City Council Turns Thumbs Down On Plan To Ask County For Money For Hospitals

The Winters City Council Tuesday night went on record as being opposed to any plan to seek money from the county in the form of a subsidy to support the Winters Municipal Hospital, or any other hospital in the county.

A group had approached city officials with a proposal that the Winters City Council work with the board of directors of the Ballinger Hospital in an effort to obtain money from Runnels County to pay accounts which cannot be collected by the two hospitals. It was suggested that the two hospitals ask the county to consider payment of "actual costs" to the hospitals.

In turning down the proposal, members of the Council expressed the fear that if such requests were granted by the county commissioners, and the county assumed the responsibility for uncollectable accounts, the door would be open to final control of the hospitals by the county. Some of the council members pointed out that "if we ask the county to pick up the tab on patient accounts which we consider uncollectable now, it would not be long until both hospitals would be turning over to the county their entire account lists, expecting that county taxpayers foot the bill."

The Winters Hospital is a municipal project, tax supported. The new Ballinger hospital was built partly with funds from the Federal government and partly from public subscription funds.

Social Security Is Becoming Source of Big County Income

Old age, survivors and disability insurance benefits are becoming increasingly important as a community resource, according to Floyd B. Ellington, district manager of the San Angelo office of the Social Security Administration.

A total of \$100,508 is being paid monthly in social security benefits in Runnels County, it was reported. This is an increase of about ten percent over last year's figures. While the benefits are intended primarily for the beneficiaries' economic security, they help business in the community generally, the SS representative said. Most of the money is spent immediately for food, clothing and other necessities.

At the present time, social security benefits are being paid at a rate of over one billion dollars a month. "There are several reasons for the increase," Ellington said. There are more aged people; benefits are now payable at age 62; and less social security credit is needed to meet the eligibility requirements for benefits.

The average old age benefit nationally for December 1962 was \$76.20 for a retired worker. In the state of Texas, the average was \$68.50.

Following are the number and amount of each type of benefit being paid in Runnels County, as of Dec. 31, 1962, the date of the latest available tabulation:

Retired workers, 999, \$63,434;
 wife or husband, 408, \$12,596;
 widow or widower, 164, \$8,563;
 mothers and children, 258, \$12,087;
 disabled workers and dependents, 59, \$3,828.

Winters Library Fund Campaign Reaches \$9482; Building Will Be Purchased Soon

Contributions amounting to \$150 have been received by the Winters Library fund during the last week, bringing the total amount contributed during the three-week campaign to \$9482.50, it was announced this week.

This amount is \$3482.50 more than the purchase price of the building, for which the drive was held. The remaining amount will be used to purchase equipment, books and other needed supplies, and for operation expenses.

The Rev. E. H. Graham, one of the fund campaign committees, said that final negotiations to purchase the building will begin immediately. The building to be purchased for use of the library is the former West Texas Utilities Co. office on North Main Street, and is owned by WTU.

Committee members said that within two weeks, work should begin on repairing and repainting the building for library use. Plaster on the front of the building will be repaired, inside walls will be refinished and repainted, and floors will be repainted. All this will be done prior to moving the library cases and other equipment in.

A library sign is being built and contributed by Sparkle-Lite Co., and a plastic finish for the floor has been donated, it was reported.

Some of the old shelving now in use in the present library building will be used, it was said, until the

A picnic will be given at the City Park June 14, at 11 o'clock.

Action On New Bank Application Is Expected Soon

Organization of a new bank in Winters hinges on a decision by the Comptroller of Currency in Washington, and word should be received in about two weeks. This according to Norman Dunn, Dallas, chief national bank examiner for this area.

The application for the new bank was sent from Dunn's office to the Comptroller on Tuesday of this week. Decision on whether or not to grant the bank charter now lies in the hands of the comptroller.

The application for the new national bank was made in March by eight residents of this area.

Application calls for a bank with \$125,000 capital stock, \$125,000 surplus, and a reserve fund of \$75,000.

Those signing the application were M. E. Mathis, Floyd Sims, O. B. Raper, J. P. Davidson, Earl Burnes, George W. Poe and Walter Adams, all of Winters, and Bob Bush of Abilene.

The application asks that the name of the institution be either the First National Bank, the National Bank of Winters, or the First Winters National Bank.

TO SUMMER SCHOOL
 Billy Lynn Little returned Monday to Texas University where he assisted in freshmen orientation as an advisor. He and his brother, Harvey Edward will attend summer school at the University. Harvey, in addition to attending law school, is a member of the sports staff of the Austin American.

17th Rodeo Only Two Weeks Away

Workers Needed To Get Rodeo Arena Ready

Help is needed to prepare the rodeo arena, stock pens and to make other preparations for the Winters 17th Annual Rodeo, Ralph Lloyd, of the grounds committee, said this week.

The rodeo is scheduled for June 20, 21 and 22, and only a few more days remain in which to get the work done, Lloyd said.

He called for volunteers to come to the rodeo arena Friday evening, to help shape up the area for the big show.

Little League Team Positions, Schedule

Two Little League baseball teams, the yankees and the Jets, after having dropped one game apiece early in the season, now are neck-and-neck for the leading spot in the Winters league. Each team has won four and lost one.

Close contenders are the Dodgers, with a 4-2 record. The Dodgers were listed as ahead of the pack two weeks ago in the first season standing report.

In the minor league, the Pirates and Wingate lead with 4-1 records.

School Children In Summer Group Reading At Library

About 76 children have enrolled in the summer reading program of the Winters Public Library. The program is sponsored by the Texas State Library Association and began June 1, and will continue through Aug. 31.

Miss Myra Glover, Winters librarian, said she hopes the children will have their reports in by the middle of August and she will have a special program then to award certificates.

A series of book reviews will begin on Thursday, July 13, for students of the fourth through the seventh grades. Mrs. Merle Frazier, Winters High School librarian will give the reviews.

New hours for the Winters library are Wednesday, Friday and Saturday from 2 to 6 p. m.

IN SADBERRY HOME

Mr. and Mrs. Weldon Sudberry of Midland and their son, Tom Sudberry, junior student at Rice University in Houston and Miss Carol Howell, sophomore at Rice were weekend visitors in the home of Mrs. W. T. Sudberry. Visitors Sunday with Mrs. Sudberry were her sister, Mrs. Ray Saunders and Mr. Saunders of Abilene.

Only two weeks remain before the opening of the three-day 17th Annual Winters Rodeo, and members of the Roundup Association, sponsors of the event, are working feverishly to have the grounds ready and all other preliminaries out of the way before the big show.

The rodeo, publicized as one of the biggest open shows of its kind in this area, will run three nights, with the first performance Thursday, June 20.

Two big parades have been planned to lend atmosphere and create a real old fashioned western feeling to performers and fans alike. The first parade has been scheduled for 4 p. m. Thursday, June 20, with the second Saturday, June 22. Riding clubs throughout this section of West Central Texas have been invited to participate in the parades, as well as take part in the grand entry at the rodeo arena on the nights of the big show.

Another big feature, to help publicize the rodeo and to create additional competition among horse owners and riding clubs, is being discussed. The Roundup Association is contemplating the promotion of a Pony Express Ride, to originate at the old Blue Gap Post Office 16 miles east of town, and end in the rodeo arena. Members of the committee in charge of the rodeo are discussing the possibilities of such a feature.

C. T. Parker, Runnels County agriculture agent, again will be the official announcer for the show. Parker has announced for rodeos throughout the area, and has been official announcer for certain segments of the Fort Worth Livestock Exposition.

A new clown act, featuring John Temple of Cleburne, and Keith Anderson of Fort Worth, has been booked for the 17th annual three-day rodeo.

Adrian Parker of St. Jo will produce this year's show. He also is producer of the Texas Cowboy Reunion at Stamford this year, and has produced that show for a number of years.

Judges Chosen For 17th Annual Winters Rodeo

Judges for all contests in Winters' 17th Annual Rodeo, slated for June 20, 21 and 22, have been named, it was announced this week.

Bobby Wedeking of Stamford, and Whitey Welch of Truscott will be the two judges for the rodeo events.

In many shows in the past, it was explained, the judges were furnished by the producer of the show. This year, the Rodeo Association, sponsors and promoters of the rodeo, decided to employ the judges.

Two new events—so far as the Winters Rodeo is concerned—have been added to the list of competitive events. A wild mare race, in which three riders are turned out of the shoots on bucking horses simultaneously, will be a new event for Winters. Also, a money bull event, in which money is tied to a wild bull and the animal turned loose in the arena to be caught by competing cowboys. The cowboy getting the money is the winner; if no one gets the money, more will be added for the second and third nights of the three performances.

In addition, the usual bull riding, bareback bronc riding, calf roping, calf scramble and girls' cloverleaf race will fill the entertainment bill for all three performances.

WHS Homemaking Dept. Offers Adult Knitting Class

Winters Homemaking Department will offer an adult class in knitting during the month of June, it has been announced by Mrs. Cecil Hambricht, homemaking instructor.

The first class will meet in the homemaking building Monday morning June 10, at 9:30 o'clock. Any adult interested is invited to attend.

For more information contact, Mrs. Hambricht.

Mrs. W. R. Hord Died In Winters Friday Morning

Mrs. W. R. Hord, 91, resident of this section of Runnels County for 60 years, died Friday morning at 6:25 o'clock following a seven week illness. She had been hospitalized the past three weeks.

Funeral services were held Saturday afternoon at 3 o'clock in the Spill Memorial Chapel, with W. D. Ramsey and the Rev. B. T. Shoemaker, officiating. Burial was in Fairview Cemetery.

Native of Louisiana, Mrs. Hord was born Josephin Tarzan Smiley on February 10, 1872 at Shreveport. As a small child she came with her parents to Texas settling at Elmott near Waco. It was there that she married W. R. Hord on January 12, 1893.

The couple continued to live at Elmott until 1903, when they came to West Texas in a covered wagon, locating in Runnels County. They established a home between Wingate and Winters where she had lived for the past 60 years.

She was a member of the Primitive Baptist Church having united with that church when she was a child and for many years held membership in the Wingate Primitive Baptist Church.

Mr. Hord died in 1941 and a son also preceded her in death.

Survivors are seven sons and three daughters. They are W. M.; T. W.; L. B.; R. H.; John and Wesley Hord all of Winters and Joe Hord of Comanche; Mrs. W. B. Reeves and Mrs. Lucy Nitsch both of Winters and Mrs. T. O. Williams of Ballinger; 39 grand-

children and 47 great grandchildren. Pallbearers were Paulson, Homer Ford, Emery, Homer Stoecker, Wilkerson and Sol Nicksa.

Prognosticators In Austin Are That Governor Connally Will Call Fall Special Session

But the Speaker stated he was well satisfied with the budget passed by the Legislature. He said, "They apparently did what they thought was right, and I for one will stand behind them."

"The 58th Legislature met its challenge and did its work," Tunnell said proudly.

There were many times during the 58th session when the Speaker and the House seemed at odds. But when the session ended most House members agreed that Tunnell had been a good referee.

"I have never asked anything but the right to take my position and give another man the same right," Tunnell stated when the bustle of the 58th dissolved into post-session silence.

"That is what I really like about the House: There is such a mixture of philosophies, ranging from liberals like Bob Eckhardt to mine. Somewhere in between may be where the answer lies."

INSTANT RAILROAD COMMISSIONER

Many nice things have been said about Jim C. Langdon since Governor Connally appointed him to the Railroad Commission to replace Bill Murray. One thing for sure, he adapts to changes easily.

In two short hours, Langdon resigned as chief justice of the El Paso Court of Civil Appeals; withdrew from the race for the State Supreme Court place which Judge Frank Culver of Fort Worth is expected to leave; was sworn in as Railroad Commissioner; announced as a candidate for re-elect in 1964; and went right to work.

Then he and Commissioner Ben Ramsey made the announcement the oil and gas industry was waiting for—a 28 per cent allowable for June.

GOVERNOR'S CHOICE

Langdon's appointment was the third he has received during three administrations.

Gov. Allan Shivers appointed him 112th District Judge in 1954. He was elected to that bench twice. Then Gov. Price Daniel appointed him Chief Justice of the El Paso Court in 1959. This post he resigned to accept Governor Connally's appointment.

BILLS VERSUS LAWS

A quick tabulation of the results of five months of labor by the 181 members of the 58th Legislature reveals that only about 31 per cent of the bills passed both House and Senate, to become laws.

A total of 1,723 bills were introduced. Of these, 543 were passed to law. Most of the weeding-out

was done by committees. They reported as favorable only 786 bills as compared with 906 in 1961.

SUPREME COURT BACKS COMMISSION

State Supreme Court upheld the Railroad Commission's right to authorize an operator in a particular oil field to conduct a survey of another operator's well to determine if it were illegally slanted.

Case at bar was L. & G Oil Company (headed by H. G. Lewis Jr. of Kilgore) versus the Railroad Commission et al.

L. & G charged that a Railroad Commission order permitting Tidewater Oil Company to authorize Sperry-Sun Surveying Company to run a slant-hole survey on an L. & G well in the East Texas field was illegal.

The 126 District Court in Austin had supported the Railroad Commission's order.

But while the Supreme Court affirmed the right to give the order, it said it was improperly worded and sent the case back to the trial court.

Two members of the high court, however—Associate Justices Meade F. Griffin and Joe Greenhill—disagreed with their colleagues.

"To allow a citizen or corporation—a potential foe in litigation—to go upon and take notice of another's property without even so much as an opportunity to be heard, is a clear violation of the due process clause of the Texas

and Federal constitutions," they stated.

DATE MIX-UP

On or about August 1, Secretary of State Crawford Martin has to start publishing proposed amendments to the constitution that will be up for a vote in a special election on Saturday, November 9.

Martin checked out the first three amendments scheduled for the ballot: One to decide whether to abolish the poll tax; one asking whether to extend the Veterans' Land Program and increase bonds; and one asking voters whether the state should increase from \$54,000,000 to \$60,000,000 state funds that can be spent each year on federal-state assistance for old folks, children, the blind and disabled.

Then he came to a fourth—a proposed amendment to authorize a retirement and benefit program for Jefferson County drainage district employees. One clause referred to a November 9, 1963, election. Another set the election for November, 1964.

Martin couldn't decide which date was right, so he referred the matter to Attorney General Waggoner Carr.

FORMER SPEAKER LANDS JOB

James A. Turman of Gober, former speaker of the House who ran for lieutenant-governor in 1962 and was defeated by Preston Smith of Lubbock, was around Austin for a long time after his

term as speaker ended on January 7.

Many political potentates predicted he would be named Secretary of State—he wasn't. Then they said he would head Governor Connally's proposed Commission on Excellence in Higher Education, but that bill didn't pass.

Turman came out fine in the long run. Last week, he joined the U. S. Office of Education in Washington, D. C., as a Special Consultant-Expert to the Commissioner of Education.

Turman once was assistant to the president of Texas Woman's University in Denton.

STOCKS SALES GRANTED

State Securities Commissioner William M. King announced a sharp rise in the number of companies registering stocks with his board in April.

Sixty-three companies—21 Texas firms included—were granted permits to issue \$22,634,384 worth of securities in the state.

HIGHWAY CONTRACTS RECORD SET

A \$5,100,000 contract for construction of a 12-mile stretch of Interstate Highway 20 in Kaufman County broke all records for the State Highway Department.

Contract was one of 64, representing \$33,000,000 worth of road improvements, let by the State Highway Commission on May 27.

Vacations go smoother in a Chevrolet Corvair

Bring on those mountains! They're not so high and mighty when you've got Corvair's gummy six and rear-engine traction working on them.

You scurry up the meanest grades. You move with sure-footed agility on wet pavement, muddy lanes, gravel and other would-be miseries.

And with most of Corvair's weight on the rear wheels, you have easy steering, too. Fact is, the handling's so light and responsive we don't even offer power steering for the car.

And there's more to feel good about. No problems with your radiator boiling over or going dry, because there's no radiator. Corvair's engine is air cooled. No concern about brake adjustments, either, because the brakes adjust themselves. Nothing much to think about at all except the good time you're having.

Like to do that in a sporty bucket-seated Monza Club Coupe or Convertible? Like to spring into summer with a 4-speed stick shift* and Spyder package* with its 150-hp Turbocharged engine? Your dealer's got just the Corvair and the Trade 'N' Travel deal on it to put you in a holiday mood.

TIPS FOR OUTDOORSMEN

by Vern Sanford

Each year many Texans, and others too, like to visit the Big Bend National Park in West Texas. An even greater number will go there this year because more facilities now are available and there are new roads.

One road goes into the mysterious Santa Elena Canyon of the Rio Grande. Another Basin Road ties the canyon into the little town of Presidio, another gateway into Mexico.

Big Bend National Park is a mighty expanse, covering more than 700,000 acres of mountains and deserts. Altitude ranges from 2,000 to nearly 8,000 feet in rugged peaks.

It is touched for more than 100 miles by the Rio Grande River. Just across the river is Mexico, the land of manana.

Although there is considerable snow in the Big Bend Park in the winter, it is even more picturesque in the spring. Then the whole desert explodes with beautiful blooming cacti.

May is the month when wild flowers are in greatest profusion. Then too the weather is not too steaming for comfortable travel or for exploration among the wilds of the vast area.

You approach Big Bend National Park across a desert, with rugged mountains in the background. Nature hasn't been too kind to this country. In fact it frequently is referred to as Creation's scrap pile because of the deep arroyos, exposed colored layers of clay and rock and the mountains pining skyward.

The Rio Grande River makes three tremendous cusps or gorges as it meanders between the two countries. These curvatures, some of them more than 1,000 feet straight up, represent the erosion of centuries.

Big Bend National Park is reached over U. S. Highway 90, which links San Antonio and El Paso. It is 416 miles from San Antonio, 222 miles from El Paso.

Alpine is the nearest town of any size, and it is 81 miles away. Marathon is the southern entrance to the park, a distance of 39 miles from the highway to the park entrance near Permian Gap, and 76 miles from the park headquarters.

CALL FOR BIDS Postmaster: Harlin Park has been authorized to advertise for sealed bids until 2:00 p. m. Friday, June 14th, 1962, to furnish a suitable vehicle for an hourly rate contract lease. The vehicle will be used about two hours daily, six days a week, for the delivery of parcel post and express. A panel truck or station wagon with body capacity of 150 cu. ft. is required.

Samuel Colt invented the revolver in 1835.

Control Flies Before They Become Problem

A constant summer problem of every dairy farmer is the control of flies. This problem can best be solved by eliminating the places where flies breed, says Shannon Carpenter, area dairy specialist with the Texas Agricultural Extension Service.

For example, barnyard manure should be spread every three or four days to prevent flies from breeding in it. Manure can be stored in compost piles if it is treated chemically with equal parts of calcium cyanamid and superphosphate at the rate of one pound per bushel of manure, Carpenter explains.

If flies do become a problem, chemicals can be used to kill them. Dairy barns can be sprayed with five percent methoxychlor or two and one-half percent solutions of malathion as often as needed, the specialist says. Care must be taken that these materials are not used in the milk room and that they do not contaminate feed and water. When used as recommended by the manufacturer, fly baits containing malathion or dipterex are safe to use in the barn, he adds.

Cows in milk may be treated by dusting them with methoxychlor or malathion. One tablespoon of 50 percent methoxychlor or two ounces of five percent malathion sprinkled along the neck and back of each animal will protect it for about three weeks. However, Carpenter warns that these materials should be applied at least five hours before milking and animals should not be dusted in the milking barn. He also emphasizes that these chemicals should not be sprayed on the cows.

New Telephone Directories In The Mail Now

New telephone directories for Winters have been mailed according to A. J. Lacy, division manager for The Southwestern States Telephone Company. One directory is provided for each of the 1,430 telephones in service here.

On the cover of the new books is a drawing of 4 flags representing the states in which we operate. The cover is gray in color. The new directory has 8 pages of alphabetical listings and 24 pages of yellow listings, compared to 8 pages in the alphabetical section last year and 28 yellow pages.

The first name in the new directory is A-1 Motel on the Ballinger Highway while the last name in the book is Mike F. Zuniga at 505 Wood St.

Telephone Company officials advise that all subscribers should discard their old books after receiving the new directories because some numbers in the old directory have been changed.

Wheat Harvest Half Finished In This Area

The wheat harvest in the immediate Winters area is about half over, it was estimated Wednesday.

Up to Tuesday night, 48 carloads of 1963 wheat had been shipped from Winters by rail, according to J. C. Jarrell, local agent for the railroad. In addition, several carloads have been trucked out of Winters, it was reported.

If good weather holds out, most sources expected the harvest of the 1963 crop to be completed within a few days.

"The Mighty Crusaders"
The "Mighty Crusaders" and all their breathtaking adventures will come alive on the Super Cinemascope screen when the Falcon production in glittering color showing at the State Theatre, Saturday and Sunday.

This is the story of the men who "took the Cross" more than eight hundred years ago to fight against the Saracens in the Holy Land. Having taken a vow to strike a blow to win back from the Turks the Holy Sepulchre, they embarked on a long and hard journey only to face a hard and seasoned enemy. This is the setting for one of the most unique, dazzling and adventurous motion picture spectacles ever to reach the modern screen.

"Follow the Boys."
In U. S. Navy terms, "seaguils" are the wives and sweethearts who follow the officers and men of the fleet whenever and wherever they can.

It is a group of these seaguils, as personified by Connie Francis, Paula Prentiss, Dany Robin and Janis Paige, whose adventures, romantic and otherwise, are depicted with hilarious consequences in Metro-Goldwyn-Mayer's engaging girl-pursues-man comedy, "Follow the Boys." Showing now through Saturday night at the

Fiesta Drive-In Theatre.
There is a plethora of entertainment in this delightful picture. It was filmed in Panavision and color on beautiful locations on the French Riviera (with the U. S. Sixth Fleet anchored at Cannes as a prop) and in other picturesque spots in the south of France. It has Connie Francis following her hit in "Where the Boys Are" in another comedy part and singing four new songs especially written for her. It has amusing dialogue and situations as the feminine quartet chase after their male prey in a pink, broken-down, two-horse-power car called "Annabelle" which runs away and lands them in an irate French farmer's haystack!

"Sodom and Gomorrah"
Bringing to the widescreen in De Luxe color the rich Biblical drama of the world's most notorious kingdom of sin and sacrilege, "Sodom and Gomorrah" is set to show Sunday through Wednesday at the Fiesta Drive-In Theatre. This lavish multi-million dollar picture is a Titanus production which 20th Century-Fox is releasing.

In the film, Stewart Granger stars as Lot, who leads the Hebrews into the Valley of the Jordan and into Sodom; Pier Angeli plays Ildith, Lot's wife who

FAY DAY—Fay Day reaches for his pay with one arm while Richard Faust gives him a bonus of a ship in the other. "Suzius" was given at Heilbronn, West Germany.

Connie Francis and Paula Prentiss, having crashed their car on a farmer's property, are put to work to help pay for the damage in this scene from Metro-Goldwyn-Mayer's "Follow the Boys." Also playing leading roles in the

turns into a pillar of salt. Stanley Baker portrays Abraham, Prince of Sheah, Lot's suzerain and Anouk Aimée is Sara, the priestess-mad Queen of Sodom.
A startling lesson of reality was gained by more than 300 crew on location in Morocco and in six months required to film this spectacular production. The city of Sodom, as seen in the picture, is actually a familiar desert village carved out of lava's some 400 years ago in the southern desert of the Atlas Mountains in Morocco. This was an extraordinary living setting, more out of the Old Testament than any other film, except for a covered walk built at the foot of the lava to serve as the entrance to Sodom.

LONE STAR AGRICULTURE

PROPER INSECT CONTROL
Killing crop insects is a job like a marriage proposal. A little thought beforehand may prevent a pack of grief afterwards.

Fortunately, farmers can learn from their previous errors in insect control and making the same mistake twice can usually be prevented. And the Texas Department of Agriculture entomologists are under pressure now for some quick answers to our pest problems.

The most common error is spraying the right chemical at the wrong time. Application of pesticides too early or too late in the season has two inevitable results—wasted money and an insect damaged crop. This error can be avoided by checking with your county agent or a Texas Department of Agriculture official—plus following the directions of correct application issued by the chemical company.

There are some insects against which current products on the market offer little defense. The pink bollworm must be controlled primarily by planting and plow up deadlines in Texas. Late planting cuts down the time for a destructive buildup of the bollworm population and a good, early cleanup of the stalks in the field destroys the winter nesting place.

The grasshopper is an annual visitor to Texas crops and can be dealt with effectively most of the time. But some seasons, he gets completely out of hand and emergency measures are necessary. The more we can learn about the causes of the rise and fall in numbers of the grasshopper, the better we can forecast and prevent these epidemics and the resultant damage. It is essential that our techniques of survey and identification be rapid, certain, and inexpensive.

This year, keep in touch with the federal and state agricultural people in your area when planning your insect control program. Their recommendations and advice may save you much time, money and effort.

Agriculture Dep't. Says Sugar Is In Plentiful Supply

"Sugar already on hand or committed to the United States for 1963 totals 500,000 tons more than last year's entire national consumption," reported Under Secretary of Agriculture Charles S. Murphy in comments made recently regarding the upswing in domestic sugar prices.

"These new commitments have been made within the past few days," he added, "and the speculative bubble in sugar is bound to burst in the face of this plentiful supply."

"Speculators may be able to keep the bubble going for a while, but not for very long," he declared.

At the same time, he warned that people who load up high priced sugar may sustain losses when the price goes down.

"Current Congressional hearing on the sugar situation," he said, "will show plentiful supplies and will help restore stability in the sugar market."

He noted that a relatively tight situation in world sugar supplies early this year created uncertainty in the market, and gave speculators a chance to bid up prices.

Bracero Program Due To End Last Of This Year

By Congressman O. C. Fisher

The Bracero Program, which has allowed 1.7 million Mexican farm hands to enter the U. S. under contract during the last five years, is due to end this year. The proposed extension of the 12-year-old program was defeated in the House last week by a 174-to-158 roll call vote.

While this action will not affect southwest Texas because the Secretary of Labor decided three years ago to discontinue the program in our area, it will create serious labor problems for many farmers, particularly in California, New Mexico and Arizona, where extreme labor shortages exist in the vegetable and fruit fields. All told, about a quarter of a million braceros are now being used in the lower Rio Grande valley, the Pecos-El Paso area, and in the other states.

Opposition to continuing the bracero program was spearheaded by CIO-AFL, whose farm union has big plans for unionizing all agricultural labor, and contends contracting of Mexican workers tends to interfere with the organizing drive. This group was aided by many uninformed and misinformed do-gooders, all of whom joined in a massive parade of ignorance about labor shortage problems in the affected areas.

Hank Brown, President of the Texas AFL-CIO, wrote each member of the Texas Delegation, urging us to vote against extending the law. He contended that if the law is continued it would deprive "thousands of unemployed American citizens" along the border of job opportunities.

I answered Mr. Brown by inviting him to send me a list of the names and addresses of the unemployed people in my district who are able and willing to work on ranches and farms at prevailing wages. I told him that if he would do that, I could then send that list to the many people who write me about local labor shortages. Needless to say, Mr. Brown did not bother to answer my request.

The Simple Fact is, that there is now and has been for years an extreme shortage of farm workers in the southwest. A sensible, workable bracero program is badly needed, if it could be administered by an agency that would in good faith recognize the problem and try to do something about it on a practical basis. No one wants labor imported into areas where there is an adequate number of domestic workers to meet the demands. In fact, the law prohibits that being done.

The impact this action may have in Mexico remains to be seen. On the one hand, the Administration

is plugging for an Alliance for Progress, costing hundreds of millions of dollars, but seems to take a dim view of providing this means of helping our neighbor to the south, without any cost to the American taxpayers.

Since the Labor Department has built up a bureaucracy for the enforcement of the bracero law, it will be interesting to see how many of the some 1,000 who have been hired to run the program will now be fired. I am requesting the Secretary of Labor to inform me what he plans to do about this surplus of manpower in his Department when the bracero program ends this year.

Among recent guests have been: Hon. Louis Gayer of San Angelo; Craig, Woodson, School Superintendent James D. King and Hon. J. Ed Johnson, all of Brownwood; Glenn Weatherman of Del Rio;

Mrs. Ralph Ivey of San Angelo; Mrs. J. J. Montgomery of Lometa; Mr. and Mrs. James Powell, Tom Wallace of San Angelo; the Brian Hunts of Sonora; Mr. and Mrs. Kenneth E. Smith of San Angelo; Hon. John Hughes, Mayor John Rudder, Jim Feazelle and Billy J. Neal, all of Brady.

LD Rates Reduced On Station To Station Calls

FROM CALIFORNIA

Mr. and Mrs. Royce Bridwell of Garden Grove, California is visiting in the home of his parents, Mr. and Mrs. M. T. Bridwell.

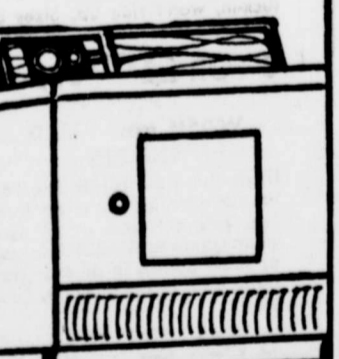

Reduced long distance telephone rates for most station-to-station calls between 9 p. m. and 4:30 a. m. within Texas will be introduced by Southwestern States Telephone on June 15. D. T. Strickland, vice president and general manager of the Company announced.

The new rates for a three-minute call will be scaled on a mileage basis beginning with station calls to points of a distance of 83 miles or greater. Reductions of up to 50 cents on the longest calls within Texas will result from the new schedule, Strickland pointed out.

Along with this reduction there will be a slight increase in most person-to-person calls within the state. This will amount to five cents on the basic person-to-person rates on most day and evening calls, the telephone official added.

Most other telephone companies in Texas will introduce similar rate changes the same date, Strickland said.

Goal Diggers Visit Sonora Caverns Enroute To Ft. Clark

Goal Digger Club left Wednesday, May 27, for a three day visit to Ft. Clark in Bracketville.

On the way to Ft. Clark a stop was made at Sonora Caverns. The 69-degree temperature enhanced the girls throughout the one mile trip. Stalagmites, stalactites, and helictites from pure white to shades of gray, faint greens and blues, pale rose, bright oranges, and deep browns were beautiful.

Upon arriving at Ft. Clark the girls were assigned to rooms on the top floor of Bullis Hall. Bicycles were rented by all of the girls Wednesday night.

Bright and early Thursday morning seven of the girls rode six miles on bicycles to view the "Old Indian Cemetery."

The pool's icy water was the topic of conversation Thursday afternoon as the girls swam in the enormous spring-fed pool.

A barbecue was held for the Jima Ni Fi and Goal Diggers Thursday night.

Alamo Village was the scene of activity for Friday. The covered wagon, army supply wagon, stage coach, buildings and everything else used in filming the movie "The Alamo" were at the girls' disposal. The player band and piano in the Cantina were heard as the girls waited for an old fashioned gun fight.

The girls left Saturday afternoon wishing they could stay longer.

Attending were Betty Shoemaker, Judy Matthews, Doris Rice, Yvonne Pierce, Brenda Parrish, Zanette Moore, Lynn Mitchell, Judy Hogan, Carolyn Helm, Kathryn Clark, Becky Brown, Russell Bedford, Elaine Beard, Ann Bean, Barbara Baldwin and sponsors, Mrs. Bill Bean and Mrs. David Carroll.

A slab of bacon sent to California from a Texan, was surely a nine-day wonder. Of course this was during the meat shortage.

Ed Ainsworth received a slab of bacon from his sister in Texas. He then wrote her a letter which goes something like this: "I thought at first the slab was a tombstone, but when I saw 9 employees drooling over it, I knew it was a hunk of bacon. I've already had three offers for it, two from museums and one from a side show. We may even charge admission, then someday when I have calmed down a little and have got myself under control so I don't gobble and choke to death, I am going to eat a slice of it. Bless you!"

Home Town Talk--

(Continued from page 1) In a good sized puddle on Dockum Creek in Dickens County and had just pulled an old left rubber boot out of the water, when something caught our line and started putting up a fight. Wrestled with it about fifteen minutes and just about the time our catch broke water, the line snapped. In that instant while it was out of the water, however, we realized with a thrill that it would indeed have been our lucky day: it was the right-hand mate of the lefty we'd just landed.

The biggest fight we ever experienced, however, took place at Duck Creek in the same county, shortly after a seadrotte had filled the stream back to back. We worked and fished for what seemed an hour before a 25-lb catfish would get away.

TO ENTER TEXAS

So Deanna, daughter of Mr. and Mrs. E. A. Deanna, left Wednesday for Lubbock where she will enroll as a student in Texas Tech for the summer session. Miss Deanna is a graduate of Winters High School with the class of '62.

EMPLOYED WITH NASA

Tom Sudberry, grandson of Mrs. W. T. Sudberry and a junior at Rice, will be employed during the summer months with the National Aero Space Administration in Houston.

Cokesbury's, in Dallas, Texas, is the biggest book store in the nation.

Spring and summer months are the best time to visit Texas. The weather is just what you need. There are many beautiful spots to visit. Some are downright superb.

Tragically accidents happen every day. Others are just plain stupid. Some are downright stupid.

Accidents happen to large and small boats alike. Size doesn't seem to matter. The insurance on a Central Texas lake very recently had a party of four very close to a boat having a wonderful time. The boat had lots of power and its outboard and the driver was "subwaying" it. Now he could have a good time.

He made the turn all right. But it was "over." As he stepped the boat around the back end, west down too far. He picked up so much water the boat was swaying. He before he knew what he had done. Fortunately another boat was nearby and rescued the four passengers. But they had a lot of equipment.

One night I was loading my boat on the trailer. I was at the brakes on the car. As the rain was wet and slick. When I started wrenching the boat onto the trailer the whole outfit—car, trailer and boat—started sliding backward into the water. And it didn't stop. Boat, trailer and later was recovered. The trailer hitch broke loose and the car, mobile and everything went into the water. The boat floated away and settled down into the water.

It was a weird looking sight. I had two beams from the burning headlights shining from the water. It was mostly an instant mess. Lesson: New steel boat loadings, boat is always secure to the wheels of the automobile.

Up on Lake-0-Pine in East Texas recently three fishermen loaded their gear into a trailer. A 4-foot cart on which the gear had landed 30 miles. The net weighed 9 pounds. The 30 pounds of snappers got into the net. When the motor started up, the trailer almost swam in the water.

The man at the front of the trailer got out the motor. He was the only one who was not standing. He got out the motor. He was the only one who was not standing. He got out the motor. He was the only one who was not standing.

It was a great day in "Deep Water" below. I know was standing up while fishing out of a boat that was absolutely safe. The wind blew it against a tree with a resulting bump.

For some reason he jumped straight up... and into water well over his head. He held onto his rod and reel and climbed back into the boat without ever stopping movement, giving his two fishing buddies the biggest laugh.

FROM BIG SPRING
Mr. and Mrs. Bob Lindley of Big Spring spent the past week end with his mother, Mrs. T. A. Lindley and other relatives.

TO MERKEL
Mr. and Mrs. Bill Milliron and Mrs. Nadine Smith attended the 25th wedding anniversary supper for Mr. and Mrs. James Torrence in Merkel Sunday night.

Another real danger in boating is going too fast. In water where there might be some obstruction beneath the surface. To some of the larger lakes, like Rockaway, there are huge rocks, some of them just under the water line. If you hit one of these rocks for an old leg going too fast, you are certain to have trouble.

Despite all warnings, however, some of us still will be careless. Before the summer season is over there will be too many names in the obituary columns as the result of boating accidents.

So let me repeat: Be sure of your boat before you get into the water, take strange waters easily and be sure you have approved life preservers. Preferably they should be handy enough for every person to grab one in the event of an accident. Don't stand up in a boat unless you absolutely have to. And above all—don't ride in any boat that is overpowered or overloaded. Both are dangerous!
