## HOME TOWN Talk

By R. C. THOMAS

John W. Norman says it's just his luck: Two days before they announced Winters' big Flea Market for this Friday, he defecated his dog!

Harry Herman holds the record for about the most unusual Father's Day gift in these parts. His grandchildren sent him a silver-plated yo yo.

Some farm-reared people may still remember the old sulky rake—a hay rake pulled by a pair of mules or horses, and used to rake hay into "windrows," and then into piles to be picked up with a "buck" rake and hauled to the baler parked in the middle of the field.

We remember one rake in particular, and one farm cat in particular. This cat was nobody's cat—as independent as a hog on ice. He lived in the barn and subsisted on a diet of rats, mice, ground squirrel, grasshoppers, and occasionally a bowl of fresh milk. Every morning when the teams were harnessed and hitched to the plow or whatever, this cat would wait by the gate and tag along to the field. What a place for a cat, following a plow or other implement which usually turned up a nest of field mice or some other rodent. The cat would have a field day, playing with his catch for a while before dispatching it.

One day this cat—he didn't have a formal name, as we recall, but was known only as "The Cat"—followed the hay rake to the alfalfa patch. He was going great guns for a while, chasing everything the rake stirred up from the hay which had been mowed the day before. Then he made his mistake—he went for a mouse, which headed for a pile of hay the rake was about to roll over. The mouse ran into the hay which was being tossed and tumbled by the tines of the rake, and the cat followed. The hay tumbled around him, he was rolled over with the hay and the mouse several times. Finally he managed to get out of that rolling hay. The last time he was seen he was headed for a wild plum thicket, looking like he had been caught in a hay rake! He and/or his descendants probably are still running!

When we read several days ago of the closing of the regular and short special session of the State Legislature—stormy sessions, to say the least—the episode of the cat and the hay rake came to mind. Those conscientious legislators who went to Austin to do a job and did not take part in the self-seeking political throat-cutting demagoguery which highlighted so much of this past session must have gone home feeling as if they'd been caught in a hay rake!

Here's a mental exercise you might try in your spare time: Three salesmen checked into a hotel together. Were assigned one large room with three beds, for \$30. Each paid the clerk \$10. Shortly thereafter, the clerk realized the price of the room was only \$25. So he gave the bellhop five \$1 bills to return to the salesmen. But the bellhop put \$2 in his pocket and gave each salesman a \$1 refund. Thus each salesman actually paid \$9. Three times nine is 27. Count a'so the \$2 in the bellhop's pocket. That totals 29. So who got the other \$1?

### IN LISSO HOME

Weekend visitors in the home of Mr. and Mrs. F. H. Lisso were Mr. and Mrs. William Lisso of Lowake, Mrs. Fred Gerhart and Mrs. Addie Meadows of Winters, and Mr. and Mrs. Henry Rose of Rowena.

**BEST BOOK**—Charis Poe, author of "Runnels Is My Country," published September of last year, received a hand-lettered certificate signed by Gov. Preston Smith, for the "Best Book of the Year." John Clifton Caldwell of Albany, a member of the executive committee of the State Historical

survey Committee, presented the certificate to Mrs. Poe at the recognition meeting of the Winters Lions Club last week. (Photo Courtesy Reporter-News)

## All Land Bought For Local Housing Project

All land has been purchased for the housing development for the elderly and low income families, and progress in the project is expected to increase within the next few weeks, Jake Joyce, chairman of the Winters Housing Authority, said this week.

A delay of several months was caused by difficulty in acquiring some of the land, Joyce said. The next step in the project will be to obtain wage and hour specifications from the Department of Housing and Urban Development, it was stated, and then project planners can advertise for construction bids. This should be accomplished within the next month, it was said.

The project will be financed by a loan from a Federal agency, and administered by the City of Winters through the Winters Housing Authority, appointed by the City Council.

Time from ground-breaking to completion is unknown, it has been said, but the entire project is expected to take several months.

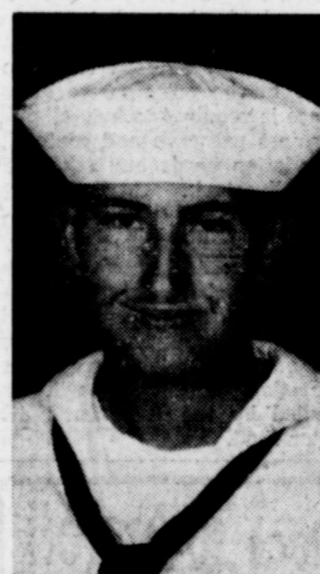

There will be 46 units—2- and 3-bedroom duplex-type structures, with 30 of the units earmarked for the elderly and 16 for low-income families. Cost of the project is not known at this time, but it is expected to be in the neighborhood of three-quarters of a million dollars.

The 30 units for the elderly will be built on land acquired near downtown Winters, on East Parsonage and North Grant streets. The low-income family units will be located in the northeast section of town, near the schools.

The project will be financed by a loan from a Federal agency, and administered by the City of Winters through the Winters Housing Authority, appointed by the City Council.

The steering committee for North Runnels Water Corporation voted Tuesday night to employ an engineering firm to make a preliminary survey of the proposed rural water system for North Runnels County, and estimate cost of the project.

Information gained from the survey will be used by the committee in making application to the Farmers Home Administration for a long-term loan to finance the project.

**LUTHER G. HERRIDGE, JR.**  
Former Resident Enlists In Navy

Luther Gerald Herridge, Jr., has enlisted in the U. S. Navy. He is the son of Mr. and Mrs. Luther Gerald Herridge, Sr., of Antioch, Calif., former residents of Winters. His grandmother is Mrs. Mirl (Mary) Horton of Winters.

Herridge entered the navy in February, took his training at San Diego, and is stationed at Long Beach, Calif.

## \$971 Collected In Special Red Cross Campaign

A total of \$971.02 was collected in the special Red Cross fund campaign last week, H. M. (Jiggs) Nichols, chairman of the drive, announced.

The special drive was to help raise funds to partly repay the Red Cross for assistance that the organization gave following last month's hail storm here.

Nichols expressed appreciation to all individuals and organizations who worked on the drive. Those who were not contacted may mail their contributions to the Red Cross, Winters, or hand them to Nichols or any of the other workers.

## About 6 Inches More Water In Winters Lake

Moderate rains on the watershed during the past week have put about another six inches of water in the Winters Lake east of town, according to City spokesmen Tuesday.

Heavier rains in the area during the period have been just to the west of the Elm Creek watershed, and ended up in the Colorado River at Ballinger. Should these rains have fallen along Elm Creek, the lake would have been over the spillway at least twice during the past three weeks.

## Abilene Will Be Center For Area Mail Processing

The newest innovation of the United States Postal Service—area mail processing—is to be installed at the Abilene Post Office and Sectional Center Facility July 6, according to Winters Postmaster H. M. Nichols.

The program is intended to speed the ultimate delivery of the mail and to gain maximum efficiency and economy through full utilization of Abilene's modern and recently mechanized post office," the postmaster said.

The Abilene Post Office, under Clyde E. Grant, is a Sectional Center Facility which, under the new Area Mail Processing program, will process the mail for 17 smaller associate post offices in the Abilene area.

The Abilene Post Office has an electronic cancelling machine equipped with an edging-stacking machine capable of facing and cancelling a total of 30,000 letters per hour.

The Abilene Post office is being considered for a letter sorting machine which would be installed when determination is made that such an investment would be profitable, Grant explained.

Area Mail Processing is a plan whereby virtually all mail originating within a Sectional Center Facility area, including the associate offices of the Sectional Center, will be consolidated at the SCF for complete preparation and processing for outgoing dispatch.

Outgoing mail originating from all selected first class associate offices of the Abilene Sectional Center will be collected in the respective offices. From there the mail will be dispatched directly to the Sectional Center for cancelling, facing, cancelling, and distribution preparatory to dispatch. The five first class associate offices in the program are Colorado City, Haskell, Snyder, Stamford, and Sweetwater. They will use their local postmark to cancel mail deposited in collection boxes marked "Local."

Anson, Baird, Clyde, Coahoma, Hamlin, Knox City, Merkel, Roby, Roscoe, Rotan, Rule and Winters are the second class post offices in the plan and will postmark both "Local" and "Out of town" mail.

All 17 of the post offices will retain the mail address for their offices. The other mail will be forwarded to Abilene.

Use of the name of these towns in the address and not the word "city" will be crucial for successful mail delivery under the new mail plan, Nichols said. Any local mail from any of the 17 offices that is designated "City" and forwarded to Abilene will be returned to the sender, or to the "dead letter office," if no return address is on the envelope, he said.

The Abilene Sectional Center Area postmark will read, "U. S. Postal Service TX 796," along with the date and AM-PM designation. The city postmark of individual offices will not be changed. All metered mail will bear the postmark of the office of origin.

Nichols emphasized that no office will lose its local postmark whatsoever.

## Postal Service Day Will Be Noted July 1

The inauguration of the new United States Postal Service on July 1 will be celebrated in Washington, D. C., and in every post office across the country. The dedication ceremonies in Washington will be hosted by Postmaster General Blount.

**REV. ROBERT W. SANDERS**  
... From Ft. Worth

## New Pastor At Local First United Methodist Church

The Rev. Robert W. Sanders, former pastor of Benbrook United Methodist Church in Fort Worth, last week was appointed pastor of the Winters First United Methodist Church during the annual meeting of the Central Texas Methodist Conference.

The Rev. Sanders and his family moved to Winters last Wednesday and he filled the Winters pulpit for the first time Sunday.

The new pastor succeeds the Rev. Glenn Bowman, who was assigned to the United Methodist Church in Coleman. Rev. Bowman had been in Winters three years.

The Rev. Sanders is a graduate of Paschal High School in Fort Worth, and received his AB degree from Texas Wesleyan College, and his master of religious education from Southwestern Baptist Seminary; his bachelor of divinity from Perkins School of Theology, a degree from Boston University, and did graduate study at Texas Christian University.

His wife, Betty, is a native of Fort Worth, a graduate of Paschal High School and attended TCU.

The Rev. and Mrs. Sanders have five children, Jodie, 18, a freshman at Texas Wesleyan College; Ellen, 15, a high school sophomore; Geoffrey, 14, a freshman in high school; Gregory, 12, 7th grade; and Kevin, 10, 5th grade.

Rev. Sanders' former charges have been the Graham Circuit, Palo Pinto, Wesley at Cisco, Vine Street in Lawrence, Mass., Church of the Good Shepherd at Arlington, Dawson, Hillcrest in Waco, Gorman, Farris Heights at Waxahachie, St. Mark of Fort Worth, and Benbrook-Bethel, Fort Worth.

Conference responsibilities have been as a member of the District Committee on Ministry; registrar of the Conference Board of Ministry; chairman, Commission on Archives and History; chairman, Committee on Sustentation; member, Joint Committee on Disability; and assistant secretary of Conference for Service Records.

Civic responsibilities have included vice president, Breakfast Optimist Club of Fort Worth; telephone volunteer Suicide Prevention of Tarrant County; Democratic Precinct Chairman in Benbrook.

He was selected outstanding own Pastor in 1964; was one of 300 ministers participating in concern for People in Pacific Northwest in 1967; spent one month in South America in fall of 1967 visiting mission work and in the Mission to Patagonia; and will lead the Methodist Heritage Tour to England in October, 1971.

Taking an interest in the public schools, he was a candidate for the Everman School Board in 1968, and polled the largest number of votes ever received in an Everman School Board election, defeating the incumbent and five other opponents.

## Ex-Chaplain Will Speak At St. John Lutheran Church

In the absence of the pastor, the Rev. Walter C. Probst, the morning service Sunday, June 27, at St. John Lutheran Church, will be conducted by the Rev. C. A. Lehne, of Fredericksburg. The Rev. Lehne retired from military service a few years ago and served as interim pastor at the Winters church a few years ago. The public is invited to attend Sunday's service.

## Flea Market Set Friday In Winters

"A little bit of everything, and something for everybody," will be the rule of the day during Winters' big Flea Market, scheduled for Friday, June 25.

Every vacant lot, the fronts of vacant downtown buildings, and just about every available foot of space where "things" can be displayed, will be in use if all goes well for the Flea Market, members of the sponsoring Retail Trades Committee of the Chamber of Commerce, said.

Everybody has been invited to join in the fun and celebration—"Come Scratch with us,"

say sponsors—by digging out Flea Market items and putting them up for sale or trade. Also, it is expected that some concession stands, with cold drinks, cakes, pies, perhaps ice cream, will be open for the event.

There is no charge for taking part in this Flea Market event—all that is required is the will and permission to use vacant spaces to display goods.

In addition, many of the merchants are going all out in a cooperative effort to put this event over, by holding their own sales and offering specials throughout the day.

**DRIVER ED CARS**—Roger (Spec) Robinson, left, of Waddell Chevrolet Co., and Superintendent of Schools Carroll Tatum are shown with the two automobiles provided by the local Chevrolet dealer for the Driver Education course in Wip-

ters High School. One of the autos is an Impala, the other a Belair. The two cars are fully equipped, with automatic transmission, and have dual controls installed for driving instruction purposes. The cars are provided at no charge to the school.

## Cooperation By Winters Is Urged In Development Of Rural Water Project

Runnels County Agricultural Agent C. T. Parker Tuesday urged members of the Winters Lions Club, and other businessmen and residents of Winters, to give all possible cooperation to the development of a rural water system for North Runnels County.

Speaking at the Lions Club noon luncheon meeting, Parker said the future of Winters itself, along with the rest of the county, hinges on the development of some project to get water to all rural areas in the county. Without a supply of good water, there would be little future for the rural areas, and the prospects of Winters' growth or even maintaining the present status would be bleak indeed.

Sub-surface water is fast becoming so polluted in the area that it is unfit for either human or animal consumption, he said. For several years existing water wells have been ruined by the inflow of salt water, undoubtedly from abandoned oil wells in the area. Too, within the past two or three years, nitrate content in well water in the county has been on the increase until presently there are many wells which are unfit for use.

Much of the surface water—lakes, tanks, and the like—is becoming polluted by salt water and if it increases, this source soon will be gone.

Parker urged Lions Club members to offer their fullest cooperation in present efforts to develop a rural water system to serve the farmers and ranchers of North Runnels County. He also suggested that the City of Winters investigate the possibilities of joining forces with the rural population for the water development. He pointed out that Ballinger's source of water, the Ballinger City Lake, is near the unacceptable limits of salt pollution, and indicated that Winters' source, the City Lake, could easily become salt-polluted. By working with the rural water system project advocates, Parker indicated that the City could be tapped together, as a hedge against future needs.

Parker said that 311 rural residents have signed up for the proposed rural water system, and that sign-up deadline had been moved to July 1 to give others a chance to sign up. He said members of the steering

committee of the North Runnels Water Corporation were to meet this week to discuss obtaining an engineer to draw up plans for the system to be submitted to the FHA with a request for a long-term loan.

Speaking of the Elm Creek Water Control District project, Parker explained that such projects—for flood control, soil conservation and possible municipal uses—had been slowed down during the past several months because of the lack of Federal funds. The rural water system being explored would be financed through a different source, he said, and could be much closer to development.

When finally completed, Parker said, the rural water system, and the Elm Creek Water Control District project could work together to some extent, if the District could become a source of water.

## Jack Rowlett New Operator Of Shell Station

Jack Rowlett, formerly of Snyder, has purchased the stock and equipment of the Shell Service Station in the 200 block of North Main Street.

Rowlett was formerly in the office machine business in Dallas and Corpus Christi, and has been associated with an oil field logging company.

He is married, and has two children, six months and six years old. Mr. and Mrs. Rowlett have moved to Winters, and are members of the Church of Christ.

## Film To Be Shown At Meeting Of Lutheran Church

Regularly scheduled meeting of the Churchmen of St. John Lutheran Church was held at 8:30 p. m. Thursday of this week in the Educational Building.

Floyd Sims, program chairman for the month, showed films furnished by the Texas Department of Corrections, including: Operation—Teenager; Dr. Beto—Director of the Prisons Systems; and a film of a young man in prison.

Mrs. S. G. Morrison.

Mr. and Mrs. Delbert Kruse, Rodney, Debra and Roger were Monday dinner guests of the Wilmer Gerharts.

Dennis McBeth was home with his parents this weekend.

Mr. and Mrs. Joe Morrison received a telephone call from their son, Mr. and Mrs. Connie Morrison who are vacationing near Washington, D. C. They will return to their home in Portland in 10 days.

Mr. and Mrs. L. C. Fuller visited Mr. Fuller's sister, Mrs. Vera Simpson and Mrs. Ruby Matthews, and another sister, Mrs. Roy Gamble all of Ballinger.

Mr. and Mrs. Kat Grissom and Phyllis, Mr. and Mrs. Ricky Grissom and Corey and Stacey, and Mr. and Mrs. Steve Grissom of Abilene had Father's Day dinner at Hords Creek Lake Sunday, and also celebrated Stacey's fourth birthday.

Sunday guests of the Burley Campbells were Miss Bonnie Clark, Ballinger; Mr. and Mrs. Buck Campbell of Abilene; Mr. and Mrs. J. M. Martin of San Angelo.

Mrs. Jerry Kraatz and Wayne of Garland visited her folks, the Noble Faubions, over the week end. Mrs. Kraatz' two sons, Kyle and Keith, returned home with her after two weeks' vacation with their grandparents, Rose-Marie and Claudette Faubion also returned home to Garland with her.

Other weekend guests of the Faubions were Miss Bernadette Coelho, Garland, Rodney Faubion of Fort Worth, Staff Sergeant and Mrs. Terry Collins of Abilene.

Fathers Day guests of the A. S. Allcorns were Mr. and Mrs. Arnold Allcorn and Bennie of Talpa, Mr. and Mrs. Charlie Allcorn and Allison, Blackwell, Mrs. Artye Hale, Houston, and Mr. and Mrs. Dub Hale of Abilene.

CARD OF THANKS

My wife and I would like to express our words of gratitude for all who came to visit me while I was in the hospital, for the cards and flowers. A special thanks to my brother Alfred for replanting my cotton, Charles Wetsel and Milton Ehlers for cultivating the feed, and also a special thanks for all those who drove my wife to visit me in the hospital. God bless you all.  
—C. W. Wessels ltp.

Catherine (Burton) Bahlman, Jimmy Mack Dukes Plan July 31 Wedding

Mr. and Mrs. R. R. Bahlman announce the engagement and approaching marriage of their daughter, Catherine (Burton) Bahlman, to Mr. Jimmy Mack Dukes of San Angelo. He is the son of Mr. and Mrs. Jim Dukes of Abilene.

The couple will exchange wedding vows July 31 in the Old Norton Church of Christ.

The bride-elect is a senior in Winters High School. The prospective bridegroom is a 1965 graduate of Wylie High School and has finished the San Angelo School of Evangelism.

Mrs. Charlie Smith Died Wednesday, Funeral Thursday

Mrs. Charlie Smith, 76, died in Ballinger Memorial Hospital at 10:05 a. m. Wednesday of last week after a long illness.

Funeral services were held Thursday at 5 p. m. from Hill Memorial Chapel, with the Rev. Harry Grantz, pastor of the Winters First Baptist Church, and the Rev. J. C. Johnson, pastor of the Ballinger First Presbyterian Church, officiating.

Burial was in Lakeview Cemetery.

Mrs. Smith was born Winnie Forest, April 28, 1895, at Huntington. As a small child she moved with her parents to Taylor County. On March 6, 1910, she married Charlie Smith in the Dewey Community of South Taylor County.

In 1915 the family moved to Winters where for more than 40 years Mr. Smith was a barber. He died in 1968.

Mrs. Smith worked for many years for several department stores, including Higginbotham's and Heidenheimer's of Winters.

Survivors are three daughters Mrs. B. R. Etheredge Sr., of Sweetwater, Mrs. Roger Robinson and Mrs. Bill Craven, both of Winters; a sister Mr. H. M. Davis of Highlands; four grandchildren and nine great-grandchildren.

Pallbearers were Bill Robinson, LaDell Davis, W. M. Hays, C. C. Etheredge, C. R. Kendrick, James Spill, W. R. Balkum and John Gardner.

Runnels Farmers Eligible For Low Cost Feed Grain

Washington, D. C.—Congressman Omar Burleson announced the U. S. Department of Agriculture has made available government owned feed grain at reduced prices to eligible livestock owners in nine additional counties in Texas suffering from drought conditions. Also, as agent for the Office of Emergency Preparedness, the Department offered hay transportation assistance to the nine counties, Briscoe, Concho, Deaf Smith, Falls, Limestone, Moore, McLennan, Runnels and Sutton. They bring to 164 the number of Texas counties offered assistance under the emergency livestock feed program.

Many producers would be forced to liquidate part of their foundation herds, if relief were not provided, the Department announced.

The livestock feed program becomes operative in counties where the Secretary of Agriculture determines that severe drought, flood, or similar conditions have reduced feed supplies to the point where assistance is required to help eligible farmers preserve and maintain foundation herds and other eligible livestock.

The grain and hay transportation assistance will be offered through the ASCS county offices which are charged with the responsibility for determining eligibility of individual producers for assistance. The hay transportation assistance will be funded by the President's disaster fund.

Tea For Recent Bride In Church Fellowship Hall

A bridal tea honoring Margaret Ellen Stoecker of Bay City, who became the bride of Paul LeRoy McCormack of Houston June 12, was held recently in the Fellowship Building of the Winters Church of Christ.

In the receiving line were Mrs. Homer Stoecker, mother of the bride-to-be, and Mrs. Ellen Reid, grandmother, the honoree and Mrs. Lawrence Chapmond.

The tea table was laid with white linen cloth edged in lace, with a centerpiece of coral carnations with baby's breath arrangement. Appointments were of crystal. A miniature bride and groom centered the arrangement and at either side were crystal candelabra with green tapered candles.

Mrs. H. M. Nichols ladeled punch. Registering guests were Mrs. W. F. Byrns and Mrs. Nichols. About 43 guests registered.

CARD OF THANKS

Thank you so much to the many friends who sent cards, flowers, and kind thoughts during my stay in the hospital.

—Mrs. Billy Joe Colburn. ltp

## North Runnels Cancer Unit Gets Recognition

Special recognition was given to the North Runnels Cancer Society during the annual meeting of District 4, American Cancer Society, in Abilene last week.

The North Runnels unit was recognized for going beyond the goal set in the recent Cancer Crusade, with a total of \$2,158.65, plus \$202.50 in memorial gifts.

The local unit also received the Golden Achievement Award and a special award in education for school and college programs. George M. Beard is chairman of the public education program committee of the local unit.

The North Runnels Society was represented at the meeting by Mrs. Sallie Gray, Mrs. Earl Roach, Homer Hodge, and Mr. and Mrs. George Garrett.

## Head of School Cafeteria To State Convention

Mrs. J. B. Whitlow, supervisor of the Winters school cafeteria, was among some 1200 people attending the 17th annual Texas School Food Service convention in the Convention Center in Ft. Worth June 14-18.

Classes on management, nutrition and time and motion were presented during the convention. Among the speakers were Dr. William S. Banowsky, president of Pepperdine University, Malibu, Calif., and Charles D. Holleyman, superintendent of schools at Mustang, Okla., known as the "American Indian Billy Graham."

At the installation dinner, Mrs. Whitlow was installed as director of District XI, and will serve on the board for the next two years.

Next year's convention will be held in June at Houston.

TO BUY, SELL, RENT, use the classified columns.

There is one fishing scene that has been depicted a thousand times on calendars. It shows the big fish making off with the bait while the angler slumbers peacefully beneath a tree on the bank of a small, quiet stream.

This scene symbolizes fishing as a lazy sport. So does the long-time employee who, upon his retirement, says "I'm going to spend my time fishing."

Connotation is that fishing is a "retirement" or "twilight-of-life" sport.

Actually fishing is anything but these things since the object of the game is to catch fish and the fellow who looks upon fishing as a lazy pastime is the fellow who catches mighty few fish for the time involved.

Successful fishing is work, and hard work at that. But it is so

much fun that it does not seem like work at all.

We've been out with a lot of good anglers, some of them state bass fishing tournament champions, and a few of them dedicated fishermen . . . like Dave Hawk, John Fox, Glenn Hayden, Jackie Hewlett, etc.

We are firmly convinced that the difference between the fellow who catches a lot of fish and one who catches few is real hard work. There is more to successful fishing than tossing the bait in the water and letting nature take its course.

Bait that lies dormant on the bottom or suspends motionless beneath a float will lure a few fish. But it won't have the appeal of the same bait that is really "fished" by the fisherman. In this case, "fished" means putting action into the bait.

Fish don't always strike because they like the smell of the bait. If the fish have fed recently, they may ignore the bait entirely. However, if this same bait has action, the odds are

good that the well-stuffed fish will fin over to do something about it. This is simply because game fish have a common trait. They are truculent and bent on challenging small but lively marine life that intrudes or strays into their domain.

Successful anglers fish out every cast from the time the bait or lure hits the water until it is reeled back up to the rod tip top. Only when live bait is used does the angler not have to actively "fish" the bait to be successful. In this case, the live shrimp, minnow, or worm does the bulk of the work. But if dead bait is used, then the fisherman must work it to get results.

There is even more work involved when artificial lures are used. Dead, natural baits have an odor that will attract some species like catfish.

Unless specially coated, the artificial lures have no odor, and their appeal to fish must be made on an action basis. This simply means that the angler has got to work at his lure fishing to be successful.

## Band Students To West Texas State Band Camp

Several members of the Winters High School Blizzard Band will attend the July 11-23 band camp at West Texas State Uni-

versity at Canyon. Kirke McKenzie, band director, announced.

Students needing rides to the camp are asked to contact McKenzie early so arrangements may be made. The group will leave Winters early Sunday, July 11.

## SCEPTICISM, LIBERALISM, IMMORALITY

In this time of scepticism, liberalism toward God's word, and the rapidly increasing immorality of the nations, it is refreshing to head God's Word proclaimed in its purity.

We consider the Bible to be God's divine Word, our only read map to heaven, and the only cure for the moral crisis which our nation faces.

We invite you to come and be with us July 2-9 as Tom Holland ably presents the gospel of Jesus Christ. You will be up-lifted and the solution to many of the problems of our time will be shared with all.

No one will attempt to force you or your children down the aisles. The gospel and an invitation song will be the only encouragement to motivate the audience to respond.

The time of the meeting will be at  
7 a. m. EACH MORNING and  
7:30 p. m. EACH EVENING  
Except Sunday at 6 p. m.

Transportation will be provided for those who request it  
Phone 754-4182 or 754-4183

**CHURCH OF CHRIST**  
502 North Main

Austin, Texas.—Texas 1972 political campaigns jumped off to an early start last week amid earthquake - proportioned new rumblings in the long-running Securities and Exchange Commission stock manipulation case.

Lt. Gov. Ben Barnes announced he will run for governor, and called "loss of faith and confidence in state government" the No. 1 political issue.

Barnes termed the shadows cast by SEC's inquired into stock trading of state officials one of the reasons for lost confidence by the public.

"I visualize the role of the governor as a much more-aggressive role than it has been in the past," he said. Barnes, who is 33, added "a young governor with progressive ideas would be an asset" to Texas.

Barnes said he would aim to make the state Democratic party an "energetic force for sound government, not just a political tool to be used briefly every two years and then discarded. I want Texas to be strong in national affairs."

**SPILL BROS. CO.**  
Winters, Texas

Atty. Gen. Crawford C. Martin, recovered from a March heart attack, announced he will file as a candidate for a fourth term.

"In the light of the scandals that have rocked our state government this spring—and the resulting investigation which my office has begun at the request of the Legislature—I feel it a question of duty to Texans to make the race," said Martin.

Dolph Briscoe of Uvalde reportedly retains interest in the governor's race.

Gov. Preston Smith still hints he may run again, brands federal handling of the stock case "political harassment."

**OIL ALLOWABLE CUT**  
Statewide oil production allowable for July has been slashed 260,815 barrels a day from June.

New allowable was set by the Railroad Commission at 68.7 per cent of potential or a decrease of 6.7 per cent. Reduction is the third straight.

Market demand for the coming month is the lowest since 62.9 per cent allowable was set during part of August, 1970. Maximum production is estimated at 3,367,115 barrels daily, but actual production will be closer to 3,273,750 barrels—slightly more than major buyers requested.

Eight of 4 major crude purchasers asked the same allowable for July, four sought less and two requested more.

**CRIME FIGHT FUNDS APPROVED**  
Nearly \$4 million in grants to aid criminal justice projects received Criminal Justice Council Approval.

CJC will fund \$2.5 million from federal aid money, with local governments contributing another \$1.5 million.

Houston-Gulf Coast Building Trades Council got the biggest state grant of \$191,800 for New Wovely delinquency prevention program.

Other grants went to Texarkana Ark-Tel Council of Governments; East Texas COG, Kilgore; Waco; Alamo Area COG, San Antonio; Wichita County; McLennan County; Bexar County; Austin-Travis County; Harris County Mental Health-Mental Retardation Center; Central Tex COG, Belton; Grayson County; Lower Rio Grande Valley Development Council, McAllen;

Edinburg; Waco Police Department; Fort Worth; Travis County juvenile defender project; Eagle Pass; Lubbock County; City of Dallas; El Paso; Cleveland; regional law enforcement radio communications system; Coastal Bend Regional Planning Commission; Texoma RPC; Heart of Texas COG; Aldine and Midland Independent School Districts.

**COURTS SPEAK**  
Supreme Court upheld a Tyler court verdict awarding \$5,000 accidental death policy recovery to a widow whose husband was shot to death allegedly after committing adultery with the wife of another man.

High Court set July 14 arguments in a Dallas woman's damage suit claiming negligence by a private plane pilot in an accident which killed her husband four years ago.

Court of Criminal Appeals affirmed the life sentence in a Beaumont rape case.

Austin Court of Civil Appeals reversed a Houston trial court and upheld State Board of Examiners of Psychologists' decision denying Houstonian Joseph

D. Farrar a license to practice psychology because his master's degree was not primarily psychological but educational.

## AG OPINIONS

Minors can be tried for liquor violations without notification to parents if court is unable to locate parents or guardians, Atty. Gen. Crawford C. Martin has said.

In other recent opinions, Martin concluded that:  
—A trial judge has discretion to grant probation when satisfied the best interests of the public and the defendant will be served, and the defendant is not under burden to show eligibility for probation, though the judge may require appropriate proof.

—Board of Private Detectives, Private Investigators, Private Patrolmen, Private Guards and Managers has discretion to decide whether or not license of those within its jurisdiction will be denied because of a conviction for felony.

—Whether Parks and Wildlife Department executive can retire as a "commissioned peace officer" is a fact question to be determined by PWD on the basis of whether he was engaged primarily in criminal law enforcement activities of the department during 10 years.

## APPOINTMENTS

Raymond Vowell of Austin will succeed Burton G. Hackney as Texas Public Welfare Commissioner.

Governor Smith named W. A. Hughes of Decatur 235th district judge, Harry Hopkins of Weatherford 43rd district judge, and William B. Sullivant of Gainesville 235th district attorney.

Smith appointed Hugh O. Wolf of Stephenville to North Texas State University Board of Regents.

## LAND SALE SET

School Land Board will offer 594,132 acres of land in 869 tracts for July 6 lease sale.

For the first time, said Land Commissioner Bob Armstrong, the Land Board has coordinated environmental planning with the Parks and Wildlife Department on all bays and inlets included.

PWD reviewed tracts in lease and reported any possible hazard to the environment if drilling is permitted. Proposed restrictions will be considered by the Land Board.

Other tracts included are submerged lands in the Gulf of Mexico cancelled on the May sale list due to U. S. Army Corps of Engineers' halting drilling on such tracts temporarily.

Submerged land acreage is the largest offered for lease since June, 1965, when the state received more than \$17 million for sale of leases.

**CONVICTION "TAX" LEVIED**  
Cost of moving traffic violations and other convictions will go up under a bill signed into law and designed to provide funds for projects to improve the criminal justice system.

In addition to other taxable court costs, \$2.50 will be charged in each misdemeanor conviction in justice of the peace or municipal court. County misdemeanor convictions will be charged an additional \$5 in court costs, and felony convictions, \$10.

**SHORT SNORTS**  
Texas' first bale of 1971 cotton was produced on the Crispin Gamez farm near Pharr in the Rio Grande Valley.

An additional 400,000 workers and 100,000 employers will become subject to unemployment insurance program and tax for the first time on January 1.

## WANTED!

Young Ladies, ages 16 through 22, single, members of Farm Bureau Families, actively engaged in agriculture to enter contest!

Object: To become Queen of Runnels County Farm Bureau. Need members of same families to enter Junior (12-16) and Senior (17-30).

Divisions of Talent Find: Talent Find open to all such members of Runnels County Farm Bureau Families. Agricultural pursuit not a necessity.

Deadline to enter: July 9th.

Selection of winners at Norton's Community Center July 23 at 8:00 P. M.

**More Information at County Office**

## HEALTH FOR ALL

Years ago scientists and nutritionists discovered that the addition of iodine to common table salt dramatically curtailed the occurrence of goiter in this country. But iodine is only one of many trace elements considered vital to the human diet, according to nutritionists at the Texas State Department of Health.

Iodine is an essential component of the thyroid-gland hormone that regulates the rate at which our tissues breathe. Without it, the tissues use less oxygen, the body slows down, and eventually so does the mind. A limited deficiency of iodine can result in a swelling of the neck known as simple goiter, which practically disappeared when table salt was iodized many years ago.

A number of other elements are also vital, but only in very small amounts. These essential microelements include copper, iodine, manganese, zinc, chromium, fluorine, molybdenum and selenium.

Thousands of chemical reactions occur in each cell of our body, with enzymes acting as catalysts by bringing specific molecules into the right position to react at the appropriate moment. Some of these enzymes contain vitamins as part of their own molecules, and many do not function except in the presence of the right trace mineral. Without such activators (and each enzyme requires a particular activator), no reaction takes place.

Typical of the activators is copper, essential to the manufacture of blood cells. Although it is as vital as iron, the body requires less than one-tenth as much.

Atty. General Martin warns consumers to beware of phony travel promoters who may take their money and run.

Reps. Rayford Price of Palestine, Price Daniel Jr. of Liberty and David Finney of Fort Worth are challenging House Speaker Gus Mutscher for re-election.

Texas will have 7.2 million registered motor vehicles this year, second only to California according to Texas Automobile Dealers Association.

## NOTICE LITTLE STUDIO

Will be open for final sale of all Pictures and Negatives

**Friday, June 25**

From 9 a. m. to 5 p. m.  
After this all will be destroyed.

**BILL & HARVEY LITTLE**

## City Receives Insurance Payments For Hail Damage On Public Buildings

The City of Winters has received insurance payments—or has signed settlement papers—for damage to City-owned buildings caused by the hail storm May 8, City Secretary Buford Baldwin said this week. Settlement has not been completed on City-owned vehicles, he said.

The City has received a total of \$4,000, which is net after deductible, Baldwin said.

Some repair work has been completed, Baldwin said, but much more needs to be done. All glass which was knocked out at the City Hall building has been replaced, but the roof has not been repaired, Baldwin said. Also, the power plant has been repaired. All windows in the Community Center were repaired, he said, but smaller hail about two weeks ago knocked another window out there.

Net received on each building, after deductible, was follows:

City Hall	\$894.00
Power Plant	981.00
Water Plant	309.50
Elec. Supply Bldg.	100.00
Community Center	540.50
Humble Building	210.00
Elec. Superintendent's Home	497.00
Water Superintendent's Home	468.00

# County Agent's Column

In early July, some 22,000 Texas farmers will receive an acreage and production of selected crops questionnaire from Cary D. Palmer, Agricultural Statistician for the Texas Crop and Livestock Reporting Service, Austin, Texas.

This information will be the basis for determining harvested acreage and production of early harvested crops for the State of Texas and for each county. There are 254 counties in Texas and reports are needed from many farmers so that each county will be well represented. Accurate estimates are of great

importance to farmers in planning production and marketings and in providing an unbiased picture of Texas agriculture.

The Texas Legislature has provided adequate information in Texas' most basic industry—agriculture. This is a cooperative effort of USDA's Statistical Reporting Service and the Texas Department of Agriculture.

When local showers, during a drouth, produce more forage on fertilized pastures than livestock can consume, the forage should be harvested to conserve quality, advises County Agent

Parker.

A 1,000 pound cow requires about one-half ton of dry forage per month. On well fertilized pastures, two tons of forage can be produced during the same four week's period. This means that only one-fourth of the forage grown is needed by one cow, Parker explains.

If excess hay is not harvested when at a favorable quality, the forage will mature and become stemmy, unpalatable, and unable to supply the nutrition it once contained.

Pastures should be arranged to aid in harvesting the excess

forage as good-quality hay. In some cases this means cross-fencing for smaller areas will become necessary.

Even during drouth, steps can be taken to utilize forage more efficiently and maintain pasture profits, Parker reminds forage producers.

Loose staking hay with mechanical stackers continues to gain interest among Texas forage producers, says County Agent Parker.

He points out several advantages that loose staking offers the forage producer:

The first is that less labor usually is required for stacking the same amount of hay. With limited labor supplies, forage

producers consider this factor very important.

Another item to consider is that hay quality can be satisfactorily maintained in loose stacking if stacks are formed to shed rainfall.

Loose stacking hay poses some problems, however, the county agent warns. Hay stacked loosely has a reduced marketability compared to baled hay. Stacks may also tend to deteriorate if the equipment operator is inexperienced in forming stacks.

## Winters Family Killed In Auto Wreck In Mexico

Frank Guajardo, about 28, his wife Consuelo Maria, 22, and their 20-day old son, Juan Antonio, all of Winters, were killed in a head-on collision with a bus in Moncalvia, Mexico about 2 a. m. Tuesday.

Details of the accident were not available Wednesday.

Mr. and Mrs. Guajardo were vacationing in Mexico at the time.

Mr. Guajardo had lived in Winters a number of years and

was employed by Alderman-Cave Milling & Grain Co. here.

The family had left last weekend and were visiting Mrs. Guajardo's family in Nueva Rosita, Coah., Mexico, according to reports.

Mr. Guajardo's survivors include his parents, Mr. and Mrs. Louis Guajardo Sr. of San Angelo; a son, Joe Frank of Winters; four brothers, Raul, Louis Jr., Mike and Denny, all of San Angelo; and one sister, Celia Guajardo of San Angelo.

Funeral arrangements were not available.

TO SELL those extra odds and ends, use The Enterprise Classified Columns.

## Dale Sewing Club Meeting Tuesday

The last meeting of the summer of the Dale Sewing Club was held Tuesday in the home of Mr. and Mrs. Marvin Traylor. Hand work was done for the hostess.

Refreshments were served to Mesdames Carl Baldwin, I. W. Rogers, Clarence Hambright, Ernest Smith, Charlie Adami, Clifford Lehman, Jack Whittenberg, Raymond Knight, Clifton Davis, Lloyd Compton, Ernest Thormeyer, and Miss Henniger, and one new member, Mrs. Quincey Traylor, and one visitor, Lorri Watson.

## Collectors May Order New Silver Eisenhower Dollar

Collectors and others interested in obtaining the new 1971 Eisenhower Silver Dollar, may obtain order blanks from The Winters State Bank, Estella Bredemeyer, cashier of the bank, announced this week.

The U. S. Mint plans to produce 150 million of the silver content Eisenhower coins, and will begin accepting orders on July 1.

Two types of the new dollar will be for sale through the mint, the silver content proof coin, which will be sold for \$10 each, and the uncirculated coin, priced at \$3 each.

The cupro-nickel dollars for general circulation through commercial banks will not be available until next fall.

Proof coins are highly polished and struck twice by special dies to produce a jewel-like finish. They are prized for their virtually flawless beauty. They will be attractively packaged, and each order is limited to five coins per person.

Uncirculated coins are struck once on high speed presses and are in new condition. They will

cost \$3 each, and each order is limited to five coins per person. The Winters State Bank also will take orders for the Dwight D. Eisenhower Memorial Medallion.

## Winters Students On Dean's List At Texas Tech U.

Names of students whose academic achievements qualified them for the deans' lists for the spring semester at Texas Tech University were released this week.

Four students from Winters received the deans' honors. They were:

College of Agricultural Sciences: George A. Mostad, senior, mechanized agriculture.

College of Business Administration: Bettye Nichols.

College of Engineering: Robert Conner, senior.

College of Arts and Sciences: Robert Moore, sophomore.

To qualify for the dean's list, students must have a grade point average of 3.0 or more and must be taking as many as 12 semester hours of work.

Announcements of honor students were made by the respective deans of the eight colleges and schools at Texas Tech University.

## FROM RIESEL

B. B. Collinsworth of Riesel visited last week in the home of his parents, Mr. and Mrs. E. C. Collinsworth.

cost \$3 each, and each order is limited to five coins per person. The Winters State Bank also will take orders for the Dwight D. Eisenhower Memorial Medallion.

## Winters Riders Plan Trail Ride To Coleman Rodeo

The Winters Riding Club will hold the annual trail ride to Coleman Tuesday, July 6.

The group will leave the riding arena at 7:30 Tuesday morning, and bring sack lunches. Tea and water will be provided by the club.

Riders will spend the night at Hord's Creek Lake, with a barbecue supper for members, families and friends. Wednesday breakfast and lunch will be served by the club. Wednesday afternoon, the riders will ride into Coleman to participate in the parade and attend the rodeo in the evening.

The Riding Club also announced that the riding arena owned by the club is closed to everyone except members of the club and guests. Other groups wishing to use the arena should contact the officers of the club for permission.

## Social Security Rep Sets Visits

Johnny Grammer, Field Representative for the San Angelo Social Security Office, has scheduled his July visit to Winters. He will be at the Chamber of Commerce on Monday, July 19 from 9:30 a. m. to 11:30 a. m. Anyone who wants to file a claim for benefits, get information, or transact other business with the Social Security Administration may contact him at this time. Persons who are unable to meet with him are encouraged to call the office in San Angelo at 949-4605.

## Changes In Times Announced For Swimming Pool

There have been some changes in times that the Winters Municipal Swimming Pool will be open, Kirke McKenzie, pool manager, has announced. Changes will give an additional evening.

The pool will be open from 1 to 6 p. m. each Saturday, and will be open in the evening on two days a week, Thursday and Tuesday, from 8 to 10 p. m.

On all other days, the pool will be open from 1 to 6 p. m., and from 2 to 5 p. m. on Sunday.

## Bernadette Coelbo, Rodney Gene Faubion Plan July 24 Wedding

Mrs. Betty Whittemore of Pueblo, Colo., announces the engagement and approaching marriage of her daughter, Bernadette Coelbo, to Mr. Rodney Gene Faubion, son of Mr. and Mrs. N. L. Faubion of Winters.

The wedding is planned for Saturday, July 24.

The bride is a 1971 graduate of South High School, Pueblo.

The prospective bridegroom is a 1969 graduate of Winters High School. He is attending Tarrant County Junior College, and is employed by Stafford-Lowden Printing Co. in Ft. Worth.

## Mrs. Juanita O'Connor's Weekly Home Demonstration Agent's Column

**DRIED PEAS**  
Want to spark and spice up some of your summer meals with nutritious, delicious protein—and do it at low cost? Dried peas, which are plentiful this month will add variety to summer eating without the chore of spending all day over a hot stove!

Dried peas are an excellent source of protein. They provide a wealth of energy and nutrition at a cost per pound that is nominal. What a great way to vary your menu, but still give your family the needed protein and energy builders for an active summer!

You'd probably never think it, but they are also real nuggets of mineral and vitamin value. In addition to B vitamins—such as thiamin and riboflavin and calcium — a ¼ cup serving of cooked dried peas provides about a third of the iron recommended daily for an adult male.

Dried split peas or dried whole peas, whether you choose the green or yellow variety, require only reconstitution in boiling water. Whole peas should be soaked before cooking to reduce the time required for cooking.

**MEXICAN CASSEROLE**  
3 cups cooked dried peas  
1 cup cooked or canned tomatoes

2 T. chopped green pepper  
¾ cup chopped onion  
½ tsp. salt  
1 tsp. chili powder  
½ tsp. garlic salt  
4 strips bacon

Combine all ingredients except bacon. Turn into greased baking dish. Arrange bacon strips over top. Bake at 350 degrees F. (moderate oven) for 1 hour. Makes four servings.

**GRAHAM PACAN TREATS**  
1½ cups graham cracker crumbs  
½ cup sifted flour  
½ cup light brown sugar, firmly packed  
½ cup butter or oleo, melted  
1 tsp. vanilla  
2 eggs

¾ cup white corn syrup  
3 T. flour  
½ tsp. salt  
1¼ cups coarsely chopped pecans

Combine graham cracker crumbs, flour and ¼ cup sugar. Add butter or oleo and mix until well blended. Press evenly on bottom of a greased 2 quart shallow baking dish. Bake in a preheated oven (350 degrees) 10 minutes. Meanwhile, beat eggs until foamy; beat in remaining ingredients and the rest of the sugar, until smooth. Pour over crust; top with pecans. Bake 20 minutes longer or until set. Cool. Cut into pieces. Makes 32 (about 1¼ x 1½ inch) servings.

## "Cake Decorating" To Be Offered By Home Ec Dep't.

The Homemaking Department of Winters High School will offer a workshop in beginning cake decorating June 29. Mrs. Cecil Hambricht, Homemaking teacher, announced this week.

Mrs. J. S. Ohlhausen of Balingers, well-known in this area for cake decorating, will conduct the workshop.

Everyone interested is invited to attend the class Tuesday, June 29, at 7 p. m. in the Homemaking Cottage.

## Goal Digger Club Meeting Monday

The regular meeting of the Goal Digger Club was held Monday night in the home of Mrs. Mary Lynn Presley, the sponsor. A dance planned for Saturday was discussed.

Members present were Becky Brown, Mary Webb, Maurine Riess, Chris Hays, Selinda Allen, Denise Carroll, Kim McMullan, Kandy Rougas, Keri Lynn Laughorn, Susan Byrns, Robbie Morrison, Sherri Tekell, Becky Dean, Julie Sprayberry and Karen Simpson.

**2,632 Runnels Countians Receiving \$222,000 Monthly In Social Security**

Social security benefits were being paid to residents of Runnels County at a rate of \$222,000 a month at the close of 1970, J. M. Talbot, social security manager, announced.

A benefit increase signed into law by President Nixon on March 17 raises the monthly rate of payment by 10 percent for most of the 2,632 social security beneficiaries in Runnels County, Talbot added. A small number of beneficiaries over age 72 who are not receiving regular social security cash benefits will get a 5 percent increase.

Increased benefit amounts were made effective back in January 1, 1971. First checks in the new monthly rate reached beneficiaries on June 3, Talbot said. Separate checks representing the amount of the increase for the months of January through April were mailed later in June.

Of the social security beneficiaries living in Runnels County, 1,806 are retired workers and their dependents. Another 617 are receiving benefits as the survivors of workers who have died, and 158 are getting benefits as disabled workers or their dependents.

Talbot pointed out that although most social security beneficiaries are older people, about one out of every four is under age 60. In Texas, 1,276,977 people under age 60 are collecting social security payments each month. Nearly 194,000 are under age 18, receiving payments because a working father or mother has died or is getting social security disability or retirement benefits. Most of the 32,934 beneficiaries in Texas between 18 and 22 years of age are getting students' benefits under a provision in the social security law permitting the continuation of a child's benefits beyond his 18th birthday, and up to age 22, if the child is attending school full-time and is unmarried.

Also in this 18-22 age group, Talbot said, are some other types of beneficiaries, illustrating the broad family protection that the social security program provides workers of all ages. A number are children of retired, disabled, or deceased workers who became disabled before they reached 18 and who will probably never be able to work and become self-supporting.

Talbot said that another relatively small but significant group of youthful social security beneficiaries are those who are receiving benefits as disabled workers. Social security disability payments can be paid to

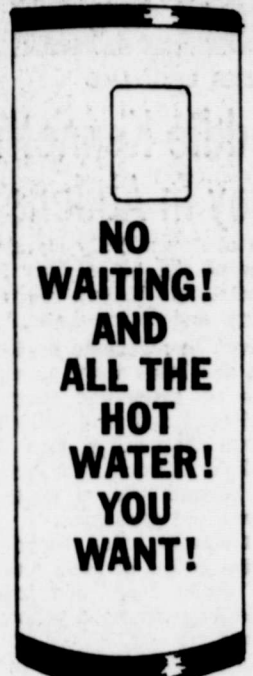

a person who becomes disabled for work even if he has less than 5 years of work under social security. As little as 1 1/2 years of work is required in the case of a worker who becomes disabled before age 24, Talbot said.

For more information, contact the Social Security Office at 3000 West Harris Avenue (P. O. Box 3808) in San Angelo, Texas, or see the representative when he is in your area. Persons who are unable to meet with him are encouraged to call the office in San Angelo at 949-4608.

A compliment makes more friends for you than the truth.

**Four months of picnic food is no picnic.**

Get central gas air conditioning and bring back meat and potatoes.

Some days you wouldn't even boil an egg. Let alone cook a meal. But with central gas cooling you can cook a banquet. Without heating up your home.

With central gas air conditioning, it only costs a little to add a lot to your living.

We give you a special low rate for central gas air conditioning during those sweltering summer months. When you need central air cooling the most.

So go ahead. Have central gas cooling installed. And save the picnic food for the great outdoors.

First of all, you'll save in installation costs. Because you just add a cooling unit to your existing central gas heating system. But that's just part of the savings. Gas costs less to use than electricity. And

**Winters Chapter OES Installed Officers Monday**

Miss Eunice Polk was installed worthy matron and John J. Swatchesue was installed worthy patron, during officer installation ceremonies of Winters Chapter 80, Order of the Eastern Star, at a closed meeting Monday evening.

Mrs. Kenneth Cook, district deputy grand patron, was installing officer, and Mrs. John Swatchesue, installing marshal.

Other officers installed were Mrs. Clarence Tharp, associate matron; John C. Martin, associate patron; Mrs. Z. I. Hale, secretary; Roy Crawford, treasurer; Mrs. Frank Deike, conductress; Miss Sallie Gray, associate conductress; Mrs. J. N. Clark, chaplain; Mrs. B. D. Jobe, marshal; Mrs. Roy Crawford, organist; Mrs. Kenneth Cook, Adah; Mrs. Joe Irwin, Ruth; Mrs. Juanita Taft, Esther; Mrs. John Swatchesue, Martha; Mrs. Thelma Bell, Electa; Mrs. Ted Meyer, warder, and B. D. Jobe, sentinel.

Other members of the installation team were Mrs. Juanita Taft, installing secretary; Mrs. Thelma Bell, installing chaplain sentinel, and Mrs. Roy Crawford, soloist.

**RETURNED HOME**

After an extended visit with her sisters, Mrs. Cora White and Mrs. Dovie Stokely of Westmoreland, Calif., and with her daughter, Mrs. Allene Curtis of Centralia, Wash., Mrs. T. A. Meadows has returned home. She was joined by her daughter, Mrs. George Kirschner Sr., of La Marque, and accompanied home by her daughters and granddaughter, Gayle Curtis. Enroute to Texas, they attended a broadcast program of the Mormon Tabernacle Choir at Salt Lake City, visited Colorado Springs and Pikes Peak.

MRS. FREDDIE KENNETH LEONARD

**Candy Gayl Allen, Freddie Kenneth Leonard Married Friday In Abilene**

Candy Gayl Allen and Freddie Kenneth Leonard were united in marriage Friday, June 18, at 8 o'clock in the evening at the Westgate Church of Christ in Abilene.

The bride's parents are Mr. and Mrs. Cloy Allen of Wingate. The bridegroom's parents are Mr. and Mrs. Reid Harrell of Anson and Mr. and Mrs. Don Leonard of Levelland.

The Westgate Church of Christ minister, Tom Holcombe, officiated. Mrs. Frank Pruitt of Abilene was organist and Miss Becky Mathis of Winters was soloist. Maid of honor was Miss Connie Dunnam of Winters. Bridesmaids were Miss Brenda Byrns of Winters and Miss Cindy Safley of Junction.

Junior bridesmaid was the bride's niece, Saadia Harris of Abilene. Kimberly Dunnam of Winters was flower girl, and Darryl Harris of Abilene, nephew of the bride, was ring bearer.

Mike Story of Abilene served as best man. Groomsmen were Jan Moss and Jerry Taylor,

both of Anson. Billy Harris, nephew of the bride, was junior groomsmen. Ushers were Bill Harris and Terry Lane.

Given in marriage by her father, the bride wore an empire gown of satin and lace with pearl trim and lace and chiffon lantern sleeves. A lace Juliet cap held a floor-length lace veil. Her bouquet was of white carnations and gardenias.

Attendants wore open blue empire gowns of satin and lace and Juliet caps and carried single long stemmed yellow carnations.

The couple will reside in Lubbock, where Mr. Leonard is employed by West Texas Office Supply.

The bride is a graduate of Winters High School and recently finished Draughton's Business College.

Mr. Leonard attended Anson High School and graduated from Mexico, Mo., High School. He attended Cisco Junior College and received his discharge after serving with the U. S. Army 101st Airborne Division in Vietnam.

**Packaging Corp. Won Industrial Golf Tournament**

A four-man team representing Packaging Corporation of America, of Abilene, won the 27-hole annual Industrial-Business Golf Tournament at the Winters Country Club Sunday, with a 97.

Dry Manufacturing Division, Wallace - Murray Corporation, was second with 98, and John's International won on the first hole of a sudden death play off against Pool Well Service, to capture third place. John's International and Pool teams came in with identical 99's.

Paul Stuerzenberger of Abilene won the individual medalist trophy, with 108. First-place partnership trophy went to Elmo Walling and Bill Strawn, who turned in 101, and second place, Paul Stuerzenberger and Bob Stuerzenberger hit 103 for second place in partnership competition.

**Grandson Of Local Resident Appointed To USAF Academy**

Mike Herbert Ryan of Richardson has been appointed to the U. S. Air Force Academy Class of 1975.

Ryan, son of former Richardson Mayer Herbert Ryan, is a 1970 graduate of Richardson High School. His appointment ended a two-year quest. He qualified as an alternate for an appointment in 1970.

He is the grandson of Mrs. J. E. Ryan of Winters. His father was reared in Winters.

Young Ryan was awarded a scholarship by the Dallas-based Falcon Foundation and in Bandon, Ore.

Ryan will enter the Academy at Colorado Springs, Colo., July 5, as a fourth-classman and upon successful completion of the 187-hour four year curriculum will receive a bachelor of science degree and a commission as a second lieutenant in the Air Force.

Ryan's father is a public relations representative for Dresser Industries of Dallas.

**THANK YOU**

I would like to thank all members of the Band Boosters organization for the gift, a sports blazer, presented to me at the close of school. —Kirke McKenzie.

**Grass Management Very Important**

Grasses are now growing, helped by spring rains. In order for the grass plant to continue growing leaves, it must have food factories. In the presence of sunshine, carbon dioxide is taken from the air through tiny pores in the leaves.

Gerald Merz, of the Soil Conservation Service, says that grass plants manufacture their own food. The leaves are the food factories. In the presence of sunshine, carbon dioxide is taken from the air through tiny pores in the leaves.

Ninety-five percent of a grass plant's food is taken from the air through the leaves. Only 5 percent of grass plant food is taken from the soil by the roots. The roots gather raw materials such as water, nitrates and minerals and also store any excess plant food.

If the leaves are continually

dipped off by grazing, or mowing, the food factory will be destroyed. The plant will eventually starve to death for it can't manufacture any food.

Merz says that the grass plant can be maintained and produce forage for livestock if it is properly used. Proper use of the grass plant can be obtained by leaving at least 50 percent of the season's growth, in terms of weight, on the land at all times. This not only keeps food factory producing, but also produces a ground cover preventing wind and water erosion.

Livestock producers must remember that they are harvesting grass. Livestock is just a by-product. Proper use of the grass plant will benefit not only the plant, but also the land, the livestock, and the producer.

If you're satisfied with yourself, take another look.

**Jr. Hi Cheerleaders Return From 5-Day Camp At Cisco**

Winters Junior High cheerleaders returned home Saturday after attending a cheerleading camp June 13-18 on the campus of Cisco Junior College.

Each night during the training camp a program was presented and cheerleaders competed for the spirit award. The Winters girls won three Excellent ribbons for four nights' performances. The ribbons will be displayed in the Junior High showcase.

Girls attending the cheerleading camp were Dana Davis, head cheerleader; Emily McKnight, assistant; and Cindy Seals. All are eighth grade cheerleaders.

Obey the rules of the road if you want to live longer.
