

HOME TOWN Talk

Next Tuesday is Election Day. This is a time of perennial, electric excitement which seems unique only to elections. A 150, it is a time of sobering sadness.

Here's why: This year in Texas there are an estimated 5,900,000 people over 21, but only 3,110,000 are eligible to vote. And that "eligibility estimate" takes in everybody: poll-taxpayers, folks who were issued exemptions and those who live in towns who do not require over-age exemptions, and those who registered under the federal provision.

So, right off the bat we lost more than two million potential voters.

Now, some forecasters predict a voting turnout of 2,500,000 Texans. That would be a record, but not a record of which to be proud.

That means only about seven out of ten Texans who are eligible to vote will take time out to do so.

You — and only you — can do something about it. Only you can go to the polls; only you can cast your vote.

It's up to you. You are voting for more than yourself. You are voting for half of Texas which can't — or won't — vote for themselves.

Here are a few facts which might be interesting to all of us who live in the "country" — in the so-called rural counties:

R. L. (Bob) Johnson of the Texas Election Bureau reports that the "country cousins" in 231 rural counties out-voted their city brothers, percentage-wise, nearly two-to-one!

It just shows that the country folks take politics seriously enough to go to the polls and do something about it.

In the four big-city counties surrounding Houston, Dallas, San Antonio and Fort Worth, there were 1,182,976 qualified voters. This spring, only 38 per cent — or 452,135 — voted.

In the 231 so-called rural counties, there were 1,132,067 Texans eligible to vote and 769,697 voted. That's nearly 69 per cent. In the middle counties, described as urban because of their population, the percentage was 51.5 per cent. Out of 794,224 voters, 409,321 went to the polls this spring.

The folks in the cities are steamed up about the election this year — so to keep our name in the political pot, we "country cousins" are going to have to double-up next Tuesday and turn out for the election.

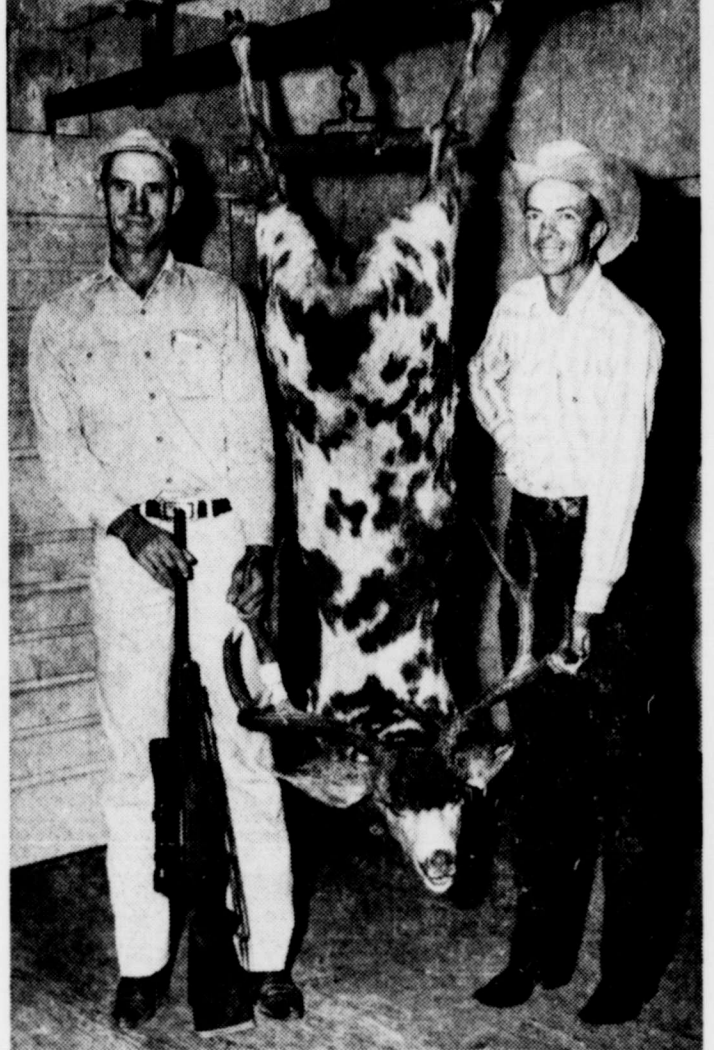

We feel real sorry for some of our friends who happen to be living in homes around which the balmy fall breezes are not blowing beautifully colored autumn leaves. They are missing so much of just living.

We've always felt that a friend in need is a friend all the time, and have always tried to help out when we can. So . . . tell you what we're gonna do: To those who are longing for to rake a few leaves, we will loan a few baskets of leaves from a big sycamore, two apple trees, a pear tree, a peach tree, a pecan tree, and another tree of some sort. There should be enough to go around to a lot of our leafless friends . . . and it'll be on a first-come, first-served basis. We'll even throw in a basket and maybe find an old rake you can use after you spread the leaves on your own lawn.

The well's run dry! Last week we picked only five winners out of 10 games — one a tie, but a loss to our prediction score. And — something happened — we had picked McMurry over Arlington, but when it came out all printed it said TARLETON! So that's a loss! We've picked 60 games, and got it right only 35 times.

We can't quit now, so it looks like this for this week: Ballinger over Stamford Anson over Haskell Hamlin over Colorado City Arkansas over Texas A & M Baylor over TCU Texas Tech over Rice Texas over SMU Arizona over Air Force Oklahoma over Colorado Army over Iowa State

FROM LUBBOCK
Mr. and Mrs. S. B. Thomas, Mr. and Mrs. Charles Roberson and little daughter of Lubbock were visitors Sunday in the home of Rev. and Mrs. A. G. Paris.

RARE SPECIMEN — Old timers in the Norwood, Colo., area say they have never seen a deer like the one pictured here, brought back to Winters by Bill Walker of Wingate and Frank Antilley of Shep. Even game wardens in that area said they had never seen a "pinto" deer like this one. The rare deer was killed last week in the Colorado hunting region, and field dressed 190 pounds. The rack measures 29 inches, and there are 11 points, Texas count. When the deer was first spotted, Antilley shot it in the leg, then Walker hit it, but it would not go down. After trailing the animal for some distance, Walker brought it down with another shot. Also in the group from this area hunting in the Norwood section were Elvis Kirby and Bill Downing. Voting Regulations

Local authorities have issued the following information regarding eligibility requirements for the General Election Tuesday, November 3:

Citizens over 61 years of age as of January 1, 1964, may vote without a poll tax receipt or exemption certificate, in this county. Exemption certificates are required only in cities of over 10,000 population.

Persons voting for local and state candidates must have a poll tax receipt. Those who did not pay a poll tax were required to register in February and March of 1964 in order to be eligible to vote for candidates for Federal office; these voters can not vote for State and local candidates. This rule does not apply to those over 61 years of age.

Persons reaching their twenty-first birthday this year are eligible for a free exemption vote, provided they obtained exemption certificates by October 2, 1964.

More Than Two-Thirds Of Year's Cotton Crop Has Been Harvested

Cotton in North Runnels County will produce only about two-thirds of that harvested in 1963, most observers said this week, and this year's cotton crop is from two-thirds to three-fourths picked.

The Winters Compress and Cotton Warehouse reported Wednesday that only 5742 bales have been brought in from the two gins in Winters and two in Wingate. They estimated that the year's total for this section of the county would not be much over 9000 bales. More than 12,600 bales were brought in to the Winters warehouse from the 1963 crop, it was said.

Most of the cotton now being harvested is being gathered by mechanical strippers, it was said. There are fewer hands in the area this year than ever before, sources said, and only about a fourth of the cotton is being picked by hand.

Showers and heavy dews during the past few days have slowed cotton picking to a great extent, it was reported. Many fields have been defoliated and waiting for mechanical strippers and others are waiting for a frost to knock the leaves off the stalk.

Tenth Grade Students To Take Development Tests November 3rd

About 80 tenth-grade Winters High School students will take the three-hour National Educational Development Tests (NEDT) Tuesday, November 3, according to Mrs. Lee Harrison, High School counselor.

"The NEDT battery," she said "is a series of tests in English, social studies, mathematics, natural sciences, and word usage, which have been designed to measure each student's ability to apply basic learning skills rather than his ability to memorize particular facts or specific subject matter."

"They have been used in Winters since 1959 as a help to students, and teachers in identifying strengths and weaknesses in each student's educational development and in making a realistic appraisal of his educational and vocational objectives."

"This year, the NEDT program administered in Winters will also include an inventory of student educational aspirations and plans which, when used with the scores obtained on other parts of the test series, will enable the guidance counselor to immediately identify potential dropouts and other students who need special counseling."

General Election Next Tuesday

Although there is locally much interest in the presidential race, and in the contests for U. S. Senator and U. S. Representative, and in some State office races, Winters and Runnels County voters have little or no choice of candidates for judicial district, state senatorial district and county offices. Democratic candidates for these latter offices, having won the Democratic primary race in May, have no opponents, with one exception, in this General Election.

A few Democratic candidates for top State offices have Republican or Constitution party opponents, but for all practical purposes district and local candidates were elected last May.

Beginning with the 19th Judicial District, Glenn R. Lewis, Democratic candidate for District Judge has no opposition; the same is true for Royal Hart, candidate for District Attorney. Others facing no opposition include Sen. Donsey B. Hardeman for State Senator, 25th Senatorial District; and Rep. Ben Barnes, State Representative, 64th District.

In the county, only incumbent Clyde Chapman, Commissioner of Prec. 1, has opposition, William J. Wheelless, the only Republican in the county on the ballot, opposes Chapman.

For the rest of the County offices, these candidates have no opposition of any kind.

Mrs. Otis Power, for District Clerk; Pannell Legg Jr., for County Tax Assessor - Collector; O. L. Parish Jr., for County Attorney; Don F. Atkins, for County Sheriff; Pat Pritchard of Wingate, for Commissioner, Prec. 3. C. N. Mansell of Ballinger is the candidate for County Democratic Chairman.

Texas voters also will be asked to decide on three Constitutional amendments at this General Election.

Ballots for this election are so designed that otherwise qualified voters who have no poll tax receipt may vote for candidates for national office without voting for State and local candidates. A heavy line is printed on the ballot between the names of the national candidates and the State and local. It is not known whether election judges will tear off the top part of the ballot for non-poll tax receipt holders, or will simply mark out or obliterate that portion of the ballot which cannot be used by this type of voter.

In Winters, polls will be at the office of the chamber of commerce on West Dale Street, for Precinct 7, and at the fire station on South Main Street, for Precinct 26.

John J. Swatchesue will be election judge for the box in Precinct 7 at the chamber of commerce office. Assistant election judge will be E. A. Voelker. Election clerks will be Mrs. Grover Davis, Mrs. Joe Irvin, Mrs. C. G. Meeks, Mrs. Ted Meyer, Mrs. Ralph Burns, and Mrs. Louis Heard.

Howard Worthington is election judge for Precinct 26 at the fire station. Assistant will be Truitt Billups. Clerks will be Buck Smith, Bud Davis, Mrs. Elzie Cox, Mrs. Howard Worthington and Mrs. Truitt Billups. Polls will open at 8 a. m. and close at 7 p. m.

Surplus— Certified Surplus

"Each state bank shall maintain an account to be known as "surplus", any part of which may, from time to time, be certified, which portion of the surplus shall be known as "Certified Surplus." Before declaring any dividend, each state bank shall transfer to "certified surplus" an amount not less than 10% of the net profits of such bank earned since the last dividend was declared."

If it is good business for financial institutions to maintain a surplus account it may, by the same token, be advisable for individuals to create and maintain such an account. Only banks are required by law to build large surplus accounts but a trial may prove the worth of such a fund for individuals. The facilities of this bank are complete — you are invited to freely use the safeguards we have provided.

When the house is closed up... and the kitchen's soot free

Flameless Electric Cooking is all it could be

During the winter months when the house is closed up, a flameless electric range is almost a necessity. Only an electric range can prevent the ugly, oily film on windows, walls, cabinets...everything in the kitchen and adjacent rooms, because there's no combustion. Since heat is delivered directly by metal-to-metal contact with the bottom of the utensils, you don't have to clean soot from pots and pans. There's no doubt about it...electric cooking is clean, accurate, fast, and by putting the heat into the food, not into the air...you don't have to pay for dissipated heat.

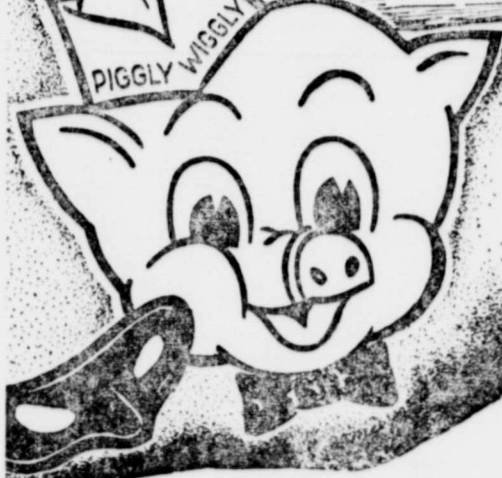

Visit an electric appliance dealer soon and bring home an electric range so you, too, can have a bright and shiny kitchen.

FREE WIRING - An extra for WTU customers. If you are a customer of WTU and purchase your flameless electric range from a local appliance dealer, WTU will install the wiring at no charge to you.

AROUND THE 5-AA FOOTBALL LOOP

The loop is getting tighter around District 5-AA, and for some it may seem like a noose... their string has already run out... as Ballinger and Stamford each took their opponents to the cleaners in lop-sided battles last week.

Now it looks for certain like it will be either Stamford or Ballinger who will take home the district trophy and represent the district in post-conference play. Neither team has a blemish on their district record, and Ballinger has a perfect season, and is one of 34 unbeaten teams in the state. Stamford has two pre-conference losses.

The winner of the Stamford-Ballinger bout Friday night will be headed downhill (or perhaps uphill, because of yet-to-come hard games) for the district championship. Stamford still has to take on Winters, which may be down and probably out of the running for honors, but will still be able to give battle in their last and homecoming game, and Anson, who would offer competition in anybody's league.

Ballinger, after meeting Stamford this week, still will face Haskell and Colorado City.

In last week's annual Runnels County contest, the family feud between Ballinger and Winters came to a head and the Bears carved some of the reason they've stayed at the top of the state rating lists all season. With a couple of quick thinkers in the backfield — Quarterback Ronnie Smith and HB Milford Wiley — and a hepped-up squad, they walked over Winters before a packed stadium. In 23 carries, Ronnie Smith racked up 144 yards and two touchdowns, while Wiley made 117 yards in 25 runs and crossed for three teedees. Even with well-oiled team work, these two showed

Hamlin goes to Colorado City this week, while the Haskell Indians take the trail to Anson.

The big one of the week will be at Ballinger with Stamford visiting, and reports are already out that tickets are scarce. Of course Stamford will be down in full force. Ballinger as usual will be out to back the Bears, and a drove of Winters fans, while the Blizzards rest, will go down to see how Stamford plays ball.

Nothing is more dismal than to watch the terror of a gun-shy dog. His fear completely ruins him for hunting.

Break this habit by taking him to a trapshoot, or a skeet range. Hold dog on leash, well back from the firing. As he gets used to gunfire from that distance, move him up closer.

Keep moving at intervals until you reach the firing line.

Just how long the treatment should last depends upon the dog. But patience eventually will cure him.

Blizzards Drop Annual Game To Ballinger Bearcats Last Friday Night

Bolstered by the win over Colorado City, the victory spirit burned brightly in Winters last week, along with several hundred red candles. However, the candles were only mounds of wax after the Blizzards took a stomping from the big foe in South Runnels County — the Ballinger Bearcats.

Although the Blizzards outweighed the Bearcats almost two to one, they were outplayed where it mattered — on the gridiron.

Starting off with the proverbial BANG, the Blizzards moved 61 yards in four plays for the first score on the board. QB Denny Aldridge scored from the Ballinger 29. Van Spill scored the PAT with a kick to give the Blizzards a 7-0 advantage.

The Bearcats returned the favor nine plays later with a Ronnie Smith tally from the two; but the attempted Gibbs kick was wide and the Blizzards still owned the lead by one point.

The Blizzards received the ensuing kickoff, and Larry Awalt carried to the 35, with Aldridge to the 37. With third down, and six needed, Aldridge attempted a pass and Mike Barrett, Ballinger end, intercepted on the Winters 48. QB Ronnie Smith (whom we predict for All-State) and HB Milford Wiley headed the necessary 48 yards needed for another Ballinger score. It was Wiley for the TD with 1:40 left in the first quarter. The pass attempt for extra points was incomplete.

Winters 7, Ballinger 12

The first play from scrimmage from the Winters 34 was a miscue and the Blizzards faced a first and 15 due to a penalty.

Blizzards Drop Annual Game To Ballinger Bearcats Last Friday Night

Jerry Awalt carried, Aldridge carried, Aldridge passed, incomplete so he completed the first down yardage by running. Three plays later Aldridge passed to Adams from the three for the second Winters score. A pass attempt from Richard Puckett to Adams was incomplete and the final score, Winters 15, Ballinger 33, was reached with 7:44 left in the game.

The Ballinger game is over but the season is not — the Blizzards still need to beat Hamlin and Stamford.

On their first play from scrimmage after that scoring, the Blizzards lost a fumble setting up another touchdown, this time the only difference was that Smith carried over for Ballinger. As before Does' kick was good. Winters 7, Ballinger 33.

Late in the third quarter the Blizzards began to move from their own 43 yard line. Aldridge passed to Adams for four yards, then Adams and Aldridge moved on the ground to the Ballinger 45 as the quarter ended.

First play of the fourth quarter Jerry Awalt carried from the 41 to the 31. Again Jerry Awalt to the 26. An Aldridge pass fell incomplete before he hit his favorite target, Adams, to the 20.

COKE COUNTY DAM HEARING PUT OFF

Hearing was postponed until December 11 by the Texas Water Commission on the application of the Colorado River Municipal Water District (Big Spring) to relocate a dam in Coke County and increase reservoir capacity to 488,760 acre feet.

Lower Colorado River Authority, fighting the application, requested the delay.

CROPS PROGRESS

Clear, open weather helped move along the harvest in the cotton farming region of the blacklands of Texas, the U. S. Department of Agriculture reports.

USDA says clear weather also aided farmers to push sorghum combining and the planting of

small grain. Lack of top-soil moisture slowed growth of the grass and some grains, but ranges and pastures remained in good condition over most of Texas.

WORKMEN'S COMP RATES UP

After a public hearing, workmen's compensation rates probably will go up an average of 2.3 per cent, effective December 1, says the State Board of Insurance.

Indicated changes by groups are: manufacturing, up 4.4 per cent; contracting, up 3.8 per cent; oil, down 0.9; all other, up 1.4.

WATER STORAGE INCREASES

Texas Water Commission reports that the month of September brought better than normal rainfall in most areas. Conser-

vation storage in major reservoirs increased 2,300,000 acre feet, to 8,400,000 acre feet. Storage at the end of September was 71 per cent of potential capacity.

Seventeen of the 18 stations over Texas reported above average rain. Weather Bureau station at Brownsville was the lone exception. There, near normal fall was recorded.

SHELL DISPUTE

Parks and Wildlife Commission has not decided yet whether to call a public hearing on the application of a Corpus Christi construction firm to dredge oyster shell from Copano Bay.

MENTAL HEALTH

A mental health plan, drafted by a 110-member committee appointed by Gov. John Connally is of vital importance to every

Texan. Says Committee Chairman Judge C. K. Abernethy of Plainview.

Reason is that every person—Texan or not—has, at one time or another, been a "troubled person." Committee defines "troubled" as "anything from a transient inability to make a necessary decision to a severe psychosis."

One segment of the committee is called the "services to Troubled People" task force. It has written recommendations for state and community services to troubled people. All recommendations by all committees will be in the spotlight as suggested legislation during the 1965 Legislature.

Committee reports that there is an endless supply of services to meet some fragment of the needs of the troubled. These include pastoral counselors, medical doctors, social workers, and

psychologists. Some community information centers must be set up so troubled people can find out where to go for the help they need when they need it.

WELLS IN CREEK BED

W. F. Company, Limited, a Monahan oil and gas firm, gained permission from the Texas Water Commission to divert 800 acre feet of water each year from Beals Creek by drilling about five wells in the creek bed.

Company will use the water from "brackish" underground in secondary recovery operation in the Snyder Field in eastern Howard County.

State Capital Highlights—

Some 3,000,000 Texans Will Vote In Tuesday's General Election

By Vern Sanford
Texas Press Association
This is the final week of the voter roundup. Tuesday, some 3,000,000 voters will reveal what they think about the candidates who have

been wooing them with promises, charges, warnings and counter-charges.

Central attention naturally has gone to the presidential race in which Texan Lyndon B. Johnson has been fending off attacks from Arizona Sen. Barry Goldwater.

But the U. S. Senate race in which Republican George Bush of Houston is trying to oust Sen. Ralph Yarborough has gained much attention.

The two presidential candidates have made strong endorsements in the Senate race. Johnson has urged Yarborough's election and Goldwater has urged Texans to support Bush.

SALT WATER

Trial is scheduled to begin on November 2 in a lawsuit brought by Superior Oil Co. to determine whether the Railroad Commission or the Water Pollution Control Board has jurisdiction over the disposal of salt water produced with oil and gas.

But the lawyer for both state agencies, Atty. Gen. Waggoner Carr, has stepped out of the case. Carr said there appears to be a "conflict of interest" between the two state agencies, so he advised them to use their own staff lawyers if they want to be represented in the trial.

Attorney General's Department will take part in the trial only to see that all evidence is fully developed.

In an informal opinion, First Asst. Atty. Gen. Hawthorne Phillips wrote that the Water Pollution Control Board does not have the authority to require oil operators to get permits for use of open salt-water disposal pits.

A special study committee of the House of Representatives will meet on October 30 to decide whether to recommend legislation. Bills giving control of pits to the Board, the Commission, and to both, will be proposed to the committee.

RETAIL SALES

September retail sales were less than one per cent below those of August, when normal, seasonal variation is considered. So reports the UT Bureau of Business Research.

But the dramatic increase was the one of 14 per cent in dollar sales volume over September, 1963, and a 32 per cent increase in auto sales. For the year, sales are up 6 per cent over the same portion of 1963, showing that the upward trend in business conditions is continuing steadily.

COURTS SPEAK

Effect of a U. S. Supreme

Court decision concerning admissibility of confessions as evidence was debated before the Court of Criminal Appeals in San Antonio and Houston cases.

Bexar County District Atty. James E. Barlow said the high courts on proper methods of introducing confessions. Supreme Court said persons other than the convicting jury should make a finding of facts as to whether a confession is voluntary or not and whether it is admissible.

State Supreme Court upheld rulings favoring the City of Temple in a suit brought by a former fire alarm operator who charged he was fired without sufficient reason or due notice.

53rd District Judge Herman Jones is due to make a decision soon on the City of Big Spring's suit against the Board for State Hospitals and Special Schools. In 1937, when the city was competing for the State hospital now located in Big Spring, it contracted to furnish water for the hospital at 10 cents per 1,000 gallons.

A few years ago, the city decided the arrangement was untenable since it costs 32 cents per 1,000 gallons to provide the water that earns 10 cents per 1,000 gallons. But State attorney generals have ruled that the Board cannot re-negotiate on the "perpetual contract."

State supreme Court refused to review a blind widow's appeal to take over her late husband's vending stand in Dallas. Texas Commission for Blind assigned the stand to another.

State Supreme Court also rejected annexation by city of Irving of land in two Dallas levee improvement districts and left in effect a ruling by the Civil Appeals that Bexar County commissioners were not obligated to call an election on proposals of a county home rule charter drafting body.

ATTORNEY GENERAL'S OPINIONS

A county hospital district formed under a new law has the same responsibility for care of indigents as is imposed on commissioners courts, Attorney Carr told Ochiltree County Atty. G. R. Close.

In other new opinions, Carr informed Dist. Atty. Charles Allen of Marshall that petitions for a local option liquor election did not meet requirements because of a discrepancy in wording.

He also held that the State Board of Hairdressers and Cosmetologists cannot require financial statements as a prerequisite for a license.

CORPUS CHRISTI FIRST

Corpus Christi became the first metropolitan area in the nation to complete a comprehensive transportation plan in compliance with the Federal Aid highway Act of 1962.

Study was conducted by Texas Highway Department in cooperation with the City of Corpus Christi, Neuces County, and the Bureau of Public Roads. It pinpoints present and foreseeable traffic problems in the area and provides a basis for development of highway routes, city streets and county roads serving the Gulf coast city over the next 20 years. Nineteen similar plans are due to be developed in

Mrs. A. B. Spill, president of the Winters HDC, presided for the meeting and the group sang the club song "Ever Onward." Roll call response was "A Hobby I Like Best." Mrs. W. D. Proctor led the recreation program.

Members were asked to bring gifts to the club house at the November meeting to be sent to the State Hospital in Abilene.

Mrs. L. C. Hill gave a report on the council meeting held in Ballinger October 9th.

"The Last Man On Earth"

More often a kissless hero than not, Vincent Price, the handsome actor with an insatiable love of the arts and an enduring appreciation of beautiful women, plays another of his many loveless roles in American International's wide screen science fiction drama, "The Last Man on Earth," showing Mid-night at the State Theatre.

"A Shot in the Dark"

Blake Edwards' "A Shot in the Dark," starring Peter Sellers and Elke Sommer, will begin its local engagement at the State Theatre on Sunday. The Mirisch Corporation presentation for United Artists release, is free-wheeling comedy about a bumbling French police inspector, a beautiful blonde and a string of murders.

"Spencer's Mountain"

Enriching the screen with its glowing portrait of family love, selflessness, heartbreak, sacrifice and triumph, "Spencer's Mountain," starring Henry Fonda, Maureen O'Hara, James

MacArthur, Donal Crisp, and Wally Cox, shows Friday and Saturday at the State Theatre.

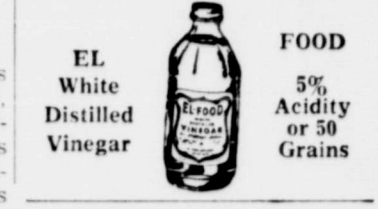

Producer - director - scripter Delmer Daves filmed the tender and appealing romantic drama against the majestic splendor of the towering peaks of Grand Teton National Park.

The soaring Tetons with their swirling trout streams, flower-blanketed fields and pine forests were the perfect site for the story of a rugged mountain community and the robust family that dominated it.

The Texas Highway Department allocated \$160 million for an improvement program to promote more safety and less congestion for 2,067 miles of the Texas highways in the biennium 1964-65.

You Deserve To Know The TRUTH . . . !

(An editorial from the people of Runnels County on certain issues of this campaign)

MORALITY IN OUR GOVERNMENT

Contrary to what some would have you believe, the issues of personalities, personal finances, and character are not extraneous to this campaign. They arose years ago in Jim Wells County and have followed Lyndon Johnson's career even down to recent weeks. If Americans can demand anything of their president, it is that he be a tower of uncompromising devotion to morality, honesty, and integrity. Yet instances of moral laxity among the White House upper echelon have been so recurrent as to have become the theme song of this administration. Attempts by many to gloss over such instances do not minimize their importance. We of West Texas feel we have swept enough of Johnson's questionable activity under the carpet. We are convinced that a man who is above reproach does not remain the subject of obvious question for thirty years.

We support Barry Goldwater, a man whose integrity and honesty—public and private—have never been questioned.

THE INTERNATIONAL FIELD

In the Tonkin Bay incident, Johnson's warning to the enemy that American planes were on their way one hour and a half before the Communists otherwise could have known it, was a reckless act of poor judgment unmatched in the world's annals of warfare. He sacrificed American lives for prime television time.

He has provided Communist governments with food, thereby enabling Red dictators to keep their people enslaved.

He has poured money into the laps of unfriendly nations faster than the American people can provide it. He has refused to limit the imports of goods such as beef to this country, thereby sacrificing the Texas producer rather than to risk a politically embarrassing incident.

He has forced this nation to subscribe to a test-ban treaty which has tied our hands in the field of nuclear research and production, while non-subscribing nations, such as Red China, are free to test and accumulate arms. The result of this treaty was made sadly evident a few days ago with the emergence of Red China as a nuclear power.

Under Johnson's direction America has become virtually the only country in the world which is disarming, and at an alarming rate. At the same time our enemies are arming themselves as fast as their economies will permit.

We citizens of Runnels County and West Texas support Barry Goldwater, who refuses to sacrifice American prestige or American lives for political gain, and who feels that to subscribe to a no-win policy in the struggle for freedom is treason.

THE NATIONAL ECONOMY FIELD

Lyndon Johnson has spent money faster than the head of any government in any country in the history of the world. To pay for the private "palace" he is secretly building in Austin, at taxpayers' expense but without their knowledge or consent,

the lights of the White House would have to stay off for a thousand years. His life has never been marked by the economy of funds, either public or private. To have him as President for any length of time is an expensive luxury, and one which Americans cannot afford.

Johnson backers have never mentioned his juggling our balance of payments and his other fiscal maneuvers contrived to avoid a recession and the resulting political harm. They have never brought out the fact that the employment rate is not keeping pace with the population as it did during the Eisenhower years. They have overlooked the fact that in the first two years of this administration there were 35,000 business failures, breaking a twenty-year record, and that the number of non-farm mortgage foreclosures was the highest in eighteen years. A lesson in how to make a recession look like a boom!

Space prohibits our dealing at length with other important issues such as: The lawlessness which this administration has encouraged in the streets of our land, and the crime rate which is increasing five times as fast as the population; the sinister power-tactics by which Johnson attempts to "manage" Congress; our daily appeasement of Communism abroad and our apparent inability to cope with infiltration by Communist agents at home; Johnson's determination to turn our country into a welfare state and, in this regard, the appalling danger of having Hubert Humphrey only one damaged heartbeat away from the Presidency.

Suffice it to say that we welcome the opportunity to elect a man who respects the Constitution; who is determined to reduce bureaucracy, eliminate socialism, and fight Communism; and who feels that fiscal responsibility is part of our lives and not just something that our grandchildren must worry about.

Barry Goldwater believes that in our foreign policy we must state our position in world affairs strongly and concisely, not fearing that world Communism might be offended by a positive stance.

Barry Goldwater is for individual liberty; that is, he does not attempt to court bloc votes for his own political expediency.

He has compassion for those truly in need and feels that they can be cared for best in the American tradition—that is, by local communities, where local needs can be met individually, economically, and effectively.

He believes that the individual, through his own ability and his own efforts, should be able to obtain and retain his own financial rewards, his own personal freedom, and his own dignity that he so richly deserves as an American citizen. He believes that these are rights granted to us not by the Supreme Court, not by the federal government, but by an almighty Creator.

We shall vote for the only man who is determined to preserve the way of life we in Runnels County and West Texas so deeply cherish — Barry Goldwater. He is a man Texas could be proud to have produced.

(Political ad paid for by North Runnels County Friends of Barry Goldwater, Mrs. R. Walston, Treas.)

"The Last Man On Earth"

More often a kissless hero than not, Vincent Price, the handsome actor with an insatiable love of the arts and an enduring appreciation of beautiful women, plays another of his many loveless roles in American International's wide screen science fiction drama, "The Last Man on Earth," showing Mid-night at the State Theatre.

"A Shot in the Dark"

Blake Edwards' "A Shot in the Dark," starring Peter Sellers and Elke Sommer, will begin its local engagement at the State Theatre on Sunday. The Mirisch Corporation presentation for United Artists release, is free-wheeling comedy about a bumbling French police inspector, a beautiful blonde and a string of murders.

George Sanders and Herbert Lom are co-starred in the movie which was filmed in Color by DeLuxe and Panavision on location in England and France.

(An editorial from the people of Runnels County on certain issues of this campaign)

MORALITY IN OUR GOVERNMENT

Contrary to what some would have you believe, the issues of personalities, personal finances, and character are not extraneous to this campaign. They arose years ago in Jim Wells County and have followed Lyndon Johnson's career even down to recent weeks. If Americans can demand anything of their president, it is that he be a tower of uncompromising devotion to morality, honesty, and integrity. Yet instances of moral laxity among the White House upper echelon have been so recurrent as to have become the theme song of this administration. Attempts by many to gloss over such instances do not minimize their importance. We of West Texas feel we have swept enough of Johnson's questionable activity under the carpet. We are convinced that a man who is above reproach does not remain the subject of obvious question for thirty years.

We support Barry Goldwater, a man whose integrity and honesty—public and private—have never been questioned.

THE INTERNATIONAL FIELD

In the Tonkin Bay incident, Johnson's warning to the enemy that American planes were on their way one hour and a half before the Communists otherwise could have known it, was a reckless act of poor judgment unmatched in the world's annals of warfare. He sacrificed American lives for prime television time.

He has provided Communist governments with food, thereby enabling Red dictators to keep their people enslaved.

He has poured money into the laps of unfriendly nations faster than the American people can provide it. He has refused to limit the imports of goods such as beef to this country, thereby embarrassing the Texas producer rather than to risk a politically embarrassing incident.

He has forced this nation to subscribe to a test-ban treaty which has tied our hands in the field of nuclear research and production, while non-subscribing nations, such as Red China, are free to test and accumulate arms. The result of this treaty was made sadly evident a few days ago with the emergence of Red China as a nuclear power.

Under Johnson's direction America has become virtually the only country in the world which is disarming, and at an alarming rate. At the same time our enemies are arming themselves as fast as their economies will permit.

We citizens of Runnels County and West Texas support Barry Goldwater, who refuses to sacrifice American prestige or American lives for political gain, and who feels that to subscribe to a no-win policy in the struggle for freedom is treason.

THE NATIONAL ECONOMY FIELD

Lyndon Johnson has spent money faster than the head of any government in any country in the history of the world. To pay for the private "palace" he is secretly building in Austin, at taxpayers' expense but without their knowledge or consent,

the lights of the White House would have to stay off for a thousand years. His life has never been marked by the economy of funds, either public or private. To have him as President for any length of time is an expensive luxury, and one which Americans cannot afford.

Johnson backers have never mentioned his juggling our balance of payments and his other fiscal maneuvers contrived to avoid a recession and the resulting political harm. They have never brought out the fact that the employment rate is not keeping pace with the population as it did during the Eisenhower years. They have overlooked the fact that in the first two years of this administration there were 35,000 business failures, breaking a twenty-year record, and that the number of non-farm mortgage foreclosures was the highest in eighteen years. A lesson in how to make a recession look like a boom!

Space prohibits our dealing at length with other important issues such as: The lawlessness which this administration has encouraged in the streets of our land, and the crime rate which is increasing five times as fast as the population; the sinister power-tactics by which Johnson attempts to "manage" Congress; our daily appeasement of Communism abroad and our apparent inability to cope with infiltration by Communist agents at home; Johnson's determination to turn our country into a welfare state and, in this regard, the appalling danger of having Hubert Humphrey only one damaged heartbeat away from the Presidency.

Suffice it to say that we welcome the opportunity to elect a man who respects the Constitution; who is determined to reduce bureaucracy, eliminate socialism, and fight Communism; and who feels that fiscal responsibility is part of our lives and not just something that our grandchildren must worry about.

Barry Goldwater believes that in our foreign policy we must state our position in world affairs strongly and concisely, not fearing that world Communism might be offended by a positive stance.

Barry Goldwater is for individual liberty; that is, he does not attempt to court bloc votes for his own political expediency.

He has compassion for those truly in need and feels that they can be cared for best in the American tradition—that is, by local communities, where local needs can be met individually, economically, and effectively.

He believes that the individual, through his own ability and his own efforts, should be able to obtain and retain his own financial rewards, his own personal freedom, and his own dignity that he so richly deserves as an American citizen. He believes that these are rights granted to us not by the Supreme Court, not by the federal government, but by an almighty Creator.

We shall vote for the only man who is determined to preserve the way of life we in Runnels County and West Texas so deeply cherish — Barry Goldwater. He is a man Texas could be proud to have produced.

A Self-Test on How to Vote November 3—

(By Dr. Philip M. Crane, A.M., Ph.D., History Department, Bradley University, Peoria, Ill.)

Patriotic Americans will want detailed facts about both political parties. So answer the 20 questions below. Then add your check marks in each column. On Nov. 3 you should thus vote for the candidates at the top of the column where you have made the most check marks. Views of the candidates or their ardent followers are indicated at the right by a "Yes" or a "No".

	Goldwater-Miller	LBJ-Humphrey
(1) Should we stop giving billions in foreign aid to the Communist nations and their sympathizers?	() Yes	() No
(2) If parents pay their child's college expenses, instead of begging for federal scholarships, should they be granted extra exemptions on their personal income tax?	() Yes	() No
(3) Should a candidate "cover up" or "whitewash" Bobby Baker, Billie Sol Estes, Matt McCloskey or any one who betrays the public trust?	() No	() Yes
(4) Do you approve of "smear" campaigns to terrify mothers and children by TV scenes of nuclear explosion?	() No	() Yes
(5) When a party has completely dominated Congress for four years, yet admits we are in a state of TERRIBLE POVERTY, isn't that same party to blame for such TERRIBLE POVERTY?	() Yes	() No

(7) In this period of nationwide POVERTY, should Congressmen have raised their salary from \$22,500 to \$30,000 per year?	() No	() Yes

(10) If you own property, should you be allowed to rent or sell as you please, without threats from Uncle Sam?	() Yes	() No

(12) Most of the United Nations members deny habeas corpus and other basic liberties to their own people back home so should we let the U. N. dictate America's policies?	() No	() Yes
(13) American boys are dying daily from enemy bullets in Viet Nam so isn't this the fourth war this century under a democratic president (Wilson, Roosevelt, Truman, LBJ)?	() Yes	() No
(14) Socialism wants to destroy our "Free Enterprise" system so should the "darling" of Socialist-tinged A.D.A. be elected vice president (one heart beat removed)?	() No	() Yes
(15) Should Walter Reuther, who set up a Socialist cell in a Michigan university, be allowed to force all his union members to contribute to his "captive" democratic party?	() No	() Yes
(16) If threatened with quick destruction by Communist nuclear bombs, should our top commanders be free to retaliate without waiting for an O. K. from the president (who might be on vacation or overcome by a sudden heart attack)?	() Yes	() No
(17) Should we elect men of the party that deceived the Cuban Freedom Fighters into thinking we would offer them full air protection in their brave attempt to free Cuba?	() No	() Yes
(18) Was LBJ parroting the Socialist "line" when he said he wanted to take the money from the "haves" and give it to the "have nots" (welfare clients)?	() Yes	() No
(19) Was it statesmanlike for LBJ to urge that race riots and strikes be stopped just "till after the Nov. 3rd election"?	() No	() Yes

Funeral Rites For Mrs. I. J. Burson Held Thursday

Funeral for Mrs. Irving J. Burson, 71, who died Tuesday night in a Fort Worth hospital, was held at 2 o'clock Thursday afternoon at Spill Memorial Chapel, with the Rev. W. B. Morton of Coleman, former pastor of the Crews Methodist Church and the Rev. W. O. Crews Ballinger Seventh Street Church pastor, officiating. Burial was in the Crews Cemetery.

The purpose of this week's column is to warn readers of the terrific importance of the events we are now facing. This is not an appeal for Barry Goldwater. He may stumble as have many before him having the same opportunity. No one, of course, can tell what the future holds. Yet, I am one of those who believe that what takes place now is simply a continuation of what has been happening down through the centuries, and furthermore that what happens today or tomorrow will be the result of forces set in motion centuries ago. I wish that General DeGaulle, for whom I have the greatest respect, would give more time to reading the history of Rome, Spain, Carthage and other ancient nations of North Africa.

Mrs. Burson had been ill for five years but had been hospitalized for a week. She was born Cordia Bates April 5, 1893 in Mills County, daughter of the late Mr. and Mrs. R. L. Bates, prominent ranchers near Novice. She married Irving J. Burson Nov. 7, 1909, in Novice.

She moved to Runnels County in 1900, settling near Novice, where she lived until 1961, when she moved to Winters. Mr. Burson died on Oct. 21, 1958. She was a member of the Methodist Church at Crews. Survivors include two daughters, Mrs. Cleo Pearson of Novice and Mrs. Lillie Faye Morrison of Corpus Christi; six grandchildren; 8 great grandchildren; three sisters, Mrs. Earl Clayton of Novice, Mrs. Edna Smith of Gruver, and Mrs. Rosa Pope of El Paso; three brothers, Willie of Novice, Arthur and Frank of Winters. Casketbearers were Mackie Adams, Bob Hambright, Jimmie Hambright, Hoyt Deaver, Alfred Bates, W. D. Neuroth, Floyd Bates, and Eugene Pope.

The goal of the Texas Highway Department is "total road service to all the people, favoring none." This is exemplified by the balanced highway program.

Great doubts deep wisdom — small doubts little wisdom.

We must ourselves believe the things we tell our children.

Roger Babson Says— November Election Will Attract Attention of Whole Civilized World

Babson Park, Mass. — This is Barry Goldwater's great hour. He has received the nomination of the Republican Convention and it may mean his election in November to the Presidency of the United States. I doubt whether he expects it. If President Johnson retains his health and selects a satisfactory man for Vice President, the consensus is that President Johnson could be defeated. Similar political surprises have happened in the past.

ENTIRE WORLD NEEDS READJUSTING

The defeat of Barry Goldwater by President Johnson may result in making Goldwater the greatest individual in the English speaking world. In deed, the English speaking countries are in need of a courageous leader. They are already beginning to talk in their press about Barry Goldwater as the one and only man who has the necessary foresight and courage.

Great Britain and, in fact, the entire British Commonwealth including Canada would naturally be the first to appeal to Goldwater to help them out. Great Britain is now on the verge of an election between the Conservatives and Labor. The English press is strongly divided between the financial interests of London and the working people of Liverpool. Some of the editorials are already saying "we need a man like Senator Barry Goldwater to lead us out of our present conflicts, — a courageous man, absolutely unselfish and not a politician." This does not mean any permanent change of government, but simply a temporary agreement for the good of all parties. But let us look at other English speaking countries. The next great one without a strong leader is India.

WHAT ABOUT INDIA?

This is a vast sub-continent and a long-civilized country, second only to China in popula-

tion, with over half a billion people, including Pakistan. It had been held together by Prime Minister Nehru who recently died, suddenly leaving these millions of people as a prey to Russia, China or to a purely revolutionary group.

This is one of the world's greatest political problems today. It is vitally tied up with South Viet Nam which is now holding back the Chinese.

Furthermore, it looks as if the South Viet Nam war can only be contained by more active United States participation since this President Johnson is in no mood to do now, especially before the election in November. With this, Laos and Cambodia are also involved. Many national leaders believe that Barry Goldwater is the only one who, at present, could hold the Chinese back and be unselfish enough to retire after he has performed this important function. Furthermore, even though he should not get the Presidency of the United States, Barry Goldwater may one day be widely viewed as a "prophet" of the English speaking world.

POSSIBILITIES OF FAILURE

Barry Goldwater is human and may forget his unselfish independence when he comes to the test, but as yet he has not. He will undoubtedly stick to his present hope of beating President Johnson in the November elections. Should Barry Goldwater win, he will go down in history as a great figure such as George Washington or Abraham Lincoln. But the temptations before him will be very great

VOTE FOR THE TEXAN WHO LEADS THE FREE WORLD!

For the past eleven months, for the first time in our history, a native son has led our nation and the free world. And every Texan can take pride that President Johnson has met the awesome burdens of the office with courage, wisdom and restraint.

THE ISSUE TUESDAY IS SIMPLE: WHO CAN BEST LEAD OUR NATION IN A TIME OF CHALLENGE AND PERIL?

To which man do you feel most comfortable entrusting the security and well being of yourself and your children for the next four years—

A man who wants to turn back the clock of achievement... a man who has worked consistently against progressive measures in the Senate... a man virtually untested in a time of crisis?
Or a man who has dedicated his entire life to public service... who has demonstrated, under five administrations, progressive leadership in working for a better way of life for all Americans. A man who has proved his courage under fire... has demonstrated his unwavering strength to meet any aggressor with firmness, yet restraint?

PRESIDENT JOHNSON HAS PROVIDED RESPONSIBLE LEADERSHIP FOR MORE THAN A QUARTER OF A CENTURY

For almost three decades, President Johnson has been a pillar of strength for Texas and the nation. As Congressman, as Senator, as Majority Leader, as Vice President, and now as Chief Executive, he has written a proud record of progress.

ONLY TEXAN PRESIDENT LYNDON JOHNSON OFFERS THE EXPERIENCE, THE PATIENCE, THE WISDOM, AND THE STABILITY NEEDED BY THE NATION AND THE FREE WORLD IN THESE CRITICAL TIMES!

There Must Be A Reason

Seldom in the history of the nation has a presidential candidate earned the widespread editorial support that President Lyndon B. Johnson has received from responsible newspapers and magazines—Democratic, Republican and Independent.

Many of these publications are indorsing a Democratic presidential candidate for the first time. One, the Atlantic Monthly, has never before in its long and respected history given its editorial blessing to any presidential contender.

THERE MUST BE AND THERE IS A REASON FOR THESE INDORSEMENTS

The owners and publishers of these newspapers and magazines are conservative businessmen, deeply concerned with maintaining and strengthening the very freedom which makes it possible for them to exist and flourish.
