

C. of C., City Designate Clean-Up Week, 16-21

The Winters Chamber of Commerce, in cooperation with the City of Winters, has designated the week of April 16 as "clean-up week."

Chamber committee members pointed out that "this will be the only time in the year that we will have a general clean-up week and it will be a wonderful time to get our premises and city in good shape."

All residents are asked to gather trash and rubbish on April 16, 17, and 18, and place it either in front of their property or in the alley. The City and County trucks will pick up on April 19, 20 and 21. Residents who have extra large loads are asked to call the Chamber of Commerce or the City Hall so that special arrangements can be made. Or if the trucks miss picking up trash in any locality, residents are asked to call.

Blizzards Take Track and Field Crown In District 7-AA Meet, Abilene Thursday

The Winters Blizzard track and field team, favored to take District 7-AA honors, lived up to that expectation Thursday on the McMurry Indian Stadium in Abilene, outdistancing defending champion Coleman.

Bad weather and a sprint-strong Coleman team were obstacles faced by the Blizzards from Winters High, but they came through with a total of 197 1-2 points to 166 for the Bluecats. The track was soggy following a two day rain.

A. L. Mitchell was given first place in the mile over teammate Ronald Kraatz in a dead-heat made possible when Mitchell slowed down when he crossed the finish line. Both runners were given identical times of 4:54.8.

The Winters team of Dan Roberts, Tommy Young, Roy Clark and Steve Grissom won the mile relay easily over Cisco in 3:35.6.

Tommy Young came away with two first places. He won the broad jump with 20-3 3/4, and the low hurdles with 22.1. Walter Butler finished second to Young in the low hurdles, but won the high hurdles at 17.5.

Edward Pope soared 5-6 in the high jump event, and Steve Grissom won the 440-yard dash in 52.7.

Winters led the way in Regional Meet qualifiers with 10 individuals and both relay teams. The Regional Meet will be held at Lubbock April 14.

MIKE JONES

Mike Jones Named To Friar Society At University

Mike Jones, 21-year-old University of Texas senior from Winters, was one of seven students named to the Friar Society at the University this semester. The announcement was made during Round-Up week end.

Jones is the son of Winters Mayor Harvey D. Jones and Mrs. Jones and a member of a pioneer family of the town.

The Friar Society, which was founded in 1911, annually confers the honor of membership upon the twelve or less most eligible men chosen from the senior class or higher. It is the oldest honorary organization at the university.

During his four years at the university, Jones has compiled an outstanding record in scholastic and Texas Union affairs, as well as having taken part in other activities.

A number of scholarships have been his. He entered the university in 1958 on a high school valedictorian's scholarship. His sophomore year he held a Clark Foundation scholarship, followed by Ex-Students Memorial scholarship and Public Welfare scholarship the next year. He now holds a Dwight D. Book scholarship and has been granted the Jackson Johnson Regional scholarship to Washington University Medical School at St. Louis, Mo., which he will enter next September.

Other scholastic honors he has received include Phi Eta Sigma, freshman scholastic honorary society, Junior Fellows—also a freshman honor—and Phi Beta Kappa, top honorary scholastic society.

Jones became active in the Texas Union his sophomore year and was a member of the Union Leadership committee and the Union Leadership Seminar. As a junior he was chairman of the Union Tournaments Committee, chairman of the Grievance Committee of the student assembly, a member of the Student-Faculty Discipline Committee, of the Texas Union Council, and a delegate to Region IX convention of the Association of College Unions.

This year he has served as Texas Union Fiscal vice president, ACU Region IX financial coordinator, and a member of the Union Executive Council and of the Union Board of Directors.

Another outstanding honor received by Jones this year was election to the Silver Spurs, select honorary and service organization.

Other activities in which he has participated include serving as UT delegate to College Conference on United Nations and as historian of the Athanaeum Debating Society.

Jones has also engaged in intramural sports for three years.

Newcomb left by rail last week to attend the school. He is staying at the Purina Research Farm during the session.

According to Newcomb, "some of the best research brains in the company will head up almost every session to give salesmen the latest and most comprehensive information available," and people attending the meetings will hear "comments on the challenge and opportunities of agriculture."

Change In Method Of Summer Water Charges Is Made

Authorization has been made by the City Council for a change in the method of computing the charges for water used in irrigation and lawn watering. The change was authorized at the regular meeting of the Council Tuesday night, April 3, with all councilmen present and all voting unanimously for the change. Present for the meeting were O. B. Raper, J. E. Smith, Ralph Lloyd, John Griffin Brown, and W. M. Hays.

No appreciable change in the cost to water consumers is evident in the new regulations governing the charges for water, it was pointed out. In fact, some water customers will receive a reduction in cost, it was said.

Under the old system of separate rates, customers were required to notify the water department if they wished to take advantage of irrigation rates. This notification was necessary at the beginning of each season, and led to some confusion, it was pointed out. It is the hope of the Council that the new system, which will automatically extend a reduced rate to all users where gallonage exceeds certain prearranged quantities, will lessen the chance for error, it was said.

New rates adopted are as follows: Minimum rate, \$2.50, includes 2000 gallons (no change from old rates.)

Next 4000 gallons, 30 cents per thousand gallons (no change.)

Next 6000 gallons, 25 cents per thousand gallons.

All water used over 12,000 gallons will be billed at 20 cents per thousand.

These rates apply to users within the city limits only, officials said. Those users outside the city will retain the regular rates as in the past.

City officials said that "it is believed that a comparison of these rates with other towns in the State will show that they are very reasonable and among the lowest rates in the State."

The Winters girls also won championship honors at the Blackwell Volleyball Tournament last week end. They defeated Bronte 42-15; Abilene High, 39-31; Leuders 40-15; and Highland, 21-21.

Su Deaton was picked for the All-Tournament team at the Blackwell contests.

Hill Country Firemen Meet Here Saturday

An estimated 175-200 members of fire departments from fifteen West Central Texas cities will meet in Winters for the annual Hill Country Firemen's Association convention Saturday, April 14.

Accompanying the firemen will be members of the Ladies' Auxiliary of the HCFA.

Firemen and ladies will attend business sessions, hear an address, recognize outstanding personalities in the organization, compete for trophies in the contests in the afternoon, eat a barbecue supper, and wind up the convention with a firemen's ball Saturday night.

N. D. Waggoner, Winters fire marshal and former fire chief, is president of the Hill Country Firemen's Association, and will preside over meetings of the organization.

Bob Hatcher, president of the Winters Volunteer Firemen, will open the series of meetings in the High School auditorium at 9:15 Saturday morning. The invocation will be given by the Rev. Sam Coffey, chaplain of the HCFA, and Tom Holland, chaplain of the Winters Volunteer Firemen, will lead the group in singing "America."

Mayor Harvey D. Jones will give the welcome address.

Special entertainment has been planned for 10 o'clock Saturday morning.

At 10:15 Saturday morning business sessions of the Association will begin, with N. D. Waggoner presiding. Members of the HCFA will hear reports from various committees, recognize visitors and past presidents of the organization, elect officers for the following year, and pick a site for the next convention.

At noon dinner will be served in the Winters school cafeteria by the Ladies Auxiliary of the Winters Firemen.

A memorial service will be conducted by the Rev. Coffey at 1:30. In the afternoon firemen will hear an address, and final reports.

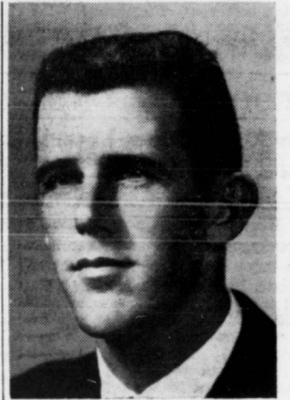

At 3:30 in the afternoon, firemen and ladies will hold races and contests. Trophies will be awarded winners in the Ladies' Pumper Race, Men's Pumper Race, 3-Man Race, 1-Man Race, Ladies' Water Polo Race, Men's Water Polo Race, Ladies' Nozzle Race. A trophy also will be awarded to the town which has the most "man miles traveled" to the convention.

A barbecue supper will be served by the Winters Fire Department in Winters City Park at 6 p.m.

Beginning at 8:30 p.m., the Firemen's Ball, in the Higginbotham Building on West Dale Ave., will wind up the day-long convention.

WE GOOFED!

In gathering up the photographs of officers of the Fire Department to use with the story of the Firemen's convention this week, we overlooked the fact that the engraving of N. D. Waggoner, president of the Hill Country Firemen's Association, had been loaned to another newspaper and had not been returned. We took it for granted it was in our files, and did not discover it was missing until too late. We apologize.—Ed.

Presley, Jackson Win Re-Election To School Board

Jake Presley and Milton Jackson, incumbents, were re-elected to the Winters School board Saturday in heaving balloting, and the school tax question was approved by almost 2-to-1.

Four candidates were seeking the two seats on the school board. Balloting was as follows: Jackson 358; Presley 326, J. B. Denson 154, and Lloyd Gilbert 142.

The vote on whether to permit the Winters school board to operate under Article 2784-e-1 (Senate Bill 116), passed easily, 290-150. The bill provides a maximum tax for maintenance and operation of \$1.50 per \$100 valuation but bases the amount of tax that can actually be levied for maintenance upon the amount of bonded debt of the district.

ROGER BABSON SAYS

New Ideas May Be "Sleeping Giants," May Make Someone A Million Dollars

When a young person has a really useful idea and takes it to a large concern to make and promote, he is often discouraged when it is turned down. This is because the head of the company asks only two questions: (1) Is it a new idea? (2) Will it sell? Unless it passes both tests, the big company will not bother with it. However, there is always an opportunity for a young person with selling ability and persistence to start his own business.

The Gerber Products Company. When I was a young man, my wife cooked certain foods which she gave to our baby daughter during the weaning period. Only

within the last forty years has anyone manufactured "baby foods" to save the housewife work. A young man named Gerber, when graduating from Babson Institute, told me that his family was interested in this idea. Soon he went to Fremont, Michigan and developed the sales of the business.

The big food companies began to compete with him. He, however, with persistence and enthusiasm, kept ahead of them. Today "Gerber Baby Foods" are known all over the U.S. and in many European countries. The big food concerns had had generations to manufacture baby food, but it took Daniel F. Gerber to make a million from this idea.

A Fish Chowder Idea
 Being a Gloucester boy, I always like a chowder every Friday made from haddock. Today, this haddock must be caught, iced, and brought into Gloucester. There it is filleted. These fillets contain only 40 percent of the food value; the head, skin, and bones make up the other 60 percent. These fillets are frozen or canned to sell for making fish chowder. Someday some young person will capitalize on the idea of grinding up the entire fish and making "condensed" fish, just as Mr. Borden made the first condensed milk. Instead of having only 40 percent of the nutrient it will have the entire 100 percent. When I speak to my Gloucester friends about this they reply: "We are too busy

MRS. JERRY LYNN DAVIS

Carolyn Marie Green and Jerry Lynn Davis Repeated Wedding Vows Saturday

A double ring ceremony was read at 3 p.m. Saturday for Carolyn Marie Green and Jerry Lynn Davis in the home of Mr. and Mrs. M. W. Boles. The bride is the daughter of Mr. and Mrs. O. H. Green Jr. and the bridegroom is the son of Mrs. S. E. Davis of Ballinger and the late Mr. Davis. The couple will reside in El Paso.

Tom Holland, Church of Christ minister, read the marriage ceremony before an improvised altar in front of a picture window where the couple stood to repeat their vows. Baskets of white gladioli were at either side.

Given in marriage by her father, the bride wore a pale blue suit fashioned with a pencil slim skirt. The crop-top jacket was designed with a wide collar and three quarter length sleeves.

The bride's headdress was of silk crepe rosettes fashioned into a half hat with a short veil. She carried white feathered carnations atop a white Bible and wore her grandmother's cameo necklace.

Darlene McWright, maid of honor, wore a blue nylon dress styled with fitted bodice, full skirt and full sleeves. Her corsage was of pink carnations.

Kay Green, sister of the bride, Noleta James and Mrs. Boles served at the reception which followed the ceremony. Darlene McWright presided at the registry.

The couple left on a wedding trip to El Paso.

The bride graduated from Winters High School in 1959 and has been employed by the Winters State Bank since that time. The

with frozen and canned fish; let some young person make this into a million-dollar business."

Every reader of this column should have a little stock in one of the drug companies which are working on two wonder chemicals—D. N. A. and R. N. A. Many chemists believe they will lengthen the normal life span many years and perhaps sometime create life itself. The drug companies are also working on a pill which will improve the intellect, the judgement, or the memory of a person. I am certain that our present methods of education will be revolutionized by these new drugs. Here is another opportunity for a young person to make a million.

Selling Wood For Food
 At present, only termites and a few other animals can digest the cellulose of the millions of square miles of trees now in our forests. The Hercules Powder Company is dissolving this cellulose into a liquid that humans can digest. This will be the basis of a great new industry. Wise is the young person who becomes an expert on cellulose.

I once asked Thomas A. Edison what he would like to do if he had all the time he needed. He replied: "Make a cold light. My incandescent light consumes too much electricity as heat. I hate to think of the firefly being able to do something that man cannot do!" He was also much interested in birds. He said: "Birds are the only natural resource (other than gravity) that has not been harnessed. The land, water, sun, forests... all are the foundation of great industries." He believed that someday birds will be trained to forecast the weather and do other wonderful things. No large companies will bother with this, but it offers great opportunities for young people.

Automation And Electronics?
 I have not discussed these two subjects because they are so publicized in magazines and on the stock exchange. I am interested only in new ideas which will develop into "big money" for those with courage and ability. I like to call them our "sleeping giants." It would be unfair for me to close without referring (again) to a book entitled "IDEAS" by Clinton Woods of 2803 Goodwood R.D., Baltimore, Md. Cost: \$5.75 post-paid. He describes over 200 ideas which some young person has had the initiative to develop into big business.

TIPS for OUTDOORSMEN

A Sound Fishing Tip
Don't let muddy water discourage you from fishing. Murky water often is better than clear water, because when a fish's vision is obscured it feeds by sound—carried to it either by radar-like nerve endings, or its hollow bones that act as sound chambers. Fish pin-point the location of your lure by its vibrations. So, in murky water, or any water after dark, use a good noisy lure which gives off heavy vibrations that a fish can hear. Reel from slow to faster, until you feel the lure's strongest pulsations, then maintain that speed throughout retrieve.

"Tender Is The Night"
In bringing to the screen F. Scott Fitzgerald's classic novel, "Tender Is The Night," 20th Century-Fox has captured the complex world of a group of American pleasure-seekers in Europe during the turbulent Twenties. Jennifer Jones, Jason Robards, Jr., Joan Fontaine and Tom Ewell star in the CinemaScope-DeLuxe Color drama, Sunday and Monday at the State Theater, which features Jill St. John, Cesare Danova and Paul Lukas in supporting roles.

Concerned with Fitzgerald's "lost generation" — a group of people searching for happiness by drowning their troubles in liquor, love and unfulfilled dreams—"Tender" explores the tragic love affair between psychiatrist Dick Diver, a man forced to neglect his work because of the unsatisfied desires of the woman he married, and his wife and former patient, the beautiful Nicole.

STATE CAPITOL HIGHLIGHTS

State Ag Commissioner Says He Is "Confident About Grain Storage"

By Vern Sanford
Texas Press Association

John White, State Commissioner of Agriculture, injected a bright note in the Billie Sol Estes investigations when he predicted, "I am confident that the grain storage picture is going to come out all right."

He and his men completed inventories of grain in elevators recently owned at Lamesa and Levelland. They assured receipt-holding farmers that their grain is there.

The State's responsibility lies in supervision of elevators where farmers store their grain and then borrow money against their warehouse receipts.

White suspended the licenses of five grain elevators in which Estes has an interest, and sent his men to check the contents against warehouse receipts. Then he announced temporary warehouse license suspensions on Hale County Grain Company and Southwestern Grain, Inc., both in Plainview.

W. L. Cooper of Plainview, operator of one of Estes' large grain storage facilities, is also listed as operator of these two warehouses.

State Securities Commissioner William M. King said his investigators are checking evidence which would tend to show Estes has violated the Texas Securities Act.

MEASLES POPPING OUT ALL OVER
A remarkably rapid spread of measles was noted by the Texas Department of Health last week when 99 counties reported 4,316 new cases.

More than a third of the week's total was reported by health officials in Jefferson, Nueces, Dallas and Travis counties. Jefferson County listed 479 new cases; Nueces County, 470; Dallas County, 282; and Travis County, 263.

During the first quarter of 1961 the measles outbreak totaled only 4,441 cases. First quarter this year a total of 32,538 outbreaks have been reported.

Dr. Van Tipton of the Health Department's communicable diseases division said the epidemic followed a trend of light incidence one year and heavy the next. He said enough children seem to escape the highly-infectious disease one season to catch it the next time around.

EMPLOYMENT HITS NEW HIGH
Unusually mild weather caused employment in the State to reach a record high for February. Texas Employment Commission announced 3,346,900 jobholders that month, as compared to 3,330,100 in January and 3,312,300 for February of 1961.

Warm weather was favorable for construction workers, agricultural employees and other outdoor workers, and helped reduce the number of unemployed from 239,900 to 189,900. The commission predicts an even better employment picture by mid-April, if prospective manpower needs reported by employers hold true.

FARM BUREAU NAMES REPRESENTATIVE
Texas Farm Bureau appointed Charles H. Huff of Taylor as its new legislative director. Farm Bureau President J. H. West said Huff will move to Austin, soon, to replace Bob A. Lilly.

The new director is well-seasoned in Capitol contact work. He served as full time assistant legislative director during the regular and special sessions of the Legislature last year.

Huff is a graduate of Texas A&M College. He served as associate county agent in Panola County prior to joining the Farm Bureau staff as field representative in 1959.

COUNCIL DEFENDS SYSTEM
"How do you deal with the extremely aggressive, hostile student?" asked Dr. James A. Turman when the Texas Youth Council conferred with members of the Texas Citizens Committee of the National Council on Crime and Delinquency.

Youth Council's executive director referred to criticism from the committee's vice chairman, Mrs. Edmund P. Williams of Corpus Christi, who earlier had called the barbed wire fence around Gatesville's Mountain View School "the only one of its type outside Nazi Germany."

Dr. Turman said two such security units in California are fenced. He joined council chairman Robert W. Kneebone in informing the committee that Gatesville inmates include 387 boys who have committed serious crimes—45 convicted on murder charges.

The citizens committee proposed a statewide study of community services for delinquent children, which the Youth Council said it would welcome. However it already has retained a prominent authority, Dr. Austin McCormick, to survey the five detention institutions it oversees.

Misses Buckner, Grenwelle In Easter Pageant

Misses Diane Buckner, and Elizabeth Grenwelle, from Winters, began practice this week for their roles in the annual Easter Pageant at Mary Hardin-Baylor College.

The student-directed and student-portrayed pageant which attracts a thousand or more guests to the campus each year is the story of the last days of Christ on earth. It is portrayed in 13 scenes including the Triumphal Entry into Jerusalem, the Cleansing of the Temple, the Conspiracy of the Priests and the Pharisees, Simon's Feast, the Bargaining by Judas, the Last Supper, Gethsemane and the Betrayal, the Trail of the High Priests, Judas' Remorse, Pilate's Trial, the Crucifixion, the Resurrection, and the Last Appearance of Jesus.

Miss Buckner is the daughter of Mr. and Mrs. E. Y. Buckner, Winters, and is majoring in home economics at Mary Hardin-Baylor. She is a freshman.

Miss Grenwelle is the daughter of Mr. and Mrs. B. M. Grenwelle, 614 North Trinity, Winters, and is a freshman at Mary Hardin-Baylor.

The two girls will compose the crowd members, a very vital part of the pageant.

This year's pageant will be presented on April 29 in conjunction with Parents' Day on the campus.

"The Cross Calls Us" is the subject for next Sunday's Sunday School Lesson. The key verse is: I have been crucified with Christ; it is no longer I who live, but Christ who lives in me; and the life I now live in the flesh I live by faith in the Son of God, who loved me and gave Himself for me.—Galatians 2:20. The following note is by Webb G. Garrison: At its most transforming, the call of the cross is to do no less than to reshape one's whole life.

Paul's surrender to the call was such that he "stepped out of his skin," as it were, in order that Christ might step in and take control. This is our high aim, too.

Growers Do Not Control

Orders for turkeys on by growers before June 22, according to Secretary Orville Freeman. It is the first nationwide marketing order since 1918.

all enforcement would come under the Secretary of Agriculture.

Those who produce as much as 3,600 pounds of live turkeys annually may vote in the June referendum. But farmers who slaughter their own birds may not vote unless they produce and slaughter at least 100,000 pounds of turkey a year or unless they slaughter at least 5,000 pounds annually for other persons.

Last year turkey prices slumped 25 percent when 108 million birds were produced, 20 percent more than the previous year.

This gave rise to the idea of imposing the marketing orders. If adopted, the order would allow a 60-man advisory board of producers and handlers to draw up regulations, subject to veto by Freeman. If approved, the plan would be administered by a 19-man committee picked from the advisory board.

Under this program, starting this year handlers could be required to withhold from the market designated percentages of turkeys they slaughter. Surplus turkeys would be pooled and disposed of, with the proceeds or losses being distributed among producers.

Or, beginning next year, handlers could buy from producers only the total quantity of turkeys apportioned to them by allotment, the size of which would be announced in advance of a given marketing period.

Under this, any allotment in 1963 and 1964 would be based on average marketings of producers in 1959, 1960 and 1961, with some sort of provision for those who marketed none during those years. In 1965 and thereafter allotments would be based on the average of marketings the previous three years.

An assessment of not more than 20 cents a hundred pounds of processed turkeys would finance the operation.

MRS. CONNIE MAC GIBBS (Photo by Little)

Jean Marjorie Mayo and Connie Mac Gibbs United In Marriage Saturday

Marriage vows, uniting Jean Marjorie Mayo and Connie Mac Gibbs, were recited Saturday April 7, at seven o'clock at the First Methodist Church with the pastor, the Rev. Ray Elliott officiating for the double ring ceremony.

Mr. and Mrs. A. L. Mayo are the parents of the bride. The bridegroom is the son of Mr. and Mrs. Connie H. Gibbs.

Wedding music was played by Miss Emma Henniger, organist. She also accompanied the soloist, Miss Deanna Kozelsky to sing "Because" and "The Lord's Prayer."

Floor candelabras with cathedral tapers formed the background and baskets of white gladioli were at either side of the altar. Candelighters were Miss Ernestine Scott, student of Hardin-Simmons University, and Miss Betty Stanley of Fort Worth.

Given in marriage by her father, the bride wore a gown of white brocade satin fashioned with fitted bodice, long sleeves extending to a point at the wrist and a pointed waistline. The scalloped neckline was reembroidered with seed pearls. The gathered skirt swept into a train at the back. Her fingertip veil of silk tulle fell from the tiara studded with seed pearls and iridescent sequins on lace. She wore a single strand of simulated pearls, a gift of the bridegroom and carried a white orchid bouquet encircled with feathered carnations atop a white Bible, a gift of her late grandmother, Mrs. G. W. Bailey.

Emmy McKnight, cousin of the bride, was flower girl and Roy Richie of Goldsboro, was ring bearer. Donny Gibbs served his brother as bestman. Groomsmen were Jim Everett of Alpine and Bailey

Mayo of Levelland, brother of the bride. Ushers were Donnie Gibbs, Bailey Mayo of Levelland, Jim Everett of Alpine and Johnny Hopper.

Mrs. Ronald Hill was matron of honor and brides maids were Miss Nancy Norman, student of Hardin-Simmons University and Miss Lynda Gibbs, sister of the groom.

The bride's attendants wore blue pima cotton dresses fashioned with bouffant skirts, scoop neckline and elbow-length sleeves. Their belts were accented with handmade cabbage roses made of blue taffeta. Their headdresses were blue tiaras and circle veils of corresponding shade of blue. They carried blue net fans mounted with white pom-poms and streamers. They wore a strand of pearls and their accessories were white.

A reception was held in the fellowship hall at the church. Serving in the houseparty were Mrs. Erwin Ueckert, Mrs. Pete Sudduth, Mrs. Bailey Mayo, Miss Rosaline Scott, Mrs. Carl Parks, Mrs. Carl Baldwin, Miss Margaret Stoecker, Miss Dickie Hale, Mrs. Bill Sharps.

For a wedding trip to Breckenridge, the bride chose a two piece suit of blue wool. Her pillbox hat was matching blue and her other accessories were in white.

The bride is a 1961 graduate of Winters High School. She was a member of Spanish Club, president of the Future Teachers of America, member of the Goal Diggers Club and librarian of the WHS choir.

The rehearsal dinner was hosted by the parents of the bridegroom at Pierce's Cafeteria.

The bridegroom was graduated from Winters High School in 1961. He was treasurer of the Future Farmers of America and participated in football and basketball activities. He is employed by Winters Construction Co.
