HOME TOWN Talk

By R. C. THOMAS

Most of the time much of the meat of a good story is lost in the re-telling, and then again in the re-telling of a re-told tale. Homer Hodge told the following story at a meeting recently, and we'll try to stick as close to the original facts as possible, and put it down just the way we heard it:

Homer was telling about a man (think it was a local man) who was driving down one of our many country roads recently. He spotted a big jackrabbit sitting in a fence row, so stopped and got his trusty rifle—always hanging handily in the rack of his pickup cab—and stepped out to get a good shot at the rabbit. As he stepped clear of the pickup, so the story goes, the jackrabbit suddenly became belligerent—bared his teeth in a snarl and started advancing toward the gunman in a menacing manner; he was really worked up, it seems.

So startled by the uncommon actions of a mere jackrabbit, which normally would have hightailed it over the next ridge, the rifle-toting hunter quickly retreated to the safety of his pickup cab, and got out of there—visibly shaken by the experience.

(Now we won't vouch for the facts of this story, but we will put down some gathered opinion regarding the actions of such an otherwise flighty animal as a jackrabbit. We've been told that in some areas that the incidence of rabies in animals is very high; foxes, possums, coons, coyotes, skunks and rabbits, are known to be infected at times in the area. So—the only answer we have been able to come up with, which sounds logical, is that that jackrabbit was rabid and the disease had changed him from a frightened rabbit-type to a hostile, take-no-all-comers, type. That answer will have to suffice.)

Someone has said: "There is hope for the world as long as there are people who do not choose to run with the herd, as long as some free minds are jealous of their freedom and guard themselves against being merged with others. Politically and economically, if one holds constantly to the popular view, it would be well for him to re-examine his thinking. He is probably wrong."

Those TV viewers who saw the "Branded" show on television Sunday night perhaps would be interested to know that one of the players in that chapter of the series has ties in Winters.

The girl who played the part of the white girl who had lived with the Indians many years, and who, at the end of the story, chose to continue to live with them, was Zeme North. Miss North is the daughter of Mr. and Mrs. Walter North of Corpus Christi, and a niece of Eddie Little of Winters.

Miss North will play the part of Judy in a new tv series, "The Double Life of Henry Phye," scheduled by ABC on Thursday night, opposite Red Buttons.

She has appeared on other tv shows, including the Perry Mason series, and 77 Sunset Strip. She also has appeared with Walter Pidgeon on Broadway.

Wingate School Census Began January 10th

The annual census of all scholastics for the Wingate School District began Jan. 10 and will continue through Jan. 31. Superintendent Jim Williams has announced.

Registration of all scholastics in the school district is necessary in order to determine state assistance and in setting up grade sections for 1966-67, the superintendent said.

Children to be included in the census are those who will be six years of age on Sept. 1, 1965. Census slips will be sent home with each pupil and parents are asked to complete the census form for each child in the family.

VISITED CHILDREN

Mr. and Mrs. Sam Russell were recent visitors with their daughter, Mr. and Mrs. Ray Bryant in Jackson, Mississippi. They spent New Year's day in Odessa visiting their son, Sammy Russell and family.

Second of A Series— Administration of City Business Requires Several "Funds"

Operation of a business so varied and expansive as that of the City of Winters requires the use of several "funds," each peculiar to its own department or origination. This practice of using several different funds is guided by state statutes which govern operation of cities of this size, or by custom or policy.

Modern accounting procedures, backed by the latest accounting machines, are used throughout the accounting department of the City to help the City Secretary, the clerks, auditors and the governing administration to keep on top of the financial status of each department.

Several of the funds are tax funds, while some funds are funds into which monies from self-sustaining revenue departments are funneled. Some of the funds are merely depositories for larger systems or departments, acting only as clearing or auditing centers and central for deposit or payment of money. Because many of the separate funds are related, it is important that all be studied in order to come up with a true picture of the financial condition and structure of the City.

The general fund is the operating fund for most tax monies received by the City of Winters, and covers the general administration of the City, as well as the police department, fire department, street department, sanitary department, sewer, cemetery and parks. In addition to taxes, income in this fund is derived from parking meters, swimming pool and concession, sewer connections, and sale of cemetery lots.

A report of the fiscal condition of the City of Winters, as of Sept. 30, 1965, including each department was recently released in a report made by the auditing firm of Cherry, Eckert & Story, of San Angelo. A summary of the report covering the general fund was made last week in the first of a series of articles.

In the report submitted by the auditors, all funds within the City fiscal complex were covered. For instance, the Tax Bond Sinking Fund report shows the amount of money which had been deposited to take care of obligations of the City, and the amount which had been paid out. The Tax Fund is the depository of money received in taxes, and from it come much of the cash needed by the General Fund for normal operation.

The report shows that during the fiscal year ended Sept. 30, 1965, current tax collections amounted to \$81,229.44. Delinquent collections, \$4,036.46, and penalty and interest payments, \$951.35, Costs, \$158.00, and over-collections, .04. Disbursements from this fund were to tax attorney, \$3,075.09, and refunds, \$23,200. \$50,961.69 was transferred to the General Fund, and \$32,596.24 to the Tax Bond Sinking Fund.

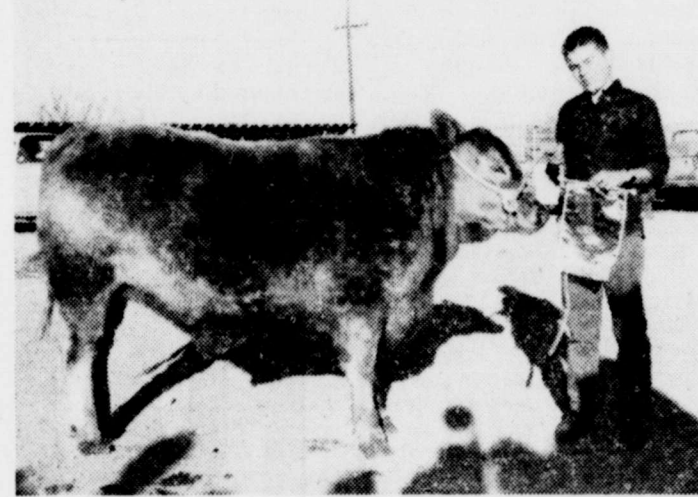

INVESTMENTS

Much of the cash received by the City is received during a short period of time within a fiscal year. This is especially true of the General Fund and Tax Funds. In order to prevent this money from lying idle during the entire year, until it is needed for operation of the various departments, the City administration several years ago adopted the practice of investing in U. S. Government bonds or in Certificates of Deposit in the Winters State Bank. At the end of the fiscal year, there was a total of \$254,087.50 invested from several funds, with maturity dates staggered so as to have funds available when they were needed at certain times of the year. The money is invested according to the fund it

Dry Manufacturing Will Exhibit Products At National Exposition

Dry Manufacturing Company will be among approximately 200 exhibitors displaying their products at the fourteenth National Air Conditioning, Heating and Refrigeration Exposition at Louisville, Kentucky during January 31 through February 3.

Visitors from all parts of the United States and many foreign countries will be on hand—more than 15,000 of them—to view the exhibits of the latest designs in air conditioning, heating and refrigeration equipment, materials, parts and accessories used with them in their manufacture.

The big national show, which is sponsored biennially by the Air Conditioning and Refrigeration Institute of Arlington, Virginia, is one of the country's largest trade shows, with more than 80,000 square feet of exhibit space. The sponsoring institute is the national trade association of manufacturers of air conditioning, heating and refrigeration equipment.

Visitors at the show will include contractors, engineers, wholesalers, chain store buyers,

dealers, architects, government buyers and specifiers and many other classifications responsible for the manufacture, specification, purchasing, installing, servicing and maintenance of cooling and heating equipment.

Along with the exposition, a number of associations allied with the air conditioning and refrigeration industry are planning meetings at Louisville in connection with the show. They include the Air Conditioning and Refrigeration Contractors of America, Refrigeration Service Engineers Society and others.

Air Mate, produced by Dry Manufacturing Company, will exhibit its complete line of products. Among the items of interest will be the new Air Mate Thin Line series of registers and grilles, along with the Adjust-Flo Diffusers, the No. 509 series stamped face curved blade registers and grilles, along with several new additions recently added to the growing group of Air Mate's complete line of heating and air conditioning accessory equipment.

Re-Districting Adds Several Counties To 17th Congressional District

The Federal Court has finally ruled on the proposed Congressional redistricting in Texas and the new 17th Congressional District now includes 24 counties with a total population of approximately 376,200 people. The Congressman for the 17th District is Omar Burleson of Anson, who is about to begin his 20th year of service to the 17th District in the Congress.

In a statement prepared for the announcement, Congressman Burleson had this to say: "I am very pleased to have the new counties which have been added to the 17th District, and to have been able to retain so many of the counties which have a part of this fine District for many years. The geographical area is much larger, (larger in square miles than the combined area of the states of Delaware, Maryland and Connecticut), but I hope to be able to get around and get acquainted with the new people and renew old acquaintances in the new counties as quickly as possible. I have already been able to visit, at least briefly, in all of the new counties during the limited time left this fall following a rather lengthy session of the Congress. I want the people in the entire new 17th District to know that I feel it a great honor and privilege to be able to serve as your Representative

in the Congress, and would be pleased to hear from each of you from time to time."

Congressman Burleson stated further, "The new counties which have been added to the Old 17th District have many interests in common with the present District and I feel they will lend much to the creation of a fine new community of agricultural, livestock, oil and urban progress. I look forward to representing this District in the U. S. Congress and shall continue my best efforts in the interest of economy and good government."

"My District office is located in the Post Office Building at Abilene, and, of course, you can write to me or otherwise contact me in the Rayburn Office Building in Washington, D. C. at any time."

City Grocery Hit By Fire Monday Night; Other Businesses Get Smoke

A rear-attic fire Monday night did considerable damage to the building of City Grocery on North Main Street, and caused smoke to seep through walls to adjoining businesses in the half-block section.

Carl Baldwin, owner of the store, said Wednesday that a complete estimate of damage to the building and grocery stock had not been made. He said, however, that he expected to be open for business again by next week.

Main Drug, Hatler-Robinson Barber Shop, Kendrick Insurance Agency, and West Texas Utilities buildings adjoining the City Grocery building received slight smoke damage.

Fire was said to have started in the rear of the grocery store, but was reported and extinguished by the Winters Volunteer Fire Department before it could spread to the rest of the building or to adjoining buildings. Much of the damage to the grocery store was to stocks, it was stated.

Roy Young, owner of Gulf Service Station on North Main Street, turned in the alarm at 7 p. m., about 30 minutes after the City Grocery was closed for the day. Firemen had the flames under control by 9 p. m. Cause of the fire was not known.

Pan-American Industries Enlarging Office Space, Building New Front

Pan-American Industries now is in the process of building a new front to the building housing their main offices at the plant in West Winters, and adding new office space.

Construction of the additional office space has been about completed, adding about one-third more usable space for the offices of the several departments of the company. Space which had been previously used for showrooms has been converted to offices. The additional office space was necessary to accommodate the personnel manning the several offices which had previously been located in Dallas, but which have been moved to Winters.

An attractive native-rock wall has been built at the front of the office building, about five feet from the main wall. This will provide a breezeway and weather-break for persons entering the main office. According to a company spokesman,

Show Champions Divide \$2,000

Exhibitors in the annual Junior Livestock Show Saturday, sponsored by the Winters Livestock & Agricultural Association, received what many considered record cash awards for their efforts in showing their animals.

The Association put up \$1,000 for cash awards to youths showing prize animals, and members of the Winters Chamber of Commerce and others awarded almost a thousand dollars to winners. In lieu of a sale of animals in the show, the Chamber of Commerce guaranteed a premium payment to winners, and sold "shares" to 34 businesses and individuals. Top money award was for \$150 to the exhibitor showing the champion steer in the show. List of businesses and individuals who bought "shares" is printed below.

Roger Babson Says—

Canada and United States Need To Seek Closer Economic Ties

Our Canadian Neighbors

Babson Park, Mass. At the moment, relations between the United States and Canada are fairly cordial . . . diplomatically as well as economically. Yet here are stubborn problems facing our two nations whose common unfortified border extends for nearly 4000 miles.

Improving Trade Relations

Both Canada and the United States have lately been making fairly substantial progress in lowering troublesome tariffs. Thus they have opened the way to a freer flow of trade between the two countries. However, the situation is still far from ideal.

THE WINTERS ENTERPRISE
Winters, Texas

common sense dictates that we continue to explore ways and means of securing closer economic co-operation.

In an age which, for all its promise, is still fraught with dangers and uncertainties, Canada and the United States must—for their mutual benefit and protection—strengthen by every possible means the historic, cultural, and economic ties that have always joined them.

Canada's Vulnerable Position

At times the U. S. shows signs of irritation because, in some instances, Canada seems to be holding back in the matter of liberalizing tariff policies. There is a feeling among some Americans that Canada is dragging her heels, either because of excess nationalism or out of "sheer cussedness." A greater awareness of Canada's position

SOMETHING NEW—Dr. Daniel Horn, director of the National Clearing House for Smoking and Health in Washington holds three packages of cigarettes bearing the new warning label that will be on all packages and cartons in 1966. The label reads: "Caution: Cigarette Smoking May be Hazardous to Your Health."

in world trade would convince these pessimists that Canada is proceeding slowly toward freer trade with the U. S. . . . simply because she must.

If we took the trouble to learn more about Canada and what makes her tick economically, we would discover that she has an enormous stake in foreign trade. Her position, in fact, is vulnerable because she is more dependent on exports and imports than any other nation in a comparable world position.

But the importance of foreign trade to the individual Canadian is not even appreciated, much less understood, here in the United States. Though the U. S. has ten times the population of Canada and we carry on a vastly greater internal and external business, imports and exports are of far less consequence to the individual American than to the individual Canadian. The large stake of the Canadian in his foreign trade limits his ability to take risks in trade negotiations.

Chances Of Economic Union

From time to time in this century there have been—both in Canada and in the United States—strong advocates of economic union. Such a union would provide complete elimination of tariff barriers between the two nations. It would also provide for a common currency and a common treasury. One of the best arguments in favor of economic union is that it would relieve Canadians of the necessity of ranging far afield to find markets for their products. It would also greatly stimulate the flow of U. S. capital into Canada.

But here will be no economic union between Canada and the U. S. any time soon. It would not be a practical move now, simply because neither Canadians nor Americans are psychologically ready for it. One day there will be such an economic union; but before that time comes a better foundation must be laid.

James A. Milam, Former Resident Of Wingate, Died

James A. Milam, 88, former resident of Wingate, died in the Edwards County Hospital at Rock Springs Thursday morning following a brief illness.

Services were held at Rock Springs Saturday morning with Graveside services in Wingate at 4:30 Saturday afternoon with the Rev. B. T. Shoemaker, pastor of the First Baptist Church of Winters, officiating. Arrangements were by Spill Funeral Home of Winters.

Mr. Milam was born in Austin Feb. 13, 1877. He was a retired postal employee, and had been a postmaster of the Knoxville post office in Gillespie County for 30 years. He was a member of the East Side Primitive Baptist Church in San Antonio.

Survivors are two daughters, Mrs. Maggie Matthews of Rock Springs, and Mrs. Jess F. Parker of Harper; one son, Garland Milam of San Antonio; one brother, Edward Milam of Austin; two sisters, Mrs. Nancy Puryear and Mrs. Amy Hector, both of Austin; seven grandchildren, 13 great-grandchildren, and 5 great-great-grandchildren.

TO AMARILLO

Mrs. Emmett Simpson and family attended the Golden Wedding Anniversary of her parents, Mr. and Mrs. R. T. Swafford at Amarillo January 2. Other members of the family who attended were Mr. and Mrs. Walter McWhirter and family, Mrs. Danny Roberts and daughters of Abilene.

North American Common Market

While strong tides of nationalism—on both sides—will delay economic union between the U. S. and Canada, the idea of closer business co-operation will not be permitted to die. Competent officials and business leaders of the two nations are constantly studying this whole relationship. The first big step toward such union could well be taken before very long.

Look for the formation of a North American Common Market by 1970. . . . sooner if Britain joins the European Common Market before then, thus leaving Canada out in the cold. Such an economic alliance between Canada and the U. S. will help mightily in the development of Canadian resources. . . . and will also work to the benefit of the U. S.

Fifteen-Member Committee To Study Texas Public School System

By—Vern Sanford
Texas Press Association

Most comprehensive and best-financed study ever undertaken of the Texas school system is about to get under way.

Gov. John Connally has appointed a 15-member committee to make an intensive three-year study of Texas schools.

Committee will draw up guidelines to aid the Legislature in drafting new laws to strengthen the traditional system of education in the state. It has \$250,000 (plus federal funds) with which to make the study.

By August 31, 1968, it must prepare a long-range plan "that will enable Texas to emerge as a national leader in educational aspiration, commitment and achievement."

Committee will study buildings, books, equipment, teachers, teaching methods and teaching aids. It also will propose ways to strengthen our public schools.

This Public School Study Committee, authorized by the Legislature, is composed of school and college educators, employers and employees, farmers and businessmen.

Members are Leon Jaworski, Houston; Joe E. Chapa, San Manuel; Kermit Cyche, Alvin; and Paul Haas, Corpus Christi. Also M. K. Hage, Austin; Mrs. George Hawn, Corpus Christi; and Harold Hitt of Midland.

Others are Frank W. Hubert, College Station; June Hyer, Houston; Morgan Jones Jr., Abilene; Mrs. Savannah Cross Locklin, Troup; James McCrocklin, San Marcos; Loyd Turner, Fort Worth; Dick West, Dallas; and Mrs. Helen A. Wright of Nacongoches.

ROAD NOW CLEARED
State Board of Education has paved the way for private schools to obtain federal funds for training students under the manpower training program. This was done with the adoption of a 15-point plan applicable to non-public school participants.

Included in the plan were seven recommendations by the federal government and eight dealing with state policies. Board also approved plans to add international flavor to public schools and to promote fuller understanding of education. They set up a public information committee to distribute articles on the educational program.

REDISTRICTING UPHELD

The 59th Legislature's version of congressional redistricting has been upheld by a special three-judge federal court—and candidates for the 23 places are starting to emerge.

Act gives Dallas two and Houston three congressmen. Bexar County shares a second and third representative with areas to the north and south; and Tarrant will share a second congressman with surrounding territory.

A brand new 23rd district is created in South Texas, extending as far north as southern San Antonio.

Court said that in carving districts with a maximum 9.7 per cent population from average, the Legislature made "a good, safe effort toward achieving substantial numerical equality." However, the judges maintained jurisdiction of suit attacking redistricting (until August, 1967), and asked the Legislature to try to make districts even more equal next year.

State Sen. Abraham (Chick) Kazen of Laredo said he will be a candidate for the 23rd district race. Randolph A. Sherwood of Von Ormy also announced.

State Sen. Martin Dies Jr. of Lufkin is expected to try for one of the expanded East Texas districts. Congressmen J. A. C. Brooks of Beaumont and Clark Thompson of Galveston will be in the same district.

Congressman Ray Roberts of McKinney and Lindley Beckworth of Gladewater are also in one district.

COURTS SPEAK

Texas finance companies are subject to both banking and small loan regulation when they make loans of more than \$1,500, the State Supreme Court held. Over objections of two judges, the court again upheld the 22-year-old doctrine of "charitable immunity." Under this doctrine churches are not liable for negligence in personal injury suits.

Latest test of the doctrine came in a suit against Southcrest Baptist Church of Lubbock by a woman who slipped on the church floor.

Court of Criminal Appeals upheld the death sentence assessed Melvin Lee Nixon of Houston in the fatal shooting of a grocery store owner.

Same court cites statistics showing a 27 per cent increase last year in the number of cases filed with it for review. Also a 34 per cent increase in cases disposed of and a 93 per cent jump in the number of writs denied.

Court is expected to press for increased membership next year.

Jubilee Queen Says Thanks For Honor

With the coming of the new year, all activity surrounding the 75th Anniversary of the founding of Winters came to a halt. 1965 was the Anniversary Year.

Miss Kathy Shaw, daughter of Mr. and Mrs. J. L. Shaw, was elected last year to reign as Jubilee Queen. She has been a student this year at Tyler Junior College.

To express her thanks to the people of Winters who elected her Jubilee Queen last year, Miss Shaw has written the following letter:

TO THE CITIZENS OF WINTERS:

"I would like to take this opportunity to express my sincere appreciation for the many wonderful memories I have had reigning as your Diamond Jubilee Queen. It is something that I will never forget.
"I hope this city continues to grow and prosper as she has done in the past 75 years. To do this the citizens will unite in a combined effort.
"Much success in the coming year to all of Winters.
"I will remember and love all of you always.
Sincerely,
KATHY SHAW"

CARD OF THANKS

We wish to express our sincerest thanks to the friends for the many kindnesses shown our mother, Mrs. Max Rogers, during the time she was a patient at the hospital and since she has returned home. A special thanks to Dr. Rives and the nurses at the hospital, to those who helped in any way to take care of her and to those who sat with her during the night. We are deeply grateful to those who brought food for our family. Mr. and Mrs. Van Whittenburg. Itc

"The Bounty Killer," a provocative and action-filled western starring Dan Duryea and Rod Cameron, shows Friday and Saturday at the State Theatre in color and widescreen. The Embassy Pictures release tells the story of an Easterner who goes out west to seek his fortune, and through an exciting series of incidents, finds himself becoming a bounty killer—a man who collects rewards for the outlaws he kills. Caught up in the loneliness of such a life, he tries to escape from it, but he does so too late to avoid a violent fate.

Movie badman Dan Duryea costars with Rod Cameron in "The Bounty Killer," an action-packed western which shows Friday and Saturday at the State Theatre in color and wide screen through Embassy Pictures release.

"Partners" There is a veritable cavalcade of singing and dancing in the Dean Martin-Jerry Lewis Technicolor comedy, "Partners," which shows Friday and Saturday at the State Theatre. "Partners" was Martin and Lewis' first fantastic foray into the woolly West. The sage-brush saga takes place around the turn of the century, with Dean and Jerry each playing dual roles. They are first seen as

rugged cattlemen who meet a glorious end fighting off raiders. Their wives rescue their infant sons and bring them up separately, Dean Jr. on the ranch and Jerry Jr. on Park Avenue. Dean grows up a stalwart cowpoke and Jerry a socialite who yearns to be the man his father was.

Winters Blizzards Take Hamlin and Stamford To Cleaners For Lead

The Winters Blizzard basketball team roared to an 86-53 win over the Stamford Bulldogs Tuesday night on home boards to keep their lead in District 5-AA basketball play. They had downed the Pied Pipers of Hamlin the previous Friday night.

In the Winters-Stamford tilt, Paul Jones paced the Blizzards with 26 points and Johnny Beck hit the basket for 16 with Kenny Davis close behind with 14. Charles Yeldell scored 12 for the Bulldogs, and Don Cobb hit for 8. Russ Russell and Bob Griffin scored 6 points each.

Stamford's "B" squad won the early game 61-45 over Coach Hibler's "B" Blizzards. Ronny Gray was high for Winters with 18.

Winters (86): Beck 3 9 15; Jones 11 4 26; Davis 5 4 14; Hensley 2 1 5; Cathey 2 0 4; Awall 5 0 10; Killough 0 8 8; Dunn 2 0 4.

Stamford (53): Links 2 0 4; Jones 1 3 5; Anderson 2 1 5; Cobb 3 2 8; Russell 1 4 6; Harkins 1 1 3; Griffin 2 2 6; McGee 2 0 4; Yeldell 4 4 12.

Totals: Winters 30 26 86; Stamford 18 17 53.

City Funds--

(Continued from page 1) belongs to, and a fair amount of interest has been received on these investments during the fiscal year.

The General Fund had \$30,000.00 invested in Certificates of Deposit in the Winters State Bank, drawing 3 1/2 per cent per annum at the end of the fiscal year. These certificates were to mature on Oct. 1, 1965, and part of that money was transferred to the operating fund, and the remainder re-invested.

A total of \$10,000.00 was invested in the General Fund Investment Fund as of Sept. 30, 1965, with maturity date of Dec. 24.

Even the money which has been withheld for Social Security payments is invested for a short period of time. On Sept. 30, \$5,000.00 was on investment with the local bank.

The City is obligated to have on hand at all times a certain percentage of the money owned on tax bond funds. A total of \$67,087.50 was listed as invested in U. S. Government Bonds and in the Winters bank as of the end of the fiscal year.

\$21,500 was invested for the Street Improvement Fund.

The Waterworks Interest and Sinking Fund had \$70,000.00 invested in the Capital National Bank, Austin, at the end of the fiscal year.

One of the biggest investment funds within the city is the Waterworks Construction and Operating Fund, with a total of \$80,000.00 on deposit drawing interest at the end of the year. Some of this money has been earmarked for waterworks department improvement, and some for operating capital during the year.

The Municipal Light Plant Investment Fund totaled \$25,000.00 at the end of the year, and \$86,500.00 was on hand in the Light Plant Sinking Fund, earmarked to pay off the financial obligation of that department.

Although the total amount of money invested seems to be a staggering sum for a city of this size, City officials are quick to point out that much of this money already is obligated to meet bond requirements and operating expenses during the year.
