HOME TOWN

Talk

By R. C. THOMAS

This is Texas—and, locally, Winters — Industrial Week. A time for us to pause to show an appreciation of the contributions made to the local economy by industry, and especially Winters' industry.

Winters is fortunate to have the industry we have; fortunate that the right people were in the right place at the right time; and fortunate that a climate favorable to industrial growth and development has been present.

Winters' industries, for the most part, were birthed here, or came of their own accord and not as a result of industry-seeking crusades, and have of their own volition grown and prospered, providing employment for hundreds of people in the Winters area, and maintaining a definite and important position in the economic structure of the community. They are an integral part of the community, and have not been set apart as something unusual.

Because of the circumstances of the presence of Winters' industries, many of the rest of us sometimes are prone to take them for granted, and have sometimes failed to recognize the important part they play.

For many years, Winters was oriented to an agricultural economy, then to agriculture-oil... and then to agriculture-oil-industry. The three are compatible, offering a balanced economy to provide an atmosphere of prosperity and the "better life" to all.

The rest of Winters joins this week in a salute to Winters' industries... a part of a "better life" community.

Got to where it don't pay to depend on anything. Take the old mesquite, for instance. Most of us kept an eye on the mesquite, remembering the warning by the late Frank Grimes of the Abilene Reporter-News that spring had not arrived until the old mesquite was out. And we waited.

Then the old mesquites across the fence and across town came out, along with most everything else—the peaches, the plums, the apricots, the pecans, and even the tender weather-watching hoosits in the flower bed at the house next door.

So everybody got busy and started planting and setting out—spring had sprung—time to get things in the ground! And a lot of it came up, early.

But most of us forgot one thing... when everything else has been checked out, consult the scissortail! But who had seen a scissortail? Looking back, no one seems to recall seeing a scissortail, at least before Easter. We were too busy looking down at the ground, planting and setting out, to look around for the presence or absence of that forcaster.

What happens? We got us a good heavy frost last Thursday night—our Easter spell—which knocked off most uncovered and unprotected tomato plants—burned the leaves and blooms on the pecans, blackened the tiny fruit on the peach trees, and made the hoosits curl up and turn black—and even put a damper on the mesquite!

If the scissortails were here before Easter, they kept pretty quiet, and their quietness may cause them to become instant game birds for some disappointed tomato plant setter outers.

RETIREMENT — Mrs. Neely Neely, Woodrow Watts, left, president of The Winters State Bank, presents Gattis Neely a "golf club" as a gift from the bank, during an informal party Friday afternoon at the bank, honoring Neely on his retirement as vice president of the bank. Present for the party were employees of the bank and directors and their wives, and other officers. Neely's retirement, after 44 years with the bank, was effective March 31. (Staff photo)

Goal For Cancer Crusade \$1870

Goal for the Cancer Crusade for North Runnels County, which was kicked off April 1, is \$1,870. Mrs. Earl Roach, president of the North Runnels Unit of the American Cancer Society, has explained.

April has been proclaimed "Cancer Crusade Month," and "We will need lots of help (to reach the goal)," Mrs. Roach said.

Mrs. Bill Bell and Mrs. Wayne Solomon are Crusade chairmen for the North Runnels County Unit.

Mrs. Jim Lewis of Kerrville is the 1972 Texas Crusade Chairman for the American Cancer Society, and Mrs. Roach said "Mrs. Lewis has an enthusiastic determination to achieve the Texas \$4 million Crusade goal."

Leaders in the drive said, "We are launching a four year attack on uterine cancer, aimed at getting all women over 20, and those under 20 at risk to have a Pap test. We want this year's women Crusaders who have not had a Pap test to do so before they visit their neighbors. Then, we want American Cancer Society Crusaders to go out and educate their neighbors."

Cancer Crusaders said the American Cancer Society is not a charity organization to which one gives and gets nothing in return, but a people organization which insures the donor that his contribution is an investment in his own health.

They concluded, "We don't usually see the names of the average person who succumbs to cancer, but the toll runs at the rate of one every two minutes, or more than 900 people a day. Since almost half of all cancer deaths occur among persons under retirement age, ACS employee education programs benefit management as well as employees. Cancer keeps more people off the job for longer periods of time than any other major illness."

Ballinger Candidates Win County School Board Seats In Close Races

Results of voting in two close races for two places on the Runnels County School Board, in which a write-in campaign figured prominently, has thrown the balance of county representation on the board to Ballinger residents.

M. B. Folsom of Wingate, incumbent board member from Precinct No. 3, lost a close race to Herman Price of Ballinger, in Saturday's voting. Price had been a County Board member representing Precinct No. 1, but because redistricting placed him in Precinct No. 3, challenged Folsom for the No. 3 seat. Price garnered 204 votes to Folsom's 291. Only residents of new Precinct 3 voted in this race.

In the contest for the trustee-at-large place, incumbent E. E. King of Ballinger eked out a narrow win over write-in candidate Ted Meyer of Winters, 509 to 490. The write-in effort for Meyer was a late campaign action.

Unofficial count in the voting for trustee-at-large was as follows:

Winters	Meyer	King
Ballinger	302	28
Miles	111	67
Wingate	59	11
TOTAL	490	509

Robinson, Dry, Spill Re-elected To City Council

Incumbent City Aldermen Hal Dry, James Spill and Bill Robinson, running without opposition for re-election to office, were returned to office without incident in Saturday's city election.

A total of 246 ballots were cast in this election.

Robinson 236
Dry 233
Spill 233

Several write-in votes were counted.

Members of Board Of Hospital Dist. Are Re-elected

Four members of the Board of Directors of North Runnels County Hospital District, without opposition on the ballot, were re-elected to two-year terms in the district election Saturday.

Elected to return to the board were Audra L. Mitchell, Lynn Billups, Gilbert Smith and Bobby Rogers.

Permit To Run Taxi Service Here Granted

Winters City Council Monday night approved application by Vernon Wright to operate a taxi service within the city. Permit is for two years.

The Council also renewed a lease of city property south of the dam of the Winters Lake to the Runnels County Archery Association of Winters, for a period of five years. The Archery Association several years ago cleared much of the area of brush, built an archery range, and also built a park. The site has been used several times for area archery meets.

Council also canvassed the ballots of Saturday's election, and declared the proposal for a city sales tax properly passed, and certified the re-election of Aldermen James Spill, Hal Dry and Bill Robinson.

Harley Sadler Promoted In Army

Harley Sadler, son of Mr. and Mrs. James N. Snyder, of Navice, recently was promoted to Army Sergeant while serving with the First Infantry Division at Ft. Riley, Kan.

A member of Company B, 1st Battalion, 2nd Infantry of the Division, he entered the army in April 1968 and was last stationed in Vietnam.

His wife, Janice, lives in Milford, Kan. With a proud history that stretches from France and Germany in World War I to the Highlands of Vietnam, the 1st Infantry Division has an army-wide reputation of being first when needed.

It was the First U. S. Army Division to go overseas in World War I and meet the enemy, first to land in Britain in World War II and first to arrive in Vietnam in July 1965. Its combat mission accomplished, the Big Red One now makes its home at Ft. Riley.

ELMER BRYAN BROKE HIP, IN HOSPITAL

Elmer Bryan fell and broke his hip recently. He is in St. John's Hospital in San Angelo, and reported doing nicely. He is in room 226.

Three Trustees Elected To Local School Board

Three new trustees were elected to the board of Winters Independent School District in the regular election Saturday. A total of 343 ballots were cast.

Candidates for trustee, who had no opposition on the ballot, and number of votes received were:

Roscoe Morrison, Place 3, 311;
Richard C. Thomas, Place 4, 298;
Wesley M. Hays, Place 5, 278.

Fourteen people received a total of 22 write-in votes.

These new trustees will succeed Dr. C. T. Rives, G. W. Sneed and M. E. Mathis, whose terms had expired.

In the Winters District voting, E. E. King of Ballinger, incumbent trustee-at-large on the County School Board, received 28 votes; Ted Meyer of Winters received 302 write-in votes for trustee-at-large.

Voters of the Winters School District, who reside in Precinct No. 3, cast 107 ballots for M. B. Folsom for Precinct 3 County School Board member, and 7 for Herman Price of Ballinger.

New trustees of Winters Independent School District will take office on the second Tuesday of April.

Smith, Pritchard, Poehls Elected To Wingate Board

Gilbert Smith and Jack Pritchard, with 54 and 55 votes, respectively, were re-elected to the board of trustees of the Wingate Independent School District Saturday, for three year terms, and Ronnie Poehls, with 51 votes, was elected to serve one year of an unexpired term.

Sixty voted in the Wingate School District election. There were no names on the ballots—all voting was done by write-in.

In the voting for county school board trustee—at large, Ted Meyer of Winters received 59 write-in votes, and E. E. King of Ballinger, who was on the ballot, received 11.

In the race for county school trustee from Precinct No. 3, M. B. Folsom, incumbent, received 4 votes in the Wingate box, while Herman Price of Ballinger received 3.

City Sales Tax Approved By Big Margin Saturday

The proposal to levy a 1 percent city sales and use tax, on the ballot in Saturday's election, was approved by an overwhelming margin.

FOR	204
AGAINST	42
TOTAL VOTES	246

Mayor Wade White said collection of the 1 percent sales tax will begin with the beginning of the second quarter, July 1. The tax will be collected and reported along with the State sales tax, with the state returning the city's portion. Sales to be taxed will be the same collected on by the state.

Wingate 4-H Horse Club Had Trail Ride Saturday

The Wingate 4-H Horse Club held their first trail ride Saturday. They rode from the Paige Baize home at 3 p. m. and rode about five miles to the Bill Walker farm and on to Valley Creek for a cookout.

Making the trail ride were Dianne Baize, Patti Walker, Jill Walker, Phyllis O'Dell, Sheila Gallaway, Sharon Lynn, Melinda Hill, Belinda Hill, Donald Baize, Larry Walker, Bill Walker, John Henry Stuart, Steve Pritchard, Paige Baize, Alpheus Hill, and Jane Walker.

A Salute During Industrial Week

Winters Industries Are Showing Solid Growth

Winters, with several "hard line" industries, along with additional agriculture-oriented industries, has experienced over the past several years an industrial growth which would be the envy of most cities of larger population, to say nothing of many of the same size.

In fact, as has been said unofficially in some quarters, Winters probably has more industry per capita than about any other incorporated city in the state:

- A company making and distributing grilles, louvers and diffusers for the building trade throughout the nation;
- A company manufacturing utility boxes and racks for pickup trucks, with distribution in 40 states;
- A company manufacturing all-steel merchandising fixtures for retail stores, distributed in several states;
- A company manufacturing parts and assemblies for Air Force Equipment.
- A company manufacturing livestock feed for distribution throughout a wide area of West and West Central Texas.

And in addition, two cattle feeding complexes which are classified as industrial enterprises.

The several local industries provide a ready employment market for many people, not only from the immediate Winters community, but from a wide surrounding area. Many people employed in Winters live in surrounding towns and communities and commute to their jobs.

JOHN'S INTERNATIONAL

The latest addition to Winters' industrial lineup is John's International, a metal products manufacturing company, which was started in July, 1970. Since its beginning, this company has been in a constant state of expansion, and now occupies about 40,000 square feet; 20,000 feet of space was added during the past year.

Owned and managed by John Dry, the company manufactures utility boxes for pickups, in all sizes, "headache" racks and ladder racks for pickups. They expect to add new products this year, including side rails for pickups, and portable hand winches.

Employing 25 people at the present time, John's International is distributing its products in 40 states.

WINTEX INDUSTRIES, INC. Manufacturing Self-Sell all steel merchandising fixtures and metal shelving for retail stores, Wintex Industries, Inc., is owned by Oscar T. Hinds. Included in the fixtures are all-metal check-out stands for retail stores.

Products of Wintex are distributed over about seven states, and Hinds said this week he has been "surprised at the growth of the business." Production and sales thus far in 1972 has been better than last year, he said.

Hinds said there are plans in making for some expansion of the plant and distribution areas this year.

Wintex Industries, which formerly specialized in manufacture of evaporative coolers, employs about 37 people on a regular basis, and more during peak load periods.

Hinds is president of the company, and Jake Cortez is a vice president and manager.

GENERAL AVIATION IND.

General Aviation Industries, Inc., is now in its fourth year in Winters. The company manufactures and fabricates, on contract, equipment for the Air Force, and employs about 30 people in the local plant.

Don Roach of Fort Worth, a native of Winters, is president of the company, and Ken Snyder of Fort Worth is vice president. James Spill is manager of the local plant. The company has a smaller plant in Fort Worth.

Growth has been an annual achievement for General Aviation, and it was stated this week that the company has a backlog of orders amounting to about half million dollars.

Much of the work done in the Winters plant of General Aviation is finishing pre-manufactured items of equipment for the Air Force. Much of the time, General Aviation works two shifts a day, a full daytime shift, and a smaller shift at night.

DRY MANUFACTURING

An expansion program, which will add 50 percent more floor space to present manufacturing areas, is presently underway at Dry Manufacturing Division, Wallace-Murray Corp. When completed, here will be 250,000 square feet under roof in three locations, the office and part of the manufacturing plant on North Melwood, a big plant on the south side of West Dale (Old Wingate Road), and another big plant on the north side of West Dale in the same block.

Employing 425 people at the present time, in two shifts, Dry Manufacturing Division manufactures grilles, louvers and diffusers, which they distribute all over the United States. Originally a home-grown, privately-owned company, Dry Manufacturing became a division of Wallace-Murray Corp., a nation-wide corporation, a few years ago.

Growth has been a usual occurrence for Dry Manufacturing over the years, and company spokesmen said business in 1971 was up 50 percent over the previous year. Expectations are that this trend will continue, and the facility expansion program is so oriented.

Hal Dry is a vice president of Wallace-Murray Corp., and general manager of Dry Manufacturing Division. Bill Griffin is division controller.

ALDERMAN-CAVE

A company bolstering the agricultural economy of the area, and thus the total economy, Alderman-Cave Milling & Grain Co. of Winters has realized tremendous production growth during the past five years.

Ray Alderman, manager of the company, said production has risen from \$2.2 million five years ago to almost \$5 million in 1971. Manufactured tonnage has increased from 35,000 tons five years ago to 70,660 tons in 1971.

Alderman-Cave is a milling and grain company, processing raw grain into livestock feed for distribution over a large part of West and West Central Texas.

FAR CRY from an American supermarket, Saigon's central market spreads its wares out for the customer to see and trip over, if he doesn't watch out. The poultry at this point is live.

WINGATE

Larry Hensley has been on leave from the Navy and has been visiting his parents, Mr. and Mrs. Duncan Hensley. He left here for a flight to a Naval Base in Hawaii where he and his wife will be living the next two or three years.

More than usual turned out to vote Saturday.

Mrs. Lenora Bailey and Fannie Ray Durham of Tye visited in the home of Leila Harter and with Mrs. Lola Dean.

Mrs. Pat Pritchard of Wingate and daughter, Mrs. Mary Lynn Presley of Winters were injured in an automobile accident last Monday when a front tire on their car blew out. They are better and have been dismissed from North Runnels Hospital.

Mr. and Mrs. Ervie Talley had several relatives for a visit last week.

Kathy and Keith Hall of Dallas are visiting their grandparents, Mr. and Mrs. David Bryan.

DON'T GET UP NIGHTS!
It takes just 48c and 12 hours to start relief—or your money back at any drug counter. When functional kidney disorders cause BACKACHE, leg pains, burning, frequent or scanty flow, take gentle BUKETS 3-tabs-a-day treatment. Help nature flush kidneys and regulate passage. NOW at MAIN DRUG COMPANY.

Mr. and Mrs. Bobby Dunnam of Graham visited her parents, the Carl Greens, and attended Church Sunday.

Drew and Chance Hall of Abilene were church visitors Sunday at the Church of Christ.

Mr. Bagwell is improving. Their grandson was here to see them this week.

Chink Cathey has been ill but has improved.

Mike Cross and Jerry Flack of San Angelo were dinner guests of Mrs. Lena Wheat Sunday.

Recent visitors in the Edwin Voss home were Mrs. Jean Virden and daughter Bettie of California, Mr. and Mrs. Doyle Edwards, Debbie, Brad and Jimmie of Abilene. Mr. and Mrs. Voss visited the Elmer Pritchards.

Mr. and Mrs. Albert Wetsel were guests in the home of Mr. and Mrs. Charles Wetsel Sunday.

Some of the Heathcott children were home for the holidays.

We will have Community Day at school Friday, April 8. Several schools will compete in sports.

THANK YOU

The coaches of the girls' Blue Jay basketball team wish to thank the team for the beautiful plaques we received. We also wish to express our thanks to those who helped in the games, the ones who ran the clock and kept the books.—The Coaches, Mildred DeBerry, Elaine Miller, Dianne Whittenburg.

O. L. Cranford Died Monday In Hospital Here

Olin Leroy Cranford, 55, of Wingate, died at North Runnels Hospital at 11:15 p. m. Monday after an illness of several months.

Funeral services were held at 2:30 p. m. Wednesday in Spill Memorial Chapel.

Burial was in Wingate Cemetery under the direction of Spill Funeral Home.

He was born March 1, 1917, in Mason, and came to Runnels County about 1930. He was employed in Odessa for a number of years, then moved back to Wingate several years ago.

He married Ola Dell Adeock in 1936. He was a member of the Church of Christ.

Survivors are his wife; his parents, Mr. and Mrs. Tom Cranford of Winters; one daughter, Mrs. Jo Ann Scott of Wingate; three grandchildren; one sister, Mrs. Mary Ruth Merrill of Winters; two brothers, Thomas of Midland and W. H. (Boots) of Hamlin.

Den Dieters Club Elected Officers

The Den Dieters Club elected officers during the regular meeting Monday night. Mrs. Bill Webb is president; Mrs. Charles Kruse, vice president; Mrs. C. R. Pinkerton, weight recorder; Mrs. Pearl Dunnam, treasurer; Mrs. Paul Gerhardt, secretary-reporter. The club voted to meet each Monday at 6 p. m.

Mrs. Kruse was named queen of the week, and plans were made for a contest, to end May 15.

Present were Mesdames Carl Pendergrass, D. W. Williams, Oval King, and Milt Bunger.

Blue Jay BB Team Honored At Coke Party

The Blue Jay girls' little league basketball team was honored with a coke party in the home of Mrs. James DeBerry Monday afternoon.

Those attending were Teresa Dry, Celeste Sanchez, Debbie Carey, Donna Hamilton, Teresa Wright, Ruth Rainey, Tanya Whittenburg, Emerald Rodriguez, Darlene Bowden, Rhonda Davis and Marilyn Powers. Romalia Torres was unable to attend.

Mr. and Mrs. H. F. Bredemeyer To Be Honored On 50th Anniversary

Mr. and Mrs. H. F. (Slim) Bredemeyer will be honored at a reception Sunday, April 16, at their home, noting their 50th wedding anniversary.

Children of the couple will host the reception.

Friends and relatives are cordially invited to call between the hours of two and five o'clock in the afternoon. The family requests no gifts.

Children of the couple are Mr. and Mrs. E. R. Wessels, Mr. and Mrs. J. C. Wessels, Mr. and Mrs. F. W. Bredemeyer, Mr. and Mrs. J. D. Wilson, and Bobby Bredemeyer, in the Armed Service stationed in Washington State.

R. A. Thomasson, Former Resident, Died At Everman

Richard A. Thomasson, 77, of Everman, a former resident of Winters, died in Forrest Hill Nursing Home, March 21, after an illness of six weeks.

Funeral was held March 23 in the Everman Church of Christ, with Bill Heart of Teague, former minister of the church, and James Burns, minister, officiating. Burial was in the Everman Cemetery.

Born March 27, 1894, in Montague County, he came to Runnels County with his parents in 1900, settling on a farm a few miles east of Winters. He was married to Nettie Crowson, Jan. 10, 1915.

He was a retired employee of the City of Fort Worth, and had been a resident of Everman for 20 years.

Survivors are his wife; one son, J. R. Thomasson; a sister, Mrs. Mattie Smith of Everman; two granddaughters, Mrs. Juanita Patton of Grand Prairie and Mrs. Juanda Flories of Rendon; seven great-grandchildren.

Miss Maria Shaw Honored Saturday With Bridal Shower

Miss Maria Shaw, bride-elect of William Oliver Cottingham III, was honored with a miscellaneous shower Saturday in the home of Mrs. T. V. Jennings. Mrs. Karla Nelson was co-hostess.

Special guests were the honoree's mother, Mrs. J. L. Shaw, her sister, Mrs. Barry Smith of Kaufman, the prospective bridegroom's mother, Mrs. William Oliver Cottingham II, and his sister Linda, both of Austin.

The tea table was covered with white sculptured satin. The centerpiece was a lovely arrangement of pink carnations and baby breath, and pink tapers burned in silver candelabras. Crystal and silver appointments were used throughout the house.

The couple will be married June 10 in the Protestant Chapel at the U. S. Air Force Academy, Colorado Springs, Colo. The Air Force Chaplain will officiate.

Wingate Sew and Sew Club Meeting

The Wingate Sew and Sew Club met recently in the Baptist Church, with Mrs. Grace Smith serving as hostess. Quilting was done for the hostess.

Present were Mesdames J. C. Belew, Elmer King, L. R. Hancock, J. R. Woodfin, George Lloyd, Pete Polk, Brent Mikeska, Dock Pinegar, Bobby Airhart, Butch Burrow, Leila Harter, Mildred Patton, Minnie Williams, Myrtle Gannaway, Grace Smith, Flossie Kirkland, and four visitors, Mrs. Martha O'Dell, Mrs. Carrie Polk, Mrs. Olive Hamilton and Angelia Burrow.

The next meeting will be at the Methodist Church April 11 with Mrs. Minnie Williams as hostess.

Be Busy Sewing Club Meeting

The Be Busy Sewing Club met Monday afternoon in the home of Mrs. Fred Poe. The afternoon was spent doing handwork for the hostess.

Present were Mesdames Etta Bryant, G. T. Shott, Vallie Brannon, H. B. Parks, George Lloyd, M. H. Hogan, O. M. Kane, Lewis Blackmon, Nadeen Smith and David Allen, Bill Milhorn, and the hostess.

The next meeting will be in the home of Mrs. Nadeen Smith, April 24.

NOTE OF THANKS

We wish to thank the people of the Winters vicinity and the holiday visitors for contributing so generously to our Easter Seal street sale Saturday, April 1. It was through their thoughtful generosity that \$135.03 has been contributed to the Rehabilitation Center for crippled children. Thank you.

—The Future Homemakers of America, Winters High School.

WSCS General Meeting In Church Tuesday Morning

The Women's Society of Christian Service, First United Methodist Church, met in the sanctuary of the church Tuesday at 10 a. m. Organ music was provided by Randy Stevens before the meeting began.

After an opening hymn led by Mrs. Roy Crawford, names of missionaries were read from the prayer calendar by Mrs. M. L. Dobbins. The Rev. Bob Sanders led in prayer.

Mrs. Dobbins, president, presided and recognized guests present.

Miss Margurite Mathis introduced the guest speaker, Mrs. Dale Carter. Mrs. Carter read the last verses of Matthew from a Portuguese language Bible. She told how she and her husband were sent to Corrente, Brazil, where they have served for 15 years. While she showed colored films of their area, she described her family and her life and work in the isolated town in the interior of the huge country where they live and work. She then answered questions from the audience.

The Rev. Roy Crawford gave the benediction.

A covered dish luncheon was served in the Fellowship Hall to 26 members and guests.

Guests registering were Mesdames Dale Carter, T. H. Worthington, Ella Phipps, Victor White, Gladys King, Alice Traylor, Flora McWilliams, Lora Coupland, Merle Bains, Sam Mathis, George Garrett, W. L. England, Earl Dorsett, Miss Estella Bredemeyer and Mr. and Mrs. Rankin Pace.

Garden Check List For April

Select caladium tubers while the stock is plentiful. Be ready to plant in a warm shaded area as soon as the soil temperature reaches 70 degrees F. Plant so tops are 1½ to 2 inches below the surface and about 12 to 18 inches apart in a loose soil with a high organic content.

Aphids can be troublesome on young tender growth. Easily controlled with Diazinon, Malathion or Met-Systox-R. Follow instructions on insecticides label.

Be sure to fertilize azaleas as they finish blooming. Use an acid fertilizer especially formulated for azaleas and follow directions. Make sure soil is moist before applying and water following the application. Azaleas can be severely damaged by over fertilization.

Control white fly on gardenias and you will also control or prevent sooty mold. The mold grows on the honey-like material excreted by the feeding white

fly. Malathion or Diazinon give good control when used as directed on the container.

Watch for Powdery Mildew. This appears primarily on roses, crepe myrtle and lilac but can attack other plants. At the first sign of Powdery Mildew use one of the following materials to control—Phalphan, Karathane or Actidione P. M. Use at the rate prescribed.

If cinch bugs have been prevalent in your area, apply the granular formulation of any one of these materials: Aspon, Trithion, Diazinon or Ethion to the lawn using a cyclone-type lawn fertilizer applicator. Make application in mid or late April and repeat in early July. Water lawn area thoroughly after applying.

Divide and transplant daylilies. Cut foliage back in a fan shape, 4 to 6 inches from crown.

Fertilize spring flowering bulbs as they finish blooming with a complete fertilizer or use superphosphate or bone-meal. Do not remove foliage until it dies back to the ground.

Continue blackspot control on roses.

Apply mulch around newly transplanted trees, shrubs, and

vines and renew mulch on established plants.

Prune climbing roses as soon as they finish flowering. Cut out old canes and head back new canes to encourage new growth from base.

Look around the home landscape. If any plants are so badly damaged by the January freeze that they appear to be dead or in very poor condition, consider replacing them with healthy container grown or ball-and-burlapped nursery stock.

For good flowers on crepe myrtle, apply a complete fertilizer around the root zone at the rate of ½ cup per square yard of area beneath the branch spread.

Late April into Mid-May is pe-can grafting time.

Strive For Quality Hay

High quality hay is hard to come by, whether you produce it or buy it. "Hay quality varies so much because of the many factors involved in making hay," points out County Agricultural Agent Parker.

Fertilization is essential on most Texas soils, he says. Plants grown with adequate fertility will contain more nutrients and more leaves than those grown under low fertility conditions.

The stage of growth when hay is harvested is important, notes Parker. As hay crops advance from vegetative to reproductive stages, they become progres-

sively lower in protein content and in appeal. Stems increase and there are fewer leaves and digestible components."

Hay quality also depends on the type of plants from which it is made. Legume hay, such as alfalfa, is generally higher in proteins and minerals than grass hay. But grass hay can be considerably above average condition, says the agent.

For instance, weed controls help. Weeds decrease hay quality by adding objectionable tastes and odors and reducing acceptability.

Growing conditions also influence hay quality. Hay grown during a drouth may be stunted and less leafy than that grown with adequate moisture. Excessive moisture, on the other hand, can produce leaf disease and thereby reduce the

crop's leafiness. Equally important to hay quality are curing conditions, according to the agent. If hay is allowed to dry or "cure" in the field, rains and sunlight of ten reduce quality.

Excess drying in the field before the hay is raked into windrows causes a loss of many brittle leaves in the raking operation. Ideally, the stems should be crushed or conditioned at mowing time. This permits rapid drying and eliminates raking—an operation which often shatters many leaves and mixes dust with the hay.

"Hay baled and stored before properly dried will likely develop a musty, moldy odor," adds Parker. "And molds creating the odor may be toxic to animals feeding on the forage."

...about your SOCIAL SECURITY

"When a person becomes disabled, he should immediately get in touch with the nearest social security office or representative," according to J. M. Talbot, social security manager. Mr. Talbot said that a disabled worker cannot receive benefits for the first six months; however, by filling the application early, the claim can be processed and payment made on time.

Monthly social security benefits are payable to workers when they become too disabled to do any substantial work, and the condition is expected to last at least 12 months. Monthly payments may also be made to

children under age 18 and to those age 18 to 22 who are full-time students. Also, a worker's wife may qualify for benefits.

Applications may be filed as soon after becoming disabled as you wish. "The quicker the application is filed and evidence

submitted to support your claim the quicker the determination can be made," Mr. Talbot said.

Former Resident Gets Unique Birthday Greeting

Mrs. Wayne D. Wilson of Irving, a former resident of Winters, received a unique birthday greeting on her birthday March 29. Instead of the usual birthday card, the birthday greeting was painted on the front side of her home, and a picture of the birthday greeting was printed in the local paper.

Painted across the front of Mrs. Wilson's home was the announcement: "Life begins at 40! Happy Birthday, Dru!"

Mr. and Mrs. Wilson are former residents of Winters. He is the son of Mr. and Mrs. Bill Wilson of Winters.

Wingate Joint 4-H Club Met Recently

The Wingate Joint 4-H Club met recently in the Wingate School cafeteria, with the president, Dianne Baize, presiding.

Vickie O'Dell presented her method demonstration on public speaking for the local club.

Frank K. Antilley presented a program on gun safety.

Refreshments were served to 23 members and 14 adults.

IN SCOTT HOME

Visitors in the home of Mr. and Mrs. G. W. Scott over the weekend were their children, Mr. and Mrs. Winford Hogan, Mark, Mike, Melvin and Mason of Clyde, Mr. and Mrs. Max Tidman, Karen and Greg of Houston, Mr. and Mrs. Sam Scott, Jodie and Codie of Al-nine.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Clarence Young of San Angelo announce the birth of a daughter, Jonna Annett, born March 20. The baby weighed 6 pounds, 4 ounces. Grandparents are Mrs. Annett Heathcott of Winters, Johnny Weems of Winters, Mr. and Mrs. Fred C. Young of Winters. Great-grandparents are Mr. and Mrs. Robert Kraatz Sr. of Winters and Mrs. Minnie Weems of Winsboro.

* MOVIES *

"Corky" is MGM's racing drama of a young stock car driver who risks his life to make it big in the roaring action world of the dirt tracks.

Robert Blake stars as the hard-living, fast-driving 'Corky,' with Charlotte Rampling, Patrick O'Neal and Christopher Connelly co-starring. Blake is best remembered for his chilling "In Cold Blood" portrayal.

International race stars Bobby and Donnie Allison, Buddy Baker, Richard Petty, Cale Yarborough, Mario Rossi and Glen Wood appear as themselves in the film.

Exciting racing scenes and a demolition derby highlight the action of the film. Music which includes "Boy, Would I Be Looking Good" was written and sung by Larry Murray, "Softly and Tenderly" written and sung by James Hendricks, and "Lookin' Good" written by Jeff Barry and sung by Michael Reed.

Filmed on location in Texas and Georgia, "Corky" was produced by Bruce Geller, creator and executive producer of the popular "Mission: Impossible" series, and directed by Leonard Horn. The Eugene Price screenplay was photographed in Panavision and Metrocolor, with Robert Freiden and Ronald Goldman as associate producers.

Do I Hear Glad Tidings?

STATE Capital NEWS

By BILL BOYKIN

Austin, Texas—State lawmakers polished off billboards control and primary election finance legislation in a three-day special session—and added far-reaching procedural reform rules for good measure.

They will be back to work in June on budget and tax matters. In their "mini-session," the legislators — many anxious to get back to the campaign trails — logged these accomplishments: —They provided for emergency state financing of the May and June primary elections and set aside \$2 million to pay the bills. Another long-term primary finance measure will be necessary next year.

—They moved to meet federal highway beautification requirements by outlawing billboards within 660 feet of major highways and providing for screening of junkyards. The measure will cost the state about \$5 million a year in condemnation costs for five years. But it will

prevent a \$24 million loss of federal highway construction funds for non-compliance with regulations.

—Both House and Senate adopted joint rules including sharp limitations on powers of conference committees to write new legislation matters without majority permission.

—The House also accepted rules installing a limited seniority system for committee assignments, reducing the number of committees from 46 to 25 and providing for electronic recording of House and committee proceedings.

—Legislators also made Texas as the eighth state to ratify a proposed federal constitutional amendment guaranteeing equal legal rights for women.

Highlight of the opening day was election of Rep. Rayford Price, 35, of Palestine as new speaker of the house. Price won 77-65 over Rep. L. DeWitt Male of Corpus Christi. He succeeds Rep. Gus Mutscher of Brenham who resigned after his conviction for bribery conspiracy.

ALLOWABLE ADJUSTED Texas Railroad Commission decided to hold the oil allowance for the big East Texas Field to 66 per cent during April instead of the 100 per cent fixed for the rest of the state.

An increase for the East Texas Field was postponed pending completion of a study.

Chairman Byron Tunnell said the nation has "far too much at stake" in East Texas "to risk reservoir damage through excessive production rates."

For the first time since 1948, the Commission fixed a 100 per cent production factor for this month.

COURTS SPEAK Major sections of Texas vacancy laws were held unconstitutional by the State Court of Criminal Appeals which said the act makes it a crime to be unemployed or poor.

Texas Supreme Court declined to order two aspiring candidates' names placed on the May primary ballots. One failed to post a filing fee or petition of candidacy. Another was refused a ballot position because he was already a member of a utility district board.

The High Court set for May 10 a hearing on an appeal involving the City of Amarillo's power to tax a Masons' Lodge building and three lots owned by the order.

AG OPINIONS Texas Air Control Board can pay court costs in civil penalty pollution-control suits from its operating expense fund, Attorney Gen. Crawford C. Martin held.

In other recent opinions, Martin concluded: —It is unlawful to hunt deer with dogs in Shelby County. —Texas National Guardsmen from other states are eligible for resident student tuition status in state-supported colleges and universities. —A person who holds a voter registration certificate is eligible for a junior college district trustee office if he lives in the dis-

trict. —A criminal conviction for traffic violations would not qualify as a "hearing" subjecting a person to requirements of the Texas Motor Vehicle Safety-Responsibility Act.

—The legislature cannot appropriate funds to pay primary election expenses incurred by local political parties in the past.

INSURANCE HEARING PUT OFF A scheduled March 29 hearing by the State Insurance Board on a proposed increase in home insurance was indefinitely postponed amid talk of compromise.

Board Chairman Larry Teaver sought a year's delay in applying a rating factor providing for rate additions due to inflation and rising construction costs. He had been out-voted by two other Board members on postponing uses of the inflation factor.

"The Board is taking a thorough look at all of the factors involved with rating and working toward solutions to complex and complicated problems that arise when considering rate adjustments," Teaver said.

Teaver contended the Board's refusal earlier to suspend the inflation trend factor would cost Texans an additional \$27 million in premiums next year, when a \$14 million reduction could have been made under his own recommendations.

TRAFFIC TOLL REVEALED A total of 3,594 persons died in Texas motor vehicle accidents during 1971, according to Texas Department of Public Safety tabulations.

DPS Director Col. Wilson E. Speir said the death toll represents a one per cent increase over 1970, when 3560 died on the streets and highways.

Speir noted that vehicle miles driven increased from 68 billion in 1970 to more than 70.7 billion for 1971—a four per cent rise in driving. At the same time, the number of licensed Texas drivers rose by nearly 324,000 to a total of almost seven million.

The death rate per 100 million miles of travel actually decreased three per cent from 5.2 in 1970 to 5.1 in 1971. Speir said. The death rate in 1968 was 6.2. Of the 3,594 deaths in 1971, 2,184 occurred on rural roadways and 1,410 in urban areas. There were 2,993 fatal accidents and 394,166 accidents last year. Speeding and driving while intoxicated were listed as primary violations in fatal mishaps.

EVENTS CALENDAR PUBLISHED Texas Highway Department lists nearly 950 "happenings" in its Calendar of Events from April 1 to September 30.

Old and new events include the 104th Washington County Fair in Brenham, the First Annual Howdy-Roo Festival at Marble Falls and the First Annual State Arts and Crafts Fair at Kerrville.

Tourist's bureaus of the Highway Department reported that many of the 1.36 million tourists who stopped for services in 1971 requested information on events. Among new listings are the First Statewide Folklife Festival at

the Institute of Texan Cultures in San Antonio; the annual slingshot championships at Carrizo Springs; the state frog-jumping contest at Refugio and the Spring-Ho Festival at Lampasas.

FIRE ANT ON RAMPAGE Imported fire ants are migrating from East Texas west to the Dallas-Fort Worth area and South as far as Corpus Christi, warns State Agriculture Commissioner John C. White.

The fire ant is now found in 55 Texas counties and infests 16 million acres, White reported. White said future of the only bait used to control the ants—Mirex—is pending before the Environmental Protection Agency.

The Agriculture Department now distributes the bait to designated officers in infested areas.

SHORT SNORTS Comptroller Robert S. Calvert estimates \$711.1 million in general revenue will be available for certification toward 1973 budgeting.

Texas Air Control Board will have air sampling personnel on duty for the next several months in the area of the American Smelting and Refining Company's Amarillo plant.

Texas Civil Liberties Union filed suit to knock out the one year-six months state-local residency requirements for voting.

The Federal Pay Board authorized retroactive per diem allowances for state employees from September 1 to November 14, 1971.

Sen. Barbara Jordan of Houston is new state senator president pro tempore—the first black woman in the U. S. chosen to such a post.

State and local task forces are helping veterans find jobs.

People Receiving SS Checks Should Keep No. Record

People collecting monthly social security checks should always keep a record of their claim number, according to J. M. Talbot, social security manager. "With almost 27 million social security beneficiaries—some of them with the same names—the claim number is important because it immediately identifies an individual record," Mr. Talbot said.

The claim number is not always the social security number of the person getting monthly payments, Mr. Talbot said. "It's actually the social security number of the worker on whose record the beneficiary is collecting checks," he said.

THE WINTERS ENTERPRISE

Winters, Texas
Page 4
Friday, April 7, 1972

"The claim number has 9 digits followed by one or two letters, such as A, B, C, or HA." The claim number appears on monthly checks, Medicare cards and on most correspondence from the Social Security Administration that involves the claim, he said.

People should use the claim number whenever they write a letter about their claim and should have the number handy if they call or visit a social security office. "The claim number assures prompt and accurate action for the beneficiary," Mr. Talbot said.

WASHINGTON

"As it looks from here"

OMAR BURLESON

Congressman
17th District

Washington, D. C. — After three days of debate the U. S. House of Representatives last week passed a Bill on environmental protection with a price tag of \$24.6 billion. Knowledgeable estimates indicate that the cost will soar to \$35 billion before provisions are fully implemented.

The environmental Protection Agency, created to administer the program already has over \$2 billion appropriated to it and has yet to really get off the ground. To use these sums of money they will have to spend as if it were going out of style.

Of course everyone is for cleaning up and preserving our environment. The effort should have been started in an orderly way long ago but since present conditions didn't get that way overnight, corrections and remedies can't be made to work overnight either.

The experts have yet to agree on the many approaches to curing the problem. Wide disagreement exists on what pollutes our air and water and about what should be done. For instance, not long ago certain phosphate detergents were blamed and condemned. A few weeks later other experts said not so.

Another example is the emissions from leaded gasoline. Last year the Administration proposed a \$4.00 per pound tax on lead to eliminate its use for octane support in gasoline. Something called aromatics was to take the place of lead to maintain the octane level until automobile engines can be built to run efficiently on low octane fuel. This was supported by a group of "experts," but another group of seemingly qualified scientists came along and found, after research and testing, that aromatics are more polluting than lead.

The goals for a clean and wholesome surrounding are indeed laudable. Conditions in some places in the country are deplorable and to some degree or other threaten human and animal life. There should be both scientific and common sense efforts at eliminating these useless hazards. It can be done without squandering billions of dollars and doing needless injury to property and industry. Money alone is not going to clean up our surroundings.

While inflation continues to eat away at the economy, some things being proposed can have no other effect than increase the price of things to pay for costs of meeting required standards. Just as safety requirements for automobiles, some of which have dubious value, run up the price, so will some of the demands on industry increase costs of many products we all have to buy.

The annual budget of the Federal Government has committed to it 72 percent in uncontrolled costs. In other words, the Congress has discretion over only approximately 28 percent of total expenditures. One of the best examples of fixed spending is the \$22 billion interest on the public debt. And so on and on the Legislative Branch has abdicated its responsibility over the purse strings. Our friend Congressman George Mahon, Chairman of the Appropriations Committee, agrees that those of us who claim fiscal responsibility can protect our credibility only by opposing the procedures followed in the measure passed last week. It further adds to spending over which the Congress has no control.

The bill as passed does not

New "Superbass" Females Arrive

Jasper — A second start on a program to breed a "superbass" for Texas waters is underway with the arrival of 51 more female Florida largemouth bass at the State Fish Hatchery here.

The fish, averaging 4 pounds each and including a 7½ pounder, were brought in a 500-gallon tank truck on a 24-hour non-stop trip from Leesburg, Fla., and placed in the hatchery ponds last Friday (Feb. 18). The newcomers supplant 21 Florida bass which were flown here a month ago but later developed bacterial infections.

"These fish are all in excellent shape," said Region III Fisheries Chief Bob Kemp of the Texas Parks and Wildlife Department. "No parasites, no scratches." Forty definitely identified as egg-laden females have been placed in a separate pond pending the arrival of Texas northern largemouth males from lunker-famed Lake Murvel in East Texas. The remaining 11 new transplants are thought to be males but could include some spent females which may have already spawned in Florida, said Kemp.

permit a year-to-year appropriation, as is the case in most all other programs. There is no annual review of whether the program is working or whether it needs more or less money. A lump sum of \$24.6 billion is provided for a three year period with little or no control by the Congress which is responsible for these purse strings of this Nation. With a public debt of \$423 billion; a \$23 billion red ink balance last year; a prospect of at least \$26 billion minus for the coming year, this sum is added in sort of a panic atmosphere because to oppose any part of it is inviting condemnation by those who say if you are not for galloping full speed ahead, and in the dark in many aspects, you are not for a healthy environment.

It is easy to spook and stamper under these circumstances and that is apparently what happened last week—the vote 380 for, 14 against.

LIKE IT WAS

"Let's go out and swing a few just for practice!"

VISITORS HERE

Visiting in the Roy Rice and Elwood Wade homes during the weekend were David Bird of San Angelo, Mr. and Mrs. Don Duke, Mike and Teresa, Ronald Berg, Delford and Dexton Shores of Zapata.

DISCHARGED

Spec. 4 Donald Gene Watts, son of Mr. and Mrs. Woodrow Watts, has received his discharge from the U. S. Army, and has been visiting in the home of his parents in Winters. He served 13 months with the Army in Berlin, West Germany.

HEALTH FOR ALL

TB Among The Primates

TB outbreaks can happen in the strangest places.

At a Tennessee zoo recently a female rhesus monkey, who had been nursing her young infant, died. Tests later showed the mother monkey had had TB. Other tests showed TB had spread to five more primates, including a ringtail monkey who died while being tranquilized for an eyelid tuberculin test.

TB testing of zoo personnel showed that four had positive reactions to tuberculin tests, which indicated that TB germs were in their bodies. X-rays showed no lung damage though. One of the zoo workers who had a negative reaction to the tuberculin tests, however, had a positive reaction when he was re-tested months later. It can take from two to ten weeks after the infection before a positive reaction shows. TB germs can also lie low in the body and then become activated when the body's defenses are down.

As a result of the episode—which was reported by Dr. Luther Fredrickson at the Midwest Interprofessional Seminar on Diseases Common to Animals and Man—both animals and personnel at the zoo will be

tested for TB two or three times a year. And a glass partition has been placed between the primates and the public.

If either animals or people have live TB germs in their sputum, they can spread the disease just by coughing or sneezing. And anyone—monkey or man—may have active disease with no symptoms at all.

Some of the common symptoms of TB—when there are any—are coughing a lot, feeling tired all the time, spitting blood and losing weight. Any one or all of the symptoms can mean TB.

To find out more about TB and what can be done to prevent outbreaks, contact your local tuberculosis and respiratory disease association. It's a matter of life and breath.

Since 1945 the American Cancer Society has spent more than \$250-million to support cancer research. Many gains have been made. There are still many leads to follow. "We want to wipe out cancer in your lifetime. Your dollars will help," the ACS says.

Every year cancer kills about 22,000 Americans between 15 and 44 years of age. Give to the American Cancer Society and help reduce the toll.

Make Sure of Your Needs Before Choosing a Boat

Austin—Getting ready to buy a boat? It's a good idea for potential boat buyers to determine their needs carefully before plunking down hard cash for a boat-motor combination. And safety should be a prime consideration.

One step in the right direction is to first determine the activities for which the boat will be used, according to the Texas Parks and Wildlife Department. Boats of different designs will be best suited for different activities such as fishing, family cruising, skiing, beach picnics, skin diving, photography or racing. A combination of these activities might dictate a compromise selection.

Equally important is the size of the water body on which the boat will be used. Fresh or salt water, large open bays or lakes or shallow sheltered rivers are factors which should be considered when selecting boat design and size.

Powering the boat is another important consideration. Underpowering as well as overpowering your new boat can be dangerous. Do not exceed the manufacturer's power recommendation.

THE WINTERS ENTERPRISE

Winters, Texas
Page 5
Friday, April 7, 1972

How fast is fast on the water? To avoid monotony on long runs and to negotiate strong tides or currents, 15 miles per hour is sufficient. To tow a water skier, speeds of 20 to 25 miles per hour are ample, and 30 miles per hour is exhilarating.

Speeds of more than 30 miles per hour on other than very smooth water are likely to be uncomfortable as well as dangerous.

The Pap test helped cut the death rate from uterine cancer in half in 30 years. Help spur research on other tests for the early detection of cancer. Give generously to the American Cancer Society.

"We want to wipe out cancer in your lifetime," says the American Cancer Society. The dollars you give to the ACS can help accomplish this.

The researchers are making new inroads constantly in the battle to control cancer. Help support their work. Give to the American Cancer Society.

BUSINESS and the STOCK MARKET

by BABSON'S REPORTS INC.

Copyright 1971

THE SILVER SITUATION

Wellesley Hills, Mass.—Silver prices moved off during 1971 contrary to many forecasts, and by early November the price had fallen to 128.8c per troy ounce, the lowest level since 1963. The drop in quotes occurred in spite of the fact that weekly silver sales by the General Services Administration were ended on November 10, 1970.

LOWER CONSUMPTION

According to Handy & Harman's annual review of the silver market, industrial consumption of the precious metal in the U. S. last year moved off about 4 percent from the revised 1970 figure. The major categories registering losses were photography, brazing alloys, and jewelry. The photography business still ranked first in silver consumption but accounted for only 35 million ounces last year or 28 percent of the total, vs. 38 million ounces or 29 percent in 1970. The electrical and electronic category ranked second, accounting for 33 million ounces or 26 percent of the 1971 total as against 32 million ounces or 24 percent of the total in 1970. World consumption of silver (for industrial and coinage uses) dip-

ped less than 1 percent last year from the 1970 level.

PRODUCTION-CONSUMPTION GAP

New production of silver last year (excluding Communist-dominated areas) receded to 239.7 million ounces from 251.1 million the previous year. Thus, the production-consumption gap in 1971 amounted to 136.8 million ounces. This gap was filled from other sources of supply, including demonetized coins, reduction of speculative holdings and inventories, silver from India and Pakistan, and salvage and miscellaneous sources. Handy & Harman estimated that total silver and bullion holdings by speculators and investors on December 31, 1971 amounted to 350 - 400 million ounces, a decline of about 60 million ounces from levels of the previous year.

FIRMER PRICE TREND

After reaching a yearly low of 128.8c in November of last year, prices in the N. Y. market displayed a firming trend toward year end which carried over into the early part of '72. The rebound occurred just as the price of silver was approaching the 125.0c-per-ounce level at which price the Treasury is required to buy the newly mined domestic metal under the provisions of the Coinage Act of 1965. Aside from technical considerations, the firmer price trend reflected the jittery inter-

national monetary situation and the introduction of legislation which would permit the Treasury to purchase silver at prices higher than the 125.0c-per-ounce mark.

FAVORABLE LONG-TERM OUTLOOK

The Research Department of Babson's Reports feels that the price of silver will trend somewhat higher during the current year. Barring further upheavals in the international monetary situation, however, the price rise will probably be moderate. While industrial demand for silver should increase as the economy gathers momentum, there appears to be enough supplies to keep prices from running away on the upside over the near term. The longer-term outlook is brighter.

Aside from monetary factors, the important consideration over the long term will be the production-consumption gap. Unless there are great technological strides which permit the substitution of other materials, silver prices should move considerably higher at some point

over the longer term. Once prices are headed definitely higher, we expect some supplies will be withheld from the market in anticipation of a move toward still more advanced quotes. This process could feed on itself, pushing prices well above present levels.

At this time, the Babson's Reports Research Department recommends purchase of Hecla Mining common stock for investors interested in silver. Hecla is the leading demtic silver producer and normally derives about half of net income from this source.

STOCK SPLIT POSSIBILITIES FOR 1972

Wellesley Hills, Mass.—Overall stock market conditions this year should be better than those of 1971 and corporate earnings, in general, should be considerably improved. As a consequence we anticipate that there will be an increased number of companies that will decide to split their stock or pay a substantial stock dividend.

Actually the peak of stock

split activity occurred during the 1968-1969 period when stocks were booming. In 1970, however, in line with the plummeting market only a relatively few companies—the lowest in a decade—took any action regarding a stock split. But last year the tempo picked up considerably, especially in the final quarter. A continuation of this trend is looked for in the coming months.

NEW FACTOR

This year an increased incentive for many companies to split their stock may be the voluntary restriction on dividend increases set forth under the Phase 2 controls. As long as dividend increases are limited to 4 per cent, many managements may be urged to split the stock so as to sweeten the pot for stockholders. A split by itself, of course, does not mean higher income to holders—but usually a split is accompanied by an increase in the cash payout. Also a stock usually acts favorably price-wise when a split is proposed.

WHAT'S THE PURPOSE?

The chief reasons behind a corporate decision to split the firm's stock are to widen the number of shares available and to lower the market price of such shares. Both factors are aimed at improving the marketability of a company's stock to bring about a broader ownership base. As a rule the smaller investor tends to shun higher priced issues since he often is unable to buy round lots (100, 200, shares, etc.) and is unwilling to buy odd lots because of the cost differential. A stock split can eliminate this hurdle and allow a larger number of investors to participate in company ownership.

LOGICAL CANDIDATES

For many years the most popular price level for stocks appears to have been between \$25 and \$50 per share. In this range more investors have purchased large blocks of shares than at higher prices. Thus, good grade issues selling in the area of \$50 to \$100 are usually viewed as logical split candidates. Naturally, there have al-

Connie Peacock, Lanny Bahlman, Will Be Married May 27th

Mr. and Mrs. Gene Peacock of Dallas announce the engagement and approaching marriage of their daughter, Connie, to Mr. Lanny Bahlman, of Winters.

Mr. Bahlman is the son of Mr. and Mrs. J. W. Bahlman of Winters.

The wedding ceremony will be held in the Farmers Branch Church of Christ at Farmers Branch.

Miss Peacock is a 1972 graduate of R. L. Turner High in Dallas.

The prospective bridegroom is a 1968 graduate of Winters High School, and will graduate from the University of Texas this summer.

split their stock or announced plans to do so. Among them are American Express, Minnesota Mining, Ryder System, Florida Power and Light, Melville Shoe and Whirlpool Corp.

So far this year several important companies have already

Like to Las Vegas or Mexico City.

All you have to do for a chance to win is register at any office of First Savings & Loan Association of San Angelo. If you're the winner, you get your choice — Las Vegas or Mexico City.

You may choose five days and four nights in the fabulous capitol of Mexico. Visit the famous "Floating Gardens" and the Pyramids. Sample the night life in one of the world's most cosmopolitan cities.

Or for a shorter trip, take three glorious days and two glittering nights in Las Vegas. Top entertainment, gourmet dining and a world of fun facilities enforce Las Vegas' claim to be the most exciting resort city in America.

Both trips include air fare from San Angelo to destination and back, transfers, first class hotel accommodations and \$100 in spending money. Registration ends April 10, 1972 and drawing will be held April 12.

There's nothing to buy — you don't have to open an account. Just drop by and register. We still want to get to know you better.

And remember — at First Savings, savings in by the 10th of the month earn from the 1st.

Mrs. V. L. Coffman Died Friday Morn. In Abilene Hospital

Mrs. Vera L. Coffman, 85, died at 8 a. m. Friday in Hendrick Memorial Hospital in Abilene after an extended illness.

Funeral was at 2:30 p. m. Sunday in Spill Memorial Chapel with the Rev. Melvin Byrd officiating, assisted by the Rev. Harry Grantz, pastor of Winters First Baptist Church.

Burial was in Spill Cemetery under direction of Spill Funeral home.

Born Vera Kirby May 24, 1886, in Osage, she married T. A. Coffman Jan. 8, 1905, at Osage. They moved to the Shep Community in 1910. Mr. Coffman died in 1923.

Mrs. Coffman moved to Runnels County in 1953, making her home in Winters. She was a member of the Winters First Baptist Church.

Survivors include a daughter, Mrs. Howard Hurt of Winters; a son, Syd Coffman of Morton; three grandchildren and eight great-grandchildren; a brother, Carlos Kirby of Osage; and sisters, Mrs. Bertha E. Miller of Waco, Mrs. Jesse Bennett of Oglesby and Mrs. Ada Hackfield of Louisiana.

Pallbearers were Bernice Helm, Arvin Childers, Leck Byrd, Melvin Coffman, Wayne Coffman and Grant Linsley.

Dale Sewing Club Meeting Tuesday

The Dale Sewing Club met recently in the home of Mrs. J. A. Traylor. Quilting was done.

Present were Mesdames Lloyd Compton, Clifton Davis, August Stoeker, Ernest Smith, Marvin Traylor, Carl Baldwin, Verge Fisher, Ralph McWilliams, Clarence Hambricht, Bill Mayo, Reese Jones, I. W. Rogers, E. E. Thormeyer, J. A. Traylor, and Jack Whittenberg. Visitors were Mesdames Buck Smith, Thad Traylor, Dick Bishop, and Rube Whitely.

The next meeting will be April 11 with Mrs. Herbert Jacob.

CREWS

"No mud can soil us like the mud we throw."

NOTICE: All who are interested bring their rakes, etc., to the Crews Cemetery Saturday for a cleanup day, starting at 8 a. m. Joan Tounget of Lubbock spent Friday and Saturday with the Chester McBeths, Irvin Phipps of Dallas visited Saturday.

Mr. and Mrs. Marvin Gerhart Sherri and Scott, spent the day Sunday in Ballinger with Mr. and Mrs. Barney Wright, Jack Wright of Wichita Falls was a visitor.

Clyde Brevard was dismissed from Hendrick Hospital Saturday and is recuperating at home. Mr. and Mrs. Lawton Brevard visited him while he was in the hospital. Other visitors were Mr. and Mrs. Roland Kerby of San Antonio, Mr. and Mrs. H. B. Morrison of San Antonio, Mrs. Brenda Smith of Coleman and many other relatives and friends.

Mrs. Ruby Matthews was dismissed from the Ballinger hospital and is home.

Visiting with the Arthur Allcorns during the week have been Mrs. Opal Summers of Breckenridge and son Melvin of Abilene, Arthur Petri, Clar McKisack, Willie Hale, Mr. and Mrs. Marvin Hale, Mr. and Mrs. Floy Brevard, Mr. and Mrs. Edgar Payne and Phillip of Slaton, and Mr. and Mrs. Robert Henderson.

Mr. and Mrs. M. E. Campbell of Abilene visited the Burley Campbells Sunday. Other visitors were Mrs. Douglas Bryan and Herbert Martin of Brownwood.

Mr. and Mrs. John Sims and girls were weekend guests of the Boyd Grissons and with other relatives.

Mr. and Mrs. Dewitt Bryan, Marsha and Kindra of Wilmeth visited the Douglas Bryans Saturday night.

Mr. and Mrs. Allen Bishop and son Paul, Miss Mary Bishop, Mrs. Ethel Bishop attended an Easter festival at Fredericksburg and also visited with the Bill Ivey family.

Visiting the Owen Braegs during the weekend were Mr. and Mrs. Tommy Moss and Mindy of Stevenville, Mr. and Mrs. Glen Bragg, David and Shirley of Hondo. Larry Bragg spent the holiday week. Other visitors were Mr. and Mrs. Harold Bragg, Mike and Joyce and Vernon Bragg.

Easter dinner guests of Mr. and Mrs. Coleman Foreman were Mr. and Mrs. O. Z. Foreman, Mr. and Mrs. Varnell Johnson, Diana and Clinton of Denton. The Coleman Foremans were in Lubbock Monday and visited with the J. W. Chessers.

Mr. and Mrs. Ronald Hill and girls were Easter guests of the Robert Hills.

Mr. and Mrs. Enoch Johnson and John accompanied Mrs. Cora Petrie to Coleman to attend services at the United Methodist Church.

Easter holiday visitors in the Odie Matthews home were Mr. and Mrs. A. E. Matthews and family, Mr. and Mrs. Gary Matthews and daughter, Mr. and Mrs. L. A. Bennett and Joe of Eastland. Jeff and Patsy of Odessa, Nettie McMillan, Mrs. Ruby Matthews, Margie and Marilyn of Cisco Junior College.

Visiting the L. C. Fullers during the week were Mr. and Mrs. Authur Allcorn, Mr. and Mrs. Walter Jacob, Mr. and Mrs. O. C. Fuller, Mr. and Mrs. Johnny Mathis and Mack of Big Spring. Mr. and Mrs. John May of Coleman, Arthur Bates, Marion Wood, Arthur Fuller of San Angelo, Mrs. Opal Summers and son Melvin of Abilene and Mrs. W. F. Worthington of California.

Mr. and Mrs. L. T. McBernie and Diana of Wichita Falls, and David Bridger and grandson were weekend guests of the L. M. Causeys.

Mr. and Mrs. Raymond Kurtz were Easter dinner guests of the R. C. Kurtz family. Other guests were Mr. and Mrs. Richard Sauer and son of Roscoe, Mr. and Mrs. Walter Gerhart, Mr. and Mrs. Fritz Deike, Mr. and Mrs. Mikael Deike of San Antonio, Mr. and Mrs. Donnie Oakes, Mr. and Mrs. Bill Villers, Jimmy and Peggy of San Angelo, Mr. and Mrs. Fritz Minzenmayer and Gilbert, Mr. and Mrs. Jerry Barnhard of San Angelo, F. O. Deike and son Frank William, Herman Andrae, Mrs. O. K. Paschal, Mrs. Olva Minzenmayer.

Rhanea Hoppe spent Easter week at home with her family, the Calvin Hoppes. Mrs. Gus Gerhart also visited.

Easter dinner guests of the Noble Faubion were Mr. and Mrs. Jerry Krantz and boys of Garland, Mr. and Mrs. Rodney Faubion, Mr. and Mrs. L. A. Faubion of Ballinger, W. C. Pope, Mrs. Beatrice Dye of Garland, Mr. and Mrs. Carl Faubion of Coleman were afternoon guests, and Mike Boatright of Pecos visited Monday.

In the Marion Wood home over the weekend were Mr. and Mrs.

Mr., Mrs. Neely Honored At Dinner Tuesday Evening

Officers and directors of The Winters State Bank hosted a dinner last Tuesday honoring Mrs. and Mrs. Gattis Neely, at the home of Mr. and Mrs. Woodrow Watts.

The tables were decorated with greenery and rosy red apples with "Neely" written across the head table in large red letters.

Those attending were Messrs. and Mesdames T. A. Smith, W. F. Minzenmayer, Audra L. Mitchell, Kirby Robinson, Raymond Lloyd, Fred Young, Truett Smith, Woodrow F. Watts, Mr. John Norman, Miss Estella Bredemeyer and Mr. Lee Harrison.

Don Mincey and Darla of Big Spring, Mr. and Mrs. Marloy Bryant and boys of Abilene, Nettie McMillan of Midland, Mr. and Mrs. Arnold Matthews and family.

Mr. and Mrs. Louis Deitz and family of Wichita, Kans., are guests in the Hazel Deitz home. Judy and Jim Chapman were Sunday guests.

Mrs. Lowell Fuller and Amy of Midland and Willie Hale of Ballinger visited in the Marvin Hale home.

Produce carloads of sorghum with NK 265

STRESS PROVEN

HERBERT JACOB
ROUTE 2 WINTERS, TEXAS — PHONE (915) 754-4312

NK 265 has excellent smut resistance and growers report good salt tolerance. Roots develop fast to make full use of moisture. Excellent harvestability with high test weights.

Chemical tolerance. NK 265 is tolerant to methyl parathion. When leaves of other hybrids turn red this superstar is still dark green and productive.

SPILL BROS. CO.

Mary Jo White, David Allen Tucker Will Be Married At Carswell June 24

Mr. and Mrs. Wade W. White announce the engagement and approaching marriage of their daughter, Mary Jo, to Mr. David Allen Tucker, of Fairfield, Ala.

The prospective bridegroom is the son of Mr. and Mrs. Carl C. Tucker of Fairfield, Ala.

The wedding has been planned for June 24, and will be held in the Chapel at Carswell Air Force Base, Fort Worth.

Miss White is a graduate of Winters High School, and attended McMurry College and Ranger Junior College. She presently is employed in Fort Worth.

Mr. Tucker is a graduate of Fairfield High School, served in the U. S. Air Force four years, attended Inter-American University in Puerto Rico, and is attending Jefferson State Junior College in Alabama.

A marvelous lake that fishermen can really enjoy is Lake Livingston. It's that beautiful body of water in Southeast Texas, between Huntsville and Livingston. It was built by the Trinity River Authority and the City of Houston a few years ago and is now full to overflowing.

Thousands of bass, crappie and catfish were planted in this new impoundment. Some of the bass now are of jumbo size.

Lake Livingston is located in a fertile area, where much of the brush has been left standing. Water runoff has been sufficient to provide a great deal of nutrition and frogs and crayfish are plentiful. All this adds to the food supply of the fish—which means quicker growth.

Lake Livingston, like all the other recently built East Texas lakes, has a great deal of brush. Engineers removed brush only in the main channel, which might some day be used for barge traffic on the Trinity River. In fact, Lake Livingston dam is the first to be built on that stream to provide for locks in anticipation of the river becoming navigable in the years ahead.

A good portion of the land adjacent to the lake is in private ownership. Unfortunately public access was not provided by the builders, although numerous

recreational areas had been projected. But as soon as the lake was formed, land prices got out of range. Later, however, private developers began to move in and there still may be enough good sites left for recreational purposes.

Also, there is a large island in the lower end of the lake being developed for recreation and recreational housing. Already numerous mobile home sites have been constructed.

Both Livingston and Huntsville have ample motel accommodations only a few miles from the lake. There are numerous places where bank fishing is convenient. Also several good launching ramps are available to those who trailer in their boats.

Physically, Lake Livingston is about three-fourths the size of Sam Rayburn Lake, which is but a few miles away. Characteristics of Lake Livingston are similar to Rayburn... lots of adjacent timberland and big stands of pine and hardwood.

So far Lake Livingston has been free of pollution, despite the fact that two big metropolitan cities are located upstream on the Trinity River. Perhaps with the present drive against pollution, Lake Livingston waters may be kept clean. What will happen when and if the

...about your SOCIAL SECURITY

"It's really not true," according to J. M. Talbot, social security manager. "Many people only think of social security as something to retire on and this just isn't true."

In this area alone, many people under age 62 are receiving monthly social security benefits. There are 1890 disability beneficiaries in this area alone, and 385 students between 18 and 22 are receiving social security benefits every month. As you can see, the chances of getting social security before retiring are pretty good.

Recently, young workers and their families have questioned the amount of FICA taxes they pay because they think of the social security program as a retirement program alone. When you consider that disability payments can be made to workers at any age if they become disabled, you can see that the program can mean benefits before retirement. Survivors' benefits for young widows with children can be made as well as payments to the aged widow. The social security program serves people of all ages.

For more information, contact the Social Security Office at 3000 West Harris Avenue (P. O. Box 3808) in San Angelo, or see the representative when he is in your area. Persons who are unable to meet with him are encouraged to call the office in San Angelo. Residents may call toll free by dialing "Operator" and asking for "Enterprise 2058."

Trees Considered Anti-Pollution Devices—Foxworth

"The next time you pass a group of young trees, you ought to salute with awe and respect," says Jack Foxworth, President of Foxworth-Galbraith Lumber Company. "Those trees are our most efficient users of energy and our best deterrent to air pollution."

Foxworth, who is also President of the Lumbermen's Association of Texas, gives these additional facts about trees. "As an anti-pollution device, an average acre of growing young trees in a commercial forest consumes 5 to 6 tons of carbon dioxide a year, gives off 4 tons of fresh oxygen, and produces 4 tons of new wood. That's better than anything man has come up with so far."

"Further," says Foxworth, "Nearly half of all living organic material is in the world's forests and they are the basic underpinning of the world's food. As an air conditioner, a young healthy tree not only purifies the air but has a net cooling effect of 10 room sized air conditioners operating 20 hours a day. Air may be as much as 20 degrees cooler under a canopy of trees."

"Nature has kept the forest restoring process going and man merely modifies the process to his advantage by controlling fire, by removing trees infested with insects and by harvesting mature trees," Foxworth concludes with a final salute to trees. "In addition to all the functions mentioned, there are the important environmental benefits of wildlife habitat, watershed and erosion control and the recreational use and scenic values." Foxworth-Galbraith Lumber Company has long supported forestry conservation and wise use of wood materials. The April sale going on at 32 stores in Texas and New Mexico is a contemporary display of wood end products for man's continuing efforts to better house himself and his family. "This is our 71st Anniversary," says Jack Foxworth, "and we hope the community around our local stores will visit us and see the many modern building materials and home items that are available."

IN CASEY HOME

Visitors in the home of Mr. and Mrs. O. H. Casey during the Easter weekend were their children and others, Mr. and Mrs. David Casey and family of Hamlin; Mr. and Mrs. Jack Wood of Fort Worth; Mr. and Mrs. A. G. Hagar of Odessa; Mr. and Mrs. Tommy Hanes of Odessa; Mr. and Mrs. Robert Smith of Abilene; Don Casey and family of Houston; Mrs. Russell and Mrs. Fairy of Winters; Mr. and Mrs. Leroy Kraatz of Abilene; and Herbie Russell of Arlington.

stream is made navigable is another question.

Information on the lake may be obtained by writing either the Livingston or the Huntsville Chamber of Commerce... or to the newspapers—the Enterprise at Livingston or the Item at Huntsville.

If you want a big weekend of fishing, give serious thought to this fine new body of water.

Industries--

(Continued from page 1)

Texas. A fleet of trucks designed especially for bulk livestock feed cover thousands of miles weekly to serve hundreds of stockmen in the area, in addition to other type trucks which haul bagged feed and other products.

The constantly-growing livestock feed manufacturing company represents a good outlet for locally-grown grain.

Alderman said that during '71, the company spent approximately \$4 million for basic agriculture commodities, much of it for bulk feed grains and supplements.

The company employs from 50 to 70 people, depending on the season, and during 1971 spent \$688,000 primarily locally for operating expenses.

In addition to milling and distribution of livestock feeds, and as grain buyers, Alderman-Cave also operates a retail outlet for specialized livestock feed and supplements, seed, livestock medications, seed, and farm and ranch supplies.

The company has experienced tremendous building expansion since its beginning here about 10 years ago, and plans for the future call for increased warehouse space for finished products; additional grain storage capacity; and installation of new milling machinery to speed and automate production of the company's bagged products.

WIN-TEX FEEDERS

Considered by most livestock feeding experts to be the most modern type of commercial yard, Win-Tex Cattle Feeders, Inc., of Winters, is now in its second year of operation. The feed yards were opened in December of 1970, and one expansion program was begun and completed just a few months after opening.

Capacity of the yard, built to State and other regulatory agency specifications, is 10,000 head of feeder cattle, and is operating at near capacity at the present time.

Win-Tex employs eight people, and is managed by Mike Odum. The Winters cattle feeding operation is directly responsible for usage of a lot of locally-grown grain sorghum, and provides a local market for feeder cattle.

WINTERS FEED YARDS

Winters Feed Yards, built about 10 years ago, concentrates on pre-conditioning cattle in-

stead of strictly a fattening operation.

Owned and operated by Weldon Minzenmayer, the yard has a capacity of 3500 cattle, and until a few days ago at a "turn-over time, was operating at near capacity. The near-capacity mark is expected to be reached again within a short time, as more cattle are moved in for the pre-conditioning program.

Winters Feed Yards employs four people in its operation.

The company also serves as a commission company for cattle buyers and sellers, in addition to the feedlot operation.
