HOME TOWN Talk

By R. C. THOMAS

Everybody's talking about ethics these days—in particular, they're talking about the ethics—or lack of ethics—of our officials. In fact, they're talking so much about it they are going to try to pass a law—a constitutional amendment—making our lawmakers more ethical.

Reminds us of the story of the second grade class which had a gold fish in the class room. There was much argument about whether it was a boy gold fish or a girl gold fish... so the kids held an election. As it turned out, it was indeed a girl gold fish... by a vote of 16 to 9!

Because of the hue and cry over recent disclosures of alleged extracurricular practices on the part of some officials, proponents of a so-called "ethics" amendment to the State Constitution figured this was a good time to get the idea across and get it passed, while the people are still in a wrist-slapping mood... to strike while the iron is hot, so to speak. If allowed by the people of Texas, this "ethics" amendment would make way for creation of a state Ethics Commission, whose duties would include setting up rules of conduct under which our elected State officials would operate. In short, if one could pass the tests, issuance of a halo would be automatic. A sort of bolster to the Ten Commandments. Sounds nice, if it would work... after all, who would want to vote against a law making people honest?

But then the architects of the proposed amendment made a 180-degree maneuver and came in through the back door with a little item which the people of Texas turned down an election or two back: a maneuver which in reality erases the "ethics" part of the title to the proposed amendment. This part would give the commission authority to set the pay scale for the lawmakers, instead of leaving it to the voters. The people had said "No!" to a pay raise proposal some time ago, but apparently it was figured that they would be so wrought-up over recent alleged near-scandals they wouldn't notice they were being hoodwinked into changing their minds.

Harry Grantz says he knows a chap who chose what he thought would be an easy subject in college: Egyptian archeology. He wrote home that he'd flunked the course, though; that he had had to study "hieroglyphics" and he'd never even studied "lowerglyphics" in high school.

Bumper sticker: It's your community, too... what are you doing about whatever needs to be done?

Well, we did get a little moisture over the weekend—in the form of a light skiff of snow Sunday afternoon. Not much—just .02 of an inch—but wet's wet, and who around here's going to holler about moisture in any form or any amount right now? But the snow which did fall was very dry. One chap said it was so dry he had to pour water on it to make it run down the sidewalk as it melted.

Directors To Be Elected Feb. 16 At Country Club

Three directors will be elected to the board of the Winters Country Club at the membership meeting scheduled for Tuesday, February 16, at 7 p. m.

All club members and families are urged to attend this meeting.

A covered dish supper will be served.

THIS WEEK LAST YEAR
Low: 20 degrees, Tuesday, Feb. 3, 1970.
High: 67 degrees, Sun., Feb. 8, 1970.

GLACIER QUEEN — Cindy Davis, with bouquet, last week was elected Glacier Queen by the student body of Winters High School. She was the senior class candidate. With Miss Davis are candidates from the other three high school classes, Cheryl Whitlow, freshman candidate; Debbie Tekell, sophomore candidate; and Brenda Smith, junior class candidate. Students in grades seven through twelve participated in the election, which was sponsored by the High School Annual staff.

School To Enumerate Children For Head Start, Kindergarten, First Grade

Winters Independent School District is beginning a program of enumeration of pre-school children for a possible summer Head Start program, September kindergarten enrollment, and first grade enrollment.

This information must be obtained as soon as possible so that programs may be planned according to the number of students who will be enrolled in each classification.

The Winters School District will possibly again sponsor an eight-week Head Start program during the summer of 1971. This program is for children who are eligible to enroll in kindergarten or the first grade in September 1971. Children now in kindergarten are not eligible for the Head Start program.

For the school's kindergarten program, qualifying age limits as of the beginning of the 1971-72 school year, September 1, is 5 years 2 months. (Students must have been born between Sept. 2, 1965 and July 1, 1966).

To qualify for the first grade, each child must be 6 years old before Sept. 1, 1971 (born prior to Sept. 1, 1965).

School officials stressed that birth certificates will be required when a child is enrolled in any of these classes, on initial enrollment.

Enumeration blanks have been forwarded to parents of known pre-school age children.

Wallace-Murray Reports On Year's Business for 1970

NEW YORK, N. Y.—Wallace-Murray Corporation has reported reduced sales, net income and earnings per share for the fiscal year ended Dec. 31, 1970. Net sales were \$205,604,225, down from record sales of \$241,289,566 in 1969. Net income amounted to \$6,009,419 compared with \$11,863,035 for 1969. Earnings per outstanding share for 1970 were \$1.47 compared with \$3.48 for 1969. On a fully diluted basis, assuming full conversion of the \$1.70 cumulative convertible preference stock and the exercise of common stock warrants, earnings for 1970 were \$1.30 per share versus \$2.63 in the previous year.

All 1969 figures have been restated to reflect inclusion of a company acquired in a pooling of interest transaction. Dry Manufacturing Division of Winters is a division of Wallace-Murray Corporation. Sales for the fourth quarter were \$49,666,279 compared with \$62,526,313 for the similar period in 1969, and net income was \$1,502,337 in 1970 as compared against \$3,453,673 the prior year. Earnings per common share, assuming no dilution, were \$3.37 compared with \$1.04 last year, and on a fully diluted basis were \$3.32 versus \$3.77 in the fourth quarter of 1969.

of Mr. and Mrs. Jerry Whitlow; Miss Smith is the daughter of Mr. and Mrs. Johnny B. Smith; Miss Tekell is the daughter of Mr. and Mrs. Cecil Tekell; and Miss Davis is the daughter of Mrs. Joan Howard.

Glacier staff members this year are Bruce Smith, editor; Ann Cooper, assistant editor; Kathy Wolford, business manager; Wandrea Parrish, assistant business manager; Troyce McKnight, feature editor; Michael O'Dell, photographer; Marvin Clark, assistant photographer; Weldon Middleton is faculty advisor.

Tickets On Sale For Chamber Banquet Feb. 19

George M. Beard, Winters Elementary School principal, said. It has been requested that parents list all pre-school age children as well as enrollees for Head Start, kindergarten and first grade. If parents do not receive enumeration blanks, they are asked to contact the Winters Elementary School, — phone 754-4031.

Tickets for the annual membership banquet of the Winters Chamber of Commerce, scheduled for Friday, February 19, went on sale Monday of this week.

All members of the board of directors of the chamber of commerce will have tickets. Also, tickets will be available at the chamber office, or from several other members of the organization.

Congressman Omar Burleson will be the principal speaker for the banquet. Francine Morrison, Fort Worth singer, will provide the entertainment.

DE Students In Conference At Odessa Recently

Distributive Education students from Winters High School attended the Area Distributive Education Clubs of America leadership conference in Odessa last weekend.

The conference was held at Odessa Junior College under supervision of the Mid-Management Program.

Contests were held in Sales Demonstration, Display, Advertising, Job Interview and Merchandising.

Mary Sanchez, daughter of Mr. and Mrs. Margarito Sanchez of Winters, won third place in the Sales Demonstration contest. She is a senior Distributive Education student at Winters High School and is in a training program at Heidenheimer's department store in Winters.

Other Winters students attending the conference were Becky Simpson, William Coleman, Richard Simpson, David Wilson, Jackie Guy, Wesley McGallian and Gary Gray. The students were accompanied to Odessa by Robert Stathem, club advisor.

Assembly of God CA's In Study

The CA's of the Assembly of God will begin a study course on the Holy Spirit, February 14. The class will begin at 6 p. m. with the Rev. Richard Nelson, pastor, in charge.

Senior Play Is Scheduled For Thursday, Feb. 18

The senior class of Winters High School will present a three-act comedy, "You Can't Take It With You," Thursday, February 18, in the high school auditorium. Curtain time, 7:30 p. m.

Admission will be 50 cents, and tickets may be purchased from members of the senior class or at the boxoffice on the night of the performance.

The play is about the odd, but happy, Sycamore family whose ideals are above that of money or worldly possessions which you "can't take with you."

Members of the case include Cynthia Brown, Judy Foster, Barbara Brown, Troyce McKnight, Von Byrd, Randy Stevens, Mike Mathis, Dane Bishop, Brenda King, Mike O'Dell, Hudson White, Joe Echols, Cathy Bomar, Emaleta Cole, Sherrill Alexander, Ronnie Wilson and Isabel Torres.

Wingate Girls, Bronte Boys Get Cage Trophies

The Wingate girls and Bronte boys were awarded first place trophies in the Wingate Junior High Basketball tournament held Thursday, Friday and Saturday in the Wingate school gym.

Second place honors went to Paint Rock girls and Wingate boys teams. Third place trophies were won by Bronte girls and Divide boys. Consolation trophies went to Butterfield in both the girls and boys games.

Janice Stevens of Wingate was awarded the Best Sport trophy for a girl, and the Best Sport trophy for a boy went to Alan Barbee of Bronte.

Six all-tournament girls were chosen from the teams entered in the tournament. Forwards receiving this award were Diane Jackson of Butterfield, Sherrice Coakson of Bronte, Cindy Haechten of Paint Rock. Guards chosen were Martha Pritchard of Wingate, Debra Hibbs of Blackwell, and Toni Lorring of Paint Rock.

Five all-tournament boys were chosen: Jimmy Cardenas of Wingate, Cody Rogers of Highland, Jimmy Raughton of Bronte, Doug Kelly of Bronte, and Johnny Gonzales of Divide.

The Wingate basketball teams have expressed thanks to everyone for helping to make the tournament a success.

Police Report No Mishaps On Ice

Winters Police Chief Joe Stevens said there were no reported auto accidents which could be laid to icy streets in Winters following the light snowfall Sunday afternoon.

One auto accident was reported, the Police Chief said, but ice on the streets was not blamed.

Although the snowfall was light, snow drifted on the streets in some places, and turned to ice later in the evening. Ice and snow was practically gone by mid-morning Monday.

Band Director To Houston Meeting

Kirke McKenzie, Winters School band director, is attending the Texas Music Educators Convention in Houston this week. The convention began Wednesday and will continue through Sunday.

During the convention, McKenzie will attend music workshops, and also concerts of the All-State band, choir and orchestra.

He is being sponsored on this trip by the Band Boosters.

Farmers Union To Hold Style Show In San Angelo

The Farmers Union will hold a style show and buffet dinner at the El Patio Motel in San Angelo Saturday, February 16. Speaker for the event will be Gene Lynn, public relations man from the Textile Research Department at Texas Tech.

FARMER AWARD—Mr. and Mrs. Audra L. Mitchell of the Pumphrey Community, shown with their granddaughter, recently were selected for the Outstanding Conservation Farmer Award in the Runnels Soil and Water Conservation District. (SCS Photo)

Commissioners Grant County Officials Pay Raises, Effective February 1st

Officials and employees of Runnels County were granted pay raises by the county commissioners at a public hearing Monday in Ballinger. Raises are effective as of February 1.

Salaries of the county judge, county clerk, sheriff, attorney, tax assessor-collector and commissioners were set at \$675 a month.

Some of the other new salaries include: County treasurer — \$616 per month. District clerk — \$616 per month.

Justices of the Peace—Precinct 1 (Ballinger) \$408 per month; Precinct 6 (Miles) \$72; Precinct 7 (Rowena) \$87; and Precinct 5 (Winters) \$124.

Constables—\$70 per month, each. One deputy sheriff at \$572 per month; one deputy at \$467; one deputy at \$363; and one jail cook at \$122.

County auditor — \$675 per month.

Board Extends Contracts For School Heads

The Board of Trustees of Winters Independent School District Tuesday night extended contracts of B. J. Joyce, high school principal, George M. Beard, elementary and junior high school principal, and Johnny B. Smith, tax assessor-collector.

Joyce and Beard are serving first years on present two-year contracts, and were given one-year extensions, providing active two-year contracts. Smith was given a two-year contract.

In other business, the school board considered guidelines for little league basketball.

Superintendent of Schools Carroll Tatom presented a financial report, and reported on the adult basic education program now underway in the school. He also reported that Average Daily Attendance for the first semester of the 1970-71 school year was 932, with attendance at 96.65 percent.

Don't Pull Apart Vehicle Registration Form—It Will Only Cost You Time

It doesn't take "Pull" to obtain 1971 license plates. In fact, if you pull apart the three-part motor vehicle registration form mailed to you early this year by the Texas Highway Department it will make the process slower and unnecessarily complicated.

Even though the handy three-part form carries the warning "Do Not Separate or Detach Any Parts of This Notice" in large letters on the reverse side, many motorists are doing just that.

Highway Department officials and county tax officers report that many motorists in applying for license plates by mail detached only one part of the form and sent it in.

Department officials stress that the entire form must be mailed in or brought to the county tax office or substation. A sick down strip showing the license number will be attached to all sections of the

form and the tax office will separate the form, returning the license receipt to the owner. Motor vehicle owners still can obtain their 1971 license plates by mail if they send in the entire three-part form, their registration fee and \$1 for handling to their county tax officer during February. That allows the month of March for the application to be processed and the license plates returned before the April 1 deadline for displaying the new plates.

During the month of March, it will be necessary for owners to apply in person at the county tax office or substation for 1971 license plates. In either case, owners will save themselves time and trouble by using the new computerized application. You won't need your title certificate or last year's registration receipt. But, remember, leave the three parts of the registration application intact.

Three Elections Set For April 3

Three local elections have been called for Saturday, April 3.

Winters voters will elect a mayor and two councilmen; voters in the Winters Independent School District will elect three persons to the board of trustees; and voters in the two north precincts of Runnels County will name three members to the board of directors of the North Runnels County Hospital District.

The Winters City Council last week called the city election for April 3, and the board of the Hospital District Monday night ordered the director election.

The board of trustees of Winters Independent School District Tuesday night called an election for Saturday, April 3, for election of three persons to the board, one for a two-year term and two for three-year terms.

Wingate School Sets Pee Wee Cage Tourney

Wingate School has scheduled the annual Pee Wee basketball tournament for February 18, 19 and 20. Boys' and girls' teams from Blackwell, Bronte, Talpa-Centennial, Butterfield, Fairview, Jim Ned, Miles and Wingate will be entered.

The tournament is for students who are in grade six and below.

Play begins Thursday, February 18, at 5 p. m., with the Blackwell girls meeting the Bronte girls, followed by a game between boys' teams of these two schools. Fairview girls and boys meet Jim Ned teams at 7 and 8 p. m.

Friday action pits Talpa-Centennial against Butterfield, beginning at 5 p. m. and teams from Miles meet the host teams from Wingate at 7 and 8.

Play resumes at 8 a. m. Saturday morning and the finals will begin about 6 p. m. Saturday.

Trophies will be awarded to first, second and consolation winners in both boys' and girls' divisions.

Hot dogs will be served from the concession stand beginning Thursday, and hamburgers will be included in the cafeteria menu Saturday.

Admission for each session will be 50 cents for adults and 25 cents for students.

Fellowship Social At Wilmeth Baptist Church Saturday

A fellowship social will be held at the Wilmeth Baptist Church, in the Annex, Saturday, February 13, at 7 p. m.

All residents, former residents and friends are invited to attend the potluck supper.

Social Security Benefit Payments From 22,000 in 1940 To 26 Million In '70

Elderly, disabled and widowed Americans and their families received nearly \$32 billion in social security checks in 1970, or \$5 billion more than in 1969. J. M. Talbot, social security manager, has announced. An estimated \$113,058,000 was being paid to social security beneficiaries in Texas at the end of 1970.

The number of men, women and children on the social security benefit rolls nationally rose to 26 million in 1970. While the majority are older people, about one out of every four is under 60, Talbot said. Some 1,264,100 residents of Texas were receiving benefits at the close of 1970, Talbot said.

He noted that nationally 2.7 million people under 65—disabled workers and their families—received checks amounting to \$424 million a month.

About 6.5 million widows, children and aged dependent parents of workers who died received \$597 million a month at the close of the year. This was in addition to the 17.1 million retired workers and dependents who were paid \$1.8 billion a month. In Texas, an estimated 133,000 people under 65—disabled workers and their families—were receiving about \$11,134,000 a month at the end of 1970. About 337,000 widows, children and

Terms of office of incumbent board members J. W. Bahlman, Jake Presley and Billy Joe Colburn expire in April of this year.

Bahlman and Presley are completing regular terms; Colburn is serving part of an unexpired term of the late Willis Davis, having been appointed last year to fill the vacancy. In accordance with statute, appointees serve only until the next regular school board election.

For the first time, board members have been assigned to "Places," and each candidate seeking election to the board of trustees must designate the place he is seeking, and will not be an "at large" candidate as has been the case in the past.

Previously, if there were five candidates and three vacancies, the three receiving the highest number of votes were declared elected. With the "Place" method of electing, each "place" calls for a separate contest.

Places to be filled in the April 3 election will be Place 1, Place 2 and Place 6.

Jake Presley is presently serving in Place 1, and has indicated he will not seek re-election. J. W. Bahlman, president of the board, is in Place 2, and filed Wednesday for re-election to that place. Billy Joe Colburn, Place 6, has filed for re-election to that place.

Delbert Kruse, stock farmer, filed Wednesday as a candidate for Place 1, according to the school business office.

Prospective candidates have until Wednesday, March 3, to file, and must designate the Place on the school board they are seeking. Filing material is available at the school business office.

North Runnels Hospital Board Election Set

The board of directors of North Runnels County Hospital District, during a regular meeting Monday evening, called a regular election to name three members to the board.

Election will be held Saturday, April 3, with boxes at Winters and Wingate.

Terms of office of John W. Norman, E. F. Albro and George R. Hill expire in April. Prospective candidates may contact Board Secretary Bobby Rogers for filing information, and must present a petition with signatures of at least ten qualified voters in order for their names to be placed on the ballot. The petition requirement is contained in the legislation passed by the State Legislature creating the North Runnels County Hospital District.

Citrus Juices:

One of the "juiciest" stories you'll hear this month is about the big volume of grapefruit juice concentrate and canned single-strength orange juice on hand at your grocer's.

There are probably favorite beverages around your house, anyway, but they have a number of other uses.

Grapefruit juice gives a delightfully tart taste to this:

Grapefruit French Dressing

2-3rds cup salad oil
1-4th cup vinegar
1-4th cup grapefruit juice
1 tsp. sugar
1 tsp. salt
1 tsp. paprika
1 tsp. chopped parsley

Combine all the ingredients, cover and store in the refrigerator. Shake well before using. Makes 1 1/4 cups.

This Orange Dressing tastes great over salads:

1 small can frozen orange juice, concentrate, undiluted
1 cup salad oil
1-2 tsp. salt

Dash of red pepper sauce
Mix orange juice concentrate with salad oil, salt and pepper sauce. Cover and store in the refrigerator. Shake well before using with a mixed fruit salad or a scoop of cottage cheese nestled in lettuce leaves. Makes 1 and 1/4 cups.

Make an inviting refresher by beating an egg and a glass of orange juice together.

Another approach is to mix frozen orange juice concentrate with milk instead of water, then beat in an egg.

A lot of peanuts were harvested last year, and supplies are plentiful.

Peanuts to Munch are always popular to have on hand.

2 tablespoons peanut oil
1-4th cup soy sauce
2 cups peanuts, salted, oregano, if desired
onion salt, garlic salt, celery salt.

Combine the peanut oil with the soy sauce. Then stir in the peanuts. Spread over a shallow baking pan and sprinkle generously with onion, garlic and celery salt. If desired, add a scattering of finely crumbled oregano.

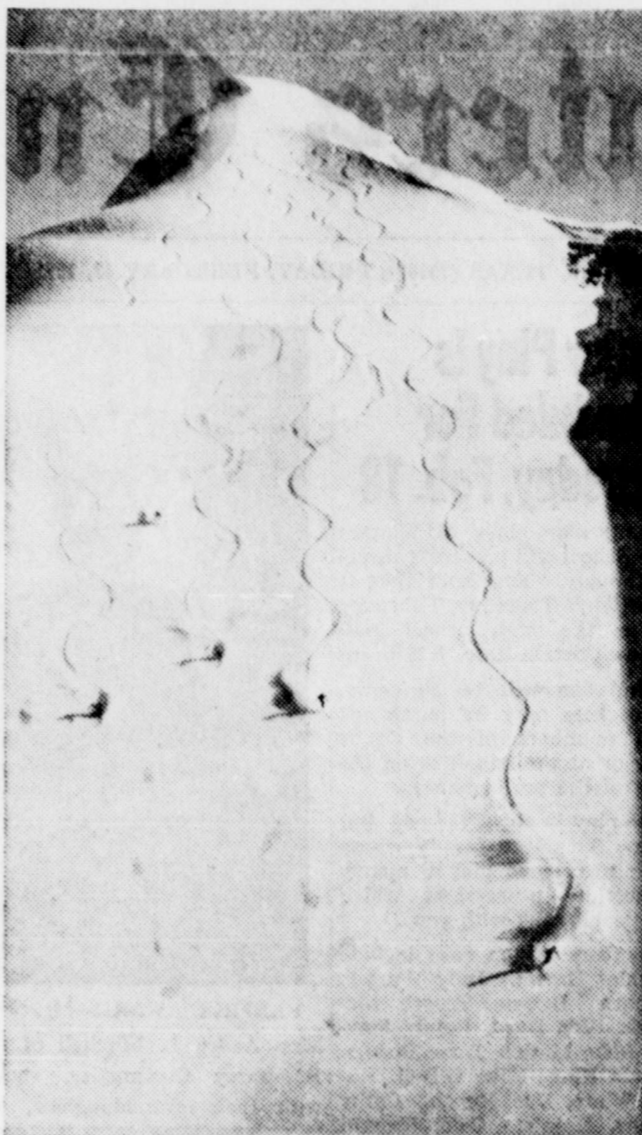

Bake in a 350 degree oven uncovered for about 8 to 10 minutes, stirring occasionally for uniform toasting. Serve either warm or cold.

HOT CHAMBERS

The thrust chambers used in the first stage of Project Apollo Saturn rocket must withstand heat of 5,000 degrees F—half the temperature on the sun's surface. The fuel is used as a coolant by circulating it through tubular thrust chamber walls made of a high-temperature nickel-chromium alloy. This cooling system lowers the thrust chamber walls to a mere 1,000 degrees F.

UNDERGROUND PIPELINE

More than 1,300 miles of piping are used to service the underground mines of the International Nickel Company of Canada.

SKIERS CARVE rickrack patterns as they moderate their descent from peak of The Bugaboos in British Columbia. Scene is one of more than 50 ski pictures in a winter exhibit at New York's Kodak Gallery.

SHOO-IN to match midi and maxi outfits are these shoe fashions displayed at Frankfurt, Germany. Model's costume was inspired by clothes of the '90s.

THE FAMILY LAWYER

FIGHTING BACK

Peifists speak of turning the other cheek. Does the law call for that kind of forbearance? Or may you, when struck, lawfully strike back?

Generally speaking, you may indeed strike back. Your act of violence is forgiven if it is inflicted in your own protection. Courts often refer to the right of self defense as "a primary law of nature."

But it is a right with very distinct limits. Defending yourself is one thing; escalating the conflict is quite another. Take this case:

Janet and Marge were in love with the same man. During an argument, Janet began pulling Marge's hair. Marge retaliated by grabbing a pistol and shooting Janet in the leg. Could Marge justify her action as self defense?

No, ruled a court, because Marge had used considerably more force than the situation called for. When that happens, as one judge put it:

"The character of the combat is changed. The assaulted becomes the assailant."

Furthermore, the right of self defense lasts only as long as the danger lasts.

Suppose a schoolboy hits a passing pedestrian with a snowball. Could the man chase the boy and give him a thrashing in the name of self defense? No, because the danger is ended. The man's motive would be not to defend himself but to punish the boy.

Of course it may be difficult for the person attacked, in the heat of an encounter, to measure his danger. Therefore, the law usually gives him the benefit of the doubt.

In one case, a grocer and his

Guadalupe To Get 10,000 Rainbows

Another 10,000 rainbow trout will be added to the Guadalupe River below Canyon Dam, according to the Texas Parks and Wildlife Department.

Bob Bounds, project leader for the stocking project, said the fish will be dropped at six public access points below the river.

Bounds said the trout have been held at the Federal Fish Hatchery at Inks Lake since Thanksgiving. When they arrived at the hatchery, the fish weighed approximately three ounces each, but they have since grown to one-half of a pound apiece.

This batch of trout should be in excellent condition when they go into the Guadalupe since they have only a short trip to make from the hatchery to the river, said Bounds.

Small spinners, worms and cheese are favored by anglers in catching the fish, according to Bounds. There is no size limit but there is a five per day per fisherman bag limit.

Read the Classified Columns.

wife, taking home their cash receipts late at night, were accosted by a group of rowdies. When one youth laid hold of his wife, the frightened grocer shot and wounded him.

As it turned out, the victim had just wanted to ask for directions. Nevertheless, the grocer was held not liable in court. The judge said self defense may be exercised not only when there is danger but also when there reasonably appears to be danger. And in this case, the danger did seem real.

(A public service feature of the American Bar Association and the State Bar of Texas. Written by Bill Bernard.)

BUSINESS and the STOCK MARKET

By BABSON'S REPORTS INC.
Copyright 1971
AMERICAN BUSINESS ABROAD

By Babson's Reports Inc., Wellesley Hills, Mass., February, 1971. The mercantile history of America reveals that our merchants and traders have actively operated abroad for a great number of years. Clipper ships and other trading vessels provided entry into markets throughout the world in the 18th and 19th centuries.

As the country became more mature, domestic industry began to flourish, and goods were produced in a quantity and variety unequalled in history. With imaginative and aggressive marketing concepts, much of this output found its way abroad. And in time manufacturers began to realize it would be advantageous to produce in foreign lands.

Merchants And Manufacturers

So, for many years markets beyond our shores have held great attraction for U. S. corporations. Foreign sales and profits have in many cases sustained overall corporate growth; and, last year in particular, they served to cushion the impact of the more extensive business overseas is that competition is lighter than in this country; there is also considerable continuing demand for products of every conceivable nature, particularly in the newly awakening countries.

"Coke" is an outstanding example of a well-advertised and well-accepted product in all parts of the world. The parent company, Coca-Cola, derived an estimated 40 per cent of its total 1969 sales of \$1.2 billion from foreign operations. Other U. S. products have become virtual status symbols for many users worldwide. For example, even the old-style Singer sewing machine is still being used by families in African nations and in far-flung parts of India.

A Few Problems Overseas Company operations overseas, however, are not free of risk. For firms with extensive physical plant abroad, the winds of change blowing throughout the world have a chill to them. Nationalist leanings of emerging economic and financial effects upon U. S. firms. Most extreme of these is outright expropriation, with or without compensation. In 1960 Cuba

Mr. and Mrs. A. C. Minzenmayer Will Observe Anniversary February 14th

The children of Mr. and Mrs. A. C. Minzenmayer will honor their parents with a reception, Sunday, February 14, in observance of their thirty-sixth wedding anniversary.

The reception will be held at St. John Lutheran Church, from 3 to 5 o'clock.

Friends and relatives of the family are cordially invited.

seized all assets of U. S. citizens and corporations. These represented \$1.5 billion in value, for which payment has never been made.

Other pitfalls are also encountered in the attitudes of foreign governments. Oil concerns are especially vulnerable to higher taxes and royalty rates, or enforced partnership with their "host" country. Problems are also sometimes created by language, labor, and ethnic differences. And competition is increasing as foreign companies adopt American business methods and discard some of their own traditional work habits. Product marketing of American goods is at times difficult, as a vivid promotion may lose something in the translation. Or a product may be unable to break a habit barrier; "Jell-O" finds no acceptance in Britain, although other gelatins are consumed.

Unstable foreign currencies are another risk, especially in Latin America, as devaluation can seriously hinder operations. In all, however, there is no visible retreat from overseas operations. Capital spending plans for increased foreign plant capacity have been in a strong uptrend for at least each of the past five years, and the upswing is expected to persist, thus emphasizing the value placed on this segment of U. S. industry.

Mrs. O. Z. Foreman is recuperating in Room 36 in the Ballinger hospital.

The Burley Campbells had as Sunday dinner guests Mr. and Mrs. J. M. Martin of San Angelo and Bonnie Clark of Ballinger.

Mrs. Sammy Thomas and baby Max of Dallas are spending the week with the Boyd Grissoms.

Mrs. Grissom returned Friday from Waco where she spent a few days with Mr. and Mrs. John Sims, Melinda and new baby by Kristie.

Mr. and Mrs. Gaston Ernst and Adrianna of San Antonio, Cecil Hambright, Manson Cansey, Glenda, Johnnie and Billie Lopez called on Mrs. Effie Dietz.

Mr. and Mrs. Marvin Hale and Mrs. Lemma Fuller of Coleman met Mr. and Mrs. Lowell Fuller of Snyder in Sweetwater Friday and visited.

Mr. and Mrs. Ira Hale of Miles, and Miss Willie Hale of Ballinger visited the Hales Sunday afternoon.

Mrs. Marion Wood returned Friday from Scott & White Hospital in Temple where she had her arm treated. The report is good.

Mr. and Mrs. L. C. Fuller, Mr. and Mrs. Johnnie Denson, and Mr. and Mrs. Junior Fuller spent Sunday in the home of Mr. and Mrs. Johnny Mathis in Big Spring.

Mr. and Mrs. L. C. Fuller visited the J. B. Denson at Wilmeth Sunday evening. Mrs. M. L. Stone of Talpa visited the Fullers Friday.

Mr. and Mrs. Johnny Denson of Pasadena visited relatives around Crews the past week.

Mr. and Mrs. Douglas Bryan had Sunday dinner with Mr. and Mrs. Dewitt Bryan at Wilmeth.

Mr. and Mrs. Robert Gerhart entertained their grandsons, Jeffrey and Blake O'Dale, Terry, Toby and Joe Gerhart last week. Mr. and Mrs. Herbert Gerhart of Wilcox, Ariz., and Mr. and Mrs. Raymond Kurtz were Friday night visitors.

Donna McBeth was released from the hospital and is staying with her mother, Mrs. L. L. Jernigan in Winters.

Mrs. Greda Schwartz remains in critical condition and was moved to the West Texas Medical Center for further treatment.

Mr. and Mrs. Bill Villers, Jimmy and Peggy of San Angelo, were Sunday guests of the Raymond Kurtz.

Mr. and Mrs. L. A. Faubion and Rodney of Fort Worth were Saturday visitors of Mr. and Mrs. Noble Faubion.

Mr. and Mrs. Arthur Kirby had their grandson Jeff for a few days. On Sunday they had Scotty and Cherrie Gerhart and Mr. and Mrs. Carl Gottschalk as dinner guests.

Mr. and Mrs. L. A. Faubion of Ballinger visited Mr. and Mrs. Marvin Hambright Saturday afternoon.

Mr. and Mrs. A. E. Tounget and Craig of Lubbock visited their parents, Mr. and Mrs. Chester McBeth and Mr. and Mrs. Ralph McWilliams.

Mr. and Mrs. Allen Young of Odessa, cousins of Mrs. Jacob, spent Sunday night with the Walter Jacobs.

Rites Wednesday In Spill Chapel For Eugene Holder, 92

Funeral services for Eugene Holder, 92, were held at 10:30 a. m. Wednesday at Spill Memorial Chapel, with the Rev. V. M. Walters of Elmwood Baptist Church, Abilene, officiating.

Burial was in Northview Cemetery.

Mr. Holder died at 12:55 p. m. Monday in West Texas Medical Center in Abilene.

Eugene Holder was born March 6, 1878, near Rockdale. At the age of eight he moved to the Gay Hill community in Washington County. He became a cowboy at the age of 16, working for the Brown, Goodnite and Chisum ranches, and worked his way into Oklahoma.

For a number of years he operated a boarding house and saloon in Tomball, Okla. In 1912 he returned to Texas and in 1921 moved to Rowena, where he farmed.

After the death of his mother in 1932, he moved to San Angelo. In 1967 he moved to Shady Oaks Lodge.

He fractured a hip January 21 and had been hospitalized since. He was a member of the Methodist Church.

Survivors include two sisters, Mrs. Julia Shelly of San Bernardino, Calif., and Mrs. Hattie Williams of Golden Age Nursing Home in Brownwood; and a number of nieces and nephews, including Mrs. Willie Jonas of Abilene and Robert Holder of Winters.

IN BALDWIN HOME

Mrs. Richard Pearce visited several days in the home of her parents, Mr. and Mrs. Buford Baldwin, while her husband, Dr. (Capt.) Richard Pearce, a flight surgeon with the U. S. Air Force, accompanied General Jack Cotton on a two-week trip to the South Pacific, Southeast Asia and Japan. Dr. Pearce is stationed at Altus, Okla. Also in the Baldwin home were their son, Bill Baldwin, and a friend, Mark Petty. They are students at Texas Tech.

Mary Martha Circle Meeting Tuesday

Mrs. Carl Baldwin was hostess for the Mary Martha Circle, WSCS, First United Methodist Church, Tuesday morning. Mrs. J. D. Vinson presided for the

business meeting. Mrs. Roy Crawford presented the program, "A Time For New Risks." Assisting in the program were Mesdames August McWilliams, Gattis Neely, Vada Babston, Roy Crawford, W. T. Nichols, and J. D. Vinson.

Refreshments were served to Mesdames Gattis Neely, August McWilliams, D. A. Dobbins, Vada Babston, Roy Crawford, W. T. Nichols, and J. D. Vinson.

STATE Capital NEWS

By VERN SANFORD

AUSTIN, Tex. —According to a 14-month nationwide study by the Citizens Conference on State Legislatures, the Texas Legislature ranks 38th among all 50 states.

Study reported that the Lieutenant Governor has too much power, and suggested that some of it be transferred to the President Pro Tempore of the Senate. CCL came out strong for annual sessions of the Legislature and found \$15,000 a reasonable annual pay for senators and representatives (who now get \$4,800).

Conference also suggested that Texas has far too many legislative standing committees (72 in all) and that 15 for each house would be plenty. A joint hearing by House-Senate panels would also save time, the study maintained. Broad powers of the Lieutenant Governor, said CCL, are a "hindrance to the Senate developing leadership of its own choosing." Powers include appointment of committee chairmen, assigning bills to committees and casting tie-breaking votes.

States getting the best rankings were, in this order, California, New York, Illinois, Florida, Wisconsin, Iowa, Hawaii, Michigan, Nebraska and Minnesota.

Texas ranked 45th in ability to control its own activities, 43rd in the use of available information, 36th in accountability to constituency and 17th in being representative of the state's varied interests and population.

AUTO RATE REHEARING SOUGHT

Texas Automobile Insurance Service Office is seeking a rehearing on car insurance rates that were ordered by the State Insurance Board in December. Counsel for TAISO and its 325 member companies filed official notice asking that the board re-examine the adequacy of rates it proposed to become effective January 1.

The Insurance industry urged average overall 27.7 per cent increase statewide. Following hearings in Austin, Dallas and Houston, the Board agreed to grant a 14 per cent hike. Insurance Board staff had recommended 18 per cent.

Companies contend that "the use of a 25 per cent limitation on rate increases by coverage, classification and territory, without a specific allowance for catastrophes, results in confiscatory rates. . . which is not in keeping with the Texas Insurance Code."

REGISTRATION TO REOPEN

Voter registration is due to reopen for the month of February. Legislature passed a bill to extend the sign-up beyond January 31, and Gov. Preston Smith signed it into law.

Sen. Joe J. Bernal of San Antonio, who sponsored the measure, said that the bill shows the Legislature's good faith by getting in line with the Federal Court decision. It threw out the annual voter registration requirement and criticized the gap between the end of the registration period and the election date.

A constitutional amendment proposal to wipe out Texas annual registration requirement by state action and other bills to authorize a registration-by-voting system are now pending in the Legislature. Main argument about the latter is over whether registration should be for a two or a four-year period.

AG OPINIONS

State Building Commission has authority to contract for equipment as part of a modernization, remodeling or building-construction project, Atty. Gen. Crawford C. Martin held.

In other recent opinions, Martin said that: "Duties prescribed by the legislature for a position classification officer, state auditor and a legislative audit committee, relating to a classification plan for state employees, are constitutional."

The maximum compensation for the Grayson County chief deputy sheriff is \$9,964; other deputies \$8,737; and the base pay for two assistant county attorneys is \$3,600 and other assistants \$2,400.

Anthony Independent School District may select as its depository a national bank located in that part of town which is in New Mexico, but may not terminate the present contract until it expires.

"Woman's Club of Houston is not entitled, under facts submitted, to an exemption from ad valorem taxes as institution of purely public charity."

COURTS SPEAK

Texas Supreme Court held that the probate court of a county may not order a convict transferred from prison to a state mental hospital to receive treatment for drug addiction. Jury trial was ordered by Third Court of Civil Appeals in an insurance suit arising from a fire at the Atlas missile silo in Runnels County.

Supreme Court invalidated San Antonio zoning ordinance amendment which would have allowed doctors to locate a clinic in a residential area.

APPOINTMENTS

Jack R. Stone of Wells was nominated by the governor to succeed L. P. (Pete) Gilvin of Amarillo on the State Parks and Wildlife Commission when Gilvin's term expired February 1. Smith appointed Clyde Whiteside of Seymour to the Board of Pardons and Paroles, succeeding 18-year-veteran Jack Ross of Austin.

To succeed Whiteside, Smith nominated William H. Heatly, 26, of Paducah as district attorney of the 50th district. Young Heatly is the son of State Rep. William S. Heatly of Paducah, chairman of the House of Representatives appropriations committee.

Smith selected Lealand W. Greene of Snyder as district attorney of 132nd judicial district, replacing Tommie J. Mills of Snyder who resigned.

Governor re-appointed Otha F. Dent of Austin to the Texas Water Rights Commission. He redesignated Randy Pendleton of Andrews as director of division of state-federal relations in Washington.

SPECIAL ELECTION MAY 18

Four constitutional amendments were passed by the Legislature in overtime sessions and a special statewide election set for May 18.

Following amendments were approved for the May ballot:

SJR 5 — To remove the Constitutional ceiling on aid to the aged, blind and disabled and fix a \$55 million maximum on aid to families with dependent children. An \$80 million ceiling now applies to all four categories. Unless it is increased (via the May vote), reductions in AFDC will be necessary.

SJR 15 — To establish an of-

ficial state commission to map ethical standards for state legislators and other officials and to set their pay. Critics lambasted the measure as a device of lawmakers to get a pay raise at a time when the public is demanding legislative reforms.

SJR 17 — Authorizing a \$100 million bond issue to finance state aid to local units of government on water treatment plans.

HJR 21 — To permit submission of future constitutional amendment proposals in special as well as regular sessions.

First on the ballot, determined by public drawing, will be SJR 15. Second will be HJR 21; third SJR 5 and fourth SJR 17.

A key proposal of Governor Smith's, to tap school land mineral lease-royalty incomes for current spending, (depended on for \$80 million toward balancing the new budget) fell by the wayside.

Lt. Gov. Ben Barnes strongly recommended that the Legislature write a single-year budget which would dilute the tax bill necessary for this year, but necessitate another one in 1972.

Barnes proposed re-alignment of priorities for the use of revenue flowing through the omnibus clearing fund as a way to avert an immediate welfare crisis without deficit financing. House revenue and tax committee dusted off a sales and cigarette tax bill, just in case.

SHORT SNORTS

Texas Water Development Board authorized the sale of \$25 million in development bonds, with bids to be opened February 24.

Secretary of Agriculture advised the Texas State Department of Health of its intentions to take over the meat inspection program in 15 states, including Texas, unless several packing plants meet Federal standards soon.

House committee studying congressional and legislative redistricting plans a series of statewide hearings for "local advice."

Education Commissioner J. W. Edgar ruled that the Crystal City Independent School District failed to show justifiable cause to reassign or dismiss Supt. John Briggs and ordered his contract honored.

A record number of 31.6 mil-

Boat Owners: Be Sure Your Lights Are Working

AUSTIN—By checking boat lights before the long haul to the lake, many boat owners can save themselves a spoiled trip, according to George Cook, director of Water Safety Services for the Texas Parks and Wildlife Department.

Most motorboats in Texas fit into the less than 16-foot long or the 16-foot long to less than 26-foot long categories, said Cook. These boats are required to have, first, a bright white light aft which can be seen in a 360-degree radius.

In addition, these boats must have a combined lantern in the fore part of the vessel and lower than the white light which shows red 112.5 degrees to port and green 112.5 degrees to starboard.

Any motorboat may carry and exhibit lights required for larger vessels including a separate red light to port and a separate green light to starboard.

They may also exhibit a white light fore. Making sure these lights are in working order before the trip begins could prevent an accident or arrest, said Cook.

INTERNATIONAL SET

In 1968, 21 countries were producing or circulating 44 denominations of pure nickel coins and 94 countries were producing or circulating 271 denominations of 75 percent copper, 25 percent nickel coins.

TRAINS TO PLAINS

The first rapid transit system in the U. S. to connect a city airport and downtown opened in November, 1968, to speed Cleveland airline passengers to Hopkins International Airport. The new, nickel stainless steel-sheathed cars make the trip in half the time it takes by car.

lion visits were logged at Texas tourist attractions during 1970. REMINDER: Auto registration renewal season opened February 1.

Southwest Bank and Trust proposes a bank at Sharpstown Center, Houston; Arcadia is the proposed site for a new Santa Fe State Bank.

Phony Spring Is Confusing To Bass, Spawns Earlier

AUSTIN—If you're perplexed by recent summery weather, consider the poor male black bass.

When the water warms up to about 59 degrees, he starts clearing a place for a nest and then seeks a female to lay eggs in it.

This has happened to both wild and fish hatchery bass during the past weeks in Southeast Texas, according to Texas Parks and Wildlife Department Biologist Lonnie Peters.

The spawn normally will not live, as the next prolonged cold snap will drive the male bass

away from the nest and leave the eggs unprotected.

Luckily, spawning can be and often is repeated and the chances for successful spawning later in the spring are still good. However, Peters said, a series of alternating warm and cold periods could limit the spawn to the extent that a bass fry shortage could occur in state fish hatcheries for stocking purposes.

Fish hatchery personnel try to restrain the hatchery bass from spawning too early by keeping water circulating through the various ponds. The resulting variations in temperature tend to discourage the early spawn.

Some owe success in life to luck, some owe it to their mothers, some owe it to free advice they didn't take from others.

HEALTH COLUMN

For many years, the various strains of bacteria that cause a dangerous disease called meningitis were successfully treated with drugs. But the usefulness of these drugs may now become somewhat limited. Dr. S. J. Lerro, medical consultant with the Texas State Department of Health, reports that more and more strains of meningitis are becoming drug-resistant.

Meningitis is an acute bacterial disease. It causes inflammation of the three membranes which envelop the brain and spinal cord. The disease may occur as a brief illness with recovery; or, it may pursue a sudden, severe course with delirium, stupor, coma, and death within a matter of hours. Discharges from the nose and throat of carriers of the bacteria which cause the disease are the source of most infections.

In a study of meningitis infections in Texas from 1964 thru 1968, Dr. Lerro found that two types — which doctors call Groups B and C — were responsible for most of the cases. In the last several years, there has been a definite increase in the percentage of Group C organisms resistant to sulfadiazine. In 1966, only 15 percent of the specimens from Group C were resistant to administration of the drug, compared to 77 percent in 1968.

Administration of small doses of sulfa drugs to large populations over a long period of time may have resulted in favoring the survival of a drug-resistant strain.

But the outlook is not completely bleak. Much progress has been made in research against the disease. An experimental vaccine has been developed that provides 90 percent protection against one of the three major types of meningitis for up to a year. Of course this means there is no vaccine for the other two types. But, Dr. Lerro reports researchers are working diligently on a three-way vaccine which will be effective against all three forms.

NEWER, TOUGHER GERMS

Tougher breeds of germs are on the scene. Throughout the world. And they are transmitting their pattern for survival to other bacteria.

There is now a worldwide increase in drug-resistant bacteria. Some TB germs, for instance, have developed an immunity to isoniazid, a drug used to treat and even prevent TB. Once the germs develop a resistant strain to one drug, they may also become more resistant to other drugs, too. And they can pass on the resistance factor to other bacteria.

Very little is known about the phenomenon yet. Except that it is on the upswing. Last fall the New York Academy of Sciences called for a conference of scientists from eleven countries to delve into the situation. One of their concerns had the eerie aspect of science fiction.

The problem is the antibiotics farmers feed their livestock to stimulate their growth and make them fatter. Scientists now suspect that bacteria in these livestock may be developing strains resistant to some of the antibiotics. What happens when people eat meat from animals who harbor drug-resistant bacteria? Can the resistance factor spread to harmful and harmless bacteria in the human body, thus making it immune to drugs that treat disease?

The scientists did not know the answer. But the British government is now taking measures to limit the antibiotics fed to animals. The American government is now studying the situation too. There may be ways to control the problem before it really develops.

At any rate, there are, fortunately, effective ways to control most TB germs and other bacteria. The overwhelming majority of TB germs can still be done in by drugs like isoniazid. To find out more about TB and how it is treated, contact your local tuberculosis and respiratory disease association. They have the facts.

ANCIENT ALLOY

Although natural alloys containing nickel were worked into tools, weapons and other implements more than 5,000 years ago it was not until 1751 that the metal was identified and isolated as a separate element.

"THREE-CENT" NICKEL

The U. S. three-cent "nickel" piece was introduced in 1865, one year before the five-cent nickel. Both coins were made of an alloy of 75 percent copper and 25 percent nickel.

Perfectionism is a dangerous state of mind in an imperfect world.

SEOUL DANCER. A Korean dancer performs a sword dance at Seoul, where a group of classical musicians and dancers presented a program to commemorate the 25th anniversary of Korea's liberation.

ALL TIED UP in her work might be said of Italian actress Orhidea De Santis. Her work happens to be looking beautiful for a new film, "The Girl of the Lake."

YOU NAME IT and he probably has it for sale. Pots, pans, bells, second-hand articles, antiques and junk—all are available at Madrid's flea market.

No Ceasefire In War Against TB

The Vietnam war ripped the social fabric of America in unforeseen ways. Now that war may also threaten the control of tuberculosis here.

The incidence of TB in the United States is among the lowest in the world. Because of highly effective nationwide control programs. But the Vietnamese population, in sharp contrast, has one of the highest rates of active—as well as drug resistant—TB anywhere. More than 500,000 American servicemen have been stationed in Vietnam.

In a recent issue of "Archives of Environmental Health," Colonel R. G. Cowley reported that a random chest X-ray survey of Vietnamese civilians showed fully one-third of those over 15 years of age had radiologic evidence of active TB. A WHO survey of sputum samples from Vietnamese showed a very high percentage of the kind of TB that is resistant to treatment by the usual drug regimens. Chaotic war conditions in Vietnam have presented even the most elementary attempts at TB control programs.

According to Colonel Cowley, a five-year analysis of military personnel showed clear-cut indications that drug-resistant strains of TB among the Vietnamese are producing significant disease in U. S. troops. Some disease is detected early. But, "there is a distinct possibility that a number of cases of drug-resistant TB resulting from exposure in Vietnam," says the Colonel, "will become apparent clinically in settings far removed in distance and time from their military origin." In other words, at home.

Military and civilian agencies are alerted to the problem. Servicemen themselves should request tuberculin skin tests in their medical checkups in the years to come. Taking pills can prevent a tuberculous infection from developing into active disease. For more information on ways to control the disease, contact your tuberculosis and respiratory disease association.

Catfish Spreut More "Noses" When Water Is Muddy

A catfish "nose" how to get around in muddy water.

In fact, a catfish has more noses than most any kind of animal.

He is equipped for smelling food better than any other fresh-water fish because of dozens of sensory buds in his mouth, whiskers, head and lateral line.

The most unusual part of his ability to smell is that the muddier the water becomes, the more sensory buds are activated on the various locations of the fish's body.

Marion Toole, inland fisheries coordinator for the Texas Parks and Wildlife Department, said experiments with radioactive substances have shown that individual catfish taken from clear water and placed in turbid water develop new sensory buds over a period of months. This is because the fish is able to rely less on his eyes to find food and is forced to use his sense of smell.

This ability to find food in muddy waters gives the catfish an advantage over "sight-feeding" fish such as bass. Therefore, when a new lake fills and remains turbid you can usually expect it will be a better catfish fishing lake than a bass lake Toole said.

SPARKING NICKEL

More than 600 million automobile spark plugs are manufactured in the U. S. each year. For dependable service, 97 percent nickel resistance wire is used in each plug.

are alerted to the problem. Servicemen themselves should request tuberculin skin tests in their medical checkups in the years to come. Taking pills can prevent a tuberculous infection from developing into active disease. For more information on ways to control the disease, contact your tuberculosis and respiratory disease association.

A ROSE IS A ROSE, but this one seems to have a split personality. Grown on a bush that had borne only red roses previously, the little flower bloomed half red and half white at San Bernardino, Calif.

COUNTY AGENT'S WEEKLY NOTES

The loss of a calf crop can result from the use of a non-breeding herd sire and that could amount to a sizeable disaster. The chance for such a happening can largely be eliminated by having a fertility check of the sire or sires.

The local veterinarian can make the check and predict with a high degree of accuracy the breeding potential of the herd sire before he is turned out with the cow herd.

The semen evaluation on the sire should be done a few weeks before the breeding season. In cases of substandard breeders, this allows for sufficient time to find and test replacements.

Bulls which do not meet minimum standards can be sold or held for retest depending upon the advice of the veterinarian.

Semen testing also provides an opportune time for a complete physical of the bull which should include the feet and legs.

Food production is a highly complex business, and top output involves the use of numerous chemicals for disease, insect and weed control. Chemical residues have become very important. Residues permissible by law are expressed in terms of parts per million.

One part in a million, more concisely written "1.0 ppm," is cutting it pretty thin, but it is a term that is of much interest to consumers as well as agricultural producers.

Since most people have never given much thought to what the term implies: One inch is 1.0 ppm in 16 miles. A postage stamp is 1.0 ppm of the average adult's weight. A one gram sewing needle is 1.0 ppm of a one-ton haystack. One minute is 1.0 ppm of two years.

Thus, one part per million is a surprisingly small entity. It is important to the consumer to have some knowledge of how little pesticide residue actually remains on the fresh produce he buys. It is equally important for the grower to understand how strict are the regulations under which he must operate to come within the limits of residue as required by law.

The timing of applications of pesticides and the strict observation of the amounts recommended by the manufacturer are mighty important.

As aids to producers, the Texas Agricultural Extension Service makes available guides, leaflets and other publications containing the latest information and suggestions for safe use of chemicals in agriculture. This material is available from the county Extension Service office.

CATTLE LICE

There is no profit in feeding cattle lice. These parasites are among the most damaging to beef cattle.

Infested cattle spend a lot of time rubbing against fences, posts and other objects due to the annoyance caused by these pests. More feed is required to maintain the condition of breeding cattle and to keep feedlot

cattle gaining.

Infested cows lose weight and their calves become prime targets for the pests. Reduced weaning weights of calves can result when control measures are not used.

Cattle lice are common over the entire state and include both the biting and sucking types. Their populations build up rapidly after cool weather arrives.

Sucking lice, short and long-nosed, pierce the animal's skin and feed by sucking blood. They are usually found on the sides of the animal's neck, on the brislet, back, inner surface of the thighs, tail and around the nose, ears and eyes. Chewing lice are smaller and are usually found on top of the shoulders and around the root of the tail but also may infest other parts of the body.

Several chemicals are available for controlling lice as well as other external parasites of farm livestock. Because of restrictions and safety suggestions which apply to their use, it is suggested that interested stockmen come by the county agent's office for the latest control recommendations.

FEBRUARY GARDEN CALENDAR

1. Continue to plant trees and shrubs.
2. Don't neglect the recently transplanted landscape plants. Dry winter winds can soon dry out the soil and damage plants before they become established.
3. Prune established hybrid tea and florabunda roses. Delay pruning climbing roses until after the peak of spring bloom.

4. Spring flowering trees and shrubs should not be pruned until after they have bloomed. All necessary pruning of summer flowering trees and shrubs as well as most evergreen shrubs should be completed this month before pruning. Unless the removal of plant parts can be justified, it should not be done. Consult B-977, Modern Pruning Methods for more information. This is available at the county agent's office.

5. Clean up lawn area removing any fallen leaves and dead grass before fertilizing.
6. Fertilize lawns in late February or early March just as new growth starts. In the absence of a soil test, use 16-20-0 fertilizer at the rate of 8 to 12 pounds per 100 square feet.

7. If flower beds are prepared the following seeds may be sown directly in the beds at this time: Balsam, Calendula, Four O'Clocks, Hollyhocks, Cone

Flower, California Poppy, Annual Phlox and Nasturtium.

8. The following may be seeded in protected flats for transplanting later: Asters, Candelstick Tree, Coleus, Cosmos, Cypress Vine, Petunias, Dusty Miller, Geranium, Periwinkle and other favorites.

9. Check new plant growth for aphids. Control with Melathion or Diazinon.
10. Those pansy beds should receive another light application of fertilizer. Check underside of leaves for aphids.

11. Don't neglect tender plants in the event of a late winter storm. Be prepared to provide temporary cover.

12. Gladiolus bulbs should be planted now. Space plantings dates at two week intervals to extend blooming season.

13. New growth on spring flowering bulbs should be no cause for alarm if cold weather reappears unless the flower buds are starting to push thru. Unless protected, the new flower buds are sometimes damaged by a late spring freeze.

14. Remember—cut flowers and potted plants make excellent Valentines.

Mateo S. Torres Died Tuesday, Funeral Thursday

Mateo S. Torres Sr., 81, died at 4:35 p. m. Tuesday in Merrill Nursing Home following a brief illness.

Funeral was held at 2 p. m. Thursday from Mt. Carmel Catholic Church. Burial was in Northview Cemetery under the direction of Spill Funeral Home.

Mateo S. Torres was born June 13, 1889, at Rio Grande City. In 1906 he married Refugia Perez at Floresville. They lived for a number of years at Floresville and Crystal. In 1945 he moved to Winters. Mrs. Torres died in 1955.

Mr. Torres was a member of Mt. Carmel Catholic Church in Winters.

Survivors include two sons, Mateo Torres Jr., and Jesus Torres, both of Abilene; four daughters, Mrs. Felista Castillo of Weinert, Mrs. Margarito Sanchez of Winters, Mrs. Trinidad Ledesma of Pontiac, Mich., and Mrs. Dolores Hernandez of Abilene.

Dale Sewing Club Meeting Tuesday

The Dale Sewing Club met Tuesday evening in the home of Mr. and Mrs. I. W. Rodgers. Games of 42 were played.

Refreshments were served to Mesdames Jack Whittenberg, Charlie Adams, Norbert Uecker, Verge Fisher, Tip McKnight, August Stoecker, Clifton Davis, Ernest Smith, Ernest Thormeyer, Carroll Stoecker, Clifford Lehman, Lloyd Compton, Walter Kruse, and I. W. Rodgers.

The next meeting will be with Mrs. Leland Hoppe.

SLOW GROWER

A future source of nickel may be metallic nodules found on the ocean floor. From the size of a pinhead to more than a foot in diameter, these nodules are millions of years old and grow at the rate of four millimeters each million years.

lene; 43 grandchildren and 67 great-grandchildren. Grandsons served as pallbearers.

PUBLIC NOTICE

Proposed **CONSTITUTIONAL AMENDMENT NUMBER FOUR ON THE BALLOT (SJR 17)** Special Election May 18, 1971

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto a new Section 49-d-1 to read as follows: "Section 49-d-1. (a) The Texas Water Development Board shall upon direction of the Texas Water Quality Board, or any successor agency designated by the Legislature, issue additional Texas Water Development Bonds up to an additional aggregate principal amount of One Hundred Million Dollars (\$100,000,000) to provide grants, loans, or any combination of grants and loans for water quality enhancement purposes as established by the Legislature. The Texas Water Quality Board or any successor agency designated by the Legislature may make such grants and loans to political subdivisions or bodies politic and corporate of the State of Texas, including municipal corporations, river authorities, conservation and reclamation districts, and districts created or organized or authorized to be created or organized under Article XVI, Section 59, or Article III, Section 52, of this Constitu-

tion, State agencies, and interstate agencies and compact commissions to which the State of Texas is a party, and upon such terms and conditions as the Legislature may authorize by general law. The bonds shall be issued for such terms, in such denominations, form and installments, and upon such conditions as the Legislature may authorize.

(b) The proceeds from the sale of such bonds shall be deposited in the Texas Water Development Fund to be invested and administered as prescribed by law.

(c) The bonds authorized in this Section 49-d-1 and all bonds authorized by Sections 49-c and 49-d of Article III shall bear interest at not more than 6% per annum and mature as the Texas Water Development Board shall prescribe, subject to the limitations as may be imposed by the Legislature.

(d) The Texas Water Development Fund shall be used for the purposes heretofore permitted by, and subject to the limitations in Sections 49-c, 49-d and 49-d-1; provided, however, that the financial assistance may be made pursuant to the provisions of Sections 49-c, 49-d and 49-d-1 subject only to the availability

of funds and without regard to the provisions in Section 49-c that such financial assistance shall terminate after December 31, 1982.

(e) Texas Water Development Bonds are secured by the general credit of the State and shall after approval by the Attorney General, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute general obligations of the State of Texas under the Constitution of Texas.

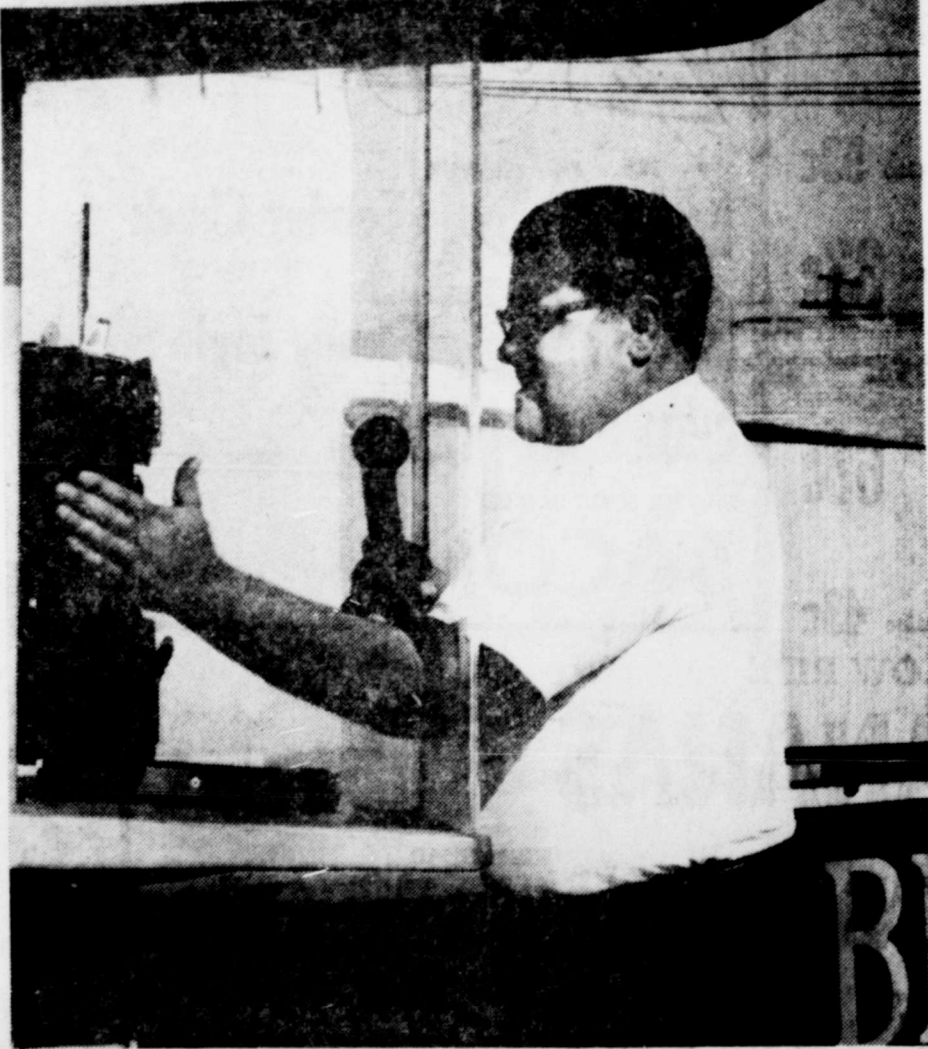

(f) Should the Legislature enact enabling laws in anticipation of the adoption of this amendment, such Acts shall not be void by reason of their anticipatory character.

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on Tuesday, May 18, 1971, at which election all ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment to authorize the issuance of One Hundred Million Dollars (\$100,000,000) bonds to provide financial assistance to cities and other public agencies for water quality enhancement purposes, providing for the improvement and continuance of the water resources program, and establishing an interest ceiling on Water Development Bonds at 6% per annum."

Reception Sunday, Feb. 14, Will Honor Mr. and Mrs. L. B. Gibbs of Talpa

Mr. and Mrs. L. B. Gibbs of Rt. 2, Talpa will be honored on their fiftieth wedding anniversary, Sunday, February 14, in the home of their son, Mr. and Mrs. Connie Gibbs of Crews.

Hosting the affair will be the children of the couple, Mrs. Lee Yarborough of Odessa, Mr. and Mrs. Ralph Norton of Cisco, Mr. and Mrs. Horace Gibbs of Rising Star, and Mr. and Mrs. Connie Gibbs of Crews.

Friends of the couple are invited to call from two to five o'clock in the afternoon.

Mr. and Mrs. Gibbs were married Feb. 20, 1921, in Winters. They have nine grandchildren and six great-grandchildren.

Runnels School Lunch Group Met In Ballinger

The Runnels County School Lunchroom organization met Saturday in Ballinger High School, with Mrs. Margaret Russell of Winters presiding.

Mrs. Midgley reported on the books the Ballinger group had placed in the Seventh Street Baptist Church library in memory of Mrs. W. P. Ray.

The group discussed the state meeting which will be held in Abilene. The program was presented by Dave Brown, special education teacher of Ballinger.

Twenty-five members and one guest were present.

Rosena will host the next meeting of the group on February 27.

About the handiest thing any hunter can have is a gun with a clip magazine.

It took a long time for clip magazines to come into the picture on big caliber rifles. But most of the companies now are making them. This is particularly true of the automatic as well as some lever-actions and pumps.

Savage produced a rifle for clip magazines for years, and today most of its best models have clip magazines.

Reason behind this feature is very simple. It permits the easy carrying of the extra loads. This means you have a quick refill if you should try at some running animal. It also permits the use of different bullet weights, a worthwhile advantage in some hunting areas.

For instance, if you are shooting across a wide canyon, you may feel a 150 or 180 grain bullet is best. But if you are facing a big bear or expecting a moose, then you may want to go up to 200 grains. This, in the event you are using some of the larger calibers. Quick available power often is invaluable.

Although some of the manufacturers producing bolt action shotguns equipped them with box magazines, it has only been within the last dozen years that they have been available on the general run of sporting rifles.

Now Winchester, Remington, Savage and others are using box magazines on some of their guns.

They recognized the safety feature as well as the convenience and simplicity accomplished through the speed of loading and reloading.

Safety certainly is a highly important feature be you walking, riding or relaxing. One thing for sure, no loaded gun should be carried in an automobile. It is dangerous to even have cartridges in the magazine when driving. But with the detachable clip the bullets can be slipped out of the action, pocketed and still be ready for immediate use. . . when you get out of the car.

That handy clip eliminates the piecemeal ejection of cartridges when the hunt is over. You merely detach the magazine, clear the chamber and that's all there is to it. Reloading takes only seconds.

Walleyes Doing Well In Three Texas Lakes

AUSTIN — Since the Texas Parks and Wildlife Department started stocking walleyes in Lake Meredith in 1965, the northern imports have been thriving and doing what biologists had hoped—eating lots of undesirable fish and furnishing sport for fishermen.

In addition to Lake Meredith, two other lakes, Diversion Reservoir in Archer and Baylor Counties and Franklin Reservoir in Franklin County, now have walleyes.

The walleyes have been doing well although the Franklin Reservoir fish have had some rather unusual problems. The fish were stocked in several farm ponds which would have been inundated when the new reservoir reached the anticipated level. The rains which were supposed to fill Franklin never came, and biologists were surprised when the fish survived the summer in the small ponds since walleyes need cool water.

Not only did the fish survive, but they grew from an eighth inch to nine inches in six months. Franklin Reservoir, which has been closed to fishing in order to allow the fish to establish themselves, is filling, biologists are hoping the holding ponds will be inundated this year.

Angler activity at Diversion Reservoir picked up considerably since fishermen started catching walleyes there. Three million of the walleyes were stocked during the springs of 1969 and 1970, and many of the fish are now 13 to 14 inches long and weigh one-half pound.

Most of the fishermen catching walleyes from Diversion Reservoir are using minnows while fishing for crappie.

Additional stockings of walleyes are planned for Franklin and Diversion Reservoir this spring.

Some of the walleyes at Lake Meredith have reached the 10-pound category and some day may reach 12 pounds. They have spawned, and biologists are capturing the offspring of fish they stocked years before. The average now is 4 1/2 to five pounds.

Biologists in the Panhandle say they are encouraged by the dietary habits of the walleyes. Gizzard shad accounted for more than 68 percent of the walleyes' diet, according to a recent study.

Because they are a schooling fish, walleyes are much more effective predator of undesirable species than the native black bass, according to Marion Toole, inland fisheries coordinator for the Parks and Wildlife Department.

Biologists working on the Lake Meredith stocking project say most fishermen have not learned how to catch walleyes yet. "Fishermen up here are divided into two groups," said one biologist, "those who catch walleyes, and those who don't."

Successful fishermen during the winter have been bumping white jigs on the bottom and during the summer trolling spinner and worm rigs designed to run six to eight inches from the bottom. Trolling speed should be at the same rate of speed as a man rowing the boat.

MRS. RICHARD SHARPES

Linda Manis, Richard Sharpes Wed In Ceremonies At San Angelo Church

Linda Manis became the bride of Richard Sharpes during a ceremony Saturday in the Holy Angels Church in San Angelo.

The bride is the daughter of Mr. and Mrs. S. A. Manis of 3123 San Antonio, San Angelo. The bridegroom's parents are Mr. and Mrs. Bill Sharpes of Winters.

Officiating was the Rev. Timothy J. Murphy, pastor. Mrs. John Jones, organist, presented wedding music.

The bride wore a formal Empire gown of satin, overlaid with lace. The gown featured long puffed sleeves and low scallops at the short hem.

Miss Linda Cooksey was maid of honor, and Miss Tresa Sharpes of Winters, sister of the bridegroom, was bridesmaid.

Mike Wilhelm served as best man and Sam Holming of Marathon was groomsmen.

Ushers were J. W. Hawkins of Eldorado and Darrel Kline. A reception was held in the church following the ceremony. Serving in the house party were

Miss Deryl Williams, Miss Linda Thomason, Miss Vanessa Payne and Mrs. Larry Kline.

Mrs. Sharpes is a graduate of San Angelo Central High School where she was a member of the choir for three years and of the Bobcat Boosters for one year.

Mr. Sharpes is a freshman student at Angelo State University. He is a graduate of Winters High School.

After a wedding trip through the Hill Country, the couple are at home at 618 W Avenue, San Angelo.

The bridegroom's parents hosted the rehearsal dinner in Western Skies Steak House.

Emergency Frying Pan

Did you forget your frying pan, Mr. Camper? The top off that 5-gallon lard can will serve in an emergency. At least it did in one instance.

And the hub cap off the old jalopie was a substitute used by another outdoorsman.

Vitamins Fight Effects of Smog, Cigarette Smoke

Vitamins may help fight off the effects of smog and cigarette smoke on the lungs. The results of lab experiments are inconclusive as yet. But intriguing.

Fat antioxidants such as vitamin E in the diet may offer some protection against respiratory disease caused by air pollution. Tests with rats—conducted at Battelle Memorial Institute's Northwest Laboratories—indicate, they say, that vitamin E is beneficial in protecting the lungs from obstructive diseases, such as emphysema and edema, that may be caused by smog.

The researchers at the Institute found that rats given diets fortified with vitamin E lived twice as long as unfortified rats in an atmosphere simulating air pollution concentrations like those found in Los Angeles or Tokyo on a bad day.

In another experiment with quail, biochemists at the Food and Drug Administration found evidence to suggest that vitamin C may protect against the effects of ingested cadmium—an

industrial waste now found in water, air, food, and even cigarettes. Also ingested cadmium markedly depressed the growth rate of one group of quail, but shots of vitamin C neutralized the effects of the cadmium on a second group.

Vitamins may—or may not—be one of the ways to combat internally the pollution all around us. The evidence bears more watching. But there are other ways to curb air pollution and cigarette smoking. And your local tuberculosis and respiratory disease association is working on these ways. Find out more about them. It's a matter of life and breath.

**Capt. James Bell
With Unit Awarded
President's Citation**

WITH U. S. COMBAT AIR FORCES, Vietnam — Captain James R. Bell is a member of the 460th Tactical Reconnaissance Wing in Vietnam that has earned the Presidential Unit Citation for a third time.

The award is the highest U. S. honor accorded a military organization.

Capt. Bell is the son of James R. Bell Sr. of Charleston, W. Va. His wife, Linda, is the daughter of Mr. and Mrs. George R. Hill of Winters.

The 460th, operating from various locations in the theater, was cited for extraordinary heroism while collecting data upon which much of the success of U. S. and allied air and ground combat operations depend.

Ground personnel were especially recognized for outstanding support of a variety of specially equipped aircraft that range from World War II vintage C-47 Skytrains to supersonic F-4 Phantom jets even while under enemy rocket attack. Wing aircrews were honored for flying unarmed, unescorted aircraft day and night in the midst of hostile fire to obtain vital information concerning enemy activity.

Captain Bell, a pilot at Tan Son Nhut Air Base, will wear a distinctive service ribbon to mark his affiliation with the 460th.

The captain, a 1961 graduate of Charleston High School, received a BS degree in 1966 from West Virginia University and was commissioned there through the Reserve Officers Training Corps program. He is a member of Phi Kappa Psi.

**Philip Colehour,
Former Resident,
Died In Knox City**

Memorial services for Philip Colehour, 63, a former resident of Winters, will be at 3 p. m. Saturday in the Baptist Church in Knox City.

Mr. Colehour's body was donated to science. Mr. Colehour died at 2:30 a. m. Sunday in Knox City County Hospital after suffering a stroke Saturday morning.

He was Winters High School librarian for two years, leaving here in 1968.

Born July 6, 1907, in Mount Carroll, Ill., he received his BA degree at the University of Wisconsin, his MA in English at Harvard University, and a degree in master of library science at George Peabody College, Nashville, Tenn. He taught English at East Texas State University at Commerce.

He married Gretchen Howell June 1, 1950. He worked on the library staff at Chico State College, Calif. After World War II he went to Japan and was a civil service worker. He wrote the history of the U. S. Eighth Army.

Mr. Colehour retired to Knox City and devoted his time to writing. He and his wife helped reorganize the Knox City High School library and donated 400 personal books to the library. He was a member of the Methodist Church.

Survivors are his wife; a brother, J. K. of Pensacola, Fla.; several nieces and nephews.

**Nan Wright Circle
Meeting Tuesday**

The Nan Wright Circle, Women's Society of Christian Service of the First United Methodist Church, met Tuesday with Mrs. W. T. Stanley, Mrs. Clarence Hambright presided, and Mrs. Nan Wright led the opening prayer.

Mrs. Sallie Gray presented the program on The Middle Years, assisted by Mrs. M. E. Leeman, Mrs. Hambright and Mrs. Arch Hood. Mrs. Gray conducted a discussion session on the Middle Years.

Mrs. Mitchell reported on the meeting held in Brownwood which encouraged visits and telephone calls to the aged and shut-ins.

Present were Mesdames E. L. Crockett, Nan Wright, Frank Mitchell, Etta Baker, Arch Hood, Sallie Gray, Clarence Hambright, M. E. Leeman, W. T. Stanley, and two visitors, Mrs. Ruby Rosson and Mrs. Ruby Williams of San Angelo.

**Den Dieters Club
Meeting Monday**

MAGIC SAIL floats on water and roams at will across world's oceans. Well, not really. A wave has hidden the boat momentarily during Helsinki regatta.

WASHINGTON
"As it looks from here"
OMAR BURLESON
Congressman
17th District

WASHINGTON, D. C.—Aside from organizing the Committees of the Congress and adopting rules of procedure in the House and Senate, the most important happening thus far in the new Session was the presentation of the President's Fiscal Year Budget. The form and nature of this document was referred to in last week's release.

The budget is 1,112 pages, the size of the largest mail-order catalogue, together with supplements. It is more difficult to understand what it does not say than what it says. It does not reveal the full obligations of the Government as would a financial statement of an individual or a corporation. Everyone has seen a financial statement of a bank. On one side is listed "assets" and on the other the bank's "liabilities." Not so with the Federal Government.

It can be said that the outstanding bonds and notes of the Government are represented by the National Debt of \$382.6 billion. Generally this is true but it is not the total obligation by any means which the Government has assumed. Nothing is included in the budget to give any accurate information on the amount of loan guarantees as an obligation and liability.

During the last three years, the net increase in Federal assistance loans has increased from \$164 billion to \$220 billion. All but about \$10 billion are private loans guaranteed by the Government with interest rates subsidized. This means the Government is carrying on multi-billion dollar programs entirely outside the Federal budget and largely out of reach of Federal control. Of an estimated \$22 billion increase in guarantees for 1971 only about \$1-1½ billion show up in the budget.

Most of the Government's credit activities are handled by its agencies. As an example, the newly created Federal Home Loan Mortgage Corporation will put more than \$1 billion into home mortgage markets to help builders and home buyers. The agencies sell their own securities in the open market and in the Fiscal Year started last July these agencies will borrow about \$20 billion. There is little doubt that these credit programs outside the budget will continue to grow.

Programs under which the Government subsidizes private borrowers by paying a part of their high interest cost, commit the Federal Government to future expenses of unknown amounts. This means there are being added obligations of the Government which are uncontrolled and outside the Federal budget.

Concern about these practices and policies is being expressed inside and outside Government. Some economists and financiers believe it to be a dangerous trend to shift major programs away from the budget. One real reason for this growing trend is that it is easy for Congress to approve a program financed by this method which puts off the evil day of paying the bill. Only the amount which has to be paid in the immediate future is the 4 or 5 percent subsidized interest to borrowers which get their money at 4 percent.

Outgoing Secretary of the Treasury, Mr. David Kennedy, when questioned on these policies was frank enough to say

**Post Office To
Be Closed On
Monday, Feb. 15**

The post office will be closed Monday, February 15, in observance of Washington's birthday. Postmaster H. M. Nichols has announced.

No rural or city route deliveries will be made, and the service windows will be closed. Only mail to post office box holders will be distributed.

The new date for observance of Washington's birthday—February 15—is in line with Congressional action to change several holidays during the year so they will fall on Monday, to give government employees longer weekends.

**Local Teachers
Hold Recorder
Workshop Feb. 6**

David M. Smith, of the Education Center, Region XV, of San Angelo, directed a tape recorder operation and utilization workshop for Winters Elementary teachers at the school last Saturday morning.

Teachers participating in the workshop included George M. Beard, Elementary School principal; and Mrs. Ruthie Beard, Mrs. Nina Hale, Mrs. Nadine Robinson, Mrs. Joyce Krause, Mrs. Marthiel Russell, Mrs. Ouida Nichols, Miss Sarah Parker, Mrs. Jackie Wagner, Mrs. Jo Olive Hancock, and Mrs. Doris Stoecker.

**Band Boosters
Planning Style
Show March 15**

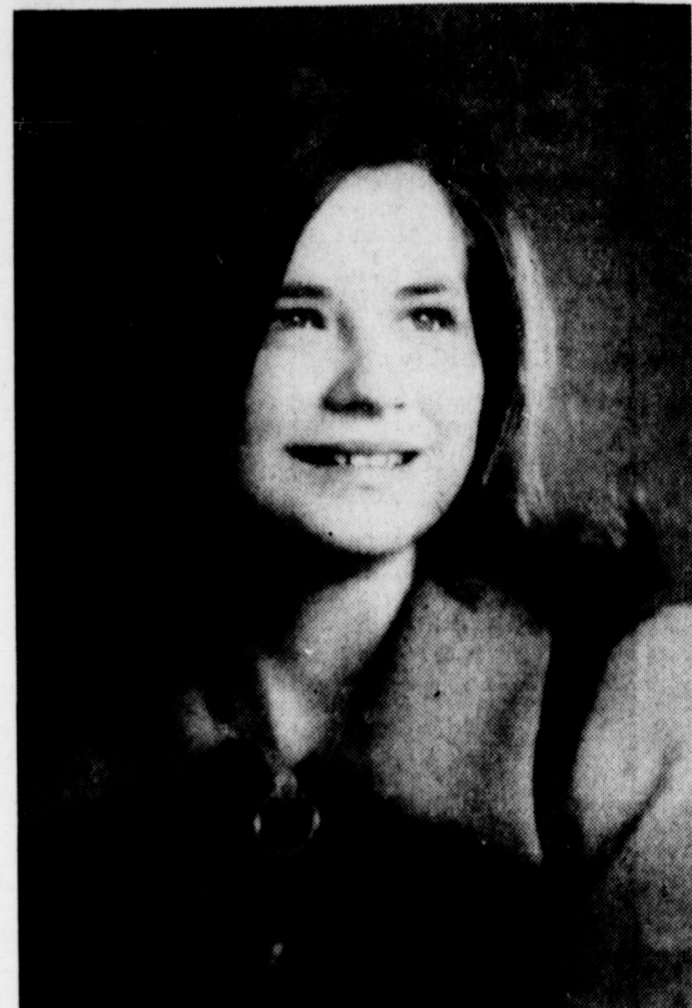

Winters School Band Boosters began Monday night making plans for the annual style show, to be held in the school cafeteria.

The style show will be held March 15, at a time to be announced.

Proceeds from the style show are used to buy instruments for the school band and to augment other band funds.
