HOME TOWN Talk

By R. C. THOMAS

Today (Friday, Jan. 31) is the very last day. If we let this day slip by without positive action, we may go through the rest of the year in frustration, while we watch others line up and help to elect men and make decisions which we should be trying to support—or defeat, as the case may well be.

There may be decisions come up this year which will have an effect on us for the rest of our lives. But if we are not qualified to make our desires known—and felt—then we may as well prepare ourselves to accept anything that is thrown at us, without whimpering. Not that mere qualification by registration guarantees that everything will come out the way we want it—that would be too much to expect—but there is more chance for our wants to become reality if we register to vote and then vote. There is nothing quite so disgusting as the cry of the "Yah Yah" bird who fails without excuse to qualify to vote and then squeals when he thinks he's being stepped on.

January 31 is the last day in which we can register to vote. The Winters sub-office of the County Tax Assessor will be open from 8 a. m. to 5 p. m. There is no charge for registration; you merely give the clerk some information and receive a slip of paper which entitles you to take part in any election during 1969. There may be some important elections during 1969, too.

Ever think that the time may come when you can step onto a streamlined railroad car in Winters and within a few minutes be in Abilene, San Angelo, or even Fort Worth? In less time than it takes to put the kids in the car and get out on the road?

There are indications of a coming revolution in the transportation of humans. And it may come about sooner than we think.

Since World War II there has been a drastic decline in rail transportation, with the result that there are many areas which are not served by rail at all, and there are still few passenger trains still running. Improvement of the highway system and increase in the number of automobiles; and the terrific growth in air travel are said to be the causes. That, and the human drive to get from one place to another in the fastest way possible.

Now the problems are beginning to feed upon themselves. The highways are becoming choked with traffic, with a promise of more to come. Building of new highways cannot keep pace with the increase. The airways are beginning to fill up, too, with more and faster aircraft. Construction of suitable airports cannot keep up with the demand, and "holding" times over destination airports are beginning to eat up the time saved. Then any time which is saved is likely to be thrown away in the time consumed battling the snarled surface traffic

Rep. Nabers To Sponsor Local Hospital District Bill

State Representative Lynn Nabers of Brownwood, 64th District, will sponsor a bill in the House of Representatives providing for the creation of a North Runnels County Hospital District, it was learned this week.

It was also understood that Senator David Ratliff of Stamford will sponsor the same local bill through the State Senate.

Rep. Nabers told the Enterprise Tuesday that he had been presented a draft of the proposed bill by a group of North Runnels County residents, and that he had forwarded it to the Legislative Council for study. He said that when the time comes for filing the bill he will do so.

The proposed bill would create a Hospital District with boundaries coextensive with the boundaries of Commissioners

Precincts 2 and 3 of Runnels County. The District would be a political sub-division, and would be governed by a board of directors elected by the voters of the district. The board would be empowered, with the approval of the voters, to buy or build and maintain a hospital within the district.

Passage of the bill by the State Legislature would not automatically create the district, it is pointed out, but would give authority for the County Commissioners Court to call an election for the proposed district to be approved by the voters.

If approved by the voters, the Commissioners Court would appoint five residents of the district as the first board of directors, to serve until the following April at which time five directors would be elected.

Still Surveying On Main Street Widening Project

State Highway Department engineers still are making surveys of Winters' Main Street in the widening project which entered the basic planning stages more than a year ago.

Main Street is a section of U. S. Highway 83, and plans were made several months ago to widen the thoroughfare to conform to State specifications.

When surveying is completed, reconstruction plans will be drawn and any extra land needed for the project will be purchased before actual dirt work is done. State Highway Department appraisers also will have to make their reports before deeds can be obtained for the extra footage.

The City of Winters is working closely with the Highway Department in making plans for the reconstruction. Water, sewer and gas lines may have to be re-located in many instances, as well as electric and telephone lines. In addition, reports are that the City water tower on North Main Street will have to be moved several feet east to make room for the reconstruction work.

Residents of Winters many months ago approved sale of bonds by the City to obtain funds for the City's share of the cost in the widening project.

In Tuesday's contest, Carla Walker led scoring for the locals, with 22 points. Joy Awaft sunk for 18, and Debra Carroll, 15.

Outstanding work by the defensive unit contributed greatly to holding Merkel down. Controlling the board were Cheryl Beard, Babs Tatum, Gwenn Hoppe and Judy McNeil.

The girls have four more district games, meeting Anson Friday night.

Deadline Friday For Voter Registration

Friday, January 31, is the deadline date for voter registration. After that date, otherwise qualified voters will be unable to register and will not be allowed to vote in any official elections during 1969.

Personnel at the Winters sub-office of the Runnels County Tax Assessor said the middle of the week that people were coming in "in a steady stream" to register, raising hopes that this "off" year will find most people registered to vote.

It was pointed out that voters may register for any other qualified member of their immediate family, that is, for husband, wife, son, daughter, father or mother. A citizen may not register for someone outside his immediate family, or for a married son or daughter, it was stated.

The sub-office will be open from 8 a. m. to 5 p. m. Friday to register anyone who has not done so.

School children in grades 1 to 6 will receive the vaccinations from 1:30 to 3 p. m. Pre-school children will receive the inoculations from 3 to 4 p. m.

The "Measles Must Go" project is being sponsored locally by the Winters Lions Club. There will be no charge for the vaccinations, Lee Harrison, president of the Lions Club, said, but parents may make donations to help defray some of the necessary expenses if they wish.

Registration forms requiring

Phone Book To Be Delivered Here This Week

The most widely used book in Winters will be delivered this week.

"It's the new telephone directory, bigger and better than ever," says Jack Goss, division manager for the General Telephone Company of the South west, "with more names, more Yellow Pages, and more information."

More than 1,500 will be distributed throughout the area with all up-to-date information. Goss has this suggestion about replacement of your old directory: "Leaf through the old book. You may find something valuable in it. Folks have found money, important letters, notes as well as cherished addresses in their telephone directories. And while you are going through the old directory, you'll want to transfer the frequently called numbers you have written to the new book."

Goss pointed out that the inside back cover has space provided for frequently called numbers; information to simplify long distance calling is listed in the front section; and there is a great deal more interesting information than ever before.

Parents or guardians of children should study the information on the registration form before signing. Children twelve months through ten years should have measles vaccine, if they have not had regular (10 day) measles or previous measles vaccination. Children who have had either of these are already immune and need no additional protection.

Children should not have measles vaccine if: they are sick with high fever on the day of the vaccination program; if they are highly allergic to eggs and feathers; if they are being treated for cancer, leukemia or tuberculosis.

If a child is under a doctor's care at the time of the clinic, the doctor should be consulted beforehand.

The Winters Lions Club is the first such club in District 2A-1 to sponsor and conduct such a measles vaccination program. The district covers a large portion of this section of the state.

CARD OF THANKS
We would like to express our sincere thanks to Dr. Cook, all the nurses and staff of the Ballinger Hospital, friends, neighbors, and ministers for your thoughtfulness shown us in so many ways since December 19, when we were in a car wreck.

We are grateful for your expressions of love and concern through prayers, flowers, gifts, calls, visits, cards, letters, and food, all these have made us more patient patients these five weeks in the hospital.

We covet your prayers as we soon go on to Dallas for more treatment. Our children join us in saying "Thanks."—Mr. and Mrs. L. B. Watkins. Itc.

GIBSON Refrigerators and Home Freezers EXPERT SERVICE SWATCHSUE ELECTRIC CO.

Immediate implementation of the Texas Water Development Board's \$10-billion Water Plan (to take water to every part of Texas), lowering the voting age to 18, lifting the constitutional ceiling on state public welfare contributions, and a gradual revision of the State Constitution were some of the surprises Gov. Preston Smith offered the Legislature.

All 181 Legislators had been pacing themselves for the first two weeks of the session, waiting to see what their new governor wanted from them, and now they know his aims. But he has yet to reveal his budget and tax recommendations, which will have tremendous bearing on whether his programs are enacted.

Governor Smith lauded the Coordinating Board, Texas College and University System's plan to provide upper-level senior colleges in Midland-Odessa, Corpus Christi, Houston and Dallas and a four-year college in San Antonio, but he did not adopt it specifically. However, he did embrace the board's recommendation for new state medical schools in Houston and Lubbock, a new dental school in San Antonio, and state participation in Baylor University's dental and medical schools.

He called for a state police certification program for prison parolees, an "implied consent" D.W.I. test to cut down on traffic accidents involving alcohol, "enlarging" the Parks & Wild-

life Commission to obtain better geographical distribution, and raising workmen's compensation benefits from \$35 to \$45 a week.

Governor Smith endorsed the 1968 State Democratic platform (which had his approval), but he added: "I have read the Texas Republican Platform. I think you will find the two quite similar."

Smith's message to the Legislature left unanswered the question of spending and taxing. He called for economy, but conceded that new taxes may be needed. His recommendations as to what should be spent and where it should come from will follow in another message.

His legislative program was very extensive. Rural legislators who have been getting objections to the proposals for school consolidation made by Gov. John Connally's Committee on Public School Education were glad to hear Smith call that plan impossible to pass. He did agree with the Committee that there should be some school consolidations, but he felt they should be voluntary.

Attracting much interest was the fact that the new governor did not mention in his list of proposed constitutional amendments the one to allow local option liquor-by-the-drink. Instead, he merely gave legislators a copy of the Democratic platform which called for a statewide vote on the question.

His message came after a colorful inaugural program which brought thousands to Austin. A "victory dinner" attracted 6,000. As many as 40,000 may have attended the six inaugural balls. More than 100 units took part in the inaugural parade.

When Smith and Lt. Gov. Ben Barnes took office, they gave the Capitol the first West Texas team since 1947. West Texas were prominent among those in Austin, to cheer for the men from Lubbock and DeLeon.

TUITION HIKE PROPOSED

Finance committee of Coordinating Board, Texas College and University System found tuitions of students must be doubled to help pay the expected \$404.2-million biennial operating cost of higher education facilities by 1975-76.

Committee also proposed \$165 a year student building use fee to float bonds for a \$401-million college construction program. Fee would apply only on six new

campuses recommended during the next decade.

Tuition suggested by the committee would be \$7 per semester credit hour for Texas residents and \$20 per credit hour for non-residents. This would raise an additional \$22-million a year. Present tuition rate, unchanged since 1957, is \$50 a semester. It is one of the lowest in the nation.

Committee strongly recommended a uniform building system and standardized construction components for new campuses, as well as new procedures to cut down operating costs.

Report will be acted on at the February 10 Coordinating Board meeting, together with a request to merge South Texas College of Law at Houston with Texas A & M University.

DIES SECRETARY OF STATE

Governor Smith's first official appointment was his secretary of state. He selected former Lufkin Sen. Martin Dies Jr., and Dies was immediately confirmed by the Senate.

Smith described Dies, who did not seek reelection in 1966 after eight years in office, as one of the most popular senators in recent history. His main work has been in the areas of retardation in children and parks development.

"I have turned to one of the most able and dedicated men in public life during this era of government," Smith said. "I am sure Senator Dies is destined to become one of the great secretaries of state in Texas History."

CONSTITUTIONAL AMENDMENT

Freshman Rep. Lynn Nabers of Brownwood plans to introduce a proposed constitutional amendment to allow the state to give aid to private colleges and universities.

In the proposal, a committee would determine what it costs to educate the average student at state-supported schools. State then would deduct from that the tuition students pay at state institutions—now \$100 per year—and send the rest to the private schools as credit toward the educational costs.

System would be complicated at those private schools which teach religion courses. Some state aid would have to be deducted for that, because of the constitutional provision on separation of church and state.

ETHICS CODE

Rep. Jim Nugent of Kerrville is making another run with a bill he has carried some 10 years. It is designed to improve and strengthen the Code of Ethics for state officials. Every session, Nugent's ethics bill has been passed by the House, but failed in the Senate. He is optimistic this time, since so many senators—and Lieutenant Governor Barnes—are former House members who have voted for the proposal in past sessions.

COURTS SPEAK

A San Antonio Negro got a new trial for robbery because the prosecutor asked a witness if the defendant was a Black Muslim. Court of Criminal Appeals said a mis-trial should have been granted.

State Supreme Court turned down a suit for damages by a man who claimed he developed cancer from handling radioactive material at the nuclear weapons assembly point at the Medina Base.

High court threw out the state's appeal from an Amarillo court finding that the guilt of juvenile offenders must be proved "reasonable doubt" as is the case with adults.

AG OPINIONS

Texas Technological College may create a medical school on the Lubbock campus without passage of implementing legislation, Atty. Gen. Crawford Martin said in an opinion requested by Governor Smith.

Martin warned, however, that the legislature, through its control over appropriations of funds, has the power to "accept or reject this method" of creating medical facilities.

In another opinion he also ruled that a school board has the authority to expel a student for violation of a published policy against drug use, after

fair hearing. But he said an indictment alone is not grounds for expelling.

REGISTER CARS PROPERLY

Auto registration regulations will be enforced tighter due to computerization, the Highway Commission and Department of Public Safety warns.

Highway Department says that many motorists have cars registered illegally in counties where they do not reside. Others who live in cities show only a post office box number instead of the required residence address.

Computerization also will aid in law enforcement, and reduce the waiting-in-line time to obtain a license. Motorist will get forms to fill out in advance, saving typing time at busy license distributing points.

★ MOVIES ★

Because of the roar of burning oil and gas, oil fire-fighter John Wayne relays instructions to his crew with hand signals in this Universal's action-packed "Hellfighters" photographed in Technicolor.

"Hellfighters"

Appraised by John Wayne as the most "exciting" of all the action films in which he has appeared, Universal's "Hellfighters," in Technicolor and Panavision, shows Friday, Saturday and Sunday at the State Theatre. Young screen sensation Katharine Ross, Jim Hutton and Vera Miles also star in the thrilling story of the highly specialized professionals who put out roaring oil well fires anywhere in the world under the constant threat of death which becomes a major concern to the women who love them.

Wayne portrays the fabulous Red Adair, owner of the Wild Well Control Company of Texas, a rugged, colorful oil well fire fighter, the only man in the world with enough skill, experience and courage to put out the monster fires. Key members of his organization are played by Hutton and Bruce Cabot. Of the finished picture, Wayne, who has been on the screen more than 35 years and in hundreds of films, said, "I've made a lot of action movies, but never one as exciting as 'Hellfighters'."

Eighth Graders Nudge Robert Lee

Tommy Konczak's 8th grade chargers outplayed the big Robert Lee team last week and came out with a 32-30 victory. Robert Lee, playing with 6-foot eighth graders, found the mighty mites of Winters Junior High too tough. Kurt McCuiston and Lee Choate led the scoring.

The 8th grade boys play again Monday night against San Angelo Lakeview. The 9th grade game will follow.

Increased Hospital Costs Cause Increase In Medicare

Increased hospital costs of over 13 percent have resulted in a 10 percent increase in Medicare costs to elderly patients, beginning January 1, 1969. This comes as a reminder from Ted F. Moellering, District Manager of the San Angelo Social Security Office.

Mr. Moellering said, "The average Medicare inpatient hospital daily costs rose, nationally, from about \$38 in 1966 to about \$43 in 1967 and continued upward in 1968. Keeping pace with these rising costs required that the deductible be increased from \$40 to \$44 in each benefit period.

"The patient's share of the cost from the 61st to the 90th day rises from \$10 to \$11. If he has to draw on his "lifetime reserve" from the 91st day to the 150th day in one benefit period, his share during that time has gone up from \$20 to \$22. Insured care in a skilled nursing home now costs the patient \$5.50 per day after the first 20 days, instead of \$5."

These increases were effective on or after January 1, 1969. Mr. Moellering emphasized. A person who entered a hospital or skilled nursing home before January 1 pays the old rate throughout his stay even if it extended into 1969.

The Veterans Administration reports that the last Revolutionary War veteran died 85 years after the war officially ended.

School Census Deadline Date Is January 31

Deadline for enumeration of school children in the Winters Independent School District is set by law at January 31, 1969. Census blanks have been forwarded to school patrons of the District, and anyone who has not completed and returned a blank should do so before the deadline.

All children who will be of school age by Sept. 1, 1969, and children now attending should be listed on the census. A complete list of all children between the ages of six and 18 is needed for application for financial payments to the district from the State.

Most all children now enrolled in school will have completed forms at the school, but the children reaching the age of six that will enroll in the first grade next year need to be reported. The list of six year olds will help in scheduling classes for next year.

1969 Feed Grain Program Told By County ASCS

The Runnels County Agricultural Stabilization and Conservation Service office has received word that the 1969 feed grain program will be basically the same as the 1968 program except that barley will be included as a feed grain, according to W. R. Gray, Jr., ASCS office manager.

Gray said base acres and yields will be mailed January 31.

In an information bulletin to county farmers, Gray said that January 31 is the final date to file an application for incentive payment on wool, unshorn lambs, and mohair sold during the 1968 marketing year beginning Jan. 1, 1968 and ending Dec. 31, 1968.

The bulletin also pointed out that "there will be no diversion for cotton this year. A person may plant his entire allotment but will receive price support payments on only 65 percent of his allotment."

Sign-up dates for the 1969 cotton, feed grain and wheat program are between Feb. 3, 1969, and March 21, 1969.

Measurement of crops planted in any skip row pattern will be the same in 1969 as it was in 1968, Gray said.

Edward J. Noonon, who has been associated with the Runnels County ASCS for 19 years, has resigned and will accept a position as County Performance Supervisor with the Tom Green County ASCS.

Attended Nursing Home Conference In Lubbock

Mrs. L. L. Merrill and Mrs. Melba O. Emmert of Senior Citizens Nursing Home in Winters were among 290 nursing home staff members and public welfare workers who attended a conference in Lubbock January 21 on the implementation of the new multiple levels of service program for public welfare recipients residing in nursing homes.

The one-day meeting, sponsored by the Texas Nursing Home Association and the State Department of Public Welfare, dealt with the responsibilities of the nursing home and state welfare workers under this new program which became effective on January 1, 1969.

"The new program is designed to place the patient in the nursing home that offers the level of specific care program that the individual needs," stated Burton G. Hackney, Commissioner, State Department of Public Welfare.

Nursing homes and those welfare recipients requiring nursing home care are now classified into three types: Skilled Care, Intermediate Care III, and Intermediate Care II. Skilled nursing homes serve patients requiring maximum nursing care. Intermediate III homes serve patients needing nursing care, but of a lesser degree. Intermediate II homes serve residents who do not require professional nursing care, but are incapable of independent living.

A welfare recipient classified as Skilled, Intermediate III or Intermediate II will be provided care in a nursing home of like classification, where possible. However, when not possible, special personnel waivers have been developed to insure that all eligible recipients receive necessary nursing care. Waivers may be granted for various reasons, some of which include: physician orders that a move would be detrimental to the patient, where beds of like classification of the recipient are not available in the area, and to avoid the separation of family members who may not have the same classification.

James Baker, president of the Texas Nursing Home Association, stated, "In order to better serve the needs of the community, many of our member nursing homes will establish distinct part classifications. This means that a nursing home might care for two or three type patients within one facility."

College, was maid of honor. Bridesmaid was Roxie Day of ACC and junior bridesmaid was Diane Sartain of San Antonio, cousin of the bride.

Candlelighters were Sid Hicks and Bob Lester, both of ACC. John Shaw of Abilene Christian College was best man. Groomsman were Robert Moon of Stillwater, Oklahoma and Glenn Gray Jr. of Winters, brother of the bride.

Guests were seated by Buzzy Hudress, Cecil Eager and John Tammarro, all of ACC.

The bride's attendants wore blue velvet, long sleeve empire dresses with white velvet ribbon trim. Their headresses were double white bows and blue tulle. They carried white carnations.

Presented in marriage by her father, the bride wore a peau de soie wedding gown fashioned with demure scoop neckline, long sleeves coming to a point at the wrist. The skirt was adorned with Alencon lace motif re-embroidered with seed pearls down each side of the front panel, with soft pleats at each side and a chapel train down the back. A Cabbage Rose with oversized streamers enhanced the waist line in the back. Her floor length veil of silk illusion fell from a crownless pill box embroidered with pearls and a petite cabbage rose nesting in the back.

A reception held in the Fellowship Hall of the church was hosted by the bride's parents. The bride is a graduate of Winters High School and attended San Antonio College and is a sophomore student at Abilene Christian College. She had been employed as a secretary for Winters Welding Works.

Mr. Glenn is a graduate of Walters High School in Oklahoma. He is a junior student at Abilene Christian College.

The rehearsal dinner was hosted by Mr. and Mrs. J. H. Glenn Sr., the bridegroom's parents.

Mr. and Mrs. Glenn will reside at 807 East North 15th Street in Abilene.

from airports to "downtown" destinations.

Now are coming proposals that railroads update and add to their passenger systems, especially to serve areas within a 400-500-mile radius of metropolitan areas. With modernization, it is said that railroads could match the times of air travel in these areas, taking passengers from "downtown" to "downtown," bypassing the long trips from airports to downtown. The "long hauls" could be left to the airways, it is said.

Such a system also could relieve the congestion on the highways, too, with many people preferring to take the trains (if they were fast and modern) rather than fighting city traffic and parking problems.

There also are visions of fast railway commuter "locals" to serve in the so-called "rural" areas, taking much of the traffic off the highways. Even in this section of the country, we may—probably—will see the day when we will step on a fast rail car and whiz to places such as Abilene, San Angelo and even Fort Worth in quicker time than we could fill up the gas tank and maneuver onto a traffic-clogged superhighway.
