SOIL CONSERVATION WEEK
MAY 27 — JUNE 3, 1962

'Soil Stewardship Week' Will be Observed By Runnels Soil Conservation District

Soil Stewardship Week will be observed locally during the period May 26-June 3, according to Bill Minzenmayer, of Rt. 3, Winters, Chairman of the Runnels Soil Conservation District.

Sponsored nation-wide by America's 2900 Soil Conservation Districts and various national church organizations, the observance proposes to urge rural and urban people alike, to recognize the source and richness of the God-given soil, water and related natural resources and as good stewards to dedicate themselves to the conservation and wise use of these priceless resources. This year's theme is—"The Stream of Life."

The District will distribute especially-prepared church programs, bulletin inserts, and booklets to churches of all faiths who request them. These materials are prepared each year by the National Association of Soil Conservation Districts in cooperation with an advisory committee of church leaders presently consisting of: Dr. Lewis Newman, Southern Baptist Convention; The Rev. J. G. Weber, National Catholic Rural Life Conference; Dr. Henry McCanna, Department of Town and Country, National Council of the Churches of Christ; and the Rev. William Davidson, The National Council, Protestant Episcopal Church.

The booklets and leaflets suggested that Americans consider the importance of water:

"It is the universal liquid of life and part of our very being. It is everywhere around us, in the air and earth. Without it we could not survive, nor could any plant, animal, or other living thing. It is a final necessity, for which man has devised no substitute. Water can be so abundant as to invite waste and neglect. It can be so scarce as to set man in earnest contest for its vital uses."

Winters Junior Golf team placed second in the Jaycee Regional Junior Golf tournament at Mckel Country Club. Mike Patter-son. Mike Patterson was among the top 6 low score for the day and will be eligible as an alternate to the State Jaycee Tournament which is scheduled to be held in Wichita Falls. (Photo by Little)

Dr. Virtus Gideon Speaks of Future To '62 Graduates

"First, even space graduates confront common problems such as the problems of livelihood, of personal relationships, and of evil and suffering," Dr. Virtus Gideon told members of the 1962 WHS graduating class Monday night.

Before a near-capacity house in the Winters High School Auditorium Monday night, Dr. Gideon's address to the graduates "looked to the past, the present, and the future in the field of science as it relates to the youth of today."

The commencement exercises, originally scheduled to be held in Blizard Field, were moved to the auditorium because of threaten- ing weather conditions.

Dr. Gideon told the graduates that they faced "unparalleled opportunities for education, personal achievement and for individual service." He indicated that the graduate of today must contem- plate indefinable obligations. "He is obligated to have a purpose in life and a program for life; and he must be able to work with people throughout life," the speak- er said.

Dr. Gideon is a graduate of Winters High School, and is a teacher of New Testament in the Southern Baptist Theological Seminary of Fort Worth.

One-Third of WHS Class of '62 Had "A" Grade Average

Twenty members of the 1962 graduating class at Winters High School, or about one-third of the class, averaged 90 percent or above in four years of school work, it was announced at the commence- ment exercises Monday night. These graduating students were recognized during graduation cere- monies.

Boys led the girls in the high average grade column, with twelve.

With four year grade averages of 90 or above were: Edward Pope, 94.03, Jimmy Johnson, 93.43, A. L. Mitchell, 93.42, Collier Randolph, 93.37, Don Adams 93.29, Lou Await, 93.29, Bob Shoemaker, 93.01, Marta Davidson, 92.24, Jerry Dunn, 91.87, Floyd McMillan, 91.63, Cheryl Grey, 91.34, Judy Patterson, 91.34, Marcene Matthews 91.28, Don Orr 91.08, Stan Hill, 90.62, Janel Gerhart, 90.60, Bonnie Proctor, 90.48, Roger Stanford, 90.35, Carolyn Rice, 90.30.

"Water provides the drama of Old Faithful, and the majesty of the Mississippi, and the grandeur of Niagara Falls. In its infinite variety it is a thirst-quenching drink for the children of Atlanta, a cooling accessory for the steel mills of Ohio, and vital irrigation for the sunward fields of Arizona."

"It appears as soaking rain on Olympia's forests, the fleecy hush of a Vermont snowfall, and the quick excitement of a Kentucky thunderstorm."

"It is a miraculous gift of God, given to us for our refreshment and endless uses. But our neglect can waste it; our misuse can turn it into offensive sewers of pollution."

"Water tests our sense of responsibility to God and man. It asks for care, requires our self-discipline, and responds to manage- ment."

"This priceless water has been here before and by God's plan will be returned again and again for us to use according to our maturity, either with wisdom or with shameful neglect."

"Consider our water. Consider it well!"

FROM CALIFORNIA

Mr. and Mrs. Elo Guy of Sacramento, California left Monday after a two weeks visit with relatives here. They will tour Florida then to Washington, D. C. up to New York City and across the country to Seattle, Washington to attend the State Fair before re- turning to their home.

Feeding Lot Will Be Ready In About 45 Days

Raymond R. Walston, who is president of the corporation build- ing the commercial feed lot west of Winters, said this week that the feeding pens will be ready and in operation within about 45 days. Ground has been cleared and feed- ing bins have been built on the location of the new enterprise.

The feed lot operation is being built on the hill south of Fairview Cemetery on the Wingate road west of town. This hill dominates the entire area, and, according to informed sources, is ideal for this type of operation.

Holes have been drilled for fence posts, and some of the posts have been erected. The operation will be somewhat larger in the begin- ning than had been planned at first it was reported. First plans were to build pens to hold about 2000 head of cattle.

The feeding pens are being built by Commercial Feeders, Inc., a company which was recently in- corporated. Walston is from Men- ard.

VFW and Auxiliary Host Party For Poppy Workers

Following the day-long Buddy Poppy sales campaign last Satur- day, the young people who did the selling of the poppies were guests at a Coke party sponsored by the Veterans of Foreign Wars and its Auxiliary.

Joe Cortez, chairman of the sale, expressed appreciation to the workers and to the people of Winters for making this sale a success.

Maj. G. L. Sanders Receives Argentina Military Award

The Government of Argentina has awarded the Military Aviator "Honoraria Causa" to Major Gilmore L. Sanders, 774th Troop Carrier Squadron, Sewart AFB, Tenn.

Major Sanders is the son of Mr. and Mrs. Henry L. Sanders of Ovalo, Texas.

The award was presented by Brig. Gen. Frederick J. Sutterlin, commander of the 839th Air Division at Sewart.

Majors Sanders received the high honor after participating in the sesquicentennial of the May revolu- tion at the invitation of the Ar- gentine Air Force.

The citation read in part: "The outstanding talent displayed . . . won the admiration of members of the Argentine Air Force and added to the friendship existing between the two Air Forces. The government of Argentina desires to honor those who assisted in furthering closer international re- lations."

Major Sanders and his wife, An- nette, have four daughters; Susan, Priscilla, Robin and Holly. Mrs. Sanders is the daughter of Mr. and Mrs. Mord Tucker. Both Mr. and Mrs. Sanders were reared in Winters and received their high school education from the local schools.

Twelve Students Graduate From Wingate School

Twelve students were given cer- tificates at the eighth grade com- mencement exercises held at the Wingate School last Thursday evening, May 24.

Students graduating from the 8th grade at Wingate include Johnny Pat Beck, William Burrow, Bill Cathey, Alfred Dooley, Kathy Dunn, Cary Green, Nancy Grish- am, Gary Helm, Larry Hensley, Sharon King, Kenneth Patton, and Skipper Pittman.

For commencement exercises, Mrs. W. W. Wheat played the pro- fessional and recessional; the in- vocation was given by Alfred Dool- ey.

A. J. Bishop gave the main ad- dress. He was introduced by A. Dooley, superintendent. Raymond Lindsey, a member of the school board, presented the awards and certificates.

Will Demonstrate Yule Decorations In Winters Soon

Harry London, chairman of the Christmas Decorations committee of the Winters Chamber of Com- merce, this week said that a section of Christmas lighting and street decorations will be put up "in the near future" as a demon- stration and to give citizens of Winters a preview of what can be done about decorating the streets during the Christmas holidays.

Homer Hodge, of Sparkle-Lite, Inc., will install the decorations in some pre-selected section down- town. It was not stated how long the decorations will remain up but it was understood they would be up until the whole community has had a chance to see what they look like.

The plan is part of a program sponsored by the Chamber of Com- merce to improve the Christmas decorations theme in Winters. The old Christmas lights and decora- tions have become so worn and outmoded they add very little to the Christmas atmosphere, it was pointed out.

By beginning early on this pro- ject, it was hoped that complete plans can be worked out before another Christmas season arrives.

RETURNED HOME

Mr. and Mrs. W. R. Kennedy have returned home from a busi- ness and pleasure trip in the deep south, through San Antonio to Bat- on Rouge, Lake Charles and New Orleans, La., to Tallahassee, Fla., across the Sevanee River to Acalo, Fla. They took a submarine ride at Rainbow Springs. On their tour of the Southern States they saw much interesting country, but de- cided Texas is good enough for them.

Democrats Vote In Run-Off Saturday

Texas Democrats go to the polls for the second primary Saturday, June 2, to name candidates for the November general election.

In contrast to the long ballot of May 5, voters will have a much shorter ballot to work with Satur- day. Only five state offices will be voted on in this run-off election, and only two local offices will be up for consideration.

Locally, there is a run-off con- test for Constable, Prec. 5, and for Justice of the Peace, Prec. 5.

Billy Simpson and Aaron J. Wells are candidates for Constable, and J. A. Henderson Jr., and Herman A. Baker Sr., are candi- dates for the Justice of the Peace office.

No county or district offices are involved in Saturday's voting. On- ly other names on the ballot, lo- cally, will be:

For Governor, John Connally and Don Yarborough.

For Lieutenant Governor, Pres- ton Smith and James A. Turman.

For Attorney General, Waggo- ner Carr and Tom Reavley.

For Congressman-at-Large, Joe Pool and Woodrow Wilson Bean.

For Associate Justice, Court of Civil Appeals, 3rd Supreme Judi- cial District, Thos. C. Ferguson and John C. Phillips.

Polls will open at 8 a.m. and close at 7 p.m. Voting places for this run-off primary will be the same as in the first primary.

1962 Wheat Harvest Well Underway Here

Harvest of the 1962 wheat crop has been progressing rapidly in this area, even though combines were stopped for a while because of light showers for two or three days.

Local wheat buyers reported that up until Tuesday, 30 cars of the 1962 crop had been received in Winters.

Wheat which has been coming into Winters is from the early crop. Sources said that cutting of the later varieties would not begin for two or three weeks. Early wheat is about out, it was said.

Yield in this immediate area is better than had been anticipated, according to some sources. Average per-acre yield is said to be somewhere around 19 bushels, with some going as high as 29½.

Quality of the wheat which is coming in to Winters now is bet- ter than the 1961 crop, it was said, although there is not as much of it. The cutback in wheat acreage has reduced overall production. It was reported that producers had reduced acreage as much as 40 percent under that of the year before. Average across-the-board reduction probably is close to 30 percent, it was said.

An unusual circumstance sur- rounds the harvest of this year's wheat, some sources said. Usually, the oat crop is out before the start of Wheat harvest. This year, how- ever, very little oats have been harvested. What oats have come in have been of good quality, buy- ers said, but production was cut by the hard dry freeze earlier in the year. No speculations were made on oat production here this year.

Even though the entire area is badly in need of moisture, wheat farmers were keeping a weather eye on the sky, hoping to get their grain out of the fields before rains come. Hard rains and high winds could destroy what is left of this year's crop. Although some hail was reported during the light showers which have fallen in the vicinity during the past few days, there has been no appreciable damage.

Runnels County Farm Bureau Buys Ballinger Building

A deal was closed recently by the Runnels County Farm Bureau for the purchase of a building in Ballinger, it was announced the first of the week. It is located at 815 Hutchins Avenue.

The building, owned by Carl Murman, was occupied last fall by Pope Cotton Company.

Members of the building com- mittee were Hugo Vogelsang, pres- ident, Elliott Kemp, chairman, Ben J. Frerich and M. L. Dob- bins.

The Farm Bureau office has been located in the Ballinger Truck & Tractor Company building for sev- eral years and the space provided there has been very much appre- ciated by the president, Mr. Vog- elsang, the board of directors and all members of the Farm Bureau.

In Winters, E. E. Thormeyer, owner of the Farm Equipment Company, also provided space for the secretary and service agent of the Farm Bureau for one day each week for several months. This was discontinued, but the use of the space provide by Mr. Thor- meyer, was also greatly appre- ciated.

The Farm Bureau office will be moved soon and all members are invited to come by when in Ballinger. Seats will be provided for the comfort of those visiting in the new location.

Eugene Robertson Received Degree From SMU May 28

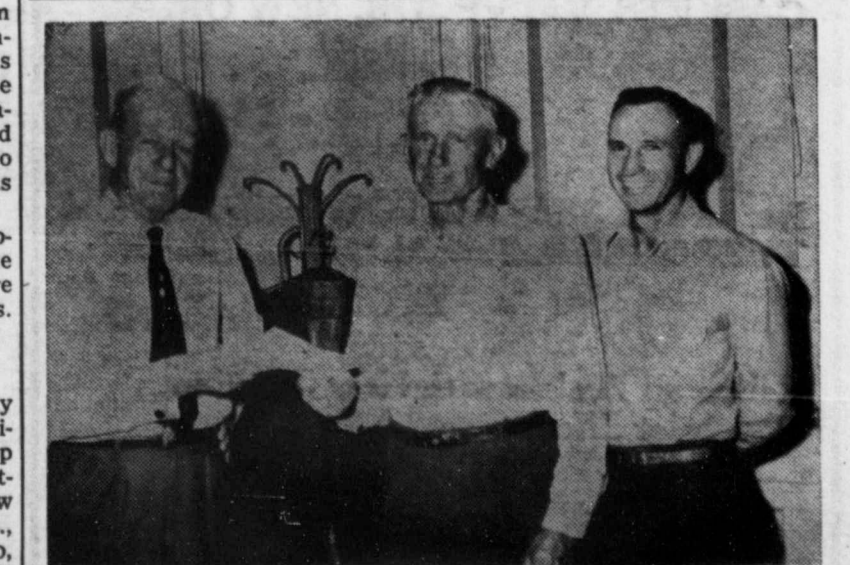

Eugene B. Robertson, son of Mr. and Mrs. D. C. Robertson, Winters, was awarded the degree of Bachelor of Divinity Monday, May 28, in the Forty-Seventh Annual Convocation of Southern Methodist University.

Dr. Willis M. Tate, President of SMU, delivered the University's traditional presidential statement to the graduating class of nearly 1250 members. Over 850 students participated in the commencement exercises Monday evening in the SMU Coliseum.

Robertson is a 1952 graduate of Winters High School.

STATE CAPITAL HIGHLIGHTS

Eight Tired Candidates for State Office Await Saturday's Balloting

By Vern Sanford
Texas Press Association
Eight tired men will sit down Saturday night—but not to relax. Probably it will be well into Sunday before four know that they have won and four know that they have lost the Democratic runoff primary for four important state-wide offices.

John Connally and Don Yarborough have battled it out for governor. James A. Turman and Preston Smith are the two tired men in the race for lieutenant governor, possibly the most important job in state government. Waggoner Carr and Tom Reavley competed for attorney general. Woodrow Bean and Joe Pool were the busy men seeking nomination for Congressman-at-large, a statewide seat in Congress which likely will be abolished within two to four years.

Following Saturday, they can rest a bit before taking up their campaigns against the Republican nominees who are expected to make the strongest bids since 1874 in the general election on November 6.
But no matter how the democratic primary and the general election turn out, Texas will have new men in the three top state offices beginning next January.

STATE AND SYMPHONIES CLASH

A new order from the State Comptroller's office struck a discordant note with supporters of

Texas' 13 symphony orchestras when they were informed that their productions will no longer be considered exempt from the 10 per cent admission tax.

The Dallas Symphony society was first to be taxed. They paid \$12,999 back admission taxes under protest.

Now symphony groups in Houston, San Antonio, Abilene, Amarillo, Austin, Corpus Christi, El Paso, Fort Worth, Lubbock, San Angelo, Tyler and Wichita Falls are under surveillance of the Comptroller's staff.

Actually, no one ever told the symphonies that they were exempt from the ticket tax. But they so considered themselves under a clause in the law passed in 1936 exempting "charitable" and "educational" organizations. They never were informed otherwise.

With the advent of the new sales tax law, an enlarged staff in the State Comptroller's office was mandatory. Interpretations and rulings were necessary. One rule defined "charitable" and "educational" organizations in such a manner that collectors started hitting the symphonies for back admissions taxes.

Sen. George Parkhouse of Dallas said he thinks exemption of symphonies and similar organizations was "the intent of the 1936 law." He has promised to support redrafting of the state amusements tax law to exempt non-profit cultural institutions.

The Dallas society's payment

"under protest" may pave the way for a court decision. State Comptroller Robert S. Calvert said he'll welcome one. "Frankly, I don't know if symphonies should pay an admission tax," he admitted, "but I don't think they can be called a charity."

WATER PROGRAM ACCELERATED

Speed with which federal water projects are coming into final stages is shown by the fact that the Texas Water Commission has reviewed 17 federal projects since September 1, with two more coming up for hearing June 11.

Chief Engineer John Vandertulip said that projects already reviewed by the commission have a total first cost of \$325,366,000 of which \$192,052,000 is federal.

Those projects are up for congressional authorization or financing this year, so odds are fair that work by federal agencies in Texas will be accelerating greatly in the next two or three years.

Water Commission will hold hearings on June 11 on two U. S. Corps of Engineers' projects—Plum Creek and the Sabine-Neches Waterway improvements. The latter project, which calls for deepening of existing channels to accommodate super-tankers, totals \$20,830,000 federal cost and \$1,548,000 non-federal.

LIVESTOCK CONTROL FUNDS SUPPLEMENTED

R. G. Garrett, executive director of the Texas Animal Health Commission, notified Gov. Price Daniel that nearly \$9,000 of a \$10,000 appropriation for livestock tuberculosis control program has been spent. Remaining funds virtually are exhausted.

So the governor approved a \$5,000 emergency grant to boost the Commission's program to August 31.

Animal Health Commission now has 69 herds of cattle under quarantine due to tuberculosis.

Plans call for completion of testing in 15 counties as well as additional testing in 19 more counties.

36TH COMMANDERS PROMOTED

Governor Daniel announced the promotion of the Texas' 36th Infantry Division's two top commanders. Amarillo Attorney Everett S. Simpson, commander of the division, was promoted to major general, and Ralph M. Krieger, an Abilene businessman, was named to the rank of brigadier general.

Simpson, one of Texas' most-decorated soldiers, participated in every major engagement that the 36th Division was involved in in World War II. In the same campaign, Krieger won the Combat Infantryman's Badge, Bronze Star, and Legion of Merit.

SHORT SNORTS

Billie R. McElroy of Austin, firearms training specialist for the Texas Department of Public Safety, won the Elihu Root medal for marksmanship for training civilian marksmen.

Texas Education Agency revealed that more than 100,000 Texans now have completed the Civil Defense "Education for Survival" course, leading the nation in adult participation in this program.

Miss Ruth LaVerne Gallman of Temple, education coordinator at Scott and White Hospital School of Nursing, was named to the State Board of Nurse Examiners. Governor Daniel appointed C. D. Acker of Jacksonville, H. T. Latham of Stephenville and Paul D. Lindsey of Dallas to the Texas Finance Commission.

FROM HOUSTON

John Q. McAdams Jr., of Houston came Thursday for a visit with his father, Mr. and Mrs. John Q. McAdams, Sr. He attended the funeral of his uncle, Henry Grady Jones in Big Spring Friday.

Former Resident Burial Rites At Ballinger Friday

Henry Grady Jones, 71, president of the Jones Motor Company at Big Spring, died Friday morning at 8:45 in the Methodist Hospital at Lubbock. One of the state's oldest automobile dealers, Mr. Jones owned a dealership in Winters several years ago.

Mr. Jones died following surgery performed in an effort to halt a cerebral hemorrhage. The injury resulted from a fall Tuesday on the concrete driveway at his home in Big Spring.

Funeral services were held at 2 p.m. Friday in the Nalley-Pickle Chapel at Big Spring with the Rev. R. Gage Lloyd, pastor of the First Presbyterian Church, officiating. The body was taken to Ballinger for graveside rites at 5 o'clock in the City Cemetery in Ballinger.

Born in Rome, Ga., June 16, 1899, he moved to Texas as a boy. He lived in Grandview briefly and moved to Ballinger in 1904. On Oct. 28, 1914, he married Bessie Northington in Ballinger. In 1915 he entered the automobile business

Mesquite Ranchers

Several methods for mesquite, but one of the most practical and economical is usually the aerial application of pure stands of mesquite. G. O. Hoffman, a specialist in the aerial application of 2, 4, 5-T, has advised that the desired results must be prepared in plenty of time to make the mesquite produce a

dense foliage. At the time of spraying, the foliage should be dark green. Hoffman says that this year the mesquite foliage is in the best condition in several years, and good results should be obtained from aerial control provided the moisture situation remains favorable.

Also, if rain falls during the spraying season, it is advisable to wait until the new leaf tip growth has turned dark green. This usually takes about two weeks.

The chemical mixture to use for aerial control of mesquite is 1-2 pound of 2,4,5-T, 1 gallon of diesel oil, and enough water to make 4 gallons of mixture. This four gallons of chemical mixture should be applied to one acre in a manner that insures complete coverage of the foliage.

Hoffman says a miracle should not be expected. The total root kill under ideal conditions is 25 to 35 per cent. The initial control will last from 5 to 7 years before spraying of the regrowth is necessary.

After the spraying, the pasture should be deferred to allow the grass to re-establish. Graze it during the winter, defer it the second growing season, then use it properly. The extra grass is what pays for the brush control practice.

If it rains in the mesquite country within the next two weeks, it may be advisable to spray every acre of mesquite in Texas, says Hoffman.

For more information on aerial control of mesquite, contact your local county agent.

Last Meeting of San Souci Club Held Recently

Hosts for the last party of the year for the San Souci Club were Mr. and Mrs. LaDell Davis. Mr. and Mrs. Harry Herman were co-hosts.

Foursome tables were beautifully arrayed in white linen centered with a miniature May Pole, topped with an orchid thistle and yellow and orchid ribbons attached. Tiny orchid and yellow flowers floated at the base of the May Pole. Guests found their places marked with hand-printed cards. Ladies' cards had a tiny nose-gay, men's cards had a giant May be arranged on them.

In the main party room an arrangement of red roses in a milk glass container was on a side table. A gladiola arrangement in milk glass was centered on the dining table which was laid in white cut work. Other party rooms had arrangements of seasonal flowers at vantage points.

After dinner 42 was played by a guest, Mrs. Frances Campbell; and members, Messers and Messdames M. E. Leeman, Gattis Neely, Raymon Lloyd, George Poe, James Randolph, Fred Young, W. F. Minzenmayer and the co-hosts.

IT'S THE LAW - IN TEXAS

Owning a swimming pool is becoming rather common in Texas and it places some legal duties on the owner. Your main duty hinges on the "doctrine of attractive nuisance" under which you become legally responsible to young children who trespass on your land.

As a rule you owe no duty to trespassers. They must take your property as they find it: if dangerous, that is their tough luck. Not so for children who wander on your land. The attractive nuisance doctrine says that if you have some man-made things on your land which entice youngsters you have a legal duty to make your land safe for them.

A high tension line, an old mine-shaft, a railroad turntable, a pool of clear acid may be irresistible to children. If they are likely to be attracted and unable to grasp the dangers, you have an "attractive nuisance," and you must make your premises safe.

Recently a court held that a swimming pool may be an attractive nuisance. In this case a toddler drowned in Jones' pool. Jones and the boy's parents lived across the street from each other. About 30 feet from the street, the pool was fenced but with openings through which children could enter. On week ends the Jones were not home, only the Jones' children. Animals often played near the pool.

The pool and the animals could attract a youngster; he could not grasp the water's danger. The Joneses could have had a locked gate. A jury properly held Jones responsible for the drowning.

How young is the child? Can he appreciate the dangers? How easy is it for the owner to make the place safe for children?

There are times when an older child should appreciate dangers. An older child playing on a scaffold should appreciate the dangers of height. In another case a twelve year old boy tried to jump on a train which was moving along a public street. When he fell he could not get damages for his injury. He should have seen his danger. Besides how could one put up a barrier along a public street which could keep out twelve year old boys.

A land owner may have other duties to trespassers. He cannot set a "trap" on his land, create hazards on his land on purpose; he cannot put a pit on his land where people frequently trespass, put in spring guns, or other traps to harm trespassers.

Sometimes a condition on your land may be a trap to children but not one for adults. The adult may grasp the danger of slippery algae growing in a partially drained pool, but not a child. But even with a trap on your land the attractive nuisance doctrine will not apply without some allurements or enticement to bring children to trespass on your land. Such attractions are, in effect, an implied invitation to enter. Check your place for such attractions, and in any event consider measures, such as insurance, to cover harm that may come from things on your land. And above all, keep your place safe. For all the money may not undo the harm.

Funeral Rites For Samuel T. Wright Held Here Tuesday

Funeral services were held Tuesday morning at 10 o'clock in the Spill Memorial Chapel for Samuel T. Wright, 76, with the Rev. Ray Elliott, pastor of the First Methodist Church, officiating.

Mr. Wright died Sunday morning at 9:30 o'clock in the home of his daughter, Mrs. Mary Green, following a heart attack.

Native of Texas, Mr. Wright was born at Dime Box May 19, 1886, and moved to McCulloch County as a young man. He was married January 15, 1910 to Lela Burnett at Fird Creek. The couple moved to Runnels County in 1922, settling on a farm near Wingate. In 1938 they moved into Winters and he began working as a watchman for the Winters Cotton Warehouse where he continued until February of this year.

Mrs. Wright died in April 1946. He was a member of the Wingate Methodist Church.

Surviving are three daughters, Mrs. Green, Mrs. Lucille McIver of Abilene, Mrs. Pauline Timms of Ballinger; one sister, Mrs. B. G. Elliott of Rising Star; 11 grandchildren and four great grandchildren.

Burial was in the Wingate Cemetery. Pallbearers were Tommy Timms, Carl Wood W. H. Barnett, Jerry McIver, Stevie McIver and Clay McIver.

HEALTH LETTER

A person can live three weeks without food, three days without water, but only three minutes without air.

Would you know what to do if a member of your family or neighbor became unconscious and stopped breathing and there was no doctor around?

In just a few minutes anyone can learn the technique known as mouth to mouth breathing. This method has been known to man since biblical times but has recently been proven much more popular than any other method of artificial respiration.

This technique may be used to revive all unconscious and non-breathing victims of drowning, electric shock, smoke or gas inhalation, drug or chemical poisoning, injuries to head, chest, neck, and abdomen, convulsions, cardiac arrest, and other causes.

Mouth to mouth rescue breathing starts with clearing the mouth of any foreign objects such as tobacco, food, seaweed, toys, loose teeth or other small objects.

Then with one hand grasp the victim's chin, placing the other hand on top of the head and with a rotating motion tilt the head backward. A roll of clothing or a blanket placed under the victim's shoulders will help keep the neck in favorable position.

Insert the thumb of one hand between the victim's jaws. Grasp the lower teeth and pull the jaw forward. Never let the victim's chin sag or let his head return to normal, relaxed position. Stop air leakage through the nose by pinching the nostrils closed with the thumb and index finger of the

other hand.

Next, take a deep breath and place your mouth over the victim's mouth as firmly as possible in order to prevent air from escaping. Keeping the mouth closed, breathe deeply into the lungs.

As soon as you see the chest rise you have delivered adequate breath. You must move your mouth so the victim may exhale naturally. Rescued breathing about three or four seconds to 20 times a minute. A victim breathes naturally a doctor arrives. If the victim is an infant or small child gently using only small movements of the cheeks and throat.

Lions Club Seeks Applicants For Children's Camp

Winters Lions Club this week announced that there still are a few vacancies which need to be filled for this summer's schedule at the Texas Lions Crippled Children's Camp at Kerrville.

Parents of children who would be eligible for the two weeks activities at the camp may contact any member of the Winters Lions Club for an application. There is no charge for this activity, it was pointed out. The local Lions Club will arrange transportation to and from the camp.

Prior to attendance at the summer camp, all children must have a physical examination, it was announced.

The Crippled Children's Camp provides two weeks of various activities for crippled children. While the children are at camp, they are under the direct supervision of trained counselors. The children are given an opportunity to take part in sports, go on camping trips, and are instructed in handicraft. They participate in religious services in a beautiful semi-outdoor chapel. Most children who have attended the camp in the past have been eager to return.

Children attending the camp are housed in dormitories, and eat in modern dining rooms. A program of "helping each other," and "self reliance" is stressed during the camping period.

George W. Ballard Died At Merkel; Services Thursday

Funeral services for George W. Ballard, 79, were held at the Shep Methodist Church Thursday afternoon at 3 o'clock, with the Rev. Norman Patton of Sweetwater, pastor of the church, and the Rev. A. H. Willaims of Abilene, officiating.

Mr. Ballard died in the Sadler Clinic at Merkel at 2:20 p. m., Wednesday, May 30. He had been ill for the past five weeks and in the hospital 18 days.

Born at Winfield, Ala., August 10, 1882, he married Mary Frances Allred July 5, 1903, at Thalia, Texas. He came to Texas as a young man and settled in Van Zandt County. The family moved to Coryell County and in 1924 they moved to Shep. Mrs. Ballard died in 1948. Two children also preceded him in death.

He is survived by two sons, Herbert of Shep, and Eddie of Abilene; five grandchildren and eight great-grandchildren.

Pallbearers were Bill Lilly, Jess Reagen, J. V. Hurt, Chubby Carpenter, Hershall Jackson, Milton Jackson, Enoch Henson and Joe Lawrence.

Burial was in Shep Cemetery.

G. T. Pounds, 70, Former Resident, Died In Abilene

G. T. Pounds, 70, of 1368 Briarwood, died at Hendrick Memorial Hospital at 2 p. m. Wednesday, where he had been a patient a short time.

A resident of Abilene since 1952, he was in the insurance and real estate business. Mr. and Mrs. Pounds moved to Abilene from Winters, where they had lived since 1920. He had operated a cafe in Winters for many years.

Born Nov. 22, 1891, at Pearsonville, he married Kara Ester McFadden in Paint Rock in 1915.

Funeral services were held at 3:30 p. m. Thursday at Crescent Heights Baptist Church, of which he was a member, with the Rev. F. R. Cole, assistant pastor, officiating, assisted by the Rev. W. T. Hamor, retired Baptist minister, and the Rev. Billy Hendrick of San Angelo, former pastor of the Crescent Heights Baptist Church.

Following the service in Abilene the body was brought to Winters where graveside services were held in Fairview Cemetery under the direction of Elliott's Funeral Home of Abilene.

Surviving are his wife; one daughter, Mrs. W. Barney Cox of 1642 Shelton; one son, G. T. Pounds, Jr., of 1974 Westview; one foster daughter, Mrs. Peggy McFadden of the home; three grandchildren. Pallbearers were Garland Gran-

Going with the girls were Mrs. Jack Fry, Ballinger; Mrs. Frank Greger, Norton; Mrs. A. A. Block, Olfen; and Miss Louise Decker, HD Agent. Theme of the camp is "Citizenship." There will be approximately 250 4-H girls, adult leaders and extension agents present. Shirley Fry, Carolyn Muller and Patti Greger will be in charge of the flag raising ceremony Friday. Corsica, an island 100 miles off the French coast, is famed as the birthplace of Napoleon. Cotton culture is thought to have originated in India about 1500 B. C.

Lions Club Will Sell Rodeo Flags Again This Year
 The Winters Lions Club has contracted as agent to sell the rodeo decorations which will be put up on downtown business buildings before and during the 16th Annual Winters Rodeo. Harbin Decorating Company of Dublin will furnish the decoration bunting and will install it a week or more before the rodeo dates, June 21, 22 and 23. Members of the Lions Club will call on each merchant in town to sell the decorations. The Harbin company will furnish free of charge all across-street banners and decorations. All sales of rodeo decorations must be completed by Tuesday noon, June 5, so that the decorating company will have sufficient time to put them up, spokesmen of the Lions Club said. Any merchant who is missed may call any member of the Lions Club and arrangements will be made for decorations to be installed, it was announced. Space travel is what is going to separate the men from us cowards.

Winters Local A F & A
 Election of officers for the year 1962 will be held at the regular meeting of the Winters Local A F & A on Friday, June 1, at 8 o'clock.

"Peace is a positive thing, not an armistice from fighting."—Selected.

Jerry Deal of El Paso was a visitor Sunday morning at the Baptist services. The revival began Monday night and will continue through Sunday. The Vacation Bible School began Tuesday morning and continues through Saturday.

"It Pays To Serve Jesus" was Kay Orr's special for the Sunday morning services at the Methodist Church. Her mother, Mrs. Grover Orr accompanied her on the piano.

Mrs. Dick Bishop and Omer Hill sang "Face To Face" for the morning special at the Drasco Baptist services. Mrs. Hill accompanied them at the piano. The Vacation Bible School is in progress this week at the Church.

John Henry Butler of Ballinger was a visitor at the morning services Sunday at the Moro Baptist Church. Mrs. Jack Bedford and Clyde sang the morning special, "Why Not Now," with Mrs. J. W. Allmand at the piano. For night special Mrs. Allmand and Clyde sang "Never Grow Old" with Mrs. Allmand at the piano.

"The Fellowship of Love" is the subject of next Sunday's Sunday School Lesson. The key verse is: Let us not love in word of speech but in deed and in truth.—1 John 3:18. The following is by Glen W. Lamb.—The New Testament concept of love is the will to do good with the continued purpose of blessing others. This idea prevails even to our enemies. Even to them we can do the best for them and never allow the poison of ill will to destroy our goodwill.

Love in deed and in truth is never stopped by the possible cost of its service, nor exhausted by the burdens it bears. It is the eloquence of the heart in action, the motive of good deeds, and the influence of the soul.

Special days next week are: Bennie Howze Louders and a wedding anniversary for Mr. and Mrs. Henry Webb and Mr. and Mrs. Willie Gardenhire the 3rd; W. J. Harrington, Everett Abbott and Floyd Parris the 4th; Mrs. Lilly Butler and Milton Sharp Jr., the 5th; Barbara Higgins, G. W. Sneed, Guy Taylor and Mac Hurley the 6th; Millard Self the 7th; Patricia Ryan, Jeannette Lewis and Frances Middleton Kee the 8th.

DORSEY HARDEMAN

Senator, 25th District
SAN ANGELO, TEXAS

I am respectfully asking the people of my district for Preston Smith for Lieutenant Governor in the cratic runoff June 2.

Having served with him in the Texas Senate, I position to say that Preston Smith is a man of integrity who can be counted on to do the right thing. He is the only candidate who has had experience in the Senate. He is the only candidate who has served in both Houses of the Texas Legislature. In my opinion he will be an outstanding presiding officer of the Senate.

Preston Smith is the man with whom I can work and with mutual confidence, for the benefit of our State I recommend his candidacy to you without reservation.

Sincerely yours,

s/DORSEY HARDEMAN

Glasco and Harold Announce June Wedding Plans

and approaching marriage of Phyllis Ann DeLoach is announced by the bride-elect's father, Harold DeLoach, 904 South Colorado Street, of Winters.

Glasco is the son of Mr. and Mrs. J. H. DeLoach, of Winters. Miss Glasco is the granddaughter of A. T. DeLoach, a graduating senior at Midland High School. The wedding will be performed by Mack's Plumbing Company. The couple will be married at 10 o'clock on June 1st.

Reed, Worthington at Farwell

Beverly Kay Reed and Worthington will be married on May 18 at 9 o'clock at the parsonage of the Church in Farwell, Texas. The Rev. J. H. Bass, pastor of the church, will officiate at the ceremony.

The bride is a senior student at the Farwell High School, where she plans to continue her education and the groom is a 1960 graduate of Winters High School. He is presently stationed at Cannon Air Force Base, at Clovis, New Mexico.

Mr. and Mrs. Worthington are making their home at Clovis, New Mexico.

The only attendants at the wedding were Mr. and Mrs. W. H. Reed and a few friends.

ROGER BABSON SAYS—

Future Education Planning May Call For More Intensive Use of Science

There is much criticism by taxpayers of the amounts that are spent on education. In almost every school committee some one or more members insist that education has not increased in efficiency and in reducing cost per capita. I, myself, feel that my grandchildren go through almost the same educational routine as I did fifty years ago. I am no educator, but according to my reckoning my grandchildren are obliged to spend twelve years learning what I got in ten years.

The Brain A Physical Organ

The brain may be basically no different from the heart, or the stomach, or the liver. Certainly the brain is made up of physical cells. When something is the matter with our stomach, the doctor gives us capsules to help remedy the difficulty. This sort of treatment, however, has seldom been used for retarded children. Only in a few cases has a physician been called in to help retarded children.

It is now recognized that the difficulty with a retarded child may be his eyesight, or his hearing, or some other physical impairment. Hence, the child is given glasses, or possibly a hearing aid. We are also attempting to help these children psychologically. These are steps that have only recently been taken; but good results are being secured by these aids. Such work needs the encouragement of every school committee and every parent.

DNA and RNA

The real purpose of this week's column is to call attention to the wonderful possibilities of these new chemicals in connection with education: DNA, which stands for deoxyribonucleic acid; and RNA, which stands for ribonucleic acid. These are two new and very important chemicals which the drug companies are carefully studying. Also such companies as Dupont of Wilmington, Del. and the American Cyanamid Company of New York, which owns the Lederle Laboratories. These companies are endeavoring to solve the genetic connection between two chemicals (perhaps male and female) which may lead to the origin and continuity of life, through the synthetic development of cells. Work on this is being done in conjunction with the National Institute of Arthritis and Metabolic Diseases at Bethesda, Maryland. They hope the work can result in the manufacture of specific proteins, one of life's most complex and important molecules which appear in all living cells of the brain. It is believed that DNA is material of which the cells of genes and chromosomes are composed. DNA's function is to transmit genetic intelligence from one generation to the next. They make up a "template" or "Mold". This mold is supposed to carry these specifications on to RNA, the messenger that in turn directs the manufacture of protein necessary for education and life. This is done in a way similar to the dots and dashes in the Morse Code spelling out of over 10,000 meaningful words from only 26 letters of the alphabet. In short, every child has the equivalent of 26 letters, but the child's future depends on the arrangement of these letters (or molecules).

Proper Feeding Of The Retarded

It is believed that the child's system might be directed to produce normal brain cells or perhaps even brilliant brain cells. These experiments may lead to the possibility that educators will combine psychology with chemistry and the use of TV. My grandchildren may be given capsules as part of their education, or they may be exposed to seeing proper TV programs from the time they are three days old. This may seem revolutionary, but I believe it will happen to give us better memory and judgment!

When this time comes, teachers will have no trouble obtaining increased salaries because taxpayers will recognize that the efficiency of education is increasing while the cost per capita is being reduced. DNA and RNA and TV may do for education what fertilizers are doing for agriculture. These chemicals may enable all students (not only the retarded) to become much more brilliant, and better citizens—in a shorter time and at less cost. In fact, by exposing all babies to TV there may be no "retarded" children.

A Message To Parents

The school year is over and happy vacation days are ahead. The young people have looked forward to the day when they could put away their books. It meant the end of home work and more time to play.

If you have children of school age, consider how important it is for them to learn the ways of money management. Have them join our School Savings Club. Accounts may be opened with \$1.00 or even less. When deposits in any account total \$18.75 a \$25.00 U. S. Savings Bond may be purchased. More bonds may be bought later.

Bring the young folks or send them in. A bank book is a good textbook at any age. Lessons learned early in life are long remembered.

What this country needs is a good nickel cup of coffee!

nickel cup of coffee!

A nickel goes a long way (like in the good ole' days) when you make your coffee the modern way — with clean, safe, flameless electricity.

Approximately 100* generous, delicious cups for a nickel! And this is only one example for the economy of electricity in your modern living. As a matter of fact, between the years of 1950 and 1960, the average cost of a kilowatt hour of electric service to residential customers served by West Texas Utilities Company went down 21%.
