HOME TOWN Talk

By R. C. THOMAS

Perhaps the colder, nipper mornings we have been having this week will serve to remind us that it is later than we think! It's more than a month away, to be sure: the big Christmas Parade being planned by the Chamber of Commerce this year. But the time will slide by rapidly, and if we hesitate too long, December 3 will be here before we are ready for it.

The Chamber of Commerce is asking organizations and clubs to build Christmas floats for the parade. The Chamber is even going to provide the money—up to \$25—to build the floats; and then they're going to offer big cash prizes for the best ones in the parade. Communities in the area are being invited to enter floats in the parade, too, with a big cash award to go to the winning float. Commercial floats are being encouraged, too, with nice trophies to be awarded in this category.

It isn't too early to be thinking about this, because it may take a few days to build what you want—and everyone is going to be jumping in at the last moment. It's time to start laying plans and getting ready to enter the parade. Mrs. Emma Marks down at the Chamber of Commerce office will register entries and give all needed information.

The action of so-called "housewives organizations" in boycotting food stores about the country in protest of increases in food prices is about as futile as attempting to empty the ocean with a teacup. It's like trying to kill all the mosquitoes by swatting one at a time, instead of going to the source, the breeding places.

Retail food stores have little to say about the price of the (Continued on page 8)

SGT. JACK D. MATHIS

San Antonio Marine Wins Decoration In Night-Long Battle

Marine Corps Sgt. Jack D. Mathis of San Antonio has been awarded the Silver Star medal for "heroic actions against an overwhelming enemy force" in a night-long battle, according to a press release.

The 21-year-old son of Mr. and Mrs. Herman R. Mathis, 2814 Kaiser Drive in San Antonio joined the marines in June, 1962, shortly after graduation from Southside Rural High School.

Assigned to Co. C, 3rd Reconnaissance Bn, 3rd Marine Division, Mathis was cited for his actions while serving as squad leader for a nine-man patrol on a "recon" mission eight miles west of Da Nang last May.

Given the task of observing enemy movement in a valley where an enemy build-up was suspected, the patrol was helicoptered into a jungle clearing then moved out to a high ridge-line to set up operations.

Spotting a Viet Cong platoon in the valley, Mathis called for artillery fire. Later several bodies were seen in the valley.

During the night, the patrol was attacked by an estimated 40 VC's. Under Mathis direction the Marines returned rifle and machine gun fire from their defensive perimeter. The attack continued until 10 a. m. the following day.

When the VC broke contact and fled, they left behind 23 dead guerillas and an assortment of weapons and equipment.

Mathis is a grandson of Mrs. Willie Colburn of Winters. According to his mother, he is due home next month.

VISITING CHOIR—The choir of the Methodist Home in Waco will be featured at the Sunday morning worship service of the First Methodist Church in Winters, October 23. The Rev. Ed Otwell, pastor of the Winters church, announced that the choir will be accompanied by choir director Clark Watters,

Mrs. Watters and the Rev. Jack Daniels, chaplain and assistant to the administrator at the Methodist Home. The choir, whose members attend high schools in Waco, is in demand for appearances before church and civic groups and can accept only a few of the many invitations extended. Founded 76

years ago, the Methodist Home has served more than 8,700 boys and girls, providing them with a healthy, normal life. There are 361 children on the campus of the Home today. The public is being invited to attend the morning services at the First Methodist Church to hear this choir.

Lt. Cmdr. John Tibbs Awarded Medal for Heroism

For two combat missions, both conducted in darkness and poor weather, Lt. Cmdr. John C. Tibbs, a Navy pilot studying at the U. S. Naval Postgraduate School in Monterey has been awarded two medals.

The Distinguished Flying Cross, awarded for heroism or for extraordinary achievement, was given for low flying missile attack against enemy aircraft which was bombing friendly forces.

Instrument flying was necessary because of weather and darkness. In spite of this, Tibbs' attack is believed to have demolished the enemy aircraft.

The Air Medal, one of eight that he holds, was earned when he was part of a four-plane crew that attacked and destroyed an enemy warship while under threat of attack by enemy craft and missiles.

Lt. Cmdr. Tibbs, is the son-in-law of Mrs. Nina Puckett, and his wife is the former Wilma Puckett, who was reared in Winters.

J. S. Brown, Jr. Is Critical After Gun Accident

J. S. Brown Jr., 46, remains in critical condition in a Lubbock hospital following a gun accident at his home at Pep, Texas, near Littlefield, Saturday night. As of Wednesday morning relatives said Lubbock doctors had indicated that the next 96 hours would be the most crucial.

Brown, who was reared in Winters and graduated from Winters High School, is the son of Mr. and Mrs. J. S. Brown Sr. of this city.

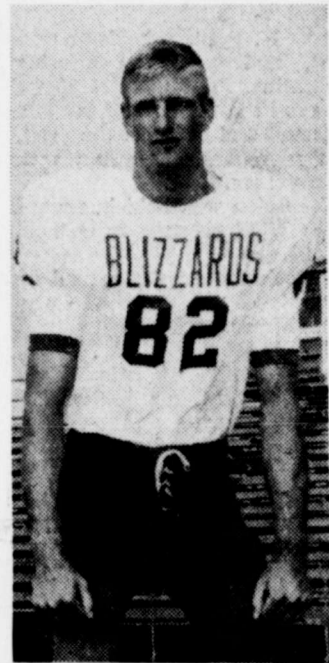

Brown, manager of a gin at Pep, was wounded when a pistol was accidentally discharged in his home about 11:30 Saturday night. Reliable information is that he had just returned home from work at the gin and had put the pistol, which he carried for protection while at work, on a dresser top. His wife started to put the weapon in a drawer, and accidentally dropped it. The pistol fired, sending the bullet into Brown's right shoulder, to finally lodge in the spine.

He was taken to a Littlefield hospital, and then to a Lubbock hospital, where he has been under intensive care. The information stated that he is paralyzed from the shoulders down, and has been in a semi-coma since the accident, recognizing relatives only at brief moments.

Brown entered the Army Air Corps before the start of World War II, and spent about six years in the service. Much of this time he was stationed at Borinquen Field (Now Ramey Air Force Base), Puerto Rico. Following his discharge in 1945 he began farming near Littlefield. About two years ago he retired from farming and became manager of a gin at Pep.

He is married to the former Dorothy Garrett, and they have two children, one married and living in Hobbs, N. M., and another in Junior College in Littlefield.

CO-CAPTAINS FOR THE BLIZZARDS

TERRY RIVES

SKIP SHEPPARD

Homecoming Game: Winters Vs. Hamlin

The Winters High School Blizzards, with one conference win behind them, play their second District 5-AA contest this Friday night, hosting the Hamlin Pipers.

This week's game will be a Homecoming event for the Blizzards. Halftime will be consumed with crowning the homecoming queen and recognition of ex-students of Winters High School, and payment of special honors to the Golden Anniversary Class, the Class of 1916. One member of that class has notified ex-student association officials he plans to be on hand for the celebration.

The Blizzards go into this week's game as favorites to win, because of their record in pre-conference play and their win in the opener of district competition. Hamlin, with a 1-5 record for the season, and a loss for their opening conference game, has been listed on the bottom of the standings for several weeks.

Coach L. G. Wilson said that one Blizzard, Donald Wade, in his linebacker, who has been out with a knee injury, will be ready for limited duty against Hamlin this week. This will bring the Blizzard squad to full strength for the first time this year, the coach said.

Hamlin, in spite of their scoreboard record for the season, presents a formidable obstacle to any team seeking a route to District 5-AA honors. The Pipers have a lot of speed, and at any given moment are capable of breaking loose to wreak destruction on an unsuspecting and too-confident opponent. Outstanding among the Pipers are Sammy Ferguson, back, Louis Shelton, end, and Larry McCoy, guard.

In their first conference contest, last Friday night, the Pipers were outrun 36-12 by Colorado City, after having drawn first blood in the first quarter. They recovered a fumble on C-City's 19, and took only six plays to reach the goal. Sammy Ferguson went over from the 6 to make the counter. Then in the third quarter, Ferguson Waltzed 51 yards to the C-C 2, from which location QB Paul Long sneaked across.

Hamlin has scored for only 58 points this season, allowing opponents 112; in district, the Pipers have 12 to 36.

Winters has counted for 61 all season, to opponents 53; in conference, 31-3.

Coach Wilson probably will field the following in the homecoming event this week:

OFFENSE

Ends: George Mostad, Johnny Powers.

Tackles: Danny Killough and Lanny Bahlman.

Guards: Skip Sheppard, Alan Andrae.

Center: Sam Scott.

HB: Jerry Awalt, Fred Wilder.

FB: John Sims.

QB: Alvin Dunn.

DEFENSE

Ends: Killough, Larry Donica.

Tackles: Sheppard, Jimmy Vaughan.

Corner LB: Terry Rives, Walter Morrow.

Inside LB: Awalt and Steve Smith or Larry Pritchard.

HB: Randy Boles, Ronnie Gray.

Safety: Alvin Dunn.

City Departments Make Financial Report to Council

Each department in the City of Winters periodically submits to the City Council a statement of financial condition, to be used by the City's governing body in deciding programs during the fiscal year.

In a pre-audit report submitted to the Council at the end of the fiscal year, September 30, there are indications that the City is in sound financial condition, and that for the most part, the budget which had been prepared for the fiscal year just ended has been followed closely.

For the several departments coming under the General Fund, budget appropriations were totaled at \$117,701.70; actual expenditures for the year, according to the report, have totaled \$106,286.19. Expenditures listed do not include funds for debt retirement.

A total of \$80,440.50 was appropriated for the Municipal Hospital Fund for the fiscal year. Expenditures for the year have been \$71,112.40.

Municipal Light Plant Fund was budgeted for \$94,667.00 for the fiscal year. At the end of the reporting period, \$93,438.34 had been expended. These figures do not include debt retirement totals.

\$43,495.00 had been appropriated for the Waterworks Fund for the fiscal year. As of the reporting date, \$36,998.10 had been expended.

City officials have pointed out that these figures are only preliminary, and are not final. The true financial position of all funds will be seen when a final audit is completed. Auditors are now examining the books of the City of Winters and a report will be forthcoming within a few weeks.

AS IT LOOKS FROM HERE

Omar Burlison, M. C. 17th District, Texas

The voices of two Foreigners were heard this week which deserve a lot of attention. They came from opposite directions but spoke truths about which we are hearing little in this country.

One came from a noted British Economist, Arthur A. Shenfield.

Looking at the experiences of the British, Mr. Shenfield said that the war on poverty, guidelines on prices and wages, and some other domestic practices of the United States will destroy the free enterprise economy unless they are curtailed. He says that the chief cause of the inflationary trend today is Government spending.

"Guidelines are in example of lawless action, not illegal, but incompatible with the rules of law," Mr. Shenfield said. "No one ought to be threatened by the Government for doing something which has not been made unlawful by proper legislative process."

Nationalized Welfare Programs "which will feed on themselves" have not worked in Britain and are doomed to failure in the United States. Such programs, Mr. Shenfield said, produce three results: A bad product, high prices for the bad product in the form of taxes, and an increase in the power of the State.

The other voice was that of the Foreign Minister of Thailand spoken in the United Nations. Foreign Minister Thanat Khonam declared that the United Nations and its officials did not have the right to barter South Viet Nam's freedom and sovereignty for dubious promises of peace.

Mr. Thanat was an Asian voice that forcefully rejected peace proposals that reward what he termed aggression and failed to extract concessions from North Viet Nam and Communist doctrines "born in the dark and sordid recesses of European ghettos."

The speech marked, in the words of one distinguished West European Delegate, the first time in this Session of the United Nations that a pro-Western Asian "has spoken clearly against any attempt at appeasement of the Communists."

The Foreign Minister of Thailand flayed "misguided minorities" in this and other countries for demanding peace on terms favorable to the Communists.

"These dissenting minorities, consisting of elements from legislative quarters, from the press, the Church, and from the uninformed academic circles, are least familiar with and even ignorant of the true situation, but allow themselves nevertheless to be carried away by their abstract and unrealistic constructions, or by their belief in false liberalism, to voice suggestions and opinions which benefit and give comfort to no one except the enemy of freedom and liberty," he said.

"While innocent victims are daily maimed, molested and massacred by fanatic terrorists, the so-called liberals commiserate not with the unfortunate victims, but rather with those who kill, torture, and terrorize."

The United Nations, in its 21st session, has opportunity to direct its attention at purposes for which it was created, that is, ways and means to maintain peace in the world. Instead, it is concerning itself with internal problems of individual nations.

The International "Do-Gooders," like those here at home, have fallen into the error of thinking that legal and Constitutional procedures which are based on thousands of years of experience must be junked just because pockets of inequity remain. The United States would not want South Africa's racial policies. Neither would we want to see economic freedom curtailed here as it is in the Soviet Union. We would not like to see women denied social equality as they are in many Arab lands, nor would we like to see them denied the vote as they are in Switzerland. We do not believe in imprisoning political oppon-

Local Veterans Attend District Meet At Rowena

W. L. Collins of Winters, president of the Past Commanders Club of the Veterans of Foreign Wars, District 22, presided for the commanders' breakfast, to open district convention activities in Rowena Sunday.

There were 13 post, District and Department commanders and past commanders present. John Paul Keelen, State Commander, was a special guest.

Max Lewis, member of Winters VFW Post, was presented a bronze plaque from the district for outstanding service to District 22 in 1965. Making the presentation was J. A. Henderson Jr., of Winters, past district commander, with whom Lewis served.

Registration for the district meeting was held at the Rowena Post Home, following the breakfast. The group then attended church services at the Catholic church.

Robert Donaldson of San Angelo, District 22 commander, presided for the joint VFW and Auxiliary meeting. Following the luncheon, separate business meetings were held.

Mrs. Gertrude Surratt, of Houston, State President of the Ladies Auxiliary, addressed the Auxiliary meeting. Mrs. Stamey Henry, State Senior Vice President, also spoke to the group. Others attending from Winters were C. H. Harrell, Mr. and Mrs. Don Marks and Mrs. J. A. Henderson Jr.

DAUGHTER TO ERNSTS

Mr. and Mrs. Lonnie Gaston Ernst of San Antonio are announcing the birth of a daughter, named Adrianna Christian, on October 10, weighing 5 lbs., 9 ounces. The paternal grandparents are Mr. and Mrs. Adolph Ernst and the maternal grandmother is Mrs. Effie Dietz of Crews.

Big Crappie Catches — For catching more and bigger crappie, use the smallest live minnows in your bait bucket.

Spring Crappie Fishing — In early spring, slowly drag a live minnow near the bottom. When a big buster is caught, ease the anchor overboard and fish right there. You've discovered a big school of the tasty critters.

Campfire Skillet—To make a good, home-made skillet, take a 5-gallon oil can, wash and scour it thoroughly, then cut off the bottom about two inches up. Roll over the sharp edge and attach a handle made from the nearest hardwood.

Be sure the can is the rolled-edge type and not the soldered kind.

ents as has been the practice in quite a few African and other countries.

The United Nations was not designed to deal with domestic affairs. It has no authority to do so under its Charter. If there were, probably no country in the world would have subscribed to it.

Boy Scout Fund Drive To Start Next Tuesday

A campaign to raise funds for the Boy Scouts will be kicked-off at a breakfast at Huffman House next Tuesday morning, Oct. 25, at 6:30.

O. K. Reynolds, of Abilene, scout executive for the Chisholm Trail Council, will be present to speak to committee chairmen and workers at the breakfast and to assist in getting the campaign underway.

A. B. Prince, chairman of this year's Boy Scout Fund drive, said a goal of \$1,400.00 had been set.

At the breakfast, which all committee chairmen and workers are urged to attend, prospect cards will be distributed to about 20 teams who will do the canvassing. Teams will be made up of majors, captains and workers.

Special campaign committees have been formed, including J. C. Martin, prospects chairman; Gattis Neely, audit; J. W. Bahlman, special gifts; and R. C. Thomas, publicity.

Following the breakfast next Tuesday, workers will contact each person who is listed on the prospect cards. Prince expects great success for this year's Boy Scout Fund drive, because, he indicated, "the local people are vitally interested in the work of the Boy Scout movement."

IN SANDERS HOME

Mrs. Wilford Sanders, Joy and George, and her father, Fred Wood all of Kermit, Zoe Ann Sanders, student of Howard-Payne College at Brownwood and Mae Sanders of San Angelo were week end visitors in the home of Mrs. J. S. Sanders.

MOVIES

"The Fighting Prince of Donegal,"

Walt Disney, whose record as a producer of exciting historical film themes is known the world over, is ready with the finest of them all, a tale of youthful Irish rebels and an oppressive British authority, called "The Fighting Prince of Donegal," starring beautiful Susan Hampshire and the bright new British star, Peter McEnery.

With top British stars Tom Adams, Gordon Jackson and Andrew Keir in the supporting roles, the feature is just what the title suggests, a rip-roaring, action-packed, Sixteenth Century swashbuckler about a two-fisted son-of-Erin who single-handedly unites the clans of Ireland, and leads the mto glorious victory against Queen Elizabeth's mercenaries.

For director Sydney Pollack, "This Property Is Condemned," "The Seven Arts-Ray Stark film for Paramount Pictures which shows Sunday and Monday at the State Theatre, is only the second feature he has directed. Yet, he approached the difficult task with the daring, sureness and imagination of a veteran. Having been weaned in television, where most of his work took place on the narrow confines of sound stages, Pollack was delighted that "This Property Is Condemned" permitted him the luxury of working on location.

Gladly deserting the back lot, Pollack packed his stars, Natalie Wood, Robert Redford, Charles Bronson, Kate Reid, Mary Badham and Jon Provost, to previously scouted points South. And to afford them the necessity of professionalism, he took along an expert staff and crew of 70 people.

"In the old days in Hollywood," — Pollack explained, "they used to be able to get by with replicas of locations. But today, that just won't do. Audiences are used to the real thing and they demand it. And I'm convinced authentic locations enhance your picture."

"This Property Is Condemned" is about a small town Southern girl who longs for the gayety and freedom of big city life. Most of the action is set in a railroad town, with the rest taking place in New Orleans. The time is the 1930's.

State Capital Highlights—Rumor Is That Connally Won't Ask For Raising State Sales Tax

By—Vern Sanford
Texas Press Association

Gov. John Connally soon will be making his decisions on state spending and tax recommendations. His budget staff is rushing to completion a tentative budget and revenue bill for presentation to the governor by the end of the month.

Word is that the revenue measure, contrary to early speculation, does NOT call for any upward revision in the state's basic two per cent general sales tax rate. It may include a gasoline tax increase, college tuition boost and adding alcoholic beverages to the sales tax.

Money requests from departments and agencies, totaling \$1,200,000, are being trimmed considerably. Best estimates indicate the tentative budget presented for Connally's review will require less than \$200,000,000 in new money.

Governor's proposals will definitely contain some form of financial relief for cities, but not the 50-50 split in new state revenues they are asking.

Gov. Connally's spending programs may be restrained by these factors:

Possibility of a substantial federal tax raise next year and the chance of future sharing of surplus U. S. income with state governments on an unrestricted grant basis.

A public school study by the governor's committee almost certainly will call for readjustments in the cost load of the educational system, and final recommendations will not be known for two years.

A metropolitan areas study conceivably could result in proposals for sweeping alterations in local government finance procedures.

WATER AMENDMENT

Governor John Connally has launched a campaign for adoption of Constitutional Amendment No. 11.

Amendment would do three things: double the Texas Water Development Fund (from \$200,000,000 to \$400,000,000); give a constitutional guarantee to safeguarding water in river basins of origin; and permit use of the Fund for construction by the Texas Water Development Board of water treatment and transportation facilities.

About 150 leaders of state and local water governing agencies and other interested citizens attended the meeting and elected former Gov. Price Daniel of Liberty chairman of a steering committee to seek voter approval of the Proposition.

On another front, the Water Development Board announced that it will ask for an emergency appropriation of \$625,000 from the Legislature to complete the water planning work to bring the Texas Water Plan to completion in about six months.

ATTORNEY GENERAL SPEAKS

Atty. Gen. Waggoner Carr withdrew his opinion that cable tv services are public utilities. But he reiterated his ruling that such firms have the right to place cables along state highways within the highway right-of-way.

In another opinion, Carr said the Secretary of State cannot approve a statement of intent to dissolve a corporation listing less than three directors, since to be a corporation it must have at least three directors.

COURTS SPEAK

State Supreme Court ordered Land Commissioner Jerry Sadler to file the sulphur claims of Duval Corporation and Piper Petroleum Company in Pecos County. Sadler had refused, claiming old laws relied on by the firms are no longer applicable, and the companies are trying to get \$2,000 an acre mineral rights for 50 cents.

In other action during the week, high court:

Affirmed \$304,800 in penalties against four East Texas oilmen (Gregg County) for slant-well drilling in Wood County.

Agreed with Railroad Commission that new truck service between Houston and San Antonio by Alamo Express, Inc., is justified.

Stuck by its July 13 decision that commissioners precincts of Midland County do not have to be formed on the basis of equal population.

Sustained lower court findings that state sales tax may be collected on equipment leased to load and unload ships in foreign trade.

Upheld \$73,980 damage judgment for Montgomery County family who successfully maintained San Jacinto River was diverted from their property by an artificial channel and dam constructed by Tennessee Gas Transmission Company.

ANIMAL INFESTATIONS

Texas is pulling out of its serious screwworm epidemic. But now a big outbreak in Encephalomyelitis (sleeping sick-

ness) among horses seems to be taking hold.

Some 40 cases were reported to the State Health Department covering a two-week period. But a spokesman said it likely will get worse before it gets better.

Cases were from Travis, Erath, Cherokee, Angelina and Washington Counties. Texas Veterinary Medical Association also says the disease has been reported in East, Central and South Texas and the Hill Country.

PARK LAND "OWED FOR"

Land Commissioner Jerry Sadler has written Governor Connally that 37,000 acres in area of proposed Guadalupe National Park in Culberson and Hudspeth Counties has never been paid for by a private purchaser.

Sadler said the interest has been kept up, but the Abilene owner still owes the state \$37,000. While favoring creation of the park, Sadler insisted that Texas retain the mineral interest in some 45,000 acres.

Federal bill requires donation of minerals owned by both state and private interests, Sadler said.

APPOINTMENTS

Governor Connally announced appointment of Arthur R. Marroquin of Austin as chief of the migrant division in the Texas Office of Economic Opportunity. He replaces Al Ramirez of Edinburg.

J. Curtiss Brown of Houston has been named to the Board of Directors of the Texas State Bar. He will complete the unexpired term of U. S. District Judge John V. Singleton Jr. of Houston, who resigned to accept appointment to the federal bench.

SHORT SNORTS

At a hearing on loan problems a consumer finance industry spokesman suggested higher legal ceiling on "small loans" (now \$1,500 in Texas). Arroyo Colorado in Cameron County is one of 82 areas selected for possible inclusion in National Wilderness System.

Revenue collected by Texas Liquor Control Board hit monthly record of \$6,135,484 during September, according to Administrator Coke R. Stevenson Jr. Revenue for year to date comes to \$36,800,000.

Troy Lee Spain Died Wednesday, Funeral Thursday

Funeral service was held Thursday at 10:30 a. m. from Winters Church of Christ for Troy Lee Spain, 72. Officiating was Glenn Gray, minister of the church. Burial was in Lakeview Cemetery under direction of Spill Funeral Home.

Mr. Spain died at 12:10 a. m. Wednesday in Winters Municipal Hospital. He had been ill for five months.

Troy Lee Spain was born in Lexington, Tenn., March 5, 1894. As a small boy he came to Texas with his parents, who located at Florence in Williamson County. It was there he married Amy Greer on July 25, 1915. They moved to Winters in 1925. Mr. Spain worked as a cook at various cafes here and operated the Cowboy Cafe for several years. He recently was a cook at the Chick-Inn.

He was a member of the Winters Church of Christ.

Survivors include his wife; one daughter, Mrs. J. E. (Gladys) Benson; two grandchildren, Donna and Jimmy Benson of Winters; three sisters, Mrs. Mattie Howell of Florence, Mrs. Leo Lackey of Georgetown, and Mrs. Hattie McDuffie of San Marcos; six brothers, Walter and Roy of Georgetown, Ira and Elthue of Florence, Charlie of Fort Worth, and Arley of Texas City. Pallbearers were Chaney Hood, Homer Hodge, Jr., Ira McNeill, Mord Tucker, Jess Wetzel, and E. E. Vaughan.

Railroad Paid \$16,369 Taxes In Runnels Co.

Current annual taxes paid to the various government agencies in Runnels County by railroads totaled \$16,369, it has been announced by the Texas Railroad Association.

That amount was the county's share of the nearly \$10,000,000 the railroads paid in Texas on their own right-of-way and other property.

The biggest railroad contribution was to the school systems throughout the state, the association said. Large sums were also distributed to city and county governments and for road and bridge funds.

Around The 5-AA Loop

Results of the three squabbles around the Loop last Friday night could be described in three words: Surprise!, Surprise!, Expected! . . .

Among many of the predictors Haskell was supposed to be the favored team in their contest with Winters. But, somehow, communications must have broken down, or perhaps the information wasn't properly ZIP-coded, because the Blizzards didn't get the word! They journeyed to Haskell and methodically used deep-freeze procedures to swarm all over the Indians 31-3! One report had it that fumbles and pass interceptions handed Winters four of its five scoring opportunities. With wide-awake and heads-up playing, the Blizzards chased the Redmen all over the field, capitalizing on those mistakes. They gained 284 yards on the ground to Haskell's 63; had 18 first downs to the Indians' 4. Only in one department did they lag behind Haskell, . . . but not for much; the Indians gained 53 yards in the air to Winters' 51; they snagged two passes and lost none; lost the ball three

times on fumbles to Haskell's 4. All in all, Friday night's Winters-Haskell game just goes to prove you can't make closed-end predictions on schoolboy football!

Winters stages a big homecoming event this Friday night, inviting Hamlin, the cellar-team of the league. Haskell goes to Anson.

Another surprise had to be the Stamford-Anson fight. Anson was favored in that contest . . . but went down to a 28-7 count before the Bulldogs, who now are touted as being "the team to beat" for the conference crown. Although Stamford was supposed to be the underdog in that game, the stat columns show they were head-and-helmet above the Tigers. They cruised for 323 yards on the ground and 17 in the air, to Anson's 71 ground and 112 in the air. The Bulldogs didn't do much passing—completed 2 of 3; Anson hit 9 of 17 tries. Stamford did grab one of the Tigers' aerials, though, and covered two fumbles, while fumbling only once.

Stamford goes to Colorado

City this week.
The only game which came out as had been predicted was the Colorado City-Hamlin encounter, which C-City took 36-12. Hamlin had been in the cellar all season, with only 1 win in five outings prior to Friday night. Colorado City had a season record of 3-2 before going against the Pipers. Friday night Colorado City's Wolves out-did all the Pied Pipers could manage, rushing 276 yards and aerialing 76, for 16 first downs. Hamlin first-downed for only 7, rushed for 106 yards, and completed none of 4 attempts in the air. Each team lost one fumble.

There's quite a bit of difference in the standings—for the most part—for teams in 5-AA, as can be seen in comparing the season's records and the district record, the only area where the results really count. Past experience, i.e., pre-conference contests, have something to do with who is PICKED to wind up the season holding the brass ring, . . . but play in district conference is the only thing that matters. So the complexion of 5-AA could change from week to week—at least for the first two or three weeks.

Winters Blizzards Freeze Haskell Indians 31 to 3 During Cold Snap

The Winters Blizzards, playing in weather much like their name, blasted the Haskell Indians 31-3 Friday night to open district play on a winning note.

Haskell elected to take advantage of the 20-25-mile-per-hour wind and kicked off to Winters, who moved for one first down before Fred Wilder's fumble gave the ball to the Indians.

Haskell was unable to move and punted over the goal line, and the Blizzards headed north into the wind once more. This time it was Jerry Awalt who fumbled the ball away after the Blue had made two first downs. Again the Blizzards defenders held and forced another Indian punt.

Winters stalled after only one first down and George Mostad's punt went only 20 yards to the mid-field. From here Haskell struck for their only score of the night.

Quarterback Tim Everett found end Ray Herren who outran defensive halfback Randy Boles. Alvin Dunn hauled Herren down at the 15-yard line. After three cracks at the tough Blue line, the Indians settled for a field goal from the 10-yard line and led 3-0.

The fireworks started for the Blizzards early in the second quarter when Skippy Sheppard blocked a Haskell punt and recovered the ball on the Indian 3-yard line. Jerry Awalt went over on first down for the initial score. The extra point try failed.

The next time the Blizzards had the ball they marched to the 10-yard line but were stopped on downs.

Minutes before half-time Winters moved downfield once again, led by runs from Awalt, Boles, Wilder and Dunn. A 25-yard run by Boles was the big gainer. Awalt carried over from three yards out to make the score read 12-3 at halftime.

The Blizzards again faced the stiff wind in the third quarter. Neither team could manage a scoring drive in this period.

In the opening minutes of the fourth quarter Robert Guevara went over from 2 yards out to run the score to 18-3. This climaxed a 62-yard drive. Extra point try was no good.

Only moments later defensive corner linebacker Walter Morrow picked off an Indian pass and returned it 28 yards for the fourth Blizzards touchdown.

The final touchdown came as Robert Guevara went over from five yards out after a successful 60-yard drive. A 35-yard pass from Dunn to Ronnie Gray and a 20-yard run by Guevara capped the drive. Fred Gray kicked the extra point to send the Blizzards home with a 31-3 victory.

Offensively Winters made their best showing of the year with 18 first downs and 325 yards rushing and passing. Backs Awalt, Boles, Dunn, Guevara and Wilder ran hard behind fine blocking by Sam Scott, John Sims, Alan Andrae, Lanny Bahlman and George Mostad.

On defense the Big Blue yielded only 4 first downs. Terry Sheppard and Terry Rives, aided by Jimmy Vaughan, Danny Killough, Walter Morrow and Larry Donica, were always close by to stop the Indians.

Medicare and Doctors' Payments:
Medicare's health insurance cards are "good as gold" for getting one admitted to a hospital or identifying him as eligible for physicians' services under the hospital insurance plan.

Mrs. Juanita O'Connor points out, however, that an individual who seeks to receive assistance from the insurance plan should be aware of certain conditions which might affect payment of his medical expenses.

Hospitals and nursing homes must meet minimum care standards in order to receive payment for services under the Medicare program. In addition, under Medicare, patients' conditions will be reviewed every 20 days and certified as requiring additional hospitalization. If the doctor determines that hospitalization is not necessary at the time of review, the patient will be required to pay his own bills in full, if he remains in the hospital.

How much of a bargain the Medicare physicians' services covered prove to be may depend on how your doctor handles reimbursement for his services. There are two options for his billing procedure. He can bill Medicare for the portion allowed for his services and bill you for the rest. If he chooses this route, he must accept the payment which has been established by Medicare as appropriate for local medical costs.

The other alternative is that he can bill you directly for the entire amount. In this case, you must obtain from him a signed statement of what he treated you for and how much he charged for the treatment. You then submit this bill, attached to a form provided by Medicare for this purpose, and receive a refund for the part of the treatment covered by Medicare.

When arranging for medical care to be covered under Medicare determine ahead of time which of the two plans your doctor intends to use. If he plans to bill you directly, find out what he plans to charge for his services. Then check with your local Social Security office to determine if these charges are in line with accepted Medicare payments for your city. If his charges are excessive, you could end up paying a great deal in addition to the Medicare payments.

Using Spray Starch:
Here are four "rules of thumb" for using spray starch:
1. Shake the can each time before you use it.
2. Tilt the can only slightly—not over a 45 degree angle while spraying. If the can is tilted too far, the pressure in the can is reduced and the starch has no way to come out.
3. Hold the nozzle of the can 6 to 12 inches away from the fabric, and press the button firmly to produce a fine, even spray.
4. Clean the soleplate of your iron often so the starch will not scorch on the iron.

Color Theme Popular:
Plum, eggplant, camel, olive, red, gold and all shades of brown are strong colors for teen shoes this fall and winter. Black and white is still a kicky combination. Blue-green, black, winter pastels, plum, and dark brown are popular for dressy occasions.

Storing Duck Decoys—Duck decoys are best preserved by careful storage.

To insure dryness and prevent molding and discoloration, string a strong wire or heavy twine wall to wall across your garage, boathouse, or some other dry room. Then use curtain hooks to hang each decoy to the line.

Suspend them from the weight eye underneath each duck. Space them so as not to touch each other.

WHS Meets

The National Honor Society met Wednesday, October 12, at 12:30 in the film room with Mr. Joyce, sponsor, and Mrs. Harrison. Mrs. Harrison informed the group of their eligibility to take the Preliminary Scholastic Aptitude Tests (PSAT) which are to be given Tuesday, October 18 to the Junior class and those members of the Honor Society wanting to take it.

It was decided that the group would meet again Tuesday, October 25, the day scheduled for club meetings, to elect officers.

Tests Already?

This past week was one of anxiety for both students and teachers of WHS. Six weeks tests had arrived to plague the student with worries about belated work, cramming for tests, and grades, while the teachers are burdened with determining grades.

The test schedule included Monday, sixth period; Tuesday, third and fourth periods; Wednesday, first and second periods; Thursday, fifth and seventh periods; with Friday for recuperating.

items they sell to the consumer. These prices are for the most part set before the local retailer ever gets the item; set by the cost of manufacture and processing. By the time they reach the retailer's shelves, there is nothing he can do about it—and stay in business. People should remember that there are two sides to the coin. Increased production costs mean higher prices. Nowhere does this process carry more immediate impact than in the retail food distribution industry, where the local retailer operates on very narrow profit margins and consequently is unable to absorb any substantial cost increases.

Every retail merchant in the land is in the unfortunate position of being on the end of the line in the inflationary process. As costs rise, the end result must be passed on to the consumer at the retail counter. The retailer can't help it.

When an item in a store is increased in price, the man behind the counter is not the man to be blamed. Inflation and higher prices are his enemies, too. He gets the kicks from his customers.

These people in the "housewives organizations" have come up against a problem: they are being challenged by increases in prices, so they've struck out blindly—they've grabbed their teacups and headed for the ocean. They seem to have missed the point as they prepare to join the battle. It would seem (if they are as dedicated in this as they would want us to believe) that they should, in battle terms, fall back and regroup, reconnoiter — and do a little homework so they can recognize what it is they're really trying to fight. They may then realize they have been ignoring the source—the basic reason.

Recently we jokingly asked Winters Postmaster Rankin Pace to help in paying for a new fall hat, to replace a summer edition straw which we had been warned would be consigned to a bonfire if we continued to wear it.

Not surprisingly, "ZIP-Code" Pace came through; he forwarded a check in the amount of 25 cents to Heidenheimer's, where the new hat had been purchased. Because the bill already had been paid, the check was endorsed and sent on to us in reimbursement. We later used the check to pay a 10 cent fine at the weekly luncheon of the Winters Lions Club, and received 15 cents cash in change.

The secretary of the Lions Club, Ted Meyer, for some reason, handed it to the club president, Dr. Z. I. Hale, who endorsed it and gave it to another member — perhaps in payment of a 25 cent debt. Before it stopped, the check had made the rounds and was endorsed by some 26 Lions before it was given to President Hale again—presumably, these 26 each owed 25-cent debts to

others, and found a good way of paying up.

President Hale kept it and cashed it, putting the 25 cents in the Lions Club treasury.

This would seem to prove the theory that one piece of negotiable paper can cover a lot of transactions, with no cash outlay required, until it is finally charged against the account of the original giver. The odd thing, though, is that this check, in addition to being used to cover theoretical debts amounting in total to \$6.50, actually doubled in value before it was finally stopped. The Lions Club is 25 cents richer... and we received 25 cents actual cash—someone along the line has been out two-bits, besides Pace.

cheerleaders. Coach Busher, junior high coach, gave the pep talk.

Bowmen May Hunt Deer, Gobblers In Rannels County

Rannels County is one of 92 counties in the State to be specified as areas where bow and arrow hunters are permitted to hunt wild game. Bowmen may hunt deer from Oct. 1 to Oct. 31, and turkey gobblers during the same season.

Taylor and Coleman counties are also open for bow and arrow hunters during the same time. Bag limits will conform to those applying to taking the particular species by firearms, the Texas Parks and Wildlife Department has pointed out. Hunters should check their copy of the special archery guides available at dealers selling hunting licenses or their local game warden.

The Department also reminded that the law states it shall be unlawful at any time to hunt, take or kill with bows and arrows wild deer, wild turkey gobblers, using a bow that is not capable of shooting a hunting arrow equipped with a broadhead hunting points at least 7-8 inch in width and not over one and one-half inches in width, or using arrows that do not have on them in some non-water soluble media the name and address of the user, or using either poisoned, drugged or explosive arrows.
