DO YOU REMEMBER?

From the Files of the Winters Enterprise

MAY 19, 1933

A turkey farmer visited Winters, exhibiting a four-legged turkey with 18 toes. The body of the turkey was perfectly formed with the exception of the two deformed legs growing just back of the natural legs.

A new Alderman was elected to the City Council to fill out the unexpired term of Geo. C. Hill; resigned. Mr. Riddle was the newly elected alderman defeating Lanham Brown by 6 points.

Do you remember when potatoes were 10 cents for ten pounds? Sugar-10 pounds for 49 cents, Roast-12 cents a pound, also mens ties 15 cents, house brooms-19 cents and theatre tickets 10 and

25 cents.

Class of 1933 drew a large audience at their commencement exercises with the Hon. Thomas E. Hayden addressing them. Buford Brian and Anna Lee Cobb were honor graduates. Supt. A.H. Smith made the awards. The class was composed of Forty-three graduates.

MAY 20, 1933

The city council appointed a committee to ban hogs from the city limits. It was voted on and passed.

A. R. Wetsel's Winters Blizzard baseball team defeated Ballinger Nine, 7 to 1 in a game that featured 16 hits by the locals to 4 for

Soil Stewardship Week May 19-26

"Today, with our population rapidly increasing, we must recognize the indispensability of soil, water and plants as the major sources of food and fiber for our people and raw products for industrial processing and handling," so said Governor John Connally in proclaiming the week of May 19-26 as Soil Stewardship Week in Texas.

"As these resources are conserved and developed, we are making possible the continued strength of Texas and assuring our people of a continuing high standard of living. Most important of all, the soil and water will be continued in its lasting service to men of future generations as a God-given trust," he continued.

George Holekamp, chairman of the Soil Stewardship Committee, Association of Texas Soil Conservation Districts, Kerrville, and Lynn Pittard, soil and water conservation specialist, Texas Agricultural Extension Service, reported interest in this year's observance at a high pitch. They added that churches throughout Texas are planning special services during the observance and invite all citizens to attend and participate in them.

Many of the state's soil conservation districts are also planning tours, special meetings and recognition for achievements in their districts. The theme for the 1963 observance is—"Eyes to the Future."

Soil Stewardship Week is sponsored nationally by the National Association of Soil Conservation Districts.

Ballinger.

MAY 19, 1943

Red Cross shipped 47 blouses and seven quilts to the county production center. All women were urged to lend their assistance to the surgical dressings department.

Word was received that Sergeant Homer Hodge experienced a hurricane off the coast of Florida. He stated it was like a giant, stalking its prey. Homer told of the many shocking experiences he and his men shared as they were tossed about in the sea like a beach ball, and only the Grace of God saved him from harm.

Runnels county exceeded its quota in war fund drive. Winters and surrounding communities reported \$3,244.32.

Twenty reservists were slated to leave Runnels county, for the induction center, several of this number were from Winters and were in the 18 and 19 year-old class.

Plans were made to organize two boy Scout Troops for 1943 scouting. Scout Masters were to be selected and given their duties.

FROM ARLINGTON
Mr. and Mrs. Bob Duncan and children, Debbie, Dan and DeeDee of Arlington were week end visitors with her parents, Mr. and Mrs. Mord Tucker.

HAIR TODAY—Going to the heads of women is a hairdo which looks like a poodle's. It is piled high with curls and subtle waves at the sides. It's called the Poodle Pouf.

ROGER BABSON Foresees Means To Secure Power And Light From Sea Water and Sun

Babson Park, Mass. I remember, when I was a youth, what great news it was when Marconi the Italian inventor sent a signal across the Atlantic Ocean — to Newfoundland. This was followed by the use of the Morse Code, and later by the radio voice direct.

Invention Of TV
The radio was then the invention of the century and its development marked the beginning of a great new industry. No one then imagined that TV would come along and develop into such a great business as it has become. Sometimes when I watch TV I wonder whether it is doing more harm than good; but the American people will make only good broadcasts pay in the end. TV will have the same ups and downs as the movies have had. Both must greatly improve to be permanently successful.

But today I wish to forecast that we are on the verge of great new developments in TV. Just now we television waves to transmit not only sound but pictures—all in action of the most remarkable kind. Furthermore, we do not need even an outdoor antenna, as these waves (which give us talking and action in pictures) will pass through the walls of our houses. In fact, these waves have been passing through the walls of our houses and the walls of every castle in Europe and Asia for thousands of years, without being used.

What's Coming Ahead?
Just stop for a moment and think what wonderful things radio waves are and realize our debt to Marconi for discovering them for us. In this column I am now mentioning only one more TV development; there are many more to follow. This one is the prospect of being able to press buttons and throw light or heat into our rooms. For some time I have been taking pictures of the sun. Someday, I believe, great TV cameras—combined with large magnifying glasses—will transmit heat and/or light directly into our homes. This will surely require a new chemical, and perhaps special new broadcasting stations for each community. These heat and light TV broadcasts will not be interrupted by advertising. The cost will be added to our gas or electric bill. Special eyeglasses may be needed to use in rooms so heated or lighted; but I will not discuss such details now.

household. Then along came Dr. Einstein, unlocking the great power of the atom, which unfortunately is not being used extensively for peacetime purposes. In order to get this atomic power we are now using the mineral uranium which was considered worthless 50 years ago.

Free Power From The Sun Or Sea Water
Now further developments are on the way and it may be safe to say that anything could happen. The two biggest events will be securing power direct from the sun, and getting it from sea water by breaking this water up into its components, hydrogen and oxygen. This latter is surely coming some day. The earth is now three-fifths surrounded by free water. What then will happen to the price of gasoline? But greater than all is the power of sane religion to change the hearts of men and women of all nations, races, and creeds. Oh, I wish I were a young student today!

Between 40 and 50 per cent of America's farmers produce less than \$1,000 worth of food each year. A nail driven into a tree trunk would be at the same height from the ground five years later.

Gov. Connally Studies Appointment of Commissioner, Education Group

By Vern Sanford
Texas Press Association

Gov. B. Connally says he has a great deal of thought to the appointment of a successor to the Railroad Commissioner J. Murray Jr.

Connally hopes to find a replacement before the Senate adjourns May 24, so his choice will be confirmed.

Connally also is looking for appointments to the committee of 25. This is a committee which will be charged with the study of education in the state.

Connally also is looking for appointments to the committee of 25. This is a committee which will be charged with the study of education in the state.

ment removing the ceiling on welfare grants has passed the Senate and awaits House action. A bill to set up a registration system to replace the poll tax and a revision of the election code are close to final form in conference committees.

7. A tax package—mainly increases in sales taxes on cars and clothes and a year-long extension of the corporation tax—has been signed into law.

8. A Senate-passed bill limiting governors to two elected terms now awaits House action.

9. Municipal annexation bill, which sets some limits on the powers of cities to annex territory, is ready for his signature.

10. Measure creating the Texas Tourist Development Agency has been signed into law.

Both houses also have passed the bill to create a 25-member Committee to Study Education Beyond the High School; bills giving San Angelo and Pan American colleges senior status and full state support; and the Game and Fish-Parks Board merger.

SOME EXCEPTIONS
Connally's plan to reorganize the State Banking Commission ran into banker opposition. But a bill allowing Connally to name one member to replace Atty. Gen. Waggoner Carr probably will get through.

His proposal to give the governor authority to control budgets of state agencies within the total dollar limits set by the Legislature got a chilly reception from a House committee and hasn't been heard from since.

WOMEN'S RIGHTS
Proposed constitutional amend-

ment by Sen. William Moore of Bryan to give women equal property rights was passed by the Senate back in January. It was then sent to a House committee headed by Rep. Jim Cotten of Weatherford. Cotten waited until the first week of April to hold a hearing, then never named a subcommittee to consider women's rights.

Finally, an impatient House, hammered by demands from impatient women voters, instructed Cotten's committee to bring the bill out for a vote. Cotten withstood all pressures—even a full-scale committee revolt—until the House took the bill away from him and sent it to the House Insurance Committee.

Some action is promised, but there's no word as to when.

WHITHER SHALL IT WAVE?
El Paso Sen. Frank Owen's bill to forbid the flying of the flag of the United Nations on or in public buildings ran into what may be a fatal delay in the House.

Delay motion came on the heels of a speech by Rep. Howard Green of Fort Worth. He said legislators have received a flood of mail favoring the Owen bill, which attacked leading Texans like former Sen. Tom Connally, former president Dwight Eisenhower and Vice President Lyndon Johnson as being "tools of the communist conspiracy."

These men will live on in memory when their detractors are "lost in the junk heap of history," Green declared. Bill's House sponsor, Rep. Walter Knapp of Amarillo, replied that "the mere fact that a lunatic fringe is supporting this bill is no reason to turn it down."

Further debate was postponed a week, which could mean indefinitely.

HOLIDAY CONFIRMED
For the first time since the reconstruction era, a Negro holds a state office as a member of a major board.

Senate confirmed the appointment of the Rev. C. E. Holliday of Fort Worth to the State Board of Corrections, despite early opposition to Connally's choice.

TEXTBOOK COMMITTEE NAMED

The 15 people who will pick textbooks for consideration by local school boards have been given the oath of office.

Included were Alton O. Bowen, Bryan; Benton L. Brockette, La-Marque; Wayne Craddock, Palestine; Avery R. Downing, Waco; Miss Marie Esman, El Paso; Mrs. Lonie Garretson, Pittsburg; Mrs. Frances Gavenda, Mc Allen.

Also Miss Nelda Jobe, Lubbock; Mrs. Christine Kirkpatrick, Denton; Mrs. Fannie L. Knight, Sherman; Dr. John W. McFarland, Houston; Larry O'Rear, Alice; Miss Alma Marie Rohr, Brownwood; Billy W. Sills, Fort Worth; and Arnold F. Whedbee, Beaumont.

Under a new ruling by the State Board of Education, citizens will have until September to protest the committee's selections.

STIFFER REQUIREMENTS
Board of Education also adopted its junior college study commission's recommendations to strengthen the requirements for communities seeking board approval of an election to create junior colleges.

New requirements state that

certified proof that all board standards have been met must be filed 10 days before a hearing will be granted. New procedure will streamline the process somewhat, since it could cut down some of the local hearings and investigations necessary in past years.

OPERATORS WIN
Oil and gas operators won a battle when the House approved a measure making it illegal to transport more than a pound of mercury without proof of ownership.

This law is expected to cut down the thefts of mercury from automatic gauges on oil tanks and gas pipelines.

Vegetable dealers will be required to purchase a bigger bond under a bill ready for the governor's signature.

Parks managers have reported record attendance at state parks so far for 1963.

Southwest Animal Health Research Foundation notified Governor Connally that livestock producers and sportsmen have met and exceeded their \$3,000,000 goal for screwworm eradication.

State Treasurer Jesse James reported that the General Revenue Fund was out of the red on May 7 for the first time since September 1, 1962. Fund balance was \$222,402.87.

State plan for construction of hospitals under the Hill-Burton Act has been revised, according to the State Health Department, which is issuing copies of the revised procedure until June 15.

PERFECT BALANCE—Going along for the ride is a habit of butch, the pooch, and riding on a tire perched on top of a truck owned by Sam Davis, of Topeka, Kan., seems just as easy as riding in the cab for him.

certified proof that all board standards have been met must be filed 10 days before a hearing will be granted. New procedure will streamline the process somewhat, since it could cut down some of the local hearings and investigations necessary in past years.

Fertilizer Fast Worker In Making Lawns Green

Spring is the time for many outdoor jobs for the homeowner... especially for those who are concerned about appearance of their lawn. If you're interested in a beautiful lawn—one with a lush green, healthy look about it—wait no longer to apply lawn fertilizer.

According to National Plant Food Institute... most grass plants are now in a weakened condition following the unusually severe winter throughout the nation. If the spring feeding has not yet been applied... an application of good lawn fertilizer now will help grass get a head-start on crabgrass and other weeds.

Dr. Gilbert Adami One of Directors In New Denton Bank

Dr. Gilbert E. Adami of Denton, son of Mr. and Mrs. Ernest Adami of Winters, is one of the directors of the new First National Bank at Denton, according to news release appearing in the Denton Record-Chronicle of recent issue.

A past president of the Denton County Medical Association, Dr. Adami, is also a past president of the Flow Memorial Hospital staff. He is a member of the state and national medical association and the American Board of Abdominal Surgery.

The surgeon was born in Winters and received his high school education here. He attended the University of Texas and completed medical school at Tulane University. He served two years as a physician and lieutenant in the U. S. Navy and his residency in general surgery at McKinney Veterans Hospital.

Dr. Adami is married to the former, Miss Lillian Shimek of McKinney and they are the parents of three children, Debra Lynn, David and John. They live at 1822 Greenwood in Denton.

Zachary Taylor, twelfth President of the United States, was a second cousin of the fourth President, James Madison.

All the painting skill you need is in this wall paint!

- Never too thick nor too thin.
- Goes on quickly, evenly, with brush or roller.
- Requires no pushing or tricky painting techniques.
- Gives you beautiful results every time.

MONEY-BACK GUARANTEE
Purchase price of paint refunded if you're not completely satisfied.

HIGGINBOTHAM LUMBER CO.

Clockwise from bottom: Jet-smooth Chevrolet Impala, Chevy II Nova 400, Corvette Sting Ray, Corvair Monza Spyder

Summer's coming, get going!

If this isn't a great time to get yourself a new Chevrolet—well, we just don't know when is. Why, you'd almost have to be anti-summer not to let one of these four convertibles get to you. Or any of Chevrolet's sedans, wagons, sport coupes and sport sedans, for that matter.

And there are a lot of other buy-now reasons besides the season. Like the care-free feeling you get on a long vacation trip in a brand-new car. And it's a smart time to trade, what with your Chevrolet dealer all stocked up for a busy summer. Chances are, he has just the model and color you want—be it Chevrolet, Chevy II, Corvair or Corvette—ready to go right now.

So maybe now you're all wound up? Then spring into summer at your Chevrolet dealer's.

GRIN AND BEAR IT—it appears that "Tuffy," a Pomeranian dog, just bears it all with a grin as "Yogi," a Sun Bear cub, gets it in his head to lean Tuffy's way. Cage mate, nameless Puma cub, walks away from the whole thing, saying don't bother me, at a Bladensburg, Md., pet shop.

Junior-Senior Fete Featured Setting Of Old South

Under the Magnolias was the theme of the decorations for the annual Junior-Senior banquet of Winters High School Saturday evening in the school cafeteria.

A large artificial magnolia, complete with foliage and blossoms, was the focal point of the decorations which featured a setting of the Old South. A namequin dressed as a southern belle was beneath the tree. Guests entered the banquet hall under an archway of greenery and magnolia blossoms. Emphasizing the mosen theme in the tables, magnolia blossoms and lighted papers were placed at intervals down the center and between each grouping were magnolia blossoms.

Mike Mitchell was toastmaster for the occasion and Louis Simpson gave the invocation. Ronald Kraatz welcomed the guests and the response was given by Bernard Adami.

Speaker for the evening was Joe Liles of Abilene, musician and comic, who caused much laughter and merriment by his recital of comical stories. The menu consisted of Southern fried chicken, or ham, green beans, corn, congealed salads, relish plate, hot rolls and butter, strawberry shortcake, tea or coffee.

Bernard Adami is president of the senior class; Alvis Jackson, vice president; Sharon Johnson, secretary; LaRoss Sheppard, reporter; Jerry English and Mrs. R. J. Bauer are the sponsors. Ronald Kraatz is president of the junior class; Alan Benson, vice president; Judy Kertler, secretary; Mike Mitchell, treasurer; W. E. Middleton and Bill Bryant are the sponsors.

Soil Compaction Related To Soil Moisture, SCS Says

Soil compaction from frequent use of heavy tillage equipment is related to soil moisture, according to James Burnhill of the local Soil Conservation Service.

Burnhill mentioned that water tends to lubricate soil particles which enables them to slide easily. This makes the soil easy to compact when the moisture content is high. Many times when the surface soil is dry enough to work easily the subsoil moisture may be higher and more easily compacted. Farm equipment then may compact the soil below normal tillage depths. In such a case, no more tillage than necessary should be performed.

Deep plowing will usually break a compacted condition temporarily. However, because of deep root injuries and the return of large amounts of organic matter are needed to improve soil structure.

Mrs. W. D. Shores Is Installed President of Jim Neel School P-T-A

The Winters Junior-Senior Association (P-T-A) installed Mrs. W. D. Shores as its president Monday evening. The officers of "Good Living" through P-T-A activities were: Mrs. Shores, president; Mrs. J. L. Shores, secretary; Mrs. J. L. Shores, treasurer; Mrs. J. L. Shores, reporter; Mrs. J. L. Shores, historian; Mrs. J. L. Shores, parliamentarian.

A "Style Show" was presented by the Freshman and Sophomore Homemaking girls under the directions of Mrs. James Norman and Mrs. Robert Elledge.

Farmers Will Vote In Referendum On 1964 Wheat

Eligible farmers will vote Tuesday, May 21, in a referendum to determine the type and extent of government control on wheat production for 1964. The referendum is on the program for one year only, 1964.

The referendum is required by law whenever wheat supplies are excessive and the law sets the guidelines as to what are excessive supplies. In the absence of marketing quotas, according to the Department of Agriculture, the supply of wheat for the marketing year beginning July 1, 1964, is estimated at 2.3 billion bushels.

Wheat growers will choose between (1) marketing quotas with price support at \$2 a bushel on 50 percent of the normal production of acreage allotments and with diversion payments for acreage taken out of production, (2) unlimited acreage.

All wheat growers who have an interest in the wheat production on a farm with a 1964 wheat acreage allotment of 15 acres or more are eligible to vote in the 1964 wheat marketing quota referendum.

An area group, called the 1964 Wheat Program County Purity Committee, has been conducting meetings during the past few weeks to convey important information to the wheat program in interested farmers. Purpose of the meetings was not to persuade farmers to vote one way or another on the program, it was pointed out, but to get them interested in voting. The committee, as such, did not necessarily endorse the program nor were they against it, according to A. W. Brunson, chairman. Members of the committee were Brunson, L. D. Halstead, secretary, and Ray Alderman, Steve Stunfield, Jack Fry, John Orken, Cuddo Wright, Jake Presley, L. T. Parker, Buddy Gray, M. W. McShan and Barney Puckett.

Chat and Sew Club Held Meeting In Louis Ernst Home

Sewing was done by the members when the Chat and Sew Club met Tuesday in the home of Mrs. Louis Ernst.

Refreshments were served to Mesdames Lonnie Burton, Alvis John, Billy Burton, B. D. John, Alfred Hoekler, J. A. Henderson, and the visitors, Mrs. Herbert Gerhart of Wilcox, Arizona, Mrs. Lawrence Jacob, Mrs. Bill Ford and Mrs. Robert Simpson.

FROM BANES

Mr. and Mrs. Claude Snow of Banes visited in the home of Mr. and Mrs. T. F. Hantsche Tuesday of last week.

IN SANDERS HOME

Mr. and Mrs. Darrell Gresham and children of Plainview, Mrs. Bruce Pearce and Miss Mae Sanders of San Angelo spent Mothers Day in the home of Mrs. J. S. Sanders and Elsie.

City Council Okays Next Year's Budget

Winters City Council Tuesday night approved a budget for operation of the City for the fiscal year beginning October 1, following a public hearing at the City Hall. Only mild public interest was shown toward the previously announced hearing, with few people in attendance.

Broken down into the several individual departments of the City, the budgets sets forth the amounts expected to be received by the various departments and allocates specific sums with which the departments are expected to operate.

In the budget as set up for the next year, the electric department boasts the biggest figures, with an estimated total revenue of \$146,148.00. This estimate compares with an actual total revenue of \$127,790.00 for the year ended Sept. 30, 1962. N. D. Waggoner, superintendent of the electric department, said the increase is expected due to the continued increase in sale of electricity. This amount also includes pole rent, sales tax, and customer merchandise sales.

A total of \$39,825 will be transferred to the bond sinking fund and for bonds and interest in the electric department for the new fiscal year.

The water department's estimated operating revenue, which includes tapping fees, lease and rentals and other items, is estimated at \$75,500.00. This is a substantial increase of the actual operating revenue for the year ended last September 31, when a total of \$67,781.00 was reported on the audit. Increase in water sales also was credited for this increase in the estimated revenue. Biggest estimated expense for this department for the fiscal year is \$17,000.00 for salaries. Of total estimated expenses for the water department of \$70,450.00, \$10,800 will go into the bond sinking fund, with a capital investment budgeted at \$15,000.00.

An estimated expense over revenue for the hospital fund has been entered in the next year's budget, at \$10,560.00. This deficit, if it materializes, will have to be taken care of with monies from the general fund, council members pointed out. The hospital has been operating in the black for the past six months. It was reported, but past experience must be taken into consideration, it was pointed out, and means planned to take up slack if such is the case again for the next year. It was hoped that with proper planning, a deficit in this department can be prevented, or kept at a minimum, the council stated.

In the general fund budget, ad valorem taxes make up \$73,500.00, deducting \$8,500.00 for delinquent and uncollectable taxes. This is based on present personal and real property, evaluated at 50 percent, with a rate of \$1.50 per hundred. Taxes collected on April 1, 1963, amounted to \$71,868.00. Estimated income from other sources for the general fund, including sanitary collections, sewer collections and parking meter collections and taxes, will amount to \$150,308.00. Total estimated operating expenses have been budgeted at \$116,115.00, with an additional \$33,315.00 designated for transfer from the tax fund to the sinking fund.

RETURNED TO CALIF.

Mrs. Maude Neely of Fresno, California, former resident of Winters, spent the first of the week visiting in the home of her sister-in-law, Mrs. Medo Nelson and daughter, Jacque. She left today (Friday) for Fresno.

During the War of 1812, Stephen Girard, Philadelphia banker, assumed an entire Government loan of \$5,000,000.

It is possible to leave Wake Island on January 21 and arrive at Midway Island on January 20.

Water occupies more space at 50 degrees below zero Fahrenheit than at 50 degrees above.

Dry ice is solidified carbon dioxide.

Ships sailing from the Atlantic to the Pacific Oceans via the Panama Canal travel from north to south.

The Cape of Good Hope is at the foot of South Africa.

UT Student From Winters Attended Press Convention

Billy Pumphrey, secretary-elect of the University of Texas undergraduate chapter of Sigma Delta Chi, attended the Region VIII Annual Conference and 31st Annual National Awards Banquet in Dallas May 10-12.

The City Club on the twenty-seventh floor of the Adolphus Tower was the scene of a cocktail party for members of the professional journalistic society Friday night. Winners of Sigma Delta Chi National Awards told the histories of their award-winning stories at conferences on Saturday and members were guests of the Chilli Appreciation Society of America for lunch Saturday.

The Annual National Awards Banquet was held at the Statler Hilton Hotel, convention headquarters, Saturday night. Dr. Harry H. Ransom, Chancellor of the University of Texas, was speaker for the banquet.

A champagne breakfast was held in the Empire Room of the Statler Hilton for members of the Texas Association of SDX Sunday morning.

While in Dallas, Pumphrey also interviewed Oscar Griffin, former editor of the Pecos Independent and 1963 Pulitzer winner, who is credited with the expose of the Billie Sol Estes scandal. Griffin is a 1958 graduate of the School of Journalism at the University.

Other members of the chapter attending the convention were Dr. C. Richard King, faculty adviser; James Seymour, vice-president elect; and Bill Barnes, president.

A meter is 3.37 inches longer than a yard.

Norton FHA Named Officers For Next School Year

The Norton Rural High School chapter of the Future Homemakers of America elected officers for the 1963-64 school year, in a meeting May 7.

Shara Bryan will be president of the organization, and Ona Mae Lee, vice president.

Other officers include Sallye Harris, secretary; Doris Bahlman, treasurer; Pat Stockton, parliamentarian; Flo Horton, reporter; Sandra Hurt, historian; Wanda Ray, public relations chairman.

The program chairman, Kay Bahlman, led a spiritual program. Participating were Becky Hilliard and Anna Gottschalk.

Norton Students Observed Western Day April 30

Students of Norton Rural High School observed Western Day, April 30.

One group of the high school, the eighth grade girls, were entertained with a weiner roast in the Bronco Park. Attending were 23 students and parents, Mrs. Wayne Bryan, Mrs. LeRoy Stockton, and Mrs. Harley Hilliard.

Sponsor and Club Mother Hostesses To Sub Deb Members

Farewell speeches were given by the seniors and the sponsors when the Sub Deb club met Monday evening in the home of Mr. and Mrs. Dub Davis with the sponsors and club mother serving as hostesses.

Ginger Gardner, president of the club, presided for the meeting.

New officers for the new year which begins in September will be president, Judy A. Smith; vice-president, Karen Knapp; secretary-treasurer, Judy Kettler; corresponding secretary, Deanne Kozelsky; reporter, Judy Williams; historian, Susan Roberts; parliamentarian, Sherry Kay Stanford;

Refreshments were served to: Merre, Yvonne Pierce, Bernice, Becky Brown, Brenda Parrish, Doris Helm, Lynn Mitchell, Kathryn Matthews, Kathryn club sponsors, Mrs. Russell and Mrs. David

Home Thurs.

The Fireman's Auxiliary met Thursday evening in the home of Mrs. J. B. Whitlow.

Mrs. Buford Baldwin as hostess with Mrs. Whitlow.

Norman, gave an interesting talk on "Is It Really Him? Make a Will?"

President, Mrs. Bobby Hatfield presided for the business

Refreshments were served to the Hatcher, Jack Harrison, Moore, August Spill, J. C. Wilkerson, Edw. Brooks, Carson East, G. Hodnett, W. D. Waggoner and Mr. Norman.

THANKS

I want to express our grateful and sincere thanks to each and every act of sympathy and love shown to me and my mother and grand-mother who brought food, flowers and cards to the memorial contribution and organist and Dr. Rives and the nurses at the hospital and the mortuary may you for every kindness.

Mrs. A. L. Roper and Billy Joe Emmert and family. 1tp

CARD OF THANKS

To the neighbors and friends who were so kind when I received injuries in a car accident near Hatchell, my family joins me in saying thanks for all your kindness. For the cards, flowers, telephone calls and especially those who visited during my stay in the hospital and since I have returned home, to Dr. Rives and the nurses, we extend a heartfelt thanks and deep appreciation to each of you.

Billy Joe Emmert and family. 1tp

Channel cats are the only fish of the catfish tribe to be considered truly game fish by Texas anglers. They rate on a par with white bass and crappie, and just below the lordly black bass. More pugnacious than crappie, they equal white bass as scrappers and measure only a few notches below black bass when it comes to putting up a fight. Also, they are the only cats to consistently strike on plugs and spoons.

Channel cats go by many names—mostly according to geography. Besides their ritzy Latin Moniker, *Ictalurus lacustris punctatus*, they

found in almost all Texas lakes and rivers, though in somewhat smaller sizes than the Mississippi River variety.

You might say that the channel cat is the blue cat's little brother. Where the blue cat sometimes reaches 50 or 75 pounds in weight, the world record channel cat only tipped the scales at 37 pounds. A five pound channel cat is considered good size. Two or three pounds are most common, and make better eating.

So alike are the channel and blue cats that they often are mistaken for each other. Both are slim shaped with rather narrow heads and forked tails.

You can distinguish the species by the shape and structure of the anal fins. In channel cats the outer edge of this fin is rounded and has 15 to 20 rays. Blue cats have 31 to 33 rays in a straight anal fin. Also, the coloring is different in the two fish. Where channel cats are a darkish blue, or muddy green on the back, going into whites on the sides and stomach, the blues are a much clearer blue on top and more striking white underneath. Channels under five pounds also have dark spots along their sides. These spots tend to disappear when the fish grows beyond five pounds.

Nesting habits of channel cats are similar to those of most fish. Nests are laid in bank hollows or in other secluded spots such as under-water brush, sunken logs and stumps. Spawning usually in May but sometimes earlier or later, depending upon water temperature. Like humans, the menfolks generally mind the youngsters and do most of the housework, after the eggs are hatched. The 1,000 to 7,000 eggs laid are each about the size of a buckshot. They stick to the nest in a gold-colored, jelly-like lump. It takes about seven days for these eggs to hatch, which job the old man tends to, hovering over and fanning them with his tail, always alert to chase away predators.

Small fry stay in the nest about a week under daddy's care before going out into the wide, cruel world—usually followed by the old man for several days who sees they aren't gobbled up.

Channel cats, like the other cats, eat just about everything when they are hungry. The young feed on insects, insect larvae, and other such light diet. The adults go for crawfish, dead fish, small animals such as mice, worms, or anything else that drifts by, providing it has a strong odor.

During daylight hours channel cats snoop at sheltered spots such as deep holes, over-hanging moles and under-water brush, so dark they move out into the open and shallow water.

Almost any method of fishing will catch channel cats, but the most effective is the old-fashioned pole and line. Then there are drop lines and... stretched across channels, also what is known as a bank pole. The bank pole is a variation of the drop line, made by attaching a 1/2 inch hook to a 3-foot main line, and a 1/2 inch hook to a 3-foot main line. Push out of pole into water and sink. The live bait will move and jump just below the water surface.

Worms make good channel cat bait—either live or another kind of slightly moist bait. "Crawfish," all sorts of sinkers, chicken guts, cheese and many other make excellent bait. Catfishes, trout and four fingered with enough water to turn a rough mud ball is a sure bet channel cat bait is good at any time.

Channel cats are lower healthy fish, almost free of parasites. They show no noticeable appetite and can live a longer any kind of water, even where other fish will die. In north channel cats show up in season in spring after winter when it is cold all winter. Just in the fall or winter, channel cats are in the lake.

Channel cats make great game

ORIENTAL SPRING—If this flowing silk chifon is any indication, it's going to be an oriental spring in the fashion world. Imported by an Allentown, Pa., retailer, the fashion is topped with a novel black geisha-girl wig.

UPSET—Stefani Lancour, right, has no explanation for the cause of her twin brother Kevin's wailing. It might have been something he saw in the Salinas, Calif., birth index.

When snagged in shallow water they often leap out of the water like bass in an attempt to throw the hook. Interspersing these jumps, they take long, glissade runs into deep water.

And man, oh man, there is nothing better to eat than a meal of our unstoppages and tried channel catfish. The meat is flaky, juicy, and white—a prime favorite in Texas and other southern states. As a warm water fish, channel cats can't be beat... whether on the end of your line or on the dinner table afterward.

The largest hair-stones ever measured in the USA weighed 1 1/2 pounds, was 17 inches in circumference is the time for all good men to lendence and almost 5 1/2 inches in diameter.

Welfare Programs To Add Many To Federal Payrolls

By Congressman O. C. Fisher

Thus far this season there has been a surprising amount of support from Dixie for New Frontier legislative programs. This has given rise to speculation by observers as to how far this trend will go. Several major bills, calling for expenditures of billions, remain to be acted upon. These include medicare, federal aid to education, aid for mass transportation, and a multitude of welfare proposals.

With substantial southern support the Senate has already passed the transportation bill, designed to improve facilities for moving people by mass transportation means—whether railroad commuter, rapid transit or motor buses—in order to relieve mounting traffic congestion in urban areas. This in a \$500 million Federal project, and includes both grants and loans to the big cities.

Actually, transportation problems are essentially local in nature and should be no business of the federal government. San Francisco, for example, only last year approved a \$792 million bond issue to finance an entirely new transit system without outside help. Los Angeles has a plan now to help solve its transit problem by local financing. Many other cities are doing the same. But there is considerable political appeal involved in having Uncle Sam send checks

to the big cities that would spend their local tax money for other purposes.

The House has not yet been expected to pass one in the near future. The pressure for mass transit aid comes from New Jersey and Connecticut.

The Senate, with southern help, recently passed a depression-type civil service corps, and is now act upon a domestic peace and two or three other measures, all designed to help more people on the roll.

In the House, the New Frontier measure has been approved thus far by a 450 million WPA spending finance local spending around over the country. Many of them with their districts, voted for the measure.

Washington is now known as the "Nation's Problems" which is handled by City Commissioners, Congressmen, and in Washington seems to be an answer. Non-defense spending jumped 27 per cent during three years, and this is due to increase at a green light. "The federal government," says the President, "is the budget people, and the budget of their need."

Martha Washington, wife of President George Washington, was previously married to Dr. Curtis.

WINTERS NEWS

of immortality gives pass on to future. The mass transfer in New Mexico were held Monday at the Spill Memorial for Mrs. Lawson who passed away recently at the home of her daughter at Abilene. She was resident of the Moro survivors besides her daughters, Mrs. J. T. (Jeckel) Herron of Abilene, Fresno, Calif., Mrs. B. F. (Pau) of Anson, Mrs. Rex of Olney; 21 great-grandchildren, Jack Turner of

sons of San Angelo. Rev. Lasater sang He Reached Down His Hand For Me. Rev. Lasater accompanied himself on the piano. He also delivered the night message and sang the special for the services—Give the World a Smile today. Mrs. Kenneth Wright also attended the night services.

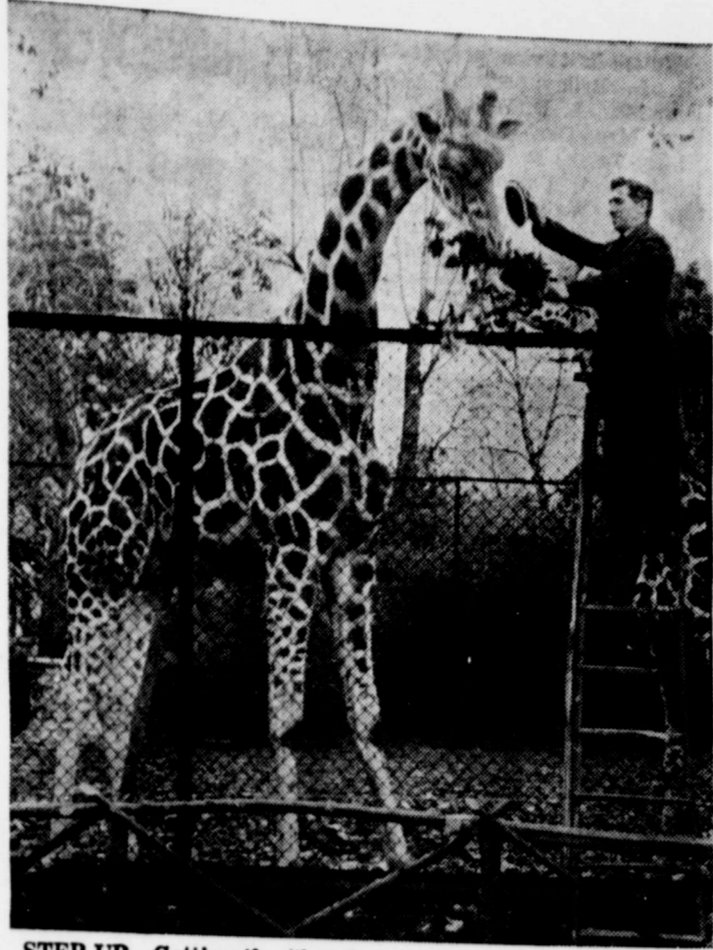

Attending the morning services at the Drasco Baptist Church were Mr. and Mrs. Elvin Hill and son of Albany, Dwayne Anderson, Avey Justis and Clifford Lewis of Abilene. The beginners of the Sunday School, under the direction of their teacher, Mrs. Robert Conner, gave a Mother's Day program before the night church services.

Rev. and Mrs. Virgil Barnes and three children of Abilene attended the Sunday services at the Moro Baptist Church. Virgil delivered the morning and night messages. For the morning special Mrs. Calwyn Walters and Clyde Reid sang If I Could Hear My Mother Pray Again, with Mrs. J. W. Allmand at the piano. For the night special Mr. and Mrs. Calwyn Walters sang Kneel At The Cross. Calwyn accompanied on the guitar.

Thursday of last week Mrs. M. L. Dobbins, Mrs. Elmo Mayhew and Frances Stricklin of Drasco attended a WSCS meeting with several other ladies from the First Methodist Church Winters, at the Santa Anna Methodist Church. The memory selection for next Sunday's International Sunday School Lesson is: Then they cried to the Lord in their trouble, and He delivered them from their distress.—Psalms 107:6. The following is by George F. Weyand—Sometimes God removed our troubles. But we need to remind ourselves that the Christian faith never promises a trouble-free life. It does promise that we shall find strength adequate to the task if we cry unto the Lord.

Paul prayed to be rid of his thorn in the flesh. It was not removed. Yet he received God's promise which enabled him to live victoriously: "My grace is sufficient for thee." So be it unto us also!

Special days next week are for: Gail Harber the 19th; Jean Mostad the 20th; Mark Abbott the 21st;

STEP UP—Getting the "brush off" is a giraffe in the Rome Zoo. Giraffe, on the other hand, finds it hard not to "look down" at zoo employe, who is a mere human.

Mickey Browne, Mrs. Adron Hale, Dub McMillon and a wedding anniversary for Mr. and Mrs. O. R. Faircloth the 22nd; Bud Harrison and Gary Aldridge the 23rd; Mrs. Joe Bryan the 24th; Mrs. Lee Little, Robert Meno Hunt and Nora Ann Cornelius the 25th.

Mrs. Calwyn Walter of Moro was hostess to a birthday party for their son, Donald Ray at their home Tuesday of last week. Donald Ray was one year old. Present were Mrs. Bud Hicks and Gary of Abilene, Mrs. Russell Grun, Marcy and Dwayne, Mrs. J. W. Allmand and James Wayne of Ovalo, Mrs. J. D. Harrison and Judy of Bradshaw and Mrs. E. J. Reid. Cake and punch were served.

Saturday night the home of Mr. and Mrs. Malcolm Holliday was the scene of a party honoring the Jim Ned High School Seniors and their invited guests. Mrs. Dock Aldridge assisted Mrs. Holliday with party arrangements. Red and White, the Jim Ned School colors, were used in the party decorations.
