Jerrel Elliott Named As 1963 WHS Valedictorian

The three top honor students for the class of 1963 at Winters High School include two boys, as valedictorian and salutatorian, and a girl.

Jerrel Elliott has been named valedictorian of his graduating class, with Bernard Adami salutatorian. May Jane Matthews is the highest ranking girl in her class.

Elliott will graduate with an average of 94.77; Adami has an average of 93.89 and Miss Matthews has a 93.11 average.

This year's valedictorian is the son of the Rev. and Mrs. Ray Elliott. He has been a member of the high school band since transferring here from Santa Anna in 1960, and is president of the band. He is president of Authors Anonymous and of the National Honor Society, and is student council song leader.

Elliott has entered the UIL science contest for the past three years and the prose and poetry contests for two years. He was a member of the Nuclear Science Symposium in 1961. He was named "most friendly" last year, and is a member of Future Teachers Assn., and the high school stage band and choral group.

Adami, the salutatorian, is the son of Mr. and Mrs. Walter Adami. He is president of his class, and was president during his freshman year and vice president last year. He also is vice president of the National Honor Society. Adami's other activities include band during his freshman year; track, two years; B basketball

two years; and A basketball last year. He was also a member of the junior class play cast.

Miss Matthews, daughter of Mr. and Mrs. Buck Matthews, is vice president of Authors Anonymous and reporter for Quill and Scroll. She is copy editor for the Gale, and is library club secretary. A member of FTA for the past three years, she has also won first in district debate for three years and second in the region last year. She also is a member of the Candy Strippers, a group of high school girls taking training at Winters Municipal Hospital.

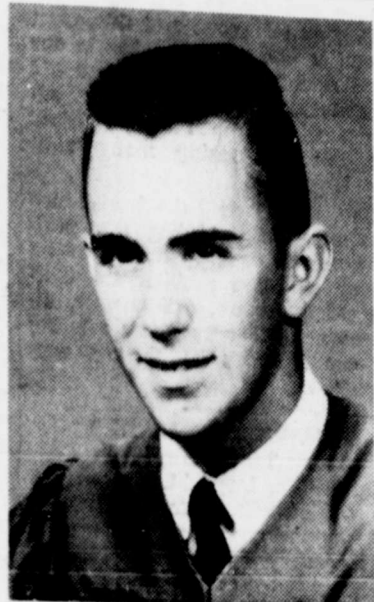

The driver education course will consist of 30 hours of classroom instruction, six hours of actual driving instruction, and six hours of observation in driving for each student enrolled.

Students completing the course will receive credit as an elective but not toward graduation, as prescribed by the Texas Education Agency, Nevins said. However, all male students completing the course will receive a reduced premium for future automobile insurance, it was understood.

Instructors for the course will be L. G. Wilson and Bill Bryant, certified driver education teachers. One car will be furnished by the school and one car furnished by Waddell Chevrolet Co. A tuition fee of \$25.00 will be necessary in order to help defray expense of insurance, gas, oil, tires, salary, Nevins said.

Registration System To Replace Poll Tax All But Decided By Legislature

By—Vern Sanford
 Texas Press Association

Gov. John B. Connally signed 27 bills into law... then he and Lt. Gov. Preston Smith left the state. Their departure was to permit Sen. Martin Dies, Jr. of Lufkin to take over as "Governor for a Day."

Each bill applied to a special area of interest. For example: 1. House Bill 16 by Rep. Otis R. Petty of Levelland interests State banks. It exempts them from the State sales tax and franchise tax so long as federal banks are exempt. Saves them \$1,000,000 a year.

2. House Bill 588 by Houston Rep. Tom Bass interests firemen and policemen. It enables them to credit toward "job seniority" time taken off for military service and guard duty. This speeds up their promotions.

3. House Bill 614 by Rep. Amando Canales of San Diego and Rep. Jerry Butler of Kennedy interests hunters. It puts a "No-Hunting" sign on Duval County for the next five years.

These laws will go into effect late in August.

LOOPHOLE IN THE LOOP
 Municipal annexation bill, which has passed both houses, is ready for Governor Connally's signature. It gives every city an "extra-territorial jurisdiction" — from five miles for cities of more than 100,000 population to one-half mile around cities of 5,000 or less population.

It sets up an extra-territorial area of one mile around cities of 5,000-25,000; two miles around cities, 25,000-50,000; and three and a half miles around those with populations ranging from 50,000 to 100,000.

Under this proposed law a city could annex in a year no more than an acreage equal to 10 per cent of its size on the first day of that year. In computing this, many have drawn concentric circles around sample cities.

But this is not the limitation it would appear to be. Actually, instead of extending its whole perimeter, a large city could annex a five mile strip along major highways without approaching the 10 per cent limit.

GOVERNOR FOR A DAY

Sen. Martin Dies, Jr. wanted only a simple ceremony when his time came to be Governor for a Day. So he managed to hold the celebration down to a day of greetings in the governor's reception room in the Capitol.

But the simplicity of the event didn't keep the folks from coming to shake his hand and pay their respects. Among nearly 1,000 visitors were many relatives including the senator's well known father and mother from Lufkin.

More than 400 friends came all the way from East Texas in private planes and cars. Only side celebration was the traditional luncheon in the Governor's Mansion. It was attended by kinfolk of both Senator and Mrs. Dies.

CRIMINAL CODE REVISION

The much-opposed revision of the State Criminal Code now has the approval of the District and County Attorney's Association, through an endorsement by its president, Alton Griffin of Lubbock.

Endorsement applies to the House Criminal Jurisprudence committee's version of the State Bar Association's plan for streamlining the code. House version is so different from San Angelo Sen. Dorsey Hardeman's bill which passed the Senate, that it may be a long, hard fight for approval. And there's less than three weeks left in this session. It must end by May 27.

MISSION FOR MIGRANTS

Rep. Will Smith of Beaumont introduced both measures.

Southwestern States Telephone

Laredo Rep. Honore Ligarde

told the House Appropriations committee that a program of basic education — grade school level reading, writing and arithmetic would be:

"One of the greatest bargains available to you today — the re-education of human beings in such a way that they cease to be a burden to the state and assume the dignified role of contributing taxpayers."

Ligarde has introduced alternate bills to set up an educational program under the Texas Education Agency, through the urging of the Texas Committee on Migrant Farm Workers.

There are about 127,000 illiterate migrant farm workers in the state. In addition there are 800,000 other adults who rate as illiterates and who would also be eligible for courses if a plan is adopted.

FOR MEN ONLY

Decision by Texas A. & M.'s board of directors, to make the college coeducational provoked introduction of a House resolution against the board's decision. Also a bill designed to prevent entrance of females.

Rep. Will Smith of Beaumont introduced both measures.

1962 VOTERS' REGISTRATION

State comptroller Robert S. Calvert reported a total of 2,020,183 voter registrations issued through January 31, 1963.

This included 1,654,805 poll tax payments and 365,378 exemption certificates, to be used in any

elections held through January 31, 1964.

Loving County issued the least poll tax receipts — 90. Harris County, the most — 282,768.

TEAMWORK TOO GOOD?

Sen. Murray Watson of Mart said the 58th Legislature is by-passing many major issues in its "mad rush" to adjourn by May 27.

He praised the teamwork of House and Senate, but said, "All this good teamwork and this great speed is fine and good, but in our mad rush to set records—to avoid controversial issues—and to adjourn within the 140-day period, we are overlooking many vital problems."

Sen. Watson said the Legislature "seemingly is avoiding any positive approach to the growing water pollution problem—to traffic safety, crime, delinquency, divorce and other problems relating to our society's health and welfare."

GUARD COMMANDER TO RETIRE

Maj. Gen. Lloyd M. Bentsen Sr. of Mission will retire as comman-

der of the Reserve Corps of the Texas State Guard on May 11.

He will be succeeded by Maj. Gen. John L. Thompson of Houston.

STAMP SALES UP

More than \$9,000,000 was taken in by the State from the sale of wine, liquor and cigarette stamps in April. This represented an increase of \$750,000 over the April, 1962 revenue.

WATER SAFETY ACT SUNK

Rep. Ben Atwell failed in a third attempt to launch a water safety bill which prohibited fees for use of public impoundments.

BUSINESS ACTIVITY DOWN AGAIN

The seasonally-adjusted index of Texas business activity went down in March for the second month in a row, according to the Bureau of Business Research, which bases its index on the 1957-59 average.

Business in general in March was seven per cent below February's level and four per cent below that of March, 1962.

TIPS FOR OUTDOORSMEN

By Vern Sanford

Keep A Straight Tongue

Hunters often have a hard time keeping the tongues straight in their boots, causing great discomfort when walking.

Prevent this by cutting two slits on each side of the boot tongue; two near the top and two midway between the top and bottom. Run laces through each of these four slits and further trouble will be eliminated.

Pre-Season Quail Hunt

For top hunting efficiency, a bird dog should be worked out frequently before cool weather sets in.

Not only do pre-season hunts get your pooch in good shape, but finding and flushing birds during a dry-run scatters coveys of young birds, saving them from predators.

Watch Your Shoe

Shooting over dogs when hunting quail, woodcock or pheasant can be dangerous.

Try to avoid shooting at ground-skimming birds. Wait for them to rise higher than six feet, or until sky can be seen beneath them.

This will avoid the danger of blasting your buddy or your dog.

Keeping Warm at Night

It gets mighty cold in a tent at night—even in Texas.

Stoves are bulky to take along on a hunting trip, yet campfires only take care of your walking hours.

You can carry warmth of your campfire with you when retiring, without smoke or mess, by heating a bucket full of stones red-hot. Then, when you're ready to re-

tire, just up-end the bucket over the hot stones inside your tent. It will give out sufficient heat to keep you warm for a long time.

Don't Make This Mistake

A serious mistake made by many hunters is in buying outdoor boots and shoes the same size as the ones worn in town.

Outdoor life in cold weather demands woolen socks and woolen socks demand larger shoes and boots.

Here is a rough guide for you to follow: For thin or medium weight wool socks, wear one size larger shoe. For heavy wool socks, wear one-and-a-half size larger shoe. Should extreme weather call for two pair of woolies, you must gauge your shoe size accordingly.

Removing Hair From Deer

It's not pleasant to get a mouthful of hair when eating venison. And it is really quite unnecessary if you use simple precaution after dressing the carcass.

To remove the hair that frequently sticks to exposed flesh, let the carcass hang for several hours after dressing, then brush the exposed meat with a stiff-bristled brush to clean away all hair.

GOT AN IDEA?

Everyone has a way of doing something "different"—a time-saver, a short-cut, or a less expensive method or procedure.

You do too!

When you have a tip you'd like to share with others who enjoy the great outdoors, write to "TIPS FOR OUTDOORSMEN" in care of this newspaper.

ROGER BABSON

Employers Becoming More Set Against Employment of School "Dropouts"

Babson Park Mass.—In this unsettling day and age, many workers feel that their job is of no real importance. They think of it only as a source of income, and they don't care much whether they do their best or not.

How It Works

Naturally, this attitude doesn't afflict all workers, but I do think that far too many employed men and women consider their jobs are not particularly important. This is not true, and the quicker our workers of all ages find that out, the better off they—and the economy—will be. In the first place, if a job were of no special importance, it wouldn't be there. Since the job is there, this means that it is necessary and that it is worth doing well.

Doing a job badly hurts not only yourself but everybody in your entire organization. Those involved in turning out any product or presenting any service are—and must be—interdependent upon one another in order to achieve top results. If anybody lets down, all are injured. In an automotive company, for example, all steps are equally important: Manufacture of the various materials, assembling of the parts, painting, upholstering, cleaning, showing a 4 demonstrating. Necessary and significant, too, is inspection of each step in the complicated process of taking an automobile or truck from its initial stages through to the ultimate customer. Nobody can say that the inspector's job is less crucial than any other along the line.

Why Each Job Is Equally Important

A craftsman's mistake could travel right to the customer and, worse, be a sale if it were not for the inspectors' "craft" in checking the work through all its phases. Disappointment because of a faulty product breeds dissatisfaction with the company itself. No amount of advertising can convince a customer that a company's prestige is deserved when he has encountered something drastically wrong in its products.

Individualism may be a good thing in our private lives; but when it comes to making a living, teamwork is all-important. Only through perfect teamwork can employers, employees, and stockholders all get the most out of any operation. A man who makes a tiny electric switch may think his

job very unimportant when contrasted with that of a brilliant scientific engineer who designs a space ship. But a multi-million-dollar space ship could fail at take-off, could plunge into the ocean, or could just plain blow up if anything should go wrong with that tiny switch. So, if you happen to be the man making that small switch, don't think that you are less important than the big-salaried engineer. If you are not responsible on your part of the team, it won't do the engineer any good to be brilliantly responsible on his part of that team.

Teaching Young People Responsibility

A good many young people today are not naturally aware of the necessity of discipline, and unfortunately their families and school teachers often fail to make this need plain to them. That is the reason for the innumerable dropouts from junior high schools and high schools throughout the nation. If these children have no sense of responsibility toward their own education, it is not likely that they will assume any when they go out into the business world. Such children grow into adults who consider their jobs of no real value, who do not know the meaning of job responsibility.

Let me warn the parents of today's youngsters that employers are deadset against hiring school "dropouts." This is a time of specialization. There is 20 per cent less demand right now for common labor than in 1950, and certainly nobody can expect any rise in the going wage rate for those in unskilled categories. Best opportunities are in engineering, advanced mathematics, physics, electronics, data processing, and communications. If you let your children or your grandchildren drop out of school, they will probably never acquire any needed responsibility; and they will never get the training that will make them prospects for the big jobs—perhaps even for any job—of tomorrow. Don't let your child become a "dropout."

Many People Over 65 Entitled To Social Security

Many people age 65 or over who are still working don't realize that under the law they are "partially retired" and can receive some social security payments. It is possible to receive social security retirement benefits even if earnings go over \$1200 a year, according to Floyd B. Ellington, social security district manager in San Angelo.

Mr. Ellington gave an example of a 65-year-old man and his wife eligible for a \$180 monthly social security payment. If the man earns \$2,500 in a year, he and his wife could receive \$1,110 in social security payments.

More than a million people over

65 have not yet applied security benefits. Many receive benefits even though are working. Some of the people are probably living here in the San Angelo area.

Mr. Ellington suggests employed persons 65 or over, or write the Social Security office at the Continental Building to find out whether or not they can receive social security payments.

Progress Made In Paving Program

A measure of progress is reported in planning a paving project for Cryer Street.

A citizens group, residents who live on Cryer Street, appeared before the Winters City Council Tuesday night to push for completion of plans to pave the street. They presented the council with a list of names of people who reside on Cryer Street who have contributed to the fund being raised to pave the street. The money has been deposited in a special fund by the group, to be turned over to the City when plans are completed and a contract is made.

The Council assured the group that the city would advertise for bids on the project, and that work would commence just as soon as possible, once a firm contract is drawn between a paving firm and the city.

The project, as proposed by the group of Cryer Street residents, would include five blocks, from Tinkle north to Truitt Street.

Non-Essential Welfare Measures Upped by Congress

By Congressman O.C. Fisher
During The Week preceding the Easter recess the Congress relaxed its hold on the purse strings, and advanced several rather expensive welfare measures, none of

which were essential.

The Senate also approved a measure calling on Uncle Sam to help foot the cost of revamping metropolitan transit systems. The cost of this is undetermined, but it will run into the hundreds of millions.

The House overruled its appropriations committee and okayed \$450 million to be spent over the country, in approved areas, for various types of so-called public works. This is the modern version of WPA. In the same appropriation bill we were able to strike

out an item to finance an international secretariat for a Peace Corps. This one — a real boondoggle — is part of a scheme that has been hatched up to have the U.S.A. join with other nations in promoting Peace Corps projects throughout the world, with, of course, much of the cost being paid by this country.

The Senate also passed a bill creating a depression-type Civilian Conservation Corps (CCC), though by a slightly different name. Another welfare measure, it is but one of a series of pro-

posals to place more people on the federal payroll. The Senate passed a similar bill last year, but it was held up in the House Rules Committee. Indications now are that the measure will reach the House Floor for debate shortly after Congress reconvenes.

Looking back over the past few weeks, there is not much comfort to be found for those who had hoped this Congress would practice more economy. There has,

however, been quite a bit of trimming going on. Our Committee on Armed Services, for example, whacked \$600 million off of a military pay raise proposal recently. And the House Appropriations Committee has done fairly well in cutting down. The big battles of this session have yet to be fought, however.

LEGAL NOTICE

A TAX AUDIT
More and more taxpayers are getting audited as a part of the government's revenue collection. If selected, you may well ask, "Why pick on me?"

Well, you may have made an arithmetic mistake, deducted too much, claimed a large refund compared to your income, had a big income, had too small an income. Or, you may have been picked out by chance.

There are many audits. An auditor may ask you to bring in your records to talk over your return. Often one talk is enough. Again you may have several talks before the matter is closed. You may bring your lawyer along if you like or anyone who helped you make out your last return.

Sometimes a federal agent may come to your home or place of business to check your records in person. Just showing the agent your records may satisfy him. But he may "adjust" your return. You then must take steps to pay, or to challenge his conclusions.

When a special agent comes to see your records, it may be well to have your lawyer on hand. As a rule most honest differences over taxes are settled without suits. But not always. Whenever taxes are challenged, take prompt steps to protect your interests. People have lost good defenses or claims by failing to act within the times set by law.

The workload of the tax offices has brought on automatic data processing. Magnetic tape and other devices may store and analyze returns on each taxpayer, say, by 1970 or sooner. Then more audits.

"Miles to Midnight" the suspenseful melodrama by Anatole Litvak and by Sophie Loren, Anthony Quinn and Jean-Paul Belmondo will show Saturday at the Fiesta Theatre, Limited Artists Release.

The story of a beautiful woman, Miss Loren, so exhausted from an inebriated husband, Per deliberately involve her in an insurance swindle. The film was filmed in its entirety in Paris and its environs.

Four-time Academy Award nominee Rosalind Russell makes her singing and dancing debut on screen in "Gypsy" the rollicking Warner Bros. musical comedy showing Sunday, Monday, Tuesday and Wednesday at the State Theatre.

caused comedian Jackie Gleason to sit down at the keyboard of a piano and, through one of his most expressive means of creation, music, invent the idea, theme, and character that will be on view as "Gigot," Thursday, Friday and Saturday at the State Theatre.

The Seven Arts production, a serio-comic drama, is being released by 20th Century-Fox under the direction of Gene Kelly, the scenario of Pulitzer prize-winner John Patrick and the formidable talents of Mr. Jackie Gleason in his first starring screen role.

Basically, "Gigot," which can be translated as "leg of lamb" or "muttonhead," tells of a poor, abused mute Janitor living in Paris of the twenties. Actually, the character is one of Gleason's most memorable television creations, "The Poor Soul," a caricature of the ordinary man who refuses to be overwhelmed by the stresses and strains of living in tension-ridden times. Through his music, Gleason pictured "Gigot" as unshaven and wearing a great old French army surplus overcoat. By giving each theme a name, he was able to piece together the entire story, in fact, he admits: "I didn't write "Gigot," the music did."

Mrs. Lloyd Roberson was hostess to members of the Literary and Service on Thursday evening with a dinner. Tables were decorated with the theme—"There is a Way," closing out the Study for the year—With roads leading the way from Main Highway—depicting programs of each meeting.

An amendment to the constitution was passed to have club meeting on second Thursday of each month from September through May. Roll call response was, "What program meant the most to you".

Mrs. Max Lewis was installing officers using her theme the "New Highway". Officers installed for the new year 63-64 were: President—Mrs. E. M. Thormeyer, vice president—Mrs. A. W. Stanford, corresponding secretary Mrs. Earl Dorsett, Treasurer—Mrs. Max Lewis, Mrs. Thormeyer-incoming president appointed the following critic—parliamentarian—Mrs. Chas. Retirement of Congressman Means New Look

Announcement by Albert Thomas of Houston that he plans to retire next year, has given rise to a new look at the line-up of Texans in Congress. Thomas, a veteran of 26 years in the House, ranks third (along with Bob Poage) in delegation seniority, and fourth in seniority on the powerful Appropriations Committee. George Mahan of Lubbock ranks second on Appropriations.

Because of committee seniority both Mahan and Thomas are ranked among the most influential members of the House. Thomas, Chairman of the sub-committee on Independent Offices, handles appropriations amounting to some \$4 billion per year. He is known here as a hard task master who insists upon the agencies justifying every dime they spend, although in general he likes to line up with the party leadership on partisan issues. By and large, he is rated a valuable member from the standpoint of the taxpayers.

With Albert's retirement, I will then be fourth in our 23-member delegation seniority rating. Wright Patman of Texas is first, with 35 years of continuous service. George Mahan will be second, with 30 years, and Bob Poage of Waco will be third with 28 years.

There has been quite a turnover in the Texas delegation during my 21 years here. When I was first elected in 1942, the delegation had reached its peak of influence, sparked by an impressive array of members who were widely recognized for seniority and statesmanship. Looking back, there were such powerful figures as Hatton Summers of Dallas, Chairman of the Judiciary Committee, an independent who wielded tremendous influence in behalf of Constitutional law and good government. Fritz Lanham of Fort Worth, also a committee chairman, belonged to the old school of southern gentlemen. He voted independently and was highly respected. Joseph Mansfield of Columbus, Chairman of the Committee on Rivers and Harbors, was likewise one of the most respected and influential members in the House. Then, there was Ewing Thomson of El Paso, a ranking member on Military Affairs and likewise highly regarded. Luther Johnson of Corsicana was a tower of strength, serving on the Foreign Affairs Committee. Paul Kilday of San Antonio was just beginning to develop stature which later made him one of the most effective members of the House.

Milton West of Brownsville was one of the real solid pillars in the conservative cause, along with Dick Kleburg, Ed Gossett, Sam Russell and Martin Dies. Dies at that time Chairman of the House Un-American Activities Committee, was an orator and a thorn in the side of the communists and the liberals.

Sam Rayburn, the Speaker, busied himself with the promotion of the party, although at that time his influence with the members of the Texas Delegation was not felt as much as later in his career. In general, Texans in those days were much more independent than were many of their replacements who succeeded them.

In general, Texans in those days were much more independent than were many of their replacements who succeeded them.

Announcement by Albert Thomas of Houston that he plans to retire next year, has given rise to a new look at the line-up of Texans in Congress. Thomas, a veteran of 26 years in the House, ranks third (along with Bob Poage) in delegation seniority, and fourth in seniority on the powerful Appropriations Committee. George Mahan of Lubbock ranks second on Appropriations.

Because of committee seniority both Mahan and Thomas are ranked among the most influential members of the House. Thomas, Chairman of the sub-committee on Independent Offices, handles appropriations amounting to some \$4 billion per year. He is known here as a hard task master who insists upon the agencies justifying every dime they spend, although in general he likes to line up with the party leadership on partisan issues. By and large, he is rated a valuable member from the standpoint of the taxpayers.

With Albert's retirement, I will then be fourth in our 23-member delegation seniority rating. Wright Patman of Texas is first, with 35 years of continuous service. George Mahan will be second, with 30 years, and Bob Poage of Waco will be third with

Hawaiian Theme Is Featured At FHA Banquet Here

Featuring a Hawaiian theme in decorations and a South Sea Island setting, the Winters High School Future Homemakers entertained their mothers at a lavish Luau in the school cafeteria, Friday evening for the annual mother-daughter banquet.

Decorations emphasized the chosen theme on the tables arranged diagonally on either side of a wide center aisle. A tropical setting was achieved by honey suckle vines entwined around the posts about the room, with the center post forming a replica of a palm tree as a background for the miniature pool surrounded by greenery and covered with water lilies. Artificial birds among the greenery added to the beauty of the scene.

An arrangement of bird of paradise flowers centered the main table and refreshments of fruits were attractively arranged for individual serving.

Dickie Hale, mistress of ceremonies welcomed the guests and her mother, Mrs. Z. I. Hale gave the response. Entertainment was furnished by the "Chilly Winds" Jerry Sneed, Alvin Jackson and Jerrell Elliott, who sang popular numbers with Tamala Gans, accompanist.

Rosalene Scott was narrator for a style show featuring costumes needed for a trip to the Hawaiian Islands and Kathy Shaw led a group in singing.

Eris Vogler made the presentation of gifts to the new honorary members, Mrs. Myrtle Frazier, Mary Kay Bauer; the sponsor, Mrs. Cecil Hambricht and the FHA Sweetheart, Tommy Young; the mothers, Mrs. Z. I. Hale, Mrs. George Beard, Mrs. Sid White, Mrs. Leo Johnson and Mrs. J. L. Shaw.

Presentation of degrees was made by Carolyn Helm to Claudia Browne, junior degree; chapter degrees to Floretta Jones, Judy Hogan, Becky Brown, Kathy Shaw and Martha Hale.

The installation of officers for 1963-1964 was conducted by Dickie Hale. They are president, Connie Wilborn; first vice president, Charlotte Dooley; second vice president, Kathy Shaw; secretary, Joyce Allen; treasurer, Becky Brown, sergeant-at-arms, Floretta Jones; parliamentarian, Doris Allen; historian, Shirley Heath; reporter, Claudia Browne; song leader, Donna England; typist, Jeanette Lewis; photographer, Andra Bishop; civil defense, Sally Echois and public relations, Beth Spill.

The out-going officers are president, Dickie Hale; first vice-president Rosalene Scott; second vice president, Norma Wade; third vice president, Lynn Mitchell; secretary, Eris Vogler; treasurer, Kay Bullard; reporter, Glenda Sims; sergeant-at-arms, Jeanette Lewis; parliamentarian, Phyllis Self; historian, Connie Wilborn; song leader, De Ann Bellis; typist, Sharon Johnson, photographer, La Ross Sheppard; civil defense, Joyce Allen and public relations, Doris Allen.

Old Oil Mill--

(Continued from page 1)
Soon after construction, the mill was bought by Mr. Herman Giesecke, Sr. and associates of Ballinger. First manager was John Hoffman and he was followed by H. W. Lynn.

Horace Hawkins was manager for a year, after the mill was purchased by Anderson, Clayton & Co. on May 1, 1927. Then Roy Mack came to Winters as manager of the mill and remained here in this capacity for ten years, until 1938. He was followed by Horace Belew.

R. E. (Bob) White of Ballinger was employed as bookkeeper while Lynn was manager and L. W. Moseley was superintendent and worked from 1919 until 1923. He also kept books for the three gins in town at that time. Others employed at the mill were George Hall who was scale clerk from 1924 until 1927 and cashier until 1931. Clifford Rhoden was scale clerk from 1925-28 and was then employed in Ballinger. Morris Chapman was also an employee.

Belew, Toney, Mack, Rhoden, Hall and Chapman are all employed with Anderson, Clayton in Abilene. Hawkins also lives in Abilene.

Winters had 10 gins at one time, but as cotton raising declined and the gins began to close there was not enough cotton seed to keep the mill running and the machinery was moved to Brownfield in 1939. The mill site is now the home of the nationally known Lazy N Shetland Pony Stables, owned by John W. Norman, business man.

In recognition of what the cotton oil mill has meant to the growth of Winters, a program will be held at the mill site Sunday, May 12, at 2:30 p. m. and Dr. Rupert N. Richardson of Abilene, president of the Texas Historical Survey Committee, will present a medalion to Norman that will mark the building as one worthy of preservation.

The first postage stamps were issued in 1847.
