of Public Safety in Austin. The course covered all phases of criminal investigation. L. H. (Doc) Smith, night patrolman on the Winters force, attended a traffic school conducted by the DPS two weeks ago.

Fund Established In Memory of Martha Davis

A fund in memory of the late Martha Davis has been established here. Money will be used for a scholarship for some girl in nurse's school, or to be given for cancer research. Mrs. John Gardner is forwarding the money received from local donors to a group in Methodist Hospital in Dallas where Miss Davis was employed after finishing nurse's training. Miss Davis died August 18 after being ill for several months. She was the daughter of Mr. and Mrs. LaDell Davis of Winters.

Harvest Of Early Milo About Over

Harvest of the early milo crop in this vicinity is about over, it has been estimated by Winters grain buyers. About 26,350,000 pounds had come in to local elevators up to Wednesday morning. The early-planted milo has given good quality, well-matured grain, with excellent per acre yield. The grain has averaged a heavy 58-59 pounds per bushel, elevator operators said. This year's crop, quality wise, has been

said to be the best in years. Later maturing grain will be lighter, and per acre yield will not be as high, it was guessed. The real late grain may go ahead and mature satisfactorily, if rain is received in time. However, much of the late grain has failed to mature in the head, it was said.

Drive By Big Labor Cause for Threat Of More Inflation

By Congressman O. C. Fisher

Inflation is being talked about more recently than at any time previously this year. The new threat of more inflation stems from two causes: deficit federal spending and the drive by Big Labor for increased wages.

The recent fiscal year ended on June 30 with a \$3.7 billion deficit,

and official estimates are that during the current fiscal year we will take in at least \$5 billion less than the federal government will spend.

It works this way: The more the Government borrows, the more money goes into circulation, and as the amount of money increases it becomes cheaper; that is, it will buy less. So prices and wages go up and up. And the standard of living of those on fixed incomes, those living on savings, etc., goes down and down.

In about 20 years the American dollar has lost more than half of its purchasing power. If its value is taken to be 100 cents in 1939, it now contains the equivalent of 44 cents.

And, on top of the free-spending orgy that has been going on, Walter Reuther has made it plain that he will be shooting for the moon in demands on the automobile manufacturers. The car makers, in an attempt to settle at a moderate raise, offered Reuther a 21-cent hourly increase in wages over the next three years, plus a wide range of improvements in fringe benefits.

"Their offer does not remotely lay the basis for a settlement," Reuther said.

If Reuther succeeds in his goals, as McDonald did in dealing with the steel industry, then the pattern set will be expected to lead to a general wave of wage-price increases. And this, of course, means inflation and more inflation, particularly since it will coincide with the Federal government's deficit spending policies, which, incidentally, are strongly supported by Reuther.

When the town of Newburg, N. Y., announced that under a new set of rules chiselers and cheaters and deadbeats would be removed from relief rolls, the plan gained wide support all over the Nation. In a Gallup poll more than 75 percent of the American people supported Newburg.

But the courts of New York have decided otherwise. An injunction prohibiting Newburgh from enforcing its new rules was granted by a New York court. And Federal government spokesmen have objected. Since the State and Federal government pay a substantial portion of the relief, the Judge held they can write the rules.

TO TEACH IN ROSCOE

Ann Presley left Sunday for Roscoe where she will assume her duties as a commercial teacher in Roscoe High School. During the summer, Ann was employed as secretary by Waukesha Sales and Service in Abilene.

RETURNED HOME

Mrs. L. E. Moore returned home last week from Uvalde where she spent the last five weeks visiting with her daughter, Mrs. Leta Perry.

PROCLAMATION

Whereas the home exposes a person to more hazards in a routine day than he is likely to encounter anywhere else, and

Whereas home accidents occur at the rate of one every eight seconds, and

Whereas a victim of a home accident dies every 19 minutes, and

Whereas Accidents are the leading causes of deaths in the 1 to 35 age group, and

Whereas more than one-half of the accidental injuries annually reported in the United States occur in the home, and there are probably many more that never get into the official records, and

Whereas in a recent year, 28,000 fatalities and 4.2 million injuries were attributed to home accidents, and

Whereas the financial loss arising from these accidents was approximately one billion dollars, and

Whereas in 1959, workers injured in home accidents lost 27 million man-days, an appalling loss to both the worker and the employer, and

Whereas most home accidents are fundamentally the result of inadequate knowledge, insufficient skill and faulty attitudes, and

Whereas these home accident deaths and injuries can be prevented if all members of our families learn to recognize home hazards and take effective action to eliminate these hazards, and

Therefore I, by the power vested in me as Mayor of Winters, do hereby proclaim September to be 1961 Home Safety Month and urge that all citizens of Winters take part in this splendid program to make all of our homes true havens of safety for our loved ones.

Witness my hand and seal this first day of September, 1961.

(Signed) Harvey D. Jones, Mayor

Miss Nevell Fisher Presided For VFW Auxiliary Meeting

Nevell Fisher, president, presided for the regular meeting of the Veterans of Foreign Wars Auxiliary meeting held recently at the post home.

A check for \$5.00 and 50 pocket size books were sent to the Veterans Hospital in Big Spring, according to an announcement made at the meeting. The group decided to send a donation to the Student Nurses Loan Fund and to the cancer fund in memory of Charles French, who served as National Hospital Chairman for the VFW prior to his death. They also decided to send a donation to the VFW Memorial Chapel in memory of Jack Armstrong, who served Department of Texas VFW Quartermaster Adjutant prior to his death.

The group voted to endorse Ann Marshall of San Angelo for Department of Texas Auxiliary Presi-

dent with Mrs. W. L. Collins serving as chairman of the fund raising program.

Those present were Mesdames W. L. Collins, Frank Brown, Joe Cortez, Jack Dodd, James Crockett, D. W. Giles and John E. McAdoo.

The next regular meeting will be held September 18.

RETURNED HOME

Mr. and Mrs. James returned home Monday man where they had been the home of Mr. and Mrs. James Hughes are the parents of the daughter, Rita, who is 26, in Sherman.

"Ben-Hur"
Ten thousand spectators are on their feet, voices raised in a roar that echoes across the arena in a mighty wave. Their eyes remain focused on the circular track where teams of charging horses, those that have survived a grueling test of endurance, thunder toward the finish line. Each driver appears spent as he frenziedly whips his own team in the struggle to be first.

Charlton Heston in the costume which he wears in spectacular chariot race of Metro-Goldwyn-Mayer's Academy Award-winning "Ben-Hur." Heston won the "Oscar for Best Actor." The William Wyler presentation was filmed in Italy and other foreign locales in color and MGM Camera 65.

Along the two-and-a-half-mile course lies strewn the wreckage of gaily colored chariots, their upturned wheels still spinning grotesquely like unbinged windmills in a storm. Hugging the high walls of the arena are stretcher bearers, waiting to rescue last minute casualties. And speeding behind the racers rolls a two-ton truck on which is mounted a giant crane with an oversized motion picture camera suspended from its top.

This is how a journalist might have described the scene in Rome, as five Metro-Goldwyn-Mayer cameras recorded the end of the chariot race for the Academy Award-winning "Ben-Hur." This was the climax of the biggest scene in the biggest movie ever made. Almost three months had been devoted to its filming. But more than a year had gone into its preparation. A two-and-a-half-mile event on the screen, its horses, drivers, chariots and cameras had covered more than 200 miles in its making. It would last approximately twenty minutes on the screen. But the late Producer Sam Zimbalist, William Wyler, who directed "Ben-Hur," Andrew Marton, veteran action director who was in charge of the race sequence, and the others concerned with its filming were determined it would be the most exciting twenty minutes ever recorded on celluloid.

Tommy Sands, Toby Michaels and Fabian are a real cool combo in "Love in a Goldfish Bowl," Paramount Technicolor comedy, due Sunday only at the State Theatre.

"Ben-Hur" comes to the Fiesta Drive-In Friday and will run for seven nights.

"Love in a Goldfish Bowl"

Two top favorites among teenagers — Tommy Sands and Fabian—reverse ages for their roles in "Love in a Goldfish Bowl," the romantic comedy in Technicolor and Panavision, which will bow into town beginning next Sunday at the State Theatre. Sands plays the younger of the two, a college junior, and Fabian will be seen as a Coast Guardsman—his rival for the affections of pretty Toby Michaels, who will appear as a cute, naive co-ed.

His fans will be surprised when they see Sands in the Jurov Shepherd production, for Tommy turned blonde for the role so that he would look even younger than his 22 years. To play the college boy in "Love in a Goldfish Bowl" the singer-actor would probably have dyed his hair green, if that had been called for, because the script was the first one in over a year of searching that gave him the kind of part he'd been looking for. Sands is all actor in this story of rebellious youth and bewildered, young love, although his voice will be heard singing the title song, a song which he has recorded for Capitol Records.

"The Horse With The Flying Tail"

Cameras rolled in five different countries — over an 18-month period — before completion of Walt Disney's latest Technicolor featurette, "The Horse With The Flying Tail."

Producer-director Larry Lansburgh took his location filming crews to ranches in New Mexico and Virginia for initial sequences in the picture, which is based on the true story of America's international jumping champion, Nautical.

In photographic pursuit of Nautical's tremendous success story, Lansburgh "shipped out" with the golden palomino when the U. S. Equestrian team headed for Europe and a series of top-flight competitive events.

First stop was Paris, France, where Nautical was initially tested against Europe's top jumpers.

Low Reunion At Abilene State Park

The Low family held their 35th annual reunion August 19 through August 21. The last twenty-one reunions of the family have been held at the Abilene State Park. Members of the Low family are descendants of J. B. and Patsy Low.

Approximately 67 members attended the reunion this year. Pictures taken during past reunions were shown this year, and the family enjoyed swimming and domino games.

Immediate family members attending were Minnie Gault from Electra, Rebel Houtchens of Harrold, Jim Low from Breckenridge, and Mollie Puckett, Winters.

Jo Ann Alfrey Hosted Breakfast Wednesday For Martha Lloyd

Miss Jo Ann Alfrey hosted a lawn breakfast Wednesday morning at her home, honoring Miss Martha Lloyd.

Florist's arrangement of greenery interspersed with small colorful kitchen gadgets was the focal point of decoration. Breakfast was served from a green and white table with matching accessories.

A shower of small kitchen articles was presented to the honoree. Guests attending were Diane Buckner, Marilyn Mitchell, Carol Smith, Nancy Norman, Margaret Stoecker, Betty Lou Holle, Mona Hamilton, Frances Holle, and Ophelia Dietz.

Mary E. Coleman and Allen W. Jackson Pledged Wedding Vows Friday Evening

Wedding vows were pledged by Mary Edith Coleman, daughter of Mr. and Mrs. Clois Coleman of San Antonio, and Allen Wayne Jackson, son of Mr. and Mrs. Allen Jackson of Winters, in a single ring ceremony Friday evening at 6 o'clock in the Southside Baptist Church.

The Rev. Curtis Morton of Glen Cove, cousin of the groom, officiated for the ceremony. Miss Anna Kaye Brown of San Antonio was maid of honor and Richard Jackson, brother of the groom, served as best man.

Given in marriage by her father, the bride wore a street length dress of white silk organza fashioned with a fitted bodice. Her veil of tulle fell from a tiara of seed pearls and she carried a bouquet of white carnations atop a white Bible.

Following the ceremony a reception was held at the church. A tiered wedding cake and punch was served.

USDA Releases Winter Vegetable Marketing Guides

The U. S. Department of Agriculture has released acreage marketing guides for the 1962-crop winter vegetables for fresh use and winter potatoes. They call for an 8 percent cut in vegetables and 3 percent for potatoes.

The guides, according to Clyde Singletary, extension horticulturist, are designed to assist growers in planning production, that is, balancing production with market requirements.

Singletary points out that the performance of every vegetable grower has a bearing upon the ultimate market for a given vegetable. Therefore, he adds, to improve the prospects for a successful season, each grower should adjust his acreage in accordance with the individual commodity guide. For example, if a reduction of ten percent in the acreage of winter tomatoes from the previous season is recommended, every grower should then reduce his plantings by ten percent.

Experience has shown, says the specialist, when growers keep their plantings in line with the levels suggested by the USDA guides, fewer marketing difficulties are encountered.

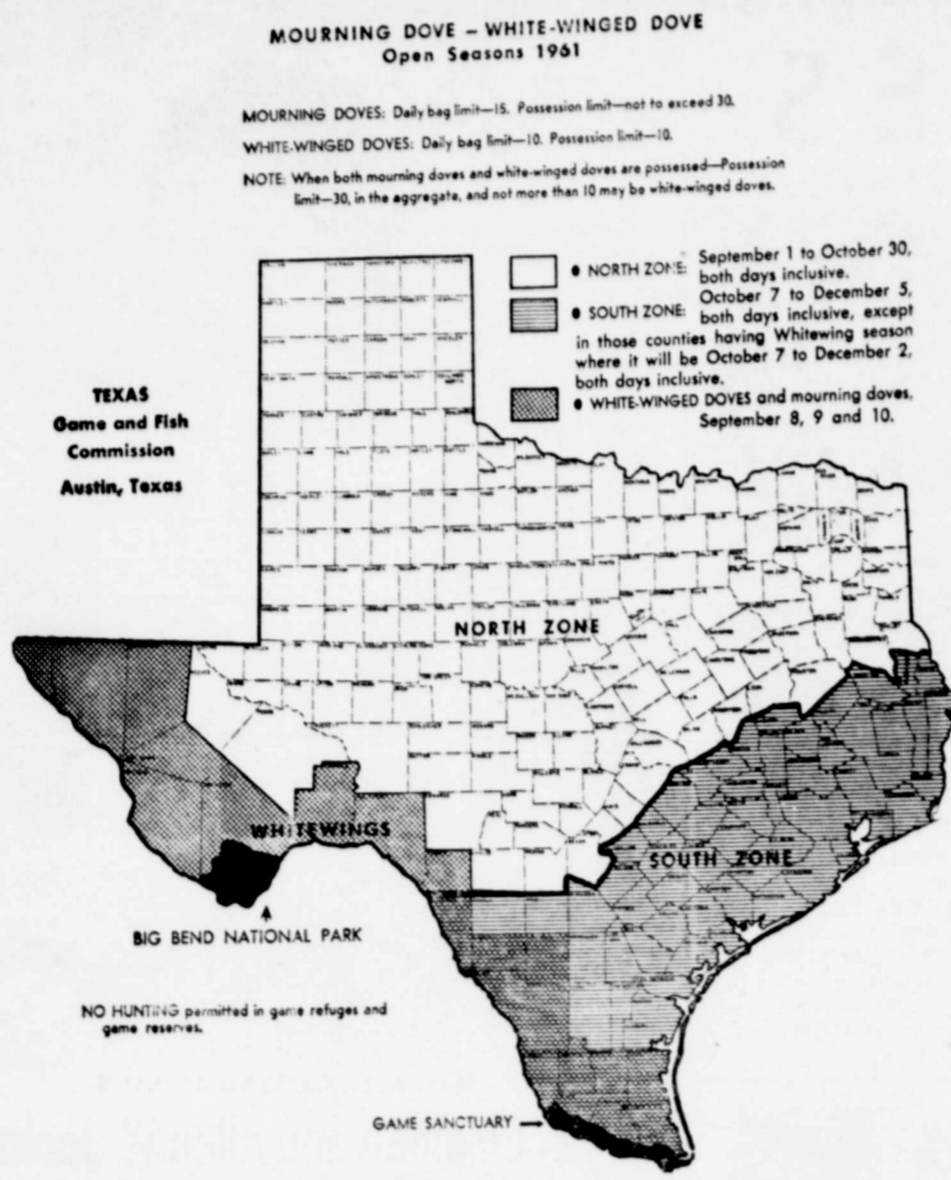

The guides call for no change in acreages of snap beans, carrots, cauliflower, kale and shallots. A five percent increase in spinach acreage is suggested for Texas with no change for other states. Other suggested increases are 10 percent for beets, 15 percent for cucumbers and 40 percent for sweet corn.

Reductions in acreage are suggested for broccoli, 10 percent; cabbage, 20 percent in Florida and Texas; escarole, 5 percent; lettuce, 15 percent in Texas, Arizona and California; tomatoes, 10 percent and potatoes, 5 percent in California but no change in other states.

The 1962 guides call for a total of 232,200 acres to be planted to the 16 winter vegetables included, compared with 251,500 acres planted in 1961.

IN YATES HOME

Week end guests in the home of Mr. and Mrs. W. J. Yates were Mr. and Mrs. Del Gunn, Debra and Jana of San Antonio; Mr. and Mrs. John Sowder of Abilene; Mr. and Mrs. N. E. Egger of Nolan; Mr. and Mrs. Owen Egger, Land, Vernon, Katherine and Alton, Plainview.

HEALTH LETTER

Hay Fever Pollens Increased By High Rainfall

Above-normal amounts of rainfall over most of Texas this summer may portend a bumper crop of hay fever producing pollens this fall. State Health Department officials believe.

If the appraisal proves to be accurate, ragweed will be one of the major offenders, a departmental air pollution engineer said. The Department recommended immediate attention of work crews to cutting rank weed growth in vacant lots, and to inhibiting weed growth by chemical means when it does not present a danger to beneficial vegetation.

"Weed control is one of the most valuable contributions a community can make toward helping hay fever sufferers," said the air pollution control engineer.

Ragweed is considered by authorities to be responsible for the cause of at least 80 percent of the hay fever in the United States. Pollen from the plant, which is fairly well distributed over Texas is much in evidence from mid-August through October.

Estimates indicate that some six to seven million people in the United States suffer from hay fever from hay fever. No estimates are available for Texas, but researchers agree that some three or four percent of the general population is affected.

Ragweed pollen can but doesn't travel very far from its point of origin. Therefore energetic weed cutting campaigns within city limits before pollen sacs burst can be helpful in reducing the amount of pollen released to the atmosphere.

A system of filtering air entering the home can be helpful, too, the experts say. Or, a physician can advise countermeasures after he has determined the offending substance.

Three Texas areas—El Paso, Dallas, and Houston—conduct routine pollen counts for their respective regions.

Symptoms of the malady include watery eyes, running nose, throat irritation and persistent sneezing. The severity of attacks is affected by the wind and weather. Rain in the early part of the day hinders the dispersal of pollen, but does not completely stop it.

Pollen sacs do not open when they are damp or wet, so hay fever control at this time of year is a question of either cutting the weeds or hoping for rain during the pollen shedding season.

To the Citizens of Winters

Let's talk turkey about some of the Mayor's spending program for next year. It affects your pocket book more than you think.

Why does he propose to lose \$10,209.00 of your tax money through the operation of the hospital next fiscal year?

Why does he propose to collect \$19,983.71 more tax-

How does the Mayor think he can legally cut your rights and water off if you do not pay for garbage service you don't use?

Timothy: Disciplined for Service, is the subject for next Sunday's Sunday School Lesson. The following is by Everett W. Palmer. Timothy was a man under orders. As a good soldier he would have to put aside concern for personal comfort and security and give perfect obedience to God, his Commander. As a good Christian he would need to discipline himself to play the game of life according to the rules used by his Master, he could not please himself.

Every one of us likewise is summoned to be a "man under orders." that is the requirement life makes of us and that is the destiny we are charged to fulfill. No one has the prerogative to please just himself.

Special days next week are for: Mrs. Ben Leverett and Jimmy Middleton and a wedding anniversary for Mr. and Mrs. Jerry Dobbins the 3rd; a wedding anniversary for Mr. and Mrs. Truett Smith the 4th; L.
