

## HOME TOWN Talk

By R. C. THOMAS

It was in the late afternoon on a Thursday—June 16, 1955—when storm clouds boiled into and over the Winters country. The winds whipped, paused, reversed direction a couple of times, and the angry green clouds spewed smashing chunks of ice and hail onto the town and countryside, leaving in their wake destroyed crops, broken windows in about every home and building in the area, smashed-up roofs, and broken and beaten automobiles.

... It was in the late afternoon on a Thursday—June 12, 1969—when storm clouds rolled in from the west, on a visitation of destruction to the Winters country. The winds blew—there are reliable reports of sightings of small twisters in the area—and hail the size of softballs and larger again pummeled the area, for about 25 minutes, breaking out hundreds of windows, smashing crops, destroying roofs, stripping fruit-laden trees. Few buildings in town and countryside were spared the wrath of the storm. Some homes looked as if they had been pounded with giant fists. Metal awnings offered little protection, as the large chunks of ice penetrated as if the metal were paper. A saddening and disheartening nightmare it was.

The reason we mention the 1955 hailstorm in talking of the 1969 hailstorm is the coincidence. In 1955, we had decided to cast our lot with the people of Winters, returning to Texas after several years' absence. We arrived in Winters on June 15, dumped a hatful of belongings in an apartment, and drove to Central Texas for a day of visiting. At sundown on June 15, we took some color pictures of a most beautiful sunset—framed by large, towering clouds, barely visible. We read no paper and listened to no radio news... and on June 17, when we were on the outskirts of Winters, returning to our new home, we were stunned by the utter desolation of the countryside—and as we entered town, we realized the absolute destruction a hailstorm can leave in its wake. Little had we realized that those towering clouds we had seen in the distance and had photographed had been the clouds which had dumped the ice on Winters.

On Thursday, June 12, 1969, we left Winters in the middle of the afternoon, bound for a short holiday on the coast. We were not far down the line when the hailstorm hit Winters... but, again, we listened to no radio news, nor did we read a paper for the next couple of days. We returned home late Sunday evening, but failed to notice, in the darkness, the havoc which had been wrought on the previous Thursday—until we stepped out of the car.

Again, we had missed the terrible immediacy of a hailstorm—but the aftermath was enough to fill any possible gap. We thought we had seen and been through some pretty noteworthy storms... but nothing we've ever seen can match last Thursday's! Many refrigerators and freezers over town still contain the evidence, and no story concerning the size and shape of the ice chunks which fell last week can be unconvincing. All of us have seen what that sky-manufactured chunk-ice can do. One resident recalls that at the height of the storm, as he and his family sought shelter in a room away from the flying glass, he suddenly heard water running. Investigation revealed that a big chunk of ice had come through the screen and glass of a bathroom window, and had hit a water faucet, turning on the water. Other stories of hailstones larger than softballs slamming through a window, through another door, down a hall and coming to rest 50 feet from the broken window. One man—probably several went through the same experience—dared not leave his pickup, and huddled under the dash, while the ice stripped all glass from the vehicle. One young lady stayed in an automobile as long as she could, with the flying glass, and then risked a run to her house; she luckily was not hit by the ice, but she had been slightly cut by the glass from windshield and windows of the car.

**DESTRUCTION**—Siding on the W. H. Bursleson residence at 911 Manning in the Reeves Addition was almost completely destroyed, as shown in the picture. Windows were knocked

**HIGH SCHOOL**—Every window on the front of the Winters High School was broken out by the hail. All buildings of the school plant were damaged, and

**DRIVE-IN**—Plateglass windows of the concession stand at the Fiesta Drive-In Theatre south of town were knocked out, and venetian blinds were destroyed by the hail. Several

**HAILSTONES**—A large hen egg is shown with two hailstones to show comparative size. These hailstones were common during last Thursday's

out, and the beaten metal awnings give evidence of the destructive force of the falling ice. Such scenes are common in Winters following last Thursday's hailstorm.

volunteers spent long hours Thursday night and Friday sweeping up broken glass and other debris. (Staff Photo)

## Swine Short Course Scheduled Here Next Monday, Sponsored By Ag Dept.

A swine short course for adult farmers will be held June 23-26 under the sponsorship of the Winters High School Vocational Agriculture Department, according to Carroll Tatom, superintendent, and James Smith, teacher of Vocational Agriculture.

Bob Jacobs, swine specialist with the Vocational Agriculture Division of the Texas Education Agency and the Department of Animal Husbandry at Texas A&M University, will do the instructing in the course. He is headquartered at Texas A&M.

## Methodist Youth Week June 22-27 At Ballinger

The Rev. Richard Sechrist of Cleburne will be the worship speaker and direct the discussions during the Rannels County Methodist Youth Activities week, June 22 through June 27. The Ballinger Methodist Church will host the meetings.

Theme for the week's discussions will be, "Christianity? What's It All About?" The Rev. Sechrist will be the speaker for the regular Sunday evening service at Ballinger, at 7:30 p. m. Preceding the worship hour, the youth will meet for a fellowship supper at the church at 6:30.

On Monday through Wednesday activities begin at 6 p. m. in Fellowship Hall, with a fun-time directed by the Winters youth, followed by supper.

Mr. and Mrs. Kirke McKenzie of Winters will direct a sing-song preceding the worship hour and discussion. Evening activities will close with a Friendship Circle.

## Roofers Must Get Permit To Work: City Ordinance

Roofers and other repair crews coming into Winters following last Thursday's hailstorm must register at the City Hall and obtain itinerant merchants' permits, or stand the risk of heavy fines and expulsion.

Mayor Wade W. White announced shortly after the hailstorm that a City Ordinance calls for registration and permits, not only for the protection of residents against unscrupulous operators, but to provide for disposal of old shingles and debris. Cost of the permit is \$10 per crew, Buford Baldwin, City Secretary, said.

City regulations also call for debris to be hauled to one central location, the city disposal area southeast of town. In the past, old shingles and debris was dumped at several places on the outskirts of town, and was removed and disposed of at great expense to the City of Winters.

The mayor has reminded all residents to make sure that repair crews have the City permit before they are allowed to begin work, and to investigate the background of all who offer to do repair work.

## Martha Ann Joyce On Honor Roll At Oklahoma U.

Martha Ann Joyce, daughter of Mr. and Mrs. B. J. Joyce of Winters, was one of 3,460 University of Oklahoma students who earned places on the university honor roll for the 1969 spring semester. Dr. J. Herbert Hollomon, OU president, has announced.

To be eligible for the honor roll, a student must have an overall grade average of B or better in a minimum of 12 credit hours and must not have a "failing" or "unsatisfactory" mark in any course.

## Donald Schaffrina Aboard LST Off Coast of Guam

Gunners Mate Third Class Donald F. Schaffrina, USN, son of Mr. and Mrs. John G. Schaffrina of Winters, is serving aboard the tank landing ship USS Meeker County at Guam, Mariana Islands.

The ship recently returned to Guam from Vietnam where it served as a unit of Task Force 76 with the U. S. Seventh Fleet. Recently awarded the Navy's battle efficiency "E" award for outstanding performance, the ship will undergo a three-month overhaul period at Guam.

## City Tournament At Country Club Set for June 28-29

The annual City and Club Golf Tournament at the Winters Country Club will be held Saturday, June 28, for women, and Sunday, June 29 for men.

Qualification scores must be turned in no later than Sunday, June 22. No one will be accepted after that date, according to Pat Wood, tournament chairman. Former City champions will not be required to qualify.

There will be two flights for women, Championship and First Flight, with finals to be held Saturday, June 28, with 9 holes of medal play. Tee off time for the first flight will be 1 p. m., with the championship flight to tee off at 3 p. m.

Finals for men will be held Sunday, June 29, with 18 holes of medal play. Tee off time will be 12:30 p. m. for second flight, 1:30 for first flight, and 3:30 for championship flight.

Entry fee will be \$6 for the men and \$4 for the women. Trophies will be awarded in each flight for first and for runner-up.

Qualification scores and entry fee may be turned in to Pat Wood or put in a box provided for that purpose at the Country Club.

## City Will Pick Up Leaves, Limbs

City trucks will pick up leaves and tree limbs which were knocked off trees by the hail, if they are put in piles in the streets, the City Hall has announced.

If put in the streets, the leaves will not have to be in boxes. However, if put in alleys, all leaves and small limbs will have to be in boxes. City trucks cannot pick up the piles of leaves in alleys.

## LITTLE LEAGUE SCHEDULE

June 23: Indians vs. Yankees, Indians (Minors) vs. Giants, at Winters; Dodgers vs. Wingers, Cards vs. Wingers, at Wingers.  
June 24: Jets vs. Lawn, Pirates vs. Lawn, at Winters.  
June 26: Indians vs. Wingers, Indians vs. Wingers, at Wingers; Lawn vs. Dodgers, Lawn vs. Cards, at Winters.  
June 27: Jets vs. Yankees, Pirates vs. Giants, at Winters.

## Marvin Traylor To Denver City Foodway Store

Marvin Traylor, who has been manager of the Winters Foodway Store for the past year, has been transferred to Denver City, where he will manage the Foodway Store. Foodway is a Kimbell Milling Co. subsidiary.

Traylor, a native of Winters, worked for four years for the late Bill Bell, and then became manager of the local super market when it was sold to the Kimbell interests last year. He became manager July 1, 1968.

Mr. and Mrs. Traylor have two children, and will move to Denver City in the near future. Traylor reports to the new assignment next Monday.

# Hail Damages Will Run Over One Million Dollars

One million dollars—plus! This is an estimate—and a conservative one, according to several insurance adjusters—of the cost to repair the damage in the Winters community caused by the hailstorm which hit the area late Thursday afternoon of last week.

This estimate covers only repair on homes and commercial buildings, and does not take into account the loss of crops, the damage to automobiles and trucks, and damage to power and telephone lines.

Last Thursday's hailstorm caused much more damage than any experienced here before, it was agreed by most observers.

The hailstorm hit Winters proper about 6 p. m. Thursday, June 12, and pounded the town for 25 minutes. Roofs of practically every building in town received extensive damage. Most dwellings, and many commercial buildings, lost windows, especially on the west and north sides. More than 1500 window glasses were broken out at the Winters schools. Glass was broken out of windows of all churches; the First Baptist Church had several hundred glasses broken.

Most automobiles in town which were not in garages received damage: some of them had all glass broken out, while others received big dents in the metal bodies. Even cars under carports were damaged.

Although there were several reported instances of people stranded in autos during the storm, no reports of serious injuries have been confirmed, although some received minor glass cuts.

Extra precautions also were taken in homes during the storm, when residents sought rooms away from the flying glass of broken windows. Some slight glass cuts were reported, and many near misses, but no serious injuries were reported.

There also were reports of pets being killed by the falling ice, and a pig was killed at the FFA stock barns on the north side of Winters. Reports also said two cows were killed when wind blew down a power line pole southeast of Winters.

All trees in Winters and the surrounding community received extensive damage. Fruit trees were stripped of young and maturing fruit, and pecan trees, which had showed promise of a bumper crop, were stripped. Large limbs were broken from trees in many instances, and the ground was covered with leaves and small limbs after the storm. The City of Winters has been working to get these leaves and limbs trucked off.

In addition to broken windows in homes, there also was considerable damage to interiors of homes. Many curtains and drapes were ruined by broken glass and hailstones; venetian blinds were demolished. Many carpets were ruined by water and glass, and flying glass also caused much damage to furniture.

During the height of the storm, hailstones the size of baseballs and up to softball size fell in Winters. Some observers said they saw chunks of ice the size and shape of bricks slam into the ground and against homes. Hail was said to be the largest and hardest of any ever experienced here. Accompanying the hail was 2.15 inches of rain.

## Red Cross Will Give Assistance To Hail Victims

A representative of the American Red Cross has opened an office in the Winters Chamber of Commerce building, and will offer financial assistance to persons whose homes were damaged by hail last week, and who are financially unable to have repair work done.

Tom Wagner, Central Texas Representative of the American Red Cross, said he or another representative will accept requests for financial aid from those who need it.

Those needing assistance are asked to call at the office, and anyone knowing of persons who need help are asked to notify the Red Cross representative.

Last day for filing for help through the Red Cross will be Wednesday, June 25, Wagner said. The staff then will devote their time to determining the needs of the people.

Immediately following the hailstorm, lumber yards opened their doors, and residents swarmed to obtain plywood, fiberboard and other material to cover broken windows. In the business section, where hail had broken plateglass show windows, police patrolled constantly after the storm. However, there were no reported incidents of any type of looting or other unlawful acts.

Immediately following the hailstorm and heavy rain, volunteers reported to the schools and churches where they started cleaning up broken glass and debris, and covering windows to prevent further damage. Residents also checked for damage in homes and businesses where people were absent from home, and also checked homes of semi-shut-ins and the elderly.

Insurance adjusters began to arrive in Winters over the weekend, and by late Monday, there were at least 25 or 30, working to determine the damage and begin preparing claims. Insurance agencies were working overtime this week processing paperwork preparatory to making adjustments.

Because of the extent of the damage, insurance people estimate that it will take several days to process all the claims.

Roofing and repair contractors started arriving in Winters Friday morning after the hailstorm, and emergency work was started immediately. By Monday, several contractors with many crews were working during most of the daylight hours, making roof repairs and installing glass. Most concen-

## Robert L. Stathem Received Degree At Angelo State

Robert L. Stathem was one of the 280 graduates honored in Commencement exercises May 24, at Angelo State University.

Stathem received a Bachelor of Science degree with a double major in Distributive Education and Business Management.

His wife is the former Adalene Williams and his parents are Mr. and Mrs. John Stathem of Shreveport, Louisiana.

trated on emergency repair work at the start.

It is impossible to estimate the extent of the damage to crops in this area. Much of the 1969 wheat crop had been harvested, but the rest has been a complete loss in the immediate area, it was reported. Milo and cotton were completely destroyed, with very little time for replanting. It was said that if cotton is planted right away, there would be a good chance for a late crop, depending on when frost comes in the fall.

It will be several months before Winters recuperates from this blow, but most people are continuing a "business-as-usual" routine, plus the extra work necessary to put the town and community back in shape.

HOMER HODGE JR.  
... Lions Club President

## Homer Hodge President Of Lions Club

Homer Hodge, owner of the State Theatre, Sparkle-Lite, Inc., and Hodge Enterprises, was installed as president of the Winters Lions Club Tuesday during installation of officers for 1969-70.

The new Lions president succeeds Lee Harrison in that office. Harrison recently was appointed Zone Chairman for this Lions Club zone.

Hodge is the first man to follow in the footsteps of his father as president of the Winters Lions Club. The late Homer Hodge Sr. was president of the local Lions Club in 1942-43.

Installed as first vice president was Ted Meyer; second vice president, Gene Wheat; and third vice president, George Beard.

Other officers installed were B. J. (Jake) Joyce, secretary-treasurer; George Garrett, Lion tamer; Tommy Chambliss, tail-twister; B. G. Owens, thought for the day.

Betty Knight, who will be a senior student in Winters High School next fall, is the new Lions Club Sweetheart, succeeding Glenda Cooper.

Incoming members of the board of directors are Carroll Tatom, Harry Herman and Rankin Pace. Holdover directors are Marshall Wharton, Buford Baldwin and Marvin Okken.

J. W. Bahlman, past president of the Winters Lions Club, past Zone Chairman, and past District Deputy Governor for District 2A-1, is the installing officer. He spoke on Lionism, and presented a gift to the retiring Club Sweetheart. He also presented a past president's plaque to the out-going president, Lee Harrison, and an engraved president's gavel to the new Lions president. Bahlman also presented to the new president a diamond president's tie clasp, which is handed down from the immediate past president to the new president. The tie clasp was presented to the president's office by a member about nine or ten years ago.

The new president, Homer Hodge, and Rankin Pace, a member of the board of directors and a past president of the local Lions Club, will leave Sunday for Tokyo, Japan, where they will attend the annual convention of Lions International. They will be accompanied by their wives.

## SINGING AT SHEP

Regular singing will be held at the Shep Community Center Monday night, June 23. Everyone is invited.

HAPPY BIRTHDAY—Mrs. Agnes Lawrence, president of the Women's Industrial Club, presents a birthday cake to the Winters Lions Club on the occasion of the club's 45th birthday Tuesday, June 10. Accepting the cake were Lee Harrison, president of the Lions Club, and John Norman and B. G. Owens, two of the oldest members in membership. (Staff photo)

C of C Committee On Industrial Development Here

Woodrow Watts, president of the Winters Chamber of Commerce, has named a special committee to study industrial development here.

The committee will determine whether there is a need for formation of an industrial foundation, and to determine what else should be done in order to lure additional industry to Winters. They will make their recommendations to the board of directors of the Winters Chamber of Commerce.

Members of the special committee are T. A. Smith, Carroll Tatom, Ray Alderman, J. P. Dry and J. W. Bahlman.

FROM ILLINOIS

Mr. and Mrs. G. H. Frohreich and children, Debra, Gretta, Kurt and Abby of Moline, Illinois are visiting in the home of her mother, Mrs. D. A. Dobbins and with other relatives and friends here. Mrs. Frohreich will be remembered here as Frances Dobbins.

IN SMITH HOME

Mr. and Mrs. Berton Etheridge of Roby, and Theresa and Debra Gantt of Houston visited Monday with Mrs. C. G. Smith.

ITCHING, SWEATY FEET HOW TO STOP IT.

Caused by a germ. Kill the germ, you stop the itching, sweating. Ordinary antiseptics are no use. Apply T-41. POWERFUL GERM KILLER for itchy, sweaty feet, foot odor. If not pleased OVERNIGHT, your 48c back at any drug counter. TODAY at MAIN DRUG CO.

Cantaloupe Are Plentiful And Low In Price

College Station. —Fresh fruits and vegetables highlight the food market. Look for cantaloupe, plentiful and low in price, and honeydew and watermelons which are moderately priced.

Mrs. Gwendolyn Clyatt, Extension consumer marketing specialist, adds that bananas are featured in many stores to save on the food bill. Oranges, grapefruit, apples and avocados are moderately priced.

Early season peaches, plums, apricots, cherries and blueberries are available at relatively high price levels, the specialist says.

At the meat counters, beef prices remain high, especially for steaks and other quick-cooking cuts. To economize, look for beef chuck, round and other cuts in less demand.

Pork prices are up with hams, bacon, picnics and Boston butt roasts among the most reasonable in price.

Fryers and turkeys remain a number one bargain in most meat departments although the supply is down. Grade A large size eggs offer the most quality and economy for egg money.

In the vegetable market, sweet corn couldn't be better, says Mrs. Clyatt. Head lettuce quality has improved. Red potatoes, squash, tomatoes, purple hull peas, blackeye peas, snap beans, green onions, radishes, carrots and dry yellow onions are good choices pricewise, she adds.

One needs common sense to succeed, and a sense of humor to be happy.

Grey cloth is cotton cloth in a rough, unfinished state.

MRS. THOMAS RANDALL JONES

Phyllis Jan Awalt, Thomas Randall Jones Married At Baptist Church

Mr. and Mrs. Thomas Randall Jones will be at home in Tempe, Arizona after June 22, when they return from a wedding trip to Colorado and parts of Wyoming.

Phyllis Jan Awalt, daughter of Mr. and Mrs. Charlie Awalt, became the bride of Thomas Randall Jones, Sunday, June 15, when they recited their marriage vows at the First Baptist Church at 2 o'clock in the afternoon.

Parents of the bridegroom are Mr. and Mrs. E. S. Jones of Greeley, Colorado.

The Rev. Harry T. Martin of Abilene, pastor of the Pumphrey Baptist Church, officiated for the double ring ceremony before the altar setting of graduated candelabra, entwined with greenery and bridal wreath, holding white lighted tapers. Baskets of white gladioli were at either side of the altar.

Randy Stevens, organist, accompanied Mrs. Larry Awalt of Abilene who sang "More"; "Whither Thou Goest", and "The Lord's Prayer".

Kimberli Awalt, and Shane Awalt, niece and nephew of the bride, both of Abilene, were flower girl and ring bearer, respectively.

Ed Jones of Seattle, Washington, served his brother as best man. Larry Awalt of Abilene and Jerry Awalt of Wingate, seated the guests. Groomsmen were Bill Harris, San Antonio; Kelton Jones and Richard Crow, both of Lubbock and Glynn Awalt, the bride's brother, of Dallas.

Joy Awalt, sister of the bride, was maid of honor. Bridesmaids were Jan Merck of Austin, Cynthia De Boe of Houston, Mary Morgan of McAllen and Mrs. Kelton Jones of Lubbock.

Feminine attendants wore full length gowns of turquoise satin, fashioned with scoop neckline, short bell sleeves of matching lace and large bows in the back. Their short veils of tulle fell from a cluster of turquoise roses and they carried Colonial bouquets of feathered white carnations with turquoise streamers.

Given in marriage by her father, the bride wore a wedding gown of chantilly lace fashioned scooped neckline, long sleeves extending to a point at the wrists, detachable chapel length train of tulle, bordered with dual bands of lace enhanced with sequins. Her veil of illusion fell from a tiara of seed pearls. She carried a white Bible topped with a cascade of gardenias and gladiolas with net and puffs of ribbon.

A reception in the church parlor was hosted by the bride's parents.

The bride's table, laid with white linen featured a three-tiered wedding cake, topped with miniature bride and groom and decorated with white and turquoise rose buds, wedding bells and slippers of confection. The bridesmaids bouquets were used as floral adornment to the table. Mrs. Ed Jones of Seattle, Washington, ladeled punch and Mrs. Bill Harris of San Antonio served cake.

The bridegroom's table, laid with white linen, outwore over turquoise, was centered with a gold candle holder and turquoise candle. Mrs. Charles Awalt of Abilene poured coffee from a China service and Mrs. Jimmy Simpson served chocolate cake squares.

Guests were registered by Dianne Byrd.

Others in the house party were Mrs. Virgil Awalt, Mrs. Deward Awalt, of Winters; Mrs. Lillian Awalt and Janet Awalt from Arlington; Mrs. John Craven of Austin; Mrs. A. N. Blackerby; Mrs. Marvin Bedford and Kei Bedford of Winters.

For traveling the bride changed to a yellow knit semi-princess dress with white accessories and wore the gardenia corsage from her bouquet.

Graduate of Winters High School, the bride has been employed in Abilene with Dempsey-Tegler Stock Exchange before entering Texas Technological College in Lubbock.

The bridegroom graduated from high school in San Antonio and from Texas Technological College in Lubbock with a degree in Industrial Engineering and is employed with Western Electric in Tempe, Arizona.

HEALTH LETTER

Summer officially arrives on June 21, and the intense hot weather ahead calls for a few simple health rules which can make it more bearable, says the Texas State Department of Health.

First of all, avoid heavy, fat-loaded meals. They're difficult to digest during hot weather. Emphasize fruit and vegetables on your summer menu rather than protein foods—eggs, fish and meat—which your body needs for fuel during winter months.

Perspiration helps cool the body, but at the same time it drains the body of vital fluids. To replace these fluids, drink plenty of water or other liquids. Fruit juices are a pleasant way to make up the loss. But don't gulp down large amounts of ice water when you are overheated.

The body also loses salt thru perspiration. Replace your salt loss at meals, or if your work or exercise causes you to sweat profusely, take salt tablets—about one every half hour with a glass of water.

Parents can place extra salt in children's diets with salted nuts or crackers plus a little added salt during meals.

Your clothing plays an important role in keeping cool. Loose, light clothing is highly recommended for summertime wear. Normal body temperatures are dependent on the evaporation of sweat.

Avoid wearing clothes that inhibit evaporation. Also, remember that white or light colors are cooler than dark ones, since they do not absorb hot sun rays so readily.

Exercise is an essential part of a well-rounded, healthy life, but it can easily be overdone in the summer. Use common sense and start gradually if you are initiating a summer exercise program. Also, confine any

Swim Lessons Begin Monday

Swimming lessons will begin at the Winters Municipal Pool Monday, June 23, according to Jerry Neely, who is operating the pool for the City of Winters. Lessons for children six and under will begin at 9:30 a. m., with instruction for others to begin at 1:30. This series of instructions will continue through Friday, June 27.

Deadline for signing up for the swimming lessons will be Saturday, June 21. Cost of the instruction will be \$10.

long periods of hard yard work or active tennis games to the cooler parts of the day.

All in all, summer can be one of the most enjoyable seasons of the year . . . provided you use your head as well as your body.

OL' MULES' LAZY BUT SMART - KEEPS STOPPIN TO SEE IF HE HEARD ME SAY 'WHOA!'

FROM SAN ANTONIO

Mr. and Mrs. Charles Bahlman of San Antonio were weekend visitors in the home of his parents, Mr. and Mrs. J. W. Bahlman.

Swimming is one of the best summer sports, provided the proper safety rules are followed—including not swimming alone, getting chilled, waiting at least an hour after meals and avoiding tiredness.

Anyone who thinks education is compulsory does not have many children in school.

### James C. Kiefer Died In Angelo Friday Evening

James C. Kiefer, 85, died at Baptist Memorial Geriatric Hospital in San Angelo at 8 p. m. Friday, June 13, following an illness of several weeks.

Funeral services were held at 2 p. m. Sunday from Spill Memorial Chapel in Winters with the Rev. Walter C. Probst Sr., pastor of St. John Lutheran Church, officiating. Burial was in Fairview Cemetery.

James C. Kiefer was born in Karlsruhe, Germany, Sept. 15, 1883. He came to the United States with his parents at the age of three. The family settled in Seguin, and in 1906 moved to Winters, settling on a farm west of town. In the early part of 1907 he married Mattie Germany at Roscoe. Mrs. Kiefer died in 1950.

For many years Mr. Kiefer lived in California, and in 1965 moved to San Angelo to be near his children.

Surviving are two sons, Fritz and Carl Kiefer, both of San Angelo; two daughters, Mrs. Euda B. Isaacs and Mrs. Dorothy Faye Yates, both of Austin; one brother, Max C. Kiefer of Rochester; one sister, Mrs. Louis Ernst of Winters; a sister-in-law, Mrs. Emma Kiefer of Winters; 12 grandchildren and 8 great-grandchildren.

Funeral services were held Wednesday at 2 p. m. from Spill Memorial Chapel for Mrs. James F. Gardner, 79. The Rev. Harry Grantz, pastor of the First Baptist Church, officiated, and burial was in Fairview Cemetery.

### Mrs. J. F. Gardner Died In Lamesa Tuesday Morning

Mrs. Gardner died in Lamesa early Tuesday morning following an illness of several months.

She was born Ethel Edna Hughes, May 2, 1890, in Seattle, Washington. As a small child she came to Winters with her family. For a number of years she made her home at 212 Church street, and moved to Lamesa due to ill health in late 1966.

She was married to James F. Gardner in November, 1939, at Winters. Mr. Gardner died in 1950.

Mrs. Gardner was a member of the First Baptist Church.

Surviving are two stepsons, F. D. Gardner of Winters, and C. O. Gardner of Corpus Christi; four brothers, H. A. Hughes and Arnold Hughes, both of Lovington, N. M.; and Pratt Hughes of Alamogordo, N. M.; two sisters, Mrs. Jenny Short of Los Angeles, Calif., and Mrs. Mattie Arrant of Tyler; and three grandchildren.

Funeral services were held Wednesday at 2 p. m. from Spill Memorial Chapel for Mrs. Mary Onxley of Fort Worth, Mrs. Jerry Carey, sister of the bridegroom, of Baytown, Barbara Fisher of San Antonio, Janet Fisher of Fort Worth and Janeve Council of San Antonio.

The bride's table and also the bridegroom's table were laid with white lace cloths and centered with candelabras and floral arrangements. The bride's cake was a three-tiered white decorated in yellow. The groom's cake was a double ring chocolate.

### Social Security Claims Should Be Filed Early

Want to be sure your first social security check reaches you on time when you retire? According to Ted F. Moellering, social security district manager, here is how you can do it.

File your claim early. You are allowed to apply for benefits as much as three months before your first check is due. The earlier you apply during those three months, the better. Mr. Moellering said everyone is urged to go to the office early to allow ample time to resolve any problems or questions before payment is due.

Be sure to take your social security card with you. The number on it is the key to your benefit payments. Don't rely on your memory or anything else. The number has to be accurate.

Take last year's W-2 form or tax return and be sure you know how much you have earned this year. There may not have been enough time for your earnings last year and this year to get on your official record; so, the local social security office will put them on record for you if you bring evidence of them.

Next, bring something to prove your age. Best evidence is an original birth certificate (not delayed) or a baptismal record made before you were age 5. If you don't have either of these records, try an original family Bible where your parents entered your date of birth, an old insurance policy, an early school record, a marriage record, or early census record. If you have more than one of these records, take them all. Generally, the older the record, the better it is.

Mr. Moellering said it generally takes six to eight weeks to process a claim for benefits, but it might take longer if you have

### Baptist Church Mary SS Class Met In Perry Home

Members of the Mary Sunday School Class of the First Baptist Church met recently in the home of Mrs. Butch Perry with Mrs. Gayland Robinson serving as co-hostess.

Roll call was answered with Bible verses and Mrs. Jim Gehrels conducted the business meeting.

Mrs. Gehrels, with the assistance of Kathy Hicks, Kathy Gehrels, and Denise Rodgers, gave an interesting devotional on "A Christian on the Witness Stand for Christ."

Mrs. Gayland Robinson closed the meeting with prayer.

A White Elephant sale was held following the meeting and the proceeds of the sale are to go toward the India Crusade.

Refreshments were served to the following: Mesdames Dennis Rodgers, Bud Busher, Bill Chapman, Wayne Solomon, Jim Gehrels, Jim DeBerry, Preston Barker, Jim Cowlishaw, Elmer Phillips, Jim Bailey, Doyle Newcomb, the visitors, Mrs. Nell Brownlee, Kathy Hicks, Kathy Gehrels, Denise Rodgers, and the hostesses.

### Credit Cards Are Hazardous

What would happen if you lost your wallet? Could someone go on a shopping spree at your expense?

This is one hazard of the new credit world, points out Mrs. Doris Myers, Extension home management specialist at Texas A&M.

Record names and addresses of credit card companies so you can phone and write to them to stop use of the cards. List, too, licenses and other items kept in your wallet.

Keep the list in a safe place for emergencies, advises Mrs. Myers.

### Card of Thanks

My family joins me in expressing thanks to the friends and neighbors who were so kind and thoughtful during my recent illness. A special thanks to Dr. McCreight, the hospital staff and to those who sent cards, letters and expressed concern for my recovery, for your prayers and visits while I was a patient in the hospital and since I have returned home. We shall always remember your kindness with grateful hearts.—Henry Vogler.

### Pasture and Forage crops short course — New grasses, weed and brush control and forage programs for beef and dairy producers will feature the program for the annual Pasture and Forage Crops Short Course to be held at Texas A&M Uni- versity June 26-27. A. C. Novo- sad, Extension pasture special- ist, said the formal program will begin at 1:30 p. m. on June 26 in A&M's Memorial Student Center. It is sponsored by A&M's Crop and Soil Sciences Department and is open to any person interested in improving forage production on his farm or ranch.

MRS. MICHAEL LYNN DEIKE

### Elizabeth Elaine Russell, Michael Lynn Deike Pledge Vows in Ft. Worth

Marriage vows were recited at Trinity Lutheran Church in Fort Worth Saturday June 14, at 1:30 p. m. uniting Elizabeth Elaine Russell and Michael Lynn Deike.

The bride is the granddaughter of Mr. and Mrs. Wm. Ross Russell Sr. of El Paso, and the bridegroom is the son of Mr. and Mrs. Fritz Deike of Winters.

The double ring ceremony was read by Pastor Ron Birk before the altar decorated with ferns, gladiolas and candelabras holding lighted tapers.

Pastor Gailand Kneten of Trinity Lutheran Church was officiant.

Michael G. Burk of College Station was best man. Wm. R. Russell Jr., of Houston, the bride's brother and James R. Onxley of Fort Worth, seated the guests. Groomsmen were Edwin Deike, brother of the bridegroom from Winters and Fred Minzenmayer of College Station.

Mary Ruth Reitor of Cactus was maid of honor. Bridesmaids were Sandra Jones of San Angelo and Mrs. Mary Lynn Russell of Houston.

The attendants' gowns were yellow skirts with white lace bodice fashioned with square necklines and puffed sleeves. Their hats were trimmed with yellow grograin ribbon and they carried a cascade of yellow carnations.

Presented in marriage by her grandfather, the bride wore an empire gown of organza with chintilly lace studded with pearls encircled the oval neckline and appliques of pearl trimmed lace enhanced the front of

the skirt. The Watteau chapel train of chintilly lace was scalloped at the edge. She carried a cascade bouquet of white carnations and yellow rosebuds.

A reception was held in the church fellowship hall.

Members of the house party were Mary Onxley of Fort Worth, Mrs. Jerry Carey, sister of the bridegroom, of Baytown, Barbara Fisher of San Antonio, Janet Fisher of Fort Worth and Janeve Council of San Antonio.

The bride's table and also the bridegroom's table were laid with white lace cloths and centered with candelabras and floral arrangements. The bride's cake was a three-tiered white decorated in yellow. The groom's cake was a double ring chocolate.

For traveling the bride changed to a blue sleeveless sheath linen dress with beige accessories. She wore the yellow rosebud corsage from her wedding bouquet.

The bride is a graduate of El Paso Bel Air High School and Texas Christian University with a BS degree in nursing. She was named student nurse of the year the past three years. She will be employed as a nurse in a hospital in Bryan.

A Winters High School graduate, Deike holds a BS degree in plant and soil sciences from Texas A & M University. He was named outstanding agronomy student the past two years. He holds memberships in Alpha Zeta, Gamma Sigma Delta, Phi Eta Sigma, and was named King Cotton at the annual cotton Pageant this spring. He is presently doing graduate work at A & M.

## Chiggers Just Waiting For Someone to Bite

College Station, —Chiggers, alias "redbugs" or "jiggers," are looking forward to the season when vacationers migrate to recreation areas. The seasonal influx furnishes fresh hosts for the tiny mites and the pests leave their hiding places in grass, weeds and woods to attack picnickers and campers, says Weldon H. Newton, associate Extension entomologist at Texas A&M University.

Chiggers have four stages in their life cycle—egg, 6-legged larva, 8-legged nymph and 8-legged adult. Eggs laid by the female hatch into immature chiggers called larvae. The larval stage is the only troublemaker, being parasitic on man and other animals. Only the larva attacks man and other warm-blooded animals.

Upon coming in contact with man or animal, the larvae move about in search of a suitable location to feed. The preferred locations are those parts of the body where clothing fits tightly or where the flesh is thin, tender or wrinkled.

Chiggers attach themselves by inserting their mouthparts into the skin. In feeding, they inject a fluid into the skin which liquefies the tissue. This injected fluid causes reddish welts, swelling, itching and (in some persons) fever, added Newton. Before going into areas where chiggers may be present, protect yourself against them by using a repellent. Some repellents are also effective against mosquitoes and some other insects. Long lasting protection can be obtained by impregnating clothing with a diluted repellent or by spraying an undiluted repellent on the clothing. Dusting sulfur has been used for many years as a repellent. It is effective, but somewhat less so than some of the others.

Winters, Texas

AUSTIN, TEX. —Gov. Preston Smith plans to answer the state's big money question Friday (June 20).

He is expected to announce on a statewide television hook-up whether he will veto the Legislature's one-year budget bill and if so, when the special session to mop-up the unfinished finance job will be scheduled.

At noon the following day, the Governor will present further views on the subject when he addresses the 90th Annual Summer Convention of the Texas Press Association at Saturday's luncheon at the Inn of Six Flags in Arlington.

Fate of the \$60.4 million teacher pay raise hangs delicately in the financial balance which Smith can tip in several directions with a flick of his veto pen.

State officials are having a hard time agreeing on just how much money is coming in during the next year—and whether there will be enough for both the salary hike and the \$2.8 billion one-year budget.

As though the situation were not complicated enough already, Smith could throw it out of balance by vetoing any one or more — of five revenue-raising bills before him. Or he could square it up again by line-item-vetoing of spending proposals.

He can, of course, veto the entire one-year bill and call legislators back to work promptly on a two-year budget. Many expect him to do just that.

### BILLS CHALLENGED

Governor Smith left up in the air the fate of 41 bills and 13 concurrent resolutions passed at the last minute by the recent Legislature. He challenged their validity on two counts.

Smith said the measures—one of which created 28 new district courts—were not signed in the presence of the House and the Senate by the lieutenant governor and the speaker as required by the constitution. He contended that they were signed after the Legislature already had gone home. In addition, they reached him seven days later than they should.

A thorough study will be made of their legal status before he acts, pledged Smith. Legislative leaders contend that a logjam of bills caused processing delays that are common place at the end of sessions. They say that other governors have not complained.

### EDUCATION

Twenty-three college and university educators from around the state have sent Governor Smith a letter asking that he not veto the bill that will increase the cost of education to students by \$10 a semester. They are the presidents and chancellors of the various state supported schools. They point out that vetoing the bill will cost the state \$4 million a year.

State Board of Education has appointed fifteen representatives from the state's educational profession—including college administrators, classroom teachers, superintendents and principals—to a commission to study standards for the preparation of school administrators. Appointments are for two years and the group is charged with finding ways to train the people who will eventually run the school systems.

Governor Smith has announced the establishment of three continuous programs of meetings and conferences with high school, college and non-student young people in order to gain "positive understanding and solution to the main problems facing our state."

These three new organizations include: the Governor's Conference of College Leaders, to consist of college and university student body presidents and other campus leaders; the Governor's Hall of Honor of the Texas Youth Conference, made up of all presidents of major high school youth organizations in the state; and a Governor's Council on Young People, concentrating on the out-of-school young people, emphasizing career problems and an understanding of the democratic system.

Boy's State, sponsored by the American Legion, and Girl's State, sponsored by the American Legion Auxiliary, both aimed at teaching top high school students the ways of Texas government on a "learn by doing" theory, held their annual meetings in Austin.

**BOND CAMPAIGN MAPPED**  
Committees to ramrod a campaign for a \$3.5 billion water development bond issue have been formed under the direction of Governor Smith and former Governors Allan Shiv-

ers. Price Daniel and John Connally.

Smith called for a statewide education campaign, warning that the state "stands on brink of water deficiency" unless an imaginative, positive program is carried out.

Austin Attorney and former Ambassador to Australia, Ed Clark, heads the finance committee. Barnes will be chairman of the senate participation and House Speaker Gus Mutscher directing activities of state representatives. Membership in overall campaign committee includes all but nine Texas legislators. Legislative "holdouts" include two senators and seven representatives.

### COURTS SPEAK

An Amarillo woman won a Supreme Court order of a new trial in her suit against a doctor for malpractice. Court said the doctor should have called in a specialist.

Supreme Court agreed that the city of Houston should get a new trial of its suit to force the Houston Independent School District to pay building inspection fees.

A Nueces County oilfield worker hurt in a well-testing accident got Supreme Court approval of a \$74,598 judgment.

A former Richmond State School superintendent filed a \$160,000 federal court lawsuit against state hospital-school system officials, claiming he was dismissed from the job for political reasons.

### DREDGE PRICE PROPOSED

Parks and Wildlife Department personnel suggest a price of 10 cents a cubic yard for fill material dredged from shallow coastal waters for shoreline buildup.

Not only the price, but the whole idea of dredging ran into criticism at public hearing.

### APPOINTMENTS, HONORS

Governor Smith appointed C. B. Maynard of Bastrop, judge of the 21st judicial district, filling the unexpired term of the late Judge John S. Simmang of Giddings.

Rep. Ray Lemmon of Houston was the special representative of House Speaker Gus Mutscher at the Marine Technical Society's convention of Oceanography held Monday at Miami Beach.

Mrs. Malcolm Milburn of Austin has announced as a candidate for vice chairman of the Republican Party of Texas. State Education Commissioner Dr. James W. Edgar was presented the first Civil Air Patrol Aerospace Education Leadership Award.

### LCB RULES ATTACKED

New Liquor Control Board rules for operation of private drinking clubs face a court attack.

Suit was filed in district court here by two Dallas club operators. They protested in particular prohibitions on cash sales and strict limitations on guest card provisions. Rules, they argued, would close about 75 per cent of clubs now operating.

### SHORT SNORTS

In reply to a request by Comptroller Robert S. Calvert, Attorney General Crawford Martin ruled that a bill giving state financing to the program of student teaching is not effective until Sept. 1, 1970.

Texas Railroad Commission has reset for July 7 hearing on 26 applications for agricultural haulers' permits on a request by the applicants' attorney.

Governor Smith told a state Beautification Conference in Austin that the state spends \$2 million a year in picking up trash on highways.

First Texas project under a new cooperative plan to increase capacity and safety of streets and highways in urban areas (installation of ramp metering equipment for a free-way control system on 10.2 miles of US 75 in Dallas) will be let to contract this month by the Texas Highway Department.

Users of water from public streams must record their claims with the Water Rights Commission by September 1 (Domestic and livestock users are exempt).

State Securities Board issued more permits in May for the sale of securities than in any previous month in history.

Our opinion of people depends less upon what we see in them than upon what they make us see in ourselves.

Accepting good advice is but to increase one's own ability.

## Living Screens For Outdoor Privacy

It is not too late to plant that shrub border or screen if balled and burlapped or container grown plants are used.

A screen is frequently needed, explains Everett Janne, Texas A&M University Extension horticulturist, to provide privacy, hide an objectionable view, serve as windbreak or to reduce traffic noise. Rather than using a masonry wall or board fence around the entire area, the same effect can be achieved with a living screen of plants.

In order to be attractive and effective, a shrub border should be fairly uniform in height, density, and growth rate. This can be achieved by using several plants of the same species before changing variety. For example, locate five or seven yucca in a group or row, then continue with another cluster of pyracantha or Burford Holly, suggests Janne.

If a longer border or screen is required, a third choice of shrubs could be used or the yucca repeated. For shorter borders requiring less than eight shrubs, the best effect can be obtained by using the same species throughout the planting.

Shrub borders containing plants with colorful fruit will add interest to the winter landscape and provide food for the winter birds. Because of their size pyracantha, Burford Holly, Photinia and glossy privet are better suited for screens and border plantings as they can develop to their natural shape and beauty. Too often they are used as foundation plantings where they must undergo constant pruning to keep them within bounds, reminds the landscape horticulturist.

A cluster of small trees can add a pleasant change to shrub borders. Tree groupings can be effectively used at the corner of the yard or to visually break an overly long line of shrubs. Flowering crabapple, eastern redbud or other flowering trees can be used for this purpose. In an area where an unusually tall screen is needed, the Carolina Laurelcherry is a good choice.

A living screen is unfortunately slower in providing protection than a fence or wall but it usually creates a more pleasing enclosure and is often better at reducing the force of the wind. A combination of fence and plant border in large yards will usually provide a pleasant solution to the problem, concludes Janne.

A jest that comes too near the truth leaves a sting behind.

## Open House In Baldwin Home Sunday To Honor Mrs. Mozelle Jensen, Alaska

An all-day open house, to honor Mrs. Mozelle Pumphrey Jensen of Fairbanks, Alaska, will be held in the home of Mrs. Lonnie Baldwin, 512 West Dale Street, Sunday, June 22. Friends are invited to call.

Mrs. Jensen is a teacher in Fairbanks, where she has lived for 12 years. Her husband is employed by the City of Fairbanks. She was formerly a teacher in the Crews School.

## Six Band Students To McMurry School

Six band students from Winters will attend the 22nd annual McMurry College Band and Twirling School in Abilene July 13-26.

The band school, directed by Dr. Raymond T. Bynum, McMurry's veteran bandmaster, features two weeks of intensive emphasis on band and individual instruments for college and high school players. The school annually draws hundreds of students from the West Texas and New Mexico areas.

Attending the band school from Winters will be Lou Ann Cole, Mary Jacob, Becky Brown, Roger Nichols, Keva Harrison and Holly Middleton.

Cotton corduroy now comes in ribless versions.

## Joan Louise Ahrens, Dwight McDonald To Be Wed At Lutheran Church Aug. 2

Mr. and Mrs. W. W. Ahrens have announced the engagement and approaching marriage of their daughter, Joan Louise, to Mr. Dwight McDonald, son of Mrs. Doyle H. Nichols of Portage, Indiana, and Mr. Gordon McDonald of Eldorado.

Miss Ahrens, a graduate of Ballinger High School, is a senior student at Angelo State University. She is presently employed as a teacher's aid in the Head Start program in Winters.

Her fiance is a graduate of Eldorado High School and is also a student at Angelo State University. He is at present employed at a discount center in San Angelo.

The couple plans to be married August 2, in St. John's Lutheran Church in Winters.

A SUPREME COURT ruling that public school officials may not interfere with students' rights to express political opinions in a non-disruptive way during school hours brought a strong protest from Justice Hugo L. Black, who said the ruling would encourage students to demonstrate and would embroil the Supreme Court in public school affairs. Black was joined in his dissent by Justice John M. Harlan.

KATHARINE HEPBURN has become the first actress—or actor—to win a third Academy Award. Her Oscar this year was for her role as Eleanor of Aquitaine in "The Lion in Winter." She won her first award in 1932 for "Morning Glory" and her second in 1968 for her portrayal in "Guess Who's Coming to Dinner."

coming decade. Life insurance, apparel, and education are three important groups that serve those under 30. Life insurance programs are usually undertaken when a couple assume the financial responsibilities of family life.

The current young set have become very fashion-conscious and are leaders in setting the trends for the apparel industry. Cosmetics fit the same mold. Another beneficial factor is the expected increase in personal income. As income rises, a greater percentage is spent on clothing and cosmetics. Leisure-time industries which have been doing well in the latter part of the sixties will continue to thrive into the seventies.

**Future Technology**

With the great technological advances that have occurred in recent years, some may wonder what is coming for an encore. We foresee many new ideas and improvements in the seventies. Synthetics and plastics represent the brightest segment of their many still untapped uses—apparel, construction, and containerization among others. Nuclear power, despite present high costs, provides an almost unlimited source of energy for the future. The mini-computer and more advanced peripheral equipment offer the computer industry great potential during the coming decade. Time-sharing has grown tremendously in the past year and will continue to do so as many new applications are devised to help even the small businessman in this computer age. Facsimile reproduction is another part of the office equipment field that appears to have a great future.

The ocean and the sky will receive increasing exploration during the seventies. People will visit the moon on a regular basis by 1980, perhaps living there for extended periods, engaging in basic scientific research.

There will be great demand for solutions to air and water pollution problems and for new and better methods of rubbish disposal. Medical science can be expected to astound us with cures for heart disease, cancer, and even the common cold.

The start of a new year is like a marathon; there are multitudes of entrants, but at the finish there are but a few.

A great deal of talent is lost in this world for the want of a little courage.

## BABSON'S POINT OF VIEW

### THE SIZZLING SEVENTIES

During the decade of the seventies we anticipate a growing quasi-peace-time economy with moderate but acceptable inflation. The Nixon Administration is already committed to slowing the inflation even if it requires a "mini" recession. The American public is now demanding peace. The Administration must create at least a quasi-peace, but it is doubtful whether we will be completely out of the Far East even by 1980. With these basic premises, the Babson's Reports Research Staff envisions a growing economy during the seventies.

### Increasing Population And Income

Another population explosion is in store for the coming decade. The World War II baby boom peaked during the 1950's, and these postwar children are beginning to reach the family-forming stage. While better

family planning—including various birth control measures—has resulted in a lesser number of children per family, current figures show a turn upward in the average number of offspring. Personal income will continue to rise, but not as fast as it has during the latter part of the sixties. We anticipate that average income will reach \$10,000 by 1980. We also foresee a four-day week and longer vacations.

With the increase in family formation already starting, the building industry will have to keep pace. During the next decade the demand for housing of types will necessarily result in a building boom. New types of construction (primarily modular) and materials (plastics) will be important growth factors. Home accessories will also share in this building boom.

### Younger Influences

Since the average age of our population is getting lower, and youth is becoming a more dominant part of our economy, those industries which serve this segment of our population should do well during the up-

## Lily Clidene Sanders, Elbert Dale Holder To Be Married June 21st

Mr. and Mrs. Clide Sanders announce the engagement and forthcoming marriage of their daughter, Lily Clidene, to Mr. Elbert Dale Holder.

Miss Sanders, a senior at Texas Woman's University, is the daughter of the late Agnes Lewis Sanders and the granddaughter of Mrs. John S. Sanders of Winters.

Mr. Holder is the son of Mr. and Mrs. Albert (Buck) Holder of Santo, Texas, and attended Weatherford Junior College.

The wedding date has been set for June 21, at the First Baptist Church of Santo.

Most Texas lakes and streams have more open water than brush. However, there are some new ones in East Texas where the brush and trees are so thick the only direction you can see is up.

These brush infested lakes are Toledo Bend, Rayburn, Murval, Lake-O-Pines, Texarkana and a few others.

Same goes for the streams that flow from the dams. They include the Sulphur river, Cypress, Angelina and even the Sabine.

Each has its share of fine bass. But each also is difficult to fish unless you possess the know-how of brush casting.

Brush and foliage necessitate a different approach by lure fishermen. You can't cast nearly so far and almost everywhere you turn you are faced with the ever present danger of losing more lures.

One of my fishing friends, L. A. Wilke of Austin, has some ideas that may be helpful to you. He likes to fish submerged tree tops in Rayburn and Toledo Bend. Naturally there is enough open water where you can operate your boat along the edges of the timber, but he likes to get far enough back to get lost.

In these places regular 5 1/2 or 6 foot rods are rather difficult to use. That is unless you are an expert flip caster. Although some of the so-called experts will tell you that flip casting is for exhibitions, it does come in mighty handy in brush fishing... especially if you must use a rod of regular length.

Wilke first tried a custom-made stick called the Husky. It is about four feet long. But the action was a little stiffer than he liked. Same for the Stubbcast.

So he decided to wrap a rod of his own design, but short enough to fit into his rod case for jointed rods, with handle removed. To space the guides he went to the tip section of a 7-foot salt-water spinning rod for measurement.

Suddenly he realized that this half-rod was just exactly what he needed for a short casting stick for the brush. He rigged it up into a Zebco handle and added a Zebco 33 reel. Now he has a rod he can cast in tight

MRS. JACKIE NELSON DUKES

## Miss Rita Lois Schwertner, Jackie Nelson Dukes Pledge Vows Saturday

Miss Rita Lois Schwertner became the bride Saturday of Jackie Nelson Dukes in a ceremony in the Sacred Heart Cathedral in Miles. Officiating was the Rev. Fred Nawarskas.

The bride is the daughter of Mr. and Mrs. Gus Schwertner of Miles. Parents of the bridegroom are Mr. and Mrs. Nelson Dukes of Paint Rock.

Serving her sister as maid of honor was Miss Yvonne Schwertner of Miles. Bridesmaids were Mrs. William N. Schniers, sister of the bride, of San Angelo, Miss Nancy Grundy of Winters, Miss Joan Beach and Mrs. James Eggemeyer, both of Miles. Flower girl was Miss Michele Schniers, niece of the bride, of San Angelo.

Best man was Tony Dukes of Paint Rock, brother of the bridegroom. William N. Schniers of San Angelo, Kenneth Kothmann of Houston, Doyle Urban of Lowake, and James Eggemeyer of Miles served as groomsmen. Seating the guests were Jimmy Hughes, Curtis Doyle, and James Feist, all of San Angelo, and Micheal Ocker of Rowena. Ringbearer was Brian Dierschke of San Angelo, nephew of the bride.

Organist was Mrs. Danny Slaughter of San Angelo, and soloist was Miss Brenda Treadaway of Miles.

The bride's gown was designed and made by the bride and her mother. The gown was of silk organza over peau de soie and hand-clipped Alencon lace. Pearl and crystal encrusted motifs were applied on the empire bodice, bell sleeves, A-line skirt, and the removable cathedral-length train.

The bride is a graduate of Miles High School and Angelo State University where she was a member of the Newman Club, Student Education Association, Mathematics and Engineering Club and on the Dean's List. She was formerly a teacher in the Winters Public Schools and will teach in the San Angelo Public School system this fall.

Her husband is a graduate of Paint Rock High School and is a senior student at Angelo State University. He is a member of the Mathematics and Engineering Club.

Reception and dinner guests were served in the Knights of Columbus Hall by Miss Barbara Nobles of Mason, Miss Nancy Wilder of Fort Worth, Mrs. Marvin Dierschke and Mrs. Tommy Ayers, both of San Angelo, Miss Joyce Schraer of Lubbock, and Mrs. Kenneth Eggemeyer of Big Spring.

After a wedding trip to South Texas the couple will live at 251 Koberlin-Apt. B.

The bridegroom's parents hosted the rehearsal dinner in the Trans-Rio Room of the Holiday Inn.

places, yet one with sufficient backbone to handle a good bass. So, if you are in need of a ready-made short rod for brush casting, try this simple method of chucking the tip section in a rod handle. The collet may be slightly too large for the ferrule but if so, wrap the reffule with some plastic electric tape and you can solve the problem.

Working back into the brush Wilke likes to lay a lure alongside a floating log or near an old tree trunk. He has found the half-ounce lure more accurate with this rig. For a floater he tosses one of those new Side Shads, a Hell Bender, or a WaterDog if he also wants depth.

Either of the above lures will float. If they hang on the underwater brush all you need to do is give the line a little slack, and chances are it will float to the top and you can retrieve it.

Greenhouse Vegetable Growers—The sixth annual conference of the Texas Greenhouse Vegetable Growers will be held at Texas A&M University, June 23-24. Dr. John Larsen, Extension horticulturist, said the program will feature topics and discussions of vital interest to every greenhouse grower. Out-of-state speakers will be Associate Professor of Horticulture Raymond Sheldrake Jr. from Cornell University and F. A. Romshe from Oklahoma State University. Texas growers and A&M research and extension specialists will handle other speaking and discussion panel assignments, Larsen said.

Cotton is the only major fiber that increases in strength when it is wet.

One cotton bale provides fiber for 250 sheets or 650 shirts.

The man who chops his own wood is warned by it twice.

## CREWS

The hail and wind storm that struck Runnels County last Thursday inflicted heavy damage over a wide area of this community. There is no way to estimate the damage, many grain crops were destroyed, many roofs will have to be replaced and also many windows were broken out thus causing interior damage to a large number of homes. The bright spot of it all is that no injuries were sustained that have been reported.

## Wingate Sew and Sew Club Meeting Held At Church

Wingate Sew and Sew Club met Tuesday of last week in the Fellowship Hall of the Methodist Church at Wingate with Mrs. Minnie Williams as hostess.

Handwork was done for the hostess.

Refreshments were served to Miss Mildred Patton, Mesdames Ed Kinard, Myrtle Gannaway, Elmer King, Emma Doggett, Flossie Kirkland, Ed Donica, O. D. Bradford, Lonnie Hancock, George Lloyd and a guest, Leonard Phillips.

The next meeting will be May 24, with Mrs. George Lloyd, and gifts will be exchanged. This will be the last meeting until September.

Living Screens For Outdoor Privacy—It's not too late to plant a shrub border or screen if balled and burlapped or container grown plants are used, says Everett Janne, Extension landscape horticulturist. The plants will require some special attention, he notes, but otherwise they should make good progress even with the late planting.

★ MOVIES ★

KEIR DULLEA finds himself caught in an explosive emotional triangle, which also includes Sandy Dennis and Anne Heywood, in "The Fox." Showing Sunday, Monday and Tuesday, the Claridge Pictures release tells the story of the masculine force, symbolized by a fox and portrayed by Dullea, setting off strange emotional responses.

"The Night They Raided Minsky's"

Add to October 12th 1492 and July 4th 1776 another great date in American history. April 19th, 1925.

For on that historic day—or night—"they" raided Minsky's famous National Garden Burlesque Theatre on New York's lower east side. "They", of course, were the cops, and they raided the joint because only a few minutes before, right there on the stage in plain view of hundreds of students of the un-

draped female form, that great American institution and aestheticism. The Strip-tease was born!

It all came about quite accidentally. It seems that a now wholly-forgotten belly dancer had to go on stage with a rip in her costume. It caught on something and most of the costume came off, leaving the belly dancer with little more on her than she had the moment she was born. The assembled art lovers went wild.

It's hard to believe that such an historic occasion has thus gone unrecognized. But producers Bud Yorkin and Norman Lear are seeing to it now that it is properly memorialized. In their lavishly-produced motion picture called, "The Night They Raided Minsky's."

It shows Thursday, Friday, and Saturday at the State Theater in Color by DeLuxe and under release by United Artists.

"The Fox"

"The Fox" is a daring and provocative drama, centering on two young women. Retreating to the isolation of a run-down chicken farm, they are forced to face the realities of life—and their own hidden emotions—by a fox, which preys on their chickens, and by a virile young seaman, who becomes an unexpected guest. The two women are played by Sandy Dennis and Anne Heywood and the man is played by Keir Dullea.

The Claridge Pictures release, "The Fox," represents an unusual amount of satisfaction for producer Raymond Stross, for he has been a life-long admirer of D. H. Lawrence, the noted author of the novella on which the screenplay, by Lewis John Carlino and Howard Koch, is based. Stross spent 14 months preparing the project which was filmed in color and widescreen on location in Canada. Directed by Mark Rydell, the emotionally intense drama shows Sunday, Monday, Tuesday at the State Theater.

MISS SHANNON CALLOWAY

Shannon Calloway, Warren C. Dunn Jr. Announce Wedding Date, August 30

Mr. and Mrs. Wilson Calloway of Hurst, Texas, have announced the engagement of their daughter, Shannon, to Warren C. Dunn, Jr., of Abilene. The prospective bridegroom is the son of Mrs. Lena Owen Dunn of Wingate.

The wedding has been set for 8:00 p. m. August 30, in the First Baptist Church of Hurst. The Rev. Jimmy Morgan will officiate.

The bride-elect is a 1965 graduate of Lawrence O. Bell High School and attended Howard Payne College.

Mr. Dunn is a graduate of Winters High School. He has recently been discharged from the army following a two-year tour of duty in South Vietnam. At present he is employed with Key City Crane in Abilene.

WASHINGTON

"As it looks from here"

OMAR BURLESON  
Congressman  
17th District

Washington, D. C. —Those of us who have served in the Armed Forces remember very well many instances of waste and extravagance. Probably this individual helped burn about as much powder as anyone not to have hit any more effective targets. The shell fired from one certain type of gun meant the price of an \$18.75 war bond each time one went out the end of the barrel. In addition to training practice there was a lot of firing at nothing.

This is a very small example but multiplied thousands of times over, plus cost all the way down the line, proves that war and most any military activity is excessively expensive. As a matter of fact, it seems that the very nature of any governmental activity, civilian or military, is more costly than it should be.

On May 1, 1969, this space commented on the development of the ABM (Anti-Ballistic Missile). It was predicted then that a furor would be raised on the issue and would rage for weeks. This situation has come to pass even sooner than anticipated. Not only has this specific issue emerged into great controversy but now goes far beyond to involve our total National defense.

It does no good nor is it morally complimentary to question the motives of any man. Sincere people question the huge sums expended for military purposes and would use those funds for the many social reforms such as rebuilding our decaying cities and providing a guaranteed income for those at the poverty level.

While many are entirely honest in this approach, the opposition attracts the pacifists, the anti-war advocates, those who trust the communist world and the actual subversives. Except for the latter, the others seemingly place their trust on the good intentions of the Soviet Union and Red China, rather than our capability to defend against their possible aggression. Of course the subversives support anything against the interest of the United States.

During the last several days, about any newspaper from the big cities of the North and East is loaded with publicity about the actions of those opposing, not only the ABM but the military in general. Fresh blasts occur against the Pentagon with every issue. The whole "military-industrial complex" is said to be dominating our society and exhausting our wealth.

The Peacenik students, many college professors and scientists

and whole coveys of liberal Senators and Representatives have climbed aboard the Juggernaut. A Congressional committee has been formed and invites all Members of Congress to join in a plan to establish "priorities." The "priorities" in this instance are domestic programs over military preparedness. It is noteworthy to observe that many of those involved in the attacks on military preparations on the basis of cost, have never before and do not now, really express a concern about the financial condition of our Government. They do so now only as it applies to defense expenditures.

Sure enough, vast sums of money have been poorly spent on tanks that won't run, some planes that won't perform as they were represented and some defense contractors have fudged as to the ultimate cost on some military items. Something is being done about it, but none of this should have occurred in the first place. It now serves as a vehicle for the critics to attack our defense preparedness.

The Soviet Union is continuously expanding her military capabilities including an ABM system. The Soviets acted first to develop long range, intercontinental, surface-to-surface missiles. They acted first to test-fire an ABM against an incoming nuclear-armed missile. This was back in 1962 and they are the only nation to have done this. The Soviets acted first to test a 60-megaton bomb. The only nation to possess anything like a bomb of that size. They were the first to develop and deploy a fractional, orbital bombardment system, a first strike oriented weapon and they are the only nation to have developed or deployed such a system. Next, the Russians have acted first to deploy an ABM set-up and they have been testing, improving, and updating the system ever since. Today they have over 60 anti-ballistic missiles deployed on launch pads. We, on the other hand, have not yet deployed an ABM setup of any kind. Yet the critics of the ABM in today's debate say we are escalating the arms race.

Those who would leave us naked of power in such a dangerous world are deluding themselves in a time when we can not afford to be wrong. Our position of strength gives the greatest assurance against a nuclear war.

Cotton losses due to insects can run as high as one out of every eight bales.

Mrs. Juanita O'Connor's Weekly Home Demonstration Agent's Column

Grandma had the back parlor to save wear and tear on her best furniture. Today the extra room is a family room, recreation room, den or TV-stereo room. It takes traffic off the living room.

Families use the room according to their own needs, notes Mrs. O'Connor. Young marrieds and families with teenagers need a "wreck" room for games, a pool table and refreshments.

Families with small children—like families whose offspring live away from home—require mostly a TV room with comfortable seating and perhaps a sofa bed added to house guests or returning family members.

Mildew Prevention:

Ventilation and cleanliness are the keys to mildew prevention. Soil on clothing supplies food for mildew to grow when moisture and warm temperatures are present. Most man-made fibers such as Orlon, Dacron, Dynel and Nylon resist mildew if kept clean.

Mrs. O'Connor points to the importance of dry ventilated closets. Poorly ventilated closets get damp and musty during continued wet weather and clothing in them are likely to mildew.

Be sure all clothing is dry before putting into the closet. Leave closet doors open occasionally to keep moisture from gathering and to circulate air, she added.

A small electric closet light burning continuously will dry air in the storage area. Keep closet door closed.

The chemicals silica gel and activated alumina may be used to absorb moisture in closets. They will not harm fabrics. Hang cloth bags of one chemical in closets, or place an open container of chemicals on floor and keep door closed.

For other helps with mildew problems go to your County Home Demonstration Agent's office and ask for the bulletin No. 68—How to Prevent and Remove Mildew.

Brined Dill Pickles—

Yield: 9 to 10 quarts  
Cucumbers, 3 to 6 inches in length, 20 lbs. (about 1-2 bushel)  
Whole mixed pickling spice, 3-4 cup  
Dill plant, fresh or dried, 2 to 3 bunches  
Vinegar, 2 1-2 cups

Salt, pure granulated, 1 3-4 cups  
Water, 2 1-2 gallons

Cover cucumbers with cold water. Wash thoroughly, using a vegetable brush. Handily gently to avoid bruising. Take care to remove any blossoms. Drain or wipe dry. Place half the pickle spices and a layer of dill in a 5 gallon crock or jar. Fill the crock with cucumbers to within 3 or 4 inches of the top. Place a layer of dill and remaining spices over the top of cucumbers. (Garlic may be added, if desired). Thoroughly mix the vinegar, salt, and water and pour over the cucumbers.

Cover with a heavy china or glass plate or lid that fits inside the crock. Use a weight to hold the plate down and keep the cucumbers under the brine. A glass jar filled with water makes a good weight. Cover loosely with clean cloth. Keep pickles at room temperature and remove scum daily when formed. Scum may start forming in 3 to 5 days. Do not stir pickles, but be sure they are completely covered with brine. If necessary make additional brine, using original proportion specified in recipe.

In about 3 weeks the cucumbers will become an olive-green color and should have a desirable flavor. Any white spots inside the fermented cucumbers will disappear in the processing.

The original brine is usually cloudy as a result of yeast development during the fermentation periods. If this cloudiness is objectionable; fresh brine may be used to cover the pickles when packing. Or otherwise, strain the brine before using.

Pack pickles firmly into clean hot quart jars. Do not wedge tightly. Add several pieces of the dill to each jar. Cover with boiling brine to 1-2 inch of top of jar; adjust lids. Place jars in boiling water and process for 15 minutes. Start to count processing time as soon as hot jars are placed into the actively boiling water.

Remove jars from the canner and complete seals if necessary. Set jars upright, several inches apart, on a wire rack to cool. Cloudiness of brine is typical when the original fermentation brine is used as the covering liquid. (For fresh brine use 1-2 cup salt and 4 cups vinegar to 1 gallon of water. The fermentation brine is generally preferred for its added flavor-but strain it).

Jimmy J. Roberts Receives Ph. D From Harvard

Jimmy J. Roberts, son of Mr. and Mrs. Wayne Roberts of Winters, received a Doctor of Philosophy degree from Harvard University, Cambridge, Mass., at Commencement Exercises June 12.

Roberts is a graduate of Winters High School.

Some 4100 students received academic degrees from Harvard University. At the 318th Commencement exercises held Thursday, June 12, about 1200 young men just completing college received bachelor of arts degrees, and 2900 men and women received advanced degrees.

The advanced degrees of the Graduate School of Arts and Sciences and of the professional schools of the University quality men and women for careers as scientists and scholars, ministers, lawyers, doctors, dentists, teachers and school administrators, architects and city planners, businessmen, government officials, and public health officers.

Traditionally held in the tree-shaded Yard on a permanent stage adjoining the Memorial Church, the ancient ceremony of conferring degrees was followed by a series of small, informal "commencements" in the Harvard Houses and the graduate schools. There, each student received his degree individually from officials of the School or House with which he was associated.

Getting old is merely a matter of feeling your corns more than you do your oats.

SOIL CONSERVATION . . . We believe that the local Boards of Supervisors of conservation districts and water control and improvement districts should have a voice in retaining qualified personnel at the local level.

RUNNELS COUNTY FARM BUREAU

Orange Shellac Suggested For Damaged Trees

The trees which were damaged by the hail should be treated with Orange Shellac (not the clear or white), according to C. T. Parker, Jr., County Agricultural Agent, and also the Horticulturist at A. & M. University.

This is the only treatment which will give the tree any protection at all. This Orange Shellac will give the tree some protection and will prevent any excessive drying. A treatment of this (which you paint on any wounded area) will last for approximately 6 to 8 weeks—after this perhaps a second coat would be advisable—depending on the condition of the tree.

The "wound dressings" which are available will not help the wounds of a tree—and the black paints which some use, will actually retard the healing of a tree. Stick to the Orange Shellac!

Also, start fertilizing your trees now—anytime up to July 1—be sure and water the trees vigorously, but slowly. Use 1 pound per inch thickness of the trunk of the tree—use Ammonia Sulphate—or one that is high in Nitrogen, as this will promote growth and healing of the trees.

He alone lost the art to live who cannot win new friends.

Cotton was dubbed "qutun" by the Arabs.

**Resting Native Grass Land Will Cause Improved Grasses**

More ranch income and better grass will be the result of grassland improvement work being done by area ranchers, a local conservation leader reported today.

Ronald Rugh, Range Conservationist, with the local Soil Conservation Service, said that resting native grassland was causing the improved grass and increased beef production.

Cooperators with the Runnels Soil and Water Conservation District report deferred grazing is an excellent management practice to improve grass cover on rangeland, Rugh continued. And more ranchers are using the practice each year to help bring the better native grasses back. This practice enables the better grasses to produce seed and increase in plant vigor.

Deferring gives the best grasses a chance to seed out. Even on lightly stocked ranges, the livestock are going to eat the best grasses and let the less nutritious grass grow, Rugh said. And in many cases the palatable, high producing grasses such as Sideoats grama, cannot seed out on continuously grazed ranges.

One of the main things to consider when planning deferral is to have the ranch properly stocked. Where livestock are in balance a pasture can usually be deferred for three or four months without damage to the remaining pastures.

There is not a ranch in the Runnels Soil and Water Conservation District that cannot

**Wingate Gator Tops Held Meet Monday In Recreation Hall**

Regular weekly meeting of the Wingate Gator Tops Club was held Monday at the Humble Recreation Hall.

Mrs. Richard Beck presented the program and Mrs. E. F. Albro was named this week's queen.

Members present were Mesdames Wayne Owen, George Cave, James Williams, Alpheus Hill, Richard Beck, E. F. Albro, Pat Pritchard, Ed Donica, Joe Bryan, and W. O. Middleton.

**Winners For Tops Held Meeting In Club House Monday**

Regular meeting of the Winters for Tops Club was held Monday evening in the club house.

A pink and blue shower was presented Mrs. John Bedford.

Refreshments were served to Mesdames Bill Milliron, Woodruff Watts, Floyd Sims, D. W. Williams, John Bedford, Marvin Bedford, Charles Pinkerton, J. L. Shaw and Wes Hays.

Mrs. D. W. Williams was queen for the week.

MRS. HENRY GENE MAAS

**Serena Faye Tischler, Henry Gene Maas Recite Marriage Vows Saturday**

Serena Faye Tischler, daughter of Mr. and Mrs. Monroe Tischler, became the bride of Henry Gene Maas, when they recited marriage vows at the home of the bride's parents, 401 South Arlington, Saturday, June 14, at 7:30 o'clock.

Parents of the bridegroom are Mr. and Mrs. H. B. Maas, of Route 1, Winters.

The Rev. Walter C. Probst, Sr., pastor of the St. John's Lutheran Church, officiated for the double ring ceremony.

Traditional wedding music was played by David Sherman, organist and Meg Leathers, soloist, who sang "More".

Best man was Harvey Tischler of Winters. The bride's only attendant was Mrs. Randy Jones of Ballinger, matron of honor. She wore a pink empire dress fashioned with long sleeves of lace fastened at the wrist and carried a long stemmed white carnation.

Presented in marriage by her father, the bride wore a pale blue silk chiffon cape featuring full-flowing wrist length sleeves over a slim sheath of silk brocade. Her headdress of imported silk velvet roses was attached to a small circlet veil of pale blue silk chiffon. She carried a bouquet of feathered carnations with long satin streamers and beneath the bouquet she carried a white Bible.

A dance followed the wedding ceremony with Johnny Beck and His Western Band as musicians. The bride's table was laid with lace over blue and centered with a container of blue roses and the bride's bouquet. The decorated cake, white net bags of rice tied with blue ribbon were arranged at one end of the table.

Mrs. Bennett Tischler and Linda Tischler, presided at the table and served cake and punch.

Guests were registered by Mrs. Kenneth Tischler. The bride is a graduate of Winters High School with the class of 1969.

Mr. Moss, also a graduate of Winters High School in 1965, attended Angelo State University. Following a short wedding trip to Dallas the couple will make their home on Route 1, Winters.

**Sgt. R. W. Taylor In Air-Evac Mission From Saipan**

U. S. Air Force Sergeant Roy W. Taylor Jr., husband of the former Dora O. Snell of Winters, recently participated in a life-saving air evacuation mission from Saipan to the U. S. Naval hospital in Agana, Guam.

When an automobile accident left a 16-year-old boy in need of a neurosurgical operation which could not be performed on Saipan. Sergeant Taylor and his C-130 Hercules crew at Anderson AFB, Guam, responded to the emergency call. In less than two hours their mercy mission was completed and the youth safely admitted to the hospital.

The sergeant is a para-rescue-recovery specialist with the 79th Aerospace Rescue and Recovery Squadron at Anderson.

A 1965 Regan (Houston) High School graduate, the Sergeant is the son of Mr. and Mrs. Roy W. Taylor of Houston. His wife is the daughter of Mr. and Mrs. Harold Snell of Winters.

**Melba Lewis Gets Scholarship At Howard Payne**

Melba Lewis of Route 4, Winters, has been offered a \$100 academic scholarship per semester to attend Howard Payne College this school year.

Miss Lewis was offered the scholarship after receiving a qualifying score on her college entrance examination.

"As a result of your achievement," said Dr. Frances Merritt, HPC academic dean, "we offer you a scholarship of \$100 per semester for the year 1969-70."

"In addition, if you are on the dean's honor roll, this scholarship will be provided each semester throughout your college career at HPC."

To make the dean's honor roll, a student must take at least 12 hours and earn a grade-point average of 3.65. HPC is on a 4-point system.

**Power and Phone Units Hard Hit By Hailstorm**

Electric power and telephone facilities in Winters and the surrounding communities were hard hit by the hailstorm last Thursday, and it will be several days before complete repairs are made.

However, service has been maintained with only slight interruptions. Electric power was off in isolated parts of Winters during and immediately after the storm Thursday, but only temporarily in most instances. In one area on the west side of Winters, the power was off for about two hours. There were several individual power failures which lasted through the night Thursday and into late Friday, but these incidents were also isolated, and were not known about until Friday, it was reported.

The City of Winters Electric department reported about 100 meters broken, along with several controls and other facilities. It will cost about \$3,000 to put the line back in shape again, City Hall estimated.

F. R. (Phil) Anderson, Winters manager of West Texas Utilities Co., said only about 45 meters belonging to WTU were broken, along with some other damage to lines and equipment.

Rural power and telephone lines also received considerable damage, it was reported. Much of that damage was from wind; several poles were blown down in the rural area.

Telephone service was disrupted by the storm Thursday. Toll cables were damaged, and only emergency long distance calls were accepted for some time after the storm. Service in Winters was disrupted for longer periods of time, also on an isolated basis, it was reported. Extra crews were brought into Winters by both the telephone and power companies to work out the problems caused by the storm.

Officials of the power and telephone companies have expressed thanks to the residents of Winters for their courtesy and patience during the interruption of services.

**Mike Kozelsky Wins Award In Essay Contest**

Mike Kozelsky, son of Mr. and Mrs. Joe Kozelsky, a 1969 graduate of Winters High School, has been awarded a certificate of achievement in acknowledgment of the excellence of an essay written on "Patriotism—What It Means To Me."

Kozelsky entered the statewide competition with an essay of three hundred words. The contest was sponsored by the Knights of Columbus of Texas. His essay was judged to be in the top 25 in competition with more than 800 entries.

Presentation of the award was made Sunday, June 15, by Kenneth Fiest of the Rowena Council of the Knights of Columbus. Kozelsky has been accepted by Texas A&M University, where he will major in aeronautical and space engineering.

In high school, Kozelsky was a member of the National Honor Society, played football four years, was in the band two years, was vice president of the school choir, took part in basketball and track, and was secretary of his class. He was also vice president of the National Honor Society, and was a member of the Spanish Club.

**Visitors Honored At Family Picnic In City Park Wed.**

Honoring Mr. and Mrs. Leon Worthington and family who are here from Fresno, California, a family get-together and picnic was enjoyed at Winters City Park Wednesday evening.

Those present were Mr. and Mrs. Leon Worthington, daughter, Pat and son Davis of Fresno, California; Mr. and Mrs. Willis Davis, Carla Sue and Mike; Mrs. Lettie Davis, Mr. and Mrs. Loyd Compton, Mr. and Mrs. Dennis Poe, Greg and Perry, Mrs. C. O. Rodgers, Dennis Rodgers, Denise and Dean, all of Winters; Mrs. Herbert Skinner of Austin; Mrs. Jack Davis, Abilene; Mrs. Ruby Burns, Lou Ann Burns, Vickie Bowen, all of San Angelo, Mrs. Lester Glass, Steve and Cary of Miles.

Also Carroll Gotcher, San Angelo; Mr. and Mrs. Grover Davis, Mr. and Mrs. LaDell Davis, Mrs. Clara McAdams, P. M. Davis, Mr. and Mrs. Jay Dunnam, Connie, Stephanie, Natalie and Kimberly. Mrs. Thelma Henslee, all of Winters; Mr. and Mrs. Bill Worthington of Fresno, California; Mrs. R. O. Marks, Mrs. E. J. Marks, Mr. and Mrs. R. D. Collins, Mr. and Mrs. T. H. Worthington, all of Winters.

A man gazing at the stars at the mercy of every puddle on the road.

**Judy McNeill, Sam Scott to Recite Vows July 26, First Baptist Church**

Judy McNeill and Sam Scott will be married Saturday, July 26, it has been announced. Mr. and Mrs. Jon McNeill of Wingate are the parents of the bride-elect and Sam is the son of Mr. and Mrs. G. W. Scott, Jr., of Winters.

The wedding will be at the First Baptist Church in Winters at 7:00 o'clock in the evening.

Judy is a 1969 graduate of Winters High School, and is now employed at U. S. Time Corporation and resides in Abilene. Scott, also a 1969 graduate, is now employed by Sojourner Exploration of Abilene.

All friends and relatives of the couple are cordially invited to attend the ceremony.

**Sp4 W.E. Thompson To Leave For Vietnam Tour**

SP4 Whitley Earl Thompson, son of Mr. and Mrs. R. E. Thompson, is scheduled to leave June 20, for Fort Lewis, Wash., where he will embark for his second tour in Vietnam. He has been stationed recently at Fort Bragg, N. C.

He has been on leave here for about 20 days, and has been in the U. S. Army almost three years. He took his basic training at Fort Polk, La.

During his first tour in Vietnam, he saw action during the Daot battle, which began November 13 and continued until December 27. He was wounded July 3, 1968, while leading a reconnaissance patrol at Phan Viet, and was hospitalized 30 days. He was returned to the States and sent to a hospital at Fort Sam Houston for treatment of malaria and wounds he received in Vietnam.

**Goal Diggers Club Summer Meet Held In Pierce Home**

The Goal Diggers Club had a summer meeting Monday evening in the home of Mr. and Mrs. Johnnie Pierce with Janice serving as hostess.

Pamella Smith called the meeting to order. Phyllis Smith called roll.

The club voted to have a cake sale Friday, June 20. The club also voted to have a dance and the date and place will be announced later.

The program which was given by Pamella Smith was on the club constitution.

**Summer Rec Program Now In Progress**

The summer recreation program for all ages, sponsored by the City of Winters and with the cooperation of the Winters schools, is now in full progress, with 119 enrolled, Jerry Gibson, director of the program, reports. Gibson is athletic director of the Winters schools.

The recreation program is being held in the old school gymnasium, from 1 to 9 p. m. each day, Monday through Friday. Coach Gibson said all types of recreation are being offered, and all activities are under supervision of trained personnel. Basketball, volleyball, trampoline, weight lifting, jogging, and many other forms of recreation are available.

Coach Gibson said about 20 adults are enrolled in various activities, and he especially invites more adults and girls to take advantage of the program. The hail storm of last Thursday evening caused some delay in recreation activities at the gym. Coach Gibson said, but most of the debris had been cleared away by the first of the week, and all facilities are again available. There is no charge for this program.

Refreshments were served to Dobra Carroll, Carla Walker, Ginger Fairley, Janice Mills, Jill Matthews, Beckey Mathis, Brenda Byrns, Janice Pierce, Melanie Bomar, Phyllis Grissom, Pam and Phyllis Smith, and sponsor, Karen Hicks. Benediction closed the meeting.

**Two Winters Students On Dean's List**

One hundred and forty-eight students have been named to the dean's list at McMurry College for the spring semester, according to Dr. Porter Crow, dean of the college.

To qualify for the dean's list, a student must carry 12 or more hours during the semester and earn a grade point average of 3.5 or better out of a possible 4.0.

Richard Lee Puckett and Larry Gene Cook of Winters have been named to the dean's list for the spring semester at McMurry. Puckett is the son of Mr. and Mrs. Barney C. Puckett and Cook is the son of Mr. and Mrs. K. W. Cook. Both are from Winters.
