State Capital Highlights—

Attending Precinct Convention Is Only Way To Help Pick President

By—Vern Sanford  
Texas Press Association

Official date for casting your vote for president of the United States is November 3. But the only way to be certain you have some say in who is elected president next fall is to become one of the 10 per cent in each political party to participate in a precinct convention.

These conventions in the state's 6,000 voting precincts will be held on Saturday (May 2). They usually are held at 2 p. m. in rural areas and 8 p. m. in cities.

To take part in a precinct convention, you must first become a "qualified member" of a party by voting in the primary Saturday. The election judge will stamp "Republican" or "Democrat" on your poll tax receipt. This qualifies you to attend the precinct convention.

There, a delegate for each 25 votes cast in the precinct for your party's 1962 candidate for governor will be elected to the May 9 county convention.

At that convention, county delegates to state conventions to be held on June 16 and September 15 will be elected. Meeting in June will select and instruct delegates to the national conventions. Also, at that time, candidates for presidential elector will be selected.

September meeting will write a party platform and select state executive committee which runs your party's affairs between conventions.

To put it briefly: When you go to the precinct convention you elect the county delegate, who elects the state delegate, who elects the presidential elector, who then elects the president.

EDUCATION

Staff members of the Governor's Committee on Higher Education during the last week began to sift findings resulting from the group's year-long study.

The 25-member committee, which has held most of its deliberations behind closed doors, is expected to convene between May 8 and May 12 to pass on the draft report.

Final recommendations must be presented to Gov. John Connally and the Legislature by August 31.

Connally has indicated repeatedly the report will be assigned his top-priority tag for legislative consideration next year.

SOUTH TEXAS SCHOOL SLATED

Raymond W. Vowell, executive director of the Board for State Hospitals and Special Schools, predicts that the Corpus Christi State School for the mentally retarded will open late in 1967.

Board accepted the gift of a deed to a 200-acre school site in Corpus Christi this week. Vowell said the Legislature will be asked for construction funds when it meets next January.

ANIMAL HEALTH

Members of the Texas Animal Health Commission will tour border inspection stations at El Paso, Del Rio, Laredo and Brownsville and visit the sterile screwworm fly factory at Mission this weekend.

The flying tour was originated by the commission's executive

director, Dr. R. G. Garrett, who felt that anyone representing animal health interests for the state should become well-acquainted with the fever tick problem at the border, and understand the screwworm eradication program by seeing its operation first hand.

SCREWORM PROGRAM SUCCESS

Seven samples of screwworms were confirmed in March by state and federal animal health officials, who figure this is an indication of phenomenal success of the screwworm eradication program.

Dr. Ted Rea of the U. S. Department of Agriculture office in Austin said a March total before the program would have come to about 3,000 screwworm confirmations and, back then, reporting was only about 10 per cent. Now, the reporting rate for Texas livestock producers is up to about 97 per cent.

RESORT REPORTS DUE

All owners or managers of shooting resorts or preserves must submit their record books to the State Parks and Wildlife Department on May 1, or turn them in to the nearest game warden.

May 1 also is the date when the three-month squirrel shooting season will begin in 24 Texas counties: Austin, Brazos, Burleson, Collin, Colorado, Dallas, Delta, Franklin, Grayson, Gregg, Grimes, Harris, Henderson, Hopkins, Jackson, Kaufman, Lee, Matagorda, Navarro, Rains, Robertson, Rockwall, Van Zandt and Washington.

OPINIONS

Atty. Gen. Waggoner Carr has ruled that:

A 1957 law under which the Stephens County commissioners court might have called an election to outlaw Sunday sales of beer in rural areas of the county is unconstitutional.

A defendant who fails to surrender his driver's license when his conviction for driving while intoxicated becomes final may be held in contempt of court.

A commissioners court can contract with an individual or firm to care for the indigent aged at an agreed rate per patient.

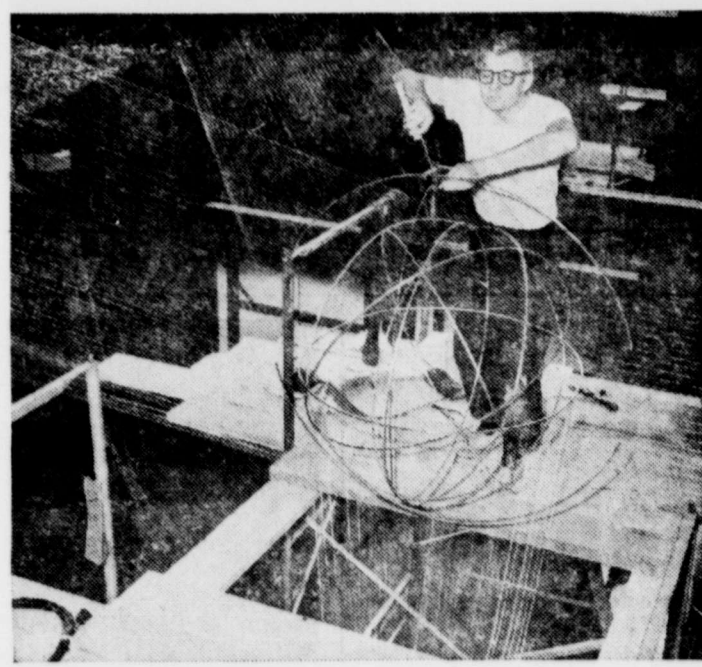

COURTS SPEAK

An Austin district court held that building of a \$9,000,000 electric generating-transmitting plant at Ore City (north of Longview) by Upshur Rural Electric Cooperative Corp. is not permitted under Texas law.

Attorney General Carr brought suit for Southwestern Electric Power Company which claimed the expenditure borrowed from the Federal Rural Electrification Administration would be illegal because members of the Upshur Coop already are served by Southwestern.

Supreme Court gave its blessing to Sweeny Hospital District's issue of construction-improvement bonds, overturning the attorney general's veto of the bonds on a question involving classification of voters in the approval election.

The high court sustained a lower court ruling that coastal property owners are due another hearing on contest of \$14,000,000 in Houston bonds, \$9-

000,000 of which would finance the Livingston Dam on the Trinity River.

On second trial in Austin, former Houston Probate Judge Clem McClelland was sentenced again to 10 years imprisonment on charges of felony conversion from an estate. Another appeal was promised.

INSURANCE RATES VARY

North and northwest Texas residents may pay 25 per cent more for homeowners and extended dwelling coverage as a result of hail and tornado damage.

Counties on the Gulf will experience a 4.4 per cent hike for the homeowner package coverage, but dwelling extended coverage is due to drop 3.6 per cent. State Board of Insurance indicated after a hearing with industry representatives.

In other parts of the state, homeowner rates may decline some 5.2 per cent and dwelling extended coverage 16.1 per cent.

The home fire insurance loss experience rate increase was seen as 3.3 per cent statewide.

CONNALLY PROTESTS

Reference in "NATO Letter" to Texas as a "semi-civilized

part of America" peopled with oil millionaires who serve as financial angels for radical right "hatemongers" brought strong protest from Governor Connally to Secretary of State Rusk.

"The fact that (the author) was emotionally distressed by the tragedy (President Kennedy's assassination), as so many of us were who were much more directly involved, is no excuse to print such an irresponsible diatribe in a magazine of this nature," Connally wrote.

Since the U. S. State Department is directly connected with the publication, the governor said, future articles should at-

RE-ELECT DORSEY HARDEMAN STATE SENATOR ★ 25TH DISTRICT

To the people of the 25th Senatorial District: It has been my desire and effort to visit with each voter, personally, but the vast area of the 20-County District has made this impossible. Thus, I take this means of soliciting your vote and support for my re-election as your State Senator. Numerous issues must be resolved — redistricting, educational excellence at all levels, increased teachers' salaries, water resources conservation, industrial and tourism development, to mention a few. I pledge continued honorable, dignified and effective representation of all the citizens of the 25th District. My seniority of service, my experience, and proved qualifications are back of this pledge. On this basis I respectfully request your vote for me for State Senator, on May 2.

Sincerely,

Dorsey Hardeman

**Roger Babson Says—**

**310,000,000 Acres Will Be Planted In United States This Year**

Babson Park, Mass. The farmers of our nation last year grossed about forty-one billion dollars, to set a new record. The big question now is: Will they do as well in 1964?

**Spring Planting Intentions**  
If farmers stick to their early 1964 planting intentions, U. S. crop acreage will just about equal that for 1963 and will be a small 2 per cent above 1962. The Agriculture Department's Crop Reporting Board says that

a total of 261,000,000 acres will be seeded to the 17 major crops covered in its March 1 planting intentions survey. If we add the minor crops not included in that survey, the total for all U. S. crops this year will probably amount to 310,000,000 acres—the fourth smallest ever recorded.

The Crop Reporting Board looks for declines in acreages seeded to barley, corn, flaxseed, and oats; but it expects these downturns to be offset by the larger acreages that will be seeded to soybeans and spring wheat. Our Babson commodity analysis foresees actual 1964 plantings a bit higher than the figure indicated by the Crop Reporting Board.

**Corn And Wheat**

It is officially estimated that corn plantings will be 1.7 per cent less than in 1963 and 7 per cent below the 1958-62 average. The reason for this is that farmers have decided to take more of their corn land out of production so they can qualify for payments by the government under its new feed-grains diversion program. Even with this smaller acreage, however, most experts believe that corn output will equal the 1963 record of 4,081,395,000 bushels. I personally feel it may even top that figure.

Government reports on U. S. spring-wheat plantings indicate that there will be a boost of 6.5 per cent from last year, but that the total will still be about 3

per cent below the five-year average. Of course, the new farm bill just enacted will encourage farmers to cut plantings back even more. But, assuming average yields per acre, I am convinced that total 1964 wheat production will still come very close to the five-year average. While the wheat surplus does not loom so large as it did a couple of years ago, that problem is still far from licked.

**What About Cotton?**

This spring the outlook for the cotton crop is more uncertain than usual, because some cotton was already in the ground before the new farm bill became law. This law reduces farm price supports for cotton from 32 1-2 cents to 30 cents a pound. Cotton growers had originally intended to plant just about the same number of acres as in 1963, which would be just below the five-year average of 15,435,000 acres. My guess is that less land will be sowed to cotton now, though the cutback won't be as great as it would have been if the farm bill had passed earlier in the season.

The cotton provisions of the farm bill may be an improvement on the old "two-price" system, but I predict they will not be the cure-all some people expect. Continued government tinkering with production and prices will make matters worse in the long run; it will simply postpone the day of reckoning for those farmers who cannot—or will not—adjust to economic reality and changing marketing concepts.

**Prices And Income**

Some months ago everyone was excited at the prospect of Russia buying vast tonnages of wheat, and possibly other grains. But—although the Soviets have taken fairly sizable amounts—our hopes for really large shipments of wheat and other grains beyond the Iron Curtain have fizzled. Grain surpluses are still with us. Although we have cut back our plantings, we are still overproducing.

For this and other reasons, we have right now considerable downward pressure on prices of farm products. Hence, I predict that 1964 farm prices—on average—will be a little bit lower than last year's. Farm income will do well to hold to its 1963 level.

**Check SS Now If You Plan To Retire Soon**

Floyd B. Ellington, district manager of social security in San Angelo, asks: "Are you planning to retire soon? Do you keep putting off inquiring about your social security status? If so, do you know what documents will be needed when you apply? Don't depend on your neighbor's recollection of what he was asked for—his situation may not apply to you."

Resolve today to prepare for your eventual retirement and inquire before you retire. Generally, you will need the following:

1. Proof of your age.
2. Evidence of earnings — if you work for wages, your Form W-2, Withholding Tax Statement, for the year before you

apply; if you have your own business, a copy of your complete Federal income tax return for the past year and the cancelled check showing payment of the social security tax will be needed.

3. If your wife is applying at the same time, she will need proof of her age.

Plan to make application at least 60 days before your actual retirement. If you have any doubts about getting the proofs you will need, your social security representative can help you resolve these well ahead of the time your first check is due.

## Dog Packs--

(Continued from page 1)

owning sheep have been staying with their animals during the night. Others have been baiting their sheep pastures and pens with poison to protect their animals. Many dogs have reportedly been killed in the sheep pens, it was said.

Local officials who have been helping to investigate the reported attacks on sheep and other animals by dog packs said that the situation has become very serious. Sheep raisers stand to lose much money if their animals are attacked and killed by dogs. As yet, it has been indicated, there has been no definite identification of the dogs which have been involved, but it is probable that many of the dogs in the packs belong to people living in the city. There probably are many strays in the packs, too, it was pointed out.

Although there is an ordinance calling for control and tagging of dogs in Winters, it has been unenforceable because of the great amount of expense involved, it was pointed out. However, some officials have indicated that further action must be considered if the situation is not resolved within a short time. If dogs are permitted to run in packs, it was said, there is danger that an attack upon a child or even an adult will be the eventual result.

Meanwhile, officials are pleading with dog owners to pen or otherwise control their dogs so that these attacks may be stopped. Mayor Harvey D. Jones said this week that if it becomes necessary to take drastic action under the present or another dog ordinance, the cost to the taxpayers of Winters would be upwards of \$10,000 per year. It would be necessary to build and maintain dog pounds, and employ personnel to run that department, he said.

come out of the woods in increasing numbers. Such as the fly-by-night exterminators, roof fixers, repairmen, and the like. He warns the public to be on the lookout for these pitchmen, and to demand authentic credentials and proper identification, and a look at a police-granted permit to operate. He asks that residents noting the presence of such persons in the city call the police department. If they have permits you can bet they've been checked-out by the police. If not, you can bet they're up to something. If they'll welcome investigation—if not, it's best to find it out right away and not after a lot of money has disappeared.

## St. John's Chancel Guild Held Meeting At Parsonage Thur.

Mrs. T. F. Hantsche, president of the St. John's Lutheran Guild, presided for the regular meeting held Thursday night at the church parsonage. She also led the opening prayer.

"The Note" was the topic for the devotion which was led by Mrs. Ellis Ueckert. Flowers for the chancel for the handbook to be compiled by the guild, were discussed. The group voted to give \$100 for the building fund.

Mrs. Ellis Ueckert served refreshments to Mesdames J. J. Wessels, August Stoeker, A. W. Holck, Albert Spill, Ted Hantsche, A. B. Spill and Miss Emma Henniger.

Mrs. Tilda Johnson has returned from Merkel where she has been visiting her son Jack and family.

Mr. McWilliams had some of his children visiting him this week end.

## Janice Powers and Walter Lee Pounds Wed Saturday

Marriage vows were recited Saturday, April 25, uniting Janice Powers and Walter Lee Pounds at the home of the bride's parents, Mr. and Mrs. Louis J. Powers, 407 West Albert Street.

Bobby J. Taylor of Abilene Christian College, brother-in-law of the bride, officiated for the ceremony.

Pink and white colors were given emphasis in table decorations and in other wedding details.

The tea table for the reception was laid with white crocheted cloth over gold. Punch was served from crystal bowl at one end of the table and the wedding cake, a pink confection decorated in white love knots, was at the opposite end.

Cindy Powers, sister of the groom presided at the table and ladeled punch. She was assisted by Scheri Dubbs of Abilene in serving. The bride's parents greeted the guests.

The bride wore a pink ballerina-length chiffon dress, fashioned with pink and gold brocade bodice, square neckline. Streamers of pink chiffon extended from the neckline in the back down to the hem of the bouffant skirt. Her velvet

leaf-shaped half hat with off-face veil was of a corresponding color and her accessories were white. She wore a triple carnation corsage.

For traveling the bride changed to a beige knit suit.

Present were Mrs. Beatrice Pounds, Cindy Pounds, Mr. and Mrs. David Casey, Jackie and Carol of Abilene; Mr. and Mrs. Bobby J. Taylor and sons, Bobby J. and Robert J., Mattie Price, Sheri Dubbs and son, Johnny Furrh all of Abilene, and Jean Kelly of Ballinger.

Mr. and Mrs. Pounds will make their home at 506 Lamar Street in Winters.

# TIPS FOR OUTDOORSMEN

by Vern Sanford

## Free Hands of Gas

It's a wise fisherman who carries a small jar of soap powder in his tackle box. The odor of gasoline on your hands will be transferred to the bait and will be offensive to any fish.

## Buy Red Bath Towels

Deer hunters, why not ask your wife to buy some red bath towels? They are perfect for use in the woods as scarfs, seats and for rub downs.

Furthermore, when tied around the horns of the buck you're lugging from the woods, they make good insurance against being shot.

And of course the towels can be used in the home when you're not in the field.

## Trapping the Ant

A glass jar, or several of them, buried to the neck around the camp traps and keeps the ant population under control.

## Plastic Tubes Hold Maps

Those plastic tubes that new golf clubs come packaged in make perfect containers for nautical charts or topographical maps.

## Spray Gun Starts Fire

Here's a good tip for the camper. Take along an old hand pump fly sprayer filled with kerosene. Propitious squirts helps start stubborn fires.

## Use Seine For Duck Blind

Don't throw away your old minnow seine. It will make a good portable duck blind this fall. A few streaks of dark paint help camouflage it.

## Bind Hoppers to Hook

Live bait like grasshoppers and worms will stay alive longer on the hook if you fasten them with small rubber bands rather than hooking them the conventional way.

## Candles for Heat

Take along with you to your next deer camp a couple of those thick, heavy-wax candles used by plumbers. Some cold night or early morning you'll find they can take the chill off a fairly large tent or trailer in a surprisingly short time.

## Double Your Warmth

If your sleeping bag isn't warm enough for extremely cold weather, just put on a suit of insulated underwear before climbing inside. The combination of the two will keep you warm as toast.

## Keeps Matches Dry

Druggist's snap-lid pill boxes make good containers for carrying a waterproof supply of matches in the field.

## Tight Drag Stops Snag

Chief cause of tangles with spinning tackle is loose line on the spool. Be sure to reel it under sufficient tension.

## A-1 Fish Stringer

Take an old (or new) brass chain, a box of high grade shower curtain rings and you've got the makings for a store-bought fish stringer.

Fit the rings through the chain at regular intervals. Rings open and close more easily and are the ideal size to hold fishes' lips.

## Brush The Rust Away

Take an old shaving brush and soak the bristles in oil. Then store in your tackle box. A fast pass over spoons, spinners and such before they

go back in their compartments keeps 'em bright and shiny. Oil stays in the bristles for weeks.

## To Quick-Dry Boots

For a quick-dry job on a pair of hunting or fishing boots in camp, try heating rocks and dropping them in the boots.

Repeat until the interiors are entirely dry.

## Bobbypins for Clothespins

Bobbypins make handy clothespins in camp. Ordinary fishing line will serve as a clothesline.

## Simple Coon Trap

Put a 55-gallon steel drum next to a tree and bait it with corn. A coon can jump into it from the tree but can't jump out. Makes a good trap!

## Rubber Boot Anchor

An old rubber boot filled with cement makes a cheap, handy boat anchor. Thread a steel rod in it for an eye.

Being rubber covered the anchor won't scrape, scratch or scar the boat but will hold her steady. Also, it makes a quiet anchor when carried inside the boat.

## What Line Cast Thou?

When you put a new line on a reel, write the type and test on a piece of paper and tape it under the reel seat with clear tape. This way you'll always know what size line you're using.

## Mrs. Ernest Smith Hostess Tuesday To Dale Sewing Club

Mrs. Ernest Smith was hostess for the Dale Sewing Club Tuesday afternoon at the Dale club house when the group met for an afternoon of quilting.

The next meeting will be May 12, in the home of Mrs. Herman Spill.

Refreshments were served to Mesdames Carl Baldwin, Clarence Hambright, Jessie Jenkins, Reese Jones, Walter Kruse, Clifford Lehman, Tip McKnight, Wilbur Phelps, I. W. Rogers, Ernest Smith, Herman Spill, August Stoecker, Carroll Stoecker, E. E. Thormeyer, Jack Whittenberg and Miss Effie Lehman.

## Ex-Winters Student Named To Student Council At CJC

Lynn Mitchell, a graduate of Winters High School, has been named secretary-treasurer of the Cisco Junior College student council for 1964-65, according to an announcement made this week by Mrs. Charles Parker, sponsor of the student governing group.

Miss Mitchell graduated from Winters High School in 1963. In high school she was vice president of Future Homemakers of America, and served as historian during her senior year. She also was a member of the Sno-Flakes, a girls' singing group, and was on the Blizardette basketball and volleyball teams. She was a member of the National Honor Society and did Interscholastic League work, winning second in district in Persuasive Speaking and Poetry Interpretation. She was treasurer of the Goal Digger Club and was named favorite of her senior class.

At Cisco Junior College, Miss Mitchell is in the student council, speech club and a member of the choir. She was nominee for Valentine Sweetheart this semester.

At least 2 Texas streams are known as Mill Creek.

## Desk Made By Terry Collins Placed In Show

Terry Collins, son of Mr. and Mrs. W. L. Collins of Winters, was presented a third place ribbon and certificate for his exhibit in the Abilene Christian College Industrial Arts show in Abilene Thursday and Friday.

Terry, a first year freshman shop student in Winters High School, exhibited a desk he had made as his project in school this year. J. P. Durgan is teacher in the shop.

The certificate presented Jerry for his exhibit reads: "Abilene Christian College Department of Industrial Arts. This certifies that Terry Collins has shown unusual perseverance and skill in his work as demonstrated by the entry of a maple desk at the tenth annual Industrial Arts Field Day at Abilene Christian College on this 25th day of April 1964." The certificate is signed by Bert Mosier, of the ACC Industrial Arts Department.

**"The Yellow Canary,"**  
Pat Boone is going to shake them up in his new picture. Moviegoers who have developed a stereotyped "nice guy" image of Pat on the screen will do a long double-take when they see his startling change of pace in "The Yellow Canary," 20th Century-Fox's new thriller set to show Friday and Saturday at the State Theatre.

Shortly after producers Robert Lippert and Maury Dexter acquired the screen rights to Whit Masterson's best-selling novel, "Evil Come, Evil Go," from which "The Yellow Canary" is adapted, they resolved to make the film in the great tradition of mystery motion pictures.

Lippert and Dexter first signed two of the top creative talents in this country—script writer Rod Serling and director Buzz Kulik. Both men had won Emmy awards for their distinguished work in television.

"The Yellow Canary" is a unique suspense story about a singing idol whose ascent to fame is violently interrupted by the kidnapping of his infant son. Searching for a man who could give the multi-dimensional role of the singing idol the integrity required, they signed Pat Boone. The film scores two firsts for Boone: it marks his debut in a rugged dramatic role and is the first time he has ever portrayed a singer on the screen.

**"Siege of the Saxons."**

The legend of King Arthur and his Knights of the Round Table served as the take-off for a lusty, battle-and-romance-filled new motion picture, the Charles H. Schneer production, "Siege of the Saxons." The film is a Columbia Pictures release in color, showing Friday and Saturday at the State Theatre with Janette Scott, Ronald Lewis and Ronald Howard starred. "Siege of the Saxons" is set in the 20th year of Arthur's

Pat Boone undergoes a drastic change of pace in a highly dramatic portrayal in "The Yellow Canary," 20th Century-Fox's new CinemaScope Thriller which shows Friday and Saturday at the State Theatre with Barbara Eden and Steve Forrest also starring.

reign, when the invading Saxons were seeking to conquer England as they had conquered most of Northern Europe. If they can achieve their aims through intrigues with traitors in Arthur's court, they will do so. If they fail, they will invade and conquer through siege and battle, pillage, murder and grim destruction.

**"The V.I.P.s."**

One of the year's outstanding motion picture attractions comes to the State Theatre Sunday, Monday, and Tuesday with the showing of Metro-Goldwyn-Mayer's "The V.I.P.s," starring Elizabeth Taylor and Richard Burton in their first appearance together in a modern drama. An absorbing triangle-drama,

A TENSE MOMENT between James Stewart and Kim Novak in "Vertigo", which appears with another thriller, "Panico in Year Zero" at the Fiesta Theatre Saturday and Sunday.

with its plot encompassing added situations of conflict and suspense, as well as humor, this picture has been hailed as one of the most spell-binding entertainments ever brought to the screen.

The story of "The V.I.P.s" concerns the effects on the lives of an assorted group of people when a heavy fog delays their departure from London Airport. It was written by the noted playwright Terence Rattigan, marking one of the few times he has written a drama directly for the screen. Produced by Anatole de Gruenwald and directed by Anthony Asquith, the picture was photographed in Panavision and Metrocolor.

**"Vertigo,"**

"Vertigo," shows Saturday and Sunday at the Fiesta, based on the French Novel "D'Entre Les Morts" (From Amongst The Dead) by the authors of "Diabolique," tells the kind of tension-filled tale with which Hitchcock's name has been synonymous. It concerns the involvement of a retired detective (James Stewart) in the affairs of an old schoolmate. The latter talks the reluctant Stewart into shadowing his beautiful but neurotic wife (Kim Novak) whom he believes is contemplating suicide. Stewart's reluctance is partly based on the fact that he is afflicted with acrophobia (fear of height).

Complications are compounded when Stewart falls in love with Miss Novak, whose mysterious behavior leads him into many kinds of strange predicaments before the surprise ending.

**Heavy Grazing Will Hurt Soil's Ability To Absorb Moisture**

The continued heavy grazing of Southern Great Plains ranges may seriously restrict the soil's ability to absorb moisture needed for grass production.

G. O. Hoffman, range specialist for the Texas Agricultural Extension Service, reports scientists of the Agricultural Research Service, have found that the water intake rate of range, heavily grazed for 20 years, was only half that of lightly grazed range. Specifically, water intake was 2.27 inches per hour after heavy grazing, 3.64 inches after moderate grazing and 4.41 inches after light grazing.

Reduction of vegetative cover by heavy grazing was cited as the principal reason for the decrease in water-intake rate and emphasizes the importance of managing grazing intensity to get the most out of moisture on loamy fine sandy soils in the Southern Great Plains, according to Hoffman.

The research, conducted at the Southern Great Plains Field Station, Woodward, Oklahoma, in cooperation with the Oklahoma Agricultural Experiment Station, also showed that short, sod-farming grasses . . . including blue grama, sand dropseed, fall witchgrass and sand paspalum—predominated in the heavily grazed pastures. They had replaced such taller species as sand bluestem, little bluestem, switchgrass and sand lovegrass.

Edd Rhodes, an agricultural engineer who directed the research, reported that the continued heavy grazing compacted the soil more than light grazing. This further reduced the ability of the land to absorb rainwater as it fell. Grazing intensity had little or no effect on the amount of organic matter or nitrogen in the soil, he said. During the 20-year grazing period, the scientists managed the pastures to allow an average of 12 acres per mature beef animal per year for heavy grazing; 17 acres per animal unit for moderate grazing, and 22 acres per animal unit for light grazing. Annual precipitation averaged about 23 inches per year but varied from 10 to 42 inches.

**WASHINGTON NEWSLETTER: House Favors Huge Military Spending Bill**

By Congressman O. C. Fisher  
People fearing that disarmament is gaining ground in the U. S., were reassured last week when the House voted 36-to-0 in favor of a \$46.8 billion appropriation for national defense. Designed to continue and expand the strongest military establishment in the peacetime history of this country, the measure reassures U. S. supremacy over the Soviets.

With a cost tag amounting to nearly half of the national budget, defense items include money to clothe, feed, and equip 2,655,000 men and women in uniform; supports a total of 687 military installations; maintains about 875 active naval vessels; maintains over 30,000 active military aircraft; and the procurement of 2,655 additional aircraft.

The bill includes funds for 53 new naval vessels and the conversion of 7 existing naval vessels and over \$1.6 billion for the procurement of Army equipment of all types.

The measure continues support for the submarine fleet and the polaris underwater missiles. Recent sea trials for the USS TECUMSEH, our 21st Polaris type nuclear sub, is regarded as a major accomplishment in our defense arsenal.

The \$46.8 billion bill was trimmed \$7 billion below budget requests, but was \$7 billion above the defense funds voted in 1960 and 1961. Every essential request was met, but George Mahon's committee trimmed non-essentials to the bone.
