17th Annual Rodeo Starts Thursday

Barnstorm Tour To Publicize Rodeo Tuesday

The regular barnstorm tour, to publicize Winters' 17th Annual Rodeo, will be held next Tuesday, June 18, Ralph Lloyd, chairman, announced.

The group going on the tour will meet at the Main Drug at 8 a. m. Everyone is reminded to bring a sack lunch.

A western band will accompany the group, and performances will be given at each stop.

Plans call for the group to go from Winters to Ovalo, Tuscola, Lawn, Novice, Coleman, Talpa, Valera, Ballinger, and Bronte, in that order.

Everyone who would like to make the barnstorm tour is invited to meet at the Main Drug Tuesday morning.

RODEO PARADE—Pictured is a float which was entered in a rodeo parade some years ago. Parade committee chairman Floyd Grant this year is urging organizations, businesses and individuals to build and enter floats in the two big rodeo parades scheduled Thursday and Saturday of next week.

Participation In Rodeo Parade Urged By Group

The rodeo parade committee, headed by Floyd Grant, is urging organizations, clubs, businesses and individuals, to take part in the two big rodeo parades scheduled for Thursday and Saturday.

Two big cash prizes are being offered for the winning floats in the parade. First place will receive \$50, and second place \$25. Judging will be done on Saturday, and entries must take part in both parades to be eligible for the prize money.

The parade will form on the grounds of Davidson Gin on West Parsonage, and will go from there to North Main, and down Main to West Dale. A complete circle of the business area will be made. Parades begin at 4 p. m. on both days.

Grant also said that several riding clubs of the area have responded to invitations to take part in the parade. Trophies will be presented to the three riding clubs judged the best three in the parade.

W. G. Bedford Moves Office To State St.

W. G. Bedford, attorney-at-law, has moved his office to the new location at 124 State Street, first door east of the post office.

Mr. Bedford had been in the same location with the Bedford Insurance Agency for many years and in the new location will have more space for taking care of his law practice.

FROM LUBBOCK

Mr. and Mrs. Button Little, her sister and brother, Judy and John Hart all of Lubbock spent the week end visiting in the home of his parents, Mr. and Mrs. Bud Little.

C. T. PARKER
... Rodeo Announcer

C. T. Parker, Agricultural Agent for Rannels County, will be the official announcer for this year's annual rodeo in Winters. He will work during all three performances of the event.

Parker was the official announcer of last year's Winters rodeo. He has announced rodeos at Comanche, Meridian, Carthage, and Odessa. He also has been the official announcer for the Ft. Worth Stock Show for several years, and acted as master of ceremonies for the State Cattle Association meeting for two years.

WATER DEPT. WILL FLUSH ALL MAINS NEXT TUESDAY

W. D. Waggoner, superintendent of the City Water Department, announced this week that his department will flush all water mains in Winters next Tuesday, June 18.

Mains will be flushed at the fire hydrants. Residents are reminded that water pressure will be low in particular areas for a short period of time while the lines are being flushed.

Winters High School Students Attending Boys and Girls State in Austin This Week

Two Winters High School students this week are attending Boys and Girls State in Austin. Mike Mitchell is attending Boys State, which convened on the campus of the University of Texas Sunday, and Barbara Baldwin is attending Girls State, meeting at the School for the Blind in Austin.

Miss Baldwin is being sponsored by the Winters Post of the Veterans of Foreign Wars, and Mitchell is sponsored by the Winters Lions Club.

While attending the "states," the young people will take part in quasipolitical rallies and function as members of the state government. They "learn to do by doing."

Representatives to Boys and Girls State are chosen locally by high school faculty members.

FIRST RODEO PARADE—Horace Fry and the late Arthur Smith carried the colors leading the parade for the first Winters Rodeo in 1946. Fry is shown riding the dun horse with the Stars and Stripes, and Mr. Smith carried the Lone Star flag. This photo was furnished by B. G. Owens, who has taken an active interest in the rodeo and parades during the 17 year history of the Winters Rodeo.

Candy Strippers Work Three Shifts At Winters Hospital; 500 Hours Since Start

Teen-age girls taking part in the Candy Stripper program at the Winters Municipal Hospital have worked more than 500 hours since the beginning of the project in February, it was announced this week.

The girls have been working three shifts at the hospital, beginning at 7 each morning. Shifts work until 7 p. m. each day.

The girls, working directly under the supervision of Mrs. Tommy Rougas and other staff members at the hospital, will complete their required number of hours to earn caps sometime within the next few weeks, it was stated. When the required number of hours has been completed, a capping ceremony will be held.

The Candy Stripper program is a voluntary one. The girls work without pay, and do many of the chores around the hospital which would otherwise require the time of regular personnel. They wait on patients, serve meals in hospital rooms, and do many other things. A roster of duty hours is maintained, with each girl responsible for certain hours. If a girl finds it impossible to work at the specified time, she is required to get someone else to work in her place.

Some of the girls are planning to study nursing following their graduation from high school. One girl, Dickie Hale, worked more than 60 hours in a Houston hospital last summer to earn her cap, and is now enrolled in nursing school in Houston.

Sponsors and advisors of the group of Candy Strippers are Mrs. H. H. McCreight, Mrs. K. K. Knapp and Mrs. Buford Baldwin. Girls in the Candy Stripper program at the Winters Hospital are Doris Allen, Joyce Allen, Barbara Baldwin, Ann Bean, Becky Brown, Sarah Brown, Barbara Daniels, Leonia Daniels.

And, Robbie Davidson, Sandra Griffin, Dickie Hale, Martha Hale, Floretta Jones, Judy Kettler, Sharon King, Karen Knapp, Kathy Shaw, Beth Spill, Betty White, Mary White, Patsy Winton, Mary Young.

More Paving To Be Contracted By City of Winters

Approximately two more blocks of city streets will be paved, under provisions of a contract approved by the City Council in a special meeting Tuesday night.

One block on Cryer Street, from Tinkle to Wood Streets, and 240 feet of Vancil Street, from Cryer, west, have been approved for paving.

Residents and property owners requested the additional paving, and deposited money to pay for the project. Newman Brothers Co. of Sweetwater, had submitted a bid on the project, and a contract is being forwarded to the company by the City. Work should begin within a few days.

Meanwhile, work is progressing on the several blocks of Cryer Street, from Tinkle to Truitt Street. Grade work has been completed, and construction workers probably will begin shooting oil within the next few days. A slight delay has been caused in the project because of a decision of some property owners on the street to build curbs and gutters before the street is paved.

The City also is investigating the possibilities of paving North Rogers Street. Several property owners on that street have expressed a desire for paving, and after final bids have been submitted by a contractor, interested parties probably will begin a collection of money to pay for the project. City officials have announced a plan of cooperation with property owners to promote the paving project, whereby the City will pay for paving at intersections.

More information probably will be received with the next few days regarding a possible Rogers Street paving program.

Open Installation Of Eastern Star Officers June 15

Open installation of the Order of the Eastern Star, will be Saturday evening June 15, at 8:00 o'clock in the Masonic Hall.

The installing officer will be Mrs. Carrie Belle Roark, Deputy Grand Matron, District No. 5, Order of the Eastern Star.

Officers to be installed are: Vallie Brannon, Worthy Matron; Bryon D. Jobe, Worthy Patron; Other officers to be installed will be Darlene Sims, Associate Matron; Z. I. Hale, Associate Patron; Nina Hale, Secretary; Eunice Polk, Treasurer; Ozell Irvin, Conductress; Ruth Jobe, Associate Conductress.

More Money Is Received For Library Fund

Although the campaign to raise funds for purchase of a building for the Winters Library, has been completed, additional contributions continue to be received by Mrs. Noel Reid, treasurer of the project.

A total of \$9482.50 had been received by Wednesday of last week. An additional \$275 was received this week, to swell the total to \$9737.50.

Received thus far \$9482.50
Mr. and Mrs. Bill Graham \$20.00
Southwestern State Telephone Company \$150.00
Diversity Club \$100.00
Mr. and Mrs. Raymond Schwartz \$5.00

which is proving from the standpoint of assistance at the hospital. Important, valuable participants, is the program now going on in the Municipal Hospital. High school girls signed up when it was about February. They work directly under the supervision of the hospital and the rest of the hospital. They were about the hospital, patients, changing bed trays, mopping floors. Anybody could do which would be of aid for other people who went to work in the cleaning equipment in many ways.

These girls have plans to go to nursing school, and some will be invaluable in the hospital. They have no intention of leaving the hospital, and have learned in this program in handy in just the way they decide to do. They are glad because they are helping out.

If you should stagger drunken in the street or in public places, bystanders would not pay much attention, but if you should get down on your hands and knees and pray to Almighty God, some people would think you were showing off. Many Recommendations of Research League Now Are Being Programmed

By—Vern Sanford
 Texas Press Association

Texas Research League, a non-profit government study organization that does many administration studies at the request of the state, has issued a report on its year-long probe of the Railroad Commission. Many of its recommendations on agency management and oil and gas conservation already are being programmed. One scheduled change involves the staffing and management of Railroad Commission district offices. Commission now has 12 such offices. Responsibilities with respect to wells and staff members are so varied that the League believes the system unfairly balanced.

District 8 in Midland, for example, has approximately four times as many wells as District 4 in Corpus Christi, but each office is staffed with only four engineers. Wichita Falls has more than twice as many wells as Houston, but two less field men.

Four field men watch over 62,148 operating wells in the Midland district, yet 21 men oversee 26,036 wells in the Kilgore area.

League's answer to the problem is to re-district and cut the dis-

20 YEARS AGO

June 11, 1943

Winters Future Farmer chapter, the first to organize in the state, had a total of seven Lone Star Farmer degrees, according to Wallace Martin, vocational agriculture instructor in the local school. Those who received the Lone Star Farmer degree in 1943 were Charles Reeves, Bill Reeves, Dan Robinson and James Rodgers. The boys earned their degree by leadership, scholarship and their supervised project program.

Two new ration board members were appointed representing Runnels County War price and rationing board. Jas. W. Black was appointed to the tire panel and Buck Kornegay served on the gasoline panel.

Mrs. David Jones organized a movement, "Relatives of War Prisoners", this movement was made to give the relatives enough force and power to get things done for the boys in enemy prison camps.

districts from 12 to 10. The huge Midland district would be divided into three areas with new offices at Lubbock and Fort Stockton. San Angelo, Refugio, Mount Pleasant and Palestine offices would be absorbed by other districts under the new operation plan.

PADRE ISLAND PARK PLANS UNDERWAY

If and when Congress approves a \$1,500,000 appropriation to meet the land-buying needs of Padre Island National Seashore park, newly-named park superintendent William L. Bowen will begin to acquire land for the proposed 80.5-mile coastal playground.

U. S. Secretary of the Interior Stewart Udall said Bowen will open an office in Corpus Christi some time after July 1 with a small staff. Bowen, Kansas-born veteran of the national park service, took part in preliminary studies leading to the establishment of the new national seashore area on Padre Island.

COMMITTEE OF 25 AT WORK

Gov. John B. Connally entertained his "Committee of 25" with a coffee, then set them to work. Committee has the year-long task of studying education beyond the high school.

Connally told them Texas needs a "total policy to guide all institutions, all segments of our higher education enterprise." He said this included state, church and private schools, junior and senior colleges and academic and technical institutions.

Committee met and decided to send their chairman, H. B. Zachry of San Antonio, suggestions on how to approach the challenge. They meet again in August.

SPECIAL SESSION TALK DWINDLES

Rumors of a special session to get an appropriations bill more to get around. But now predictions are being made about a January session, rather than one in the summer or fall.

Connally said he didn't like the one passed by the Legislature in this regular session because it "short-changed" higher education.

HOME-BUILDING ABUSES

Reported abuses of home building practices and loans were the subject of a recent conversation between Governor Connally and Lubbock District Attorney Alton Griffin, president of the state district and county attorneys association.

Connally said, "It may be that additional legislation will be necessary to get at the heart of the matter."

One reported abuse that concerns them is the alleged practice of "double contracting" wherein 100 per cent home financing is achieved by cushioning appraisals and other real estate sales documents.

APPOINTMENTS

Connally appointed three new members to the State Finance Commission, including S. R. Jones Jr., president of the First Pasadena State Bank in Pasadena, and Tom Baker Jr., president of Southwestern Savings Association of Houston. He also reappointed Taylor, attorney Roman J. Bartosh.

Bert Fields, Dallas oil operator, was reappointed and named chairman of the Texas Turnpike Authority, on which he has served since 1963. A new appointee is J. M. Haggar Jr. of Dallas, vice-president of the company that manufactures Haggar slacks for men.

Haggar replaced Armistead Rust of San Angelo.

CARR'S CHORES LIGHTENED

After August 23, the governor will have to make 15 more state board appointments. These 15 citizens named will take the place of just one man—Attorney General Waggoner Carr.

Switch was made possible by a bill, supported by the attorney general, which passed during the recent legislative session. End result will be to peel down the pile of "ex officio" jobs, which have burdened attorneys general in the past, and give Carr more time for his main job as the state's head lawyer.

POST MORTEM

About 300 state labor leaders came to Austin to reflect on the accomplishments—or lack of accomplishments—of the 58th Legislature.

Speakers at the seminar included Rep. Dick Cherry, Waco Democrat, and Rep. Ike Harris, Dallas Republican, and Sen. A. R. (Babe) Schwartz of Galveston.

"The 58th could turn out better than the 59th," Cherry said. "Next time, you'll have the problems of a big tax session and a second-term speaker (Speaker Byron Tunnell, supposedly) running for Attorney General."

As session achievements, Cherry listed the Padre Island bill, Municipal Annexation bill, Tourist Development program, Water Storage expansion and provisions for teacher retirement.

Measures for rural development, which did not pass, were among what he considered failures of the Legislature.

GOOD NEWS

Although state and federal animal health officials reported that 72 Texas counties are now tagged "screwworm infested" the report was good news, said Dr. R. G. Garrett, executive director of the Texas Animal Health Commission.

Garrett said that 333 samples confirmed as screwworms in the March 31-April 27 period represented a decrease of 95 to 98 per cent in the number of cases in years before the screwworm eradication project went into effect.

"We're real happy with the success of the program," Dr. Garrett said. "We hope to be completely successful in wiping out the screwworm by the end of the three-year

The three-year, \$12,000,000 producer-federal-state program almost has reached the mid-way point in its progress.

"Fly Factory" Being Expanded Toward Pest Eradication

The fight to eradicate the bothersome screwworm from the Southwest is receiving increased momentum as the plant in which sexually-sterile screwworm flies are reared is being modified to facilitate production of more than 130 million flies per week.

Officials of the Southwest Screwworm Eradication Program announced that the increase in sterile flies should be available by mid-July. The additional flies will be used to combat isolated screwworm outbreaks outside of the area where the insect can normally survive winter temperatures, as well as to eliminate native flies in the southern parts of Texas and New Mexico which comprise the overwintering area. No increase in building space is required in order to expand production, officials stated. Some modifications of existing equipment are necessary and an increase in personnel and cost of production and distribution is expected.

The plant near Mission was completed in June 1962 and was designed to produce an average of 50 million flies per week with a top production of 75 million. As a result of experimentation that developed many improvements in fly-rearing techniques, more than 100 million flies have been produced each week for several months with little change in original plant and equipment.

The announcement that the "fly factory" is to be modified comes at a time when Southwestern farmers and ranchers are experiencing less than 10 percent as many screwworm infestations as last year. Since January 1, 1963, about 1,200 screwworm cases have been reported in the eradication area composed of Texas, New Mexico, Oklahoma, Arkansas and Louisiana, in contrast with more than 9,500 cases reported for the same period in 1962.

Despite the marked decrease in infestations, officials have warned that livestock producers cannot afford to relax their vigilance. Stockmen should continue to look for wounds infested with larvae and immediately report infestations by collecting larvae samples from wounds and sending them to the Mission laboratory or taking them to the local county agent.

FROM EL PASO

SFC and Mrs. C. L. Compton are spending his leave with his mother, Mrs. E. W. Compton and other relatives here. He will leave June 20, for Korea. His wife and children will live in Abilene while he is away. Others visiting in the Compton home Sunday were Mr. and Mrs. Jack Templeton of Big Spring and Mrs. Bob Thompson of Corpus Christi and other members of the family in Winters.

CARD OF THANKS

In expressing my sincerest thanks to the neighbors and friends who plowed the crops, attended to my livestock on the farm and helped in many other ways while I was a patient in the hospital and since I have returned home, I wish to include those who made visits and brought food to our home. My wife joins me in thanking each of you.—Bill Harmon. 1tp

Non-slip Scope Sight Ring

Dust a little resin under the mounting rings of your scope sight to prevent that annoying slip so often encountered when a heavy scope is used on a high-powered rifle.

Duck Blind Camouflage

Pale faces turned toward the sky frighten incoming ducks like a blast of shotgun fire.

But if each hunter will slip over his head a wide-meshed bag, such as the ones in which potatoes or onions are packed, face flare will be avoided.

Deer Savvy

Buck tracks usually are more pointed than are does. They also more frequently leave dew claw indentations behind them.

These differences are not infallible.

To be sure of the size and sex of deer you trail, better check where spoor leads toward a low branch. If tracks pass under branch, the deer is a spike buck or doe. But if tracks turn aside before reaching branch, the deer is most likely an old buck, too canny to tangle antlers with low limbs.

Hunting Without Dogs

It is possible to cover a field effectively without dogs when quail hunting.

Tie one end of a nylon clothesline to your waist, the other end to your partner. Criss-cross field with line stretched between you, waist high. Birds hiding in between you will flush as the line passes over them.

The first power-producing public utility was built in New York City in 1882.

What a difference

Grandma may talk about the good old days, but a whole team of horses couldn't drag her back to an old fashioned kitchen. When you compare the two pictures, you observe an important fact. All the marvelously improved conveniences you see are made possible by electricity — every single one. Yes, electricity makes the difference, and what a difference it makes! It eliminates drudgery and creates more leisure time by performing countless tasks in the home at the flip of a switch. It turns factory wheels, lights the darkness, and does all these things effortlessly and economically. That is one of two reasons why the use of electricity is increasing here in the Center of the Southwest. The other is that more people, more businesses, more industries are coming our way. Our expansion program is keyed to this increase, for we are convinced our service area faces GROWTH UNLIMITED.

WASHINGTON NEWSLETTER
World Population Expected Double In Year 2000
 By Congressman O. C. Fisher
 The World's Food Conference held in Washington last week, served to point up the explosive population problem that is haunting the world.
 The advancement of medical science, which is prolonging the life span of people, has served to arouse world-wide interest in planned parenthood. The capacity of the earth to provide adequate food to sustain future increases in the number of people who must be fed has aroused widespread interest. That problem is made apparent when the present tempo of increase is considered.
 World population, formerly controlled by war, famine and pestilence, amounted to 1 billion in 1830. 100 years later the total had jumped to 2 billion. Last year it was 3 billion. By the year 2000, at the present rate, the world is expected to have about 6.2 billion people—double its present population.
 Indeed if the present rate should be continued, 600 years from now every inhabitant of the world would have only 1 square yard to live on! One man reckoned that by the year 3500, the sheer weight of human bodies on the earth's surface would equal the weight of the earth itself.
 One of the tragedies of this explosive trend is that it is centered in some of the poorest lands of the Southern Hemisphere. Even in USA, some 60,000 new jobs are needed every week to absorb the results of our population increase. In this country 4.4 million babies are born each year. Death totals 1.7 million, leaving 2.7 million net. Immigration accounts for an additional 300,000. Texas is increasing at the rate of about 171,000 per year.
 More and more, however, the enlightened peoples of the earth are trying to face up to this problem. In India, Japan, and elsewhere, more effort is being put forth to reduce the rate of increase through various forms of planned parenthood. It is believed that the time is ripe in this country for accelerated efforts to reduce the rate of increase. A national conference was held in

Washington recently, attended by delegates from every state, where ways and means were discussed for promoting birth control and stimulating more interest in coping with the problem through education and local programs.
 Some experts believe that our future place in the world's picture will be determined, to no small extent, by the willingness of the American people to recognize the problem and do something about it.

Funeral Services For Mrs. S. Canada Set For Friday

Mrs. Stanley Canada of Abilene, former resident of Winters, died Wednesday night in Abilene. She had been in ill health for the past two years.

Funeral services have been set for Friday morning at 10:30 at the St. John's Lutheran Church, with the pastor, the Rev. A. W. Holck, officiating. Elliott's Funeral Home in Abilene will be in charge.

Mrs. Canada was born Olga Deike, August 5, 1923, the daughter of the late Mr. and Mrs. Frank Deike, pioneer residents of this section of Runnels County. She was baptized soon after birth and was confirmed April 2, 1939, at the St. John's Lutheran Church where she held membership most of her life.

She was married to Stanley Canada Dec. 16, 1945, and the couple lived in Rule several years where he operated a lumber business. Since 1956 they have lived in Abilene and her husband is associated with the Home Lumber Co.

Survivors are her husband, Stanley Canada of Abilene; a brother, Fritz Deike of Winters; four sisters, Mrs. Raymond Kurtz of Winters, Mrs. Matilda Elkins of Mexico, Mrs. Josephine Mittlestaedt of California and Mrs. Pauline Sieger of Michigan.

The body will lie in state at Elliott's Funeral Home in Abilene until 8:30 Friday morning and for an hour preceding the service at the St. John's Lutheran Church in Winters. Interment will be in the Lutheran Cemetery here.

Marshall Simons, of Purcell, Okla., Meets Mother Of Astronaut

Below we are re-printing an item which appeared in the Oklahoma City Daily newspaper recently since it concerns a former Winters resident, Marshall Neil (Speedy) Simons, son of Mrs. Eunice Simons.

"Local man meets Mrs. Cooper" while millions of Americans watched taped interviews with Mrs. Hattie Cooper, mother of Sooner astronaut Gordon Cooper, on their television sets, Marshall Neil Simons at Purcell, Oklahoma had the honor of visiting with Mrs. Cooper, personally.

"The unusual opportunity came to Simons, associated with the Southwestern States Telephone Company, which also served the town of Tecumseh.

"Mrs. Cooper and her mother, Mrs. Herd, were introduced at the banquet, attended by Simons, at which the guest speaker was Governor Bellmon. Following the banquet, Mr. Simons, was invited to meet the Astronaut's mother and grandmother.

"After the reporters and camera men had left, Mr. Simons, visited some 20 minutes in the home of Mrs. Herd and took pictures of the famous ladies and enjoyed a short private conversation with both women.

"He offered Mrs. Cooper and Mrs. Herd additional telephones during Gordon Cooper's flight, but the women declined, saying one telephone was sufficient, but to stand by to handle calls from the nation's top space official on the telephone during the flight preceding and during the flight to keep the astronaut's mother informed of the latest developments.

 Mr. and Mrs. Don Roberts of Lubbock spent the past weekend visiting in the home of Dr. and Mrs. C. T. Rives and with his father, Mr. and Mrs. Alton Roberts at Ovalo.

Ladies Aid Circle In Regular Meeting Thursday, June 6

The Ladies Aid Circle of St. John's Lutheran Church held their regular monthly meeting Thursday, June 6, at 2:30 p. m., in the church parlors with the president, Mrs. Herman Frick, presiding.

Mrs. W. F. Minzenmayer was program chairman. The group opened the meeting with a song, with Mrs. Ellis Ueckert at the piano.

A bible study was given by Mrs. E. E. Thormeyer, on Christ Is Our Liberator, taken from Col. 2:16-34. Mrs. R. C. Jr. Kurtz spoke on

Youth Emphasis.

Brenda Presley and Helen Simpson gave piano selections in honor of those having birthdays in June.

The business meeting began with roll call and reading of the minutes by the secretary, Mrs. George Pruser Sr., and the treasurer's report was given by Miss Emma Henniger.

Mrs. W. F. Minzenmayer reported on the circle's project, the furnishings for a room at the Trinity Lutheran Home at Shiver. The offering meditation was given by Mrs. Minzenmayer, in the absence of Mrs. William Kiefer.

Hostesses were Mrs. Fred Voss, Mrs. Alfred Wessels and Mrs. Carl Wessels. Twenty-nine members and several visitors were present.

Norton Joint 4-H Meeting Monday

Anthony Lange was presiding officer at the monthly meeting of the Norton Joint 4-H Club meeting Monday, June 10, in the Norton school cafeteria. All officers were present.

Leonard Jansa gave a report on 4-H Round-Up held June 4, 5 and 6 at A. and M. College. Anthony Lange reported that the county line 4-H Welcome sign had been erected.

Joe Smetana gave a program on fire and fire safety. He is from the safety division of the Farm Bureau.

Nell Gwynne was an orange seller.

49 Students In Summer Driver Course At WHS

Forty-nine Winters students are taking the summer driver training course being conducted by the Winters Schools. Study was begun several days ago.

Students will take written tests June 21, following which will be six hours of actual driving training and 18 hours of observation.

L. G. Wilson, head coach at Winters High School, and Bill Bryant, of the coaching staff, are in-

structing in the course. Two vehicles are being used in the course, one furnished by the school, and another furnished by Waddell Chevrolet Co.

If a student passes the written test, he will be allowed to drive a vehicle provided there is an adult driver in the front seat with him, it was explained. The actual driving must be completed before a license to operate a motor vehicle is issued, it was understood.

"A Girl Named Tamiko"
A romantic drama of modern Japan, "A Girl Named Tamiko" starring Laurence Harvey, France Nuyen and Martha Hyer showing now through Saturday at the Fiesta Drive-In Theatre. Filmed in Technicolor and Panavision on location in Japan, this bold, provocative film co-stars Gary Merrill, Michael Wilding and Miyoshi Umeki, and was adapted from the Ronald Kirkbride's novel of the same title.

Produced by Hal Wallis, whose record of screen achievements is one of the most enviable in Hollywood, "A Girl Named Tamiko" has all of the ingredients that characterize his films: top stars, a strong story, and exceptional production quality.

"Mystery Submarine"
In World War II a Nazi submarine was captured by the British. The German crew had abandoned the U-boat after it was depth-charged. The boat surfaced and was taken in good condition with log and code books intact. Renovated by the British navy at Portsmouth and manned by a German "wolf pack". Surrounded by the underwater enemy, it main-

tained radio contact with England and was responsible for the destruction of Germany's most dangerous U-boats. This is the true-to-life basis for "Mystery Submarine", one of war's most exciting true stories, now revealed from documents of the British Admiralty. The picture shows Saturday and Sunday at the State theatre.

"Amazons of Rome."
A top international cast starring Louis Jourdan, Sylvia Syms and Nicole Courcel appear in the action-packed Eastmancolor epic, "Amazons of Rome," showing Saturday and Sunday at the State Theatre, through United Artists release. The story of the one-hundred Roman maidens who changed the face of the globe was produced and directed by Carlo Braggaglia.

Set in 476 B. C., "Amazons of Rome" recreates one of the almost incredible chapters in the mighty drama of the dawn of the Roman Empire: the story of the mighty Etruscan Army who during their siege of the budding Roman Empire, demanded a thousand hostages. Among them were one-hundred beautiful young mai-

Lady Golfers Begin Match Play At Local Country Club

Ladies golf association of the Winters Country Club held their weekly meeting Thursday afternoon at the Club house.

The Ladder was explained to the group, each member turned in her last three previous golf scores and from these scores their standing on the ladder was formed. Each lady has the privilege of challenging anyone above her on the ladder in match play and if she wins the match her name is inserted on the ladder in place of her opponent's.

This is one of many activities planned for the summer. Each lady estimated her score for the 9-hole morning round. Mrs. Ed roller was awarded a ball for guessing her score.

Those attending were as follows: Mrs. Russell Mote, Mrs. Wade White, Mrs. Ed Roller, Mrs. Jack Harrison, Mrs. Morris Robinson, Mrs. Pete Speer and Mrs. E. T. Patterson.

Mrs. E. T. Patterson is representing the association at the annual Ladies West Texas Golf meet in Wichita Falls, Texas this week.

Removing Feathers

Picking game birds is a chore we all dislike. Make the job easier by immersing birds in a dishpan of cold water. Let them soak a few minutes, then pick off the feathers and fuzz under water.

Deer Love Apples

When still-hunting deer, attract them by carrying one or two very ripe apples in your pocket. The sweet odor of the fruit will carry to nearby deer and bring them to you, while at the same time covering up your human scent.

IMPORTANT NOTICE TO OUR CUSTOMERS

- Little Studio will be closed from July 1 till August 12. During that time we may take a very few emergency sittings by special appointment if we happen to be available. **BUT** we will not be open for regular business. Out of town customers, here for only a few days during the summer, may check with us for possible appointments.
- Following our annual custom, we will take off for 6 weeks for vacation, study, and minor studio and equipment checking and repairs.
- If you have proofs out, please get them in at once so we can finish processing them. Most orders are ready for you — except in the case of paints or orders turned in since June 1. We expect to have those finished by the last of next week.
- Please either pick up your orders before June 29 or let us know when you plan to come for them.
- Orders which have been left here over 6 months without arrangements being made in regard to picking them up will be destroyed to make room for current pictures and supplies. We keep all negatives and proofs permanently, but if an order has to be made over because it was not called for and was discarded there will be an additional service charge. If you cannot get your pictures within 6 months, you owe it to yourself and us to make suitable arrangements about getting them.
- We appreciate our customers and hope this notification will keep any from being inconvenienced. A vacation, additional study, and equipment in top shape make for better portraits for you in the long run.

Funeral Services Held Monday For Mr., Mrs. Kendrick

Funeral services were held Monday at 3 p. m. in the Shep Church of Christ for Mr. and Mrs. Vandle M. (Van) Kendrick of Rt. 2, Wingate, who died following a two-vehicle crash Friday afternoon about 15 miles southwest of Abilene on U. S. 277.

Dr. Orval Filbeck of Abilene Christian College officiated, assisted by Elder Ralph Watson of Shep. Burial was in Wingate Cemetery under direction of Spill Funeral Home. Masonic graveside services were held for Mr. Kendrick.

Mrs. Kendrick, 72, died Friday at 3:30 p. m. in Hendrick Memorial Hospital, Abilene, shortly after the accident.

Mr. Kendrick, 80, died Saturday at 9:15 p. m. following surgery in Baylor Hospital in Dallas.

Mr. Kendrick was born at Telsaque, Ala., on Nov. 24, 1882. At the age of 16 he came to Texas settling in Bell County. Later he moved to Mills County, where he lived until 1913. He was married to Martha Alma Kennedy on Dec. 25, 1908, at Goldthwaite, and the family moved to Runnels County in 1913, settling near Wingate. They later moved to Abilene where they lived for 14 years, returning to the home near Wingate in 1958.

Mr. Kendrick was a member of the Shep Church of Christ and for the past 46 years held membership in the Wingate Masonic Lodge.

Mrs. Kendrick was born Martha Alma Kennedy on Nov. 28, 1890, at Field Creek in Llano County. At the age of 13 she moved with her parents to San Saba County, and a year later they moved to Mills County. She was married to Mr. Kendrick on Christmas Day, 1908.

While living at 1209 Washington Blvd., Abilene, Mr. and Mrs. Kendrick for several years kept roomers of students attending Abilene Christian College.

Mrs. Kendrick had been a member of the Church of Christ for 45 years, and at the time of her death was a member of the Shep

Church of Christ.

Mr. and Mrs. Kendrick are survived by two sons, Hollis G. Kendrick of Rose, Okla., and Dixon V. Kendrick of San Antonio; three daughters, Mrs. Karl L. Fowler of Eunice, N. M., Mrs. Doyle M. Pritchard of El Centro, Calif., and Mrs. W. M. Moore of Seagraves; 15 grandchildren and 9 great-grandchildren.

Mr. Kendrick also is survived by three sisters, Mrs. Bessie Phillips and Mrs. Flossie Kirkland, both of Wingate, and Mrs. Estell Harding of Novice.

Mrs. Kendrick also is survived by three sisters, Mrs. W. W. Barber of Fort Worth, Mrs. Ida Dellis of Goldthwaite, and Mrs. Walter L. Robertson of Big Spring; two brothers, H. G. Kennedy of Happy, and E. M. Kennedy of Claude.

Pallbearers for Mr. Kendrick were Duncan Hensley, Nolan Cave, Edd Kinard, Henry Adcock, Dean Holder, Jack Patton.

Pallbearers for Mrs. Kendrick were Leon Walker, Homer Foster, Carlos Walker, David Bryan, Milton Jackson and Bennie Makowsky.

IT'S THE LAW—IN TEXAS

Under our dual system of government, two sets of law—state and federal—may govern what we do.

State laws have traditionally governed certain fields: for example, the law of wills, estates, and transfers of property upon death. Each state has its own rules on death transfers, how to make wills, and what happens when a person dies without a will.

But the federal government has some power in this field, especially when federal money went to the decedent or when it involved a national policy.

In a dispute between the United States and a State over a decedent's estate, the U. S. Supreme Court set forth some of the fed-

eral powers: A war in a veterans hospital will or heirs. He had al property. Under Under federal law goes to the U.S.

Mr. and Mrs. Eugene White of Grand Prairie were visitors Sunday morning at the Harmony Baptist Church.

The subject for next Sunday's International Sunday School Lesson is—God in Courts of Justice. The memory selection is: The Lord is righteous. He loves righteous deeds; the upright shall behold His face—Psalms 11:7. The following is by David H. Weaver: To most of us, justice means "rendering to a man what he deserves." Thus, we feel a good judge gives men their just deserts, that is, he is fair and impartial in interpreting their obedience to the law.

In the Bible more than this was meant by "justice." It included the sum total of all goodness and virtue. A just man was good, kind, merciful, generous, honest.

We may say today that a certain person is not very kind but that he is just. The Bible could not say this. An unkind man was not just, for justice included kindness.

OUTDOORS IN TEXAS

By VERN SANFORD

East Texas has many fine lakes. One of these is Lake Murvaul, near the city of Carthage in Panola County. Here is a lake of approximately 5,000 surface acres, fast becoming one of the big bass fishing lakes in Texas.

Since it is a new lake, only about five years old, this should be the top year for it in the quantity of fish taken and perhaps also in size.

Lake Murvaul was dedicated in 1958.

Curtis Carpenter, editor of the Texas Game and Fish Magazine, fished in it shortly thereafter. In an article he wrote for the magazine he indicated it would, one of these days, be one of the best fishing spots in Texas. And that day has just about arrived.

Ed Condon of Dallas, who has been fishing and selling fishing tackle for many years, thinks perhaps some of the biggest bass in Texas will come from Murvaul this year. Who could ask for more?

Murvaul is typical of many of the East Texas lakes. With a shoreline of 35 miles it stores an

estimated 45,000 acre feet of water behind an earthen dam 8,000 feet long and a 275-foot concrete spillway.

Lake Murvaul was a Panola County Chamber of Commerce project and it is a part of the Sabine River Authority's master plan. The County financed the lake through the sale of bonds to provide a water supply for new industry. Panola County already is the leading gas products producing area of the state.

Fortunately, residents of the county also have done considerable development of the surrounding area. There are ample boat docks and launching ramps. Also a number of fine homes and cottages have been built around the edge of the lake.

Lake Murvaul is filled with the run-off of almost 200 square miles. Here in the timberlands of East Texas rainfall is fairly high. A number of small springs along contributory streams also add to the water, to keep it at a fairly constant level.

Murvaul particularly is famous for its large bream and abundant supply of bass. There also are many big catfish and crappie. The water has a high acid content and is ideal for black crappie, say the fishermen. And there are some saddle-blanket-sized ones taken from the lake.

It also is a picturesque lake, surrounded by many trees. Towering pines and hardwood, such as oak and hickory, line its shores. The banks also are lined with beautiful flowers and in the early spring wild berries are found throughout the area.

From a sportsman's standpoint, it has been ideally developed. There are ski lanes where those who seek water recreation can play to their hearts' content without annoying fishermen.

Then there are areas where brush has been left standing for the benefit of those who want that type of fishing. And who doesn't? There are a number of commercial camps around the lake providing air conditioned cabins for fishermen or vacationists. The rates are very reasonable.

So, if you are looking for an ideal and beautiful fishing spot this year, give Murvaul a whirl. You'll like it!

Wait! The Rabbit Shows Down!
Hunting rabbits in hilly country with rifle or pistol can be exciting sport. But the rain of this is minus usually is discouragingly low. You will score more this if you will hold your fire until dog's maneuver rabbits downhill. Rabbits running downhill slow to almost half-speed because of their short forelegs.
This is also good advice for the non-sportsman stag-hunters.

HEALTH LETTER

People who are habitually in different to their personal hygiene are as scarce as purple cows. Nature has endowed most of us with an acute sense of pride about such things as daily bathing, brushing teeth, clean fingernails, good grooming. We would go to practically any length to avoid being offensive to our own customers, co-workers, or neighbors.

And, most of us resent from the slightest suggestion that there are times when our personal hygiene habits are a little off.

Thinking about it for a moment, with all the competitive life is so important to the average man or woman, is personal cleanliness? What contributes more to their health, success, and well-being by others?

Personal cleanliness is a habit, and a habit is a habit. It is a habit that is a habit, and a very pleasant one. Here are its main ingredients.

Bathing. Daily bathing is as refreshing as a healthful. Residing in a warm climate, and a very pleasant one, here are its main ingredients. We are less vulnerable to disease when we wash of the 15-year accumulation of perspiration on our skin. Most people find it pleasant to wash their hair at least

once a week. One brand of soap isn't necessarily superior to others. The important thing is to use plenty of it.

Dental health. This is absolutely essential to a high level of personal hygiene, so see your dentist regularly. Don't be confused by television commercials about the therapeutic and cosmetic effects of certain tooth pastes or powders. The brushing is what counts.

Fingernails. Nothing is more fatal to attractiveness than dirty fingernails. By all means check yours every morning as part of your getting-ready-for-the-day ritual.

Handwashing. Frequent handwashing, particularly after rest room visits, is another part of a high P.H. quotient. It is a must habit for cooks, waitresses, bartenders, beauty operators, etc.

These ingredients blend together to give you a P.H. quotient your daily associates will appreciate. Each is a habit in itself, well worth acquiring. We owe it to our friends and co-workers. Perhaps more important, we owe it to ourselves.

The Continental or Grand Union flag had thirteen alternate red and white stripes with the British Union Jack in the upper left corner.

RODEO PARADE — This group of horsemen took part in a rodeo parade a few years ago. This year's parades will be held on Thursday and Saturday, with several riding clubs from the area participating. The riding club judged the parade.

Handy In Hot Weather
A big problem most dove hunters face during the early hot part of the season is how to carry shells and dead birds without wearing a heavy hunting coat. You can solve this problem by wearing a carpenter's apron instead of the bulky coat.

Help Your Dog
Often your dog gets where ducks fall. Help these birds by carrying a few small stones. When falls that the dog can throw a stone in the path of the dead duck.
