

## HOME TOWN Talk

By R. C. THOMAS

Once again a Winters "ex" is making a name for himself in far-away places . . . and at the same time is focusing some little attention on West Central Texas and Winters, Texas.

This is probably the first time, however, that an ex-Wintersite has knocked on the door of the World Olympics.

Bill Miller, a 1959 graduate of Winters High School, and a graduate of McMurry College, is competing this week in New York for a place on the United States World Olympics team. He captured fourth place in broad jump at the National AAU Track and Field events last week, thereby earning a chance to try for the Olympics team.

Miller has quite a following of fans in Winters . . . has had since his high school days here. So this week these fans showed their interest in his activities and made up a telegram of congratulations and encouragement. At least 80 people have signed the telegram.

(Roy Young spearheaded the drive to send the signed telegram, and signers made a small donation. Young said that any money left over the price of the telegram would be given to the high school track fund.)

Things were a little different on Winters' Main Street Wednesday morning . . . the first day parallel parking was in effect on the street which also is part of U. S. Highway 83.

The first day of the new method (for Main Street) of parking was greeted in various ways. Some took it in stride; a few others were seen to pull in to the curb in the old manner of parking, then notice the change had been made, mumbled something and then began the task (to some) of parallel parking. Some drivers were seen to be having all kinds of trouble parking parallel . . . even though that is one of the requirements for obtaining a driver's license and the system already is used on the streets in town.

This difficulty was explained by a would-be amateur psychologist as being a natural defense against something new. Some people, although they can and do whip in and out of parallel parking spaces on other streets and think nothing of it have trouble getting lined up for parallel parking at spots where they've been used to parking at an angle. In these instances, our psychologist says, a person's subconscious (or unconscious) rebels at being forced into something different.

Anyway, the new system is in effect, and is being accepted by most everyone. And as one sage observer pointed out, you can throw a tom cat up the street now without hitting a car. The new system makes for less parking spaces on the main street, but it does offer a much wider traffic area.

Several city employees worked some late hours Tuesday night removing every other parking meter along Main Street, and marking the new parking spaces. Now the city has a supply of extra parking meters which can be put back to replace those which go out of commission or are knocked down by rebellious automobiles.

## "Campaign For Christ" Meetings Church of Christ

James D. Willeford of Abilene will be the speaker in a week-long series of Gospel meetings to begin Sunday, July 5, at the Winters Church of Christ. The session will continue through July 12.

Titled "Campaign for Christ," the Gospel series will feature two services each day. Week-day services will be held at 7 a. m., with evening services beginning at 7:30. Sunday services will include Bible Study at 9:30 a. m., followed by morning worship service at 10:30. The Sunday evening worship services will begin at 6 p. m.

Mr. Willeford, a native of Gilmer, Texas, was orphaned at the age of 13, and went to Boles Orphan Home at Quinlan. He began preaching at the age of 14. In 1933 he graduated from high school, and went to Canyon where he preached and attended West Texas State Teachers College. He later enrolled in Freed - Hardeman College, Henderson, Tenn., and graduated in 1936. He then attended Penn State University, and later served as an evangelist at Chattanooga, Tenn. He also attended Abilene Christian College where he obtained his B. S. degree, and did graduate work at the University of Wisconsin.

He is President of York Christian Foundation, which raises funds to operate York Christian College in York, Nebr.

## Reading Interest High At Winters Public Library

Interest in reading has been high at the Winters Public Library this summer, according to Miss Myra Glover, Librarian.

During the month of June, 1586 books were checked out, many recently published editions.

Miss Glover also said that new books and bookcases have been added to the library, and all children of school age have a special invitation to join the summer reading program now in progress. There are now 134 children in the reading club, and each child who joins the club is asked to read 12 books before August 31. After 12 books have been read, the Texas State Library will give a certificate to each child, she said.

Library hours are from 2 to 6 p. m. on Wednesday, Friday and Saturday.

## Rodeo Planning "Up In Air," 36 Now Signed

With only a few days left before the deadline for completing a fund canvass for a proposed rodeo association, barely one third of the 105 primary membership quota has been reached.

At a meeting of the organization committee last Friday evening, it was reported that 36 people have given \$100 each for the project. About 12 people attended the committee meeting. The final meeting of the organization committee will be held July 10. If by that time the 105 membership has not been reached, the project will be dropped, the committee will be disbanded and the money thus far collected will be returned to donors, it was stated. July 12 is the end of the 60-day period which was set for raising the necessary money.

It had been suggested that the committee go ahead and use the money collected to get the organization started, in hopes that more people would join the effort once it was underway. However, most of those who form the organization committee expressed the belief that if the people of the community really want to have an annual rodeo, the money will be made available before the deadline date. Too, they pointed out, the promise was made at the start of the campaign to raise funds that all money would be returned to donors after 60 days if the goal had not been reached.

Also, a concentrated person-to-person canvass has not been made, nor has such a campaign been planned, it was explained. One spokesman for the group pointed out, that "if it takes arm twisting to get the project over, the end result would leave much to be desired." If such a method were used, it was stated, "it would be a form of coercion and those making contributions under such pressure could not be counted on to keep the organization alive."

It was stated that during the last few days before the deadline, there probably would be a flurry of contributions. But it is not expected that such a last-minute interest would be enough to put the project over.

## Winters Riders To Make Annual Trek To Coleman

Members of the Winters Riding Club will make their annual overnight horseback ride to Coleman next week to take part in the Coleman Rodeo and parade.

Approximately 35 riders will make the ride, Jim Williams, president of the organization, said.

Riders will leave Winters at 9 a. m. Wednesday, and will stop at Crews at noon for a sack lunch.

The overnight stop will be at Hord's Creek Lake, where a barbecue supper will be served to members of the club and their friends Wednesday night.

After spending the night at the lake, the trail riders will go on to Coleman Thursday, arriving in time to participate in the rodeo parade to be held in downtown Coleman Thursday afternoon. They also will take part in the grand entry event at the evening rodeo performance Thursday.

## Open House At Fire Station Next Tuesday

An open house, to give the public an opportunity to inspect the equipment of the Winters Fire Department, will be held at the fire station beginning at 5 p. m. next Tuesday, July 7.

The open house is being sponsored by members of the Firemen's Auxiliary and the Winters Volunteer Fire Department.

Coffee and other drinks will be served during the open house event, and the public is invited to attend.

## Farm Bureau In State Program On Citizenship

The Rannels County Farm Bureau will participate in a statewide program aimed at better informing young people on vital matters pertaining to citizenship, according to Ben Frerich of Rowena, county FB president.

Several eleventh and twelfth grade high school students from this county will attend a special training conference in August for intensive studies on our American heritage and the Communist threat.

Sponsored by the Texas Farm Bureau, the second annual High School Students Citizenship Seminar will be held August 11-14 on the campus of Sam Houston State College at Huntsville.

Winters students attending will include Johnny Mathis and Betty Shoemaker. Linda Gallas of Rowena will attend, also.

Purpose of the seminar, according to Frerich, is to convey to students a better concept of the American system and how it has made possible the abundance which we enjoy. A similar training program conducted last year was attended by some 234 high school juniors and seniors from all over the state.

Among the outstanding lecturers who will appear on the seminar program are Dr. George S. Benson, president of Harding College, Searcy, Ark.; Dr. Clifton L. Ganus, vice president of Harding College and head of the department of history and social sciences; John Noble, Wheaton, Ill., noted author and lecturer who spent more than nine years in a soviet prison camp; and W. Cleon Skousen, Salt Lake City, a former FBI agent and chief of police in Salt Lake City.

## Will Attempt To Organize Local Cemetery Ass'n.

An attempt is being made to organize a cemetery association to care for the three cemeteries in Winters.

Ted Meyer said this week that people who were originally connected with the old Cemetery Association are being contacted in an effort to obtain information and to make plans for a new organization.

Winters has three cemeteries — Fairview, Northview and Lakeview. Lakeview Cemetery has been in use only a few years.

A cemetery association formed many years ago cared for the first two cemeteries until about ten years ago, when the organization was disbanded and maintenance and upkeep was taken over by the City of Winters. Funds for this purpose have been allocated from the General Funds of the City.

City officials have said that the only actually "City-owned" cemetery is the new one on the north edge of Winters—Lakeview. Deeds for land occupied by the two oldest cemeteries have never been transferred to the City, it was understood.

Those making the effort to organize a cemetery association say that the purpose will be to properly maintain the cemeteries. People owning plots in the cemeteries will be contacted and asked to join the association and to help defray some of the expenses in upkeep, they said.

In the meantime, the City has employed a man whose full-time job will be the care of the cemeteries. This will be discontinued once an organization is formed, it was explained. In administration of the cemeteries at the present time, the City has been responsible only for the streets and alleys. Upkeep and cleaning of individually owned lots is the responsibility of plot owners, it was pointed out.

In the new cemetery, which is City-owned, an attempt was made several years ago to limit markers to ground-level height, and to permit no curbing. This system would provide for easier and more economical maintenance. However, it was explained, persons buying lots in the new cemetery insisted they be allowed to erect stones and markers, so the ground-level regulation was abandoned.

Presently, in new sections of Lakeview Cemetery, a narrow concrete walk, just above ground level, is being built around all double and single lots. This will make for a more uniform appearance and will prevent high curbing being built, which would hamper mowing and grass cutting operations. The City Council recently adopted a policy of always having at least two double lots and two single lots ready at all times, with the sidewalk installed, but plots where the sidewalk has not been installed will be sold in the new section, it was explained.

Water can be pumped at the rate of 500 gallons per minute by the new truck. Actually, fire department spokesmen said, a top pumping rate of 700 gallons per minute can be reached. Also, the new truck is equipped to pump chemical foam in fighting electrical, oil and chemical fires. Other trucks also have this capability.

The addition of the new fire truck, along with other modern equipment, gives Winters one of the most advanced fire departments for a city of this size. Along with several other city-owned vehicles, one of the fire trucks is radio equipped, in contact with a base station at the City Hall. Plans are to install radios in the new truck, and in one of the older trucks. With such a radio hookup, it was explained, better protection can be given firemen and others. Trucks on the scene of a fire can summon other trucks and be in constant contact with the base station in the event emergencies develop.

To help pay the cost of fighting fires outside the City of Winters, Rannels County pays \$875 per year to the Winters Fire Department.

## Robert R. Gans Dean of McMurry Band School

Robert R. Gans, band director at Winters High School for the past several years, will serve as Dean of the McMurry College Band and Twirling School from July 12 to July 25.

Gans, an instructor at the summer band school for the past 14 years, will also teach classes in band theory besides serving as the school's dean.

"Mr. Gans has been one of our most valued instructors," Dr. Raymond T. Bynum, director of the band school, said in announcing that Gans would teach this summer at the band clinic. "Although he has his master's degree in theory, he is skilled in keeping his work within the range of the students."

More than 400 students from all parts of Texas will attend the summer session.

Gans holds his bachelor and master degrees in music from Hardin - Simmons University. Several other band instructors and twirling specialists will instruct classes in individual instruments, twirling, band majoring, theory, concert band, stage band and a course in reading for the more advanced students.

## Content Reunion Set For Sunday, July 5

A large group of former residents of the Content Community are expected Sunday for the annual reunion which is to be held at the picnic ground in that community.

A basket lunch will be served, according to R. B. Smith, a long time resident of the area. Every one is invited to attend.

Officers of Winters Lions Club for 1964-65 were installed at the regular noon meeting of the organization Tuesday.

W. M. Hays, immediate past Zone Chairman of District 2A1 was the installing officer. Prior to the installation of officers he gave a brief history of the organization, from the beginning 40 years ago, and covered its growth and development during the years.

Robert Christian, principal of Winters High School was installed as president of the Winters Lions Club for the new year. He succeeds Mord Tucker in that office.

Other officers installed Tuesday include Walker Tatum, first vice president; Dr. Z. I. Hale, second vice president; Rankin Pace, third vice president; Lee Harrison, secretary.

Holdover directors are C. R. Kendrick and Harry Herman. New directors are Dale Whitecotton and Bob Loyd. Lion tamer is Ted Meyer, and Homer Hodge, tail twister.

New director for the Cripple Children's Camp will be F. R. (Phil) Anderson, and B. G. Owens, thought for the day chairman.

Zanette Moore, daughter of Mr. and Mrs. Ellis Zane Moore, is the new club sweetheart, and the Rev. A. W. Holck is organization Scout representative.

A past president's plaque was presented to Mord Tucker by the club. A gavel, engraved with his name, was presented to the incoming president. Also, a diamond president's tie pin, to be kept by the current president during his term of office, was presented to Christian by outgoing president Mord Tucker. The custom of the diamond pin was originated during the 1960-61 term of past President W. M. Hays, who purchased the pin and presented it to the officer succeeding him in that office. The pin has been worn by three officers prior to this year.

The Winters Lions Club celebrated their 40th anniversary recently. There presently are 48 members and club meetings are held each Tuesday noon at the Winters Home Demonstration Club building.

## HEALTH LETTER

If the warm spring weather has drawn you out to work in the yard, incited you to start a fertilizing project, or inspired you to plant a garden, and you haven't had a tetanus immunization you are, in fact, giving tetanus an open invitation. Tetanus, alias lockjaw, is no respecter of persons. A long-time gardening enthusiast learned that lesson the hard way. Her flower beds were the prettiest for miles around.

For years she fed her camelias, pruned her roses and weeded the beds just so. Last year the gardens were the prettiest ever. She spread barnyard manure, as well as commercial fertilizer, over the yard. She didn't spare the water, and lovingly cared for the plants herself.

To protect her hands and manicured nails she wore work gloves, and when mosquitoes were about she used insect repellent. But she didn't protect herself against the dread invader-tetanus.

This year when gardening time came... when tiny sprigs of green began to pop up out of the earth and buds began to appear on the bushes, she wasn't there to tend her plants. You see, she died of tetanus.

Tetanus is a killer. Even when treatment is started almost immediately, about one-third of the victims die anyway.

Fortunately, there is an effective and safe immunization procedure against this disease. But an initial series of tetanus inoculations won't help if given after an injury. A booster will do, if you've had initial protection. Otherwise, only a horse serum, which is hazardous itself, must be used.

Spores of the bacteria which cause tetanus are almost everywhere. They are found in soil, street dust and animal droppings, particularly in manured soil. A scratch, cut or open sore may allow some of the unseen spores to enter the body.

Once inside the body these tough spores turn into a form of tetanus germs that may secrete a powerful toxin-or poison. One-fourth teaspoonful of this toxin

is enough to kill 100,000 people. In humans, the toxin causes muscle spasms, convulsions and, frequently, death. The label "lockjaw" refers to a spasm of the jaw muscle which clamps the jaw shut.

Unless you have had a basic tetanus immunization in the armed services or from your family doctor, you must do so before injury to be protected.

Arguments directed to the emotions and prejudices of men suggest a lack of reasonable support.

James S. Hogg, first native-born Governor of Texas, was inaugurated in a simple ceremony lasting only 35 minutes.

**Thirty-Two Persons Will Die In Texas During Holiday Weekend**

By Vern Sanford  
Texas Press Association  
Traffic accidents will kill 32 persons in Texas over the three-day July 4 weekend, if Texas Department of Public Safety estimates prove correct. DPS Director Homer Garrison Jr. urges Texans to make the July 4 holiday weekend the turning point away from a two-year upward trend in fatal traffic accidents.

Garrison describes the present traffic situation as "critical."

"Operation Motorcade" will be in effect from 12:01 a. m. on July 3 through Sunday, July 5, he announced, "in an effort to focus public attention on added hazards of holiday road traffic and to encourage safety consciousness among drivers." Additional highway patrolmen from the license and weight and motor vehicle inspection services will supplement the regular patrol staff over the holiday period.

**NEW AUTO INSURANCE RATES SET**

Texas automobile owners will pay less for auto insurance beginning August 1.

State Insurance Board and industry spokesmen agreed on the new rates, which will average out 1.2 per cent cheaper statewide than last year.

Board estimated motorists will save \$3,000,000 in premium compared with 1963. However, rates will vary from area to area.

Liability insurance rates reflect a statewide increase of 3.8 per cent, and medical payment coverage will increase about 8.7 per cent. Collision coverage will be reduced .5 per cent.

Overall reduction in rates is due primarily to a 15.5 per cent cut in comprehensive coverage, due to low wind and hail storm damages last year.

**LAWMAKERS FACE TOUGH JOB**

An already "tough" job faced by Texas lawmakers in the 59th Legislature will be complicated even more by "issues of high emotional content," Lt. Gov. Preston Smith feels.

These issues, according to the lieutenant governor, include: proposals to legalize parimutual betting on horse races, sale of liquor by the drink in eating

establishments, control of oyster shell dredging on the Gulf Coast, an oil and gas "pooling" bill, further controls on water pollution, repeal of the poll tax and another proposed constitutional amendment to guarantee equal rights to women in property and business management.

"The Legislature will need a combination of many virtues if it disposes of all the important and controversial legislation laid before it," Lt. Gov. Smith told approximately 250 mayors and councilmen gathered in the capital city for an institute on municipal problems.

Three major "musts" confront the Legislature next year, Smith said. These include: deciding the future course of higher education, financing education and "other vital state functions", and congressional and legislative redistricting.

Legislators are busy with maps and population tables, trying to see how the new court rules on legislative apportionment affect them. One big plan in general circulation involves the Texas Senate. It envisions slicing up the four big-city counties of Harris, Dallas, Bexar and Tarrant and attaching the slices to present senatorial districts which touch them.

This plan would give all present senators except two a chance for re-election, if they can get the votes in the portions of the big cities assigned them.

**EDUCATION STUDY GROUP**

Gov. John Connally got a look at tentative recommendations of his Committee on Education Beyond the High School. But disagreements over financial details prevented the report from being a final one.

Committee members will meet again on July 13-14 to finish the job. Chairman H. B. Zachary promised the report will be presented to the Governor and Legislature by the August 31 deadline.

Lawmakers of the 58th Legislature appropriated \$175,000 for the study aimed at pointing the way to number 1 ranking for Texas colleges and universities. Less than half that amount has been spent to date.

**INDIAN SETTLEMENT OUT**

Cherokee Indians, run out of East Texas in 1839 by a Republic of Texas army, have failed in an attempt to "recapture" claims to lands they were forced to leave.

Atty. Gen. Waggoner Carr gave the "no" sign to a proposed settlement of their claim to 2,500,000 acres of land in Smith, Cherokee, Van Zandt, Gregg and Rusk counties.

Cherokee Indian Nation, through general counsel, Earl Boyd Pierce, several months ago proposed that Governor Connally set up a historical fact-finding commission to review the claims.

For each acre of land the commission might find the Indians were unjustly ousted from, Pierce recommended one dollar be allocated by the state to a trust fund for higher education of worthy Cherokees. This money would draw five per cent interest annually, and at the end of 25 years, the Cherokees would return the corpus of the fund to the state, releasing all claims. Atty. Gen. Carr concluded: the plan of settlement would require an unconstitutional appropriation by the Legislature, therefore neither he nor the Governor is authorized to pursue it.

**FUNDS ASKED**

Officials of the Attorney General Department have asked for more funds to prosecute cases involving slant-hole oil wells and Billie Sol Estes.

They reason that judgements already awarded in the suits have brought the state \$577,000, or \$3 for each \$1 spent.

In 1963 the Legislature provided \$82,000 to handle these suits in fiscal 1964 and 1965. Now, the department wants \$100,000 for 1966 and 1967.

**HILL-BURTON REQUESTS**

Texas cities which have requested a total of \$22,000,000 worth of Hill-Burton funds to finance community hospitals and health centers will have to wait until September for any action from the State Health Department. Even then some of them will be turned down.

Health department won't decide which among the 39 projects to recommend until congressional action on renewal of the act is complete in September.

Hill-Burton allocation for Texas in past years has run just over \$13,000,000 for a year. Health department officials do not think it will be any more this year.

**SHORT SNORTS**

Parks and Wildlife Department will open bids on July 1 for concession rights on the new Port Lavaca fishing pier.

Program for tracing brucellosis and qualifying for certification by backtagging is picking up, with 8,500 cows and culls backtagged in May plus the testing of 22,166 cattle at livestock markets, but current estimates are that Texas won't qualify for Modified Certified status until 1969 or 1970.

Fourteen cases of undulant fever have been reported to the State Health Department this year, compared to seven cases reported by this time last year.

UT's Bureau of Business Research reports Texas building declined to a new low for 1964 during May, but retail sales rose seven per cent above the years low in April.

Parks and Wildlife Commission will consider regulations for fishing and hunting in 152 regulatory authority counties on July 10.

Texas Highway Department has appropriated \$1,500,000 for installing safety devices on the highway system during 1964-65.

Roger Babson Says—

## Misuse of Sabbath Demonstrates Materialistic World U. S. Becoming

Babson Park, Mass.—Nothing demonstrates more clearly the materialistic world which America is becoming than our misuse of the Sabbath. Instead of using this day for spiritual regeneration, we all too often try to cram into the hours between sun-up and bedtime all the worldly activities normally followed on a holiday or a day of vacation.

### Sunday Commerce Riding High

In a great many areas of the country, supermarkets and department stores, realty offices and nurseries, nearly all types of retail outlets, are open and doing a big business on Sunday. This is especially true in the Mountain and Pacific Coast states, where the almighty dollar is pursued even more avidly than it is in my own New England. Here, Blue Laws still put some curbs on Sunday selling.

I have talked with many merchants and service workers in various sections of the country who support the idea of Sunday business. For the most part, they speak of today's intense competition and claim that

staying open on Sunday means the difference between profit and loss. They say that selling on the Sabbath has resulted from changing times and attitudes. In essence, the consensus among such operators is that Sunday selling is a matter of survival.

### How It Came About

Many readers can probably remember the days during the war when the old 5-to-9 business patten began to change. Defense workers on round-the-clock schedules flocked to stores that first started to stay open evenings. Next came the exodus out of the cities and into Suburbia, bringing with it a postwar transformation in consumer buying habits. People preferred to stay at home and shop in the suburbs, especially where retailers kept open evenings.

The rat-race for the consumer dollar then developed such rivalry, both in cities and in rural communities, that the next move from evening openings to Sunday openings seemed all most natural to buyers still following, with the emergency conditions that prevailed during the war. Even Sunday Blue Laws, where they existed, were woefully weak or got only token enforcement. To me this mistreatment of the Lord's Day seems deplorable, and I will try to explain why I feel this way.

### Why I Think It Should Be Stopped

If any proof is needed to reveal how worldly our culture has become, it is the very fact that so many of our good citizens favor Sunday business. Just recall how many cultures throughout history were des-

## OUTDOORS IN TEXAS

Game calling is one of the most thrilling of all hunting sports.

Probably the most fascinating time to call nature's killers is at night. Foxes, coyotes and bobcats have a way of coming-a-runnin' in the darkness that makes the sport one of fast action and excitement.

Although predators can be called throughout the day and night, they are more susceptible after nightfall since, by nature, they are nocturnal prowlers and are out under the protection of darkness to seek food. The dying-rabbit squeals of a predator call lures them into believing that a quick and easy meal beckons at the source of the squalling. When a predator decides to answer the call he comes quickly, and he means business.

troys because spiritual development was neglected. — then ignored. Some people were shocked a few years ago when I expressed my feeling against the matter of Sabbath selling, but if shocking them will make them think about it some more, I am willing — and proud — to repeat what I said: The place for us and for our families on the Sabbath is in the Lord's House, not in a Discount House.

Our labor leaders and many progressive employers have helped us shorten our working hours radically in recent years; so our time for leisure is greater than ever. Should we not be able to find time on the Biblical Day of Rest to reflect upon matters of the spirit, upon morality, upon simple right and wrong? I say we should. Parents, educators, and law enforcement authorities — all of whom work with young people — are concerned with maladjustment symptoms like juvenile delinquency, divorce, dishonesty, even disregard for human life. I say that many of these problems would be prevented if Sunday were used by the family for renewing spiritual standards and deepening basic values.

### Let The Church Orient Your Home

We all need a philosophy of life that brings a sharper focus on the needs of others, and less on our own wants. Your church will help you and your family develop working standards of right and wrong. It may be cruel to say, but I'm afraid that most of our youth are what their homes have made them. Right here is where the church must come in strong. In the church of your choice and in the church-inspired home are the places where the average young man or woman is going to build sound moral and spiritual fiber. In conclusion, let me say that I fear Sunday businessmen may be creating more spiritual losses than material gains.

Anyone can learn to call predators with a minimum of practice at home. Commercial calls available at any sporting goods store put the sport within the realm of anyone's ability.

Basically, there are two types of predator calls. One simulates the cries of a rabbit in distress; the other imitates the shrilling cry of a crippled bird.

On most predators the former works best. But sometimes the latter is more effective. The wounded bird call is more appealing to raptors.

Coots are perhaps the easiest of all animals to call right in close. They waddle in and offer a large target to the rifleman or bowman.

Foxes and coyotes rush right in quickly, but they move around a lot and sometimes are difficult to hit.

A bobcat slinks in, using every bit of available cover to hide its stalk. Cover and natural camouflage make it difficult to pinpoint an incoming cat in sunlight. But at night the cat's eyes readily glow in the beam of a headlight.

## MOVIES

### "Seven Days In May"

When is a traitor not a traitor? That is the exciting and chilling question posed in "Seven Days In May," the new suspense drama which shows Friday, Saturday and Sunday at the State Theatre. Based on the best-selling novel by Fletcher Kneble and Charles W. Bailey II, this new Paramount release has an all-star cast headed by Burt Lancaster, Kirk Douglas, Fredric March, Ava Gardner and Edmond O'Brien.

"Seven Days In May" is exciting because it is a story of treachery in our own government, a conspiracy by the Joint Chiefs of Staff to take over the White House by force. It is chilling because "Seven Days In May" shows how such a plot could succeed . . . even here in America.

### "Kings Of The Sun"

Marking their second major motion picture to be filmed entirely on authentic locations in Mexico, their first as the eminently successful "The Magnificent Seven," the Mirisch Company, Hollywood's leading independent film-making organization, again has sought to space no expense in their new multi-million dollar epic screen spectacle, "Kings of the Sun."

Showing Friday and Saturday at the Fiesta Drive-In Theatre, through United Artists release, and filmed in Panavision and Color by DeLuxe, "Kings of the Sun" recreates for the first time in motion pictures all the sweep and glory, pageantry and adventure of a lost world that was once the ancient, storied Mayan civilization of 1,000 years ago.

### "Girls! Girls! Girls!"

Tuneful music plus a fine romantic story brings Elvis Presley to the Fiesta Drive-In theatre Friday and Saturday in a romantic entertainment melange that should please all moviegoers, as witness the highly appreciative audience that greeted the singing star at the opening yesterday of his latest Hal Wallis production for Paramount release, "Girls! Girls! Girls!" Norman Taurang deserves plaudits for his expert direction of the film in splendid Technicolor, which enhances the many out door scenes and musical numbers, adding extra zest to the motion picture.

### Juniors, Seniors Will Be Offered Kuder Inventory

All juniors and seniors of Winters High School will be given an opportunity to take a Kuder Vocational Interest Inventory Monday, July 6, Mrs. Lee Harrison, of the school faculty, said this week.

Dr. Clyde Jetton and a group of counselor interns from Hardin-Simmons University, will be at the school at 1:30 Monday to administer and interpret the tests. These interns are all graduate students in the counselor preparation program at H-SU. They will be happy to be of service to students interested in taking vocational tests and do educational counseling, Mrs. Harrison said.

Mrs. Harrison said several local students have expressed a desire to take tests to help them in vocational choices. This will be an excellent opportunity for them to take the tests, or receive counseling, at no cost to the individual student, she said.

Students desiring to participate in this program are asked to be at the high school auditorium Monday, July 6, at 1:30 p. m., or to call Mrs. Harrison for further information.

### Literary, Service Club Had Meeting In Thormeyer Home

Mrs. E. E. Thormeyer was hostess Friday morning at breakfast and a called meeting of the Literary and Service Club. Thirteen members were present.

After being served a delicious breakfast beneath the trees in the back yard of the Thormeyer home, a short business meeting was held. The same projects as last year were adopted for the new year beginning in September.

Plans were made for the annual fund-raising "Come As You Are Breakfast," the day being set for one morning during the first week in August.

Mrs. J. D. Marshall and Mrs. Sallie Gray were accepted to membership.

Present were Mesdames Earl Dorsett, Charles Kruse Jr., J. C. Jarrell, H. M. Nichols, Loyd Robertson, W. D. Sanders, H. A. Stanford, Floyd Sims, E. E. Thormeyer, T. H. Worthington, Frank Denton, Charles Chapman, and a new member, Mrs. J. D. Marshall.

### FROM ARIZONA

Jeanine Poe and Mrs. John Kennedy of Phoenix, Ariz., are spending several weeks here in the home of their parents and visiting relatives and friends. Miss Poe is the daughter of Mr. and Mrs. George Poe. Mrs. Kennedy is the daughter of Mr. and Mrs. T. B. Poe.

### LEGION MEETS MONDAY

The regular meeting of the Winters Post 9193 of the American Legion will be held at the Legion Hall Monday, July 6, at 7:30 p. m. Members are urged to be present for the election of officers and other important business. Arthur Bates, commander, said.

A round-cut diamond has 58 facets.

### Coleman Rodeo Scheduled For July 8-9-10-11

Coleman's 27th annual RCA professional rodeo will be held in Coleman Wednesday through Saturday, July 8-11, with night performances only, beginning at 8 p. m.

Afternoon parades will be held each day at 5 p. m., with a dance at the National Guard Armory following each rodeo performance, featuring the music of The Texas Top Hands.

Rodeo producer Beutler and Son of Elk City, Okla., will furnish the livestock. In addition to the bareback bronc riding, steer wrestling, saddle bronc riding, calf roping and bull riding, stellar feature attractions are included on the program.

There will be a special matched calf roping event each night, between Jim Bob Altizer of Del Rio and Donny Davis of Kenna, New Mexico, two of the nation's top ropers. Another feature will be the cowgirl's barrel race.

### WASHINGTON NEWSLETTER: Balanced Budget Thing of Past In America

By Congressman O. C. Fisher

The fact that Washington is becoming the "City Hall of America" was proven beyond question last week when the House, by a 212 to 189 margin, passed a Senate-approved Mass Transportation Bill.

Ultimate cost of this new venture in federal spending is estimated to approximate \$15 billion. It includes loans and out-right grants, mostly to a dozen of the big metropolitan centers. And it invades an area of spending which is essentially local and which has always been treated that way.

In this wild spending spree this Congress has apparently abandoned any interest in ever achieving a balanced budget in this country. Faced with an \$8.8 billion deficit this year, and probably a bigger one next year, this project commits Uncle Sam to a new type of spending which will get bigger and bigger each year.

Fourteen Texans voted against this new spending program; seven voted for it, and two of the members did not vote.

The Anti-Poverty program is next. It is due to sail through the House, and will add, ultimately, another \$15 billion of new spending to the federal welfare program, if its goals are achieved. All such projects start out more modestly, usually on the order of an initial outlay of a half billion or a billion dollars the first year. Then each year they get bigger and bigger, and the federal deficit does likewise.

Only last week the House approved a bill to raise the debt limit to \$324 billion in order that Uncle Sam can pay for the accumulated commitments. Interest on the deficit now amounts to about \$12 billion annually.

Observers believe this may prove to be the wildest spending Congress in modern history.

### WHS Graduate In 1964 World Olympic Trials

Bill Miller, a 1959 graduate of Winters High School, will get a chance at a berth in the 1964 Olympics. The former McMurry College broad jump star was fourth in the broad jump with 25 feet 10 inches in the National AAU Track and Field events in New Brunswick, N.J., last week.

The placing in New Brunswick puts Miller on the eligibility list to take part in the Olympic Trials this week in New York.

Miller is the son of Mr. and Mrs. W. M. Miller, former residents of Winters and now living in Trinidad. He is married to the former Serena Minzenmayer, daughter of Mr. and Mrs. W. F. Minzenmayer of Winters.

He left Dallas last Tuesday by jet for New York for the track events, accompanied by his wife and Coach and Mrs. Teaff of McMurry College.

While in high school Miller played football, lettering four years, and played basketball and participated in track. As track man during his senior year, 1959, he won the State championship in the broad jump event. He also has won many other honors in track, in dash and hurdle events.

Miller was president of his senior class at Winters High School, and entered McMurry College, Abilene, upon graduation.

The possible Olympic track star has been teaching the eighth grade at Madison Junior High School, Abilene, and teaching grade boys at the same school. His teaching and coaching work has been without pay, in order to maintain the amateur status required of Olympic participants.

Jarman's Famous "Deerslayers" ... for the ultimate in Smart Casual Comfort

The comfort you get from a pair of Jarman "Deerslayers" is no happenstance. First there is the wonderfully soft upper leather. Then there is the luxuriously thick cushion insole... the full leather lining... the ribbed crepe sole and heel. Comfort definitely is the byword here - and we believe you'll want to make it your "buy word" when you try on a pair.

## Our Priceless Heritage . . .

It is 188 years since the founders of our nation pledged their lives, fortunes and sacred honor to the cause of independence. Most nations are centuries older but none has made such rapid and remarkable progress.

Individual opportunity with the right to life, liberty and the pursuit of happiness - this is the American heritage. Men have fought and died to win it and we must ever endeavor to preserve it. Freedom cannot be taken for granted when there are those who would destroy it.

With faith in our system of government, unity and wise leadership, our nation will successfully survive all storms just as it has done in the past.
