NUMBER 16

Fire Destroys Huge Warehouse At Winters Mfg. Co.

Fire of undetermined origin about 1:15 Thursday afternoon destroyed a warehouse of the Winters Manufacturing Co., creating a loss of at least \$25,000.

The warehouse, on the east side of the manufacturing complex, contained corrugated boxing material, and other materials used in packing evaporative coolers and other metal products manufactured by the company.

A thick fireball on the west side of the building held back fire from an adjoining warehouse, although smoke and water damage to electric motors and water pumps in that building will be extensive.

The east part of the warehouse was totally destroyed.

The fire still was raging at press time—2 p. m.—Thursday, and units of the Ballinger Fire Department had arrived to assist in fighting the blaze. The fire appeared to be contained in the middle of the afternoon; however, big blazes still could be seen within the building.

Representatives of the company estimated that fire loss to the building and contents would be at least \$25,000.

Dangerous smoke was collecting in the adjoining warehouse containing electric motors, and although it appeared that firemen could prevent the flames from reaching that area, it will be impossible to determine the extent of the damage.

This is the most costly fire in Winters since the old Green Milling & Grain Co. mill and elevator burned a few years ago.

J. T. Sprinkle, a member of the Winters Fire Department, was overcome by smoke, and was taken to the local hospital. He was reported to be in good condition.

Schools Fill Vacancies In Next Year's Faculty

The Board of Trustees of Winters Independent Schools Tuesday night approved employment of a primary principal, a primary teacher and a high school commercial teacher.

Employed as primary principal was Robert Simpson, of Cisco. Mrs. Clifford Hill will teach first grade, and Mrs. Frances Bredemeyer will be high school commercial teacher.

James Nevins, superintendent of schools, also announced the resignation of Robert James, a member of the coaching staff. This leaves two vacancies which must be filled on the teaching and coaching staff for the coming school year.

James has been in the Winters school system for the past two years. He is moving to Temple where he will be first assistant

football coach, and where Mrs. James will teach seventh grade.

Simpson will fill the vacancy as primary principal created by the recent retirement of Mrs. Keva Russell. He is a graduate of Howard Payne College where he received his bachelor's degree. He received his master's degree from the University of Texas, and has served as elementary principal for the past three years in Cisco. Mr. and Mrs. Simpson are members of the Baptist Church in Cisco where he has served as president of the Brotherhood and as a Sunday School teacher. They plan to move to Winters immediately. They have four children.

Mrs. Hill was employed as a teacher of the first grade in the primary school. She is the wife of Clifford Hill, Winters Junior High School science teacher. She is a graduate of McMurry College. Mr. and Mrs. Hill have lived in Winters for several years.

Mrs. Frances Bredemeyer, who will be the commercial teacher in high school, received her degree from North Texas State College and has served as a substitute teacher in the Winters school previously. She fills the vacancy created by the recent retirement of Mrs. C. S. Jackson.

GRAIN STORAGE — Expected to be completed within a few more days, this building, constructed of steel and concrete, will be the most recent addition to the large Alderman-Cave Milling & Grain Co. mill and storage complex in Winters. The grain storage building is built across the railroad tracks, west of the mill proper, and will be connected to the elevator and mill by means of conveyor systems and a service catwalk. Designed as a flexible storage, the building will have a capacity of 113,000 bushels. Fifty carloads of cottonseed hulls may be stored in the new building, company representatives said.

Dimensions of the building are 50 feet x 100 feet, with outside walls 24 feet, and the roof peaking to 36 feet. Pitch of the roof is engineered to the natural peak of wheat or milo, it was reported.

Ray Alderman, manager of the company, said the building is expected to be completed in time for the bumper milo crop which will begin to come in within a few days.

GROUND BREAKING — Mayor Harvey Dale Jones, center, was principal speaker at groundbreaking ceremonies for the new Merrill Nursing Home Saturday morning. Also attending the ceremony were, left to right, Gattis Neely, president of the Winters Chamber of Commerce, R. A. Boswell, of Fort Worth, representative of Care Homes, Inc., who designed the new nursing home, Mrs. L. L. Merrill, operator of the home, and John Q. McAdams, president of the Winters State Bank. The new nursing home will have 32 beds. It will be located on Van Ness Street, and will be a brick veneer construction, equipped with year-round air conditioning and temperature controls. It has been designed to provide for expansion when needed.

St. John's Luther League To Present Three-Act Play

"Teen On A Tangent" is the title of a three-act play which will be presented by the Luther League of St. John's Lutheran Church July 12 at 8:00 p. m. in the High School Auditorium. The play is directed by Mrs. Charles Kruse, Jr.

Overshadowed by his sister Brenda, nearly failing in his schoolwork, and ever fearful of being "downgraded" by his more adaptable classmates, poor Bagley Graber is ripe for rebellion. His attitude and activities get almost entirely out of hand during his father's six-week's sojourn in Chicago, where he is taking training which it is hoped will put him in line for a top management position in the huge Hauser Industries.

Nothing that anyone can say or do—Bagley's worried mother, his outspoken and highly critical sisters Brenda and Sunny, or even Carol—seems able to deter Bagley from his dangerous course.

When Mr. Graber's boss, Mr. Hauser, arrives with his wife for dinner, he makes it startlingly clear that unless a man can successfully manage his own family, he can never expect to manage the sprawling Hauser Industries. The police arrive at that unhappy moment—and so does the big blow-up.

Thought-provoking ideas, poignant moments, and frequent touches of delightful humor are expertly blended in this three act comedy-drama play. There will be no admission charged, but a free-will offering will be taken.

The cast consists of Louis Simpson as Bagley; Judy Kettler as Brenda; Myra Minzenmayer as Carol Carter; Helen Simpson as Sunny; Linda Schroeder as Mrs. Graber; Beth Spill as Madge Lansing; Ronald Kraatz as Mr. Graber; Donna Minzenmayer as Clarise Bagley; Michael Dieke as Officer Tolan; Weldon Byers as Mr. Hauser, and Shirley Turk as Mrs. Hauser.

Johnny Green Made Manager of Company In Oklahoma City

Johnny Green of Oklahoma City, son of Mr. and Mrs. Carl Green of Wintgate, has recently been promoted from Assistant Manager of the Arthur Anderson Accounting Company in Oklahoma City to Manager, according to information received by his parents.

To celebrate his promotion, he called his parents and invited them to join him and his family on a vacation trip through the Ozarks to Lake Hamilton at Hot Springs National Park.

Green is a graduate of Winters High School and has been associated with the accounting company for several years.

Heat Wave Ups Water Usage To Over Million

The current heat wave, during which the temperature has hit and passed the 100 degree mark, is responsible for water usage by Winters residents to go above the one million gallon per day mark.

W. D. Waggoner, city water superintendent, said Wednesday that on Tuesday, when a temperature of 100 degrees plus was noted, 1,003,000 gallons of water was used. This is by no means a record, and this figure is expected to be surpassed as the heat continues.

During the past several days, Waggoner said, consumption has been more than 900,000 gallons a day.

The Winters lake was filled to capacity during the rains of a few weeks ago, and only last week water stopped running over the spillway, Waggoner said.

Work Starts Soon On Paving of Grant Street

Work will begin within a few days to pave one block of Grant Street, from East Dale to Tinkle, according to information received from City Hall sources this week.

All property owners on the street were said to have been in agreement with the paving project and will finance the paving.

Also, a section of Bowen Street, from Cryer, east, will be paved, it was reported.

Contractors also were sweeping and preparing several blocks of South Frisco, East Truit, Laurel Drive and Park Lane streets to receive a seal coat of gravel and asphalt. This work should be completed sometime this week, it was thought.

Little League Play Over, All-Star Game At R. Lee

The regular 15-game Little League baseball season is over, and the All-Star team, made up of members of the six teams of the Winters area, now are in training in preparation for their tussle with Robert Lee next Thursday night.

The All-Star game will be played in Robert Lee, beginning at 8 p. m.

The Winters Yankees finished the season with a 14-1 record, and placed five players on the All-Star team. The Jets finished with an 11-4 season record, trailed by the Dodgers, Indians, Wintgate Pirates and Lawn Colts, in that order.

Team managers met several days ago to choose the players who will make up the All-Star team, which will play on into region and district competition. A change has been made in the All-

Firemen's Barbecue Set For August 15

Announcement was made this week that the annual barbecue sponsored by the Winters Volunteer Fire Department will be held Thursday, August 15, at 7:30 p. m. The barbecue will be held in the City Park, near the Municipal Swimming Pool.

IN LLOYD HOME

Mrs. Cullen Johnson of Wichita Falls is visiting in the home of her parents, Mr. and Mrs. Raymond Lloyd, while her husband is away with the National Guard at Fort Hood.

Gospel Meetings Slated For Shep Church of Christ

A series of gospel meetings at the Shep Church of Christ will begin at 11 o'clock Sunday July 21, and continue through July 28, it has been announced. Services will be held each evening at 8 o'clock.

E. M. Borden Jr., of Mercedes will do the preaching. The public is cordially invited to attend.

Dr. Orval Filbeck, professor of education at Abilene Christian College, is the minister of the church.

Winters Riders On Trail Ride To Coleman

About 40 riders of the Winters Riding Club rode down the Main Street of Winters Wednesday morning, moved onto the highway to begin their 35-mile trip by horseback to Coleman.

The riders stopped for lunch at noon at the Crews Gymnasium, and went on to Hord's creek Lake where they spent the night. A barbecue supper was held for them during their overnight camp at the lake.

Thursday morning, the riders were in the saddle early, and were met on the outskirts of Coleman by rodeo officials who escorted them into town. They took part in the parade and grand entry of the 26th annual Coleman Rodeo which began Wednesday.

Money Still Coming In For Library

Although the campaign to raise funds for the purchase of a building for the Winters Library came to a close some weeks ago, contributions continue to come in.

The library was moved this week from the old location in the American Legion building to the recently purchased and remodeled building on North Main Street. Several men and women helped in moving the books and equipment to the new location.

Representatives of the library committee said that an open house is being planned for the near future.

A new sign has been installed on the front of the building, and additional equipment is being obtained. The sign was donated by Homer Hodge of Sparkle-Lite, Inc.

Latest contributions to the library fund include:

Winters Const. Co.	\$20.00
Mrs. Myrie Frazier	10.00
J. C. Jarrell	11.00

IN IRVIN HOME

Jerry Irvin and little daughter, Joy, of El Paso were week end visitors in the home of his parents, Mr. and Mrs. Joe Irvin. They all went to San Antonio Sunday to be at the bedside of Mr. Irvin's father who is critically ill. Joy remained for a few days visit with her grandparents.

TO ROCKPORT

Mr. and Mrs. George Akeman returned home Friday after spending their vacation in Rockport visiting relatives.

VISIT IN PHOENIX

Mr. and Mrs. Bill Hamilton and children, Carole, John and Susan of Blackwell, left Sunday for Phoenix Arizona for a visit with Mrs. Nancy Nelson. Mrs. Nelson is the former Nancy Cave of Wintgate, sister of Mrs. Hamilton.

TOPS AT TOURNEY — This foursome won the honors at a best-ball golf tournament at Winters Country Club July 4, with a score 31 on the 35 par 9-hole course. They are, left to right, Jimmy Caskey, Mrs. Bill Bean, Mrs. H. H. McCreight and Butch Bean. (Staff photo)

Thirty-Two Take Part In Golf Tourney On 4th

Thirty-two local golfers took part in a golf tournament on the nine-hole Winters Country Club course Thursday, July 4.

Morning play was restricted to a low ball contest, with eight foursome teams taking part. The winning team brought in a total score of 177 for nine holes. Team members were Jimmy Caskey, John Davis, 43, Russell Mote 43 and Johnny Caskey 52.

In the best ball contests in the afternoon, the winning foursome hit for a four-under-par 31. Score by hole was 4, 4, 4, 2, 2, 4, 3, 4. Members of the winning team were Mrs. H. H. McCreight, Mrs. Bill Bean, Butch Bean and Jimmy Caskey.

Morris Robinson was chairman for the tournament, and was assisted by Russell Mote and other members of the Country Club.

Club sources reported that another tournament is being planned to take place within a few weeks.

ROGER BABSON

Air Conditioning, Once A Luxury, Now Termed Necessity In Homes, Business

Babson Park, Mass. I have always been extremely interested in air conditioning, and the summer's first real hot spell prompts me to look again at this industry. Some years ago I wrote an article on air conditioning in which I said that merchants would have to universally adopt cooling systems during the summer in order to hold their trade. This now seems just about a fact accomplished.

I do happen to know one department store not far from Babson Park that for some reason still has no air conditioning; but it is easy to see on a hot afternoon that customers dash in to buy what they want and then dash right out. I believe sales totals would be double what they are if the store were air conditioned. This likewise applies to churches and all public buildings.

Cool Air For Homes

As air conditioning is now as commonplace in business establishments of all types, it seems to be gradually becoming a necessity in our houses and automobiles. Only a short time ago it was considered a luxury, but those days are already gone. Contractors in climates where the summers are inclined to be warm and muggy usually include a cooling system in original construction plans, as a matter of course.

You can have air conditioning installed in your own home at a considerably lower price than was the case a few years ago. For a medium-size house an efficient system can be put in for \$1,500-\$2,000. In connection with this matter, it should warn you that the proper size of the system is important. Too large a unit will chill the interior too quickly, then shut off and permit the accumulation of humidity. Naturally, this means too a high cost of operation for your system. So avoid oversized units.

Compact Cooling Systems

Even for those who can't afford a completely air-conditioned home there are inexpensive units that can make a room or two quite comfortable during the sweltering weather. They may be hitched to a window to reduce the temperature nicely in a kitchen, a living room, or a bedroom. Most are sufficiently powerful to cool at least a couple of small rooms. Generations to come will want their homes entirely air conditioned; it will be considered one of the necessities of everyday living.

I must admit that originally I thought cooling units for the interiors of automobiles were a passing fancy and would never last. But I now believe that air conditioning units will be considered accessories in practically all new models before long.

Units Pay For Themselves

Whether for commercial and business establishments or for homes, I am convinced that air conditioning more than pays for itself. In a government survey it has been revealed that general office employees turn out 9.5 per cent more work, on average, with air conditioning, while absenteeism is reduced by some 2.5 per cent. On production lines output gains appear to be sometimes nearly 100 per cent in cooled-off areas. It is estimated that a saving of only seven minutes a day for each worker will more than make up the cost of air conditioning installation and operation.

In the home it may not be so immediately easy to see how such units can pay for themselves. But the health angle should never be forgotten. Heat is bad for weak hearts—and even strong hearts are not helped any by prolonged hot spells. If your home is temperature-controlled, you will sleep better, eat better, have relief from many allergies, and be fresh to face each day's work. Hot weather

Flowers Family Reunion Held In Midland Sunday

A reunion of the seven children of Mrs. Ollie Flowers and the late Mr. Flowers was held last Sunday at the home of Mr. and Mrs. Kenneth Flowers in Midland. All of the family was present except four grandchildren who were unable to attend. They were Mr. and Mrs. Button Little and Ronnie Ramey of Lubbock, Mr. and Mrs. Bob Muchow and three children of Boise, Idaho and Roger Glenn Flowers who is in the U. S. Navy at San Francisco, California, a son-in-law, Buck Lindley of Winters was unable to attend.

Those present were their mother Mrs. Ollie Flowers of Winters, The children, Mr. and Mrs. Oscar Lee Flowers of Big Spring, Mr. and Mrs. Bud Little and Mrs. Buck Lindley of Winters, Mr. and Mrs. Kenneth Pruett of St. Joseph, Missouri, Mr. and Mrs. Fred Ramey of Lubbock, Mr. and Mrs. Howard Bates and Mr. and Mrs. Kenneth

Flowers of Midland. Grandchildren present with their families were Mr. and Mrs. Don Dunbar, Donnie and Debbie of Post; Mr. and Mrs. Jimmie Stevens, Lisa and Glenn of Lubbock; Barbara Pruett of St. Joseph, Missouri; Kelly Bates, Debbie and Louise Flowers of Midland; also visiting was Miss Mildred Pruett of St. Joseph, Missouri.

VISITED IN WICHITA

Kay Lynn Rives, daughter of Dr. and Mrs. C. T. Rives, returned home Sunday after spending the past week visiting her aunt, Marie Hill, in Wichita Falls. She was accompanied to Wichita Falls the first of last week by her mother, Mrs. C. T. Rives and Linda Hill, who were overnight visitors Tuesday with Miss Hill.

FROM CALIFORNIA

Mr. and Mrs. Leon Worthington of Fresno, California visited recently in the homes of Mrs. Ludie

Davis, Mr. and Mrs. Clark and other relatives. Mrs. Skinner, Steve and Herbert Austin were also present in the Davis home.

SAVINGS- SECURITY- SUCCESS-

There is a definite relationship between these three words. In countless cases, security is gained and success is attained through saving.

Saving is not doing without things you really want. It is a sure way to get them. After start to build a reserve fund, will weigh values with greater care. Less money will slip away for things that do not count. The you most desire will be yours when you want them.

To be able to save is, in itself, a success—and one that will lead to greater achievements.

This bank can be helpful to you in many ways. To do so at any time will always be a privilege and a pleasure.

The hardest part about parking a Corvair is finding a nickel

That may be a slight overstatement, but such jauntiness comes easily when you're a Corvair owner. And you can usually back it up—as easily as you can back up a Corvair. You'll find yourself doing that occasionally, if only to adjust the brakes—they're self-adjusting. That's all there is to it, and that's a good example of how delightfully easy Corvair is to own, drive and maintain.

But since we began by talking about driving, let's stick with that awhile. A large factor in the fun of driving a Corvair is the location of its engine in the rear. Why the rear? It gives Corvair extra traction on any road surface. It provides a nearly flat floor for more useable interior space. Best of all, it produces steering so light, so responsive, you wonder why no other American-made car thought of it. Corvair's engine is also air cooled, we might add, which means there's no antifreeze or water for you to add. Ever. All that pleasure from something so practical almost makes you think Corvair is unique among American cars. Which isn't surprising, because it is!

TIPS FOR OUTDOORSMEN

by Vern Sanford

It may be possible to borrow money to buy a good boat or a satisfactory trailer. The answer to this question will be sought in research to be conducted at the University of Oklahoma Research Institute.

Perhaps the local Chamber of Commerce might be a better approach to the program. Even though Federal money is available to individuals, a community project might fare better.

But it is worth looking into. The Winters post of the Veterans of Foreign Wars and its Auxiliary, received several rewards of recognition during the State convention of the veterans organization at Lubbock June 28-30.

A plaque was presented to the Winters organizations for winning third place in the State for Community Service. Accepting the award were Mr. and Mrs. J. A. Henderson, outgoing commander and president, respectively, of the VFW and Auxiliary.

Mrs. W. L. Collins, member of the Winters Auxiliary and also chairman of the Texas Department on Americanism and Essay Contest, was cited for her work in Community Service and Publicity for the Winters units.

During the awards banquet at the convention, the Winters Post and Auxiliary were cited for having the best newspaper coverage for the year in the State.

Mrs. Collins presented the state awards on the Essay Contest during the convention, and in turn received a gift from the president of the Department of Texas VFW Auxiliary president. She gave a report on the recent convention during the regular meeting of the Auxiliary Monday night.

GRASS CLIPPINGS MUST BE IN BAGS, BOXES, SAYS CITY

City officials said this week that residents who pick up grass clippings from mowed lawns must put the grass in boxes or bags, or in some other type of container, if they are to be picked up by crews of the Sanitation Department.

If grass clippings are thrown on the ground, crews will not pick them up, it was stressed. Further, the bags or boxes of grass clippings must be deposited in the alley or in the usual place if they are to be picked up, they said. Crews will not enter yards or gather up the grass or weeds.

Also, city sources said, sanitation crews will pick up tree trimmings only if they are put in the usual pick-up location. Tree trims more than four feet in length will not be picked up.

The City has asked that all residents cooperate with the Sanitation Department in keeping the town clean.

We do not care to listen to people with few ideas who always repeat them.

Once upon a time there was a man who remembered his friend and repaid a favor.

BE SAFE - BUY ALL DRUGS FROM A PHARMACIST AT MAIN DRUG CO.

And Remember: We Are Prescription Specialists

"Betty, I'll bet Johnny becomes a pharmacist some day," said Martha proudly. "He's always playing 'pharmacy' and concocting 'medicines'!"

It takes over 5 years preparation, Johnny, but as a pharmacist you'll be a professional specialist—an important partner on the health team!

Researchers Seek Reasons For Grapefruit Flavor

What causes some grapefruit to be bitter while some is sweet? The answer to this question will be sought in research to be conducted at the University of Oklahoma Research Institute.

The work, which will seek to determine the changes that take place in a grapefruit as it matures, is being done under a contract with the USDA's Agricultural Research Service. It is part of efforts by the service to find new uses and new markets for agricultural products.

The bitterness of grapefruit, particularly in early-season fruit, is believed to be the reason for decreased consumption of the food. The Oklahoma scientists will try to reveal the chemistry of naringin and other grapefruit constituents that cause the bitterness by analyzing samples of fruit picked at intervals throughout the growing season.

The appearance, accumulation and disappearance of the bitter compounds in the fruit will also be studied. Experiments will be conducted to determine if these compounds decrease as the fruit grows and ripens or whether they are diluted or converted to less bitter or non-bitter compounds.

The information gained in the research is expected to help ARS scientists devise practical and more accurate methods of controlling or eliminating bitterness from processed grapefruit products. Knowledge gained may also lead to the development of new products from the grapefruit.

Be careful of the bargains you seek in life — there are no shortcuts and no rummage sales.

This is the time of the year when we do our best yearning for the cold, cold days of winter.

When you touch the pocketbook nerve of a profession you can expect the ethics to disappear.

Those who do not agree with our opinions are (a) smarter than we are or (b) dumber than we are.

Glenda Sue Cooper was honored on her birthday with a party Wednesday evening in the home of her grandmother, Mrs. O. V. Cooper.

Refreshments of cake, cookies and frosted cokes were served to Sharon Beard, Mary Lou Wilkerson, Donna Bounds, Myra Lee Minzenmayer, Carolyn Brown, Cynthia Brown, Jean Mosted, Sheila Kraatz, Sandra Crockett and Ann Cooper.

Games were played until 6:30 o'clock.

The Winters Enterprise, Winters, Texas, Friday, July 12, 1963

Kit Carson's Last Fight

"Kit" Carson, famous frontier fighter, had his last encounter with hostile Indians at the Battle of Adobe Walls.

Site of this battle is marked just 30 miles northeast of Stinnett, Texas, in the northern Panhandle area. Under the protective cover of the adobe walls in Hutchinson County, Colonel Christopher "Kit" Carson, commanding a few companies of U. S. Troops, bravely battled a band of Kiowa and Comanche Indians, killing over 60 braves.

The good citizen who helps build his community is leaving something worthwhile to his children.

ANOTHER JUNIOR COLLEGE?
Board of Education has author-
ized a Travis County junior col-
lege election.
But it turned down an applica-
tion for a Scurry-Fisher County
junior college. Turndown came
after a committee said the oil-
rich area could afford a college
but could not dig up enough stu-
dents to meet state board require-
ments.
In its refusal report the commit-
tee, headed by former State Sena-
tor Penrose Metcalfe of San An-
gelo, implied that the board may
change its criteria for establishing
junior colleges after the Govern-
or's Committee on Education
Beyond the High School makes its
recommendations in August of
1964.
Currently, the board requires
proof that taxpayers in the district
can support a public junior col-
lege. But it also requires a mini-
mum of 500 students.

REDISTRICTING SUIT SET
Talk of a special legislative
session perked up as a federal
court in Harris County set a Sep-
tember 23 hearing of a Republican

sponsored congressional redistrict-
ing lawsuit.
Texas' 58th Legislature tried to
set a formula for congressional
redistricting. But a token bill died
in the final minutes of the session.
Some who opposed it said they
would rather let the federal courts
settle the matter. Others said they
would rather meet in a special
session then leave it to federal
judges.
State Democratic Chairman Eu-
gene Locke of Austin has asked
the court to dismiss the G.O.P.
suit.

VETERANS LAND BRINGS \$\$\$\$\$
Land Commissioner Jerry Sad-
ler said the sale of 82 tracts of
forfeited veterans land (totaling
2,223 acres) was "gratifying",
since it brought in more than the
state's original investment plus
taxes paid since forfeiture.
The block of tracts in Zavala,
Maverick and Hidalgo counties
brought \$211,753.84. This included
\$155,001 for an 886-acre unit in
Zavala County, which Grady
Claude Hogue of Cisco won after
some spirited bidding.

TIGHT LITTLE ISLAND
State Highway Department has
discovered an island of Mexico in
the heart of El Paso.
Highway department claims
that there is a quarter-mile sec-
tion on U. S. Highway 80 in El
Paso where you can drive through
Texas and see Old Mexico with
one eye and New Mexico with the
other eye.
Department says Cordova Is-
land became a Mexican oasis in
the Texas city of El Paso under
the Guadalupe Hidalgo Treaty of
1848. Treaty provided that arti-
ficial changes in the Rio Grande's
course would not affect Cordova
Island's boundary. Now that the

American soil.

**MIGRANT SCHOOL
EXPERIMENT**
Five school districts will be able
to take part in a pilot program of
six-month school sessions for the
children of migrant workers dur-
ing the 1963-64 school year. That
is if the Texas Education Agency
can find five districts that can
handle the program.
San Benito and Edinburg school
districts are ready to participate.
McAllen and Pharr-San Juan-
Alamo districts are readying pro-
posals to submit to the State
Board of Education.
Pilot program would be an ex-
periment. Hope is to solve the
problem of educating children of
migrant laborers who are on the
move so much that their young-
sters miss almost as much school

LOTS OF CHEEK—When William "Andy" Wildermuth of Hamburg, Pa., blows his trumpet, it's a battle of the bulge. He has been playing the trumpet since he was 11.

DOG-TIRED—This four-legged, tired tourist in Washington, D.C., is having a rough time getting a cool drink from a water fountain, but, after all, the fountain wasn't designed for French Poodles.

IT'S THE LAW- IN TEXAS

THE LAWYER'S ROLE

There was a time when the method of trying lawsuits was so technical and strange to the average layman that the lawyer was considered a behind-the-scenes manipulator.

Now, since the public has come to know more about trial procedure, this erroneous conception largely has been corrected. The attorney is pictured for what he really is—a hard-working fellow who presents a case in a manner designed to fully and legitimately protect his client's interests.

The lawyer's duty starts with his first contact with his client. When advised of the controversy, he usually questions his client thoroughly to determine all of the facts involved. His first duty is to objectively evaluate the facts involved. He immediately advises his client to tell everything. Facts and circumstances which may seem trivial to the client can be of great value to the lawyer in the trial of the cause.

The attorney then fits the law to the facts involved, and determines the theory under which lawsuit or controversy must be approached. It is surprising to the layman to learn that no two cases are alike; and, that nearly always it is necessary for a lawyer to "hit the books" to find a case or decision which governs the particular principle involved. This is sometimes a long and arduous task depending, of course, upon the intricacies of the factual and legal situation.

Quite frequently the lawyer will find it necessary to take statements of opposing parties or of witnesses to determine what facts they know that will confront him later in the trial. He is permitted to do this under our rules at any time before the trial. He also immediately starts planning his strategy, and determining the main points, factual and legal, upon which he will rely.

The next step in nearly every instance is negotiations between the parties which may or may not lead to a settlement. This usually takes considerable time, ingenuity and diplomacy. As a result many cases are settled out of court.

If the case is not settled, the attorney then prepares for trial. The case may be won or lost in trial preparation.

One of the most important aspects of a trial is the jury. The fate of the lawsuit is determined by 12 persons drawn from different walks of life, of different

interests, and frequently of different race, sex, and nationality. The lawyer presents his client's case to the jury through examination of witnesses and the introduction of other evidence. Based on this evidence the jury decides what are the facts of the case and renders its verdict in accordance with their findings.

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

Jeffrey Russell Honored On His Third Birthday

Thomas Jeffrey Russell celebrated his third birthday, July 3rd, with a party in the home of his parents Dr. and Mrs. Tommy Russell.
Clown hats, neck bands and horns were given to the guests. Games were played and cake and lemonade were served to Curtis and Melinda Minzenmayer, Jackie McDonald, Lauri and Juli Miller, Mrs. Weldon Minzenmayer, Mrs. Lon McDonald, Mrs. Robert Miller, Mrs. M. G. Middlebrook, and Mrs. Russell.

VACATION IN N. Y.
Kleta Gerhart, daughter of Mr. and Mrs. H. F. Gerhart, who is employed in Houston with an accounting firm, spent her vacation recently visiting friends in New York City. She returned home the latter part of June.

FARM ROAD MILEAGE EXTENDED
State Highway Commission has approved construction of more than 1,000 new miles of farm-to-market roads in 172 counties at a cost of some \$24,000,000.
Completion of the 1963 F-M road program would bring the state's F-M system to more than 37,000 miles. That's just 13,000 miles short of the commission's ultimate goal of 50,000 miles. Most of the farm roads have been built since 1949.
State Highway Engineer D. C. Greer linked development of the system to burgeoning city growth in the state. "Farms and cities will always be inter-dependent," he said. "... getting goods to market is as fundamental to commerce as is the transaction between merchant and customer."

MORE WORKERS WORKING
Texas Employment Commission reports that 3,567,700 out of the state's estimated 10,317,000 population were employed by someone other than themselves during the month of May.
Number of employed was way up from April's 3,542,200.
So too was the estimated population of the state. Population in April was figured as 10,297,000.
Thirty day gain in population was 20,000 persons. Employment increased by 25,500 persons.

WINGATE NEWS

Mr. and Mrs. Garland Briley spent last Sunday night with her parents Mr. and Mrs. Edwin Voss and has been helping her mother can peaches. The Brileys were on vacation and were enroute to Galveston and stopped in Kilbuck to see his sister Mrs. J. W. Adcock and Mr. Adcock. Another visitor to the Voss home was Mrs. Nolan Cave.

Mrs. Annie King is visiting her children in Big Spring.

The Dolph Favors of Snyder have been visiting in the Roy Adams home.

W. B. Guy is a patient in Hendrick Hospital and is suffering from Cerebral Thrombosis.

John Gannaway isn't doing quite so well lately.

Mrs. J. A. Broadstreet is still a patient in Winters hospital.

Visiting in the W. T. Holder home the past few days were Mrs. Mollie Smith, Winters, and Billy Kirkland from Arizona. Mrs. Florence Kirkland, Mr. and Mrs. Deat Holder, Abilene, and Mr. and Mrs. B. H. Demson.

Mrs. Ira Low has moved here to make her home. She's living in the J. O. Renfro house.

Mrs. Ike Phillips visited one day last week with Mr. and Mrs. Leonard Phillips.

From Midland came the L. C. Brileys and A. K. Wheat to visit their mother, Mrs. W. W. Wheat. The W. F. Matthews were here Sunday afternoon.

Mr. and Mrs. M. E. Smith returned from Midland where they had been at the bedside of their son Gilbert, who underwent surgery last week.

Mrs. Tyda Johnson is visiting in Merkel with Mr. and Mrs. Jackie Johnson.

Mr. and Mrs. Darrell Low are visiting in the Clarence Hucksby home.

Mr. and Mrs. Johnny Green and children from Oklahoma are visiting his parents, the Carl Greens.

Mrs. Buddy King and children of Fort Worth and Mr. and Mrs. Buck Rodgers of Colorado City are visiting in the Elmer King home.

Mr. and Mrs. Darrell Low were guests in the W. T. Holder home Tuesday.

RSCD Record for Six Months Show Soil, Water Work Good

The Runnels Soil Conservation District's records for the first six months of 1962 show that soil and water conservation work carried out by district cooperators has been good, according to Jake Presley of Rt. 1, Winters, Chairman of the District Board.

Presley stated that for this period 34 new farmers and ranchers signed cooperative agreements with the district on 8,886 acres. This brings the total number of District Cooperators to 871 on 241,869 acres. There were 41 farmers and ranchers who prepared a complete basic conservation program for their places covering 14,604 acres which brings the district's total number up to 490 on 285,468 acres. There were 7 farmers and ranchers who entered into a Great Plains Conservation Program, contract on 2,200 acres which brought this total up to 40 on 26,997 acres. There were 227 district cooperators give a service for this period and 227 of these applied one or more conservation practices.

He said the following soil and water conservation practices were applied this year: 26 livestock ponds, 40 miles of level terraces, 1 mile of diversion terraces, 4 grassed waterways on 26 acres, 1,206 acres of range seeding, 36,541 acres of conservation cropping system, and 29,586 acres of proper range use.

Presley said the District offers its assistance to all farmers and ranchers who wish to develop and apply a conservation program on their places. He said the District has available to all farmers and ranchers the technical help of the local Ballinger Work Unit Soil Conservation Service personnel. He went on to say if there is anyone who needs help on a conservation problem either contact the local Soil Conservation Service people or one of the District

Summer Favorites On July Plentiful Foods List

Foods just right for serving during hot weather will be plentiful during July, reports the Texas Agricultural Extension Service.

What is more refreshing than good watermelon, fresh peaches or cold turkey?

These summertime favorites for beating the heat and keeping your energy high are on the U. S. Department of Agriculture's July plentiful foods list for this area.

In addition, the full bounty of summer's abundance of fresh vegetables — tomatoes, eggplants, beans, peas and lettuce just to name a few of the most plentiful — will overflow your market.

Ice cream, cottage cheese, milk and other dairy foods continue plentiful as milk production continues near the spring peak.

Peas, butter and vegetable oils and oils also are plentiful this July, says the Agricultural Marketing Service — the USDA agency which studies supply, demand, and market trends before compiling the list.

Home-makers can save on their summer grocery bills by taking advantage of seasonally plentiful foods. Generally, such foods offer a better bargain, for prices are lower and supplies are large enough to allow you to select the quality you want.

RETURNED TO MIDLAND

Mr. and Mrs. Johnny Frierson and children left Friday after spending a two weeks vacation with their parents, Mr. and Mrs. W. F. Minzenmayer, Mr. and Mrs. V. E. Frierson.

Supervisors: Besides Presley, the other supervisors are H. Giesecke, Box 270, Ballinger; Arthur Eggenmeyer, Rt. 1, Miles; Kirby Robinson, Rt. 3, Winters; and Bill Minzenmayer, Rt. 1, Winters.

WSCS Discusses "Race" During Regular Meeting

"What We Tell Our Children About Race" was the subject of a program presented at the regular meeting of the Woman's Society of Christian Service in the parlor of the Methodist Church Tuesday.

Mrs. E. H. Baker had charge of the program, with Mrs. Dick Willey, Mrs. D. A. Dobbins, Mrs. Roy Elliott and Mrs. Frank Mitchell taking part.

The meeting opened with a song, "Rise Up, O' Men of God," followed with prayer by Mrs. M. L. Dobbins. Worship was given by Mrs. Jim Edwards, with scripture taken from 1 John, and responsive reading from the hymnal.

Present were Meses Gattis, Neely, H. O. Abbott, Garland Shook, N. L. Dobbins, Alma Daniels, J. D. Vinson, W. T. Stanley, Elmer Mayhew, F. E. Anderson and Miss Frances Stricklin.

The meeting closed with prayer by Mrs. Roy Elliott.

VISITED PARENTS

Mr. and Mrs. Bill Miller of Abilene were week end visitors in the home of her parents, Mr. and Mrs. W. F. Minzenmayer.

Arthur H. Sander Ordained June 30 At Prairie Hill

Arthur H. Sander Jr., who is married to the former Janet Minzenmayer of Winters, was ordained into the ministry of the Lutheran Church in services at St. John's Lutheran Church at Prairie Hill June 30.

Mrs. Sander is the daughter of Mr. and Mrs. A. C. Minzenmayer of Winters.

The Rev. Sander, son of Mr. and Mrs. Arthur H. Sander Sr. of Prairie Hill, graduated from Brenham High School and received his Associate in Arts degree from Blinn Junior College during the summer of 1957. He received his Bachelor of Arts degree from Texas Lutheran College in Seguin on June 1, 1958. He was married to Miss Minzenmayer on July 26, 1961, and served as intern in 1961-1962 at Martin Luther Lutheran Church in Youngstown, Ohio.

On June 1, 1962, he received his Bachelor of Divinity degree from the Evangelical Lutheran Theological Seminary of Capital University, Columbus, Ohio.

The Rev. Sander has accepted a call to serve as pastor of St. John's Lutheran Church, Marion, Texas.

Mayor Thanks Public

I cannot find words to express the humility I feel from such overwhelming concern for my welfare during the past few weeks of my illness. For the many, many cards, words of kindness and concern, offers of help, and general expression of good will and love I shall be eternally grateful. I am especially appreciative of the prayers offered by the various Churches and individuals. To me this is real Christian love. I would also like to express thanks for the kind attention of the doctors, nurses and attendants of both the Winters and Abilene hospitals. Though the many people from out of town and out of State who sent good wishes may not see this note, I would like to publicly acknowledge with thanks their kindness. I trust that their words will be good to me and will allow me to repay, in some small way through service, the kind affection you have shown. I feel indeed rich, though undeserving, for so many good and gracious friends. May God Bless all of you.

Harvey D. Jones

Attending the ordination service June 30 from Winters were Mr. and Mrs. A. C. Minzenmayer and daughter Myra, and Mr. and Mrs. Hans Gottschalk.

Seasonal Changes In Cattle Prices

A knowledge of the seasonal variation in cattle prices is one of the best tools the farmer or ranchman can use to plan a profitable operation.

The chief reason for this seasonal price fluctuation is the change in the number of cattle marketed during different periods of the year, says L-599, "Seasonal Changes in Cattle Prices." Different numbers of cattle are marketed at different seasons due to weather conditions, breeding dates, range conditions and production costs, the publication explains.

In Texas, as in most of the nation, calves are usually dropped in the spring months and are weaned and sold in the fall months. Therefore, the lowest prices in the spring when marketings are at their lowest. The publication points out that the price of higher grading feeder cattle does not vary as much from season to season as that of the lower grades.

Prices quoted in the leaflet are the five year averages paid at the Fort Worth Stockyards from 1958 to 1962. The cattle marketed were grouped into four main groups for comparison. They are slaughter steers and heifers, slaughter cal-

ves, feeder and stocker cattle. The demand for feeder cattle remains strong, but is placed on pasture in more pasture land, leaflet says.

The slaughter call to Texas and a few has increased recent years. Well finished weaners today more and more being fed for the market, according to leaflet. The market class varies more and more should be watched.

HONORED ON BIRTHDAY Larry Joe Nisch on his 11th birthday of Mr. and Mrs. T. Following a turkey watermelon was present were Mr. Williams, Mrs. Joe Kenny and Nancy.

Wise Shoppers— turn to the Enterprise Want Ads FIRST!

- No matter what it is you want to buy . . . a 1962 auto or a 1962 automatic appliance . . . you'll probably find it faster if you check our Classified Section first. And what's more, items sold through the Want Ads nearly always mean bigger savings.
- The easy way to shop? You bet — as easy as sitting in your armchair and talking on the telephone. Be wise — shop our Want Ads this very day!

WISE SELLERS . . .
turn to our Want Ads, too!

- Wise people who have something to sell know that when wise people want to buy, they check the Classified Section first — so wise sellers just naturally turn to The Enterprise and place their "For Sale" ads here! Besides, our Want Ads cost so very little for such fast results!

WASHINGTON NEWSLETTER

Civil Rights Bill Expected To Cause March On Capital

By Congressman O. C. Fisher

While the sponsors of rigid civil rights legislation are basing much of their appeal on unemployment among negroes, that argument is not valid in government employment. According to the 1960 Census, negroes represented about 1 per cent of our population. In June, 1962, negroes held 13 per cent of all federal jobs - 9.1 per cent of all "white collar" jobs and 15.1 per cent of all postal jobs. Here in Washington, negroes held 22.8 per cent of all government jobs.

The 1963 Fiscal Year, which ended last week, resulted in another deficit year to the tune of \$8 billion. Indications are that during the current Fiscal Year the deficit will be even higher. Despite this fact, pressures are mounting on Capitol Hill for Congress to increase spending for expanded welfare and other similar purposes.

The civil rights contest is supposed to trigger a massive negro march on Washington in August. The latest reports here are that up to 300,000 demonstrators will participate. Some of the leaders have indicated they plan to strong-arm their way into the very Floors of the House and Senate while they are in Washington. Spearheaded by Martin Luther King and A. Philip Randolph, these agitators are calling this one an "emancipation march". They are also encouraged by Congressman Adam Clayton Powell who has boasted that the colored people now have the white people in this country "on the run".

The big battles in Congress during this session are yet to be fought. An intensified drive for socialized medicine, a half billion dollar mass transportation aid plan for the big cities, federal aid to education, a domestic Peace Corps, an expanded WPA program

ASTHMA
FAST RELIEF! Terrifying Spasms of Bronchial Asthma relieved quickly (usually within 1 minute) with NEPHRON Inhalant. Even the most stubborn cases respond. Regardless of what you have tried or how hopeless your case, NEPHRON could answer your need with amazing results. See your Druggist for NEPHRON.
MAIN DRUG COMPANY

and a multitude of others, are on top, yet to be debated and be disposed of.

The big battle, however, will probably be over the civil rights proposals, almost sure to provoke a filibuster in the Senate.

The Administration has now moved from tax legislation to civil rights as the number one nation's problem. In any event, it looks as if the Congress will be in session until long after frost this fall.

RETURNED TO MO.

Mr. and Mrs. K. R. Pruett, their daughter, Barbara and Miss Mildred Pruett have returned to their home in St. Joseph, Missouri after a two weeks visit in the home of her mother, Mrs. Ollie Flowers.

Allen and Roeneal Boles Plans For August Wedding

John R. Allen of Bryan are announcing the approaching marriage of their daughter, Phyllis Boles of Comanche. Mr. Boles is the son of Mr. W. Boles of Winters.

The wedding will take place at the All Faiths Chapel on the M. College campus August 24.

Guests will include Sam Houston State Teachers College and a graduate of Texas A. and M. College. He is the agent of Comanche County.

Family Had Sunday In Home

Children of Mrs. T. F. Ragsdale, late Mr. Ragsdale, were in her home, for a family reunion. Mrs. Ragsdale and Mrs. M. and Mrs. H. Ragsdale and Mr. and Mrs. Harve McPeters, all of Blackwell; Mr. and Mrs. Mike Bryant and Michele of Abilene. Visitors in the afternoon were Mr. and Mrs. Jim Eoff of Winters and Bennie John Bradshaw of Bradshaw.
