Blizzards Play In Anson Friday Nite

Following their victory over the Lakeview Chiefs in the season opener here last Saturday night, the Winters Blizzards take to the road tonight (Friday) to meet the Anson Tigers on their own field.

Coach L. G. Wilson's Big Blue team has been working out hard this week, brushing up on technique and ironing out kinks found during the Lakeview encounter. They will go to Anson with the intention of knocking the Tigers from the top rung of the ladder. Anson has been rated top Class AA team in the area, followed by Hamlin and Winters.

Each team has a first game victory under their belt, and the Blizzards will be attempting to duplicate and better their 20-18 victory over Anson last season.

Probably included in the Blizzards squad against Anson will be Steve Grissom, who carried the ball 13 times for a 4.9 yard average against Lakeview; Tommy Young, who ran 8 for a 3.12 average; Johnny Caskey, with 4 times for 3.25; and Denny Aldridge, with a 3 for 1.

Anson walloped Coleman to the tune of 19-0 in Anson last Friday night, out-playing the Bluecats in a high wind. They stacked up 11 first downs to Coleman's 7, and won 159 yards rushing to the Bluecats' 71. In the passing column, Coleman outdid the Tigers, completing 4 of 9 for 29 yards. Anson stayed on the ground for the most part, trying only 3 aeriels. They did intercept 2 of Coleman's throws.

The Blizzards will be especially watchful of Anson's Tall Man, Roger Huber, who racked up 58 yards on 14 carries in the Anson-Coleman game to lead the list for that competition.

Tonight's game will be a non-conference tilt, and a large following of Blizzards fans is expected to make the trek to Anson.

Rural Carriers Will Distribute Acreage Survey Cards Here

Postmaster Rankin Pace announced this week that Rural Mail Carriers will begin distributing 1961 Acreage Survey Cards to patrons about Sept. 14.

The Post Office and U. S. Agriculture Departments cooperatively make this survey each year. These reports, directly from farmers, are the basis for official estimates for Texas acreage of all crops harvested in 1961.

To be sure this community is well represented in the survey, Postmaster Pace urges each patron receiving a card to fill it out and return it to his mailbox.

Rural mail carriers working on this project will be W. S. Cooke, route 1; Ray L. Hollingshead, route 2; Weldon Collins, route 3; and W. E. Little, route 4.

"Story Book of Fashion" Will Be Theme At Annual Fall Style Show Monday

"Story Book of Fashions" is the theme for this year when the Literary and Service Club presents its annual fall style show Monday, September 11, at 8 p. m. in the High School auditorium.

Fashions from Heidenheimer's and the Fashion Shop will be featured and as a special attraction, children will be dressed as story-book characters and pantomime favorite childhood stories between fashion showings.

Mrs. Max Lewis will serve as moderator, Mrs. Floyd Sims will play organ music and Mrs. J. T. Randolph will tell the stories.

Models from the Fashion Shop include Mrs. J. W. Bahlman, Mrs. Dennis Poe, Edna Mayfield, Ginger Gardner, Mary Young and Linda Hill. Heidenheimer's models will be Mrs. Robert Gans, Mrs. Jack Harrison, Mrs. Frank Brown, Pasty Windham, Judy Patterson and Linda Lloyd.

Children playing story book characters will be Kei Bedford, daughter of Mr. and Mrs. Marvin Bedford; Jerry Lynn and Susan Ward, children of Mr. and Mrs. Jerry Ward; Debbie Lloyd, daughter of Mr. and Mrs. Raymon Lloyd; Becky Brown, daughter of Mr. and Mrs. Griff Brown; Tawnya Smith, daughter of Mr. and Mrs. Bud Smith; Tawnya Waggoner, daughter of Mr. and Mrs. D. School Enrollment Shows Increase

WINTERS SCHOOLS WILL DISMISS FRIDAY AT 3

Winters schools will dismiss early—3 p.m.—Friday, Sept. 8, in order for buses to make regular routes before the Anson game.

All regular routes will be run at 3 p. m. and buses will leave for Anson at 4:45 p.m. There will be a 30 minute stop at the Dixie Pig in Abilene at 5:45 with buses leaving Abilene to reach Anson by 7:30 p.m.

Enrollment in the Winters Independent School for the first day of the 1961-62 school term shows a gain of 14 over the first day enrollments one year ago, James B. Nevins, superintendent, reports.

Total enrollment as reported by principals of the three school divisions shows a drop of nine pupils in the elementary school, but gains in high school and in the primary departments.

An additional 50 to 75 students are expected to enroll in the next week of school, if this year's enrollment pattern follows that of previous years, it was said.

Enrollment figures for this year, compared with the previous year, are:

High School—1960, 298; 1961, 319.
Elementary—1960, 459; 1961, 450.
Primary—1960, 294; 1961, 296.
Totals—1960, 1051; 1961, 1065.

CD Meeting Held At Winters City Hall

A meeting on first aid and rescue was held recently at the City Hall with W. L. Collins, associate director conducting the meeting.

W. D. Waggoner gave a talk on first aid and showed how to use some of the first aid equipment of the fire department. Mayor Harvey Dale Jones announced that a Civil Defense meeting for staff members and others interested in taking the course, would be held the fourth Tuesday of each month.

Those interested in taking the first aid course are requested to contact Dr. Don Bedford, first aid staff member of the Civil Defense.

Approximately 30 members of the Veterans of Foreign Wars and Auxiliary first aid teams and Jaycee-Ettes attended the meeting.

Adolph Gottschalk Has Returned Home After Year in Germany

Adolph Gottschalk, son of Mr. and Mrs. Hans Gottschalk, returned to Winters recently after a twelve month tour of duty in Germany, where he was employed by the United States Army Dependent Schools as a teacher of commercial subjects.

During his stay in Germany, he was able to visit and tour most of the European countries. Points of interest visited were Paris, Rome, Switzerland, Luxemburg, Vienna, Prague, Warsaw, Moscow, Leningrad, Stockholm, Oslo, Copenhagen, London, Brussels, Amsterdam, Leichtenstein, Monaco, Berlin and various other places in Germany.

Winters-Brady Game Tickets Will Be Ready Wednesday

The Winters school business office has received 400 reserved seat tickets and 200 student general admission tickets for the Winters-Brady football game scheduled for Friday night, Sept. 15, at 8 p.m.

These tickets will go on sale Wednesday morning, Sept. 13, at the school business office.

Reserved seat tickets for this game will sell for \$1.25 and student tickets sold in advance will be 25 cents.

Council In Special Session Thursday

The Winters City Council was to meet in special session Thursday night to canvass the ballots of the special election held Wednesday of last week, and to install the councilman, Wesley M. Hays, who was elected to the unexpired term of J. F. Richie.

Election of Hays to the Council now brings that body to full strength, with five councilmen.

Mayor Harvey D. Jones said that some other business would be brought up during Thursday's meeting.

Eddie Little Named Director Of State Photographers

Eddie Little, Winters photographer, has been appointed a director of the Texas Professional Photographers Association for the 1961-62 term, it has been announced by Lester M. Lande of San Antonio, president of the association.

Little, a portrait and commercial photographer in Winters for the past several years, plans to attend the 48th annual TPPA convention to be held in San Antonio January 13, 14 and 15, at which time photographers from throughout the United States will address the Texas group and demonstrate the latest methods and tools used in photography.

Little is past president of the Central and West Texas Photographers Association, serving as its first president. He is also a past president of the Winters Country Club, and has served on the TPPA board since 1955. He is a graduate of Rice and the Winona School of Photography.

Mrs. W. A. Eoff of Winters is visiting in Abilene this week with her daughter, Mr. and Mrs. William Rogers and family.

Cloudburst Dumps 5.75 Inches Rain

The Labor Day weekend cloudbursts in the area dumped 5.75 inches of rain on Winters, but damage was reported slight if any, in contrast to the heavy damage received to the north and in the Abilene area.

Both the old and the new City Lakes were filled to capacity again, and water poured over spillways at both reservoirs. No damage was reported, however.

Some damage was seen on FM 53 west of Winters where water ran across the road. The small creek which separates the Sunlawn and Leeman Additions from the rest of Winters rose rapidly after the rains, and stopped traffic at one place on West State street for a time.

Streets in downtown Winters were filled with water at times during the heavy rains, but no reports were received of water entering buildings or doing damage. Several residents reported that many small birds had died during the rainstorm, and had fallen from trees.

Winds were reported to have caused some damage to ripe maize in the Wingate area, where 6.50 inches of rain was received. Valley Creek got out of its banks, and all stock tanks in the area were reported to be full.

Cotton was said to have received little damage, although shaken by the winds. One report said that a corrugated steel barn on the Jim Patton farm, 2 miles southeast of Wingate, was destroyed by winds which accompanied the rain.

Almost 10 inches of rain was said to have fallen in an area north of Wingate.

VISITED GRANDMOTHER

In the crowd's nest are, left to right, Marcece Matthies, drum major, Pamela Bedford, feature twirler. On the ladder, top to bottom, are Tamala Gans, Barbara Baldwin, Russell Bedford, Mary Young and Judy Matthews. (Little photo).

VISITED PARENTS
Button Little, who is employed in Lubbock, spent the weekend visiting his parents, Mr. and Mrs. Bud Little. He has enrolled at Texas Tech for the fall semester.

FROM WACO
Mr. and Mrs. Fred Rhoads of Waco are visiting with Mr. and Mrs. Alfred Russell, Mr. and Mrs. Winfred Reel and family, Mr. and Mrs. Bill Hill and Darrell.

AUTOMATION—The staff at the City Secretary's office gather around while Hank Horton, office machine company representative, explains the many capabilities of the new bookkeeping machine recently installed. Mrs. Walker Ta-

tum is seated at the machine while Horton points out some of the features. Standing are Charles Hester, acting city secretary, Miss Kieta Gerhart and Eunice Polk. The machine is said to be capable of computing taxes, computing

and preparing payroll checks, preparing utility statements, and budgetary control. Miss Gerhart has been a summertime employe at the City Hall. She will return to the University of Texas this fall where she is working toward a BBA degree. (Photo by Little)

ON THE GO—Steve Grissom, 165 pound sophomore fullback, heads for payoff territory for the winning touchdown in last Saturday night's Winters-Lakeview encounter here. Steve carried the ball 13 times for an average of 4.9 yards per trip. (Little photo).

Roger Babson

Advises Young Couples To Live Near Trading Centers, Buy Insurance

Babson Park, Mass. The New York Stock Exchange roughly divides into 50 groups the approximately 1500 stocks which are listed thereon. The electronics and the oils are the most active, but the retail stores have shown the most steady progress. This group includes the supermarkets, of which there are about 25 large chains.

Supermarkets are a Monopoly
 A successful supermarket must have three requirements: (1) It

must be located in the center of a growing population, (2) it must have a very large parking space, (3) it must be financed slowly out of its own growth. This means that a successful supermarket is more or less of a monopoly after a sufficient number of successful years.

As our population increases it becomes constantly more difficult to secure a sufficiently large and central location. Furthermore these locations are constantly becoming scarcer and much harder to find near the residential sections. At one time we thought that "off street" parking lots would satisfy city shoppers. Unfortunately, however, women with children do not want to travel from an "off street" parking lot to the supermarket. They insist on parking directly on the land of the supermarket where a boy can wheel the purchases to the woman's car and where there is no time limit or parking fee.

Importance of Food

Food is the most important of all commodities. The farmer should receive more than he does, but his price is not for him to determine. The party who makes money on food is the middleman, who buys when and where food is cheapest.

Another commodity that has had a steady increase in demand is electricity. Hence I like supermarkets as a speculation and the cumulative preferred stocks of public utilities for steady income. To keep track of your investment, buy the common stock of the super-

ermarket with which you trade and the preferred stock of the company which supplies your electricity and bills you each month.

What About Shopping Centers?

Shopping centers are popular at the present time. But only the ones properly located have been successful. Merchants located in these shopping centers are doing much better than the downtown stores. Many of the old-fashioned city stores which have no parking facilities are making most of their money today from their suburban branches that have limited parking facilities. Therefore, the shopping center has its limitations.

If a shopping center is too large, it becomes less desirable to many women shoppers. Many shopping centers today are doing 3-4 of their business on Friday and Saturday. Then the father, mother, and children all go together and make a day of it. All of this brings us back to the value and convenience of the supermarket which is properly located in a residential district and which has already purchased a large amount of land that will permit free parking for many years to come.

An Investment for Young People

Young married couples are learning that by living close to a modern supermarket (like the new Stop and Shop Markets) they can get along without cooking. The father can get his own breakfast; lunch is a simple meal; and a freshly baked already-cooked complete dinner may be secured from the supermarket. As a result, the small houses surrounding the supermarket have almost doubled in price. This increase in demand comes primarily from living so near a supermarket. But, of course, the supermarket is gradually buying houses adjoining its land.

A young married couple should first put their money into simple life insurance, which can now be bought very cheaply. Next, always have a reasonable deposit in a local bank for emergencies. The best plan of all, however—is to own a small house next to the land for a supermarket. Furthermore, if a family decides to move to another city for business reasons, there is always a good demand for such property. In short, I am bullish on good supermarkets and the neighborhoods in which they are located. But one should avoid newly organized supermarkets.

Even back in grandpa's time there was something to make you sleep. They called it work.—Phoenix Flame.

LONE STAR AGRICULTURE

Head smut disease of grain sorghum occurs in all areas of Texas. Losses are likely to range from 0 to 25 percent in the Coastal Bend area of Texas. The disease, in recent years, has been building up in other areas, and losses of 5 to 10 percent are not uncommon. The value of badly infested land is lowered.

Close examination of the stalk near harvest is necessary to determine disease loss. With many infected varieties and hybrids, the head is sterile. In such cases, the blackish, powdery smut is found by pushing the leaves and checking lower on the stalk. On other varieties and hybrids, the main head will be smutted and destroyed.

In harvesting a badly-infested field, smut comes from a combine in a black cloud. When the smut gall first appears, it is covered by a whitish membrane. The membrane soon breaks and allows the black dust (spores) to be scattered by the wind and rain. The fungus disease overwinters as spores in old plant trash or in the soil. The following spring and summer the spores germinate and produce smaller spores of another type, which in turn, infect the sorghum plants through the roots. The fungus grows up through the roots and stalk to complete its life cycle. Infection of the root may occur at any time during the growth of the sorghum. In the absence of grain sorghum, disease spores in the soil gradual-

ly die. However, some may remain alive for an undetermined number of years. The fungus builds up in the soil when regrowth is allowed to develop. When head smut is expected to

be serious, it is recommended that growers avoid the use of highly susceptible varieties and hybrids.

Does the Mayor have the authority to cut your water and lights off because you do not have need of garbage service? If he can dictate to you in that, could he not also dictate to you when and how you pay your taxes? Could he not cut your water and lights off if you failed to pay your taxes on time?

The water and light plants were built from money borrowed from people who's only means of getting their investment back is from the profits on the sale of water or lights. The water works has no competition so you have to patronize it. If the Mayor decides you should pay for garbage hauling, you pay it or get your water cut off (if the Mayor so dictates).

The light plant has competition. The only purpose to be served by cutting your lights off, if you do not use garbage, service, would be to cause you to patronize the competitive light company. Surely a person elected to the highest office of your town would not intentionally work against your best interest, do you think?

Do you own your home? Most of us are paying for one, which we hope to call our own some day.

The light plant was bought on the same plan most of us used to buy our homes. We use the money we would pay as rent to pay for a home. The improvements we make to it make it a better home. We have the satisfaction and pride of saying "our home" as long as we keep up the payments. We would not, however, try to tear our home down in order to cheat the man who loaned us the money to buy it.

To buy your electricity from WTU Co., who is controlled by the Central and Southwest Holding Co., is like renting your home from some out of state investor.

Of each dollar you pay for electricity when you "BUY IN WINTERS" 34c goes to pay out and improve your home plant. Of each dollar you pay to your home plant 45c stays in Winters to help build your town, educate your children, and relieve your tax burden.

Every dollar you pay the Central and Southwest Holding Co. (WTU Co.) you are gradually tearing your house down.

Each customer the Mayor runs away from your home plant takes another board off your own home.

MRS. GEORGE EARLE DAVIS (Photo by Little)

Dianne Sims and George E. Davis Repeated Wedding Vows Saturday

Floor candelabras holding white tapers marked the aisle of St. John's Lutheran Church Saturday, September 3, at 7 p.m. when wedding vows were repeated uniting Josephine Dianne Sims, daughter of Mr. and Mrs. G. Floyd Sims and George Earle Davis, son of Mr. and Mrs. Lloyd G. Davis of Grand Prairie.

The Rev. H. K. Flathmann, pastor, officiated for the double ring ceremony before an altar flanked with candelabras holding white candles and two urns of white gladiolus.

Mrs. Bob Bartlett of Ballinger, organist, played traditional wedding music and accompanied Johnny Taylor of Fort Worth, soloist, who sang "I Love You Truly," "Because" and "The Lord's Prayer."

John Sims, brother of the bride, and Arthur Davis of Grand Prairie, brother of the bridegroom, were candlelighters. Debbie Lloyd was flower girl and Drew Flathmann, ring bearer. Ronny Mapes and Gaylan Britton of Grand Prairie were ushers.

Larry Collins of Houston served as best man and groomsmen were Warren Neilson, of Longview, Homer Hill, Chicago, Ill. and Gaylan Britton of Grand Prairie.

Mrs. Henry Logan Mangum of Denton was matron of honor and bridesmaids were Dolly Davis of Grand Prairie, Carol Reece of Tyler and Melinda Moses of Coleman. They wore identical tangerine colored dresses styled with portrait necklines, elbow-length sleeves and bouffant skirts. Their headresses were double circles of matching veil topped with taffeta roses. They carried bouquets of white gladiolus and stephanotis.

The bride, escorted by her father, was given in marriage by her parents. She wore a white bridal satin wedding gown fashioned with portrait neckline and long sleeves extending to a point at the wrist. A full length appliqued alencon lace panel accented the gown which extended into a chapel train. Her bouffant shoulder-length veil was topped with stephanotis and seed pearls and she carried a bouquet of gladiolus and stephanotis.

Following the ceremony, a reception was held in the home of the bride's parents. Mrs. Luther Minzenmayer greeted the guests and Dolly Davis presided at the register. Melinda Moses directed the guests to the bride's table

which was laid with white net over satin and centered with the bouquets of the bride's attendants. A four tiered wedding cake and triple silver candle holders with white candles completed the table decorations. Mrs. Henry Mangum served cake and Carol Reece ladeled punch from a milk glass punch bowl. Other table appointments were of milk glass.

Other members of the house party were Mesdames Harold Poe, James Buxkemper, John Edward McAdoo, Graydon Dean, Frank Johnson, Carla Melson, Lloyd Roberson, Pat Wessels and Mr. and Mrs. Lawrence Jacob.

For a wedding trip to Maine the bride wore a two piece burnt orange suit with black reptile accessories. Her corsage was from the bridal bouquet.

Enroute to Maine the couple will visit with the bridegroom's grandmother. Mrs. Arthur C. Plath in Hamilton, Ohio, with his aunt and uncle, Mr. and Mrs. Joe Castellucci in Reed Bank, New Jersey. From there they will go to Long Island, New York where they will spend several days visiting in the home of Mr. and Mrs. Paul Weill. After making sight-seeing tours in New York City, the couple will drive to Outer Creek, Mount Desert Island, Maine where they will spend the remainder of their honeymoon in the Castellucci's summer home. During their stay on beautiful Mount Desert Island, the couple will take a ferry trip to Yarmouth, Nova Scotia. While in Maine Mr. and Mrs. Davis will go deep sea fishing on an early morning trip with a lobster fisherman and mountain hiking. The couple will return to Denton in time to register for the fall term at North Texas State University.

The bride, a graduate of Winters High School, is a senior at North Texas State University. The bridegroom has served four years in the Naval Air Corps and has attended Arlington State College and North Texas State University in Denton where the couple will reside at 409 Parkway.

IN ROSWELL, N. M. Mr. and Mrs. L. M. Eoff of Winters, Mr. and Mrs. Joe Chism and Jonell of Abilene and Mrs. Mozelle Dearman of Phoenix, Arizona spent Labor Day in Roswell, N. M. visiting with Mr. and Mrs. Fred Dumas and family.

Hallowe'en Carnival Plans Completed At Jaycee-Ettes Meeting

Plans for the Hallowe'en Carnival to be held October 31, were completed at a called meeting of the Winters Jaycee-Ettes Tuesday afternoon in the James Colburn home.

The carnival will be held from 6:30 until 10 p. m. at the old Farm Supply building on West Dale. Committee chairmen gave their reports and refreshments were served to Mesdames James Buxkemper, James Morrison, James West, John McAdoo, Bill Sharps, Bill Chapman and James Colburn.

CARD OF THANKS

Our heartfelt thanks to all who extended comforting sympathy and help in our recent sorrow. For the beautiful service, floral offerings, and other kindnesses, we are deeply grateful. A special thanks to Dr. King for his kind consideration of the family and also Mr. and Mrs. Authur Clark. Mrs. W. S. Smith and girls.

Sales Tax Law Causing Confusion
What Is or Is Not Exempt

WERN SANFORD
Press Association

Groups of protest boiled among consumers, merchants during the application of the general sales tax. Arguments also ensued over what is subject to tax, and what isn't. Although State Comptroller Robert S. Calvert issued bulletin after bulletin explaining what is covered by the tax, it was evident

that much time will have to pass before everyone concerned clearly understands the new law.

No one would venture a guess as to how many telephone calls were received by the Comptroller's office during the first week. The multitude of businessmen converging on the Capitol to seek information or lodge complaint gave Comptroller Calvert not a moment's peace.

Meanwhile at the other end of the line—the direct contact point for collection of the extra pennies—clerks, especially those in supermarkets, were equally harried. There had been so little time for them to bone up on the many exemptions and intricacies of the new way of taxing Texans.

Probably the most universal scheme to beat the tax emerged in coffee shops across the state. If the coffee tab for the group came to 25 cents or more, there was no sense in one person picking it up and having to pay an extra penny.

CHICKEN PRICES FIXED?
Texas chicken eaters who have been enjoying their favorite fare at phenomenally low market prices this summer have been given something to think about by Atty. Gen. Will Wilson.

"I want to determine if there is an effort to price the Texas poultry producer out of business," he said as he launched an investigation into the matter. "If our Texas broiler raisers are squeezed out of the market with below-cost prices, the ultimate result will be scarcity and sky-rocketing retail chicken prices."

Wilson said that since August, 1960, there has been a decline of some six cents per pound in the price paid broiler producers in Texas, to a low of 12 cents or less. He pointed out that 14 to 16 cents per pound is the usual cost of raising broilers.

The Attorney General is invoking a court-of-inquiry to investigate the possibility of anti-trust violations.

DRIVERS SLOW DOWN
State Highway Department survey indicates a continued slowdown in average speed on Texas highways. This year the study indicated an average of 55.3 miles per hour for passenger cars clocked by hidden radar at 25 locations over the state. This compares with 55.9 MPH in 1960, and 56.2 MPH in 1959. Average speed for trucks was 50.1 MPH, compared with 51.2 MPH last year. Buses slowed down slightly from 60.7 MPH last year to 60.5 MPH in the recent survey.

LIEUTENANT GOVERNOR'S RACE SHAPING
Many eyes of Texans are beginning to look in the direction of the Lieutenant Governor's office, vacated by Ben Ramsey's appointment as Railroad Commissioner.

One candidate, Republican O. W. Hays of Temple, has announced he definitely will be in the race. Other definite possibilities include House Speaker James A. Turman of Gober, Sen. Crawford Martin of Hillsboro, Sen. A. M. Aikin Jr. of Paris, Sen. Preston Smith of Lubbock, Sen. Bob Baker of Houston and Don Yarbrough of Houston. Yarbrough ran against Ramsey last time.

NEW IDEA FOR PADRE ISLAND
Land Commissioner Jerry Sadler tossed a new idea into the breach of controversy over what should be done with the playland potential of beautiful Padre Island.

The beaches, he said, should be turned into a state park—not turned over to the Federal government for a National park as has been proposed. He said the proposed Federal project would take about 200,000 acres of submerged lands which already have yielded more than \$12,000,000 for the state permanent school fund, and which have a potential of at least \$1,000,000,000 in oil and gas development.

"It is imperative that the School Land Board act immediately and wisely to set aside beaches as state recreational areas and affirm our intention to hold the full billion dollars of potential mineral wealth for our future school generations," Sadler said in a letter to Gov. Price Daniel.

He requested appointment of a statewide committee to study feasibility of his proposal.

INSTITUTIONAL WORK WEEK CUT
More than 9,000 state hospital and special school employees, forced to work longer hours than other state workers for several years, got the break they had been waiting for when the Hospital Board invoked the 40-hour week throughout the system.

Legislature had given the board the option of hiring additional employees and reducing the 44-hour week to 40, or of retaining the longer work week and giving present employees pay raises. The money was provided to do it either way.

"This new work schedule will make it possible to retain and attract more qualified personnel," board chairman French Robertson of Abilene said.

TOUGHER SECURITY FOR GATESVILLE

Recent serious trouble at the Gatesville State School for Boys has led to tighter security measures.

Dr. James Turman, Executive Director of the Texas Youth Council, reports that horses and jeeps will soon be placed in service for patrol purposes, and men will be equipped with walkie-talkies.

"We want to give evidence of authority," he said.

Although guards will not be armed, he pointed out that "every man knows he can use physical force to control his company." He also noted that many problems will be eliminated with completion next year of a maximum security unit to be known as Mountain View School, one and one-half miles from the Gatesville school. A double fence with barbed wire on top will surround this unit.

"We are not dealing with Boy Scouts or Sunday School classes," said council member Robert W. Kneebone.

AUTOMATIC TAX CHECK DUE
Internal Revenue Commissioner Mortimer M. Caplin, on a recent visit to Austin, dropped the hint that automation in the processing of income tax returns may ultimately eliminate spot-checks and permit scrutiny of every return in detail.

He said an automatic processing system soon will be put into service that will quickly spot individuals and business firms failing

to file returns, check mathematical accuracy and other data.

Center of the tax accounting system will be in Martinsburg, West Virginia, where a master file of business and individual taxpayers will be contained. Returns from district offices will be sent to nine regional centers where data will be magnetic-taped to be sent to the computer center for processing.

SHORT SNORTS

Watch out for "bootleg" oysters, warns the State Health Department. Traffic in these items is "troublesome and dangerous." Buy only those oysters known to be produced in Texas under State Health Department certification.

Twenty University of Texas scientists will be touring Texas junior and senior high schools this year, giving lectures, demonstrations, guidance and serving as members of panel discussions.

Sharp decline in gambling stamps issued by the Federal government in Texas has been noted. Record shows Corpus Christi, 11; Galveston, 9; Houston, 7; Victoria,

7; San Antonio, 7; Austin, 2; Waco, 1.

Two deaths due to bubonic plague were reported in a neighboring state during June and July. No cases have been reported in Texas since 1920, although State Health Department says the disease is widespread among extreme West Texas prairie dogs, mice, etc.

State's red ink amounts to \$72,000,000 according to State Treasurer Jesse James. Impact of resumed school payments will be offset somewhat by new sales taxes.

UT Ex - Students' Association will honor U. S. Navy Secretary John B. Connally with distinguished alumnus award in November. He will deliver the principal address at a November 10 banquet prior to homecoming activities.

WEEK END VISITORS

Week end visitors in the home of Mr. and Mrs. Monroe Boles were Mr. and Mrs. J. R. Allen, Cynthia and Eva of Bryan.

Check Stations For Deer Kill Are Discontinued

Deer checking stations generally over the state will be discontinued during the next hunting season. This has been announced by H. D. Dodgen, executive secretary of the Game and Fish Commission.

They were manned by biologists seeking information about the age and other characteristics of the deer killed. These check stations also established the number of deer taken, both in does and bucks and the number of hunters who took them.

"They have served their purpose in many areas, and we feel little more good can be accomplished by them, except in a few counties where information of this kind is not available," he said.

Death Of Tommy Sims Not Laid To Football

The death of Thomas Harry (Tommy) Sims here August 21 after fainting during a football workout was due to heart failure, with the workout having no bearing on the death, it was revealed here Tuesday.

Dr. C. T. Rives, the family doctor, read a statement to the parents, Mr. and Mrs. Floyd Sims, after a report on an autopsy had been given him by Dr. Jarrett Williams of Abilene.

The statement said death was due to "myocardial (heart) failure preceded by ventricular fibrillation due to electrolyte imbalance, cause unknown." (Electrolyte imbalance was explained by Dr. Williams as a distortion, or imbalance, of certain qualities of the blood.)

"It was determined by the autopsy that playing football had no bearing on the death," Dr. Rives added.

Also present for the reading of the statement Tuesday afternoon were John Norman, a member of the local school board, and the Rev. H. K. Flathmann, pastor of St. John's Lutheran Church and the family pastor.

Funeral services were held Aug. 23 for Tommy, who would have been a junior at Winters High School this fall.

L. G. Wilson, Winters High School football coach, said Tommy had just completed a 175-yard warmup lap with the team when he fell to one knee and complained of feeling ill. The boy lost consciousness and died enroute to the Winters Municipal Hospital.

Western Compress Sells To National

Spencer Brown, president of National Compress and Warehouse Company, has announced that he and his associates, Stanton Brown Jr., and Walter Dossett Jr., have purchased the plants owned by the Western Compress and Storage Company. The company owned compresses at Hamlin, Sweetwater and Rule, and warehouses at Abilene and Winters.

The company operated a cotton compress in Winters several years ago, but now has only the warehouse here. Louis Heard is manager of the Winters warehouse.

Amount of the purchase price was not revealed but the properties included in excess of a million square feet of sprinklered storage area, it was announced.

Spencer Brown is to be president and general manager of a new company which is being formed and whose name has not been announced.

These plants will be operated out of their Waco general office. Temporarily, the present general office in Abilene will continue to perform all its normal duties until the change-over can be completed. The properties are to change hands prior to Oct. 1. There are no plans in regard to any personnel changes, it was announced.

These five plants have a storage capacity of about 200,000 bales of cotton. This will make a total of 20 plants, with a storage in excess of 700,000 bales, now being operated out of their Waco General Office, Brown said.

Homecoming At Drasco Held On Labor Day

The third annual Drasco Homecoming, which was to have been held Monday at the Abilene State Park, was held, due to rainy weather, at the home of Mr. and Mrs. P. F. Lail, 3349 South 20th street in Abilene. Mrs. Lail has served as president of the group since its organization in 1959.

Rain and unseasonably cold weather failed to prevent old friends from getting together in happy visitation, relating experiences of the past; and viewing old photographs, and recent movies of the Stamford and Winters rodeos, together with movies made on the Lail ranch, south of Abilene. Games of dominoes and "forty-two" were enjoyed by the group. A buffet luncheon was served at noon, and pictures were made in the afternoon.

During the business session, following the reading of the minutes but the secretary, Mrs. John L. King, of Abilene, Mrs. Lail and Joe Baker of Winters, were re-elected president and vice-president, respectively, for the coming year. Earl Dorsett, of Winters, was elected secretary.

A lovely hand-painted picture was presented to Mr. and Mrs. Lonnie Collingsworth of Lubbock, the couple who came the greatest distance. Other prizes were awarded to John L. King, Mrs. Joe Baker, J. C. Massengale of Lubbock; Mrs. Tom Massengale, of Killeen; and little Karen Spencer of Hamilton. The pictures, depicting scenes of Bluff Creek and surrounding areas, were painted by Mrs. Lail.

Obituaries of former members of the Drasco community, who have passed away during the past year, were read: Sam Kelly, Mrs. Clyde Dorsett, Ed Belew, Miss Lottie Ingram and Mrs. J.H. Crow.

Guests who registered included: Mr. and Mrs. Lonnie Collingsworth, and J. C. Massengale of Lubbock; Mr. and Mrs. Bonnie Puckett of Comanche; Mr. and Mrs. Tom Spencer and granddaughter, Karen Spencer of Hamilton; Mr. and Mrs. Tom Love Massengale of Killeen; Mr. and Mrs. P. F. Lail and Mr. and Mrs. John L. King of Abilene; Mr. and Mrs. Joe Baker and Mr. and Mrs. Earl Dorsett of Winters.

FROM PEARSALL
Christi and Randy Davis of Pearsall recently visited in the home of their grandparents, Mr. and Mrs. Pete Davis.

Should Resume Nuclear Testing Before Too Late

By Congressman O. C. Fisher

It's time we resume our nuclear tests. Time may be running against us. Improvement in A-bombs can only come as a result of testing, and we simply cannot afford to allow the Russians to get ahead of us in that field. In fact, it may be that the Soviets have been secretly testing all along by using underground sites. Such tests are difficult to detect.

It has become evident that the Kremlin has been playing for time while engaging in extended nuclear control talks at Geneva. It has been a stalling operation, capped suddenly last week by the announcement of test resumption. The next day they set one off, indicating they had been preparing for the test while pretending to negotiate in good faith.

Khrushchev's threats about the super bomb, coupled with the new test, is believed to be a part of Soviet scheme to terrorize the world and in that way attract the panic-stricken neutral or uncommitted nations to the Russian orbit. Actually, our scientists believe we are as far along on development of a supermegaton bomb as are the Communists. In fact, in all likelihood we are further advanced unless they have been testing on the sly. In stockpile we are much ahead of them.

The new Russian technique of blackmail and intimidation may backfire, observers here believe. The effect may be to further solidify the west in the power drive now going on. And the neutral nations may not be as easily scared as Khrushchev has planned. Nasser, for example, has condemned the Russians for resuming the tests, and even Nehru has been critical.

In analyzing the Soviet motives for breaking off control negotiations, followed immediately by a nuclear test, while at the same time boasting of their new bombs, observers are convinced it is a psychological move timed to coincide with the Berlin crisis and the Belgrade meeting of the neutrals, now going on.

Funeral Rites For R. D. Pounders Held Last Friday

Funeral services for R. D. Pounders, 71, of Winters, were held Friday afternoon in Spill Memorial Chapel with the Rev. Virgil James, pastor of the Southside Baptist Church, officiating. Burial was in the Bradshaw Cemetery.

Mr. Pounders died at 12:30 p.m. Thursday in Big Spring following an extended illness.

Mr. Pounders was born February 10, 1890 in Alabama, and came to Bell County, Texas with his parents in 1896. He lived in Brown and Callahan Counties until 1925 when he moved to Runnels County. In 1950 he moved to Tuscola where he lived until 1956 when he moved to Winters.

He married Claudia Thackston on October 22, 1910 at Rising Star.

Survivors include his wife, of Winters; five daughters, Mrs. George Newby and Mrs. A. G. Buchanan of Ballinger, Mrs. M. L. Herrington of Odessa, Mrs. Herman Browne of Winters and Mrs. F. G. MacGowen of Bellaire;

DOORS IN TEXAS

So Bill gave his worms away at first. Well, you must know the rest. All it takes to get fishermen scrambling for a new lure is to see a whopper landed on it. And believe you me the whoppers started taking the "Catch-Em-Quick" lure right from the beginning.

So, from such an humble start Norton's lures emerged from the bottom of the lake to the top of the sales chart. In some areas they were in such demand that dealers "black marketed" them to preferred customers for as much as \$2.50 per worm.

Today the plastic worm is available everywhere. It is one of the most inexpensive of all lures available. Now the giant worm looms upon us. And it's beginning to take over the country.

Although Bill doesn't pretend that the giant Texas worm is for fishing purposes (it being designed as a conversation piece, primarily, or a rumpus room wall decoration) he says he has had reports from Gulf Coast fishermen claiming success with it in salt water.

Who knows—it may be the next big attraction on the Gulf.

Anyway no one can say that "Catch-Em-Quick" lures haven't caught on quick.

KINGS GO FOR BINGOS

Just the other day four of us flew down to Freeport for an overnight stop and a day of fishing for Kings. Although the water was a bit rough the fishing was good. What fascinated us most, however, was the way the Kings hit the Bingo baits which Doug English had so thoughtfully furnished Raymond Muchowich for use on his Party Boats.

We used the Bingo baits on eight pound line on Ambassador reels—and brother did we have a ball! These 10-pound Kings bent that light-weight Garcia rod almost double.

Naturally you had to use a long steel leader to keep the King from snapping the line immediately—but if you handled the fish right you could get him in close enough for gaffing. Sometimes it took a ten or fifteen minute battle. But who's to deny that that isn't the

STRUGGLE OF THE MASSES—This is not a scene at New York's rush hour subway. Students at University of Minnesota set a record of sorts by piling 101 of themselves on a mattress.

biggest fun of fishing? So if you're going to the Gulf take along some King Bingos and you'll have the time of your life. They are a Mullet-type of lure, as opposed to the broader, Perch-type.

Another favorite is Lucky-U. It is more of a Perch-type lure, not so lanky, and with a more rounded nose.

Doug is doing a lot of experimenting with artificials on the Gulf Coast and fishermen seem to be racking them in with these new baits.

Advantage of course is that you save time in baiting up a hook and you don't have to take live bait or cut bait with you when you go out.

If you make your trips in the middle of the week, or the forepart, you'll have less competition. Week-ends are when the crowds jam the Gulf Coast fishing spots.

You'll find the best weather then, too—because any fisherman can tell you that it always rains on week-ends.

Whenever you go, we urge you to take along your lighter gear. We did some bait fishing, but we must admit we got our greatest enjoyment out of using light-weight gear and artificial lures.

R. D. Collins Honored At Party At Crews Gymnasium Thursday

R. D. Collins, who retired from the Post Office Department last week, was honored at a surprise party Thursday evening at the Crews gymnasium. Mr. Collins has served as rural mail carrier for route two for the past twelve years.

Hostesses were Mesdames Chester McBeth, N. L. Faubion, Robert Gerhart, V. E. Fisher, J. A. Traylor, T. S. Osborne, I. W. Rogers, Wilmer Gerhart and Calvin Hoppe.

Mrs. Truett Billups gave "This is Your Life" which was written by Mrs. W. I. Dixon of Comanche, former resident of Winters. Mr. Brenson, Mr. Collin's nephew and Comanche County Superintendent, was special guest. Mr. Brenson was one of Mr. Collin's first pupils.

Mrs. Brenson and Mr. Dixon were also present.

Gifts were presented to the honoree and refreshments of cookies, coffee and punch were served to approximately 180 who attended.

Sheep Industry Is Important To Texas

Sheep and lamb slaughter is becoming a more important item in Texas each year. In 1950, only 4 percent of the U. S. commercial slaughter could be accounted for by Texas, but by 1960 this figure had increased to 8 percent of the total, says Ed Uvacek, extension livestock marketing specialist.

Continuing this trend, federally inspected slaughter of sheep and lamb during the first half of 1961 has far exceeded slaughter for the same period of 1960. The principal gain occurred in the South Central region, which includes Texas. During the first quarter of 1961 the South Central region showed a 33 percent increase over the first quarter of 1960, while the U.S. as a whole showed only a 10 per

cent increase. Heavy slaughter during these months was also evident in the Mountain and West North Central areas of the country, continues Uvacek. Forecasts indicate slaughter will continue close to last year's levels for the rest of the year. South Central slaughter, however, will probably drop lower during the July-September quarter.

Since 1957, January 1 inventories of sheep and lambs on Texas farms have increased 37 percent and now total 6.2 million head. This increase represents a reversal of the trend started in the mid 1940's when there was a nationwide shift out of the sheep business.

This year, Texas sheep received the highest condition rating ever for a July 1. The Western Range states showed sheep conditions averaging the same as last year's level, and slightly better than last month.

With a reasonably strong slaughter yet to come and an already depressed market, the outlook is for seasonally lower prices into the fall with some possible improvement late in the year, says Uvacek. Live lamb prices will probably be slightly below the corresponding year's levels in the fall and feeder prices are also expected to be forced down by these low slaughter lamb prices.

The story of "Wichita," and how it was tamed by Wyatt Earp, has become somewhat of a classic among western stories. The leads in the picture, which is in color, are carried by Wallace Ford, Joel McCrea, Vera Miles and Lloyd Bridges. Seldom has an outdoor story moved with so much tempo in the field of action and gunplay.

Audie Murphy (left) and John Saxon team up to lead a citizens' posse in pursuit of four kill-crazed desperadoes in Universal-International's "Posse From Hell." The pair of stars headline the cast in the outdoor color adventure, with Zohra Lampert playing the feminine lead.

MOVIES

"Wichita"
A hard-hitting story, superior CinemaScope filming and splendid acting all combine to make Allied Artists' "Wichita" one of the most outstanding western stories ever produced.

The Technicolor film will open Saturday and Sunday at the Fiesta Drive In Theatre.
Joel McCrea, Vera Miles, Lloyd Bridges, Edgar Buchanan, Wallace Ford and Peter Graves have starring roles in the action drama, which can be classified, without reservation, as first-rate entertainment for the entire family.

"Wichita" tells the story of one of the most exciting eras in American frontier history, the taming of Wichita, Kansas, when it was a brawling, riotous cattle town shortly after the Civil War. It is based on an episode in the life of Wyatt Earp, long-famed peace officer of the frontier, who became marshal of Wichita and declared open warfare on gunmen, outlaws and killers who terrorized the town.

"Posse From Hell"
Soft-spoken Audie Murphy, starring in "Posse From Hell," Universal-International's adventure in color which also stars John Saxon, and opening Friday and Saturday at the State Theatre, is the last guy in the world who'd try to tell anyone what it is that makes a man courageous.

But look into the background of the nation's most decorated war hero and uncovered is a childhood incident which undoubtedly helped shape the adult-to-be.

Audie vividly recalls when he was given his first pair of Levi pants at the age of seven.
As one of a family of nine children—the hungry brood of a share-cropper—most of his clothes were hand-me-downs. That's why the store-purchased trousers loom so importantly in his memory.

He wore them to school each day. And each night his mother dutifully washed and ironed them so they would appear freshly clean and neat.

"The Great Imposter"
The words of Ferdinand-Waldo Demara, Jr., whose masquerades made front pages around the world, were more prophetic than he dreamed. Finally unmasked after a series of near-incredible adventures under assumed identities, he was asked if at any time he had ever wanted to be an actor.
He said that he had never considered such a career but that he had always envisioned himself—if there was to be any comparison—as "a sort of heavy-set Tony Curtis."
When Demara's fantastic life story was brought to the screen by Universal-International, the star chosen to portray the hoaxer was, of course, Tony Curtis. The picture, "The Great Imposter," comes Sunday, Monday and Tuesday to the State Theatre.

Statistics show that the general run of pedestrians is a little too slow.

Tony Curtis stars as true-life hoaxter Ferdinand Demara in Universal-International's fascinating "The Great Imposter."

Replica of Space Capsule Will Be Shown At State Fair

A replica of the capsule in which America's first astronauts, Commander Alan B. Shepard and Capt. Virgil Grissom, were launched into space this year, will be exhibited along with other space age displays at the 1961 State Fair of Texas, Oct. 7-22, Dallas.

The full-size model of the capsule used in "Project Mercury" is being sent to the State Fair by the National Aeronautics and Space Administration.

The capsule will be occupied by a dummy astronaut in flight position attired in an actual space suit like those worn by Shepard and Grissom. The capsule replica also has a simulated instrument panel and control board of the type used by the astronauts.

The space capsule will be on exhibit in the Varied Industries Building at the State Fair. Other NASA exhibits will illustrate the many aspects of Project Mercury which include wind tunnel tests, capsule drop tests, capsule fabrication, astronaut selection and training, test firings, the chimpanzee "Ham" space flight and the flight of Astronaut Shepard in the Freedom 7 rocket.

Another space age exhibit by the Convair division of General Dynamics will be devoted to the Atlas missile program which is designed to put an astronaut into orbit around the earth.
The Federal Aviation Authority will have a number of exhibits demonstrating how aircraft traffic is regulated. They will include an actual weather reporting station, sector control equipment used to direct traffic in the air corridors, a working model of a modern airport, operating radar for tracking aircraft and a simulated flight control tower where fairgoers can participate in controlling a simulated approach and landing by a model airplane.

Being careful is less painful than being injured—and less expensive, too.

AND STILL THE BEST—The old way sometimes is hard to improve upon. This team hauls pulpwood out of the woods near Clayton Lake, Me. The horses can go where mechanical equipment fears to tread.

STRINGING ALONG—Comedian Jack Benny plays along on his violin while celebrated cellist Pablo Casals renders "Mary Had a Little Lamb." Benny visited the musician in Puerto Rico.

PILOT TO BE SKY PILOT—Canadian Pacific Airline pilot Tom Elden catches up on some school work between flights. He is studying at the University of British Columbia to be a minister and logs 3,000 miles a week between classes.

Cheap Laying Rations Not Economical

Because of the trend toward larger production units and lower profit margins, egg producers are searching for methods of lowering production costs. Since the cost of feed accounts for over half of the cost of producing eggs, it is natural for producers to look here for means of economizing. The poultryman would be wise, however, to be very cautious about buying cheaper feeds, says Dr. C. W. Deyoe of the Texas A & M Poultry Science Department. A cheap feed may often result in lowered production and therefore, an increase rather than a decrease in the cost of producing a dozen eggs.

The only safe way to reduce feed costs, says Deyoe, is to feed the ration which is most economical while still meeting the laying bird's requirements for energy, protein, vitamins and minerals. Any feed which does not meet these requirements is not economical.

A feeding practice which may be more economical than feeding an all-mash ration is the use of a protein concentrate which contains a high level of protein and the vitamins, minerals and other feed additives.

This is then mixed with home grown or locally purchased grains to make up the complete ration. The manufacturer's directions for mixing the premix with grains must be followed in order to obtain the correct level of nutrients in the finished feed. If these directions are not followed, the best results from the finished feed cannot be expected, and it would be

better to buy a complete laying mash from the feed supplier.

Protein is the most expensive ingredient in poultry rations. Thus, a saving in protein would result in a lower feed cost, points out Recent work at A & M has indicated that proper amino acid supplementation of low protein diets lowers the feed cost of egg production with these diets and more than pays for the amino acids. It is very important, however, that the amino acid-protein balance be correct, because a poor quality protein with an imbalance of amino acids would be poorly utilized.

Proper care should also be taken to insure the laying diets contain the proper level of calcium. Egg shell quality suffers if the bird is not receiving sufficient calcium.

CARD OF THANKS

We wish to thank our dear friends for the flowers, cards and letters sent our way while Shorty was in the hospital in Rochester, Minnesota. It was wonderful to hear from so many of you. Sincerely, D. J. and Edna Lee Kirkham.

LEFT TUESDAY

Mr. and Mrs. D. A. Dobbins left Tuesday for Tahoka where they were joined by their daughter, Mrs. Helen Young on a trip to Moline, Illinois for a visit with their daughter, Mr. and Mrs. Glenn Frohreich and children. Mrs. Frohreich is the former Frances Dobbins.

Norton P-TA Held Meet Tuesday Night

Norton Parent-Teachers Association held their first regular meeting for the year Tuesday night. Monthly meetings are scheduled for the first Monday night in each month.

The president, Mrs. Lester Lee, presided over the business session, and recommendations of the executive committee were presented and approved. The organization will sponsor a carnival as entertainment for the Homecoming of Ex-Students on Sept. 30. The program chairman, Mrs. Willard Renfro, gave the theme for the year, which is "Homes Create Community Strength Through Effective Learning."

The school superintendent, H. B. Porter, gave a resume of recommendations to parents which he obtained during an Austin workshop during the summer.

New teachers were introduced by the superintendent. They are Mrs. Gladys Barnes and C. J. Robinson.

Mrs. Barnes is an experienced English teacher and will also sponsor the school yearbook and the school newspaper.

Robinson is a graduate of Norton High School, and completed his training at Texas Tech. He will teach vocational agriculture.

Supt. Porter announced that enrollment this year is 107, an increase of nine over last year. Last year's average attendance was more than 96 percent.

Plant Disease Of the Week

By HARLAN E. SMITH
Extension Plant Pathologist
COTTON ROOT ROT

Cotton root rot is one of the most common plant diseases in Texas. Except for the Panhandle and High Plains, the disease first occurs in south Texas during late May, and is observed in north Texas during June and July. About 80 percent of the wild and cultivated plants are susceptible in varying degrees. The fungus may live on some native trees and shrubs without killing them.

Small flowers, shrubs and trees die suddenly after the first wilting symptoms occur. Large shrubs and trees may die more slowly. The bark of affected roots is decayed and brownish. Woolly buff or brownish, fungal strands are present on the surface of the damaged roots. To check for the strands, place parts of suspected roots in water for a few minutes. Then carefully remove any remaining soil with running water. Allow the specimen to dry for several minutes before making a microscopic examination.

The whole root system decays. Bark is rotted off the harder wood of the root, and roots slip out of the soil with comparatively little pulling effort.

Under moist conditions, with or without affected plants, spore mats sometimes appear on the soil surface. These mats are 2 to 12 inches in diameter, at first snow-white and cottony; later they appear tan and powdery.

The disease fungus generally invades new areas by continued slow growth through the soil from plant to plant. It may live in the soil for many years. The disease is often found as deep in the soil as roots penetrate.

The disease is controlled by the growing of resistant or immune trees and shrubs. Certain cultural practices may help prevent the disease from occurring more often.

RETURNED HOME

Mrs. Garland Crouch and children have returned home after a two weeks vacation in Ontario, California where they visited in the home of Mr. and Mrs. Griffin Miller and family. They made a sight seeing tour of Southern California. Some of the most interesting places visited were Disneyland, Knotts Berry Farm and San Diego Zoo.
