

## HOME TOWN Talk

By R. C. THOMAS

The November election on the constitutional amendment to abolish the poll tax in Texas served, to a great extent, to slow down the payment of the tax, according to representatives of the county tax collector's sub-office in Winters. Although the poll tax receipts were available for some time prior to the election, most people wanted to wait and see what the outcome of the voting would be before they paid. But the people of Texas decided to retain the poll tax.

Therefore, only about 150 poll tax receipts have been issued from the Winters office. This is far short of what it should be at this time, and otherwise qualified voters who expect to cast their ballot in any election during 1964 have only a few days in which to fully qualify. The deadline for paying the poll tax is January 31.

Because of the great amount of publicity on the subject of the poll tax, there is still some confusion in the minds of some people about it. As it stands at this time, the poll tax receipt will be required for all elections this year, national, state, district, county and local.

This will be a very important year at the polls, and everyone is urged to participate. Only by qualifying themselves, and then voting in all elections, can the people expect to have a voice in their own government. If they take advantage of that privilege, they can retain it... if not, they can expect to lose it.

We like to see credit given when credit is due. So, we'd like to call attention to the statement of condition of the Winters Municipal Hospital, for the year ending Sept. 30, 1963, which was published last week.

For that reporting period, the hospital realized an income of \$83,308.06, with an operating expense of \$73,840.41. This is a difference of \$9,467.65. So far as we can determine, this is the first time in a good many years that this situation has existed for the hospital. Hospitals in general, and the Winters hospital is no exception, usually do not show much, if any, excess of revenue over expenses. Much of the time money must come from other sources to keep them operating.

This excellent financial position of the local hospital can be, to some extent, laid to a continuing confidence on the part of the people of this area, thereby increasing the patient load.

Responsibility for this condition must be given to the entire staff of the hospital, and particularly narrowed down to the supervision of the hospital. Without close supervision and dedication this could not have happened.

A major portion of the credit must go to the hospital supervisor, Mrs. Tommy Rougas. During the time Mrs. Rougas has been supervisor, she has shown an unparalleled attitude of dedication and interest in the successful operation of the Winters hospital. Where many of us perhaps would have gone along with existing circumstances, she has accepted the challenge and gone beyond the normal call of responsibility. She has worked many long hours, sacrificing much of her own private life to the benefit of the hospital.

In addition to her duties as supervisor of the hospital, which is a man-sized job in itself, Mrs. Rougas took it upon herself to organize a training school for Vocational Nurses. This school is now in operation, with Mrs. Rougas as the instructor.

In spite of the continued increase in the work load, and the thousand and one things necessary in the mere operation of the hospital, the staff, under the direction of Mrs. Rougas, never has cut corners nor failed to keep in mind the main purpose of the hospital: patient comfort. This is reflected in the daily hospital census.

The people of the Winters area can be proud of their hospital; they can be doubly proud that its operation is in capable hands.

The following is the lead paragraph of an Associated Press story in a daily newspaper this week regarding the cost of education:

"The nation will spend more than \$21 billion to educate the 41.7 million youngsters enrolled in the public schools in 1963-64." If you can't work out a problem, eliminate it....

## FFA Junior Livestock Show Sale Nets Total of \$4360

Sale of animals shown at the FFA Junior Livestock Show Saturday brought a total of \$4,360 for 20 head. There were 17 head of lambs and three swine sold following the all-day show at the FFA stock barns.

One lamb, weighing 97 pounds was sold for \$305 per pound, with others selling for from \$1.50 to \$2.75 per pound.

Animals sold were those which placed in the show, but were not to be entered in future shows.

In the judging, a fat Hampshire lamb, owned and shown by Scotty Belew, took top honors as the Grand Champion medium wool lamb. The lamb was bred by Bob Brodemeyer. Belew is the son of Mr. and Mrs. J. C. Belew and is a senior of Winters High School, and member of the local FFA chapter.

A crossbred lamb owned by J. W. Aley won the Grand Championship of the finewool division. Aley also is a senior at Winters High School, and is the son of Mrs. J. W. Aley Sr. His lamb was bred by Otto Spathe of Harper.

A Hampshire barrow owned and shown by Jerry Alexander of the Winters High School FFA chapter, was judged the Grand Champion Barrow of the show. Reserve champion barrow was owned by a team, the Schwartz Brothers of the Winters 4-H Club. They also owned the championship trio of barrows.

The swine division showmanship award went to Joe Pritchard of the Wingate 4-H Club. Pritchard showed the top barrow in the other barrows class. Neil Brown, Winters FFA, was exhibitor of the Grand Champion in the Steer Show, a 1-year-old Angus steer bred by his father, George Brown of Winters.

Reserve champion steer was a Hereford shown by Glenn Wright. Bob Colburn was presented an award by the Texas Red Angus Assn. for exhibiting the first Red Angus in Runnels County. His steers placed third

and fourth in the show. Dr. Tim Mason of Abilene Christian College was judge for the lamb and steer shows, and Bill Scott of Abilene High School was judge of the swine show. Scott also acted as auctioneer in the sale which followed the show.

Results of the show were as follows:

## Farm Equipment Moves To West Dale Location

Farm Equipment, which has been located in the 100 block of North Church Street for several years, has completed a move to a new location of West Dale Street. The move was made about the first of the year.

The move places the business, which is the local dealer for Case farm machinery, on a main thoroughfare, and will afford a larger area for showing of new machinery and for the shops, according to E. E. Thormeyer, owner. Show room and shops are in the large building formerly occupied by Way Truck and Tractor Co., with the offices and parts room located in a smaller building to the west.

The shop and show room building is 110 feet by 78 feet, with a partition separating the shops from the front. The office and parts room is 25 feet by 50 feet. Considerable remodeling and repainting has already been done in the new location, and Thormeyer said that much more will be done within a short time.

The business sells all types of Case farm machinery, and does repair and maintenance work on all farm equipment. There is a completely equipped shop, manned by experienced and trained mechanics.

Thormeyer has been the Winters Case dealer since 1947. For about a year the business was located on South Main Street, and then moved to the North Church Street location.

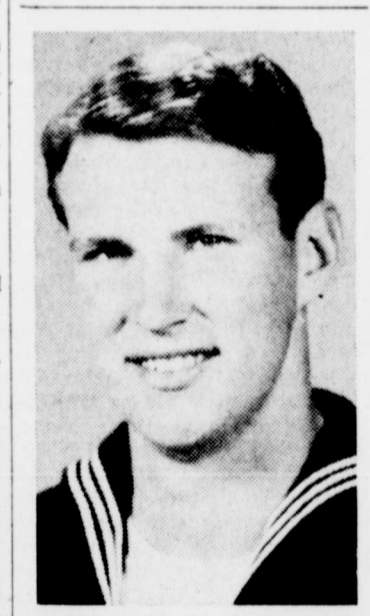

## Winters Library Begins 11th Year Of Operation

Winters Public Library began the 11th year of operation on January 4th, according to Myra Glover, librarian.

The library has grown from a few donated books to more than 5000 volumes. Many of the books are national best sellers, such as "The Group," by McCarthy, "The Battle of the Villa Affair" by McInnes, "The Innocent Dreamers" by Hobart, "Love, Let Me Not Hunger" by Gallico and "Of Good and Evil" by Gann.

Early last year a goal of 10,000 books was set to be checked out during the year. Library members and civic club members began to tell other people about the goal which had been set and by the end of the year the records showed 11,414 books had been checked out.

Every one has an invitation to visit the library and become a member. Library hours are 2 to 6 o'clock each Wednesday, Friday and Saturday.

FORREST SHADE  
... To Great Lakes

Forrest Shade, son of Mr. and Mrs. Forrest Shade, left last Friday following a holiday leave with his parents. He is to report to Hospital Corpsman School, Great Lakes Naval Station, Illinois, and will complete that course of special training in March.

Shade is a 1962 graduate of Winters High School. He attended San Angelo College for a semester, before joining the U. S. Navy. He took his boot training in San Diego, and then was stationed for a while in Pensacola, Fla.

On his return to duty following the leave, Shade accompanied Mike Jones to St. Louis, Mo., where Jones is a medical student in Washington University.

## TV Set Bought For Rest Home

The Rev. Ray Elliott, pastor of the First Methodist Church, who headed a drive recently to collect funds to purchase a television set for the people at Merrill Rest Home here, has reported that sufficient money was donated and the purchase has been made.

He said that a total of \$267 was donated with the entire amount spent for the television set.

The Rev. Elliott expressed thanks to those who donated to this fund, on behalf of the people at the Home.

## Frances Campbell Buys Burns Interest In Fashion Shop

A deal was closed recently whereby Mrs. Frances Campbell bought the interest of Mrs. Ralph Burns and became the sole owner of the Fashion Shop on South Main Street. Mrs. Burns will continue to be associated with the business for a time.

The two ladies had been owners of the ladies ready-to-wear business for about 12 years. Mrs. Burns established the store about 15 years ago and three years later sold an interest to Mrs. Campbell.

Both ladies are well known in Winters and the surrounding area. Mrs. Campbell will continue to serve the surrounding territory with the same quality of merchandise in the future as in the past.

Gattis Neely, who has served as president of the Winters Chamber of Commerce for the past year, was re-named to that office Tuesday morning at the reorganization meeting of the business and industrial organization at the Fireside Restaurant.

Homer Hodge was elected vice president, and Roger (Spec) Robinson was named treasurer.

Five new board members took office during this first meeting of the year, and standing committees were named. New board members are E. E. Thormeyer, M. E. Mathis, Roger Robinson, F. R. Anderson and Hal Dry. They will serve two years. Holdover board members include Neely, Hodge, Don Oakes, James Hinds and John Gardner.

President Neely named members of the board to head standing committees. They will be assisted by other members of the board and members of the chamber of commerce.

Committees are: Agriculture: E. E. Thormeyer. Streets and Highways: John Gardner.

Public Relations: J a m e s Hinds

Industrial: Homer Hodge. Retail Trade: Don Oakes. Parks and Recreation: M. E. Mathis.

Education: Roger Robinson. Membership: F. R. Anderson. Housing: Hal Dry.

The board voted to continue holding the regular monthly meeting at 6:30 a. m. on the first Tuesday, and discussed the annual Chamber of Commerce banquet, which is scheduled for Thursday night, January 31.

## Meet At First Presbyterian Set For Sunday

A congregational meeting has been scheduled at the First Presbyterian Church at 8 p. m. Sunday, following a covered dish supper, according to the pastor, the Rev. Edgar Graham. Purpose of the meeting is to hear reports on the progress of the church in 1963, and the adoption of a budget for 1964.

## Auditor's Report Indicates City In Good Condition

The auditor's report for the City of Winters, for the year ending September 30, 1963, indicates that the books of the City are in good shape, with the City in a good financial condition.

The report, submitted by the firm of Cherry, Eckert & Story, Certified Public Accountants of San Angelo, was released and made public several days ago. Mayor Harvey D. Jones, in releasing the final audit for the last fiscal year, said that the "financial condition of the City is excellent." He added, "I believe (the condition) is due to unusual cooperation between the citizens, the City Council and the efforts of the employees of the City." He pointed out that while only the Balance Sheets of the audit report were published, according to State Statutes, the "full and complete audit report is a matter of public record and may be examined by any citizen at any time. The City Administration encourages such examination."

**WATERWORKS**  
Income for the several departments of the City increased over that of the previous year, along with an increase in expenses. The Waterworks department accounted for the largest increase in revenue, with a total of \$20,924 above that of last year. Total operating revenue for this department was \$86,888.63, against \$67,781.59 for the previous fiscal year. Expenses, both operating and non-operating, amounted to \$46,258, below the amount shown

for the previous year, which was \$50,996.

**MUNICIPAL HOSPITAL**  
The Municipal Hospital also showed an increase in revenue, and a decrease in operating expenses. The statement of revenue and expenses for this department shows that a total of \$83,308.06 was received for all hospital accounts for this fiscal year, an increase of \$8,648 over the previous year. Previous year's income was \$74,660.92. Expenses for this department also were lower than for the previous year, with \$73,840.41 as a total. Last year's expense total was \$75,297.52. The hospital showed a total of \$9,467.65 in excess of revenue over expenses. The previous year, there was listed a loss of \$636.60 for the hospital.

**MUNICIPAL LIGHT PLANT**  
The audit report also shows that the Municipal Light Plant increased its revenue for the fiscal year ending Sept. 30, 1963. Operating revenue totaled \$129,238.60 for the year. \$1,448 over the total of \$127,790.28 for last year. Expenses also were down, to show a net income of \$34,282.15 for the year, against \$32,245.26 for the year prior.

**GENERAL FUND**  
More taxes were collected this year than during the previous year, according to the audit report. Ad valorem taxes accounted for \$54,410.04 in the General Fund this year, \$5,941 above that of the previous year, when \$48,469.10 was collected. Total revenue for the General Fund was \$115,786.13, against \$108,404.25 for the previous year.

ending Sept. 30, 1962. Expenses also were up for the year, with a total of \$89,465.71 in this department. The previous year's expense total was \$83,088.54 for the general fund.

**BONDED INDEBTEDNESS**  
A substantial reduction in the bonded indebtedness of the City of Winters is shown in the audit report. A total of \$810,400.00 was shown in the previous year's report. This has been reduced to \$774,400.00 for the year ending Sept. 30, 1963.

Although the report shows that various departments still are deeply in debt, one department should be free of bonded indebtedness during 1964. The last bond for the Municipal Hospital, \$1,500 is scheduled to be retired this year, leaving the hospital debt-free.

The report shows that the Municipal Light Plant is responsible for the biggest indebtedness within the City's structure. Electric revenue bonds total \$169,000, electric refunding, \$72,000, and a General Fund backed 1960 refunding bond for \$129,900, bring the debt of the light plant to \$370,900. This is below the \$388,000 shown for the previous year, with some of the bonds being retired during that time.

The waterworks still owes \$133,000, the park fund, \$18,000, and there is another 1956 refunding bond for \$111,000. The City Hall bond has been reduced to \$30,000, and the hospital bond, which will be retired this year, \$1,500.

Mr. and Mrs. Hurt have recently moved to Winters from Shep. Sid Coffman visited with his mother, Mrs. Vera Coffman and the Hurts last week.

CARD OF THANKS  
I wish to express my sincerest thanks to the friends and neighbors for the many acts of kindness shown me and my family during the time I was a patient in the hospital. A special thanks is extended to Dr. McCreight, the hospital staff, Spill Bro. and Company for ambulance service, for the cards and visits. My family joins me in expressing thanks to each of you. May God bless you and your family. Mrs. Henry Vogler. Itp

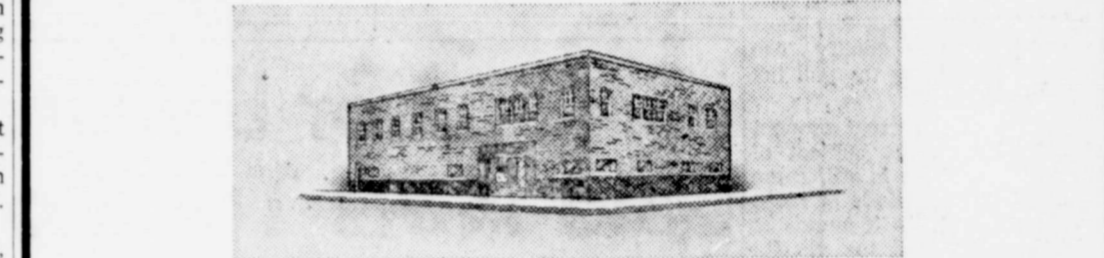

**A BANK is a necessary aid to Community PROSPERITY**

One false idea about a bank is that it is an enterprise which profits at the expense of its depositors, its borrowers and the community.

The truth is that a bank circulates money, quickens the pace of business and adds to the wealth of the community. Out of these added profits, the bank makes its own living.

If a bank were not useful, people would not use it. The fact that the current of business life flows through the doors of the bank, proves how much its services are needed and appreciated by the people.

We have recently established a new department, one in which the people of this area do not have to leave town to get interest on their savings. Please allow us the privilege of explaining this added service and remember always that this bank was established to be helpful and to provide a dependable depository for money. We are now prepared to render a greater service than has ever been provided in this area.

**'64 Jet-smooth Luxury Chevrolet**

What does it take to make a car a great highway performer? If the car happens to be a '64 Chevrolet, one thing only. A highway.

You'll find everything else already neatly packaged for you—on the car exactly as you pick it off the showroom floor.

There's a choice of seven engines—all the way up to a twin-carb high-compression 425-hp V8\*—and four transmissions, including a finely honed 4-speed stick shift.\*

And underlying it all—a bump-skimming Jet-smooth ride that helps keep the performance great even when the highways aren't so great.

What about special performance equipment? Professional driving skills? Forget them. Nobody has to doctor or coax or soup up these Chevrolets to get the best out of them. And that's really the test of a great highway performer: Just about anyone can get a kick out of driving one, just about anywhere, just as it comes out of the showroom.

Next time you're out your dealer's way, allow a few extra minutes to sample one of these highway performers on your own. A few are really all you'll need. That's enough time to do a lot of driving in a Chevrolet. \*Optional at extra cost

**who's doing the dishes tonight?**

That's a silly question. I take it for granted you are, mom. Do you know that it's been proven the average woman puts in over sixty 8-hour working days per year in hand-washing dishes? ... time that you can put to far better use.

An automatic dishwasher is the answer to your dishwashing chore. It will save you more than half of your after-meal cleanup time, and keep the kitchen neat and clean after between meal snacks. As sure as I'm Reddy Kilowatt, you'll have to admit that continuing to do the dishes by hand is about as pointless as laundering the clothes by hand.

### Mrs. John Cave Dies At Hylton At Age of Ninety-Two

Mrs. John Cave, 92, resident of the Hylton Community for 69 years, died at 10:35 Sunday evening at the Baptist Geriatrics Hospital in San Angelo. She had been hospitalized since February 18.

Funeral services were held at 2 o'clock Tuesday afternoon in Spill Memorial Chapel with the Rev. A. O. Hendon of Sweetwater officiating. Eastern Star rites were held at the chapel conducted by the Hylton Chap-

ter of the O.E.S. Burial was in the Hylton Cemetery.

Born Rebecca Mabel Davis Oct. 12, 1871, in Morrisville, Mo., she moved with her parents, the late Mr. and Mrs. James R. Davis, near Glen Cove in Coleman County when she was 11 years old. She attended school at White Chapel.

On Nov. 1, 1891, she married John Cave at Glen Cove. In 1894, they moved to Nolan County, settling in the Hylton community, where she had lived for the past 69 years.

Mrs. Cave was a member of the Wingate Methodist Church and was a charter member of the Hylton Eastern Star. Mr. and Mrs. Cave celebrated their 50th wedding anniversary in 1941 and Mr. Cave died July 3, 1948.

Survivors include one daughter, Mrs. Millard Hunter of Hylton; three sons, Guy of Sweetwater, Charlie of Blackwell, and Nolan of Wingate; six grandchildren; and 14 great-grandchildren.

Pallbearers were Ray Alderman, Arthur Lee Stokes, Bill Hamilton, Barron Cave, George Cave, Grady Dunnam, J. T. Dunnam, and Bert Edmison.

**RETURNED TO ILLINOIS**  
Mr. and Mrs. Vernon Lanter and son, Danny left Friday for the return trip to their home at Des Plaines, Illinois after spending two weeks visiting in the home of her parents, Mr. and Mrs. Roy Davis.

**RETURNED HOME**  
Mrs. E. M. Davis returned Saturday to her home in Fluvanna after a two weeks visit in the home of her son, Roy Davis.

### Funeral Services Last Friday For G. B. Sliger, 81

Funeral was held Friday at 2 p. m. in Spill Memorial Chapel for George B. Sliger, 81, a resident of southeast Nolan County since 1901. Officiating were E. B. McCowan of Abilene and Elmore Johnson of Stanton.

Burial was in the Campbell Cemetery in Nolan County.

Mr. Sliger, a retired rancher and evangelist, died in Simmons Memorial Hospital at 12:55 p. m. Wednesday of last week. He had been a patient since Nov. 2.

He was born Nov. 21, 1882 in Cookeville, Tenn., and moved with his family to Bell County in 1892 and to the Wingate area in 1894. In 1901, they moved to the Hylton community, where he had lived ever since.

He married Sina Cate on April 7, 1907, in Hylton.

The evangelical minister was a member of the Palm St. Church of Christ in Abilene. In his later years, he conducted services from a wheelchair.

He was a long-time trustee of the Hylton school and member of the Nolan County school board.

Surviving are his wife and two daughters, Mrs. A. C. Craver Jr., of Abilene, and Thelma Sliger, of San Angelo; two granddaughters, Rosalind Ann and Linda Sue Craver; a sister, Mrs. Henry Stevens of Hylton; and a brother, A. M. of Wingate.

Pallbearers were Sonny Wate of Hylton, Carl Green and David Bryan of Wingate, Bill Lindsey of Winters, Clarence Morris of Lawn and George Latimer of Abilene.

**Mrs. Ellis Ueckert Presided For Circle Meeting Thursday**

St. John's Lutheran Ladies Aid held its regular meeting last Thursday with Mrs. Ellis Ueckert presiding in the absence of the president and vice president. Mrs. W. W. Ahrens was the program chairman.

The group sang the theme song "Breathe on me, Breath of God." The ladies of the circle were divided into four groups for the Bible study, which was taken from the books of acts. The leaders for the groups were Mrs. A. W. Holck, Mrs. Ellis Ueckert, Mrs. E. E. Thormeyer and Mrs. Walter Kraatz.

The birthday number was a reading by Mrs. Charlie Adams "You Are Much Richer Today Than Yesterday." Mrs. George Pruser called the roll and read the minutes. Twenty-eight members were present. Miss Emma Henniger gave the treasurers report and Mrs. John Hiller gave the offering meditation. The meeting closed with the Lords prayer.

Hostesses were Mmes. C. H. Stoecker, A. W. Stoecker, Robert Spill and Herman Spill.

**ATTEND MEETING**  
Six delegates of the Runnels County Farm Bureau attended the District VII meeting Monday in Brownwood. They were President Ben Frerich and Mrs. Frerich of Rowena, J. F. Droll, Rowena, Miss Jo Ann Switzer, officer secretary, B. B. Campbell, first vice president of Hatchel, and Neuman Smith, second vice president of Hatchel.

**SON IS BORN**  
Mr. and Mrs. Jim Bailey Jr., are parents of a boy, Jeffery Don, weight 7 pounds 3 ounces, born at the Winters Municipal Hospital on December 30. Grandparents are Mr. and Mrs. Lewis Blackmon and Mr. and Mrs. Jim Bailey Sr.

## State Capital Highlights—

### Austin Returns To Normal After Serving As "Vacation White House"

By—Vern Sanford  
Texas Press Association

Austin has settled back to being just the capital of Texas after nearly two hectic weeks news-wise as the vacation White House.

Dozens of top cabinet officers, military leaders and federal agency heads followed German Chancellor Ludwig Erhard and his advisors to the LBJ Ranch for conferences with President Lyndon Johnson.

Encouraging predictions of progress toward world peace emerged from the President's international discussions. The federal budget and economy were spotlighted in the domestic talks.

Before he departed, White House sources gave these insights into the President's thinking: He does not feel the U. S. can drag its feet until after elections this year before pressing for new peace breakthroughs.

He regards civil rights and the \$11 billion tax cut as "legislative musts." Also, he has expressed support for the medicare program of aid to the aged.

Reducing the budget to save money for essential human needs, including education, is regarded by the President as of concern to all Americans. He hopes cost cutting will serve as a pattern for future years.

Slum clearance and "a home for every American" are seen as goals of his administration. Some newsmen interpreted this as a likely 1964 campaign slogan.

Johnson hopes to steadily improve American preparedness. But he is strong for elimination of military obsolescence, particularly old bases and installations retained in the budget for political reasons.

Congressional leaders will run their own legislative show. But the new President won't hesitate to ask old congressional friends for what he thinks is needed.

Johnson hopes to draw on the talents of both business and labor to render public service. He is concerned about unemployment and is calling for new solutions.

Prison treatment program. Prison chief said the reduction not only will save money on prison care, but also in welfare funds spent on families of inmates, not to mention restoring prisoners to productive lives as citizens and taxpayers.

**PRISON SYSTEM INCOME**  
Farm products and livestock produced more than \$6,500,000 of the prison system's 1962 income, according to the auditor's report just released. Other sources were: manufactured products, \$3,704,616; oil and gas leases, \$39,237; miscellaneous, \$3,287,167.

Report placed total income from farms and farm industries at \$10,144,773, with expenses of \$14,304,734 for a deficit of \$4,159,961.

Manufacturing operations include license plates, shoes, textiles, clothing and other products.

**SCHOOL INCOME THREAT**  
Texas school income will be drastically reduced unless the Federal Power Commission sets an adequate price for gas in the Texas Gulf Coast area and the Hugoton-Anadarko area of the Texas Panhandle, Attorney General Carr contends.

Carr has filed a petition to intervene in price hearings ordered by FPC to determine reasonable rates for sale of natural gas in the areas.

Earlier he filed briefs requesting FPC to set the price of all gas in the Permian Basin area at 21 cents MCF. The FPC staff sought a nine cents MCF rate for casinghead gas and 13.7 cents MCF for gas well gas.

Attorney General noted in his brief that Texas levies a 7 percent occupation tax based on market value of the gas at the well head to help support state government.

He also pointed out that the University of Texas system owns more than 4,700,000 acres of land in the Permian Basin area. Bonus money and royalty income from this acreage goes to the permanent school fund for Texas education. More than 18,000,000 acres of state land are involved in the Gulf Coast hearing.

### IMPORT PROGRAM "INEFFECTIVE"

Basic structural deficiencies in the mandatory oil import program have rendered it "both ineffective and politically inappropriate," according to a Texas representative to the Sixth World Petroleum Congress.

Sen. Charles Herring of Austin so concluded in his report to Gov. John Connally.

The time has arrived, Herring stated, "for a comprehensive review of the program, leading toward the evolving of a whole new approach."

The Senator found "evidence of a serious monopoly trend within the petroleum industry" and no basis for assuming that corrective forces "will emerge from within the industry itself."

Herring said Texas is suffering "grave economic damage" from its attempts to balance supply with effective demand to "serve as a balance wheel to world oversupply."

### HAY FREIGHT HIKE SOUGHT

Although the hay shortage has shoved prices up to double the normal, hard-pressed Texas ranchers and dairymen may have another cost increase in sight.

Railroad Commission already has been asked by the Livestock Carriers Association of Texas to increase truck freight rates on hay and cottonseed hulls.

A hearing on the application has been set by the Commission's rate division for January 20. In some cases this would mean a rate increase of more than 100 per cent.

### HIGHER EDUCATION

Governor Connally is expected to decide soon whether to designate an existing state agency to administer an estimated \$11,600,000 worth of Federal grants for college construction facilities in fiscal 1964 or create a new State commission on higher education.

Although the Texas Commission on Higher Education is re-

The vehicle tax applies to the net purchase price, and was 1.5 percent through June 30, 1963 and 2 percent after that date. Cigarette tax deduction is 8¢ per pack for Texas. Gasoline tax is 5¢ per gallon for Texas.

### Daughter of Former Residents Married In Lubbock Dec. 22

Second Baptist Church in Lubbock was the setting for the marriage of Miss Sandra Davis to Mr. Howell Ray Phelps at 3 o'clock Sunday December 22. The bride is a daughter of Mr. and Mrs. Otis Davis of Lubbock, former residents of Winters. The parents of the groom are Mr. and Mrs. Ray Phelps of Spearman.

The Rev. Chapmond Davis of Longview, brother of the bride, officiated for the double ring ceremony.

Mrs. Frank Finch, organist, accompanied Miss Connie McMillan and Babs Davis, niece of the bride, soloists, in traditional wedding music.

The bride, given in marriage by her father, wore a floor-length sheath dress of satin brocade. The dress featured a portrait neckline, bracelet-length sleeves and a detachable full chapel train falling from the waistline. The bride's headpiece was a small pillbox of satin, lace trimmed with seed pearls with a tiered veil of imported silk illusion. She carried a bouquet of white cattilya orchids surrounded by Stephanotis, caught by an antique jeweled holder, belonging to the groom's grandmother.

Mrs. Jo Hatler of Ore City sister of the bride, was matron of honor. Bridesmaids were Janice Phelps, sister of the groom, Vala Dawn Taylor, Kay and Mary Ruth Thomas of Midland. They wore street-length dresses of emerald green brocade satin featuring empire bodices with full bell skirts and bracelet length sleeves. Their headpieces were matching fabric pill box hats with silk illusion and they carried long-stemmed white roses.

Responsible for the administration of State senior colleges and universities, junior colleges—which would get some \$2,700,000 of the grant money—come under the jurisdiction of the State Board of Education. There is no State agency for private colleges.

The construction-aid program is designed for both public and private colleges. Connally's decision must meet with the approval of the U. S. Commissioner on Education and be confirmed by Attorney General Carr.

A viewpoint on public education, recently advanced by a subcommittee of the Governor's Committee on Education Beyond the High School, was expressed by the Education Policies Commission of the National Education Association and American Association of School Administrators. Commission recommended that American youths receive two more years of free education after high school.

**CARD OF THANKS**  
Mere words are hard to find to express my thanks to the neighbors and friends who were so kind and thoughtful while I was a patient in the Winters Municipal Hospital and since I have returned home. A special thanks is expressed to members of the Friendly Fellows Sunday School Class and the postoffice force for the lovely flowers and visits. My wife joins me in expressing thanks to each of you. M. T. Bridwell. 1tp

**APPRECIATION**  
We wish to thank the various clubs and organizations as well as the individuals who contributed to the fund for a television, cakes, food of all kinds and other items which helped to make a happier holiday for the residents of the Merrill Home for Senior Citizens. We are deeply grateful and assure each of you that your kindness will always be remembered by each resident of the home. Mrs. Merrill. 1tc

**RETURNED TO CALIF.**  
Mr. and Mrs. Earl Baize and sons, Earl Jr. and Larry of North Highlands, California left Thursday after spending a few days in the home of Miss Mary D. Taylor.

### Winters Girls Beat Jim Ned Basketball Team Last Week

Winters High School girls' A basketball team downed the Jim Ned High School girls 47-36 at Winters last week, while the B team lost to Jim Ned.

Scorers for Winters were Elaine Beard with 19 points, Nicki Eoff with 15, Jan Byrd 13. Guards who saw action were Ann Bean, Barbara Belitz, Judy Williams, Norma Wade, Ginger Ivie, and Jo White.

Jim Ned won the B game 31-28, with Amy Aldridge listed as top scorers for the winners, netting 20 points. Ida Martin was high for Winters with 11 points.

The A team attended a girls' tournament at Anson recently, where Elaine Beard made the all-tournament team.

### PRISON POPULATION REDUCED

For the first time in 18 years, the number of prisoners in the Texas Department of Corrections shows a decrease.

Department Director Dr. Geo. Beto reports that the December 31 count was 12,150, compared with 12,203 the year before. Since 1945, there has been a steady climb in number of prison inmates.

Beto cited these reasons for leveling off: more adequate parole supervision; opening of a new first-offender unit; a pre-release program of preparing prisoners for freedom; an expanded trusty program; and overall improvement in the

prison system.

**OUTDOORS IN TEXAS**  
By VERN SANFORD

What keeps fishing good on Falcon Lake every month in the year?  
That question is asked by everyone who has fished there. Falcon Lake is that 100,000-acre impoundment that straddles the Rio Grande some 50 miles south of Laredo. It is a frontier lake, a new lake and a mysterious one that always is productive.  
Unfortunately the drawdown for irrigation downstream has been very heavy during the past few months because of the dry weather. But still it is a fabulous fishing spot.  
Two of my friends who fish down there a great deal are Bill Moore, Brownwood tackle representative and L. A. Wilke, recently retired as editor of the Texas Game and Fish Magazine.  
They have a pretty good answer is that Falcon is the one major lake in Texas where the spawning season is almost continuous.  
In most Texas lakes the heavy spawn is in May and June. By that time there are plenty of fingerling bass in Falcon.  
Same condition also is true in the fall. Fishing there recently these two men saw literally thousands of small bass from two to four inches long that came out of late spawns.  
Right now in some parts of the lake six and eight inch bass can be caught on almost every

and during that time he has strung up more than his weight in six pound bass.  
During the time these two men were fishing on the lake they met people there from all over Texas. There was one woman from Oklahoma City. She had trailed a boat from Oklahoma City to Amarillo where she picked up her mother. They drove out of a snow storm in the Panhandle, on to Falcon and spent three days fishing. It wasn't their first trip. They make it twice a year.  
There was a doctor and his wife from Wichita Falls, a contractor from Lubbock, a farmer from Levelland, a lawyer from east Texas and a man and wife from Beaumont.  
Because of the excellent accommodations at Falcon it is a great place for husband-wife fishing teams. Women will take the rough water and usually catch more than their menfolk. But when they quit fishing they want a clean place in which to stay. Falcon has them.  
Catfishing from baited holes also is getting a lot of attention from fishermen. Weathersby has baited his dock and fishing goes on there day and night. A few hundred yards off Paradise Point a tree growing out of the water marks a baited hole where a dozen boats stay tied up most of the time. Catfishing around these holes, with the use of stink bait, is fabulous.  
So if you are looking for fishing that's different and consistently productive, try Falcon.

den them. Such a bird doesn't do anyone any good.  
Sometimes we wonder at the manner in which biologists reach their conclusions about bag limits.  
Most of them will tell you that legal gun pressure will not deplete the birds. Then they will put a limit on them that is so impractical it results not only in violation, but worse still, in loss of the game entirely.  
Same can be applied to turkeys.  
In Texas we have an all-gobbler law. Yet in the field every year there are hundreds of hens killed and left in the woods. Occasionally one winds up in the pot, but most of them are wasted.  
No sportsman will shoot a hen intentionally. In fact it is seldom that a hen is killed by a sportsman accidentally.  
Usually he knows the difference between a hen and a gobbler. And in hunting season the two seldom run together, unless it is a young tom not yet broken away from the mother hen.  
Basically there is no reason for a hunter to kill a hen. But when one is killed, it is a shame that its meat has to spoil. Perhaps a longer look at the system might improve this. Other states have.  
Anyway, if you really want to learn how to identify ducks, get off your order right now for

## Gunfight at the O.K. Corral

"Gunfight at the O.K. Corral" takes its name from one of the most celebrated and fierce gun battles in Western history. Not only is it the fast-moving story of this legendary battle, but it also includes several legendary characters: Wyatt Earp, played by Burt Lancaster; Doc Holliday, played by Kirk Douglas; Johnny Ringo, played by John Ireland; Bat Masterson, played by Kenneth Tobey; plus the notorious "Clanton family." "Gunfight at the O.K. Corral" recounts the famous story of the rivalry between the Clanton family of desperadoes and the Earp family of lawmen. Kirk Douglas plays the gin-guzzling, gun-slinging ex-dentist, Doc Holliday—and though a lawless individual himself, he grudgingly agrees to help hunt down the Clantons. Earp and Holliday chase the Clantons from Dodge City to Tombstone where they battle it out at the O.K. Corral. Romantic interest for Lancaster and Douglas is provided respectively by Rhonda Fleming, who plays a lady gambler; and Jo Van Fleet, who enacts the role of a dance hall girl.

Two For One Night!

clothes to sloppy pants, brandy snifter to holstered pistol. There are also some tantalizing detours such as the shower-bath where co-star Elsa Martinelli catches him barefooted, as it were, and the moving train where his other co-star, Jack Hawkins, tries to have him destroyed by a wild animal. All these ins- and -outs Mitchum meets with the aplomb that is his trademark.

The brawny actor let himself be lured out of his 200-acre Maryland farm by the provocative "Rampage" role, that of a big-game trapper on an expedition for two tigers and a fabled beast known as "The Enchantress." The jaunt includes big-game trapper Hawkins and his youthful mistress, personified by Miss Martinelli. At the end of the hunt, Mitchum has his cats, the girl has him, and Hawkins has jealousy enough to try murder.

"The Mouse on the Moon," Straight from its long-run engagements in London and New York where it evoked critical raves of the "wow" variety, comes Lopert Pictures' "The Mouse on the Moon," a comedy extravaganza in Eastmancolor with Margaret Rutherford, Bernard Cribbins, Ron Moody, David Kossoff and the sensational Terry-Thomas in the top roles.

Showing Friday and Saturday at the State Theatre, the comedy is a Walter Shenson Production adapted from the novel by Leonard Wibberley, which means it comes from the same masters of the light and deft touch which made the recent "The Mouse That Roared" such a success.

## Dry Ranges Pose Problem For Texas Stockmen

Beef cattle which have been on dry ranges for the past six months or more may face serious nutritional deficiencies, says U. D. Thompson, extension animal husbandman. Of major importance is the lack of sufficient range grass or forage. The low quality or absence of total digestible nutrients is a further complicating factor, he adds. This kind of roughage contains little or no protein, phosphorus and vitamin A.

Decisions are difficult to make during stress periods. An attempt should be made to balance livestock numbers and forage supplies. Calves may be weaned earlier to help relieve grazing pressure and improve cow conditions. Fewer replacement cattle should be kept and culling is always in order. Non-breeders, slow breeders, irregular breeders and cows which consistently produce lower grade, light weight calves should be marketed. Thompson recommends that cows be palpated to determine pregnancy and to sell those not pregnant.

Under conditions of extreme drought, it may be advisable to confine the foundation herd to a small acreage. High energy feeds such as grains and protein supplements may be fed in limited amounts for maintenance. Forage is the critical feed, however, and is usually high in cost for total digestible nutrients, he says. A protein supplement fed with the forage will improve digestion.

Phosphorus is the most likely mineral to be deficient under drought conditions. A mineral supplement high in phosphorus should be fed free choice or in controlled drinking water and salt should also be fed free choice, the specialist advises.

Vitamin A may or may not be deficient depending upon the forage available. Protein supplements fortified with vitamin A should be considered. Synthetic vitamin A is available for use in drinking water, injections or for mixing with feed.

## Deloris Foster And Carlton Parks Announce Their Engagement

Mr. and Mrs. L. C. Foster are announcing the engagement of their daughter, Deloris, to Mr. Carlton Parks, son of Mr. and Mrs. Carl Parks of Route 2, Winters.

Wedding plans are indefinite.

Miss Foster is taking the Vocational Nurses Training Course at the Winters Municipal Hospital. She is a graduate of Winters High School with the class of 1963.

Her fiancé is also a graduate of Winters High School and is associated with his father in farming.

## Roger Babson Says—Selecting Elective Courses In College Very Important to Student

Babson Park, Mass. Parents throughout the nation will be having their young folk home for Christmas from the colleges they have been attending this year. In most cases, when the young people return to college they can select certain optional studies in addition to the compulsory courses which are the minimum requirement. Without being specific, I would like to recommend strongly that these "elective" studies be in one (or all) of the following four general divisions.

**English**  
Any student looking forward to government work of any kind will have to take an examination in English. This applies especially to those going into the diplomatic service, or out of the country on any government work. Such memorandums or reports as they send out will be read by many persons, and the character of the English used will reflect on the government employee writing the material. In fact, a good grounding in English grammar and facility of expression are important to success in any line. Many a scientist (brilliant in his own field) has found acceptance of his conclusions hampered by an inability to present his case with clarity and effectiveness. It is also important for parents to use good English at home. Irrespective of what our children learn at school, they inevitably use the language they hear at home and are judged thereby. Hence, English should be one of the primary electives for young people.

**The Sciences**  
We are living in a new age. When I went to high school, and even college, the laboratory work consisted mainly of a few experiments in physics and chemistry. Not only are these now outdated, but much new research and discovery have been added in this era of radio, television, and other wonderful inventions. Moreover, we are now in the atomic age, which will develop new sources of power all over the world.

An elective course in one of the sciences should be a great help in getting any kind of job today. The main thing is to understand the various terms so that you can talk intelligently, as a salesman or as a fellow worker. This especially applies to the nomenclature of the electronics industry, which is still in its infancy. Although I graduated from the Massachusetts Institute of Technology, which today is supposed to be "tops" in electronics, yet I was taught nothing—in my day—about that subject and therefore am ignorant in that field. Be sure your youngster takes a course in the sciences.

**Physical Health**  
Too many young people are graduating from college as "experts" only in football, baseball, basketball, or some of the other games in which colleges compete. Such men are idolized by the girls, but this does not help them get good jobs when they graduate.

My immediate interest is that

## IT'S THE LAW IN TEXAS

**Friends Of The Court**  
Our system of justice rests upon the "adversary" theory of a trial where both sides have a right and duty to fight in dead earnest for real stakes so that the court can then better judge the merits of the case.

Our U. S. Supreme Court, for example, will not give an "advisory" opinion to anybody since such opinions elsewhere, often uncontested, make a mockery of the courts.

Our courts generally will decide a point of fact or law only where it has become the subject of a real controversy, and both sides will be represented with skill and in good faith.

A good judge knows that one side may sound good until he hears the other side speak. This is why a court may frown upon "friendly law suits" where two sides agree to go to court and get a decision interpreting an important legal question.

Without a real contest, the court may not see what a true adversary would make clear—that is, that there is another side to the question before the court, and that, perhaps the interests of many other people may be involved.

The other day one court threw out such a made-up law suit where a county in another state and a prospective county bond buyer had agreed to "test" the legality of some bonds in a friendly suit at the county's expense. One side would have pretended to put up a fight.

The courts go a long way to get real contests. They allow "friends of the court" (amicus curiae) to enter on one or both sides to fight in earnest.

In old Rome any passing stranger, or amicus curiae, might speak up to tell the court of a possible error it was making.

In America, the friend of the court often helps to point up the important issues.

For instance, a little known sect may print a religious tract or leaflet in some remote village. The constable may arrest one of its followers for "littering the streets." The fine may be a trifle, but the issue is big. Can any government unit, of whatever size, curb the freedom of the press or freedom of religion?

As this case goes on to higher courts, more and more people—citizens, publishers, and religious groups get interested. They too have a stake in getting

the "right" decision. The case lands in the U. S. Supreme Court. A dozen or more groups will ask the court to let them present "briefs" or amicus curiae arguments on both sides. Result: the court says no government can curb these freedoms.

Thus are great causes ably presented.

## Lone Star Gas Building New Compressor

A new Lone Star Gas Company natural gas compressor station, now under construction at Hermleigh, will make additional gas available for the Sweetwater and Abilene area, according to T. J. Skrabanek of Dallas, superintendent of Lone Star's Compressor Department.

Construction began in mid-November. The station should be in operation by April 1, 1964. Construction is being handled by Lone Star's Engineering Department plant construction crew under the supervision of Floyd Wells.

Purpose of the station is to compress about 25,000,000 cubic feet of gas daily from a supply source in Coke County. The gas will be injected into the 12-inch pipe line that extends from Snyder to Sweetwater and then into Abilene. Location of the station is on the Roscoe highway, 13 miles southeast of Snyder.

### Pannell Legg, Jr. Seeks Re-Election As Tax Assessor

To the Voters of Runnels County:

I wish to announce to the voters of Runnels County that I will be a candidate for re-election to the office of Tax Assessor - Collector in the Democratic Primaries in May and June.

First, I wish to express my thanks to the people of the county for the fine cooperation given me during my previous terms of office. Your support has made it easier to serve you and to conduct the business of the office.

I feel that the years I have spent in the office have given me experience that will make it possible for me to serve you even better in the future. If re-elected, it will be my purpose to operate the office to the best interest of all the taxpayers of this county. The office also handles the registrations of cars and other duties, for which experience is of utmost value.

I will see as many people as possible before the first primary; however, this comes during the period of car registration, and I will be forced to stay close with my work.

Please take this formal announcement as a personal request for your consideration, and if possible, your support.

Pannell Legg Jr.

### E. C. Grindstaff Candidate For District Judge

I take this means of making my formal public announcement to you for the office of District Judge of the 119th Judicial District of Texas in the Democratic Primary of 1964.

First, I want to thank you for the overwhelming vote you have given me in the past 12 years as your District Attorney. It has not only been a pleasure but certainly an honor to have served you in this capacity. At this time, I am seeking a promotion to the office of District Judge and again I am asking for your continued support and influence.

There is no substitute for experience. By having 11 years experience as County Judge of Runnels County and 12 years as District Attorney of this District, I feel that this background and the well-rounded legal qualifications to serve you as a fair and impartial Judge. Being in continuous and constant touch with all the problems of the district, it has also given me adequate insight of the judicial needs of the district.

I completed high school at Mineral Wells, attended State Teachers College at San Marcos for one year, taught school and then later received my B. A. Degree from Hardin Simmons University. I studied law at the University of Texas and was admitted to the State Bar of Texas in 1935. I taught school in Runnels County before being elected County School Superintendent. After serving in that capacity for six years, I was elected County Judge of Runnels County in 1940 in the first Primary over two opponents. While serving as County Judge, I had the distinct honor of being President of the State County Judges and Commissioners Association in 1947-1948. In November, 1951, the Governor of the State of Texas appointed me District Attorney and you have honored me with this office

### Mrs. Luna Mae Foy Asks Election As District Clerk

On the 20th day of March, 1963, I was appointed to the office of District Clerk by the Hon. O. L. Parish, District Judge of the 119th Judicial District, for the unexpired term of the late Mr. Willie Stephens.

I have served the public in various capacities for a number of years. I was Secretary to the Chairman of the Runnels County Red Cross Association for 2 1/2 years, I worked as Office Nurse at the Ballinger Clinic Hospital for almost five years, where I gained many good friends from all over the county. I was assistant to the County Auditor for another five years, which added to my qualifications as an efficient bookkeeper and secretary. It was during the time that I worked in the County Auditor's Office that I doubled my duties by being appointed as Deputy to the late District Clerk, Mr. Willie Stephens. I served a four years' apprenticeship under his instruction prior to my being appointed as District Clerk. While serving as Assistant to the County Auditor and Deputy to the District Clerk, I had the privilege of viewing the internal workings of the County and the District Court. I have ten months of intensive training behind me now, in which I have worked hard to learn every legal facet which involves the duties of this office. From the many years experience as a typist and bookkeeper, and the training I already have for this office, I feel that I am well qualified to continue the duties as your District Clerk.

My family and I are members of the First Christian Church, where I have taught Sunday School for twenty-four consecutive years. I am currently the Sec-Treas. of the CWF Guild, and a member of the Church Board. I have worked with the young people of the church for many years, and am interested in all their activities.

I have been a member of the Order of the Eastern Star for over twenty years and have filled almost every office in this Chapter, including that of Worthy Matron.

I am asking you, my friends of Runnels County, to consider carefully, my qualifications, and to give me the opportunity to serve you for my first elected office as District Clerk of Runnels County in the May Primary and the General Election in November.

This is for the unexpired term of the late Mr. Willie Stephens, which consists of two years, and for which I was appointed.

Due to the office hours required of the District Clerk, it will be almost impossible for me to contact each of you, but I will make every effort to do so. If I miss you, please know it was unintentional, and that I am soliciting your support in allowing me to remain your District Clerk.

Mrs. Luna Mae Foy  
District Clerk  
Runnels County

since that time. I have dedicated my life to public service and I want to continue to be your Public Servant and the only way that I can is to be elected District Judge. When you elect me your District Judge, I will be Judge for all the people. I know it will be impossible for me to see each of you before the election, so I am taking this method of asking each of you personally for your vote and influence in the coming election for this very important office of District Judge.

**Does BLADDER IRRITATION MAKE YOU NERVOUS?**  
After 21 Common Kidney or Bladder Irritations affect twice as many women as men and may make you tense and nervous from too frequent, burning or itching urination both day and night. Secondly, you may lose sleep and suffer from headache, backache and feel old, tired, depressed. In such irritation, CYSTEX usually brings fast, relaxing comfort by curbing irritating germs in uronic acid urine and by anesthetic pain relief. Get CYSTEX at drugists. Feel better fast.

**PHARMACY FORUM**

Once in a while it feels like nine at night instead of 9 A. M. You want to go back to bed, not off to work. If you feel like this very often, you may be suffering from nutritional deficiencies only your doctor can diagnose. We can fill the prescriptions he gives you.
