But Mrs. Harrison didn't get a chance to try it out. Her son and daughter, 14-year-old Mark, and 12-year-old Keva, took possession. They alternated practice session, and regularly, even n some of the coldest weather New President of the winter, we saw one or the other practicing on that unicycle. They started by holding onto a utility pole guy-wire, until they had learned to balance. Then they would try to pedal the thing. After many get-ups and fall-downs, they managed to maintain their balance for a few inches . . . then a few feet

· In the meantime, Daddy Lee had bought another unicycle: now each had his own, and more time to practice.

The crowning achievement however, and the one which led 'us to offer a contract: Last week we saw Keva "unicycling" down the sidewalk, as much at ease as she would have been on a bicycle . . . she had mastered the thing! But .

this time, she had a basketball and she was bouncing that basketball on the sidewalk, and pedaling and keeping balanced on no more than a pin point.

Mrs. Harrison? Don't know if she ever gets to practice. But if Lee can find another unicycle. The Enterprise will contract for THREE riders for the next

Don't look now, but Tax Freedom Day is coming up soon. That's the day when the taxpayer can finally call his dollar his own. Until that date, every dollar you earn from January 1 will have to go for Federal, State and local taxes.

Last Wednesday, Rep. Edward J. Gurney (R., Fla.) for the third year in a row introduced a joint Congressional re solution calling on the President to proclaim May 5 a national holiday-officially, "Tax Freedom Day.'

"This year of all years May 5 is a day when the taxpayer should begin to take a closer look at what the government has done with the fruits of his four months of labor," said the ·Congressman, noting increased concern over more Federal spending and bigger deficits.

FOR SEPTIC TANKS - LAGOONS The Most Valuable Part of Your Tank Is Gone When You Have It Pumped!

This is important! When someone calls at your home with a truck and tells you your tank is almost full, that is correct. It has to be full to be filtering properly, and the most harmful thing you could do would be to have it pumped, for pumping destroys the most valuable part of your tank. Pumping doesn't clean your lines or eliminate odors and you pay an enormous price for the harm done.

"Texas will be 14,000 public school teachers short next year. 6,500 fine, qualified teachers are leaving their profession annually primarily because of low salaries. For the sake of our children we must raise teachers' salaries to at least the national average in order to attract new teachers and keep our old ones. I strongly support all TSTA legislative proposals for the next session."
