## Big first half spurs Littlefield in win over Muleshoe

The Muleshoe Mules gave up 573 yards to Littlefield and spotted the Wildcats' tailback Michael Benton five first-half touchdowns, but the final score read 6-4 Mules.

Unfortunately for Muleshoe, the scoreboard was just one of many things that didn't work Friday night and the visitors left Benny Douglas Stadium with a 54-6 win.

Benton scored on the Wildcats' first play from scrimmage — a 50-yarder — and Littlefield (5-1, 1-0) rode the wave of momentum from that point, scoring every time they touched the ball in the half. Benton carried the ball 10 times in the first half for 129 yards. He finished with 180 yards on 15 carries.

"Littlefield is a good football team," said Muleshoe head coach Randy Adair. "More than anything, they're physical. They physically whipped us."

## Change in admissions procedure to benefit new nursing home residents

A change in the admissions procedure for Muleshoe Area Health Care Center will make it easier for new residents at the nursing home to be admitted.

The Muleshoe Area Medical Center Board of Directors on Thursday night approved the change. Under the new policy, the payment for the first month in the nursing home for residents applying for Medicaid will be deferred until a decision is made on the resident's eligibility.

Under the previous policy, residents applying for assistance were required to place a full 30-days advance deposit in order to be accepted into the nursing home until a decision was made on their eligibility for assistance.

MAMC Administrator Richard Murphy said the new policy will make it easier for new residents to move in.

In other business Thursday, the hospital board approved the 1994-95 budget. The budget contains no major changes and the tax rate for the upcoming

year for the hospital district will remain the same as last year's. The 1993 tax rate for the hospital district which will continue through 1994-95 is .25 cents per \$100 worth of valuation.

Murphy reported to the board that the hospital census overall was up in August, which was a very busy month.

Murphy also reported that he had visited with the law firm handling the hospitals redistricting. The voter redistricting plan approved by the hospital has been submitted to the Department of Justice.

Murphy said the process will take about 60 days and that the hospital has been told that no problems are anticipated.

He also reported to the board that the new physician's assistant Judy Lemons, has applied for recognition for certification, which is a requirement.

Regarding consideration of an employee's health care plan, Murphy said he wants to look at all options before making a decision.

## Muleshoe Heritage Foundation to meet next weekend

Immediately following the dedication of the world's largest mule shoe at the Heritage Complex on Saturday, Oct. 15, the Muleshoe Heritage Foundation will conduct their ninth annual meeting at the Mule-

shoe Depot Meeting Room.

The meeting will include a report about the past year's accomplishments and future dreams. Also, new directors will be elected. Public input and support is needed.

While at the Heritage Complex, visitors are sure to be pleased with all of the work that has been completed. The old Jane's House has received a new paint job and had floors refinished, as well as some of

the unusual furnishings.

New sidewalks, a working windmill and many other items of interest are at the Heritage Complex.

People are encouraged to renew their membership with

the foundation at this time or become a new contributing member.

## Combest acts to postpone listing of endangered species

WASHINGTON, D.C. — Responding to his constituents' alarm over federal government exceeding its boundaries and trampling private property rights, U.S. Representative Larry Combest (R-Texas) recently co-sponsored legislation postponing any new additions to the list of endangered species.

Within the last month, the U.S. Department of Interior proposals raise questions about the use of traditional drinking water sources as well as farming and ranching operations in many parts of the Panhandle-South Plains-Permian Basin region. Combest, who grew up on the family farm, often describes farmers and ranchers

as natural protectors of the environment because their livelihoods depend on conservation of their land and groundwater.

Congressman Combest said the "Farm, Ranch and Homestead Protection Act of 1994" will protect the rights of private property owners who lose control over the use of their own land when Washing-

ton bureaucrats attempt to add another species to the endangered list.

"Recently it seems that private property owners are the true endangered species," said Combest. "It seems as if government bureaucrats move in, spot a flower or furry animal and declare certain activities off limits for the people who

own the land.

In Texas, 366 plant and animal species are listed or are candidates for listing. In view of these accelerated efforts, it is high-time that we put the brakes on any more additions to the list until the Endangered Species Act is rationally re-

ALL WRAPPED UP - Muleshoe defensive tackle Chad Johnson gets his hands on Littlefield receiver Jermaine Davis in Friday's game at Benny Douglas Stadium. The loss puts Muleshoe at 2-4 on the season, 0-1 in District 2-3A.

The drive went 77 yards on seven plays. The final play saw Gauna fumble as he crossed the goal line, but the run was ruled a touchdown and a Mule teammate fell on the ball to remove any controversy.

With the loss of Garbarino, Muleshoe's potentially explosive passing attack lacked its big-play threat and the bulk of their yardage came on the ground.

Tailback Rashad Kirven and quarterback Jimmy Gauna combined for 238 of Muleshoe's 241 yards rushing (119 each). The Mules had on 21 yards through the air, while they had been averaging 143 per game.

Still, the Mules (2-4, 0-1) moved the ball well at times from the 20 to the 20, but in the red zone, the Wildcats defense was stubborn.

# Politicians know little about public land issues

Inspect many western state Democrat governors that are up for election are having trouble washing the Bruce Babbitt silly putty off their hands.

Sec. of Interior Babbitt has taken a stand against agricultural use of public lands and waters in the west. He has become a Pekingese with rabies barking at the heels of western ranchers and their supporting rural communities.

Governors of the eleven western states from both parties have suffered the calls, let-

ters and door pounding of Babbitt's potential victims demanding protection from Federals.

Six of the eight governorships up for election this November are held by incumbent Democrats; CO, ID, NM, NV, OR and WY. These Democrat incumbents, in particular, have to be feeling the pressure.

On one hand they know Sec. Babbitt as a fellow "ex-governor of Arizona" and a member of their own Democrat party. They have a certain loyalty.

But they also recognize that he is a battleship anchor tied to their re-election rowboat. Even those not running for re-election see he is a spear in their side.

These governors have had to walk the tightrope of towing-the-company-line while not completely alienating a productive and vocal chunk of their voting constituency.

So far, it has not been easy to try and walk the fence between two such divergent masters.

Various states have tried to hold meetings in which Bureau of Land Management advisory committees are formed to create a fair land use policy. One such state rangeland reform proposal begins by stating that membership in Multiple Resource Advisory Councils should:

"Have up to 15 members appointed on a non-partisan basis by the Interior Secretary... (he) should consider the recommendations of the Governor. Membership shall be self-

nominated. Members could be non-residents..."

Do you have to read further? Does anyone believe Sec. Babbitt could or would be non-partisan? Of course not! If you do, I'd like to sell a piece of Camp David II.

Sec. Babbitt is an appointed bureaucrat with a dislike for our livelihood. He has shown his true colors early in the game. He is anti-rancher and anti-public lands agriculture. His policy is a stacked deck and we who live on and work

the land...lose.

So what can we do to stop him? I have no illusions that Al Gore or Pres. Clinton understand public lands issues at all. They have turned loose Bozo the Clown...and given him a gun. They may eventually figger him out but then it may be too late for us.

Our western state governors can stop him, if they have the political courage. It is our responsibility as endangered citizens to find out where our governor candidates stand and vote accordingly.

'bend but don't break' style of defense," Adair said. "We knew we'd have to spread the field to throw the ball and open up our running game, but the closer you get to the end zone, the less room you have and the more the defense can squeeze in on you.

"We anticipated throwing the ball, but we couldn't protect," he continued. "Their pass rush was excellent, it was better than our ability to protect the quarterback."

The results of the Mules spread formation were several big holes for Kirven and Gauna to dart through.

The pair of shifty runners excited the crowd with several tackle-breaking runs. Five of Gauna's 12 carries went for 15 or more yards including runs of 20, 29 and the 16-yard touchdown run.

Kirven put in a prolific effort late in the first quarter with the Mules down 12-0. From the single-back set, Kirven burst up the middle, cut against the grain to the right, ran over a Wildcat tackler and got to the sideline. He appeared hemmed in, but did a 360 spin and kept going.

The run netted 31 yards and seemed to give the Mules the momentum they would need to get back in the game, but the drive was halted at the Wildcats' 25-yard line when a fourth down run by Gauna was stuffed.

Littlefield, on the other hand, didn't have a drive stopped until their final possession of the game. After scoring on all eight of the previous drives, the Wildcats ran out of time inside the Mules five. The visitors weren't content to drop to a knee with

## Correction Wrong information

In the Thursday, Oct. 6 edition of the *Muleshoe Journal*, wrong information was published on the Page 1 story under the headline "Grand jury indicts 13 on arson, other charges."

Randy Lackey, 42, was not indicted on a Dec. 9 charge of burglary. Lackey was indicted on a Dec. 9 charge of theft by deception for allegedly using checks not belonging to him, "with the intent to deprive the owner of property and without the consent of the owner."

He was released on a \$2,500 bond.

under two minutes left and the clock evaporating quickly, but the Mules fought hard to the final gun and turned back three Littlefield runs.

"We told the players at the half, we were going to grade

the film on effort and effort alone," Adair said. "We played somewhat better in the second half. Of course, it was against their second string."

Muleshoe travels to Friona next Friday.

# Toll free number to help crack down on growers of marijuana

AUSTIN - With marijuana use and concealed growing operation, the Texas Department of Public Safety Narcotics Service has established rewards for those providing information leading to the seizure of growing marijuana.

A new toll free phone number will allow the public to call the authorities when operation of an indoor or outdoor growing suspected. Callers who identify themselves and the situation can receive a cash reward.

"It is like Crime Stoppers, but it is targeted at marijuana," Narcotics Commander Jim Murray said.

Murray listed several things that may indicate an indoor growing operation: covered or blacked out windows; loud humming sounds (from fans or ballasts); a strong musty odor; large amounts of potting soil, containers, fertilizer, hoses, halide light system, and ballasts; use of guard dogs; or security systems.

Many times marijuana is grown outdoors on public land. Indicators may be: large purchases of fertilizer, garden hoses, PVC pipe, and camouflage netting; 'No Trespassing' or 'Keep Out' signs; guard dogs; unusual structures or items in remote forested areas (buckets, garden tools, fertilizer bags).

"Marijuana growers can be dangerous; investigations should be left to the law enforcement officers," Murray said.

When a caller notifies the authorities, the exact location, address, landmarks, and whether persons or vehicles are in the area will assist the officers in their investigation.

The number to call for an area in question is 1-800-868-MARI (6274).

# Domestic Violence Awareness month is being observed

October has been proclaimed Domestic Violence Awareness Month in an effort to promote community action, prevention and intervention. The month is being observed by the Women's Protective Services in Lubbock, which also serves Bailey County.

In addition, a support group for victims of domestic violence meets every Wednesday from 9-10 a.m. at Muleshoe Area Medical Center.

An estimated two to four million American women are physically abused each year. In Lubbock, Women's protective Services served approximately 5,000 women and children in 1993. In Lubbock, eight victims have died as a result of family violence from January to October of 1994. Statistics show that of men who batter women, 70 percent also batter their children.

According to statistics, domestic violence is now the leading cause of serious injury to American women, more com-

mon than muggings and car crashes combined.

Additional statistics state that a women is physically abused every nine seconds in this country and two-thirds of attacks on women are committed by someone the victim knows.

A recent poll of 500 American women conducted found that an overwhelming majority of women believe that policymakers should develop initiatives addressing domestic violence in order to reduce the overall level of violence in America.

The Women's Protective Services in Lubbock has a toll-free crisis hotline. The number to the hotline outside of Lubbock County is 1-800-736-6491.

## Plans continue for Mule-Plex Production

Mule-Plex Production Co., Inc., met last Monday night with approximately 25 members present, including several new members. Meetings are held the first Monday night of each month in the meeting room at Five Area Telephone Coop at 7 p.m. Everyone is invited to come and become a part of something exciting for Muleshoe.

President Chuck Smith called the meeting to order and reported on the board meeting held the previous week.

Kerry Moore will direct a play next summer. The play has not yet been chosen, but a tentative date has been set for the last week in June. Mr. Moore would like to encourage everyone to save time in June and be in the play. No previous experience is necessary and

people might discover a hidden talent.

Plans are continuing for the historically-based musical comedy. Alan Finney has talked with a playwright in Albuquerque, N.M., and she will probably be writing the play. Nothing is definite yet, but the group could possibly produce the outdoor musical in the summer of 1996.

A discussion was held concerning the possibility of an outdoor amphitheater. More information concerning this will be presented in the future.

Exciting things are happening and everyone is invited to come and become a part of these worthwhile endeavors. No theater experience is required.

## Orders for windbreak tree seedlings now being taken

As a service to the Bailey County area, the Blackwater Valley Soil & Water Conservation District is now taking orders for windbreak tree seedlings.

Windbreak trees help control wind erosion in fields, beautify and protect farmsteads and can provide excellent wildlife food and shelter.

This year the Blackwater Valley SWCD will have over 20 species of windbreak and wildlife seedlings available. Orders will be taken until

March 1. However, some species are limited in quantity so early ordering is advised. The seedlings will be available for pickup on March 9.

Supplemental watering is an essential part of a successful windbreak planting, therefore, the SWCD also has drip irrigation systems available to help ensure good seedling survival.

For more information on prices, orders, species availability, etc., contact the Blackwater Valley SWCD office at 105 East Ave. D. in Muleshoe or call 272-5124.

## Letter to the Editor

# Reader favors smaller government; says to vote Republican this election

**Dear Editor:**

Bill Clinton and his administration speaks the language of civil revival, while pursuing the policy of government revival. They prefer further expansion of government reach.

Just look at where we are going with private property rights and that doesn't just mean farmers and ranchers. It means you also, if you own a home or a business in town. Together the Brady Bill and the Crime Bill and the Crime Bill outlaws 180 guns.

Next you will be licensing your guns so they will know what you have. Midnight basketball, dance lessons and art? Children need to be home at that time so they can go to school and learn the next day. The biggest tax increase in history is what I mean.

President Clinton tells the American people one thing and then does the opposite - look at Haiti. He went on television and called Haitian military and police murders, rapists and thieves. Now look. We are all over there beside them. Paying their wages and paying Haitians to go back to their country. During this time, he keeps down sizing our military.

Another way they have tried to do away with free speech is through the HUD housing project. Henry Cisneros, head of HUD, wanted to sue some citizens when they protested where a housing project was being proposed. The bill against free speech was put aside for the time being. But don't think it has gone away.

Any group of citizens who

gather together and decide to call their congressmen or representative to vote a certain way would be called lobbyists. Their names and addresses would be turned into a lobbyist council appointed by the president. It is another way to stifle public opinion.

In the United States during 1950, a middle income family with two children sent \$1 in every \$50 to Washington. Today that same family sends \$1 in every \$4 they earn to Washington. As government expands, the American Dream fades. We slip into socialism, where people gradually lose their spirit and self-reliance and independence.

They surrender their freedoms. Liberty must be reclaimed in America at the Capitol in Washington, D.C.

American Society has been misled by Liberalism on Capitol Hill. They say we the people are selfish, greedy, not wanting to share with others. But we spent five trillion dollars on social programs - crime, poverty, joblessness, illegitimacy, sex education programs, housing projects, drug programs and I could go on. This gives you an idea though.

Remember \$1 out of every \$4 of the average family goes to Washington. They blame us, the working men and women, for an unjust society because we don't want to give more. I'm for some program that works with money spent right and progress made. A lot of our programs haven't worked. The Democratic Party has had 40 years of control on Capitol Hill. Let's change it this election!

I'm a registered Democrat but I'm voting the Republican ticket. I urge you to do the

same. I support the Republican Party. This is the only way for change.

If you people understand the Crime bill that passed, you should see the need. It does nothing but take your money you have worked for.

I'm for smaller government, lower taxes and fewer regulations. This is the Republican Party. I was wrong in voting for Ann Richards. She is like Clinton, she waffles.

Remember, with the lottery we were going to get help for schools, educational programs,

hospitals, cities and tax relief. We got nothing but more taxes.

I say to you school and hospital board members, superintendent, city council, county commissioners and all citizens

- vote Bush for governor of Texas. Vote the Republican ticket all the way this year. Give them a chance. Remem-

ber, smaller government means building America.

Big government cannot create, it can only destroy. Lessons of Western Europe and the former USSR are obvious.

Their failure and struggles are proportioned to the impacts of their governments in their daily lives.

end the SEARCH go to CHURCH

Are you searching for the way to a more meaningful life for yourself and your loved ones? Millions have placed their trust in God for eternal happiness and He has not failed one. Neither power nor pleasure can fill the emptiness of the human heart. We are made for God and there is an emptiness, a restlessness about us until we are right with Him.

End the search - go to Church.

EVERYONE IN THE CHURCH THE CHURCH IN EVERYONE

Is something wrong with your life - an inner restless dissatisfaction? The answer to every human problem comes only from God our Maker. He alone can forgive and reassure. Through the church God has committed His forgiveness and redeeming love. Without a church relationship no one is securely related to God. Everyone should be in the Church and the Church in everyone!

## The Difference in a Woman's Heart

(NAPS)—Anne Smith was 50 years old when she experienced her heart attack—only she didn't learn it was a heart attack right away.

"I just hadn't been feeling well. Even with just a little effort, I'd suddenly be out of breath. Sometimes I felt so nauseous, I couldn't eat. I went to the emergency room and they thought it was my stomach. I insisted on a second opinion and that's when a cardiologist told me I was indeed having a heart attack."

Anne may not have been diagnosed as having a heart attack right away because the signs of cardiovascular disease are often different in women than in men. While men usually experience sharp pains in the chest, women experience vague chest pressure, usually in the epigastric area (below the sternum). Their pain tends to come and go and is often accompanied by nausea.

### For Rent

FOR RENT- partially furnished, 3 BR, 2 bath home, in Muleshoe. (806) 791-0205. K8-40t-tfn

Women with heart disease also tend to experience severe shortness of breath when mildly exerted.

According to medical experts from the advisory board of "The Difference in a Woman's Heart" campaign, which is a national effort sponsored by DuPont Radiopharmaceuticals to educate physicians and women about female heart disease, women may not recognize their risk factors—age, hormone status, family history of heart disease, smoking, obesity, cholesterol levels and physical inactivity—and need to take a more active role in discussing them with their doctor.

Cardiovascular disease, well known as the leading killer of men, is actually the number one killer of women as well, claiming the lives of nearly 500,000 every year, reports the American Heart Association (AHA). According to a recent Gallup poll, many women believe that breast cancer is their most serious health threat—but in fact, about twice as many women die from heart disease than from breast.

lung, ovarian and uterine cancers combined.

Women tend to have different symptoms from men, making their heart disease harder to detect.

Research has proven that women with coronary artery disease, which causes heart attacks, are less likely to be properly diagnosed than men and are also less likely to be treated aggressively. A study conducted by D. Douglas Miller M.D. and his colleagues at St. Louis University Medical School shows that women with suspected coronary artery disease undergo fewer additional diagnostic studies than men after an initial noninvasive stress test that shows abnormalities.

## The Real Simpson Jury Is the One In His Mirror

When we Christians embrace God's priorities as our own, the folks the church recognizes as this world's true VIPs are, as one man has written, "the little, the least, the last, and the lost." In a perfect world (or in one with much good taste) "Lifestyles of

start to finish, from Hertz in the airport to handcuffs in the courtroom, we've watched O.J.

Is he guilty? I don't know. But his former sister-in-law spoke this week for lots of us non-legally-minded ordinary "Joes & Janes" when she said, "If O.J. is so innocent, why are they trying to suppress all the evidence?" Maybe any competent defense attorney would bring up what most of us see as "technicalities," but what if technicalities are all they have? What if the only Academy Award O.J. ever gets is one for a perfect impersonation of a guilty man? Just wondering.

What will happen in the trial? I don't know, and I personally hope the judge plugs the keyhole on this nation of peeping Toms and we're not allowed to see it.

But one noted attorney gave this prediction: two hung juries and he walks.

It wouldn't surprise me. But I submit to you that, whatever the verdict is, the one jury that neither O.J. nor the rest of us will ever fool is the one that looks back in the mirror.

Your Judge and mine won't be impressed with a technical defense. And the only blood stains that will matter are His Son's as they cover our sins.

the Rich and Famous" and *People* magazine would both go broke. No one would appreciate twisted priorities and peeping Tom journalism. It would be, for our society, a much healthier sign if we approached such shows and magazines with glances of pity, or nausea, or, maybe better, yawns, instead of drools. Alas, the pity is that they seem to be in no financial danger! Donahue and Sally Jesse and their ilk continue to turn out tripe, and too many of us adjust our television sets and continue to stoop lower to see through the TV keyholes.

The latest example of our national bent toward voyeurism is the O.J. Simpson case.
