## HOME TOWN Talk

By R. C. THOMAS

This is the time of year when outside garden produce begins to make the news, and Guy Gannaway of Winters believes his squash will stand alongside any yet reported. One squash, on a vine which had climbed a mulberry tree and a peach tree, and was looking for something else to climb, measured 4 1/2 feet in length. "Maybe we could have had one even bigger," he said, "but we've been eating 'em!"

Passing thought: The people who populate the Western Mountain States must feel awfully left out when they hear and see the national television program time schedules announced on the idiot box. Most announcements will be something like this, "Such-and-such program, 8 Eastern Time, 7 Central Time, and 5 Pacific Time." How many times have you ever heard Mountain Time mentioned?

If there is any mystery about why the cost of government continues to climb, it should remain a mystery no longer—if we would only take the trouble to look around us. If ever a piece of legislation gets on the books creating such-and-such bureau, department, or otherwise, or enlarging an existing department, there it remains, no matter how utterly useless and costly and overlapping it may turn out to be. Even if by some fluke, the department is somehow dissolved, the crowds of people originally provided to run it are never released, but are absorbed into some of the countless other — and many times useless — departments or bureaus, and the cost goes on.

Who ever heard of hundreds or even dozens of government workers being laid off because of the lack of work? The exact opposite of private business and industry. If there is no immediate task to keep them looking busy, someone is bound to invent something so all can make a pretense of being important and necessary, and stay on the payroll. It's a system which sustains growth within itself.

Auto dealers have to have a special state permit or license to do business. Most businesses do have to have state store licenses, and this is not so bad, so far as it goes. The auto dealer has to go a step farther, however. In addition to all the forms he has to fill out, he has to provide a photograph of the outside of his business, as well as of the inside, to go along with the application. What good such photograph will do in regulating that type of business is anybody's guess — except to some politician who wanted to get his name on a bill of some sort, or some obscure state worker who saw a chance to enlarge his department. When one realizes the large number of state employees needed to take care of all those photographs — some to stamp "received" on them, others to stamp "file" on them, some to file them, and some to make several copies of a list of the files — one can readily see the made-to-order built-in growth potential for some department. When Jay's Locker was "re-modeled" recently, photos of "before" and "after" scenes had to be forwarded to whatever state department regulates that type of business. There could be more.

A prediction is that once this idea gets around, all businesses will have to provide current photographs of their buildings and offices — or homeowners may be ordered to send in photos and/or blueprints of their homes; farmers may have to send in photos of their tractors and cows! That'll provide cushy

## Hospital Pledges Nearly \$40,000

Total in pledges and cash in the special Hospital Equipment Fund, for the proposed new North Runnels Hospital, continues to climb.

Since the last report, \$2361.00 has been received, bringing the fund to \$39,291.00 as of Tuesday morning. Ted Meyer, chairman of the fund committee, said Wednesday several more pledges and contributions had been received, but were too late to be included in this week's report. They will be acknowledged next week.

The special fund committee mailed letters to all residents of North Runnels County several days ago, and response has been good, Meyer said, and is expected to increase within the next few days. "The people of North Runnels County realize the need for a hospital in this community," Meyer said, "and this is one method they are using to make their desires known, by voluntarily contributing to the fund to purchase equipment for the new hospital."

Meyer said an attempt was made to include everyone in North Runnels in the mailing of the letters, but that some may have been missed. However, he said, if there are those who were inadvertently missed in the mailing, they may send their contributions in, hand them to any member of the special com-

## Ricky Dean Is Showing Some Improvement

Ricky Dean, son of Mr. and Mrs. Hollis Dean, who is in Hendrick Memorial Hospital in Abilene, is showing "some slow improvement," his mother said Tuesday afternoon.

Ricky, a student in Winters High School, was thrown from a horse at his home at Wingate some weeks ago and suffered neck injuries. He had previously been injured in a football game last fall, also.

He has been in the Abilene hospital since the accident, and has been paralyzed from the shoulders down, according to reports. Mrs. Dean said Tuesday he had started showing some response to therapy, and had regained some feeling in a hand and could move his legs during treatment. The improvement is slow, his mother said, "but it is much better than we had thought for some time, although we know it will be a long, hard pull, and many weeks before he shows much improvement."

Ricky is being allowed a few visitors.

## Ricky's Family Says "Thank You"

"We want to express our appreciation and thanks to our friends and neighbors for your concern and your prayers for Ricky's recovery, and for your cards and letters, words of encouragement and other kindnesses. The road to recovery for Ricky will be a long one, but your prayers and your thoughtfulness will make it more bearable, not only for him but for his family. We are so fortunate to live in a community where people show so much kindness for their neighbors. May God bless you all." — Mr. and Mrs. Hollis Dean and Family.

## IN THARP HOME

Mr. and Mrs. Chester Roe of Bagdad, Ariz., returned home the last of the week after spending several days in the home of his mother, Mr. and Mrs. John Tharp.

## Winters Exes Planning Homecoming Celebration Friday, October 8th

The homecoming celebration for all Winters ex-students has been set for Friday, October 8, to coincide with the Winters-Ballinger football clash. Honor classes this year will cover 1960-61, 1950-51, 1940-41. However, all ex-students and families are urged to attend the celebration.

Activities will begin with registration at 5 p. m. Friday, October 8, in the school cafeteria; a pre-game dinner in the cafeteria at 5:30; football game

## Sept. 18-25 Is Young Farmer Week In Texas

September 18-25 has been officially designated as Young Farmer Week in Texas by proclamation of Governor Preston Smith.

The proclamation, signed recently, gives additional recognition to this rapidly growing farm group. The Young Farmer Association is sponsored under the auspices of vocational agriculture departments in high schools across Texas and the Texas Education Agency.

Over 250 Young Farmer chapters have been organized on a local school district or county wide basis to carry out educational activities which will help the members keep abreast of the technological advancements in the field of agriculture and to develop greater skill and efficiency in management, production, and marketing. Governor Smith points out in the proclamation that, in addition to educational activities, Young Farmers incorporate in their planned chapter programs civic and community service projects and leadership activities that are designed to improve their communities, State, and Nation, and to promote the welfare of all citizens. He further points out that through these efforts they are helping to strengthen the economy of our country and are promoting good citizenship.

In closing the proclamation, the Governor predicted that as the organization continues to grow, it will play an increasingly important role in the life of rural America.

Dick Britten, a 25-year-old farmer from Bryan, Texas is President of the State Association of Young Farmers, which has a membership of over 3,600.

## Four WHS Classes Elected Officers For School Year

The four classes of Winters High School elected officers for the new school year last week. Senior class officers are: Jimmy Sims, president; Jimmy Benson, vice president; Wandrea Parrish, secretary-treasurer; and Brenda Smith, reporter.

Junior class officers: Oscar Torres, president; Wayne Schwartz, vice president; Terri Mills, secretary; Ernestine Dela Cruz, treasurer; Jay Heflin, reporter.

Sophomore class: Mike Fowler, president; Jim West, vice president; Cheryl Whitlow, secretary-treasurer; Karen Simpson, reporter.

Freshmen: Benjie Aldridge, president; Mitch Davis, vice president; Elvia Rodriguez, secretary-treasurer; and Paula Meyers, reporter.

## Mrs. Florette Wood Resigns From School

Mrs. Florette Wood, a teacher-aid in the Winters High School, has submitted her resignation to the school board, and will join her husband in Virginia in the near future, it has been announced.

Her husband, SP5 Alan Wood, is stationed at Fort Eustis, Va. He had been scheduled for duty with the U. S. Army in Vietnam, but received orders at the Port of Embarkation, Fort Lewis, Wash., to report to Virginia. He is a crew chief on a Chinook aircraft.

Mrs. Wood and daughter Gail will join him at Fort Eustis. They will be accompanied by their parents, Mr. and Mrs. Herbert Wood of Coleman.

## ASCS Offices To Answer Questions On Price Freeze

The more-than-2800 ASCS County offices throughout the nation have been called upon to provide information service on the President's wage-price freeze order, W. R. Gray Jr., County Executive director of the Runnels County ASCS office, has announced.

Gray said all Runnels County residents seeking information about the wage-price freeze may write or phone the county office in Ballinger, or visit the office personally.

While the county ASCS office is an official center for information on this program, Gray said, it has no authority to act on complaints or handle requests for exceptions to the freeze. The office has necessary forms for filing complaints and will assist in filling out the forms, but such complaints go directly to the Internal Revenue Service, he said.

## 13 Bales In From '71 Crop

Only 13 bales of cotton from the 1971 crop have been brought in to the Winters Warehouse, Ras Gideon, warehouse manager, said Tuesday noon. All of these bales were produced by C. C. (Tip) McKnight, he said.

It probably will be several days before an appreciable amount of cotton is stripped in this area, cotton men have estimated.

## WHS FFA Chapter Elected Officers

Ronnie Moore, son of Mr. and Mrs. J. E. Turner, was elected president of the Winters Chapter, Future Farmers of America, in elections last week.

Other officers are: Tim Meyer, vice president; Wayne Schwartz, secretary; Jimmy Sims, treasurer; Rex Marks, reporter; and Rodney Richards, sentinel.

The new chapter president has been active in FFA, with calf and horse projects. He also is a Blizzards football team manager.

## Blizzards Opened Football Season With 21 to 16 Win Over Hamlin

The Winters Blizzards opened the 1971 football season with a 21-16 defeat of the Hamlin Pied Pipers Friday night in Hamlin.

The Blizzards received the opening kick-off and put the ball in play on their own 30 yard line. They made three consecutive first downs, with carries by Lee Choate, Jerry Mack Jackson, and Steve Tatom, before losing the ball on a fumble at the Hamlin 35. A strong Blizzards defense soon returned the ball to the offensive team, only to have the ball fumbled away on the next two possessions — one fumble after driving all the way to the Hamlin 11. Quarterback Tatom alternated among ball carriers Ricky Mathis, Jackson, Choate, and Fred de la Cruz for the drive to the 11.

The second quarter saw the Blizzards again moving the ball well but unable to sustain a drive across the goal line. The half ended with no score for either team.

The Blizzards fumbled the ball on their first possession of the third quarter, and the second possession ended with an incomplete halfback pass. But they held onto the ball the next time the defense turned it over to them and drove from their own 41 to the goal line in eight plays, with Choate going for 31 yards and six points. Choate's kick was good to make it 7-0, Winters.

Early in the fourth quarter Winters made it 14-0 with Jackson going up the middle for 38 yards to take it in. Again, Choate's conversion was good. The Pied Pipers got on the score board when their speedster Johnny Jones eluded several Blizzards and outran everybody for a touchdown; they made a two-point conversion for a 14-8

score. After a Winters touchdown was called back because of a penalty the ball was again lost on a fumble; then a short Hamlin punt was run back by Larry Cooper to the Hamlin 8. Following an exchange of fumbles the Blizzards settled down for their final scoring drive; Jerry Mack Jackson drove for nine yards, and Fred de la Cruz took it in twelve yards out. The point after was good, for a score of 21-8. Hamlin took their speed for one more outing — a 60-yard run by Milton Jones — and a two-point conversion for the final score of 21-16.

The Blizzards defense was stout throughout the evening, with steady play by: Oscar Torres, Tatom, Jackson, Billy Ray Grant, Lynn Giles, Mike Smith, Wayne Schwartz, Jimmy Benson, Bodie Williams, Keith Paschal, and Larry Cooper.

Outstanding defensive players were Oscar Torres, defensive safety, who made 15 tackles, intercepted a pass, and covered two fumbles; Wayne Schwartz, who made 21 tackles; and Lynn Giles, who made 15 tackles.

Player	Yards	Carries	Avg.
Choate	128	16	8.5

## Merkel Gridders Here Friday Nite

### AROUND THE 8-AA FOOTBALL LOOP

Five loop members won openers against outsiders last Friday night, while three took defeats to usher in the 1971 football season. Comanche was the single team in the district to drub an opponent into nothingness, but otherwise around the circuit it was "first-game" night, with all that entails. Nobody has been out enough to find out what could or could not happen.

The Ballinger-Brady set-to at Ballinger Friday night probably was the most interesting, as these two opponents of long standing battled 8-7, with Brady taking the one-point edge. The Bearcats took their 7-0 lead in the second, and held it until a third of the last quarter had elapsed. Then it was that Brady scored and ran for conversion for two to take the game.

Winters outran Hamlin 21-16 — also a close one according to the stats — and a game which saw first-game fumbleitis almost lose — or win — a ball game.

At Coleman, where the Bluecats met erstwhile district mates Anson, on the first rattle out of the box, the Tigers took a 7-0 lead after an 83-yard scoring play, and then PATed. But Coleman came back to clinch their first victory, 16-7.

Cisco lost their opener by a large margin — 28-6 — to Ranger, as Ranger stepped out ahead in the first quarter and held throughout the evening. Hamilton, in their opening game of the 1971 season, took a drubbing at the hands of DeLeon, 32-6. The Bulldogs were kept busy all night watching DeLeon cross over the goal line in each quarter. Hamilton's Split end Jesse Kirkland accounted for some long-yardage runs, 64 on a kickoff return and a 45 on an end run, but nothing came of the effort.

Clyde hit Merkel 14-7 Friday night, after having been led 7-6 throughout the evening by the Badgers. However, with three minutes left on the clock, the Bulldogs got loose and ended up with the ballgame.

Eastland, touted as the top team in 8-AA this year by somebody, started the season 22-6 against Haskell. All scoring was done in the first half, and the two played defensive football the rest of the evening. First-game nerves also caused a rash of fumbles for both sides, three for Haskell and four for Eastland. Haskell was responsible for the only passing yardage of the evening, only 17; both teams neared the 300 mark for rushing yardage.

This week's schedule: Merkel at Winters Hamilton at Goldthwaite Ranger at Eastland Comanche at DeLeon Coleman at Brady Hamlin at Clyde Cisco at Albany Ballinger at Reagan County

## Nurse Aide Class To Begin Here Next Monday

A Nurse Aide class, sponsored by Central Texas Opportunities, Inc., will begin at 7 p. m., Monday, Sept. 20, at the Humble Building.

Mrs. Lillie Baldwin, LVN, will be instructor. There will be no cost to enrollees, unless they desire to purchase a book.

The period of instruction will be at least 70 hours, and certificates will be issued at the end of the course.

This is the third year this course has been offered in Winters. Those interested in taking this Nurse Aide course may pick up registration blanks at the Winters Multi-Purpose Center.

## 868 Students In Winters Schools For Fourth Week

Registration of students in Winters Public Schools reached 868 at the beginning of the fourth week of the 1971-72 school year, it was reported. This was a slight increase over the first two weeks of the new school year.

Elementary school had 658 students registered for the fourth week, and there were 310 in high school.

Coach Chili Black said Monday the Blizzards will work on stronger ball handling this week, following the rash of fumbles which marred their bout with Hamlin Friday night.

The Badgers are reportedly a small but effective squad, with probably a bit more experience returning this year than have the Blizzards. They work from the Wishbone T, and are mainly ground oriented, throwing only when it becomes necessary.

Coach Black said there would be very little change in the probable starting lineups this week.

### PROBABLE STARTERS

**Offense**  
Tight End: Keith Paschal, 153  
Left Tackle: Wayne Schwartz, 168  
L. guard: Lynn Giles, 162  
Center: David Grohman, 141  
R. Guard: Mike Smith, 155  
R. Tackle: Jimmy Benson, 172  
Split End: Billy Ray Grant, 136  
QB: Steve Tatom, 155  
LH: Lee Choate, 186  
RH: Jerry Mack Jackson, 174  
FB: Fred de la Cruz, 158

**Defense**  
LT: Jimmy Benson  
LG: Mike Smith  
RG: Bodie Williams, 235  
RT: Keith Paschal  
Linebackers: Lynn Giles and Wayne Schwartz  
L. Monster: Larry Cooper, 143  
R. Monster: Jerry Mack Jackson  
LHB: Steve Tatom  
Safety: Oscar Torres  
RH: Billy Ray Grant

## Voting Places Changed In Precinct No. 3

Lines for voting precincts in at least two County Commissioners precincts in Runnels County have again been changed, "to cause the least in convenience to voters," according to Runnels County Judge Elliott Kemp.

Many voting places had been changed last month following the redistricting of Commissioners' precincts.

Judge Kemp said County Commissioners Monday authorized a change in voting box locations for Precinct No. 3, located in the northwest corner of the county, and extending into Winters on the east and into Ballinger on the south. At first, following redistricting, a box had been scheduled at Norton to accommodate all voters south of FM 53 and west of U.S. 83. Commissioners Court Monday added a voting place in Winters for all residents south of 53 and west of U.S. 83 to the Poe Corner-Norton road, will be at the Winters Chamber of Commerce. John J. Swatchus will be the judge for that box.

Also, commissioners abolished the Bruce Field box for Precinct 4, and moved that box to the county courthouse. The box which was to be at the Ballinger High School has been moved to the Ballinger City Hall, the county judge said.

## Scout Meeting Is Set Wednesday

A Boy Scout organizational meeting will be held Wednesday at 7 p. m. in the Scout Hut on North Main Street.

All parents and boys interested in becoming Scouts are invited to attend. Also, all adults interested in working with the Boy Scouts are urged to attend.

Entered at Post Office, Winters, Texas (79567), as Second-Class Mail Matter.

SUBSCRIPTION RATES  
One Year, in Runnels and Adjoining Counties \$3.50  
Other Counties and Out-of-State \$4.50

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice of same being given to the editor personally at this office.

## WINGATE

Mr. and Mrs. Charley Smith have been visiting in the home of Mr. and Mrs. M. R. Smith and with his sister, Mrs. Myrtle Gannaway and the Suvern O'Dells.

Visitors in the Edwin Voss home have been Erwin Voss and granddaughter, Donna of San Angelo and Mr. and Mrs. Bennie Hejl.

Mr. and Mrs. Ross Briley and Ronnie of Ballinger were guests in the home of his grandmother, Mrs. Lena Wheat. They attended church and with the David Bryans, Mr. and Mrs. Huddleston and Mr. McMillon of Abilene met at the Wingate Cafe for a get together.

Mrs. J. W. Allen was in Dal-

las the first of the week for a check up.

The Irvie Talleys and Mr. and Mrs. Reagan visited Monday at Big Lake with Mrs. Talley.

Mr. and Mrs. Bill Harmon, accompanied by their grandson and Nadine Smith left Monday for Lake City, Colo., for a two weeks tour and hunting and fishing.

Guests of Mrs. Porter last week were Mr. and Mrs. Fom-pain Port of Galem, Mexico and Mr. and Mrs. Forrest P. Rasce spent Saturday night.

The Sterling Abbots of Bryan have visited Mr. and Mrs. Lonnie Saunders.

Mrs. Leonard Wheat and daughter Jeanell of Lubbock and Gloria Faye of Plainview attended the funeral of her sister-in-law, Mrs. Lillian Dittmore, at Norton Wednesday. They came by for a visit with Mrs. Lena Wheat.

#### Wingate Sew and Sew Club Meeting

The Wingate Sew and Sew Club met recently at the Methodist Church, with Mrs. Nolan Cave serving as hostess. Hand-work was done for the hostess.

Punch was served to Mesdames Elmer King, Butch Burrow, Emma Doggett, Ed Kinard, Brent Mikeska, Minnie Williams, J. O. Woodfin, Dock Pinegar, O. D. Bradford, Cliff Burrow, R. L. Hancock, George Lloyd, Mildred Patton, Pete Polk, Flossie Kirklan, and Nolan Cave.

The next meeting will be September 21 at the Methodist Church, with Mrs. Emma Doggett as hostess.

#### CARD OF THANKS

I wish to thank my friends and relatives for the nice cards, flowers, food, and thoughtfulness shown to me during my recent illness. —Myrtle Green. Itc.

## Mrs. W. Workman Died Friday In Abilene Hospital

Mrs. W. C. Workman, 66, died at 4:15 a. m. Friday in Hendrick Memorial Hospital in Abilene following a brief illness.

Funeral services were held at 2 p. m. Sunday in Spill Memorial Chapel, with the Rev. Bob Sanders, pastor of First United Methodist Church, and the Rev. Chester Wilkerson, retired minister, officiating.

Burial was in Lakeview Cemetery under the direction of Spill Funeral Home.

She was born Vera Gertrude Arnold, August 9, 1905, in Bosque County. She moved to Anderson County with her family at an early age.

She married W. C. Workman Jan. 19, 1931, in Palestine, and in 1936 the family moved from Anderson County to Runnels County, settling on a farm in the Pumphrey community. In 1956 they moved to Winters.

Mr. and Mrs. Workman owned and operated a cafe in Winters for a number of years.

She was a member of the First United Methodist Church. Survivors are her husband; one daughter, Mrs. La Nell Naegle of Alexandria, La.; four brothers, Voddie, John and Gilbert Arnold, all of Palestine, and Winford Arnold of Corpus Christi; two sisters, Mrs. Mattie Ott of Pensacola, Fla., and Mrs. Blanch Castro of Houston; and two grandchildren.

Pallbearers were Bill Mil-lion, Bobby Mayo, J. W. Adams, W. E. Foster, Joe Baker, and J. T. Sneed.

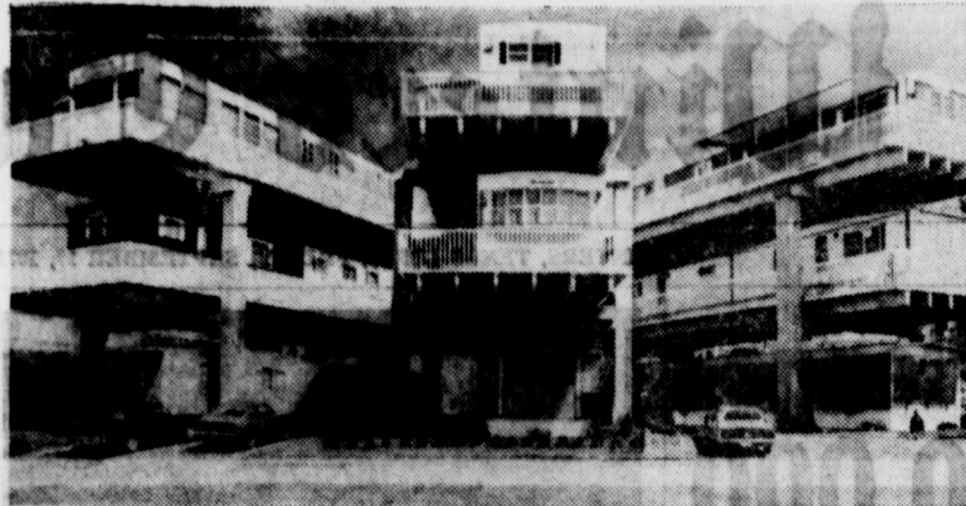

#### Mary Martha Circle Meeting Tuesday

The Mary Martha Circle, W.S. of the First United Methodist Church, met Tuesday with Mrs. Carl Baldwin. Mrs. J. D. Vinson, circle chairman, presided, and the devotional was presented by Mrs. D. A. Dobbins.

Refreshments were served to Mesdames August McWilliams, D. A. Dobbins, E. A. Bridwell, Forrest Davis, Bob Sanders, Vada Babston, J. D. Vinson, Gattis Neely, W. F. Lange, Dick Mayo and Carl Baldwin.

#### NOTE OF APPRECIATION

I wish to express my thanks to the Chamber of Commerce, and to the president, M. D. (Doc) Johnston, who awarded me prize money and recognition for harvesting the first bale of cotton. I appreciate all the efforts of work, thoughtfulness and time put forth for this project. I would also like to thank Floyd Grant for buying the first bale at 30 cents a pound. For those who participated, I respect and appreciate your many kindnesses. —C. C. (Tip) Mc-Knight. Itc.

MOBILE HIGHRISE is one solution to sprawl at trailer courts. This project, Sky-Rise, at Vadnais Heights, Minn., stacks nine mobile homes in a three-wing, three-level concrete unit.

## CREWS

To handle yourself, use your head; to handle others, use your heart.

On Thursday, Mr. Cecil Hambright visited the L. C. Fullers. Mrs. Miller from Brownwood came Sunday afternoon. Mr. Fuller had a streak of bad luck while riding his horse. The horse laid down and died. When he got home, old Sue, the dog, had also died.

Mr. and Mrs. Marvin Hambright were in Lubbock for the week-end with their daughter, Mr. and Mrs. Mike Diess, also their son, Eldon.

Mrs. J. M. Martin of San Angelo, Mr. and Mrs. Gerald Martin, Texarkana, Mr. and Mrs. Marvin Hambright, Mrs. Nora Pluffer, Austin, Bonnie Clark of Ballinger, visited the Burley Campbells during the week.

Mr. and Mrs. Boyd Grissom saw the McMurry college football game Saturday. Afterwards they were in the home of Mr. and Mrs. Steve Grissom.

Mr. and Mrs. Wayne Foreman, Mr. and Mrs. Roscoe Foreman, Mr. and Mrs. Vernell Johnson and Larry visited their parents, the O. Z. Foremans during the week.

Mr. and Mrs. Bill Villers, Jimmy and Peggy, San Angelo, had supper with their folks Saturday night, the Raymond Kurtz's.

After church Sunday night at Hopewell a reception was held for Mr. and Mrs. Ralph McWilliams who have moved to Winters. After punch and cookies, gifts were presented to the going away couple.

Visitors with the A. S. Allcorns during the week were Mrs. Bill Bozeman, San Angelo; Mrs. Fred Damon; Mrs. Thelbert Hudson; Rev. and Mrs. Bob Sanders, Winters. The Allcorns were in Abilene Monday and visited with Mrs. Hattie Walden.

Mr. Vernon Bragg was admitted to the Ballinger hospital.

Mrs. Rodney Faubion sustained injury to her right hand while at work at the Wallace-Murray plant. She is in the North Runnels Hospital.

Visitors during the week with the Coleman Foremans were: Mr. and Mrs. Wayne Foreman, Arlington; Mr. and Mrs. Roscoe Foreman, Denton; Mr. and Mrs. Vernell Johnson and family; Mrs. Theron Osborne. Mr. and Mrs. B. B. Clark and Larry of Lubbock were Sunday dinner guests.

Mr. and Mrs. Chester McBeth attended the funeral of their sister-in-law, Mrs. Loyd McBeth, in Sweetwater Friday.

Mrs. A. E. Tounget of Lubbock spent Friday night with her folks, the McBeths. Mr. and Mrs. McBeth visited with the Virgil Fishers Sunday night.

Mr. and Mrs. Don Isbell of Houston, Cherril and Vicki Bryan spent Saturday night with Mr. and Mrs. Douglas Bryan.

We wish to express our sympathy to the Chester McBeth family on the death of Mrs. Loyd McBeth.

Sunday dinner guest in the Theron Osborne: Bro. Scott, Mrs. Scott and family, Richard Trotter of Brownwood.

Mrs. Noble Faubion returned from Garland after spending a few days with her children and relatives.

Bro. Scott handed in his resignation Sunday night at Hopewell church.

Mr. and Mrs. Maloy Bryant and boys, Abilene, were week-end guests with the Marion Wood family.

Mr. and Mrs. Odie Mathews were in Miles Sunday to see her folks, the George Colemans.

Lungs cleanse and purify blood in a human body.

Nothing will ever be attempted if all possible objections be first overcome.

## LEGAL NOTICE

STATE OF TEXAS  
TO: Whitey Earl Thompson, whose place of residence is unknown to Plaintiff.

You are hereby commanded to appear and answer Plaintiff's Original Petition at or before 10:00 o'clock A. M. on the first Monday after the expiration of 42 days from the date of issuance of this citation the same being on Monday the 25th day of October, 1971, at or before 10:00 o'clock A. M. before the Honorable District Court of Runnels County, 118th Judicial District, Texas. Said Plaintiff's Original Petition was filed on April 2, 1971, the file number being 8155. The names of the parties to said suit are Kathy Sue Thompson and Whitey Earl Thompson, the other person to whom this writ is addressed and hereinabove named and described in this citation. The nature of said suit is substantially as follows: a suit for divorce, custody of one child, Robert Lewis Thompson, child support for Robert Lewis Thompson, and a division of community property. The style of this suit is IN THE MATTER OF THE MARRIAGE OF KATHY SUE THOMPSON AND WHITEY EARL THOMPSON.

If this citation is not served within 90 days after the date of issuance, it shall be returned unserved.

GIVEN UNDER MY HAND AND SEAL OF OFFICE, and issued at my office in Ballinger, Runnels County, Texas, this 7th day of September, 1971.

MYRT JOBE,  
Myrt Jobe, District Clerk,  
Runnels County, Texas.

Perfectionism is a dangerous state of mind in an imperfect world.

If you are doing your best you will not have time to worry about failure.

The best time to hold on is when you reach the place where the average person gives up.

## Connie C. Benson Died In North Runnels Hospital

Connie C. Benson, 76, died at 1:45 p. m. Friday in North Runnels Hospital, following a long illness.

Funeral services were held at 4:30 p. m. in Spill Memorial Chapel, with the Rev. Harry Grantz, pastor of First Baptist Church, officiating.

Burial was in Lakeview Cemetery.

Connie C. Benson was born in Williamson County, Sept. 16, 1894. When he was four years of age, the family moved to Runnels County, and since 1912 he had lived in Winters.

He was a retired merchant and farmer and was a longtime member of the First Baptist Church.

He married Grace Harrison March 30, 1912, in Winters.

Survivors are his wife; two sons, Martin Benson of San Angelo and Alvin Benson of Winters; one daughter, Mrs. W. F. Gresham of Odessa; two sisters, Mrs. John Pace and Mrs. May Farris, both of Brownwood; eight grandchildren and 15 great-grandchildren.

Pallbearers were Vernon Fuller, Hal Dry, Ralph Burns, Harold Allen, Pete Davis, C. R. Kendrick, Sol Nichols and J. W. Dunn.

**AUTO INDUSTRY REVIEW**  
Wellesley Hills, Mass.—In predicting the shape of things to come in the auto industry, it seems advisable first to look back at what happened during 1970, a year packed with adversity. In the early months a Teamster strike hampered the flow of goods and ultimately resulted in increased freight costs. Later, settlement terms of a rubber strike boosted the price of rubber products and tires. Finally, toward year's end a strike by the UAW against GM curtailed over 50 percent of domestic auto assemblies.

Shortly before year's end, however, a UAW agreement marked a cutoff point for the poor sales, production, and profits which the auto industry had experienced in 1970. For the full year, the industry produced close to 7.5 million U. S. cars. With the start of the first quarter of 1971, the industry came alive and output surged well above the meager pace set in 1970. With this stronger rate and the improved near-term outlook because of

**Here's the Answer**

the 7 percent excise tax (estimated at \$200 per car) should spur demand for autos to a considerable degree. Additionally, the increasing use of automation and space-age materials should reduce the pressure of climbing production costs.

The imposition of a 10 percent surtax on imported cars will certainly serve to place domestic auto manufacturers in a considerably stronger competitive position. The President's proposal to restore the investment tax credit—initially at 10 percent and then at 5 percent on the permanent basis—should also aid the industry. Hence, although admittedly the auto makers have their share of problems, the overall outlook is bright. We expect that the satisfactory quarter-to-quarter earnings com-

parisons turned in so far this year will persist.

The stock market appears already to have recognized the generally improved outlook, and thus we feel at present that the equities of the auto manufacturing firms are fully priced. But for investors who wish to participate in the improved industry prospects, the Research Department of Babson's Reports favors purchase of the common stock (listed on the NYSE) of Raybestos-Manhattan or Weatherhead Company, both supplying the auto makers with original equipment.

Piccolo is the highest toned wind instrument.

**Judge Roy Bean's Pistol, Books In Langtry Museum**

Judge Roy Bean, the "Law West of the Pecos," was likely to handcuff prisoners to a handy tree "till he could get around to a trial on his front porch. He reeled off decisions with the aid of a solitary law book, and backed 'em up with a six-shooter on the table beside him. Then to make it official, he made liberal use of his prized notary seal.

The old judge is long gone, along with the frontier Southwest he so colorfully represented. But his pistol, handcuffs, book and notary seal are now

on display at the Texas Highway Department's Judge Roy Bean Visitor Center in Langtry. The historic items, in private hands since Bean's death, are feature additions at the site where a slice of the old West is preserved in authentic detail. The relics are on view in a special case protected by an electronic security system.

Roy Bean wouldn't believe it. The weathered old "Jersey Lilly," his saloon-courtroom-billiard hall, is just like he left it. The State Legislature, in 1939, named it a historic site and directed the Highway Department to preserve it for tourists. Next door is the department's modern, air-conditioned Visitor Center. Inside the judge would find himself the star of a half dozen dioramas, each with a special recorded program.

But it's not likely that Roy Bean's ghost will be roaming the Visitor Center. There's one thing about it he just couldn't abide. It's all free. Imagine, folks dropping in every day of the week—from all over Texas, California, and even Canada—but not a nickel to be made. Thunderation!

Course, he'd probably be pleased that some old friends remember him. They're heirs of W. H. Dodd, a compadre of Bean's from the old days, and they made the Bean relics available to the Highway Department. Among them are Mrs. Pearl Dodd Nicholson of Langtry; Cross Dodd and Mrs. Mary Hall Uzzell, both of Austin; Mrs. Dorothy Hall Frazee of Dixon, Illinois; and Mrs. Billie Hall Carey of La Presenta, California.

**BEDFORD INSURANCE AGENCY**

a 1971 total of about nine million domestic assemblies, up one and a half million units from the levels of last year. For the first six months of 1971, a production gain of 18 percent was run up over 1970's similar period.

**CHANGING SALES PATTERNS**  
So far in 1971 sales of U. S. autos have shown vigor and demand should be even stronger through the rest of the year, due in part to the reduced competitive edge of the foreign car makers. This does not mean, however, an end to the slow gains being made by imported autos. The sales of foreign cars which last year were close to 1.3 million units are expected to increase to 1.5 million units in 1971 despite a 10 percent import surtax. This represents a potential 15.4 percent increase over last year. At this estimated rate imports will account for some 15.3 percent of 1971 auto sales, only a fractional change from last year's 15.5 percent and primarily a reflection of Nixon's policy.

A trend toward the purchase of smaller cars is not new to the industry, but it does seem to be gaining strength month by month. In fact, sales of the smaller vehicles (imports, compacts, sub-compacts) captured 39 percent of auto sales during July.

**WHAT'S AHEAD**  
Naturally, it is not difficult to cite the outstanding adverse factors in the auto industry at this time, i. e., high prices for both labor and raw materials, continued foreign competition (although somewhat reduced), and stringent and expensive safety standards. But it should also be noted that there are many favorable points, a number of them new to the picture. For example, the elimination of

## Everyone Needs Hearty Breakfast Says Specialist

COLLEGE STATION—A hearty, well-balanced breakfast will keep you alert and ready for work all morning, reports Gwendolyn Clyatt, Extension consumer marketing specialist.

After a long night's sleep, the body needs a chance to refuel from dinner the night before. Breakfast provides this refueling process, Mrs. Clyatt explains and enables you to turn out more work in the late morning hours. Also, you won't tire as easily and your reactions will be quicker.

A "refueling" breakfast must be a basic breakfast, the specialist points out—one that provides from one-fourth to one-third of the day's nutrient requirements. Planning a nutritious breakfast can be easy if you follow a basic pattern, such as the one developed by food nutritionists. This pattern consists of fruit, cereal with milk and/or egg, bread and butter, and milk. The quantity of each can be adapted to the size and activity of the individual, but the types of foods needed are the same for all.

If breakfast menus at your house have fallen into a rut, Mrs. Clyatt suggests checking the pattern. Think of all the juices, fresh fruits and melons, ready-to-eat cereals and breads on the market; and how many different ways an egg can be prepared. Then surprise the family with a hearty morning meal that will spark them with energy.

## STATE CAPITAL HIGHLIGHTS

By BILL BOYKIN, Texas Press Association

**AUSTIN**—A major court decision last week left up in the air the question of how Texas is to achieve a valid reapportionment act for both houses of its legislature before next year.

State Supreme Court agreed with an August 2 Austin district court finding that a House redistricting bill passed this year is unconstitutional because it unnecessarily split up 23 counties.

The decision left unanswered how the bill should be corrected or if it should be redone before 1973. Basic questions are these: —Should House reapportionment and state Senate redistricting (left untouched by the Legislature) be the subject of an emergency special session?

—Should the five-member constitutional Legislative Redistricting Board take on the job, since no valid reapportionment was done by the Legislature in the first regular session after the 1970 census?

—Should the Legislature forget about reapportionment before 1972 elections and wait until the 1970 census statistics are all complete and published?

Gov. Preston Smith and Atty. Gen. Crawford Martin once more are on opposite sides of a controversy.

Smith says the Redistricting Board has the "duly constituted responsibility" under the constitution to redistrict, and a special legislative session on reapportionment would be unnecessary.

Martin stated in a brief before the Supreme Court a special session "would seem the only correct possibility, but this, too, could be made the subject of litigation."

A High Court ruling in another case challenging the Redistricting Board's authority may hold the key as to whether it can proceed, whether the Legislature must take over now or check the task until 1973.

A note of urgency is injected into the issue by the fact the Board is directed by the constitution to do whatever it is going to do by late October. Furthermore, legislative candidates appear to face a November 7 deadline for establishing residence in the district they choose to represent.

**ANTI-POLLUTION PERMIT USED**

Texas Air Control Board has put into operation a far-reaching permit system to help control and prevent air pollution.

Since August 30, any industry that will omit air contaminants into the atmosphere must get a Board permit before starting any construction. Similar permits are necessary to modify or change contaminating causing facilities.

Permits apply to specific, individual manufacturing processes, not entire industrial plants or complexes. Exceptions for minor contaminant-causing plants will be listed later. Applicants have 60 days after construction is completed to apply for operating permits.

**HEALTH STUDY ON**

New studies to find ways of meeting health service, staff and facility needs of Texas' rural population will be undertaken by the Research Institute for Systems Development at Texas A. & M. University.

The study will be conducted in the West Central Texas area, centered around Abilene which has both rural and urban characteristics typical of many rural areas.

## Burglars Hit Rural Homes In North Runnels

Thieves have hit two rural homes in North Runnels County within the past two weeks, taking television sets, firearms and other valuables, Johnny Wilson, of Winters, Runnels County Chief Deputy Sheriff, has reported.

Tuesday night of this week, burglars hit the Lonnie Saunders home four miles west of Drasco, stealing a television set, a radio and other small electrical appliances.

On Labor Day, burglars entered the Marvin Phillips home 12 miles west of Winters on Oak Creek, taking a television set, a shotgun and a rifle, and two rods and reels.

Deputy Wilson and other law enforcement officers have warned all residents, especially in the rural areas, to be especially watchful and suspicious of strangers, and to report any suspicious activities to police immediately.

poverty areas. (Houston and Laredo banks will be among sources of loans).

Rio Grande Valley farmers suffered a \$150,000 to \$175,000 loss on harvested cotton due to recent heavy rains, reports Texas Agriculture Department.

Grand Prairie Bank and Trust Company seeks a state bank charter.

Shoup Voting Machine Company submitted its mechanical voting device for special inspection by the Secretary of State.

Public hearings were held this week (starting September 14) on \$23.3 million worth of new school textbooks.

**DAM AUTHORIZED**  
In spite of opposition by landowners, Texas Water Rights Commission voted to permit construction of a dam on Martin's Creek in Rusk County by three electric power companies.

Dallas Power and Light Company, Texas Electric Service Co. and Texas Power and Light Co. plan to build the dam 17 miles northeast of Henderson for a major power plant.

Landowners expressed fear the lake created by the dam would flood their pastures, destroy timber and prevent Martin's Creek from continuing to provide water for livestock. The companies pledged to try and prevent or mitigate damage.

**D. A. STUDY PENAL CODE**

District and county attorneys have launched their own committee study of needed changes in the penal code. They fought a sweeping, controversial revision of the code during the legislative session this year.

District Attorney Tom Hanna of Beaumont was selected as chairman of the committee in the first meeting last week. Pro-securitors indicated they prefer a simplified, "more responsive" new code to the version introduced in the 1971 Legislature which had been five years in the making.

**INDUSTRIES GET AWARDS**

Five Texas industries will receive special 1970 Governor's Industrial Expansion Awards at ceremonies in connection with the Governor's Conference on Industrial Expansion October 13 and 14 here.

They are Jimmy Dean Meat Company of Plainview, Levi Strauss and Company of Amarillo; Sprayberry Handbags Inc. of Clifton; Gorman Peanuts of Gorman and Vintage Homes Inc. of Breckenridge.

**SHORT SHORTS**  
Sen. Ralph Hall of Rockwall has promised an announcement for lieutenant governor here September 23.

Attorney General Martin held the State Board of Insurance can make rules for safe movement and operation of mobile gasoline service units.

**VISITED IN WINTERS**

Mrs. C. W. Williams and Doyle of Cleburne visited last week with Mrs. T. O. Williams. While in Winters they visited other friends. They were enroute to visit Mr. and Mrs. Fred Crow and family.

**FROM LUBBOCK**

Sylvia Moore, who is a nurse at Methodist Hospital, Lubbock, is visiting for several days in the home of her parents, Mr. and Mrs. Ellis Moore, and with her grandparents, Mr. and Mrs. Bill Moore.

**CARD OF THANKS**

We want to express our gratitude to each of you who were so kind and thoughtful during our days of recent sorrow. For the food you brought to our home, the visits, cards and every other expressions of sympathy, we want to say thank you.—Mr. and Mrs. T. H. Worthington and Family. 1tc

## J. B. McGuire Recognized By State Group

J. B. McGuire, County Service Officer for Runnels County, has been selected by the Veterans County Service Officers Association of Texas, as the Outstanding County Service Officer in the Waco region for the year 1971.

McGuire will be presented a certificate of honor commemorating this achievement during the annual conference of the Association in Waco September 19-23.

Runnels County is one of 34 counties in the Waco region.

## New Report On Research of Grain Sorghums

COLLEGE STATION—Grain Sorghum Research in Texas, 1970, a progress report which describes an entirely new industry in the state, has just come off the presses at Texas A&M University.

The 120-page publication was compiled by researchers and specialists in the Texas Agricultural Experiment Station and the Texas Agricultural Extension Service.

Dr. H. O. Kunkel, dean of the A&M College of Agriculture and acting director of the Experiment Station, said the grain sorghum story, as outlined in the publication, is a good example of what a land-grant university can do for an agricultural commodity.

He said the report is especially significant in views of the more than \$300 million in cash receipts which Texas-grown grain sorghum has provided for the past four years. Receipts totaled more than \$350 million in 1970.

About one in every \$8 in cash receipts from all commodities marketed by Texas has been from grain sorghum.

In 1970, 5.9 million acres of the crop were grown in the state with a yield of more than 330 million bushels, exceeding 40 percent of the entire U. S. crop.

Kunkel said a marked effect of the grain supply has been the growth of the livestock feeding industry. There were 3.138 million cattle finished and marketed from Texas feedlots last year. The state is now third in the nation in numbers of cattle on feed.

"Texas A&M University, thru its research and extension work with grain sorghum for more than 50 years, helped lay the foundation for this success," the dean said.

## Dove Distribution Unusual This Year

Austin—An unusual mourning dove distribution pattern materialized this week as hunters took to the field for the start of dove season in Texas' North Zone.

Texas Parks and Wildlife Department field personnel indicated that the extreme eastern and western portions of the state have unusually good dove populations, while many of the traditionally better hunting areas in the central third of the state are slightly below par.

The piney woods areas of East Texas may have its best season in years, apparently because there were fewer heavy rains to disrupt nesting. Deep East Texas is not usually considered as good for dove production as the farm and ranch land through the state's midsection.

In the far west, where dove populations are usually sparse, field reports indicate sizeable flocks where food is available. Heavy concentrations have been noted on the South Plains, Trans-Pecos, and along the Rio Grande downstream from El Paso. The Permian Basin area also has some good populations.

Hunters are advised, however, that the far western dove populations have a way of disappearing practically overnight into Mexico. Hunters are advised to get into the field early in the season, because the evacuation might be complete by the season's second week.

There is one wedge-shaped area of Central and North Central Texas which traditionally has good dove hunting—and this season probably will be no exception. This area is roughly bounded on the north by Wichita Falls, Abilene and Fort Worth, and it stretches south to near Austin.

Officials suspect that the over all dove population may be down slightly this year, although it is practically impossible to determine at this time. Last season, hunters bagged approximately 9,000,000 birds. This was a rather low figure, but due more to bad weather and low hunter participation than lack of birds.

## Wingate Gator TOPS Club Met

The Wingate Gator TOPS club held a regular meeting Monday morning, with Mrs. Alpheus Hill presenting the program. Mrs. Pat Pritchard was queen of the week.

Attending were Mesdames E. F. Albro, R. E. Beck, Joe Bryan, Ed Donica, Bill Hamilton, Alpheus Hill, Wayne Owen, Ed Poehls, Pat Pritchard, Mathie Romine and E. T. Ware.

## Big Country TB Assn. To Meet Saturday, 18th

The directors of the Big Country Tuberculosis Association will hold the quarterly meeting at the Texas Grill in Ballinger, Saturday, September 18, at 11 a. m.

Following the morning program and Dutch treat luncheon, directors will hold a business meeting to include introduction of the new program chairman.

This will be an open meeting, and visitors are encouraged to attend. Persons interested in the program will gain knowledge of the work which is being done in the Big Country to combat tuberculosis and other respiratory diseases, directors said.

Visitors planning to join the group for lunch should notify the Texas Grill by Friday afternoon.

## Organic Matter Aid To Soil Conservation

COLLEGE STATION — Because organic matter makes so many contributions to the productive potential of soil, practices to maintain its level should be included in a balanced soil management and soil conservation program. Now is a good time for producers to think about such practices since they will be faced with crop residues following the harvest season.

"Organic matter plays an important role in the physical make-up of a soil," says Dr. Charles Welch, soil chemist with the Texas Agricultural Extension Service. "Although the actual organic matter content of most mineral soils is less than five percent, it has a great influence on soil properties and plant growth."

Welch points out that the loose

friable condition associated with highly productive soils generally is the result of a relatively high organic matter content. Through its beneficial effects on soil structure, organic matter increases the rate at which water enters the soil as well as the amount of water the soil can hold.

"As the rate at which water can enter the soil increases, the rate of water run-off decreases," he explains. "Therefore, the erosion potential of the water is decreased."

When a soil takes in and stores more water, it can supply more moisture for plant growth, Welch adds. Where enough water is available in the soil, plants grow better and produce larger amounts of organic matter that can be returned to the soil. Thus, the organic matter cycle is started again.

Welch concludes by saying that practices designed to keep a relatively high organic matter level in the soil have proven to be excellent soil and water conservation measures.

## Urban Highway Policies Are Being Studied

The Texas Highway Commission today outlined policies for establishment of a new program for the development of systems of streets and thoroughfares in urbanized areas of the State.

The Federal Aid Highway Act of 1970 provided for the establishment of an urban system using matching federal funds in areas of 50 thousand or more population which are designated as "urbanized areas" by the Bureau of the Census.

The Commission's order stated:

"It is the desire of the Texas Highway Commission to assist in such a worthwhile endeavor insofar as State funds will permit and within legal limitations imposed by State statutes."

The program will help provide

improvement of intra-city routes.

Under the policies adopted by the Commission, the urban systems will be selected in cooperation with appropriate local officials.

Each system, in conjunction with presently designated State highway system, would form a logical, connected network of metropolitan, areawide routes carrying the major portion of traffic in the area.

The system could include principal arterial streets not presently on a federal aid highway route. Also other arterial streets which are now on a federal aid system could be transferred to the urban system.

Minor arterial streets can be considered for the system, but only under special conditions as outlined by the Federal Highway Administration.

Selection and approval of the new system in an urbanized area does not mean that the State automatically will participate in the cost of improvements. Specific projects eligible

for such funds will be selected for improvement and designation by the Highway Commission.

Funds to match available federal funds will be provided by the Texas Highway Department from State sources of revenue.

Local participation in the cost of right of way, utility adjustment, curb and gutter, storm sewers and illumination will be required in accordance with established policies of the Department.

Responsibility for maintenance and operation of the urban system will remain with the agency having that responsibility at the time of designation.

The cities will adopt and enforce ordinances and regulations as may be necessary for the proper operation of the facilities.

## Caladium Tubers— Curing and Storing:

To insure success with caladiums, it is best to treat them as annuals and plant new tubers each spring as they are difficult to carry over from season to season successfully.

If you have been successful in growing attractive plants this past summer and you want to attempt to save the tubers for another year, follow this procedure and you may expect to have a fair degree of success.

As the leaves dry in the fall following night temperatures of 50 degrees and below, lift the individual clumps and place in a warm, dry, well-ventilated shed or garage with good light for 10 days to two weeks. It is best to remove as much of the soil as possible when lifting as this will hasten the drying and curing process.

After the drying period remove the dead leaves and inspect the tubers to be sure they are free of disease and insects. Dust the tubers thoroughly with

a combination of Captan and Sevin for protection against insect and disease damage in storage.

Using dry peat moss, vermiculite, or perlite, pack the tubers in a container so they do not touch each other and store in a warm dry closet at 60 degrees F. Colder temperatures will promote rotting and warmer temperatures will cause premature sprouting.

Caladium tubers should not be set out in the spring until the soil temperature reaches 70 degrees F.

Select a warm protected spot in the garden with partial or full afternoon shade for best results. A well-prepared bed with ample organic matter and good drainage is important. Inspect your stored tubers before planting and discard those that appear rotted or damaged in any way.

### Garden Check List:

Continue to watch for spider mites and aphids on garden plants and control with Malathion, Diazinon, or other effective materials.

Check the stakes and guy wires on recently planted trees. Make sure the wire is not too tight and that the wire is covered with rubber hose where it goes around the tree trunk.

This is an excellent time to divide those crowded perennials including phlox, poppy, daylily, Shasta Daisy, oxalis and hosta.

Apply PCNB (Terraclor) to those areas of the lawn with past history of brown patch. Also watch other lawn areas and apply controls at the first signs of brown patch.

Don't forget to order bulbs as soon as possible. Tulip bulbs should receive at least 60 days of refrigeration before planting. Prepare planting beds now and incorporate five pounds superphosphate per 100 square feet.

Continue mildew and black-spot controls on roses.

Clean up debris in annual and

perennial beds to discourage overwintering insect pests.

**New Vehicle Brake Law:** Farmers and ranchers as well as others in Runnels County should become familiar with the new vehicle brake law passed recently by the Texas Legislature, points out county agent Parker.

The new law applies to every trailer, semi-trailer, and pole trailer equipped with air or vacuum actuated brakes and every trailer in excess of 3,000 pounds. These trailers must now be equipped with brakes acting on all wheels which can be applied automatically and promptly and remain applied for at least 15 minutes upon breakaway from the towing vehicle.

However, there are some exceptions to the law, adds Parker. Trailers with a gross weight of 3,000 pounds or less and those weighing 40 percent or less of the towing vehicle are exempt. Also farm trailers or semi-trailers moving temporarily on highways at speeds of 30 miles per hour or less and having a gross weight of 10,000 pounds or less are exempt from the brake requirements if they are otherwise exempt from vehicle registration laws.

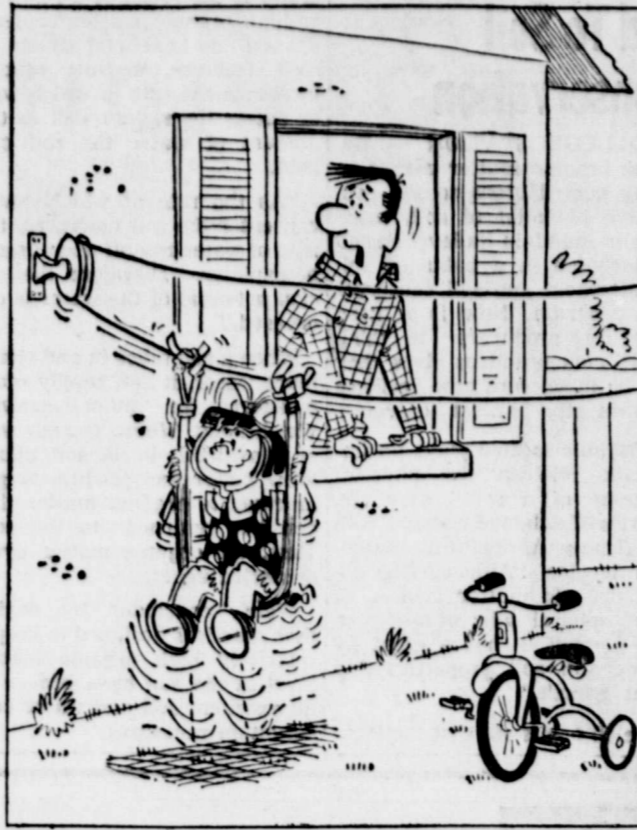

In addition, cotton trailers weighing 15,000 pounds or less moving temporarily at speeds of 30 miles per hour or less are exempt if they are exempt from vehicle registration laws.

Other brake requirements were added for mobile homes, certain vehicles in driveway and towaway operations, and certain trucks and tractors having three or more axles, adds Parker.

Officers of the Texas Dept. of Public Safety have more specific information on the new brake law as well as the effective date of the various provisions of the law.

Vanilla combined with almond is pistachio flavor.

## SWEETIE PIE

## Happy Homemaking

By BARBARA BAKER

If you do your clothes at a coin laundry, take along big plastic bags for each member of the family and put each one's clothing in a separate bag. Then, if you do not get all of your ironing done immediately, you won't have to dig through a big clothes basket to find a certain item that someone needs right away.

The basket of your percolator will serve as a makeshift strainer if you need one with small holes in it.

An unused pipe cleaner kept at the sink comes in handy to quickly remove eggs and other food that sticks between the prongs of a fork.

Rusty sewing needles become sharp and smooth as new after they have been punched in and out of a cake of soap a few times.

If you have a toddler in your home, put a bell on the medicine chest door and you will know he is where he should not be when it rings. This will help avoid accidents.

## Mrs. Juanita O'Connor's Weekly Home Demonstration Agent's Column

### Potatoes:

Potatoes in decorator colors? They once came in about as many colors as Joseph's coat, from scarlet, pink and yellow to blue, royal blue and black.

Now you may not be interested in potatoes to match your kitchen decor, but during the early days of potato development in Europe, the multi-hued vegetables were plentiful. The skin colors have settled to white and red and brown for the most part, and the flesh to white, but as the bright colors disappeared, the flavor and popularity improved.

The Europeans also boasted two-toned spuds, including those predominantly violet or yellow with splashes of another color, but what they didn't have was the cooking quality that the modern potato now does.

Crossbreeding has certainly improved what the world now calls its "most important vegetable" and the American homemaker uses it frequently without objectionable monotony. To spark up your meals with potatoes, try this:

**Salmon and Potato Puff**  
1 c. salmon (7 3/4 oz. can)  
2 T. margarine  
2 T. finely cut celery  
2 T. finely cut parsley  
1 T. finely chopped onion  
1 1/2 c. hot or cold seasoned mashed potatoes

1 1/2 T. lemon juice  
3 drops tabasco sauce  
2 eggs, separated  
Drain the fish and flake it with a fork. Heat the margarine and cook the celery parsley and onion in it until the onion is golden brown. Combine with the salmon, mashed potatoes and seasonings. Beat egg yolks well and add to the mixture. Beat egg whites until stiff and fold in. Pile lightly in a greased baking dish. Bake in a moderate oven (350 degrees) for one hour, until firm in the center and lightly browned. Four to five servings.

**Creole Stuffed Potatoes**  
6 baking potatoes  
1 medium green pepper, diced  
1/2 medium onion, minced  
1-3 c. margarine  
1 medium tomato, diced  
2 T. mayonnaise

### Fix-It Tip

Despite what you hear about "lifetime" electric light bulbs, the best buy for general use is the standard bulb. It uses less electric power and converts more of it into light. The standard 100-watt, frosted bulb burns for an average of 750 hours, the equivalent of 31 days around the clock. If you're paying 2 1/2 cents a kilowatt hour for electricity, for every 10 hours you don't burn one 100-watt bulb, you save only 2 1/2 cents.

## In the Kitchen

**MUSHROOMS IN SOUR CREAM**  
1 lb. fresh, cultivated mushrooms  
2 tsp. butter  
1 tsp. flour  
1/2 cup beef bouillon  
1 cup sour cream  
1 Dill weed

Wash and trim mushrooms and add to butter in a chafing dish or electric skillet. Sprinkle with the flour and blend. Add beef bouillon and heat until steaming. Stir in sour cream and sprinkle with dill weed.

## New School Bus Law Now In Force For Auto Drivers

remaining tomato to sauteed vegetables and cook 1 minute. Cut a lengthwise slice from each potato; scoop out centers, leaving shells intact. Mash potato centers well with mayonnaise and seasonings, then blend in vegetables. Fill shells with mixture. Dot tops with remaining butter; place in greased shallow baking dish. Bake uncovered in 400 degree oven 20 minutes. Garnish with reserved green pepper and tomato. Yield -6 servings.

Potatoes will be abundant throughout September, serve them often.

Austin—A new state law effective August 30 will no longer permit Texas motorists to stop and then pass a school bus which is loading or unloading children.

Colonel Wilson E. Speir, director of the Texas Department of Public Safety, said the new law, passed by the 62nd Legislature,

applies in both cities and rural areas and requires motorists moving both directions on the same roadway with a school bus to stop and remain stopped as long as the flashing lights on the bus are in operation.

The new law will not require those vehicles on another roadway of a divided highway to stop, and stops are not required if the bus has stopped in a loading zone of a controlled access highway where pedestrians are not permitted to cross.

## Hunting Prospects Fair In Texas This Season

Austin — Topsy-turvy weather conditions have thrown a curve at the Texas hunter this year. Texas Parks and Wildlife Department officials say overall hunting prospects this fall appear only "fair" for the major game species — deer, turkey, quail and squirrel.

And early reports from the field indicate the North Zone mourning dove season which opened the first of September, also has been less than spectacular.

The weather, which always is a key factor in wildlife produc-

## Trotlining Said Least Effective

Austin—So you think trotlining is the easiest way to catch a lot of fish?

Not so, according to Texas Parks and Wildlife Department biologists, who say freshwater trotliners spend more man-hours catching less fish than do fishermen using other methods.

In connection with a recently completed trotline study, biologists found that trotliners could expect to catch between .15 and .17 fish for every hour they fished.

A creel census conducted at eight Texas lakes several years ago showed that for every hour of fishing, casting produced .34 fish; trolling, .52 fish; flyfishing, 1.12 fish; and stillfishing, .74 fish. Trotliners caught only .17 fish per man-hour.

The researchers recently investigated different methods of trotlining on Lake Corpus Christi and came up with some results which may help others trotlining. The 118 fish landed by biologists were caught at an average hook-depth of 4.7 feet in 13.7 feet of water.

The most efficient bait was beef kidney, followed by shrimp, blood bait, sunfish and fisherman's bait soap.

Several baits tried by researchers such as cheese bait, heart, Rio Grande perch and Mexican tetra failed to produce any fish.

tion, played some nasty tricks in 1971. A bone-dry winter and early spring was followed by rains and even flooding in many areas by mid-summer.

This pattern of extremes had mixed effect on wildlife, department officials point out. Reproduction of both furred and feathered game was down in virtually the entire state, with turkeys and quail perhaps suffering the heaviest losses from the weather.

Texas is expected to remain the nation's number one deer state, with a continuing herd of around 3,000,000 animals. But hunters will see fewer young deer in most areas this year and a shortage of heavily antlered bucks is expected because of poor forage conditions in the spring.

The nearest thing to a disaster area in the state this year may be the South Texas brush country, which normally is one of the top hunting areas. Chances for good turkey and quail populations are almost nil, according to field surveys, and the deer situation is described as "fair."

"I wouldn't have believed it possible, but his jokes are even worse in color!"

## Kirby Reunion At Abilene Lake

All children of the late Mr. and Mrs. J. P. Kirby met for the first time since 1958 at the Kirby reunion held at Abilene Lake at the home of J. P. Byers recently.

Children of the couple were Mrs. Avo Byers, Abilene; Mr. and Mrs. Carl Kirby and Mr. and Mrs. Otis Kirby, of Clyde; and Burt Kirby and Roy Kirby, of Winters.

There were eight grand-children present, 15 great-grandchildren and six great-great-grandchildren.

Others present were Mr. and Mrs. J. P. Byers, Mrs. Doug Parker and Kelly, Francis Carl Kirby, Dennis and Berry, all of Abilene; Mr. and Mrs. Pete Kirby and Belinda, Jack Rasten, Tammy and Whinten, Jack Kirby and Donna and Dale, all of Clyde; Mr. and Mrs. Albert Lewis and Neva, and Mr. and Mrs. Albert Meyers, Larry and Paula, all of Winters; PFC and Mrs. Joe Meyers and Jennifer, Fort Bliss; Mr. and Mrs. Jack Gibson, Kathy, Vicky and Christi; Granbury; Mr. and Mrs. Jack Potot and baby, Fort Worth.

Also, Mr. and Mrs. Rodney Dunnay and Louis, Big Spring; Mr. and Mrs. Rick Egbert and Rodney, Mr. and Mrs. Travis Downing and Kelly McMillian, Mr. and Mrs. T. W. Norman, Troy and Arnold, and Miss Lana Burns, of Winters; Mr. and Mrs. Kenneth Norman and Becky, Tuscola; Mrs. Jean Davis, Zettia and Richard, Clyde; and Zella Stevenson, Abilene.

## Boat Registration Laws Changed

Austin—Boat owners registering their craft this year will find some changes in the law.

For one thing, all water craft powered by any sort of machinery must now be registered with the Texas Parks and Wildlife Department. Even if the machinery is not the principal source of propulsion, the boat must still be registered.

Changes in the Texas Water Safety Act went into effect September 1, 1971, and applications for renewals and original certificates of number may be awarded beginning Jan. 1, 1972.

New registrations will be good for two years from the date of issuance.

The department is also shifting to a staggered system of renewals. All renewal notices will be sent out at the same time, but different registrations will expire at different times, and the registration rates will be prorated accordingly.

The new Certificate of Number will be a plastic card which can be carried in the boat owner's wallet. Two decals in the shape of the state come with each certificate of number and are color coded with expiration

dates marked on the face. They are to be placed on a line even with and three inches aft of the registration numbers on the boat.

An across-the-board increase of \$3 in registration fees for all boats also goes into effect Jan. 1, 1972.

New rates for registration are: Up to 16 feet, \$6; 16 to 26 feet, \$8; 26 to 40 feet, \$12, and over 40 feet, \$15.

# WHEN YOU SHOP AT HOME...

## Highway Death Toll Said Lower Than Expected

Austin — Governor Preston Smith and Department of Public Safety Director Col. Wilson E. Speir joined today in expressing appreciation to everyone concerned in holding down the holiday death toll in Texas streets and highways over the 78-hour Labor Day weekend.

"We are of course deeply saddened by the tragic loss of 41 lives during this holiday period which ended at midnight Monday," they said in a joint statement. "But we are encouraged by the fact the pre-holiday estimate that there would be 52 fatalities fell short. This means that some 11 persons who were statistically destined to lose their lives this past weekend are alive and well today.

"It is impossible to attribute this to any one specific reason, but we feel it is reasonable to assume that mass public awareness of the added hazards of

high volume holiday traffic was a major contributing factor.

"The credit for the low Labor Day holiday toll must go to everyone who contributed in any way to the safe driving—'Drive Friendly' program. We especially appreciate the efforts of the individual drivers themselves, as well as the broadcasters and newspapers of Texas who went above and beyond the call of duty in hammering out the vital message of safe driving to the general public.

"Much credit also is due to the numerous organizations, both public and private, who joined in the most concerted public awareness program ever undertaken in our state.

"And we must also express our deep appreciation for the great and dedicated task performed by the men in uniforms of the Department of Public Safety and of municipal and county enforcement agencies, who by their hard work as well as by their very presence on the streets and highways certainly averted countless tragedies."

### WEEKEND VISITORS

Mrs. Randall Watson and children of Coleman visited the past weekend in the home of her parents, Mr. and Mrs. Jack Whittenberg.

## Mr. and Mrs. Heavy Fornes Of Abilene Will Celebrate 50th Anniversary

Mr. and Mrs. Heavy Fornes of Abilene, formerly of Winters, will celebrate their 50th wedding anniversary Sunday, September 19, from 2 to 5 o'clock, at 2749 Sheppard Street, Abilene.

Children of the couple and eight grandsons will host the reception. They are Mr. and Mrs. Buddy Fornes, Mr. and Mrs. C. L. Krempin and Mr. and Mrs. H. O. Saunders, all of Abilene.

Mr. and Mrs. Fornes were long time residents of Winters, moving to Abilene in 1955.

## WASHINGTON

"As it looks from here"

OMAR BURLESON  
Congressman  
17th District

WASHINGTON, D. C. — If much of our foreign aid is not already wholly ridiculous and asinine, it has been made worse by recent action of the House of Representatives.

The Foreign Aid Authorization Bill, passed by the House and now before the Senate Foreign Relations Committee, contains a section which prohibits military assistance to Greece because the country is run by a military junta considered to be a repressive dictatorship by the "liberals."

At the end of World War II and for several years thereafter, Greece was in a civil war. At least it was called that but it was obvious that it was not all Greek fighting Greek. The 300-mile northern border of Greece joins communist Albania, Yugoslavia and Bulgaria. Elements of these countries joined the Greek communists to bring that nation behind the Iron Curtain with them.

With military aid from the U. S., the non-communists of Greece were able to stand and today it is the only Balkan Nation outside the Iron Curtain.

If their personal reference may be pardoned, some 23 years ago, from a front line vantage point, I saw Greeks loyal to their country defending it. Finally a stable government was established and they have been our friends through turbulent times since.

Greece is a strategic imperative in the Mediterranean. She is the anchor of NATO. While flanked by two other NATO nations, Turkey and Italy, these latter show an instability which, to say the least, is not encouraging. The ports of Greece are really the only places in the Eastern Mediterranean where our 6th Fleet can go without resentment. Recent entry by our ships into the ports of Turkey set off riots, protest bombings and crippling strikes.

Look at a map of the southern rim of the Mediterranean and our relations with those countries it touches. Except for Turkey, once a bastion on NATO's South Flank, Israel, Tunisia and Morocco, there is hostility towards the United States. Even the Island of Malta, only about 60 miles below Sicily, athwart the narrow channel along the north coast of Africa, is not taking anti-NATO actions and showing strong sentiment for Soviet Russia. For 150 years

## Excise Tax May Be Removed On Pickup Trucks

Washington, D. C.—Congressman Omar Burleson, a member of the Ways and Means Committee of the U. S. House of Representatives, commented briefly today on his efforts to include pickup trucks used as passenger vehicles in any legislation to remove the 7 percent excise tax on automobiles.

As the Ways and Means Committee began its hearings on the President's economic proposal, with Secretary John Connally testifying, Congressman Burleson made inquiry about removing the tax on pickup trucks. Burleson pointed out that many farm and ranch families do not own an automobile but use their pickups for both pleasure and business. "It becomes the family car in a great many instances," he said, and indicated there is often little distinction between the use of automobiles and pickups. He continued, "It seems to me that it is discriminatory unless this type of vehicle is included."

The Secretary of the Treasury, responding to Congressman Burleson, said he would arrange to have some estimate of the amount of money involved, but cautioned that some limitation would necessarily be required. He agreed he would have a difficult time distinguishing between the two, as Burleson presented the case.

Congressman Burleson indicated he would continue efforts to remove the excise tax from pickups as the Committee continues its deliberations.

## Home Town Talk--

## Students Set Goal Of \$1000.00 For Ricky Dean Fund

The Winters High School student body's plan for a workday, with proceeds to go to a fund they have named "Wish Ricky Well," is progressing nicely according to Tandy Medford, chairman of the committee. Sponsored by the Student Council with a goal of 100 percent participation of all students and a money goal of \$1000.00. The workday is Saturday, September 18. However, as of noon Wednesday students who have already been working had turned in over three hundred and fifty dollars.

The Student Council members are stressing the need for jobs for girls. With the hay hauling season and the need for farm work the boys have more offers than they can fill at some times. The girls will be glad to do ironing, window washing, floor

waxing, general cleaning or any job suited to their physical characteristics, Tandy insists. If you do have such jobs available, call either of these numbers on Saturday; Debbie Lloyd at 754-4971 or Benjie Lee at 754-4978 and they will contact the workers for you.

The Student Council will have a booth set up in town all day Saturday, also. Job request may be turned in there and students will bring their pay money to the booth as the collection center for the fund.

Mrs. Lee Harrison, sponsor of the student council, and the adult coordinator of this effort states it simply, "Young people are wonderful when they set out to help their own who need them. And we in Winters have the finest, most dedicated student body anywhere. They are worthy of your help."

### FROM SAN ANTONIO

Mr. and Mrs. Bob McClelland of San Antonio spent the weekend in the home of Mr. and Mrs. Bill Millhorn, and attended the funeral of Mrs. W. C. Workman.

## Edwards Plateau History Assn. To Meet Oct. 2

The tenth annual meeting of the Edwards Plateau Historical Association will be held in the Blanco County Courthouse, at Johnson City, on Saturday, October 2, at 10 a. m., with George Stoepler, president, presiding. Registration will begin at 9 a. m. followed by coffee and viewing some of the county's relics. The morning meeting has been set for 10 a. m. A program of reviewing the history of Blanco County.

### CARD OF THANKS

Our heartfelt thanks to all who extended comforting sympathy and help in our recent sorrow. For the beautiful service, floral offerings, and other kindnesses, we are deeply grateful.—W. C. Workman and Family. 11p.
