Blizzards Meet Cisco Lobos For District Crown

The Winters High School Blizzard basketball team head for Cisco Friday night in their fight up the road to the District 7-AA basketball championship.

The Blizzards, with a 6-1 record in district play, will end up on top of the district totem pole if they defeat Cisco. Should the Lobos win Friday night's game, the two teams will be in a tie, and will meet in a play-off game to decide which will represent the district in bi-district competition. Cisco has a district season record of 5-2.

The winner of the 7-AA crown will meet the winner of District 8-AA for the privilege of going to regional. Outcome of 8-AA competition still is uncertain and that district could see either Dublin, Granbury or DeLeon playing the 7-AA winners. Game time in Cisco Friday night is 6:30.

City Election Called For April Third

A City election to name three members of the Winters City Council has been officially called for Tuesday, April 3. Winters City Council met Tuesday night and officially called the election, and Mayor Harvey D. Jones signed the order Wednesday, setting the official date. Candidates have until March 3 to file officially with the City Secretary. Official filing must be done on the proper application blanks at least 30 days prior to the election, it was pointed out. Terms of office of three Councilmen end this year, and six men have already indicated they will be candidates. No candidate had filed officially by late Wednesday, the City Secretary said.

Those who have said they will be candidates are W. M. Hays, who will be a candidate for re-election, J. W. Bahlman, R. C. Thomas, T. A. Smith, John Gardner and C. V. Petre. Councilmen whose terms expire are O. B. Raper, J. E. Smith and Hays. Raper told The Enterprise several days ago he had not made up his mind whether he would seek re-election. Smith said that he definitely would not be a candidate for re-election. Names of election judges and clerks have not been released yet.

Trained Police Dog Given To Winters Police Department

In line with a practice in police departments which is becoming more and more popular throughout the country, a 3-year-old German Shepherd by the name of "Geronimo" has been added to Winters Police Department.

The dog now is in training, and will be turned over to the Winters law enforcement officers within a few weeks, Joe Stevens, police chief said this week. Geronimo was given to Stevens by Sgt. C. H. Carrol, dog trainer supervisor for the Army's Nike bases which ring Abilene. He has had considerable training, but will undergo intensive training before being turned over to the Winters department.

Stevens said the dog would be trained to work with all members of the police force in Winters, and will be especially helpful in working on burglary cases and for trailing window peepers.

The dog, when returned to Winters, will be trained to work only on command of members of the department, Stevens said. He emphasized that the dog would be perfectly safe, unless molested. Stevens said that the dog will work on a leash, and will not attack unless ordered to do so. On burglary cases, he said, the dog will be trained to get the scent or the burglar, and later will be used to identify suspects. If the dog should corner someone breaking into a home or store, Stevens said, he will only stand and guard, unless the person tries to run or get away.

Stevens said that the addition of the dog to the police department here means better police protection for the people of Winters. In cities where dogs are being used, police personnel are eager to point out the value of having dogs.

Literary & Service Club Endorses Plan To Raise School Revenue

The Literary and Service Club at a meeting last Thursday endorsed a plan to petition the Winters School Board to call an election for the consideration of Senate Bill 116. This bill has been adopted in several hundred Texas school districts in the past five years with the goal of raising the financial income structure of the district, it was explained to club members.

The club also endorsed the idea of holding this election at the same time and place as the annual school board election.

The meeting was held in the home of Mrs. Sallie Gray. James Nevins, Winters School Superintendent, was speaker for the program, and stated that "we have in the Winters District a declining oil evaluation and at the same time an increase in the local fund assignment plus increased teachers' salaries and maintenance costs." He said that "student enrollment is approximately the same but the Winters District has had no tax increase in approximately ten years." The cost in the Winters school

for a ten year average ranges between \$250 and \$300 per student per year including capital outlay and bonded indebtedness," said Nevins. "In actual hours of attendance during twelve years in the Winters school, a student spends 14,175 hours at an average cost of approximately 33 cents per hour. This is considerably below rates for baby sitters."

"Why educate our youth?" Nevins asked. "The philosophy of the Winters school includes two reasons, among others, as follows: (1) Self preservation of our nation, and (2) the individual's ability to meet the daily competitions in life. Our problem in Winters at this time is, should the Winters school continue to improve facilities and education, or hold the line as nearly as possible or pay less and have less effective schools," he added.

It is a well-known fact that we and other Americans spend more for vacations, motor boats and intoxicants than for education, Nevins pointed out.

"To continue offering first class education the Winters schools would not only need to maintain our present position but also try and secure additional teaching supplies, library supplies, building renovations, language laboratories, stadium and track additions, playground fences, furniture replacement and other forward moving plans for the educational offerings to all students," Nevins continued.

"The total school budget for 1961-62 is \$465,367.64. Fifty-seven percent of this income, of \$256,231, comes from the state; the oil tax money or 27 percent of this budget income is \$122,699.48. The local tax receipts are \$74,040.84, or 16 percent of the total income. The total amounts to only \$452,971, which is \$12,396.62 short of the budget needs," the superintendent explained.

Nevins went on to say, "At the present, Winters has a lower school tax rate and a lower property evaluation than the adjoining school districts. The present district tax structure is based on 1950 values at 40 1-4 percent with a tax rate of \$1.50 per \$100. The taxpayers of the Winters School District have a choice of maintaining the school as it now exists; or the school board increasing the valuation (which they are empowered to do legally); or re-appraising property by an appraisal firm; or the patrons voting to pass Senate Bill 116, which would leave values the same and permit an increase in tax rate. In order for this election to be called, a petition must be signed by 25 qualified taxpayers, asking the school board to call an election for this purpose. By using Senate Bill 116, the school board would have a true picture of the community voters' desires concerning a tax increase and the tax rate would be limited to a maximum of \$2.00 per \$100 but would probably be set between \$1.60 and \$1.80 per \$100."

Mrs. W. D. Parrish was a visitor. Next meeting of the club will be a luncheon held in Abilene on Feb. 17 with Mrs. L. E. Dudley presenting a book review.

Work Plan For Valley Creek Watershed Has Been About 98 Percent Completed

The work plan for the Valley Creek Watershed project is 98 percent completed, Hugo Vogel-sang, chairman of the Valley Creek Water Control District, announced recently.

Last week, at a called meeting of the directors of the district, along with local sponsoring organizations and Soil Conservation Service personnel, a rough draft of the work plan was checked. This plan shows that the complete watershed protection and flood prevention program will cost \$2,733,142 when installed.

Vogelsang said that this plan represents one of the most exhaustive and detailed plans for a watershed in this part of the State, and that it represents three years of hard work by the Valley Creek Steering Committee under the leadership of Bill Harman, the Runnels Soil Conservation District board of supervisors, the Commissioners Courts of Runnels, Taylor and Nolan Counties, the Directors of the VCWCD and others.

The work plan was developed with the technical assistance of SCS technicians under a trust fund agreement with the VCWCD whereby the people paid the entire cost of \$41,000 for this assistance. The VCWCD directors will assume the responsibility of obtaining easements and rights-of-way, operation and maintenance,

and administering the contracts for the 20 floodwater retarding structures called for in their plan, it was explained. Three of these dams will be located in the Runnels County portion of the watershed, eleven in Taylor County, and six in Nolan County.

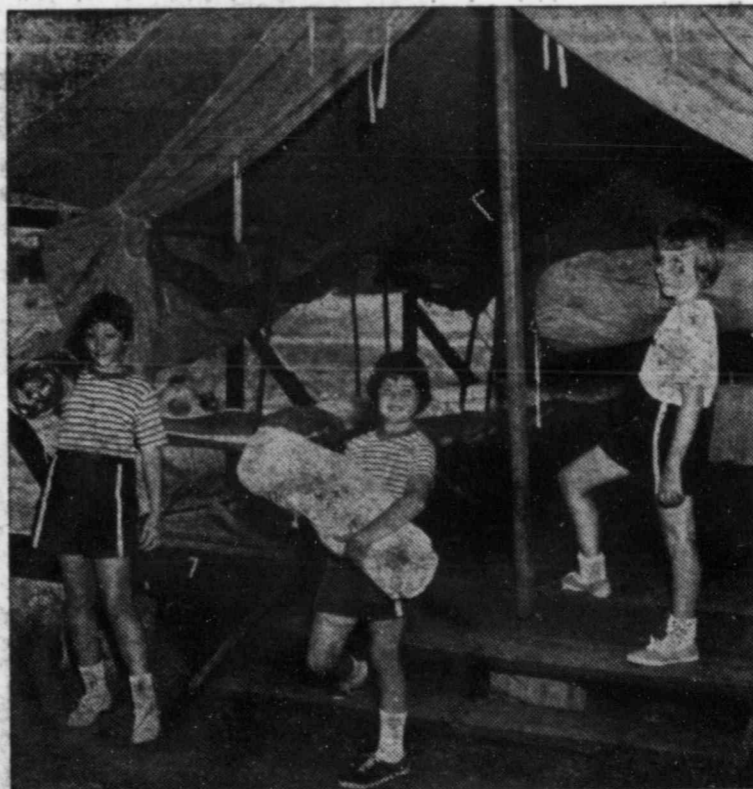

The application of conservation practices in the watershed will become the responsibility of the Runnels, Upper Clear Ford and Middle Clear Ford Soil Conservation Districts, the Agricultural Conservation Program Service, the Extension Service and the SCS in each of the three counties.

Vogelsang gave an example of two of the 20 structures so people would have an idea of their size. He said site number one on the McNay Ranch, which is in Nolan County on Fish Creek, will have about 276,000 cubic yards of fill (Continued on last page)

GIRL SCOUTS AT THE CAMP ON LAKE BROWNWOOD

Annual Girl Scout Cookie Sale Will Be Held Here February 15th to 24th

"Brownie, Intermediate and Senior Girl Scouts in Winters will soon be participating in the Ninth Annual Cookie Sale, sponsored by the Heart of Texas Girl Scout Council," Mrs. Crenshaw, Girl Scout Cookie Chairman for Winters announced today.

Dates of the sale will be February 15-24. The 1962 goal is to sell a total of 48,000 boxes of cookies.

This is a project BY and FOR the Girl Scouts and it affords every Girl Scout an opportunity to assume responsibility while practicing sound business methods. The girls will not only add to their own troop treasury but will aid the Council of which Winters is a member, in bringing better camping to more girls.

Funds for the maintenance and development of camping facilities come almost entirely from this annual sale. Council proceeds from this year's sale will be applied to the cost of building a swimming pool at the council's established camp, Camp Wood Lake, since present waterfront facilities are not adequate for instructional training.

The Megowen-Educator Food Company, from whom the Girl Scout Cookies are bought, has one of the outstanding bakeries in the country. Three different kinds of cookies will be sold this year: Assorted Sandwich (chocolate and vanilla), Vanilla Butter and Butter Roundup Cookies. Many friends of Scouting will want to buy the cookies by the carton, place them in their deep freeze, and serve them to friends throughout the year.

Troop leaders have been busy for the past month giving proper training to all girls in sales techniques, the importance of good grooming, and how to handle simple business transactions. This is indeed citizenship training in practice.

This year for the first time, second year Brownies will also be eligible for camp.

"With a swimming pool at camp as a goal toward which to work, I'm sure the Girl Scouts in Winters will be working hard to sell their share of cookies. We are again asking the support of friends of Girl Scouts," Mrs. Crenshaw continued, "in making this Annual Sale the best yet."

education that will lay the ground-work for the development of special talents. A poor student is usually a poor craftsman. Shame on school committee members who are always calling for "practical" education. It is more laboratories rather than more workshops that we need. We must train our children to think, and love to visit art museums and libraries. Yes, and to learn to read good books.

Bethany SS Class

Met Tuesday In Henslee Home

Bethany Sunday School Class of the First Baptist Church met Tuesday night in the home of Mrs. L. H. Henslee.

Mrs. Joe Irvin, president, presided for the business session and Mrs. Marvin Bedford led the opening prayer. Group leaders gave the monthly reports and Mrs. J. N. Clark gave the secretary report and read minutes of the preceding meeting.

After a devotional given by Mrs. C. W. Armstrong, refreshments were served to Mesdames Joe Irvin, J. N. Clark, C. W. Armstrong, Marvin Bedford, Bill Millhorn, and F. F. Hamilton.

ones, it is proposed that the test weight per bushel be raised from 55 to 58 pounds for No. 1, from 53 to 56 for No. 2, from 51 to 54 for No. 3 and from 49 to 51 for No. 4.

Also, in order to provide for better keeping quality, a proposal has been made to lower moisture content from 14 to 13 percent for No. 1, from 15 to 14 for No. 2 and from 16 to 15 for No. 3. It is also proposed to eliminate dockage and substitute a factor for fine foreign material in the grade table. Alternative proposals provide for dockage as now applied and a special grade "Tough" instead of moisture as a grading factor.

Interested persons may also submit written data, views or arguments to the Director, Grain Division, Agricultural Marketing Service, U. S. Department of Agriculture, Washington 25, D.C. not later than February 15, 1962.

The proposals are scheduled to appear in the January 13 Federal Register. Copies will be available from the AMS Grain Division.

Audrey Hepburn, as zany play-girl Holly Golightly, accepts a light from Martin Balsam as boyfriend George Peppard looks on in a scene from Jurow-Shepherd's "Breakfast at Tiffany's." Based on the best-seller by Truman Capote and co-starring Patricia Neal, Buddy Ebsen and Mickey Rooney, the Technicolor comedy-romance will be the attraction Tuesday, Wednesday and Thursday at the State Theatre.

MOVIES

"GREYFRIAR'S BOBBY"

"Greyfriars Bobby," Walt Disney's newest offering of the unusual and exciting in motion picture entertainment, which shows at the State theatre Friday and Saturday, is one of the most unbelievable pages of history come to vivid life on the screen. The production depicts in endearing manner one of the world's immortal dog stories, that of the little Skye terrier who kept an incredible 14-year vigil over his master's grave in Scotland's Greyfriars churchyard over a century ago.

Based on Eleanor Atkinson's famous book, "Greyfriars Bobby," the full-length feature was made at authentic locales in Scotland, and stars a distinguished cast of players. Donald Crisp, playing the key part of Mr. Brown, sexton and keeper of Greyfriars churchyard in which the little terrier won immortal fame, gives another warm and vital performance, enhancing one of the most amazing careers in the motion picture industry.

Laurence Naismith, long considered one of the most talented and versatile character actors, stars as Mr. Traill, owner of Traill's Dining Rooms where sustenance and shelter are provided first to Bobby's master and later to the faithful dog himself. Mr. Traill's efforts to win the little dog's affection provide Naismith with ample scope for putting humor and pathos into his warmly human role.

"FRANCIS OF ASSISI"

Few figures in history have so profoundly inspired the mind and moved the conscience of man as has Saint Francis of Assisi. It is his story, set against the strife and turbulence of the early 13th century and the vast, colorful tapestry of the Crusades, that is told by 20th Century-Fox in the CinemaScope DeLuxe Color Film which Plato Skouras has produced on locations in Italy and Spain. The film shows Sunday only at the State Theatre with Bradford Dillman, Dolores Hart, Stuart Whitman in starring roles.

"Francis of Assisi" an epic in the "Song of Bernadette" tradition is a far cry from the ordinary wide-screen spectacle. There is stirring action in this story, but it is primarily a film about an extraordinary man who wrought miracles through his faith and his love and who sought

peace and understanding at a time when the world was just emerging from the dark ages.

"BREAKFAST AT TIFFANY'S"

Academy Award-winner Audrey Hepburn returns to smart, sophisticated comedy in Jurow-Shepherd's "Breakfast at Tiffany's," the new Technicolor film opening Tuesday at the State Theatre.

Abandoning her string of princesses and refined young ladies, Miss Hepburn pulls out all the stops in her portrayal of gay New York playgirl Holly Golightly in the Paramount release, which also stars George Peppard and co-stars Patricia Neal, Buddy Ebsen, Martin Balsam and Mickey Rooney. Adapted by George ("Seven Year Itch") Axelrod from Truman Capote's best-selling novel, the attraction tells "all" about Holly and the many men in her life.

Booklet Available For Those Retiring On Social Security

"Retirement years can be good years." That's the theme of a new booklet which goes on to spell out how retirement may be "a new life of your own."

The booklet, "Now That You Are Retiring" is available at your social security district office. Also available are booklets explaining the old-age, survivors, and disability insurance program.

Floyd B. Ellington, district manager of the San Angelo social security office, said today that he felt this booklet would be of help to people now retired, as well as people who are beginning to make their plans for retirement. "It answers a lot of the questions we have heard time and again from people applying for benefits," he said.

The new booklet explores such questions as: "What will I do with my time?" "Will my income really be enough?" "Will my health last—and what if I get sick?" "Where can I go for help when I run into problems?"

A copy of the booklet may be obtained by writing or visiting the social security office at 204 Continental Building, San Angelo, Texas.

BEN BARNES

Ben Barnes, DeLeon, Announces For State Legislature

State Representative Ben Barnes of DeLeon today announced his candidacy for re-election to a second term in the Texas Legislature.

Reared on a farm near Comyn in Comanche County, Barnes was first elected in 1960, winning a two-to-one majority throughout the three-county legislative district. As a result of redistricting, Rep. Barnes' district now includes four counties—Comanche, Brown, Runnels, and Coleman.

After graduation as an honor student from DeLeon High School, Barnes attended Tarleton State College at Stephenville, TCU at Fort Worth, and the University of Texas at Austin. He was a business administration major at the University of Texas and made the BBA Honor Roll and dean's list at that school. He also attended the University of Texas Law School.

Representative Barnes worked for the State Department of Health for two years prior to his election to the Legislature.

Barnes is married to the former Martha Morgan of DeLeon. They have a son Greg, 3, and a daughter, Amy, born January 31st of this year. They are members of the Methodist Church.

During his first term in the House, Rep. Barnes received the plaudits of both colleagues and constituents for his fairness, energy, and outstanding work. Several fellow members called him the "outstanding freshman member" of the House, and six legislators made a special trip to Brownwood at the session's end to pay tribute to Rep. Barnes at an appreciation dinner attended by more than 200 citizens of the district.

Rep. Barnes' pledge in this campaign will be the same as in his first race—"to know the views and feelings of his constituents and reflect their sentiments to the greatest possible degree in the State Legislature."

Barnes' office has been—and will continue to be—open at all times for suggestions or questions from any citizen of this district.

Rep. Barnes' record during his first session reflects his belief that state government should and can meet the needs of its citizens without waste and financial irresponsibility. He supported such spending measures as increased pay for teachers, improved farm-to-market roads, and care for the

STATE CAPITOL HIGHLIGHTS

Special Session Ends, Legislators Head Home To Patch Political Fences

By Vern Sanford
Texas Press Association

A hectic final night ended the special session of the Texas Legislature. Two major problems—loan regulation and appropriations—were left unfinished.

Senate killed the loan regulatory bill by a two-vote margin, after the House had approved it by 18 votes. It was described by experts as the strongest loan regulatory law in the nation.

Death came to the appropriations bill in the House. It would have provided money to advertise for tourists, repair San Jacinto Monument, repair damages done to state properties by Hurricane Carla and by fires, pay Senate employees, and finance a number of other items.

Gov. Price Daniel called it a very productive session, nevertheless.

He said it had settled two long-standing issues—bank escheat reporting and farm-to-market road policy.

Daniel was disappointed about the failure of the loan legislation, tourist advertising, and San Jacinto Monument repairs. But he said he would not call this Legislature back into session in the foreseeable future.

Lawmakers headed for home to file for re-election and begin their campaigns for the same or other offices.

This session set some sort of a record for fast action on bills to solve local problems. These ranged from closing the season on alligators in Orange County, to a score of bills creating new water districts (to undertake drainage, hurricane protection or water supply projects).

Daniel was pleased at the bill changing the name of the State Board of Water Engineers to the Texas Water Commission, and reworking it into an image of the State Highway Commission. The chief engineer takes over full administrative control, leaving policy matters in the hands of the three-member commission.

Governor Daniel studied a flood of mail, telegrams and phone calls, which he had elicited, and decided that there was a definite public demand for him to try to become Texas' first four-term governor.

than by unqualified individuals.

Author J. Frank Dobie said "the more textbooks are censored, the weaker they become."

The opinion that regulation of teaching materials by elected trustees has worked satisfactorily was expressed by former Baylor University trustee Joseph M. Dawson.

Other witnesses, such as Mrs. A. A. Forester of Texasana, Richard L. Harvey of Tyler and M. F. Gabler of Hawkins, criticized the Board of Education's formula for censorship. They said they firmly believe that modern textbooks fail to instill a sense of patriotism and love of country.

Committee will hold another hearing February 9.

NAMES IN THE HAT

With the special session of the Texas Legislature ended, candidates for state offices quickly grabbed the spotlight.

Most surprising announcement was the filing of former Gen. Edwin A. Walker as a Democratic candidate for governor.

Then came Gov. Price Daniel's statement that he would seek re-election to a fourth term as governor.

Land Commissioner Jerry Sadler predicted that Daniel would run again, and cancelled his tentative plans to seek that post. Instead, he announced for re-election.

Attorney General Will Wilson said failure of the loan shark bill to pass was the determining point in his decision to file as candidate for governor.

John Connally, already actively campaigning for the office of governor, came to Austin to pay his \$1,000 filing fee and left immediately on a flying organizational trip to West Texas.

Gubernatorial candidate Marshall Formby opened state headquarters in Austin. He appointed Dr. James B. Ray of Austin, Wendell Gambill, Dr. Joe Webb and Clint Formby to organize his campaign.

Don Yarborough, Houston attorney, paid Austin a visit to announce his candidacy for governor.

So far, the only Republican contender for governor is Jack Cox of Breckenridge.

Agriculture Commissioner John C. White filed for re-election to the post he has held since 1950. White said 1962 should be a turning point in achieving greater self-determination for farmers and ranchmen.

J. Evetts Haley of Canyon is the only other announced candidate for commissioner of agriculture.

Other candidates for statewide offices flooded the State Democratic Central Committee headquarters.

WHO SHOULD CENSOR?

Question of school book censorship was buffeted about by 22 witnesses, when the House Textbook Investigating Committee held its fourth weekly hearing.

Some 200 persons attended the hearing.

filed for associate justice of the Supreme Court, Place Three, against incumbent Judge Zollie Steadley. Judge Meade Griffin, who holds Place One on the Supreme Court, drew Jesse Owens of Amarillo as an opponent. As of Saturday Judge James R. Norvell had no opponent in his campaign for re-election to Place Two on the court.

County Judge Woodrow W. Bean of El Paso; Warren G. Moore of Tyler; and Manley ead of Austin, filed for Congressman-at-large.

Judge W. T. McDonald of Bryan, Court of Criminal Appeals justice, joined the attorney general race.

Immediately after the House passed the loan bill, Speaker of the House James A. Turman announced for lieutenant governor.

That brought the total of democrats running for the second top spot to six: Sen. Preston Smith of Lubbock; Sen. Crawford C. Martin of Hillsboro; Sen. Robert W. Baker of Houston; Sen. Jarrard Secrest of Temple and former representative Gene Smith of Fort Worth, plus Turman.

There was activity on the Republican side, too.

O. W. (Bill) Hayes of Temple and Kellis Dibrrell of Seguin both filed as candidates for lieutenant governor. Dibrrell practices law in San Antonio. Hayes is vice president of Continental Belton Company in Belton. Both are 43 years old.

Earlier, two other Republicans had filed for the same office—Congressman-at-large. They were Giles E. Miller, Dallas publisher, and Desmond Barry, Houston industrialist.

SUGGESTS FORUM

Tom Reavley, Austin attorney running for attorney general, suggested joint appearances for himself and opponents, Waggoner Carr of Lubbock, Les Procter of Austin, Tom James of Dallas and Judge W. T. McDonald of Bryan.

"Joint appearances of the candidates will bring the issues and the candidates squarely before the people of Texas," he said.

SHORT SNORTS

Governor Price Daniel announced the appointment of Rep. B. H. Dewey Jr. of Bryan to the executive committee of the Southern Regional Education Board.

In another appointment, Governor Daniel named J. Walter Friberg, Wichita Falls attorney, as district judge to fill the unexpired term of newly-elected congressman Graham B. Purcell Jr.

little water in all the pots scattered about the house. Then, a long about the end of the time we had the responsibility, noticed some of the plants kinda withering up—or turning yellow. All but one! That one plant had remained pretty and green for a good two weeks, and the blossom remained a beautiful red. Made us kinda proud, even though some of the others fell by the wayside because of too much or too little water. That beautiful plant, standing proudly among the other dying ones, was bound to save our neck—we thought. Imagine the comedown we experienced—a among other things—when we were informed that our pet flower was plastic!

Person May Earn Money And Still Draw SS Benefits

A person can now earn more money and still get some of his social security benefits during the year.

This change in the law is of special interest to people who earn between \$1,500 and \$1,700 a year after they become eligible for benefits. A person who earns more than \$1,200 now loses benefits at the rate of \$1 in benefits for each \$2 earned between \$1,200 and \$1,700. On earnings of over \$1,700, \$1 in benefits is withheld for each \$1 earned. These new withholding rates apply to a person's earnings during 1962.

Note to school children: Skipping today's lesson will bother you more than missing an installment in a serial story.

People seldom start conserving their strength until there is little or nothing left to conserve.
