## HOME TOWN Talk

By R. C. THOMAS

The 1968 WHS Blizzard football team will leave the school by chartered bus at 2:30 Friday afternoon, enroute to Sonora for the Winters - Sonora football game.

The school is planning a big pep rally on the school grounds, to be held just before the team departs. Classes will be out early so that students can "demonstrate" for their team.

This will be the first football game of the season, and will be a time for "mettle testing" for members of the Blizzard team. These boys will be in a strange town, where the support for their opponents naturally will be heavy, and naturally will be light for the visitors. They are going against a strong team, even though that team is in Class A, and need and deserve all the support they can get.

So, it would be a nice gesture on the part of the people of the community if a good size crowd of non-schoolers showed up for that pep rally, to signify their support of the Blizzards. These boys work hard for their school and for their town, and deserve our support.

Too, in addition to the team members, the band will go to Sonora, along with members of the pep squad and other students. They will be Winters' representatives a way from home. Reports show that on past trips out of town, these young people have conducted themselves like the ladies and gentlemen they are, bringing a great credit to themselves and to their home town. They should all be shown that their attitudes and actions are appreciated by the rest of us.

John Waddell, Waddell Chevrolet Co., says this is the first time since 1927 he has missed attending the fall dealers' showing of new automobiles in Dallas.

More and more airplanes are using the new landing strip southwest of Winters. Traffic is expected to increase as the word gets around that the airport is available, even though it has not been officially opened and there are no service facilities of any kind available. A plane-load of hunters from the Dallas-Ft. Worth area was reported to have landed here during the past few days, and Mrs. Emma Marks, C. of C. secretary, received a phone call from a man in Levelland, inquiring about the air strip, length of runway, possible obstructions, etc. And company representatives from several parts of the country have already used the strip. This newest City facility will prove to be a greater asset to the community as time goes by and as improvements and services become available.

During the fracas in Chicago during the Democratic Convention, headline seekers and tv "newsmen" squall "the police are beating up our children!" A day or two ago the leaders of these mobs flatly stated they are going to attempt to disrupt the national elections in November, and also to attempt the same thing during the Presidential Inauguration in January. — These are CHILDREN?

PRIVATE FELIX SEGURA

## Felix Segura of Wingate Finishes Marine Training

Marine Private Felix Segura, 20, of Wingate, was graduated from eight weeks of recruit training at the Marine Corps Recruit Depot here.

He will now undergo from two to four weeks of individual combat training and then, after leave at home, will report to his first Marine Corps assignment.

The intensified Marine recruit training emphasizes rigid physical conditioning and survival techniques, both at sea and ashore, to develop self-confidence and endurance. Marksmanship with the M-14 rifle and 45-caliber pistol are equally stressed, and close order drill instills the traditions of Marine Corps teamwork.

A thorough study of basic military subjects, hygiene, first aid and sanitation, and the customs, courtesies, history and mission of the Marine Corps serve to polish the new Marine's recruit education and prepare him to join the Marine combat forces.

## Atomic Energy Lecture At WHS Scheduled Oct. 24

Congressman Omar Burleson announced this week that the Atomic Energy Commission has scheduled its lecture demonstration unit, "This Atomic World," to visit the Winters High School on Thursday, October 24.

The Congressman explained that "This Atomic World" is a graphic presentation of the story of nuclear energy and its peaceful uses. The 40-minute assembly program by specially trained science teachers covers the highlights of basic nuclear physics, radioactivity, chain reaction, reactors and their uses, transmutation and application of radioisotopes in medicine, industry and agriculture.

Students participate in at least three demonstrations. Burleson said that the Atomic Energy Commission furnishes the program without charge. Schedules are arranged between the sponsor school and Oak Ridge Associated Universities which operates the program for the AEC.

Congressman Burleson commended officials of the Winters High School for their interest and efforts in obtaining such up-to-date information on nuclear science for the benefit of Winters students.

## Blizzard Pep Squad Elects Officers

The Winters Blizzard Pep Squad met recently and elected officers.

Jeri Guy is president and Brenda Prine is vice president. Cathy Bomar was elected secretary and Babs Tatur, treasurer.

Sponsors elected are Tommy Hodnett and Eloise Prine.

Winters Mayor Wade White announced the first of this week that contracts have been awarded for construction of the City-owned Community Center building.

Ground probably will be broken next Monday for the start on construction of the steel and concrete building. Contract calls for completion in 65 days.

Mayor White said, after a meeting of the City Council last Friday night, that Simpson Construction Company of San Angelo was accepted bidder. Two sets of specifications were bid on, it was said, with the San Angelo company meeting requirements of the City for the No. 2 specifications—a building with insulation.

Finalized bid was for \$23,916, the mayor said. This figure was arrived at following additions and deletions, and "give-and-take" negotiations between the City and bidding contractors.

The Community Center building, to be erected on ground at the City Park near the swimming pool, will be 60 by 120 feet overall, with native stone "cut out" on the front. There will be an 8-foot canopy across the front and part of one side, with

5-foot concrete walk or porch along the front, and part of one side.

Steel walls and roof of the building will be double steel, with insulation factory-installed between the two steel surfaces, and baked-paint finish inside and out.

A fully-equipped kitchen is being included in the Community Center building. Mayor White said appliances and fixtures for the kitchen will be obtained locally. The kitchen will be paneled, with built-in cabinets and cupboards.

Plumbing for the kitchen and two rest rooms also will be obtained locally, the mayor said.

The award of contracts for construction of the Community Center building culminates many months' study by the City Council. Several plans were studied and discarded before final acceptance, the mayor indicated. The building will be available for meetings of all types, with the main meeting room large enough to accommodate most any kind of gathering, from family and community reunions to conventions.

## County School Board Take No Action On Petition of Norton School Patrons

There still is no final answer to the old Norton School District question.

The Runnels County School Board Tuesday considered a petition signed by 44 Norton people asking detachment of portions of the old Norton School District (now in the Ballinger School District) and annex the area to the Winters School District, but decided to postpone action at this time.

The area approximates 26.63 square miles, which was in the old Norton District, and which the County School Board recently annexed to the Ballinger District. Another petition considered at Tuesday's meeting concerned detachment of 16.4 square miles from the old Norton District to the Bronte District.

The meeting of the County School Board was held in the District court room in Ballinger.

County School Supt. W. E. Elkins said the law provides that a portion could not be detached from a district "where the ratio of scholastics to the assessed valuation is less than half the total valuation in the area to be detached." The petitions asking detachment of portions of the (Ballinger) district were not within this requirement, he said. Observers pointed out that the law dealing with this area of school annexation gives County School Boards broad powers, and they "can annex to one district, but in turn can detach to other districts," with the approval of the Ballinger Board, in this instance.

On the proposal to detach the Norton area from Ballinger and annex it to the Winters District, Ballinger spokesman said Ballinger was not willing to give up 25 percent of the area of the old Norton District and 60 percent of the assessed valuation of that old district just because another district wanted to annex it.

Winters spokesmen have pointed out that apparently, attempts are being made to make it appear that the Winters District is trying to "steal" part of the Ballinger District, but that in fact this is not the case. They said that petitions requesting detachment to Winters District had been originated by Norton residents, and that any

inglly insurmountable obstacles.

Earlier in the summer Albert accompanied his parents, Mr. and Mrs. John Martinez and other members of the family, to work in the vegetable fields and orchards in the San Francisco, Calif., area. About five weeks ago Albert was stricken with a form of multiple sclerosis. He became almost totally paralyzed, and has been in a San Francisco hospital.

Last week it became apparent that he must be returned to Winters. A trip by automobile was out of the question—air transportation was the only alternative.

Two official Texas Historical Markers will be dedicated in a special dedication program Sunday, September 15, at 3 p. m. in the District court room in Ballinger.

The two markers are for San Clemente Mission and the old townsite of Picketville.

Speaker for the dedication program will be State Senator David Ratliff of Stamford. Rankin Pace, chairman of the Runnels County Historical Survey Committee, will preside at the ceremonies. County Judge W. H. Rumpy will introduce the speaker, Herman Giesecke Jr. will introduce visitors.

Following the program in the court room, the group will go to the Picketville Marker, one mile east of Ballinger on Highway 83. Dedication talk will be by Odell Howard, representative of the Ballinger Lions Club, the organization co-sponsoring this marker. Mrs. Laura Henderson Pace and Miss Lucy Kittrell of the Survey Committee, will cut the ribbon.

The group then will go to the site of the San Clemente Mission, seven miles south of Ballinger on Highway 83. Dedication here will be by H. J. Zappe; Mary Ellen Perry will cut the ribbon.

The San Clemente Mission marker and the Picketville marker are the 13th and 14th Official Texas Historical Markers to be erected in Runnels County, according to Rankin Pace, Winters, chairman of the Runnels County Historical Survey Committee.

Markers are 27 by 42-inch cast aluminum with Swedish style effect.

Inspection on the San Clemente Mission is: (Site located 10 miles southeast). The first Mission known to have been established in Texas east of the Pecos River, San Clemente was a hastily built, two-room structure located on a hill about 17 miles south of present Ballinger. (Some historians place the site farther south, near Junction.) Although earlier than the great Spanish Mission movement, this was one of the first (1684) in Texas and was founded by Juan Dominguez de Mendoza and Fray Nicolas Lopez.

"Named for the San Clemente River (Actually the Colorado), the Mission was founded at the request of the Jumano Indians, who desired Christianity and the friendship of the Spanish. The building was probably constructed of logs, its lower story serving as a chapel and its upper story as a lookout post. Though they stayed only from March 15 to May 1, awaiting envoys from 48 tribes (bands), the Spaniards baptized many of their several thousand Indian allies.

"Finally, being attacked by hostile Apaches, Mendoza returned with his men to El Paso six months after he had left. Although Mendoza did not know it, French explorer La Salle had landed on the Gulf Coast, 1684. This fact, plus Mendoza's report of seeing a French flag among the Indians, quickly led to other Spanish expeditions being sent to chart the Texas wilderness."

MISS LANDA WALKER

## Wingate 4-H Club Girl Wins First In Junior Division

Landa Walker of the Wingate 4-H Club won first place in the junior division at the county dress revue, with the dress she is modeling in the picture above. This entitled her to represent Runnels County in District VII Dress Revue at the Cactus Hotel in San Angelo where she received a red ribbon.

Seventeen counties were entered in District VII Dress Revue.

Landa has been a 4-H club member six years and entered the dress revue five years winning a blue ribbon at county level each year. Last year when she became of age she represented the junior division and went to District VII dress revue in Abilene and won a red ribbon.

Ruth O'Conner of the Ballinger 4-H club represented Runnels County in the senior division at District VII Dress Revue and won a red ribbon.

General Phone Announces New Customer Service

Customers who call "information" are being provided a new service by General Telephone Company of the Southwest. In fact, the name of the service has been changed from "Information" to "Directory Assistance," according to an announcement by Jack Goss, Division Manager for the company. "The new name better describes the function," he said.

The new service, he explained is to advise customers if the number they are requesting is listed in the current telephone directory. And, if the number is not in the current directory, the directory assistance operator will so inform the customer by saying, "That is a new listing; if you care to make a note of it, the number is \_\_\_\_\_." It is felt this phrase will save customers the trouble of looking in the directory for a new number not listed and give them an opportunity to make note of the number.

Operators in San Angelo handle directory assistance calls for local numbers in Ballinger, Barnhart, Big Lake, Bradshaw, Bronte, Carlsbad, Christoval, Crews, Eden, Eldorado, Eola, Mertzon, Miles, Ozona, Paint Rock, Robert Lee, Rowena, Sonora, Sterling City, Talpa, Water Valley, Wingate, and Winters.

"The new name for the service, along with the new procedure for giving the customer the desired telephone number, has been tested in several other General Telephone exchanges with very favorable results," said Goss, "and customer reaction has been good."

## Girls Basketball Captains Elected

Captains for the 1968 Winters High School girls basketball team were elected Tuesday by members of the team.

Elected captains were Babs Tatum and Cheryl Beard.

## Blizzards Play In Sonora Friday

The Winters High School Blizzards open the 1968 football season on the road Friday night, going against a strong Sonora team.

The Big Blue team will board a chartered bus at 2:30 Friday afternoon for the 125-mile trip to Sonora. A school-wide pep rally will be held at 2 p. m., with the entire community invited to take part in sending off this year's WHS grid squad to their first game.

The Blizzards have wound up a good many days of constant-moving practice—some two-day and a scrimmage or two, and are honed to a sharp first-game edge, according to the coaching staff. Head Coach Jerry Gibson says this squad is "loaded for bear," and that this first game will be something of a "proving point," to find out just what is in the making for this season.

Coach Gibson said the Blizzards are going against an unusually strong team, "real fine people, used to winning, especially at home," and this pre-conference game should be a real barometer.

Sonora has been chosen hands down to walk away with their conference title. The Fort Worth Star-Telegram has picked Sonora as No. 1 Class A team in the state, "ready to return to the championship form of a couple of years back, with good size plus seven offensive and five defensive regulars from a '67 club that went 9-2."

Sonora has been in the playoffs for the past 6 or 7 years. Their only losses last year were to Ballinger in a non-district game, and to Seagraves in the playoffs.

The Sonora squad has in their list of returnees halfback Ed Lee Renfro, a two-time all-stater who "has covered 3,513 yards of gridiron real estate while racking up a 9.5 rushing average."

The Blizzards, too, have a good size contingent of returnees, around 20 of them, plus a list of comers from last year's freshman squad, to bolster and give depth to the Winters lineup.

PROBABLE STARTERS  
The 1968 Blizzard squad has not been stereotyped as yet, and continues to be in a state of change as preparation for the season goes along. But Coach Gibson expects to field the following on offense against Sonora Friday night:

Jerry Tischler and Alton Pierce at end; Sam Scott and Rex Harrison at tackle; Donald Wade and David Torres at guard; Bob Colburn at center; Mike Kozelsky at quarterback; Arlon Barnes at fullback; Charles Mathis right halfback, and Fred Wilder, left halfback.

On defense, Coach Gibson expects this to be the lineup: Robert Moore, left cornerback; Tommy Chapmond, right tackle; Bill Grantz, left tackle; James Greer, left half; Sam Scott, middle guard; Tischler and Pierce on the ends; Torres and Wade at linebacker spots; Kozelsky as cornerback and Mathis at halfback.

No tickets for the Winters-Sonora game have been available at Winters, but may be obtained at the gate in Sonora Friday night.

## Naval ROTC Tests Scheduled At Winters Hi School

Applications for the Navy's twenty-third annual Regular NROTC qualification test are now available according to Mrs. Lee Harrison, counselor at Winters High School. This nationwide examination will be given on December 14, and all eligible male high school seniors and graduates may apply.

On the basis of this test, personal interviews, medical examinations and other factors, Mrs. Harrison explained, about 1,700 young men will enter the regular NROTC program as midshipmen at NROTC units in 53 colleges and universities throughout the nation. Male citizens of the United States who will be at least 17 but not yet 21 on June 30, 1969, and who are now high school seniors or recent graduates, may be eligible to apply for the test. Those who attain qualifying scores will be interviewed and given medical examinations next January and February.

A successful candidate receives financial aid for four years of college. This includes tuition and educational fees, books, uniforms, and \$40.00 per month subsistence allowance. After successfully completing baccalaureate degree requirements and naval training, graduates are commissioned as officers in the U. S. Navy or Marine Corps.

Registration for the test will close November 15, 1968 NROTC Bulletins containing eligibility requirements and qualifying test applications are available from Mrs. Harrison or the U. S. Navy Recruiting Stations at Abilene or San Angelo.

Miss Linda Kay Dean and Larry G. King were married in a double ring ceremony at 5 p. m. August 24, in the First Methodist Church of Lubbock, with the Rev. Royce Womack, assistant pastor, officiating.

The bride, a daughter of Mr. and Mrs. Robert B. Dean, 4406 28th St., Lubbock, and granddaughter of Mrs. Lola Dean of Wingate, is a 1966 honor graduate of Coronado High School. Given in marriage by her father, the bride wore a candlelight gown of silk peau de soie, veiled in sheer organza and Alencon lace. The fitted lace bodice featured a natural scalloped lace portrait neckline and long petal-point sleeves. Vines of lace medallions fell from the empire waistline and were sprinkled over the A-line skirt and bouffant train, sweeping to chapel length. Her headpiece of silk illusion fell from a matching lace open crown pillbox, jeweled in seed pearls.

Maid of honor was Miss Dianna Brannon of Big Spring. Bridesmaids were Miss Carolyn Robinson and Miss Paula Stenes. They wore full length gowns of peach silk organza over taffeta. The gowns featured A-line skirts and three-quarter bell sleeves. Headpieces were peach-colored rose leaves with shoulder length veils of silk illusion. Best man was Jay Ulbrich.

AUSTIN — A blue-ribbon governor's committee has recommended a monumental 10-year plan for improving Texas public school education that will triple costs and require a \$300 to \$400 million tax bill next year.

The 15-member panel said its plan would lift schools out of 'mediocrity' and 'inefficiency.' Highlights of the report include: recommendations for more and better-paid teachers, free kindergartens, expanded free education for adults, required consolidation of small school districts, additional benefits for teachers and encouragement of educational innovations and experimentation. Committee, named by Gov. John Connally and authorized by the 1965 Legislature also urged programs to point up the cultural heritage of minority groups and to encourage human dignity.

Altogether the proposals of this Committee on Public School Education would increase local, state and federal school costs in Texas from \$840 million to \$2.1 billion at the end of ten years. Under the plan about four percent of the state's income would have to go to schools. Some \$593 million would be required, bulk from state sources, for 1970-71. Committee recommended simplification in the complex finance formula to figure local

school district costs, to provide that the local districts 20 to 25 percent share would be based on taxable property values. Local share, of course, would go up along with the state's. School building would remain a local responsibility.

Key recommendations include: —increasing basic allotments from \$23 to \$50 per pupil, plus additions for transportation, materials and vocational teachers. —Providing "basic foundation program" to replace 20-year-old minimum foundation program. —Adding 16,000 teachers, even though enrollment may decrease slightly (by about 22,000). This would provide a pupil-teacher ratio of 21 to one instead of 24 to one.

—Increasing teacher pay from \$4,734 minimum to \$5,400 in 1969-70 and \$6,300 the following year. Maximum pay would go up from \$6,912 to \$8,800 by 1970-71, as covered by state guarantee.

—Incorporating 17-step pay scale in 1971-72. This would provide \$3,000 for teacher aides and go up to \$28,567 for administrators.

—Requiring districts with fewer than 2,600 average daily attendance in 12 grades to consolidate by June 1, 1972. (Some exceptions would be allowed for remote countywide districts, special districts and schools on military bases). Redistricting recommendations will be provided in six weeks, committee said. —Encouraging districts with more than 50,000 enrollment to decentralize into community school systems with incentive payments of \$10 a student.

—Abolishing county school superintendents as terms expire. —Creating free public kindergartens for five-year-olds by 1980, summer programs with priority for the poor and free adult courses for those over 18 who have not finished high school.

—Offering wider selection of textbooks and materials and extra teachers and aides for districts with large numbers of low-income families.

—Replacing 20 regional education service centers with fewer regional branch offices of Texas Education Agency.

—Districting of the 21-member Board of Education to conform with 23 present congressional districts.

—Establishing new program for 25,000 student teachers and another for interns in school administration. —Setting up variety of teacher benefits including continuing contracts, professional consultation, teacher aides for every 100 students, and 10 free hours a week for teachers to grade papers, plan lessons and study. Non-teachers would be used for routine supervisory duties in some cases.

Although the immediate pay raise is less than the \$1,000 sought by Texas State Teachers Association, Committee said recommendations would provide "nation's best state-guaranteed salary plan."

## FOUR STATE CONVENTIONS COMING UP

Four political conventions of just about every complexion of politics extant in Texas are coming up. Saturday (Sept. 14), a frankly illegal convention of liberal Democrats unhappy with their party majority will be held in Austin.

On the legal day for all official state party conventions — Tuesday (Sept. 17), the regular State Democratic convention will be held, also in Austin. Lt. Gov. Preston Smith, the party's nominee for governor, will present (Continued on page 5)

## Winters Citizens—

(Continued from page 1)

swer. The airlines were reluctant to accept a passenger who would need constant attention, and for whom no special equipment and facilities were readily available. The cost of an ambulance plan ran from \$500 to \$1,000, and more.

But a group of Winters citizens heard about the case. They began to move. They conferred with doctors in San Francisco by long distance telephone, at their own expense. The doctors said Albert could be moved—by air. They talked with social workers in San Francisco, to no avail. They began to inquire into the possibilities of having Albert flown home by ambulance plane. They called airline offices in distant cities, still at their own expense. At practically every turn, they ran into a blank wall.

Finally, they turned to the organization many people at the end of their rope turn to—the Salvation Army. Things started happening . . .

The Salvation Army people in Dallas State Headquarters and San Francisco State Headquarters called the Winters people and told them they had made all the arrangements—American Airlines would bring Albert home. Cost would be approximately \$200 for him and his mother, who would care for him enroute. The chairman of the local Salvation Army unit dipped into the local fund and came up with the fare, and other people around town dug down and made donations, and the wheels began to turn.

Albert was to arrive in Dallas Monday afternoon. How to get him to Winters? The Winters Fire Department volunteered the use of their emergency unit, and drivers and helpers began to volunteer. Finally a privately-owned station wagon which was suitable was used. Spill Funeral Home provided cot, oxygen and other equipment to be used on the tip from Dallas to Winters.

Doris Day learns how to wield a pool cue, but not to play billiards with, for her role in Universal's high budget Technicolor western, "The Ballad of Josie" showing Friday, Saturday and Sunday at the State Theatre.

**"The Ballad of Josie"**  
Doris Day romps through Universal's new Technicolor western, "The Ballad of Josie," in a pair of tight fitting jeans and high heel cowboy boots with a gun strapped to her waist, leaving a trail of laughter behind her. Miss Day plays a lady rancher who introduces sheep to a traditional cattle country.

Abetted by her co-star Peter Graves, and opposed by George Kennedy, Miss Day turns a formerly stable community into a hot bed of female protestors demanding suffrage and equal rights for women.

"The Ballad of Josie," which shows at the State Theatre Friday, Saturday and Sunday, is Doris Day's first venture into the western scene since "Calamity Jane," 15 years ago. After starring in dozens of films about modern life, Miss Day dons a six-shooter and rides the range, that is, instead of the kitchen range.

his campaign platform planks then, for adoption by the whole convention.

On that same day in Fort Worth, GOP gubernatorial candidate Paul Eggers and his platform will be featured in the State Republican convention. Keynote for the day will be the Republican vice-presidential candidate, Gov. Spiro Agnew of Maryland.

Additional convention excitement is expected to emanate from Dallas where the American Party will convene Tuesday, and hear its presidential candidate, George Wallace. There, recently ousted party officials intend to challenge that party's state committee.

CRIME RATE UP

Crime rate in Texas for the first six months of the year was 15 percent over 1967, according to the Department of Public Safety.

DPS noted increases in all seven major crime categories. Murders and homicides were up nearly nine percent, rape 14 percent, robbery 14 percent, burglary nearly 22 percent, aggravated assault nearly six percent, theft about 12 percent, and auto theft nearly 24 percent. DPS Acting Director Wilson E. Speir said that means a major crime every minute and a half or a murder every seven and a half hours.

POLLUTION

It is almost certain that some state agency will take over regulation of salt water discharges from liquefied petroleum gas storage caverns near oil refineries and gas plants, but a public hearing by the Texas Water Quality Board did not settle the question of which agency.

WQB called a "show cause" hearing for LPG underground storage cavern operators with the idea of regulating brine-water waste discharges itself. But when the hearing opened, chairman Howard Rose of Austin said the Texas Railroad Commission had expressed an interest in handling the problem.

As it stands now, both agencies apparently will be involved in this area of pollution control.

DRAFT QUOTA CUT

State's draft quota has been reduced to 523 men for November, lowest since April, 1965.

Quotas have been dropping off since May when call reached 2,131. Call for August was 895. It's 683 for September and 774 for October.

RETARDED ASSESSMENT

Parents of children under 21 in state schools for the retarded soon will be billed for their care under a graduated fee system based on the family's net income.

## Income Tax School Will Be Held In San Angelo Soon

"A very unique school that teaches something we all have in common," is the way Mrs. Betty H. Sowers, San Angelo area manager of H R Block Co., described the basic income tax course which will be taught by her firm to over 30,000 persons this year.

Mrs. Sowers said that classes are now forming and the first day of school will be September 16. The course will last through December 5 and will consist of 24 three-hour sessions. Classes will be conducted at 1612 West Beauregard in San Angelo, with a choice of class times and days.

"By holding classes both days and evenings we can accommodate those persons who have day or night jobs," Mrs. Sowers said.

"With the ever-changing and increasingly more complicated tax laws, a person who prepares 'tax returns for himself or for a living must be well schooled in the basics of tax preparation. Thus, we're offering a basic school to train anyone interested in learning Federal and state income tax preparation," said Mrs. Sowers. "Incidentally, graduates of the school have the possibility of employment in any of the more than 3,000 H & R Block offices in the United States, Canada and Puerto Rico," she said.

## HAWKS CONTROL RODENTS

Here's one reason why some hawks should not be killed: A pair of meadow mice, the hawk's favorite food, will produce more than a dozen litters a year. And they average a half-dozen young per litter.

## NEW USE FOR OLD BRUSH

Take an old shaving brush, fill it with oil and store it in an airtight plastic bag. After a day of hunting, just brush your gun with the bristles. Stops rust! Oil stays in bristles indefinitely.

## Muffin Pan For Ice Cubes

Going on a picnic or camping trip and need ice? Make some jumbo sized ice cubes by filling your wife's muffin pans with water and place in freezer. Big cubes last much longer.

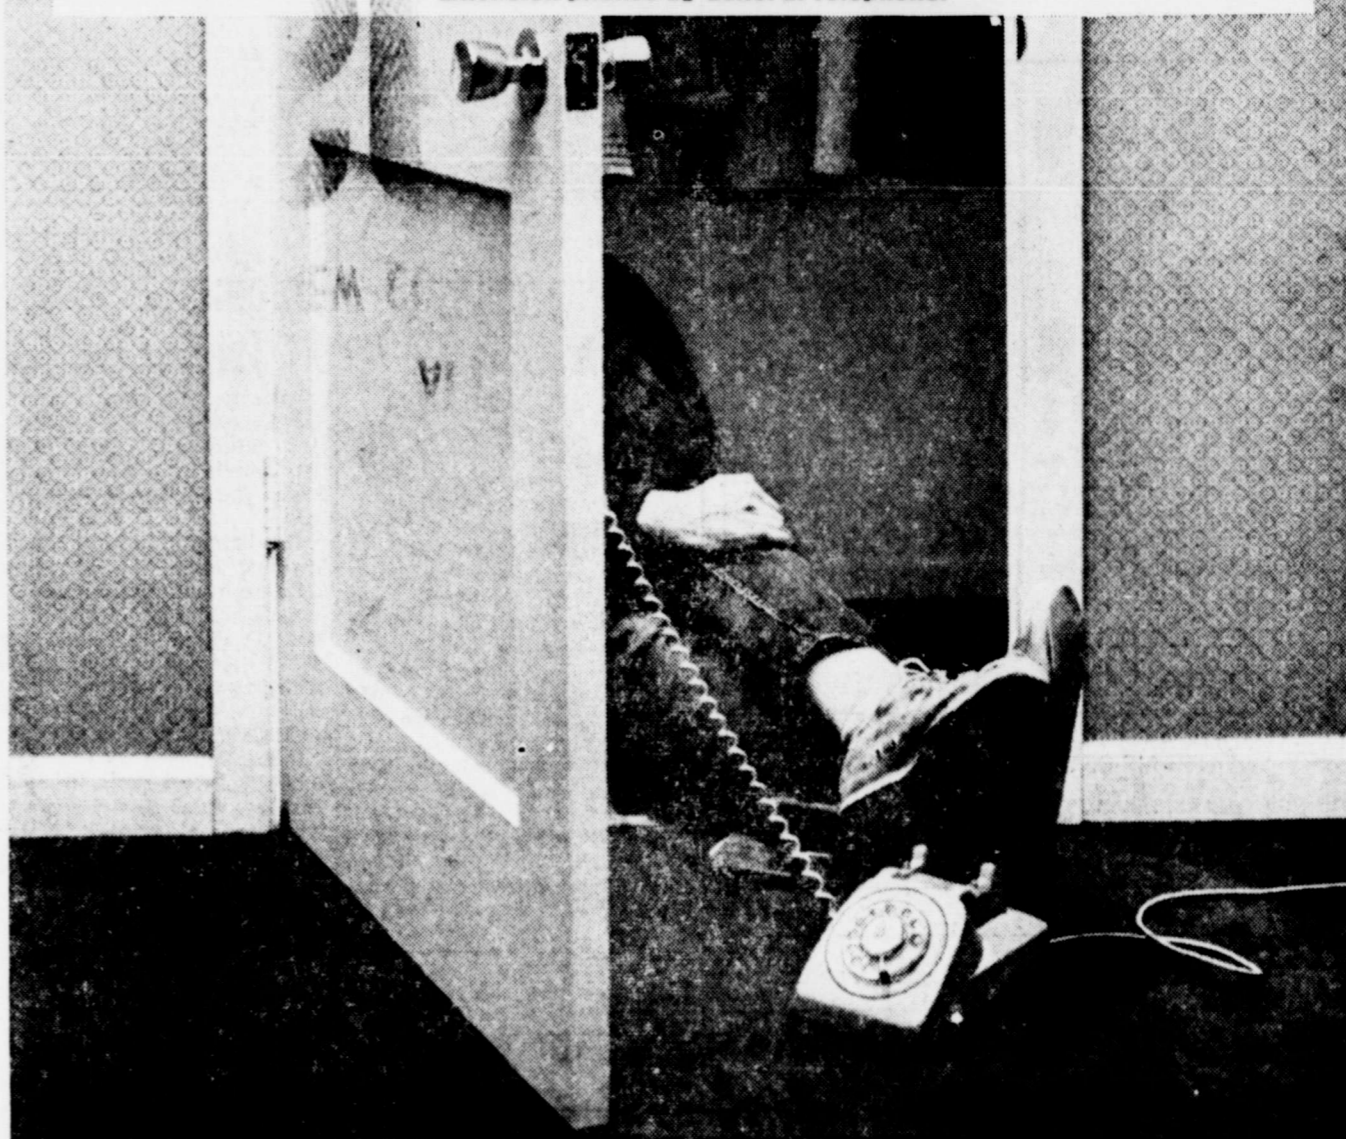

## A kid's got a right to some privacy too.

If your kid's been hiding out lately when he gets on the phone, take the hint. There are probably some things he'd rather discuss without an audience around. And he's entitled. After all, asking a girl out at his age is hard enough. But when the whole family's listening in, a guy could freeze. Help loosen young Don Juan's tongue. Call

your General Telephone business office and get him an extension phone. Then he can have his tête-à-têtes without feeling self-conscious.

When a kid feels you don't want to listen in on all his private conversations, he's more apt to tell you about them. An extension phone gives him that choice.

Extension phones by General Telephone.
