Historical Group Will Meet In Ballinger Jan. 19

County Judge W. H. Rampy has issued a call for a meeting of the newly appointed Runnels County Historical Survey Committee on Jan. 19. The meeting will be held at 2:30 p. m. in Judge Rampy's office at the courthouse in Ballinger.

This meeting is being held in accordance with a proclamation by Governor John Connally, declaring Jan. 19 as Texas Historical Preservation Day. More than 2,000 committeemen in some 240 county historical survey committees over Texas are expected to convene on that day to elect officers and formulate plans for the year's work.

Members of the Runnels County Historical Survey Committee include: Mrs. George Poe and Mrs. Loyd Roberson, Winters; Herman Giesecke Jr., Mrs. J. Dexter Eoff, Mrs. E. H. Boelsche, Bob McGarvey and J. A. Patterson, all of Ballinger; Lesley Smithwick and Lonnie M. Rankin, Miles; and C. W. Kopecky, Rowena.

Industrial Exhibit Here February 7-8

An expansive exhibit of products made by the several industrial firms of Winters is being planned for showing in the near future by the Winters State Bank. A group of representatives of the manufacturing firms of Winters met with bank officials Tuesday night at Pierce's Cafeteria to map plans for the exhibit, which will be set up in the lobby of the bank.

Three Percent Increase In Telephones Here

A three percent increase in number of telephones in Winters in the last twelve months was reported this week by A. J. Lacy, division manager for the Southwestern States Telephone Company.

At the end of December, 1962, there were 1461 telephones here. That compares with 1418 telephones at the end of December, 1961.

In comparing the number of telephones with past years, the division manager said that at the end of 1957, there were 1252 telephones here and at the end of 1962, there were 1461.

The Southwestern States Telephone Co. now services 174,893 telephones through 163 exchanges in Texas, Oklahoma, Arkansas, and Louisiana. This includes the company's wholly-owned subsidiary, Four States Telephone Co.

Phone Company Ups Quarterly Stock Dividends

An increase in the quarterly dividend on common stock of Southwestern States Telephone Company was announced this week by the board of directors of the telephone company. Dividend on common stock will be from 32 cents to 36 cents payable March 1 to stockholders of record Feb. 1, 1963.

The directors also authorized a two-for-one split of the common stock subject to approval by the stockholders at the annual meeting which will be held in April. If approved by the stockholders, and the necessary regulatory authorities, it is anticipated that this split will be made effective shortly thereafter. Dividends on the split stock would be continued at the increased rate; namely, 18 cents per quarter, equal on an annual basis to \$1.44 per share on the present stock.

ONLY TWELVE MORE DAYS TO PAY POLL TAX

Deputy Tax Collectors, Travis Jordan and Mrs. Bob Hatcher, of the Winters office of the Runnels County Tax Collectors office, reminded voters this week that only twelve more days remain before the deadline on buying poll taxes.

No poll taxes will be sold after January 31. Citizens who expect to vote in any election this year will be required to have a poll tax receipt. Although this is an "off" year, for county and state elections, there will be city and school elections. In addition, there may be other elections called later on during the year for which voters must have poll tax receipts or exemption certificates.

Mrs. Hatcher said Wednesday morning that only about 165 poll tax receipts had been issued by the Winters office. Many people pay their poll tax when they pay their property tax, however, sending their tax money to the county seat office.

Local Feeders To Show Livestock In Ft. Worth Show

Mike Priddy and Kurtz Angus Farm of Winters will show livestock in competition at the 1963 Fort Worth Stock Show, Jan. 25 through Feb. 3, Livestock Superintendent W. A. King has announced.

Priddy will show nine sheep, and Kurtz Angus Farm will have two Aberdeen-Angus in the show.

Also, Hudon White and Bob Colburn, of Winters, each will exhibit junior show lambs. The nation's oldest major livestock show will present approximately 10,000 head of livestock, including 12 breeds of cattle, 10 breeds of sheep and eight of swine.

The horse division of the Fort Worth show, again featuring the largest Quarter Horse show in the world, will see approximately 1,500 entries compete. An Appaloosa sale and classes for Galiceno horses will be new to the show.

Minnie Pearl of "Grand Ole Opry" fame will be featured at the 1963 Fort Worth Rodeo "All-star spectacular."

Nearly 400 top cowboys will tackle the roughest stock from three major rodeo producers in bareback and saddle bronc riding, bull riding, calf roping and steer wrestling.

25 Blizzards Get Letters For '62 Season

Twenty-five members of the 1962 Winters High School Blizzard football team have received letters for their activity during the past football season.

Jackets were presented to the players in ceremonies at the school recently. Jackets have shoulder patches in the shape of the state of Texas, inscribed "Semi-Finals, 1962".

Eugene Mathis is the only member of the team winning letters for four years.

Other senior lettermen include Tommy Young, 3 years; Alvis Jackson, co-captain, 3 years; Roland Tekell, 2 years; Don Roberts, 2 years; Adolpho Arroyo, 2 years; Tommy Alfrey, co-captain, 2 years; Tommy Burton, 1 year; Donnie Gibbs, 1 year; Jimmy Easterly, 1 year; Richard McMilliam, 1 year; William Green, 1 year.

Junior lettermen were Steve Grissom, 3 years; Mike Mitchell, 2 years; Donald Parker, 1 year; Alan Benson, 1 year; Ronald Kraatz, 1 year.

Sophomore lettermen are Deney Aldridge, 2 years; Mike Patterson, 1 year; Johnnie Mathis, 1 year; Larry Awalt, 1 year.

Student managers Rickey Boles and Andy Simpson also received letter jackets. Sweaters were given to 15 B team boys and 15 freshmen, plus the usual letter awards to the 7th and eighth grade boys.

Dates For Type III Polio Vaccine Not Definitely Set

Contrary to reports which have appeared in area newspapers within the last few days, dates for administration of Type III Sabin Oral polio vaccine have not been set for Winters.

Originally, the third and last distribution of the series was scheduled for sometime in January. Because Winters will receive the vaccine through San Angelo, however, the dates have had to be changed.

Local sponsors of the program will make an announcement shortly concerning the administration of the vaccine.

Lions Club Ladies Night February 23

The "Doo-Dads," a male quartet from Dallas, will present the program for the annual Winters Lions Club Ladies Night banquet Saturday night, Feb. 23.

The annual affair will be held in the Winters school cafeteria, beginning at 7:30 p. m.

The annual Ladies Night banquet is set aside by the Lions Club to honor wives of members. Program committee for this year's banquet consists of George Beard, Robert Christian and Homer Hodge.

Garbage Fee Suit Set For April 22

The damage suit filed by A. L. Crockett against the City of Winters for allegedly cutting off his water and electrical service for failure to pay garbage collection fees, will be heard in District District Court on Monday, April 22, Mayor Harvey D. Jones said this week.

The case, originally set for Oct. 26, 1961, was postponed until Nov. 9, 1961. The case later was continued, and set for Oct. 23, 1962. On that date, the case was again postponed.

Lyndon Olson, attorney from Waco, will act for the city of Winters, and T. D. Smith of Houston, is attorney for the plaintiff. It was

understood that the plaintiff apparently intends to try the case by jury.

According to available information, Crockett has asked \$2,500 in actual damages, and \$5,000 in exemplary damages from the City of Winters.

In his original petition, Crockett asked for an injunction to prevent the City from collecting or attempting to collect a service charge or garbage pick-up charge, or to discontinue other utility service upon non-payment for the garbage pick-up charges. He allegedly charged that on July 1, 1961, he had tendered to the City the sum of \$14.58 representing the amount due at that time for water and electrical service to his home, and that payment was refused and returned to him, with such refusal based upon his failure and refusal to pay a sanitary sewer or garbage pick-up charge. Upon his refusal to pay, he charged, the City of Winters disconnected all public utilities, electricity and water, and further refused to pick up his garbage. Crockett alleged in his petition that he was "compelled before defendants would reinstate such services to pay the sanitary service charge, such payments having been made under protest."

Crockett further charged in his petition that "the City is without legal authority to collect the sanitary service charge and is without legal authority to require (him) to pay same." He said that he had been damaged in the "sum of \$2,500," because of actions of the City in cutting off his utilities.

Crockett asked for a temporary injunction and upon final trial a permanent injunction enjoining the City from levying and collecting any sanitary service charge or garbage charge.

On Nov. 20, 1961, the District Court issued a temporary injunction enjoining the City of Winters from disconnecting, attempting to disconnect, or causing to be disconnected, the plaintiff's water service and electrical service, for failure to pay the garbage pick-up fee.

Charges for garbage pick-up service are a result of a resolution by the City Council, adopted on May 16, 1961, "to make the charge for garbage compulsory beginning with the June billing." On June 26, 1961, the Council adopted a resolution to refuse partial payments of utility bills, without the inclusion of the garbage pick-up charge.

Garbage collection fees for Winters residences are \$1.00 per month; for business places, \$2.00; and for pick-up service outside the city limits, \$2.00. Charge for the service is billed on the same statement with the water and electrical service.

Willie Kraatz Is Student Officer At Texas Lutheran

Willie Kraatz of Winters is among twenty-nine students who serve as student body officers, class officers, and members of the student senate, and are playing key roles in the student government organization at Texas Lutheran College, Seguin.

Kraatz, a sophomore business administration student, is the son of Mr. and Mrs. Walter Kraatz, route 1, Winters. He is treasurer of the sophomore class at the college.

Civil Defense Survival Course Will Begin Jan. 21; All Adults Invited

A course in personal and family preparedness for survival will begin Jan. 21, local Civil Defense Unit heads reminded this week.

The course, which is being offered free to all adults of the Winters community, will be held in the audio-visual room on the first floor of the high school building, from 7 to 10 p. m. Four three-hour classes will be held during next week, it was announced.

This complete free course is offered through the local school and the Texas Education Agency as assistance to the local Civil Defense effort and has been approved and requested by the Winters Civil Defense Unit. Instructor will be William T. Nelson, consultant

on Civil Defense, Adult Education, from Austin.

Vital information as to the effects or radioactive fallout, protective measures against nuclear weapons, tornadoes, fires, floods, and decontamination procedures will be discussed.

This course provides a free manual and other related materials, showing of films, slides and film strips, discussion, and a question and answer period. All who take the course will be given a certificate of completion.

Adults who are interested in attending the survival course have been urged to attend the first session Monday, Jan. 21.

Girl Scout Cookie Sale Slated Soon

It's almost Girl Scout Cookie Time again and local Girl Scout volunteers were filled in on all the details of the Annual Girl Scout Cookie Sale at 9 a. m. Wednesday morning when Heart of Texas Girl Scout worker, Mrs. Ruth Hoyle, gave the annual Cookie training at the City Hall.

Date for the kick-off of the Girl Scout Cookie Campaign in Winters is February 7. Girl Scout volunteers attending the Wednesday meeting discussed the sale itself, methods of selling and publicizing the sale, and the quota of cookie sales set by the Heart of Texas Girl Scout Council.

Proceeds from the Annual Girl Scout Cookie sale go to developing and maintaining the Council-owned established camp—Camp Wood Lake, at Brownwood. Last year a new swimming pool was built with the proceeds of the sale. This year, the Council's Camp Committee hopes to sell enough cookies to finish paying for the pool.

In addition, all Girl Scouts who sell 48 boxes of cookies or more receive camperships enabling them to attend the Heart of Texas Girl Scout camp near Brownwood during the summer camping season. Local Girl Scout Cookie Chairman is Mrs. Jerry Ward.

Birthday Anniversary . . .

ROBERT E. LEE

Robert E. Lee won a place in history for his brilliant military leadership and for his sterling character. He was respected by friend and foe alike. It is seldom that so many fine qualities are possessed by a single individual.

He placed honor and integrity before personal gain. He was not a man of wealth, but, in his later years, he refused to capitalize his famous name and reputation in ways he thought would mar his record as a man who always adhered to things and principles which his conscience told him to be right.

On January 19th, his birthday anniversary, we honor this great American. And again today, we need men whose leadership will inspire full confidence in the trying days which lie ahead.

Local Garden Club Held Meeting In Mrs. Rives Home

Mrs. C. T. Rives Sr. hosted the regular meeting of the Winters Garden Club in her home Thursday afternoon at 1 o'clock. Mrs. E. J. Redman presided for the meeting in the absence of the president, Mrs. John Grohman.

Mrs. E. J. Redman gave the report from the nominating committee and the slate of officers elected for the year are Mrs. John Grohman, president; Mrs. E. J. Redman, 1st vice president; Mrs. Jerrell Walker, 2nd vice president; Mrs. L. B. Hord, 3rd vice president; Mrs. O. D. Bradford, recording secretary; Mrs. E. L. Bryan, treasurer; Mrs. C. T. Rives, parliamentarian; Mrs. Lora Coupland, reporter; and Mrs. E. L. Bryan, librarian.

Mrs. Jerrell Walker, finance chairman, gave the treasurers report and also reported on the gift wrapping and ribbon items the club is selling. One-half of the proceeds from these items will go to the blind who make them and one-fourth will go to the State Headquarter Building Fund.

Mrs. O. D. Bradford spoke on "Conservation of Home Gardens". She pointed out that the first thing to consider in a home garden is your soil, have it analyzed to see what it lacks. She also said that fresh vegetables from home gardens make better nutrition and better health for the soil. "The oldest book on conservation is the Bible and the first conservationist was the beaver," she said. Mrs. Jerrell Walker spoke on the "Protection of Wild Flowers". Interesting legends were given several flowers such as the Indian Blanket and our Texas Blubonnet and how they got their names. She said flowers on the conservation list may be taken for educational purposes but only a few from any one bed.

Mrs. Lora Coupland and Mrs. O. D. Bradford won door prizes and refreshments of pie and coffee were served to the following: Mesdames E. J. Redman, L. B. Hord, Lora Coupland, Jerrell Walker, O. D. Bradford and the hostess.

The party table was covered with a white cut-work linen cloth over blue and silver appointments. Silver candelabrum which held blue candles centered the table. Mrs. George Briley poured coffee.

A miniature bride under an arch of blue net and flowers decorated the buffet.

Mrs. Dennis Rodgers presided at the guest registry. Mrs. Moore and Mrs. Hamilton showed gifts.

ROGER BABSON

Outmoded Anti-Trust Laws Should Be Relaxed To Meet Foreign Competition

I have been criticized for forecasting a moderate decline in 1963. I admit that most of the forecasts by others have been for good business—at least as good and probably much better in 1963. I sincerely hope that they are right and I am wrong.

My wise father many times said to me, "Roger, it is wrong for you to mislead others who really have confidence in you. Tell them that you do not know if you wish; but when you make a statement be sure you have the reasons therefor." Hence this week I will give you two reasons for my doubts about 1963:

(1) Unemployment is sure to increase during 1963; those employed, (who statistics show, should be more numerous in 1963) will not get overtime work. This means they will not have so much "take-home" pay. The government figures for employment and unemployment are very tricky. Actually, the government should take only one computation in this whole area—namely, the total take-home pay of all wageworkers.

(2) An important second reason is that employers do not know

how President Kennedy really feels toward the nation's business leaders. We know he is surrounded by a group of very liberal advisers—mostly college professors who have been dependent on endowment funds for their salaries. Very few of them have ever been obliged to "earn a living" as most readers have. Furthermore, the President himself is a very rich man enjoying trust funds set up by his father, Joseph P. Kennedy, who is said to be worth over \$300,000,000. In addition, the President knows that business leaders are in the great minority in terms of prospective votes; wageworkers not in business for themselves represent the big majority.

Importance of Larger Exports

The government is constantly urging manufacturers to install new machinery and increase production. With the present excess of commodities, this means we must develop more foreign trade. To do this efficiently our manufacturers should be encouraged to combine to form trade associations. They now do not dare to do this for fear that the President's brother Robert, who is At-

torney General, will prosecute them under the Anti-Trust laws. These outdated laws should either be relaxed to meet present foreign-trade needs or else be amended so that they will apply also to labor unions.

Europe's "Common Market" not only encourages the manufacturers of one industry to work together, but also those of several different countries. Labor unions are encouraged, but are treated as these other associations are treated. The Common Market was created to encourage co-operation—in direct contrast to what our Administration at Washington is now doing. Readers should not suppose what Governor Romney of Michigan, formerly President of American Motors (Rambler Co.), said in his inaugural address.

Look At The Record

When President Kennedy took office, the Dow-Jones Industrial Average was around 650. Then it was manipulated to over 700, and then which came the big break of Mr. Barber 28, 1962. The market had gone from around 275-300 during the Eisenhower Administration. When the President's father "Old Joe" now putting his money into real estate (which is much better than the wise for Trusts), most business men feel that both the stock market and general business will decline in 1963.

Without doubt the Cuban situation helped the President last year. I believe he is sure to be a shrewd enough politician to keep Cuba the news until after the election of 1964. This, along with a tax cut which Congress will probably pass in 1963 to take effect January 1, 1964, should re-elect President Kennedy in November 1964. But there is no time to talk about 1964. My interest today is in discussing bull Kelleness in 1963 and my reasons for forecasting a "Decline". To put it bluntly: The real reason is the attitude of the President's brother Robert, who should interpret the Anti-Trust laws so they can be used co-operatively to develop foreign trade abroad. This is why we are scared. Business leaders are scared.

To Trap A Fox

You fox trappers can make more and faster catches by using a con.

Just place one or more strips of raw bacon on an overhanging limb, or on a pole with cross-sticks about three feet above a stump. Set the trap on the stump. Fox will be caught as he leans for bacon.

Scarface Mob
The thrilling exploits of a special group of secret agents and how they went about piling up information which resulted in the complete collapse of 'Scarface' Al Capone, Chicago's greatest crime menace, are vividly revealed in the Desilu Production "The Scarface Mob," which is scheduled to show Friday and Saturday at the State Theatre here. The dramatic suspense in this tense film of intrigue, violence and corruption, features Robert Stack, Keenan Wynn and Neville Brand and co-stars of Mr. Barbara Nichols and Pat Crowley. "The Scarface Mob" tells of the complete downfall of 'Scarface' Al Capone's vicious empire of crime which thrived on booze, bullets and broads. The picture is based on the novel 'The Untouchables' by Eliot Ness and Oscar Fraley.

"Zotz!"
Producer-director William Castle who turned out such motion picture shockers as "Mr. Sardonicus," "Homicidal" and "13 Cuckoo Cakes," is said to have done a complete aboutface with "Zotz!," his latest production for Columbia Pictures. "Zotz!," due Friday and Saturday at the State Theatre, is an all-out comedy, starring Tom Poston, Julia Meade, Miss Backus, Fred Clark and Cease Kellaway.

In departing from his usual formula of the macabre mixed with horror, Castle is said to have turned to comedy with a strain of reticence. Ray Russell's screenplay based on Walter Karig's novel, depicts a timid language professor who obtains an ancient coin with magical powers. According to advance report, plenty happens to the professor when his discovery of the coin's super-secret puts power at his fingertips, women in his arms and spies in his life.

The Spiral Road
The number one man on movie screens today, Rock Hudson, who appeared with villainy his normal public image as a film hero who appeared in "Giant," "This

Earth Is Mine," "Twilight For The Gods" and "The Tarnished Angel," is at it again.

For Universal - International's dramatic "The Spiral Road," showing Sunday, Monday and Tuesday at the State Theatre, in which he tops a star cast including Burl Ives and Gena Rowlands Hudson is busily engaged in bringing to the screen a character which he lovingly describes as "half a hero."

"Sure it's a different role from the ones I've played in almost fifty other movies," Rock explained. "This one is certainly no knight in shining armor. He's an opportunist, an egocentric snob, a disbeliever and a double-crosser. The fact that he is hurt by his attitudes and finally rises above them is why I call him 'half a hero.' He's really quite a guy."

In what he describes as the most difficult role he has ever been asked to play, Hudson portrays a young Dutch doctor serving the Netherlands government in one of its Indonesian jungle colonies.

"The Glenn Miller Story"
With James Stewart and June Allyson in the starring roles, Universal-International's Technicolor production of "The Glenn Miller Story" is scheduled to show Wednesday and Thursday at the State Theatre.

The real-life story of the celebrated musician re-creates the exciting times in which the bandmaster built his renowned orchestra and features the songs he made famous, played in the Miller manner. Starting from the time Glenn was struggling to find a "new sound," the picture carries him through his whirlwind romance with his wife-to-be to his fabulous success in dance hall and cafe, on the radio and in theatres, and eventually his formation of the great Army Air Force Orchestra and the tragic flight during which he was lost.

The \$21 million Shamrock Hotel in Houston, Texas, contains 66 shades of green.

ROCK HUDSON AND Gena Rowlands are teamed as a young Dutch doctor and his bride in the jungles of the Netherlands East Indies as they star with Burl Ives in "The Spiral Road." The Universal-International color adventure drama, adapted from Jan de Hartog's great novel. Shows Sunday, Monday and Tuesday at the State Theatre.

Drawing In Austin Decides Which Senators Stay In Office Four Years

By Vern Sanford
Texas Press Association

The ordeal of the "black beans" has been repeated in the Texas Senate, although without the usual dire consequences.

Texas' Constitution requires "choice by lots" every ten years to determine which members of the Senate shall begin the decennial with two year terms and which shall receive four year terms.

Among those whom the fate of the "black bean" drawing decreed must run again next spring, if they are to remain more than two years in the Senate, were veterans George Moffett, Dorsey Hardeman, Charles F. Herring, Frank Owen III, Bruce A. Reagan and William T. Moore.

Other returning senators with half-term assignments were Gal-lowsay Calhoun Jr., Martin Dies Jr., Abraham Kazen Jr., David Ratliff and A. R. Schwartz.

Freshmen senators who got the two-year terms were H. H. Blanchard, Don Kennard, Jack Strong and J. P. Word.

Returning senators who held on to four-year terms were A. M. Aikin Jr., Mrs. Neveille H. Colson, Tom Creighton, Louis Crump, Grady Hazlewood, Culp Krueger, William N. Patman, George Park-house, Andy Rogers and Franklin Spears.

New members drawing full terms were James S. Bates, Criss Cole, Ralph Hall, D. Roy Harrington, Walter Richter and Murray Watson.

However, there is a possibility that a constitutional amendment and new redistricting act may require election of all senators again next year.

COIN TOSS CHOICE
Selection of the president pro tempore of the Texas Senate was determined by the toss of a coin. Senator Martin Dies Jr. of Lufkin won over Senator Louis Crump of San Saba when the pair decided to flip a coin for the position, rather than to oppose each other. Customarily, the selection is made on the basis of seniority. In this instance, Dies and Crump had equal seniority.

HOUSE RULES FIGHT
Election of Speaker of the House Byron Tunnell, fourth-term representative from Tyler, took place at the opening of the 58th Legislature with only token opposition—nine votes cast for Rep. John Alaniz of San Antonio.

But the rules fight that followed Tunnell's ascension to the speaker's stand was a different story. A group led by Rep. Bob Eckhardt of Houston sought to adopt the permanent rules of the 57th Legislature as the temporary rules of the 58th—a custom that has been followed by previous sessions.

The last session operated under temporary rules until its waning days. It then adopted its amended rules as its own permanent rules. Thus if the current session had followed suit, it would have necessarily adopted the changed rules, under which no Legislature had operated, as its own.

It decided not to do so, by a vote of 108 to 39.

HOUSE COMMITTEES
Most members of the House of Representatives felt that House Speaker Byron Tunnell was "very

fair" in his committee assignments.

Rep. John Allen of Longview, who made the nominating speech for the new Speaker, will head the committee on state affairs; Rep. Ben Barnes of DeLeon will be in charge of hiring and firing for the House as head of the rules committee.

Other choice chairmanships include: Rep. W. S. Heatly Jr. of Paducah, Appropriations; Rep. Menton J. Murray of Harlingen, Congressional and Legislative Redistricting; Rep. James Cotten of Weathervane, Constitutional Amendments; Rep. Jerry Butler of Kennedy, Labor; and Rep. George Cook of Odessa, Oil, Gas and Mining.

FAMILY TRADITION
When Senator Strong took the oath of office as senator from the second district, it marked the 40th anniversary of the day his father, James G. Strong of Carthage, was sworn in to represent the same area.

The "elder" statesman in the Strong family and his wife were witnesses to the swearing-in ceremony for their 32-year-old son.

"HOT CHECK" BILL PROPOSED
A bill which would help small-town merchants with the problem of bad checks has been prepared by Sen. Bruce Reagan, who wants an act authorizing justice of the peace courts to try bad check cases up to \$25.

Under the present hot-check law a merchant must travel to a county seat to file charges in a county court for a \$10 hot check. If Reagan's bill becomes law, the merchant could file a complaint in his local justice court.

Rep. George Richardson of Fort Worth is preparing a bill which would allow justices of peace to try cases involving hot checks of less than \$50. He feels that the peace court justices are closer to the people of their areas and can handle complaints quicker than district attorneys.

INSURANCE LEGISLATION
Sen. A. R. Schwartz hopes to find a solution to a problem made apparent by Hurricane Carla. After the record force struck the Texas coast, many homeowners had difficulty collecting for water damage because they had fled the scene and didn't know exactly how the damage occurred.

Schwartz's bill would require the State Board of Insurance to make insurance firms, instead of the homeowner, carry the burden of proof.

Another insurance bill is being drafted by Rep. Don Gladden of Fort Worth who will fight for legislation to protect persons injured in automobile accidents by uninsured motorists.

His bill calls for a special state fund to pay for personal injury costs incurred in accidents with uninsured drivers. Any car owner who couldn't prove ability to pay liability when he registered his car, would have to pay \$20 into the fund.

"BIG-COLLEGE" VOTE WANTED
Senator W. T. Moore of Bryan says he will introduce legislation requiring a vote of the people before a four year state-supported college can be created.

70 MPH SPEED LIMIT
Rep. Forrest Harding of San Angelo will introduce a bill to increase the maximum speed limit on Texas' highways to 70 miles per hour.

"OLD FOLKS" MARCH
Texas legislators have received a petition which says old folks of the state will camp on the Capitol lawn until they get higher pensions.

The printed petition was signed by Russell Jack Ballard. He identified himself as president of the Good Citizens League of Texas, Wichita Falls.

CHILD CONTROL
A House committee seeking economy in state government has recommended stricter regulation over state aid for illegitimate dependent children.

The Committee on Saving Taxes adopted a sub-committee report bearing this recommendation, after argument over whether such aid encourages illegitimacy.

PHONE RATE FIGHT ENDS
A phone rate dispute, between the City of Weslaco and General Telephone Company of the Southwest, ended in the Texas Supreme Court. Court upheld the city's right to set local rates and the phone company's right to set rates for long distance calls within Texas.

Controversy began three years ago when General Telephone sought an injunction to keep Weslaco's city commission from setting local rates which the firm considered too low; and to keep the city from establishing intrastate call rates on the same basis as that set by the Federal Communications Commission.

It often costs more to call someone in a city within the state than it does to call the same distance, or even farther, to someone in another state.

Supreme Court upheld a decision made by the 4th Court of Civil Appeals.

SECURITIES RECORD
State Securities Board says Texas made significant gains as a source of public investment funds in 1962.

In its annual report to Governor Daniel, the Board said the sharp decline in the stock market was no deterrent to public investment in funds which it regulates.

During the year the board granted 695 permits for the sale in Texas of securities valued at \$357,340,707.

On the policing side of the board's activities, it reported that three applications, for permits to sell to the public securities valued at a total of \$745,000, were denied.

GOOD NEIGHBOR
Austin attorney J. Manley Head has stepped into the role of Texas' No. 1 "good neighbor."

Report also noted that 22 applications representing \$22,417,826 were withdrawn.

More than \$445,000 in fees were collected during the year.

The former legislator has been named chairman of the Texas Good Neighbor Commission.

Head served four years in the House of Representatives and in the Senate from 1936 to 1941. He is a former executive of the Texas Motor Bus Association.

CHIROPRACTIC OFFICERS NAMED
New officers of the State Board of Chiropractic Examiners have been elected.

Dr. G. M. Brassard of Beaumont was chosen as president and Dr. Walter H. Fischer of Temple has been named vice president.

WATER STAFF
Hydraulic engineer Lewis B. Seward has been added to the staff of the Texas Water Commission.

Chief Engineer John J. Vandertulip said that Seward will work with the water resources planning division.

CONVICTION UPHELD
Brady land promoter B. R. Sheffield has lost another round in his battle to shed his land scandal conviction.

Texas Court of Criminal Appeals has upheld his conviction on charges relating to the Texas veterans land scandals.

DEFICIT AT \$53,300,000
State Treasurer Jesse James reported the State General Revenue Fund at a \$53,300,000 deficit on December 31, 1962.

This figure was \$18,400,000 more than that reported in November, James said.

DRAFT QUOTA 173
Texas' quota for draft boards in February calls for 173 men.

Col. Morris S. Schwartz said the February call of 173 compares with a quota of 163 for January and 235 for December.

The state Selective Service Director also announced that local boards would send 1,450 men for pre-induction physical and mental examinations.

Remove Rust From Gun
After each trip in the field—especially after hunting over water—you will notice small pits of rust on your gun barrel. These are caused by sweat and other moisture.
If attended to at once, these pits can be removed by an ordinary typewriter eraser. Such an eraser won't damage gun bluing as steel wool or sandpaper will.

IT'S THE LAW—IN TEXAS

Joe Greenriver had been traveling to various cities selling magazine subscriptions. At each new town he would go from house to house selling subscriptions to the occupants.
He had been selling in Pleasantville for a couple of days when he was arrested and fined for violating a city ordinance which prohibited such door to door soliciting.
"You can't do this to me," screamed Joe. "This ordinance violates my rights of free speech, free press, and my right to work. It's unconstitutional!"

Former Resident Died Friday In California

Otto Cortez, 83, a former resident of Winters, died at the home of his daughter in San Francisco, Calif., late Friday night, following an illness of several months. Services were held from the Catholic Church in San Francisco Monday morning, with burial in San Francisco.

Otto Cortez was born Nov. 16, 1879, at Laredo. Later the family moved to San Marcos, and in 1906, to Winters. His parents were the first Latin-American family to move to Winters. In 1913 he and

his family moved to Dickens County, where they lived until 1927, returning to Winters.

He was married to Julia Flores in 1903 in Georgetown. He moved to California to live with a daughter in 1960. He was a member of the Mt. Carmel Catholic Church in Winters.

Survivors are his wife; two daughters, Mrs. Pauline Tayas, and Mrs. Rita LaCuna, both of San Francisco; one sister, Miss Juanita Cortez, Winters; three brothers, Felix Cortez, Ballinger, Jake Cortez, and Ed Cortez, both of Winters.

Regular Meeting Of Runnels FB Set For Jan. 17

The regular monthly meeting of the Runnels County Farm Bureau was set for Thursday, Jan. 17 at 7:30 p.m. in the directors room of the Farm Bureau Building in Ballinger.

Program for the evening was "Standards for a More Effective County Farm Bureau," presented by standing committee chairmen.

FB President and Mrs. Hugo Vogelsang, Vice President and Mrs. Marion Hays, and Freddie W. Bredemeyer, policy execution chairman, will attend the statewide legislative meeting in Austin Jan. 22.

Band Members Sell Candy To Raise Funds

Members of the Winters school bands this week are selling candy to raise funds to help pay for awards jackets, sweaters, pins and letters to be awarded in the spring.

Under the sponsorship of the Winters Band Mothers Club, this candy sale will be the last fund raising campaign for the band students.

Last year, 32 students won awards jackets, none won senior

blankets, six won freshman sweaters. Letters and pins were awarded Junior High students on the basis of excellence in performing required work and choir members were awarded choir pins.

Members of the sponsoring organization and the band students are asking for the cooperation of everyone in the community in this project.

FB President and Mrs. Hugo Vogelsang, Vice President and Mrs. Marion Hays, and Freddie W. Bredemeyer, policy execution chairman, will attend the statewide legislative meeting in Austin Jan. 22.

Band Members Sell Candy To Raise Funds

Members of the Winters school bands this week are selling candy to raise funds to help pay for awards jackets, sweaters, pins and letters to be awarded in the spring.

Under the sponsorship of the Winters Band Mothers Club, this candy sale will be the last fund raising campaign for the band students.

Last year, 32 students won awards jackets, none won senior

blankets, six won freshman sweaters. Letters and pins were awarded Junior High students on the basis of excellence in performing required work and choir members were awarded choir pins.

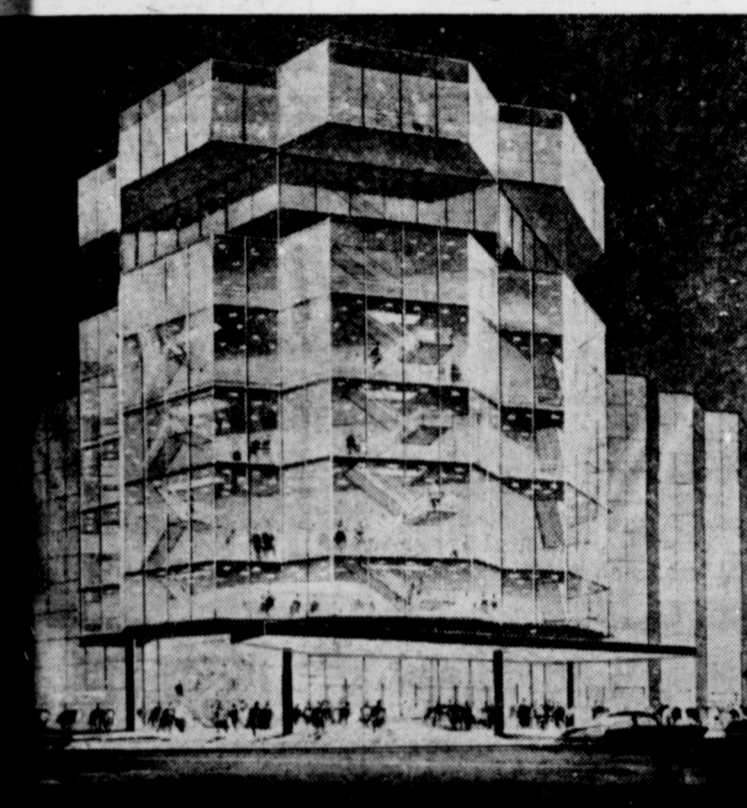

Members of the sponsoring organization and the band students are asking for the cooperation of everyone in the community in this project.

BRADSHAW NEWS

"God has crammed life with wonderful joys, but they are not all on the surface." W. E. Sangster.

Instead of night services Sunday at the Drasco Baptist Church a service was held in the afternoon. Rev. T. B. Bedford of Abilene was a visitor Sunday morning at the Moro Baptist services. Mr. and Mrs. Calwyn Walters united with the Church by letter at the services. For the morning special Clyde Reid and Mrs. Walters sang "Take My Hand Precious Lord." Mrs. J. W. Allmand was at the piano. For the night special, Clyde sang "I Need The Prayers Of Those I Love," and Mrs. Allmand accompanied at the piano.

"Resistance to the Work of Christ" is the subject of next Sunday's Sunday School Lesson. The memory selection is—And you will be hated by all for my name's sake. But he who endures to the end will be saved. Matthew 10:22.

The following is by John R. Miller—Five years ago, it was my privilege to serve in the Cuban Evangelistic Mission. That afforded me the experience of living under a dictator. A large section of the world is under the shadow of communism. One must experience that dreadful feeling of fear that accompanies totalitarian domination to appreciate what large numbers of Christians face today.

We know so little about being hated for Christ's sake. However, we may in our lifetime experience what it means to hold out to the very end. Jesus never minimized the cost of discipleship. He promised no easy way.

Special days next week are for: James Fason Little, Rex Redell, Mrs. August Bredemeyer Jr., and a wedding anniversary for Mr. and Mrs. Dub McMillon the 20th; Mrs. Arvil Pearce, Mrs. Tom Middleton the 21st; Boyd Richards, Mrs. Arby Halbrook and a wedding anniversary for Mr. and Mrs. Leonard Harber the 22nd; Mrs. Lloyd Grun and Mrs. George Newby the 23rd; A. J. Bishop, Virgil Lee Graham, Herman Browne, Billy Joe Buchanan and a wedding anniversary for Mr. and Mrs. Joe Bryan the 24th; Ruth Horn Mills and Henry Webb the 25th; Mrs. Mack Burch and a wedding anniversary for Mr. and Mrs. Herman Browne the 26th.

Mr. and Mrs. Mansfield Foster are announcing the marriage of their daughter, Virginia Lou, to Johnny Wayne Parham of Abilene last Saturday, January 12. Both are students of Hardin-Simmons. Clarence Ledbetter celebrated another birthday Sunday, January 13, with dinner and supper at his mother's, Mrs. Nora Ledbetter. Others present were Mrs. Clarence and David and Mr. and Mrs. Kendall Badgett of Abilene.

Pastor W. I. Taylor had Sunday dinner at the L. Q. Sneeds of Drasco.

Pastor Jack Bedford and father, T. R. had Sunday dinner with Mrs. E. J. Reid and Mr. and Mrs. Calwyn Walters of Moro.

Stop Dog's Barking

A barking dog—especially at night—is an abomination to neighbor and master alike.

Prevent your dog from annoying neighbors and keeping your own household awake by using a simple trick.

Attach a lawn hose to your dog's pen, the nozzle set for a wide spray. Whenever dog starts barking, turn on the water so he will be sprayed. Usually a few treatments will be enough.

But be sure he doesn't see you do it.

North Dakota and South Dakota were admitted to the Union on the same date, November 2, 1889.

Mary Martha Circle Met in Shook Home Tuesday Afternoon

Mary Martha Circle of the First Methodist Church met Tuesday morning in the home of Mr. and Mrs. Garland Shook.

CHEVROLET... the Quality truck!

WALK AROUND IT. SEE THE DIFFERENCES.

Start at the rear of this Fleetside pickup. Grab the tailgate and pull hard. No give. Two wedge latches keep it tight. Now unfasten them and let down the gate. Jump up and down on it. Does it sag? Notice how the chains are wrapped in rubber so they won't rattle or mar paint.

Now look at the lower side panels. Two walls. You might dent the inside one but it won't show through. The floor will never rust. It's select wood, not metal.

Now please sit in the cab a minute. Comfortable? It also is double walled and the roof is insulated. Let's start 'er up and look for a washboard road. Chevrolet coil-spring suspensions fight road shock better than other types, good for the truck, load and the driver. There are other things. But you can see why this is a truck that does a job without a lot of pampering. It's built right. Which is why it's usually worth more at trade-in. When would you like us to deliver it?

New High Torque 230-cu.-in. Six is lighter but more powerful than its predecessor. It is standard in Series C10 through C60 models.

New High Torque 292-cu.-in. Six — most powerful truck 6 Chevrolet has ever built! Standard in Series C60, optional at extra cost in lighter models.

Diary of a Trip

We are printing a most interesting account of a trip to the East which was written by Emmalene Watson, daughter of Henry Goetz and the late Mrs. W. F. Rowena. Mrs. Watson is the niece of Mrs. W. F. Rowena and has many relatives in this section of Runnels County.

By Emmalene Watson

Tuesday, 9 October 1962

Our breakfast of small loaves, butter, cheese, and plus our added American eggs, tea, and coffee, I had a visit to one George Moniz, a jeweler, who does a terrific business with Americans from Texas. He sent a taxi for us and followed the taxi to his "establishment"—not at all like any American jeweler's place of business. We were taken up to the third floor and entered a small room where we were seated. Trays of jewelry were brought from everywhere and we looked and admired. After thanking him for his kindness, we left Beirut for one of the most ancient cities of the world, which was first an important pagan center. The Phoenicians later transferred it into a temple in honor of the God Baal. After the conquest by Alexander, Greeks set in the country and the town named Heliopolis (town of the Sun). With the Christian period changes and a church was built in honor of St. Barbara. In the past we visited the temples of Jupiter, Bacchus and Venus. We were joined at Baalbeck by a group of 26 from Incir and after our Lebanese dinner at the Palmyra Hotel, we drove to Damascus, Syria. This time our trip at the border was only 20

minutes because the Chapel tour's guide, Charrie, "knew the ropes." Our entry fee was lowered to 1-4 of the amount of two days before, and we arrived in Damascus at 9:20 and another Syrian dinner awaited us at the Grand Hotel there. Both dinners were almost the same—curried rice—a far cry from the "Little Chef."

We accompanied the Chapel tour on a tour of Damascus—the world's oldest continuously inhabited city, dating back to 2000 B. C. We saw the modern Government House, the Hall of Justice, and then to the "Street called Straight." From this street, we went to the chapel of St. Ananias, where Saul was taken after he was blinded on the way to Damascus. On this spot Ananias laid his hands on Saul and he received his sight and was baptized. The chapel is underground and the Franciscan Fathers still hold services in this lovely small ancient chapel.

Next we went to the Gate of St. Paul and St. Paul's Chapel—where he was lowered in a basket from a window to escape the Jews who had plotted to kill him. Next we visited the Omayyad Mosque, erected in 705 A. D. on the site of a church named after John the Baptist. The latter church was built on the ruins of a pagan temple—that of the God Jupiter. The Mosque was decorated with fine mosaic work made of cubic pieces of colored and golden glass and pieces of mother of pearls. In the Mosque is the shrine of prophet Yahya or "John the Baptist." We had to put slippers over our shoes to enter—the floor is covered with 850 beautiful Persian rugs. Also inside is a baptismal font dating back to the Christian Church—the font is made of fossilized marble. Emlyn had the camera flash attachment and she laid it down when she put her slippers on and forgot it. When we missed it a half hour later, our guide took Rodney back to the Mosque—the priest had seen it but had left it on the chair. He assured Rodney that it would not have been touched or removed unless the owner came for it. There are good people everywhere.

After leaving Damascus, we followed the Chapel bus tour to the Syrian border and crossed into Jordan. Jordan has no entry fee and the Customs people were delighted to see Americans; so while the paper work was being taken care of, we ate our lunch with no questions asked.

Our first stop in Jordan was Jerash—the ruins of an ancient Roman city—the city has repeatedly been destroyed in part by earthquakes and is now being restored with American dollars. Jerash was a member of the league of free cities known as the Decapolis and reached its peak during the early part of the third century A. D. Among the ruins remarkably well

LIGHT LOAD—This is no model. It is a 50 kilowatt light bulb, able to operate on regular house current, which is 100 volts in Tokyo. The bulb is 20 inches in diameter.

preserved are: the Triumph Arch, the Hippodrome, the South Gate, the Forum, the Temple of Zeus, the Great Theatre, the Street of Columns, the Nymphaeum, the Temple of Artemis, the baths, and a number of churches.

From Jerash, we drove on a lovely highway built with American dollars, to the city of Jericho. On the way we saw a rainbow that touched the ground. We felt that we could surely touch it—it seemed so near.

Jericho is the oldest walled, inhabited city in the world—this was Joshua's city. We saw the excavated ruins of old Jericho and looking upward, we saw the Mount of Temptation, where Jesus spent 40 days fasting and where He was tempted by Satan. Then we crossed the Jordan River, east of Jericho, where Jesus was baptized by John. We were unable to photograph the River Jordan because of the military who guard it against attack from Israel.

Our next stop was the Dead Sea—also known as the "Sea of Lot"—the lowest spot on earth, 1300 feet below sea level. The salt content is 28 per cent. It is believed that the sea covers the site of Sodom and Gomorrah. Excavations are under way to uncover these two lost cities and it is thought that they lie preserved at the bottom of this lovely blue sea. The Jordan River flows into the Dead Sea and despite the ugly, muddy water of the Jordan as it flows toward the sea, it is somehow blue when it reaches the seas. Surrounding the Dead Sea are the Caves of Qumran—where the Dead Sea Scrolls were found. The tents of the Bedouins dot the hillside and these nomadic people can cross the borders at will.

Our next stop was a look at the Good Samaritan Inn, which still partly stands between the Dead Sea and Jerusalem. We arrived in the holy City Tuesday evening and went to the YMCA for our quarters while in Jerusalem.

Girl Scout Troop 10 Met Monday, Jan. 14

Girl Scout Troop 10 met in the Presbyterian Church Monday of last week at 4:00 o'clock. Glenda Cooper was elected as Troop Scribe.

Mary Lou Wilkerson served nibbles and the girls made plans to work on a leather craft badge. Those attending were Sue Hoppe, Shelli Kraatz, Sally Spill, Mary Lou Wilkerson, Beth Spill, Jolinda Hall, Gwen Hoppe, Glenda Cooper, Mrs. Wilkerson and Mrs. Spill.

Replace Leather Dog Collar

Many a good hunting dog has been choked to death by a leather or chain collar. This can easily be avoided.

Just attach the dog's identification plate to a half-inch-wide elastic band collar.

Then, should the pooch hang up on barbed wire, brush, or other impediment, he can, if necessary slip out of his collar and escape strangulation.

IT'S THE LAW—IN TEXAS

It was a clear, crisp fall afternoon, and Pete decided to rake his lawn. He carried the leaves to his back yard and burned them just at the entrance of the alley which ran along the rear of his lot.

The leaves were wet, and Pete found that he had to stir them occasionally in order for proper burning, resulting in a dense cloud of smoke.

Al intended to drive his car into the alley in which Pete was burning the leaves. As he approached the alley, he entered a dense cloud of smoke, so dense in fact that his vision was completely obscured. He nevertheless continued to drive his car into the alley, although he did reduce his speed.

As Al entered the alley Pete was standing next to the curb, completely engulfed by the smoke. Al's car struck Pete.

Pete sued Al claiming that he was negligent in driving into the smoke when he could not see. Al, on the other hand, said that Pete was negligent in standing in the alley in such a dense cloud of smoke when he knew that cars were driven in the alley.

Was Al negligent? Can Pete collect from him for his damages? Pete would not win his case, unless the jury found him not negligent in standing in the alley in a cloud of dense smoke. However, the courts have held that a driver must exercise care commensurate with the situation. It has been recognized in a number of cases that more care than normal is required of a driver traveling through smoke which limits his visibility.

It is the duty of the operator of a car to drive it at such a rate of speed that he can bring his car to a standstill within the distance that he can plainly see objects or obstructions ahead of him. If he continues to proceed when he is unable to see because his vision is obscured, he is negligent. When the situation on a highway is such that one's vision is completely obscured, it is his duty to slow down or even stop until the cause of such obscured vision is at least in part removed.

Mort Meanswell owned a parking lot. It was enclosed by an eight foot fence and had one entrance and one exit. Mort kept at least one attendant on duty at all times to park and watch after his customers' cars. Patrons were requested to leave their keys in the car to enable the attendants to park the cars as well as move them when necessary.

Hotrod Harry parked his car in Mort's lot and was given a claim check. He promptly put it into his pocket without paying any attention to it. Upon the back of the

claim check was written "The person accepting this ticket assumes all risk of accident, and expressly agrees that the management shall not be liable, under any circumstances, for any injury to person, loss or damage."

A couple of hours later Harry returned. His car had been stolen.

Mort Meanswell said that he was sorry, but pointed to the statement on the back of the claim check. Mort refused to pay for the stolen car. Harry sued him.

Must Mort pay for the stolen car?

Mort probably would have to pay. Most courts have held that a statement on the back of a parking claim check is only effective if called to the car owner's attention. Mort had not done this. Also, Harry had a right to believe from the fact that Mort maintained

an enclosed space for parking, with attendants on duty, that he was paying the parking fee in consideration of care and watchfulness to prevent injury or loss.

Parking lot operators may attempt to escape responsibility by a notice of limitation of liability posted on the lot or printed on the claim check given the owner of the car. But with few exceptions the courts have not upheld such limitations where the loss injury was due to the negligence of the operator of the lot, and where the stipulations were not specifically called to the attention of the car owner.

Winters, Texas

By Vern Sanford

Last year U.S. fishermen spent a total of \$52,851,224 for licenses. Hunters planked down \$64,026,782.

These are figures just released by the United States Department of Interior. For the first time the total figures include all 50 states.

In total 19,394,177 sports fishermen and 11,798,890 hunters bought licenses.

Actually, even these staggering figures do not include all who hunt and fish. Many sportsmen need no licenses because of age, legislative exemptions, or methods of fishing. Also, there are a great many hunters and fishermen who fail to pair their share of the cost of wildlife conservation by going without licenses.

Texas ranked eighth in the sale of fishing licenses. Receipts totaled \$1,875,308 for 872,236 licenses.

It must be remembered, however, that Texas has a universal license of \$2.15 for all fishermen, including non-resident. As such it is the lowest-prices license in the U.S.

All other states issue non-resident licenses for just a few days of fishing, at a much higher price than Texas for a whole year.

Texas ranks tenth in the sale of hunting licenses. A total of \$1,652,631 was paid in Texas for 502,805 licenses. Of this total 3,971 were non-resident buyers. The non-resident license sells for \$25, except in the case of the migratory bird license which sells for \$5.

New York ranked first in hunting licenses purchased, with a total of \$5,783,999 received for 972,635 licenses issued, of which 38,614 were non-resident.

California topped all other states in fishing licenses with \$6,218,457 received from 3,466,989 licenses, of which 326,469 were non-resident.

Other states with more fishing licenses than Texas were Wisconsin, \$3,257,233 for 1,079,819 licenses, including 371,708 non-resident; Michigan, \$2,797,418 for 1,308,715 licenses, 234,100 of them non-resident; New York, \$2,396,243 for 735,000 licenses, 46,818 non-resident; Minnesota \$2,286,246 for 1,418,257 licenses, 305,584 non-resident; Missouri, \$2,186,265 for 656,546 licenses, 99,257 non-resident; and Pennsylvania \$1,998,660 for 597,716 licenses, 24,088 non-resident.

In hunting, other states ahead of Texas were Michigan \$4,834,419 for 1,149,476 licenses, 17,812 non-resident; Pennsylvania \$4,331,575 for 1,295,416 licenses, 46,486 non-resident; California \$3,759,747

Brotherhood Ass'n. Meeting Set For Sunday, Ballinger

Dr. O. Byron Richardson of Dallas will be the speaker for the Associational Brotherhood Rally to be held Sunday afternoon at 2:30 o'clock at Ballinger in the First Baptist Church.

Don Jones, choir director of the First Baptist Church of Winters will direct the singing. The brotherhood will sponsor a week end revival beginning Friday January 25, through the 27, with Hook Davis of Hardin-Simmons as speaker for Friday night; George Graham of Hardin-Simmons, Saturday night and for the Sunday morning service, a representative of the State Board will speak. Lem Ray of Wylie will speak Sunday evening. Each service will have an enthusiastic song service.

The men of the local brotherhood organization will make telephone calls to all families of the First Baptist Church inviting them to these services. Everyone is invited to attend. Grover Davis, chairman of the welcome committee and committee members, will be at every service to welcome who attend.

John Norman of Winters is the associational president and Dennis Rodgers is president of the local brotherhood organization.

for 1,308,399 licenses, 1,608 non-resident; Colorado \$3,307,058 for 374,959 licenses, 62,734 non-resident (mostly Texans); Wisconsin \$2,721,720 for 671,317 licenses, 9,641 non-resident; Washington \$2,077,869 for 560,363 licenses, 751 non-resident; Wyoming \$1,911,177 for 172,029 licenses, 58,427 non-resident; and Oregon \$1,834,129 for 625,571 licenses, 3,359 non-resident.

All these figures represent not only the fishing and hunting licenses, but the special tags, permits, etc., which would in some cases include commercial fishing licenses. But they do represent the total number of persons paying money for some type of license.

These figures should be significant to Texans, who have the greatest deer population in the United States and some of the best fishing waters. They also should be very significant to those who have not taken hunting and fishing seriously as an economic asset.

It also is generally recognized that Texans make up the bulk of the hunters and fishermen who go to Colorado, and even a greater portion of those who go to Wyoming.

With Texas wildlife population on the increase, more landowners making their property available to hunters and more dams being constructed which will impound good fishing waters, these figures in Texas are likely to increase heavily within the next few years.

This will provide more funds for the development of the wildlife resources in more limited areas. Areas are becoming more limited every year with increase in population and the expansion of our urban areas.

For instance, one interstate highway across Texas built to present day standards will require something like 100,000 acres of land. Since much of this area is rural, highway construction alone is knocking out a lot of good hunting territory.

This means that the conservation program must make provisions for this wildlife in wider areas. This is done with the aid of funds from the hunting and fishing licenses.

Coat Hunting Knife Discs
Leather discs on hunting knives are apt to work lose with hard usage.

Should this happen to your knife, apply a coating of waterproof boot dressing at once. Dressing tightens loose discs and makes leather handle forever resistant to sweat and water.

Tip For Reload
Today, more and more gun enthusiasts, hunters, and trapshooters are loading and reloading their own ammunition. Some even cast their own rifle bullets.

If you are one of the latter breed, you no doubt have had trouble with impurities in your lead. To prevent this, next time you melt up lead, put a small piece of pure beeswax in the melting pot.

Wax causes impurities to rise to the top where they can be easily removed.

Don't Overfeed Hunting Dog
A hunting dog whose ribs are showing like corrugations on a washboard is not being abused. He is being kept in tip-top hunting form.

Overfeeding a dog can cause shortwindedness, fatigue, even heart failure in the field.

Never overfeed your dog. He, of course, takes more food during hunting season than he does at other times because he burns up more. But watch his ribs.

When his ribs start to smooth over with flesh, cut down on his food.

TO HONOR FATHER
The children of Mr. and Mrs. G. W. Timms are expected for the week end to visit in the home of their parents to honor Mr. Timms who was 90 years old Wednesday January 16.

IT'S THE LAW—IN TEXAS

Patent attorneys sometimes are surprised by the way laymen seem to use their works of art. For instance, the other day a young inventor happened into a lawyer's office with a box under his arm. Scarcely had he removed his coat when he exclaimed "I'd like to copyright my patent. . . er, I mean, trademark my copyright."

Quickly adjusting to the situation, the attorney realized that the first step, after finding out what was in the box, was to clarify in the inventor's own mind just what he was after.

The box contained a camera, which, under certain circumstances, might raise a patent, trademark and copyright problem. Of course these three forms of protection of industrial property rights can supplement each other.

In substance, a patent is the right to exclude others from practicing the invention; that is a patent grant is. This property right differs from other property rights in that (a) it protects something never known before—the new invention and (b) it is a temporary right, lasting for only 17 years.

A patent can be obtained to protect the inventor's rights in a new article, composition of matter, apparatus or process, and may even be granted for new and original ornamental designs for articles of manufacture—called design patents—and for new varieties of plants under certain conditions—plant patents.

Thus, a single product, such as this inventor's camera, might have novel structural features which could be protected by one or more patents.

Now, a trademark is a word, name, symbol or device used by a manufacturer to identify his goods in commerce and distinguish them from those of other manufacturers. Rights to a trademark do not simply accrue to him who is the first to devise the mark, but only to him who is the first to use the mark in connection with the goods identified thereby.

Federal registration of the mark cannot be secured though, until after the mark is used in interstate commerce; thus this camera might be sold under a trademark, such as "Kerchoo" or "Kodak", to aid in its identification, and such mark, if not previously used on such goods, could be registered as a trademark by the manufacturer.

A copyright is the right to prevent unauthorized copying of such things as writings, musical compositions, pictures and works of art. Registration of a copyright must be secured by first printing a copyright notice on each copy of the writing or other material, and filing an application for the subject in the Library of Congress.

This inventor's camera, then, could not itself be the subject of copyright, but the advertising copy, instruction manual or other written material relating to the camera and its operation could be copyrighted to prevent any substantial portion from being copied by competitors.

In short, patents, trademarks and copyrights are complementary forms of protection, but they cannot be interchanged. They are words of art; they are specific types of protection. The young camera inventor now knows what kind of protection he really sought. Do you?
