Rainfall Near Normal For '62

Rainfall for 1962, as recorded unofficially for Winters, was about normal, with moisture received below that of 1959, and more than that received in 1960. The total for 1961 was not recorded, with only the first seven months on re-

Cuban Outlook I forecast that the Cuban problem will not be settled in 1963. It may extend until after the 1964 presidential elections. The Russians have removed their missile

Poll tax sales in the Winters office of the Runnels County Tax Collector have been slow, according to Travis Jordan, deputy tax collector. However, local city and school elections are scheduled with always a possibility of local option elections or voting on some other question by qualified citizens. Therefore, Jordan said, it is very important that every citizen to qualify himself by paying his poll tax before the deadline.

Deputy Jordan also pointed out to avoid penalty.

Auto registration tags for 1963 will go on sale Feb. 1, Jordan said. All cars must be registered and tags attached prior to April 1, he warned.
